Talk a Lot

Money

Role Plays

1. “I’m rich beyond my wildest dreams!”

Place: The set of a live television chat show
Time: 4pm
Characters: You and the interviewer
Situation: You and your partner win £2.6 million on the lottery. You are interviewed three times during the year by the same interviewer

Scenes: i) You’ve just won the lottery. How do you feel? How do you think it will change your life? Talk about your home, relationships, work, etc.
ii) Six months later: you have either spent or given away more than half of the money. How has your life changed? What did you buy? Who did you give money to? Why? Are you still working? What are your plans now?
iii) One year later. You have either spent, given away, or otherwise lost all of the money. In fact, you’re now £250,000 in debt! What happened? What is your life like today? How do you see your future?

If there are three people in the group, the third character could be:

- a) *Your partner – your wife/husband, boyfriend/girlfriend, etc.*
- b) *Somebody who has borrowed a lot of money from you*
- c) *Your accountant, called Dave*

2. “I must have it back today!”

Place: A park
Time: 10am
Characters: You and your cousin
Situation: Your cousin borrowed £20 from you two weeks ago to buy credit for their phone. You need it back now because you have to pay for a school trip today. You don’t know that your cousin didn’t buy credit, but was forced to lend the money to your sister. She needed it to buy a surprise birthday cake for your birthday, which is tomorrow. She made your cousin swear to keep the cake a secret...

Scenes: i) Two weeks ago: your cousin asks to borrow the money, and you agree
ii) Today: you need the money back
iii) At your birthday party. You find out about the surprise birthday cake

If there are three people in the group, the third character could be:

- a) *Your sister*
- b) *Somebody working at the bakery*
- c) *An embarrassing relative at your birthday party*

Role Plays

Role Play Extensions

Here are some additional situations for students to use as starting points for new role plays based on the topic of "Money":

----- ✂ -----

Money

1. At the bank: you realise that the cashpoint is giving out free money – an extra £50 every time you withdraw ten pounds! What do you do? Do you keep taking the money and tell your friends to come and join you, or do you find a clerk at the bank and inform them...?
2. You've got a job as a charity worker, standing in the street wearing a bright fluorescent jacket, trying to get passers-by to sign up for monthly direct debits to a big charity. You have to get ten more signatures before tea time. What tactics do you use to persuade people to sign up?

Sentence Blocks

*Note: the last two lines of each sentence block will vary. Below there are examples given for each sentence block, but students should think of their own way to get the negative forms in the last line. See the **Talk a Lot Elementary Handbook** for full instructions (available free from www.englishbanana.com).*

Answers

1. (Present Simple) Debbie is British because she was born in England. / Why is Debbie British? / Because she was born in England. / Is Debbie British because she was born in England? / Yes, she is. / Is Debbie British because she was born on a Thursday? / No, she isn't. Debbie isn't British because she was born on a Thursday.

2. (Present Continuous) My grandparents are heading for Stonehenge this morning, before driving to Bristol in the afternoon. / When are your grandparents heading for Stonehenge? / This morning, before driving to Bristol in the afternoon. / Are your grandparents heading for Stonehenge this morning, before driving to Bristol in the afternoon? / Yes, they are. / Are your grandparents heading for Stonehenge tomorrow? / No, they aren't. My grandparents aren't heading for Stonehenge tomorrow.

3. (Past Simple) In 1996 Kate Coleridge walked from Land's End to John o'Groats, to raise money for her local hospital. / Where did Kate Coleridge walk in 1996, to raise money for her local hospital? / From Land's End to John o'Groats. / Did Kate Coleridge walk from Land's End to John o'Groats in 1996, to raise money for her local hospital? / Yes, she did. / Did Kate Coleridge walk from Clumber Park to Skegness in 1996, to raise money for her local hospital? / No, she didn't. Kate Coleridge didn't walk from Clumber Park to Skegness in 1996, to raise money for her local hospital.

4. (Past Continuous) Stewart was studying Scottish History at Oxford, when he discovered his passion for Gaelic. / When did Stewart discover his passion for Gaelic? / When he was studying Scottish History at Oxford. / Did Stewart discover his passion for Gaelic when he was studying Scottish History at Oxford? / Yes, he did. / Did Stewart discover his passion for Gaelic when he was playing badminton with his friend? / No, he didn't. Stewart didn't discover his passion for Gaelic when he was playing badminton with his friend.

5. (Present Perfect) Barbara's climbed in Snowdonia five times in the past decade. / How many times has Barbara climbed in Snowdonia in the past decade? / Five times. / Has Barbara climbed in Snowdonia five times in the past decade? / Yes, she has. / Has Barbara climbed in Snowdonia six times in the past decade? / No, she hasn't. Barbara hasn't climbed in Snowdonia six times in the past decade.

6. (Modal Verbs) You *have* to see Giant's Causeway before you leave. / What do I have to see before I leave? / Giant's Causeway. / Do I have to see Giant's Causeway before I leave? / Yes, you do. / Do I have to see the new multi-storey car park before I leave? / No, you don't. You don't have to see the new multi-storey car park before you leave.

7. (Future Forms) Chloe's latest exhibition will visit Cardiff in August. / Which exhibition will visit Cardiff in August? / Chloe's latest exhibition will. / Will Chloe's latest exhibition visit Cardiff in August? / Yes, it will. / Will Chloe's first exhibition visit Cardiff in August? / No, it won't. Chloe's first exhibition won't visit Cardiff in August.

8. (First Conditional) If you enjoy sunsets, you'll love the Norfolk Broads at dusk. / What will I love, if I enjoy sunsets? / The Norfolk Broads at dusk. / Will I love the Norfolk Broads at dusk, if I enjoy sunsets? / Yes, you will. / Will I love the view of the power station at dusk, if I enjoy sunsets? / No, you won't. You won't love the view of the power station at dusk, if you enjoy sunsets.

Sentence Block Extensions

For all of the sentence block starting sentences there are at least two different wh- question words that can be used to make sentence blocks. In one case nine different sentence blocks can be made from the same starting sentence when using different wh- question words. There isn't room here to print in full all of the sentence block extensions from this unit. Hopefully, the answers given above will give you the teacher (or you the student) enough guidance to be able to make the sentence block extensions for this unit with confidence.

For example, let's look at the third starting sentence from this unit:

In 1996 Kate Coleridge walked from Land's End to John o'Groats, to raise money for her local hospital.

For more fun worksheets, games and quizzes log onto www.englishbanana.com now!

Talk a Lot

Places in the UK

Sentence Blocks

On the handout the wh- question word that is given is "Where", but this starting sentence also works equally well with eight other wh- question words: "What", "Where" (2nd), "When", "Who", "Why", "Which", and "How" (x2):

What did Kate Coleridge do in 1996, to raise money for her local hospital? / She walked from Land's End to John o'Groats.

Where did Kate Coleridge walk to in 1996, to raise money for her local hospital? / To John o'Groats.

When did Kate Coleridge walk from Land's End to John o'Groats, to raise money for her local hospital? / In 1996.

Who walked from Land's End to John o'Groats in 1996, to raise money for her local hospital? / Kate Coleridge did.

Why did Kate Coleridge walk from Land's End to John o'Groats in 1996? / To raise money for her local hospital.

Which hospital did Kate Coleridge walk from Land's End to John o'Groats in 1996 to raise money for? / Her local hospital.

How did Kate Coleridge raise money for her local hospital in 1996? / By walking from Land's End to John o'Groats.

How did Kate Coleridge travel/get from Land's End to John o'Groats in 1996, to raise money for her local hospital? / She walked.

The idea is easy. Change the wh- question word each time and you can make several completely different sentence blocks from the original starting sentence, simply by finding the relevant information for the answer in the starting sentence. As you can see below, sometimes the same wh- question word can be used more than once to make different sentence blocks.

You could cut out and give the section below to students:

----- ✂ -----
Places in the UK

Make new sentence blocks from the starting sentences in this unit using different "wh-" question words:

	WHAT	WHERE	WHEN	WHO	WHY	WHICH	HOW
1.	what			who			
2.	what (x2)	where (x2)		who whose			
3.	what	where (2 nd)	when	who	why	which	how (x2)
4.	what (x4)	where		who		which	
5.	what	where		who		which	how often
6.	what (2 nd)	where	when	who		which	
7.	what	where	when	whose		which (2 nd)	
8.		where	when	who

Talk a Lot

Places in the UK

Sentence Blocks

-----✂-----
Sentence Blocks – Sentence Stress and Vowel Sounds

Task 1: Circle the content words in the following starting sentences. (For answer, see Task 2 below.)

Places in the UK

1. Debbie is British because she was born in England.
2. My grandparents are heading for Stonehenge this morning, before driving to Bristol in the afternoon.
3. In nineteen ninety-six Kate Coleridge walked from Land's End to John o'Groats, to raise money for her local hospital.
4. Stewart was studying Scottish History at Oxford, when he discovered his passion for Gaelic.
5. Barbara's climbed in Snowdonia five times in the past decade.
6. You *have* to see Giant's Causeway before you leave.
7. Chloe's latest exhibition will visit Cardiff in August.
8. If you enjoy sunsets, you'll love the Norfolk Broads at dusk.

-----✂-----
Sentence Blocks – Sentence Stress and Vowel Sounds

Task 2: Underline the stressed syllable in each content word, shown in black. (For answer, see Task 3 below.)

Places in the UK

1. Debbie **is** British because she was born in England.
2. My grandparents are heading for Stonehenge this morning, before driving to Bristol in the afternoon.
3. In nineteen ninety-six Kate Coleridge walked from Land's End to John o'Groats, to raise money for her local hospital.
4. Stewart **was** studying Scottish History at Oxford, when he discovered his passion for Gaelic.
5. Barbara's climbed in Snowdonia five times in the past decade.
6. You *have* to see Giant's Causeway before you leave.*
7. Chloe's latest exhibition will visit Cardiff in August.
8. If you enjoy sunsets, you'll love the Norfolk Broads at dusk.

-----✂-----
* The word "have" in "have to" is a modal form and therefore not a content word. However, in this sentence the speaker uses special intonation and stresses the word to emphasise that the listener must do something. In written English this is indicated by putting the word into italics.

Talk a Lot

Places in the UK

Sentence Blocks

Sentence Blocks – Sentence Stress and Vowel Sounds

Task 3: Write the correct vowel sound above each stressed syllable (underlined). (For answer, see below.)

Places in the UK

1. Debbie is British because she was born in England.
2. My grandparents are heading for Stonehenge this morning, before driving to Bristol in the afternoon.
3. In nineteen ninety-six Kate Coleridge walked from Land's End to John o'Groats, to raise money for her local hospital.
4. Stewart was studying Scottish History at Oxford, when he discovered his passion for Gaelic.
5. Barbara's climbed in Snowdonia five times in the past decade.
6. You have to see Giant's Causeway before you leave.
7. Chloe's latest exhibition will visit Cardiff in August.
8. If you enjoy sunsets, you'll love the Norfolk Broads at dusk.

----- ✂ -----

Sentence Blocks – Sentence Stress and Vowel Sounds

Each content word (shown in black) contains one syllable with a strong stress, which is underlined. Each stressed syllable has one vowel sound. The vowel sounds on stressed syllables are the most important sounds in the sentence. They make the "sound spine" of the sentence. To improve communication, try to get the sound spine right.

Places in the UK

1. Debbie is British because she was born in England.
/e/ /ɪ/ /ɔ:/ /ɪ/
2. My grandparents are heading for Stonehenge this morning, before driving to Bristol in the afternoon.
/æ/ /e/ /e/ /ɔ:/ /aɪ/ /ɪ/ /u:/
3. In nineteen ninety-six Kate Coleridge walked from Land's End to John o'Groats, to raise money for her local hospital.
/aɪ/ /aɪ/ /ɪ/ /eɪ/ /əʊ/ /ɔ:/ /æ/ /e/ /ɒ/ /əʊ/ /eɪ/ /ʌ/ /əʊ/ /ɒ/
4. Stewart was studying Scottish History at Oxford, when he discovered his passion for Gaelic.
/u:/ /ʌ/ /ɒ/ /ɪ/ /ɒ/ /ʌ/ /æ/ /eɪ/
5. Barbara's climbed in Snowdonia five times in the past decade.
/ɑ:/ /aɪ/ /əʊ/ /aɪ/ /aɪ/ /ɑ:/ /e/
6. You have to see Giant's Causeway before you leave.
/æ/ /ɪ:/ /ɪə/ /ɔ:/ /ɪ:/
7. Chloe's latest exhibition will visit Cardiff in August.
/əʊ/ /eɪ/ /ɪ/ /ɪ/ /ɑ:/ /ɔ:/
8. If you enjoy sunsets, you'll love the Norfolk Broads at dusk.
/ɔɪ/ /ʌ/ /ʌ/ /ɔ:/ /ɔ:/ /ʌ/

* In spoken Welsh the digraph “ll” makes the consonant sound /l/, which doesn’t occur in spoken English. You can make this sound by putting your tongue in position to make the /l/ sound, and then blowing air through it. However, a typical English visitor to the town would probably pronounce the “L” in “Llandudno” as /l/.

Talk a Lot

Places in the UK

Background Information

Notes for Teachers

- This unit is different from other Talk a Lot units in that the base vocabulary (the discussion words) is a selection of place names, which you won't find in a normal dictionary, rather than everyday vocabulary words. This glossary of places is included to give students and teachers a little background information about each place. To get the most out of this activity – and really bring the unit to life – you could use a large map of the UK, as well as photos, realia or multimedia (e.g. interactive CD-ROMs), where possible. The information below is not designed to be exhaustive, but rather a starting point for further research. If students wish to, they could go online or visit a library to find out more about the places that interest them the most.
- We're sure that you will be able to find lots of ways to use this information in the classroom (e.g. make quizzes and tests, or, better still, get students to make them!), but here is one idea: print the Matching Game pages onto thin card, then cut up the cards and put them into three groups: **place name cards** (the discussion words for this unit), **prompt cards**, and **clue cards** (the ones in blue type). You could look at all of the places in one session, or, say, ten places per session, depending on the level of your group and the time available. **STAGE 1:** put some (or all) of the place name cards out on the table. Ask students to separate them into places that they know something about, and those that they don't know. Elicit as much information as they can tell you about the places that they know. Almost all students will know at least a few of the places, e.g. the country names, like "England" and "Scotland", or the capital cities. Introduce the new places to the students using either your own knowledge of the UK and the places, or by using the information below. Or, ask students to research the places themselves, e.g. online. **STAGE 2:** put the place name cards onto the table. Get students to match the prompt cards and the clue cards with the places. Or you could ask them to match only the prompt cards with the places, or only the clue cards. This will help students to revise what they have learned about the places in Stage 1. **STAGE 3:** students have to create their own questions and answers about different places using the words and phrases on the prompt cards. For example, on the prompt card for "United Kingdom", the words and phrases are:

Parliament, London, pop. 61.1m, England, Scotland, Wales, & Northern Ireland

Students could produce, for example:

"What is the population of the UK?" / "The population of the UK is 61.1 million people."

[etc.]

- Students can also do all of the activities on the **Discussion Words Question Sheet**, using the place name cards, as in a normal Talk a Lot unit.

Places in the UK (in alphabetical order)

Aberdeen OIL A city on the north-eastern coast of Scotland. Aberdeen is Scotland's third-largest city. It is at the centre of the North Sea Oil industry, and has the nickname "Granite City".

Alton Towers ROLLER COASTER A popular theme park and holiday resort in Staffordshire, England. It is home to "Oblivion", the world's first vertical drop roller coaster.

Belfast TITANIC The capital city of Northern Ireland. Population: 579,276¹. The doomed luxury liner RMS Titanic was built at the Harland and Wolff shipyard in Belfast.

¹ Note: the source of the factual information in this activity is <http://en.wikipedia.org/> (accessed on 22.10.09). All population statistics are approximate and based on the most recently available figures.

Talk a Lot

Places in the UK

Background Information

Bournemouth **“DR. JEKYLL AND MR. HYDE”** A large seaside town in Dorset, on the south-west coast of England. Novelist Robert Louis Stevenson wrote “The Strange Case of Dr. Jekyll and Mr. Hyde” here.

Brick Lane **MULTICULTURALISM** A famous street in the East End of London, which is often cited as one of London’s greatest multicultural success stories. It is well-known for its shops and restaurants and for being the heart of Britain’s Bangladeshi community.

Bristol **WESLEY** A large city in South West England that stands on the River Avon. The first Methodist Chapel was founded by John Wesley in Bristol in 1739.

Cambridge **PUNTING** A small city in East Anglia, England. Famed for its university, which was the second university to be founded in England (in 1209), Cambridge is often associated with the image of students slowly punting down the River Cam, alongside perfect green lawns and magnificent college buildings.

Cardiff **“DR. WHO”** The capital city of Wales, with a population of 324,800. The hit BBC TV series “Dr. Who” and its spin-off series “Torchwood” were both filmed in Cardiff recently.

Cardigan Bay **DOLPHINS AND SEALS** A large area of the Irish Sea on the west coast of Wales. From the cliff edge you may be able to spot Bottlenose Dolphins and Grey Seals.

Clumber Park **NATIONAL TRUST** A beautiful country park in Nottinghamshire, which is open to the public. It is owned and managed by the National Trust.

Edinburgh **FESTIVAL** The capital city of Scotland. Population: 471,650. The Edinburgh Festival fills the streets of Edinburgh each summer with hundreds of thousands of visitors, who come in search of the very best in entertainment, including theatre, music, comedy, film, and dance.

England **ST. GEORGE** The largest country in the UK. Population: 51m (about 84% of the population of the UK). St. George is the patron saint of England. He is famous for killing the dragon in the legend, and for not being British – he was born in the Middle East.

English Channel **RECORD-BREAKERS** A narrow part of the Atlantic Ocean that separates England and France. In 1875 Captain Matthew Webb became the first man to swim the Channel. Today different swimmers try to break the record for the fastest crossing.

Giant’s Causeway **LEGEND** A natural phenomenon of more than 40,000 interconnected basalt columns. Located in County Antrim on the north-east coast of Northern Ireland. In the Irish legend, the Causeway was built by the warrior king Fionn mac Cumhaill – who was also a giant – so that he could stride across the Irish Sea to Scotland.

Great Britain **ALBION** Great Britain is the name that describes three UK countries together: England, Scotland, and Wales. Population: 59m (million people). Great Britain was first known as Albion, which means “white”, which could be a reference to the famous white cliffs of Dover.

Greenwich **GMT** A district of south-east London that is famous for its maritime history and for being the place where GMT (Greenwich Mean Time) begins and ends.

Talk a Lot

Places in the UK

Background Information

Hadrian's Wall **BARBARIANS** A long fortification built by the Romans, now ruined, that stretched 73.5 miles (117 km) across the width of northern England, from Newcastle upon Tyne in the east to Carlisle in the west. It is named after the Roman Emperor Hadrian, and was begun in AD 122. Its purpose was to mark the border of the Roman Empire in Britain, and to keep out the "barbarians" from the north.

Hathersage **LITTLE JOHN** A pretty village in the Derbyshire Peak District. Winner of the Best Village in Central England Competition in 2009. It is home to what is believed to be the grave of Little John, who was Robin Hood's right-hand man in the local legend.

John o'Groats **FERRY** A small settlement in Northern Scotland, which is the most northerly inhabited place in mainland UK. From here you can take a ferry ten miles across the sea to Orkney.

Lake District **JUST ONE** A popular place for holidaymakers in North West England. In spite of its name and being home to many "waters" and "meres" (small lakes), it has just one official lake – Bassenthwaite Lake.

Land's End **CHARITY** A place in Cornwall. Known as the most south-westerly inhabited place in the UK. Many people raise money for charity by walking, cycling, or otherwise travelling between Land's End and John o'Groats, because it is more or less the furthest distance possible between two places in mainland Britain.

Llandudno **PUNCH AND JUDY** A seaside town on the north coast of Wales. On the 376 metre-long Llandudno Pier you can watch a traditional Punch and Judy show, just as visitors did 150 years ago.

Loch Ness **NESSIE** A deep loch (large lake) twenty-three miles south-west of Inverness in the Scottish Highlands. Famous as the home of Nessie, the celebrated Loch Ness Monster.

London **"LUNDENWIC"** The capital city of England, Great Britain, and the United Kingdom. Population: 7.6m. In Roman times London was known as "Londinium", and in Anglo-Saxon days it was called "Lundenwic". Today we call London "the Smoke", or "the City".

Manchester **FOOTBALL AND MUSIC** A major city in the North East of England. Among other things, Manchester is famous for football – Manchester United play at Old Trafford and Manchester City play at Eastlands – and seminal pop music – Joy Division, The Smiths, New Order, James, The Charlatans, Stone Roses, Happy Mondays, and Take That all came from Manchester.

Norfolk Broads **BIRD-WATCHING** An extensive, mainly man-made network of rivers, waterways, and lakes (broads), which is located in the counties of Norfolk and Suffolk, in the East of England. A great place for both sailors and ornithologists (bird-watchers) alike.

Northern Ireland **"MOONDANCE"** The smallest country in the United Kingdom, with a population of about 1.8 million. Singer-songwriter Van Morrison hails from Belfast in Northern Ireland. Among his most famous songs are: "Moondance", "Brown Eyed Girl", and "Have I Told You Lately".

Talk a Lot

Places in the UK

Background Information

Norwich DELIA The only city in the entire county of Norfolk. Located in East Anglia, England. TV cook Delia Smith is the owner of Norwich City F.C. Comedian, author, and actor Stephen Fry grew up in Norfolk and studied at City College, Norwich. American author and traveller Bill Bryson lives near Norwich.

Orkney NORWAY An archipelago (group of islands) situated about ten miles off the coast of Northern Scotland. Orkney was ruled by Norway between AD 875-1468.

Oxford UNIVERSITY A city in South East England which is home to the oldest university in the UK – Oxford University was founded in 1096. The world-famous Oxford English Dictionary is published in Oxford by Oxford University Press.

Scotland DOUGLAS FIR The second-largest country in the United Kingdom, with a population of about 5.2m. The Scottish Parliament is responsible for Scottish affairs. The tallest tree in the UK is a Douglas Fir in Argyll, Scotland that stands 63.79 metres tall.

Sherwood Forest ROBIN HOOD An extensive forest in Nottinghamshire, England, which was once home to Robin Hood and his Merry Men – if the stories are to be believed!

Skegness STICK OF ROCK A popular seaside town in Lincolnshire, on the east coast of England. Here you can sunbathe on the beach in the unrelentingly cold wind, bathe in the freezing waters of the North Sea, and purchase a stick of rock as a souvenir for a friend or relative that you don't like very much. Skegness is commonly known as "Skeggy" (pronounced /'ske.ge/) and also "Skegvegas", reflecting its status as an entertainment centre to (almost) rival Las Vegas!

Snowdonia MOUNT SNOWDON A breathtakingly beautiful National Park in Wales that takes its name from Mount Snowdon, which, at 1,085 metres, is the highest mountain in Wales.

Stonehenge MYSTERY Thought to date from 2500 BC, Stonehenge is a prehistoric stone monument situated high on a hillside in Wiltshire, South West England. Nobody knows why Stonehenge exists – it's a mystery. It is thought that the site was used for religious rituals or as a kind of observatory.

Stratford-upon-Avon "THE BARD OF AVON" A small market town in Warwickshire in the heart of England, situated on the River Avon. Shakespeare (known as "The Bard of Avon") was born here in 1564 and is buried here in Holy Trinity Church.

United Kingdom FOUR IN ONE The name of the country that is formed by England, Scotland, Wales, and Northern Ireland. The full name of this country is: "The United Kingdom of Great Britain and Northern Ireland". It has a population of about 61.1m. The UK is governed by Parliament from Westminster in London.

Wales RED DRAGON The third-largest country in the United Kingdom, with a population of about 3m. The Welsh national flag is a fierce red dragon on a white and green background. The National Assembly for Wales is responsible for Welsh affairs.

Places in the UK

General Questions

1. Are there any places that you don't know? Find out more about them.
2. Take some cards. Describe the place on a card without saying it.
3. How many places have... a) 1 syllable, b) 2 syllables, c) 3 syllables, d) 4 syllables, e) 5 syllables, f) 6 syllables?
4. Put places with more than one syllable into groups according to where the strong stress falls.
5. Put the places into alphabetical order.
6. Put together places that have the same number of letters.
7. Find places that... a) begin with a vowel sound, b) end with a vowel sound, c) begin with a consonant sound, d) end with a consonant sound. Put them into sound groups.
8. Find places which contain silent letters (letters which are not pronounced).
9. How many places can you remember when they are all turned over?
10. Put places that contain the same sounds into groups, using the IPA.

Lesson Questions

1. Which place sounds like... a) porridge, b) sales, c) pistol, d) banned send, e) path?
2. a) Find all of the countries in the UK and put them together with their capital cities.
b) Which of these countries form Great Britain?
3. Which place is a homophone with a group of the largest sea mammals?
4. Find a place where you can... a) watch a match, b) hunt a monster, c) check the time.
5. Find a place which has a weak stress schwa sound /ə/ on the... a) 1st syllable, b) 2nd syllable, c) 3rd syllable, etc. ii) Do any places *not* have a schwa?
6. Put the countries of the UK into order of size, from the one with the biggest population to the one with the smallest. (Have a guess, if you're not sure!)
7. Put into groups all of the... a) cities, b) tourist attractions, c) places of cultural interest, d) places of outstanding natural beauty, e) historical sites.
8. Put into groups all of the places in... a) Wales, b) Scotland, c) Northern Ireland, d) England.
9. Find... a) a monument, b) a street, c) a village, d) a theme park, e) a suburb, f) a country, g) a border, h) a seaside resort, i) an archipelago, j) a mountain range.

Discussion Words Question Sheet

different from how it sounds when spoken. Below are some good examples of words in this group of discussion words that have silent letters. The silent letters are shown in brackets. No doubt your students will be able to identify some more.

Green [w] ich, Cambridg [e], Edinbur [gh], Nor [w] ich, Cardif [f], Bourn [e] mouth, Orkne [y]

9. Answers will vary.

10. There are many possible answers to this question; for example, “Scotland”, “Oxford”, “Alton Towers”, “Loch Ness” and “Norwich” all contain the vowel sound /ɒ/. Use the phonetic chart on p.18.6 of the **Talk a Lot Elementary Handbook** (available free from www.englishbanana.com/talkalot) and the phonetic spellings of the vocabulary words on the *Discussion Words (with the IPA)* handout to help your students put the places into sound groups.

Lesson Questions

1. a) Norwich. b) Wales. c) Bristol. d) Land’s End. e) Bath.

2. The countries that form the UK are (with their capital cities): England (London), Scotland (Edinburgh), Northern Ireland (Belfast), and Wales (Cardiff).

3. **Wales** is a homophone with **whales** – both words sound alike, but have different spellings and meanings.

4. a) Wimbledon. b) Loch Ness. c) Greenwich.

5. i) a) Places which have a weak stress schwa sound /ə/ on the 1st syllable: none. b) Places which have a weak stress schwa sound /ə/ on the 2nd syllable: Wimbledon, Alton Towers, Bournemouth, Bristol, Clumber Park, England, Hathersage, John o’Groats, London, Norfolk Broads, Northern Ireland, Oxford, Scotland, Sherwood Forest, Stratford-upon-Avon, Aberdeen. c) Places which have a weak stress schwa sound /ə/ on the 3rd syllable: Cardigan Bay, Edinburgh, Great Britain, Manchester, Stratford-upon-Avon, United Kingdom, Wimbledon. d) Places which have a weak stress schwa sound /ə/ on the 4th syllable: Snowdonia, English Channel, Alton Towers, Sherwood Forest, Northern Ireland. e) One place has a weak stress schwa sound /ə/ on the 5th syllable: United Kingdom. f) One place has a weak stress schwa sound /ə/ on the 6th syllable: Stratford-upon-Avon. ii) 17 places don’t have a weak stress schwa sound: Belfast, Brick Lane, Cambridge, Cardiff, Giant’s Causeway, Greenwich, Hadrian’s Wall, Lake District, Land’s End, Llandudno, Loch Ness, Norwich, Orkney, Skegness, Stonehenge, Wales, York.

6. England (population: 51 million), Scotland (5.2m), Wales (3m), and Northern Ireland (1.8m).

7. Answers may vary. Suggested answers:

a) The **cities** are: Belfast, Oxford, Manchester, York, Norwich, Aberdeen, Bristol, Cardiff, Bournemouth, London, Cambridge, and Edinburgh.

b) The **tourist attractions** are: Giant’s Causeway, Alton Towers, Norfolk Broads, Stonehenge, Sherwood Forest, Loch Ness, John o’Groats, Skegness, Land’s End, Stratford-upon-Avon, and Hadrian’s Wall.

c) The **places of cultural interest** are: York, Stonehenge, Brick Lane, Greenwich, Stratford-upon-Avon, Oxford, and Cambridge.

d) The **places of outstanding natural beauty** are: Loch Ness, Giant’s Causeway, Norfolk Broads, Sherwood Forest, Orkney, Cardigan Bay, Lake District, Clumber Park, and Snowdonia.

e) The **historical sites** are: Stratford-upon-Avon, Hadrian’s Wall, Stonehenge, and York.

8. a) The places in **Wales** are: Cardiff, Cardigan Bay, Llandudno, and Snowdonia. b) The places in **Scotland** are: Aberdeen, Edinburgh, John o’Groats, Loch Ness, and Orkney. c) The places in **Northern Ireland** are: Belfast and Giant’s Causeway. d) The places in **England** are: Alton Towers, Bournemouth, Brick Lane, Bristol, Cambridge, Clumber Park, English Channel, Greenwich, Hadrian’s Wall, Hathersage, Lake District, Land’s End, London, Manchester, Norfolk Broads, Norwich, Oxford, Sherwood Forest, Skegness, Stonehenge, Stratford-upon-Avon, Wimbledon, York.

* By car. ** As rated by a panel of 2,100 local residents, who gave marks out of 5 (0 = lowest mark, 5 = highest mark).

Where would you like to... a) visit for the day, b) go on holiday for a fortnight, c) move to for work or study, d) move to permanently, e) never visit? Why? Answers will vary. When they have completed filling the gaps, students should discuss which county they would like to visit for each question a) - e). They should produce appropriate reasons for their choices – why they would choose one county rather than another. There are lots of sentences that students could create using this information. For example: "I would like to visit Staffordshire for the day, because I love Alton Towers [theme park]... but I wouldn't want to live there permanently, because the crime rate is increasing..." Or... "I would like to move to Powys in Wales permanently, because it has very good leisure facilities and the property values are going up..." [etc.]

Sample Questions

What is the county town of _____?
 What is the population of _____?
 How many people live in _____?
 Which major towns and cities are there in _____?
 What is the area of _____?
 How big is _____?
 How far is _____ from John o'Groats?
 How long does it take to drive from John o'Groats to _____ [on average]?
 What tourist attractions has _____ got?
 What natural features are there in _____?
 How do local residents rate education in _____?
 How high are hospitals rated in _____?
 What's the rating for leisure in _____?
 Tell me some cultural notes about _____.
 What is the average rainfall in May each year in _____?

Sample Answers

The county town of _____ is _____.
 About _____ people.
 About _____ people live in _____.
 _____ are in _____.
 It's _____.
 _____ is _____ from John o'Groats.
 It takes about _____ to drive from John o'Groats to _____ [on average].
 It's got _____.
 _____ out of five.
 Quite high / low [etc.] – _____ out of five.
 _____ out of five.
 _____ on average.

Talk a Lot

Places in the UK

Information Exchange

How are the property values doing in _____?
Is the crime rate in _____ going up or down?
Tell me about the local history and traditions
of _____.

They're _____.
It's _____.
_____.

Examples

How many people live in County Down
How far is Staffordshire from John o'Groats?
How high are hospitals rated in Powys?
Tell me about the local history and traditions
of Aberdeenshire.

About 516,000 people live in County Down.
Staffordshire is 537 miles from John o'Groats.
Quite high – four out of five.
There have been human settlements in Aberdeenshire
for at least 8,000 years.

[etc.]

Extension: you could try to encourage some comparative/superlative questions and sentences too, for example:

Which is the largest county... a) by area, b) by population?
Which county is the furthest from John o'Groats?
Which county has the best hospitals?

Aberdeenshire is the largest county by area... [etc.]
Powys is the furthest...
Aberdeenshire has the best...

[etc.]

Notes and Sources

Note 1:

*In the question "Distance / Time from John o'Groats", the figures quoted represent time and distance from John o'Groats to the **county town**. For example, from John o'Groats to Stafford. All figures for this question are quoted from <http://www.rac.co.uk/route-planner/> (accessed on 30.10.09).*

Note 2:

Aberdeenshire is not technically a "county", but rather a "council area" governed by a unitary authority. However, it is generally treated as a county, and as such is included in this activity. For more information, see here: http://en.wikipedia.org/wiki/Council_areas

Wedding Planning (Original Text)

Line

1 Maggie was staying at her friend Sophie's in Derby for a few days. They were getting
2 ready to go out for a night on the town, and discussing Sophie's impending wedding
3 to her fiancé Tony. Maggie was looking forward to being a bridesmaid.
4 "Tony wants to invite his whole bloomin' family," said Sophie, "And he's got a
5 big family, that's for sure! They're scattered about everywhere! I mean, there's his
6 dad in Scotland for starters..." "Is his dad Scottish?" asked Maggie, applying her
7 blusher. "No, but his partner is. His dad's got five brothers and a half-sister, so Tony's
8 got cousins coming out of his ears." Sophie paused. "There's his cousin John – the
9 Welsh one – who lives in Cardiff. There's Jackie... and Manda in London; and then
10 there's his Grandma and her new boyfriend in Belfast, and..." "How many people can
11 you invite?" interrupted Maggie, lacing up her boots. "About forty-five," replied Sophie.
12 "We might be able to fit in a few more, if they don't have the sit-down meal. Thank
13 goodness my family's just my parents and my brother!" "Don't forget *my* family,"
14 said Maggie, checking her outfit in the full-length mirror. "Dennis will definitely go,
15 although I doubt he'll sit through the whole sermon in the church. He'll probably
16 wander outside and text his mates." "Yeah, and that reminds me – I should invite my
17 godmother in Manchester," said Sophie. They left the house and walked briskly to
18 the bus stop. "She'll want me to invite her whole flippin' brood. Like, she's got two
19 kids in Cardiff – Lee and Sam, you know – and sisters in Liverpool, Birmingham..."
20 "The more the merrier!" laughed Maggie, adjusting her earrings, "It'll be OK."
(284 words)

Wedding Planning (Text with 20 Differences)

Maggie was **1. saying (staying)** at her friend Sophie's in Derby for a few days. They were getting ready to go out for a night on the town, and discussing **2. her (Sophie's)** impending wedding to her fiancé Tony. Maggie was looking forward to **3. seeing (being)** a bridesmaid. Glossary of New Words

Here are some words and phrases from the text that may be new to students. You could either pre-teach them, or encourage your students to find translations in a bilingual dictionary and write them in the gaps below. Stressed syllables are underlined.

1. **to go out for a night on the town** (*idiom*: go clubbing) _____
2. **impending** (*adjective*: forthcoming) _____
3. **bloomin'** (*intensifier, slang*: a mild swear word; implies annoyance with the noun that follows) _____
4. **for starters** (*idiom*: to start with) _____
5. **coming out of his ears** (*idiom*: he has a lot of sthg.) _____
6. **to lace up** (*phrasal verb*: do up with laces) _____
7. **sit-down meal** (*noun phrase*: a formal dinner) _____
8. **Thank goodness!** (*exclamation*: you feel relief about sthg.) _____
9. **sermon** (*noun*: a talk given in church by a vicar) _____
10. **to wander** (*verb*: walk slowly and without purpose) _____
11. **godmother** (*noun*: in Christianity, the person who promises at a child's baptism to provide spiritual guidance) _____
12. **flippin'** (*intensifier, slang*: as "bloomin'", above) _____
13. **brood** (*noun, slang*: family) _____
14. **The more the merrier!** (*saying*: literally, if more people come, we'll have a better time) _____
15. **to adjust** (*verb*: alter the position of sthg.) _____

*Note: in the text Sophie uses several **discourse markers** when she speaks. Discourse markers are words or phrases that have no meaning on their own, but which help the speaker to organise what they're saying. The function of "I mean..." (line 5) and "Like..." (line 18) is to draw attention to what follows. The function of "you know..." (line 19) is to give the speaker a short pause – thinking time – before they continue.*

Discussion Questions

1. Have you ever visited the UK? Why did you go? How did you get there? How long did you stay? If no, would you like to go?

2. Tell me about some famous places in the UK... a) a city, b) a tourist attraction, c) a place of cultural interest, d) a place of outstanding natural beauty, e) an historical site. What is your favourite place in the UK? Why?

3. Have you ever worked or studied abroad? If yes, where did you go? Tell me about something funny that happened there. If no, would you like to? Is it beneficial to work or study in another country? Why? Why not?

4. Do you think that students of English should spend time living in an English-speaking country? Why? / Why not?

5. Have you ever had any problems understanding native speakers of English with accents that differ from Standard Pronunciation? E.g. people from Liverpool, Australia, or Scotland? What differences did you notice?

6. Do people from each country in the UK – England, Scotland, Wales, and Northern Ireland – have characteristics that are particular to their country? What are they? Are there stereotypes associated with people from each country? Discuss them. Is there such a thing as a typical British person? What is the main characteristic of people from... a) your region, b) your country?

7. How do you usually feel when you visit a foreign country? Do people there make you feel welcome, or do you think that they look down on you?

8. How popular is British culture – music, TV programmes, fashion – in your country? Are there any British songs in your music charts? Does culture from English-speaking countries generally add to or damage the native cultures of other countries?

Places in the UK

Role Plays

1. “My wall’s higher than your wall!”

Place: A remote heath on the border of Roman Britain and what is now Scotland
Time: AD 122 (8.04 am)
Characters: You and a Roman Soldier
Situation: You are a barbarian who lives nearby. You can’t help but notice that the Romans have recently started building a wall to keep you out of Britain...

Scenes: i) You spot a Roman soldier building part of Hadrian’s Wall. Ask him why he’s building it. Goad him by going backwards and forwards across the border. Object when he calls you a barbarian and explain how civilised you are
ii) A few days later, you return to where the soldier is building the wall. This time you’ve brought your own tools and stones, and you start to build your own wall – about two metres in front of the soldier’s wall (on the English side)
iii) The outcome of this building rivalry could be... a) two long walls, one in front of the other; b) you are taken prisoner by the Roman army and your tools are destroyed; c) you both decide to become friends, join forces, and build a pub on the site, instead of two walls; d) your own idea...!

If there are three people in the group, the third character could be:

- a) A Roman centurion – the soldier’s boss – who really hates barbarians
- b) The director of a local building firm, who offers to build both walls for half the price

2. “I’m travelling back in time!”

Place: A deserted car park on the edge of town
Time: 12.02¼ am
Characters: You play a regular Joe/Jane; the other student plays three different characters
Situation: Walking home alone late one night you stumble upon a time machine at the back of a local supermarket. Intrigued, you get inside and close the door...

Scenes: i) The year is 1800 BC. You open the door and realise that you have travelled back in time to Stonehenge. You witness something amazing, and you’re now able to finally solve the great mystery of why it was built...
ii) You try to get back to the present, but stepping out of the time machine you find that you have landed in Sherwood Forest in the 12th century – the time of Robin Hood and his Merry Men. You find out that the legend about robbing from the rich and giving to the poor isn’t quite what it seems...
iii) Still trying to get home, your time machine crashes in Stratford-upon-Avon in 1608. You discover who the *real* author of those plays really was, before...

If there are three people in the group, the third character could be:

- a) The inventor of the time machine, who desperately needs to get it back
- b) Another character from each period in history

Role Plays

Role Play Extensions

Here are some additional situations for students to use as starting points for new role plays based on the topic of "Places in the UK":

----- ✂ -----

Places in the UK

1. You are a stressed-out travel agent. Your manager has recently told you that if you don't sell more UK-based family holidays you will be fired. A customer comes in and wants to book a short break for their family. You try to sell them a holiday in Scotland, then in Wales, then in Northern Ireland, and then in England. Go through the main selling points of each place – for example, the interesting and beautiful places that await them in each country of the UK! However, the customer is hard to please and raises objections to each selling point, for example, the weather will be bad, the food will be terrible, and so on.

2. You run a small business on the shores of Loch Ness, selling boat trips to the centre of the loch in order to find Nessie, the Loch Ness Monster. You charge a lot of money to gullible tourists for what is really only a fifteen-minute boat trip on a cold, foggy lake. However, one day you get more than you bargained for when the *real* Loch Ness Monster appears from out of the depths of the loch and demands a percentage of your profits from the business. When you refuse, she eats you and takes over the boat trip business herself, which means that she is effectively selling boat trips on the loch to search for herself. When people realise that they can see the monster on land (selling the boat trips), they don't want to pay to see her in the loch, so unfortunately the business folds. The monster disappears back into obscurity and vows never to return to land – until the next attractive business opportunity arises...

Lesson Test – Places in the UK

A) Fill in the missing vowels in these places, and say **which country** of the UK they are in:

1. H ___ d r ___ n's W ___ ll
2. C l ___ m b ___ r P ___ r k
3. W ___ m b l ___ d ___ n
4. L ___ c h N ___ s s
5. G ___ n t's C ___ s ___ w ___ y
6. ___ l t ___ n T ___ w ___ r s

B) Decide whether these sentences about places in the UK are true or false:

1. England, Scotland, Ireland, and Wales form the United Kingdom.
2. Llandudno is a seaside town on the north coast of Wales.
3. Greenwich is famous for football and music.
4. Cambridge is home to the oldest university in the UK.
5. Orkney is an archipelago about ten miles off the coast of Northern Scotland.
6. Hathersage is a pretty village in Nottinghamshire.

C) Underline the odd one out in each group of places and give a reason:

1. Cardigan Bay, Brick Lane, Sherwood Forest
2. Bristol, Skegness, Belfast, York
3. Skegness, Oxford, Bournemouth, Llandudno
4. England, Scotland, Cardiff, Wales

Complete the sentence blocks:

D) Verb Form: _____

- Barbara's climbed in Snowdonia five times in the past decade.
- How 1. _____ times has Barbara climbed in Snowdonia in the past decade?
- 2. _____ times.
- 3. _____ Barbara climbed in Snowdonia five times in the past decade?
- Yes, 4. _____ has.
- Has Barbara climbed in Snowdonia 5. _____ in the past decade?
- 6. _____, she hasn't. Barbara hasn't climbed in Snowdonia six times in the past decade.

E) Verb Form: _____

- My grandparents are heading for Stonehenge this morning, before driving to Bristol in the afternoon.
- 7. _____ is heading for Stonehenge this morning, before driving to Bristol in the afternoon?
- My 8. _____ are.
- Are 9. _____ grandparents heading for Stonehenge this morning, before driving to Bristol in the afternoon?
- Yes, they 10. _____.
- 11. _____ your parents heading for Stonehenge this morning, before driving to Bristol in the afternoon?
- No, they aren't. My parents 12. _____ heading for Stonehenge this morning, before driving to Bristol in the afternoon.

Talk a Lot

Politics

Sentence Blocks

*Note: the last two lines of each sentence block will vary. Below there are examples given for each sentence block, but students should think of their own way to get the negative forms in the last line. See the **Talk a Lot Elementary Handbook** for full instructions (available free from www.englishbanana.com).*

Answers

1. (Present Simple) The Foreign Secretary deals with foreign affairs. / Who deals with foreign affairs? / The Foreign Secretary does. / Does the Foreign Secretary deal with foreign affairs? / Yes, he / she does. / Does the Home Secretary deal with foreign affairs? / No, he / she doesn't. The Home Secretary doesn't deal with foreign affairs.

2. (Present Continuous) We're going to a demonstration tomorrow, to support striking union members. / Where are you going tomorrow, to support striking union members? / To a demonstration. / Are you going to a demonstration tomorrow, to support striking union members? / Yes, we are. / Are you going to a meeting tomorrow, to support striking union members? / No, we aren't. We aren't going to a meeting tomorrow, to support striking union members.

3. (Past Simple) Tony voted Conservative in the last election, because they promised to bring down taxes. / Why did Tony vote Conservative in the last election? / Because they promised to bring down taxes. / Did Tony vote Conservative in the last election, because they promised to bring down taxes? / Yes, he did. / Did Tony vote Conservative in the last election, because he agreed with all of their policies? / No, he didn't. Tony didn't vote Conservative in the last election, because he agreed with all of their policies.

4. (Past Continuous) Carl's brother was waiting to speak in the school debate. / What was Carl's brother waiting to do? / Speak in the school debate. / Was Carl's brother waiting to speak in the school debate? / Yes, he was. / Was Carl's brother waiting to use the photocopier? / No, he wasn't. Carl's brother wasn't waiting to use the photocopier.

5. (Present Perfect) I've just briefed Sean on the phone about the campaign meeting. / Who have you just briefed on the phone about the campaign meeting? / Sean. / Have you just briefed Sean on the phone about the campaign meeting? / Yes, I have. / Have you just briefed Victoria on the phone about the campaign meeting? / No, I haven't. I haven't just briefed Victoria on the phone about the campaign meeting.

6. (Modal Verbs) The opposition should be a lot more critical of the government's plans for schools. / Which plans should the opposition be a lot more critical of? / The government's plans for schools. / Should the opposition be a lot more critical of the government's plans for schools? / Yes, it should. / Should the opposition be a lot more critical of the government's plans for a new staff restaurant? / No, it shouldn't. The opposition shouldn't be a lot more critical of the government's plans for a new staff restaurant.

7. (Future Forms) The polls open around the country in fifteen minutes. / When do the polls open around the country? / In fifteen minutes. / Do the polls open around the country in fifteen minutes? / Yes, they do. / Do the polls open around the country in half an hour? / No, they don't. The polls don't open around the country in half an hour.

8. (First Conditional) If we don't speak out against the injustice in our society, things will get worse. / What will happen if we don't speak out against the injustice in our society? / Things will get worse. / Will things get worse, if we don't speak out against the injustice in our society? / Yes, they will. / Will things get better, if we don't speak out against the injustice in our society? / No, they won't. Things won't get better, if we don't speak out against the injustice in our society.

Sentence Block Extensions

For all of the sentence block starting sentences there are at least two different wh- question words that can be used to make sentence blocks. In one case seven different sentence blocks can be made from the same starting sentence when using different wh- question words. There isn't room here to print in full all of the sentence block extensions from this unit. Hopefully, the answers given above will give you the teacher (or you the student) enough guidance to be able to make the sentence block extensions for this unit with confidence.

For example, let's look at the third starting sentence from this unit:

For more fun worksheets, games and quizzes log onto www.englishbanana.com now!

Talk a Lot

Politics

Sentence Blocks

Tony voted Conservative in the last election, because they promised to bring down taxes.

On the handout the wh- question word that is given is "Why", but this starting sentence also works equally well with six other wh- question words: "What", "When", "Who", "Which" (x2), and "How":

What did Tony do in the last election? / He voted Conservative, because they promised to bring down taxes.

When did Tony vote Conservative, because they promised to bring down taxes? / In the last election.

Who voted Conservative in the last election, because they promised to bring down taxes? / Tony did.

Which party did Tony vote for in the last election, because they promised to bring down taxes? / The Conservative Party.

In **which** election did Tony vote Conservative, because they promised to bring down taxes? / In the last election.

How did Tony vote in the last election? / Conservative.

The idea is easy. Change the wh- question word each time and you can make several completely different sentence blocks from the original starting sentence, simply by finding the relevant information for the answer in the starting sentence. As you can see below, sometimes the same wh- question word can be used more than once to make different sentence blocks.

You could cut out and give the section below to students:

----- ✂ -----
Politics

Make new sentence blocks from the starting sentences in this unit using different "wh-" question words:

	WHAT	WHERE	WHEN	WHO	WHY	WHICH	HOW
1.	what (x2)					which	
2.	what (x2)		when	who	why	which	
3.	what		when	who		which (x2)	how
4.		where		who whose		which	
5.	what (x2)	where	when			which	how
6.	what			who (x2)		which (2 nd)	how
7.	what (x2)	where					how soon
8.	what (2 nd)		when				how

Talk a Lot

Politics

Sentence Blocks

-----✂-----

Sentence Blocks – Sentence Stress and Vowel Sounds

Task 1: Circle the content words in the following starting sentences. (For answer, see Task 2 below.)

Politics

1. The Foreign Secretary deals with foreign affairs.
2. We're going to a demonstration tomorrow, to support striking union members.
3. Tony voted Conservative in the last election, because they promised to bring down taxes.
4. Carl's brother was waiting to speak in the school debate.
5. I've just briefed Sean on the phone about the campaign meeting.
6. The opposition should be a lot more critical of the government's plans for schools.
7. The polls open around the country in fifteen minutes.
8. If we don't speak out against the injustice in our society, things will get worse.

-----✂-----

Sentence Blocks – Sentence Stress and Vowel Sounds

Task 2: Underline the stressed syllable in each content word, shown in black. (For answer, see Task 3 below.)

Politics

1. The Foreign Secretary deals with foreign affairs.
2. We're going to a demonstration tomorrow, to support striking union members.
3. Tony voted Conservative in the last election, because they promised to bring down taxes.
4. Carl's brother was waiting to speak in the school debate.
5. I've just briefed Sean on the phone about the campaign meeting.
6. The opposition should be a lot more critical of the government's plans for schools.
7. The polls open around the country in fifteen minutes.
8. If we don't speak out against the injustice in our society, things will get worse.

-----✂-----

Talk a Lot

Politics

Sentence Blocks

Sentence Blocks – Sentence Stress and Vowel Sounds

Task 3: Write the correct vowel sound above each stressed syllable (underlined). (For answer, see below.)

Politics

1. The Foreign Secretary deals with foreign affairs.
2. We're going to a demonstration tomorrow, to support striking union members.
3. Tony voted Conservative in the last election, because they promised to bring down taxes.
4. Carl's brother was waiting to speak in the school debate.
5. I've just briefed Sean on the phone about the campaign meeting.
6. The opposition should be a lot more critical of the government's plans for schools.
7. The polls open around the country in fifteen minutes.
8. If we don't speak out against the injustice in our society, things will get worse.

----- ✂ -----

Sentence Blocks – Sentence Stress and Vowel Sounds

Each content word (shown in black) contains one syllable with a strong stress, which is underlined. Each stressed syllable has one vowel sound. The vowel sounds on stressed syllables are the most important sounds in the sentence. They make the “sound spine” of the sentence. To improve communication, try to get the sound spine right.

Politics

1. The Foreign Secretary deals with foreign affairs.
/ɒ/ /e/ /i:/ /ɒ/ /eə/
2. We're going to a demonstration tomorrow, to support striking union members.
/əʊ/ /eɪ/ /ɒ/ /ɔ:/ /aɪ/ /u:/ /e/
3. Tony voted Conservative in the last election, because they promised to bring down taxes.
/əʊ/ /əʊ/ /ɜ:/ /ɑ:/ /e/ /ɒ/ /ɪ/ /aʊ/ /æ/
4. Carl's brother was waiting to speak in the school debate.
/ɑ:/ /ʌ/ /eɪ/ /i:/ /u:/ /eɪ/
5. I've just briefed Sean on the phone about the campaign meeting.
/ʌ/ /i:/ /ɔ:/ /əʊ/ /eɪ/ /i:/
6. The opposition should be a lot more critical of the government's plans for schools.
/ɪ/ /ɒ/ /ɪ/ /ʌ/ /æ/ /u:/
7. The polls open around the country in fifteen minutes.
/əʊ/ /əʊ/ /ʌ/ /ɪ/ /ɪ/
8. If we don't speak out against the injustice in our society, things will get worse.
/əʊ/ /i:/ /aʊ/ /ʌ/ /aɪ/ /ɪ/ /e/ /ɜ:/

Discussion Words Question Sheet

Answers

General Questions

1. Answers will vary.

2. Answers will vary.

3. a) 6 words have 1 syllable: mayor, strike, tax, state, bill, trust. b) 6 words have 2 syllables: voter, MP, debate, council, satire, freedom. c) 14 words have 3 syllables: government, politics, improvement, decision, election, president, policy, dictator, anarchist, corruption, monarchy, citizen, Parliament, fascism. d) 9 words and phrases have 4 syllables: legislation, economy, Labour Party, politician, prime minister, opposition, majority, democracy, idealism. e) 4 words and phrases have 5 syllables: constituency, United Nations, ideology, representative. f) 1 phrase has 6 syllables: Conservative Party.

4. 2 syllables: these words have the strong stress on the first syllable: **voter**, **council**, **satire**, **freedom**; these words have the strong stress on the second syllable: **MP**, **debate**. 3 syllables: these words have the strong stress on the first syllable: **fascism**, **politics**, **president**, **policy**, **anarchist**, **monarchy**, **citizen**, **Parliament**, **government**; these words have the strong stress on the middle syllable: **improvement**, **decision**, **election**, **dictator**, **corruption**. 4 syllables: this phrase has the strong stress on the first syllable: **Labour Party**; these words and phrases have the strong stress on the second syllable: **economy**, prime **minister**, **majority**, **democracy**; these words have the strong stress on the third syllable: **opposition**, **politician**, **legislation**. 5 syllables: this word has the strong stress on the second syllable: **idealism**, **constituency**; these words have the strong stress on the third syllable: **ideology**, **representative**; this phrase has the strong stress on the fourth syllable: United **Nations**. 6 syllables: this phrase has the strong stress on the second syllable: **Conservative Party**.

5. Anarchist, bill, citizen, Conservative Party, constituency, corruption, council, debate, decision, democracy, dictator, economy, election, fascism, freedom, government, idealism, ideology, improvement, Labour Party, legislation, majority, mayor, monarchy, MP, opposition, Parliament, policy, politician, politics, president, prime minister, representative, satire, state, strike, tax, trust, United Nations, voter.

6. a) None of the words or phrases are compound nouns. b) The following words and phrases contain suffixes: **corruption**, **election**, **legislation**, **opposition**, **United Nations**; **government**, **improvement**, **Parliament**; **constituency**, **democracy**, **policy**; prime minister, **voter**; **fascism**, **idealism**; **anarchist**; **citizen**; **Conservative Party**; **council**; **decision**; **dictator**; **economy**; **freedom**; **ideology**; **Labour Party**; **majority**; **monarchy**; **politician**; **president**; **representative**; **satire**.

7. a) These words all begin with a vowel sound (grouped by IPA sound): /i/ **economy**, **election**, **improvement**; /aɪ/ **idealism**, **ideology**; /æ/ **anarchist**; /ɒ/ **opposition**.

b) These words and phrases all end with a vowel sound (grouped by IPA sound): /i/ **democracy**, **Labour Party**, **Conservative Party**, **economy**, **policy**, **monarchy**, **constituency**, **majority**, **ideology**; /ə/ **voter**, **prime minister**, **dictator**; /aɪə/ **satire**; /i:/ **MP**; /eə/ **mayor**.

c) These words and phrases all begin with a consonant sound (grouped by IPA sound): /p/ **Parliament**, **policy**, **politician**, **politics**, **president**, **prime minister**; /k/ **Conservative Party**, **constituency**, **corruption**, **council**; /d/ **debate**, **decision**, **democracy**, **dictator**; /s/ **citizen**, **satire**, **state**, **strike**; /m/ **majority**, **mayor**, **monarchy**; /l/ **Labour Party**, **legislation**; /f/ **fascism**, **freedom**; /t/ **tax**, **trust**; /b/ **bill**; /g/ **government**; /r/ **representative**; /j/ **United Nations**; /v/ **voter**.

d) These words and phrases all end with a consonant sound (grouped by IPA sound): /t/ **anarchist**, **debate**, **government**, **improvement**, **Parliament**, **president**, **state**, **trust**; /n/ **citizen**, **corruption**, **decision**, **election**, **legislation**, **opposition**, **politician**; /m/ **fascism**, **idealism**, **freedom**. /l/ **bill**, **council**; /s/ **tax**, **politics**; /k/ **strike**; /v/ **representative**; /z/ **United Nations**.

8. Many English words contain one or more **silent letters** – letters which are part of the spelling of a word, but which are not pronounced. The aim of this activity is to demonstrate how so often the spelling of a word in English is different from how it sounds when spoken. Below are some good examples of words in this group of discussion words that have silent letters. The silent letters are shown in brackets. No doubt your students will be able to identify some more.

Discussion Words Question Sheet

debat [e], vote [r], fas [c]ism, gover [n]ment, improv [e]ment, Parl [i]ament, sati [r]e, monarc [h]y

9. Answers will vary.

10. There are many possible answers to this question; for example, “tax”, “anarchist”, and “fascism” all contain the vowel sound /æ/. Use the phonetic chart on p.18.6 of the **Talk a Lot Elementary Handbook** (available free from www.englishbanana.com/talkalot) and the phonetic spellings of the vocabulary words on the *Discussion Words (with the IPA)* handout to help your students put the words into sound groups.

Lesson Questions

1. a) strike. b) state. c) decision. d) tax. e) mayor. f) debate.

2. Labour Party *and* Conservative Party.

3. Satire.

4. i) a) Words and phrases which have a weak stress schwa sound /ə/ on the 1st syllable: Conservative Party, corruption, majority, constituency. b) Words and phrases which have a weak stress schwa sound /ə/ on the 2nd syllable: government, representative, politics, Labour Party, policy, anarchist, politician, monarchy, opposition, Parliament, council, freedom, voter. c) Words and phrases which have a weak stress schwa sound /ə/ on the 3rd syllable: government, democracy, improvement, decision, Conservative Party, economy, election, president, dictator, United Nations, corruption, citizen, majority, Parliament. d) Words and phrases which have a weak stress schwa sound /ə/ on the 4th syllable: representative, politician, prime minister, ideology, opposition, constituency, legislation. e) Phrases which have a weak stress schwa sound /ə/ on the 5th syllable: United Nations. ii) 11 words don't have a weak stress schwa sound: fascism, MP, debate, strike, tax, state, satire, idealism, bill, mayor, trust.

5. a) The different political ideologies are: freedom, anarchist (anarchism), idealism, monarchy, fascism, democracy.
b) Answers will vary.

6. Corruption.

7. Economy.

8. a) policy, decision. b) idealism. c) vote. d) government. e) strike. f) opposition. g) voter. h) freedom.

9. The different people are: **mayor** – this person is the leader of a town council; **representative** – this person holds a position of authority; they act and speak on behalf of other people, e.g. an MP should represent the interests of the people who live in their constituency (voting area); **MP** – an MP (Member of Parliament) is a professional politician, who speaks to people in their constituency – their constituents – about issues that affect them, and then represent the views of their constituents when voting for or against legislation in Parliament; **president** – this person is the highest leader of a country, organisation, or company; **dictator** – this person is the ruler of a country, who has not been elected democratically, and who may hold onto power by force; **anarchist** – a person who believes that nobody should be in authority over anybody else, and that everybody should be able to choose the best way to live their own lives; **politician** – a person who is elected to a role in politics, e.g. an MP, or a town councillor; **citizen** – a person who belongs to a particular country; **prime minister** – the leader of a country, who may be second in power to a president or monarch; **voter** – a person who is able to vote in an election.

10. a) legislation. b) improvement.

11. United Nations.

Talk a Lot

Politics – Who would you vote for?

Student A

Ask and answer questions to complete the gaps, and find out information about four prospective MPs. It's the day of a general election. You go to vote and find this choice of candidates on your card. You can only vote for one of them. Who do you vote for? Why?

	Paul Collins	Frank Smith
Party	Conservative Party	
No. Years in Parliament		35 years
Current Job		Opposition backbencher
Biggest Achievement	successful bank merger in 1996	campaigning hard for fairer benefit laws
Family Life	married to Carol; two kids	
Hobbies		
Controversial Views		none
Reason for Entering Politics	to become prime minister	

	Junita Khan	Mr. Wally Wardrobe
Party	Green Party	
No. Years in Parliament		
Current Job	environmental campaigner	checkout supervisor at B&Q
Biggest Achievement		"my boys"
Family Life	divorced; three daughters	
Hobbies		pub quizzes, any kind of sport
Controversial Views	"Britain could be totally flooded!"	
Reason for Entering Politics		a drunken bet that may backfire

-----✂-----

Student B

Ask and answer questions to complete the gaps, and find out information about four prospective MPs. It's the day of a general election. You go to vote and find this choice of candidates on your card. You can only vote for one of them. Who do you vote for? Why?

	Paul Collins	Frank Smith
Party		Labour Party
No. Years in Parliament	14 years	
Current Job	Home Secretary	
Biggest Achievement		
Family Life		Civil Partner called Bob
Hobbies	exotic birds	fishing, cycling, long walks in the country
Controversial Views	"Bring back capital punishment!"	
Reason for Entering Politics		to make the country a better place

	Junita Khan	Mr. Wally Wardrobe
Party		Bigger Wardrobes for All Party
No. Years in Parliament	none	none
Current Job		
Biggest Achievement	raising awareness in schools	
Family Life		separated from Alice; two sons
Hobbies	music, writing poetry, swimming	
Controversial Views		"Free clothes hangers for judges!"
Reason for Entering Politics	to help save the planet

Politics – Who would you vote for?

Task: "Ask and answer questions to complete the gaps, and find out information about four prospective MPs. It's the day of a general election. You go to vote and find this choice of candidates on your card. You can only vote for one of them. Who do you vote for? Why?"

	Paul Collins	Frank Smith
Party	Conservative Party	Labour Party
No. Years in Parliament	14 years	35 years
Current Job	Home Secretary	Opposition backbencher
Biggest Achievement	successful bank merger in 1996	campaigning hard for fairer benefit laws
Family Life	married to Carol; two kids	Civil Partner called Bob
Hobbies	exotic birds	fishing, cycling, long walks in the country
Controversial Views	"Bring back capital punishment!"	none
Reason for Entering Politics	to become prime minister	to make the country a better place

	Junita Khan	Mr. Wally Wardrobe*
Party	Green Party	Bigger Wardrobes for All Party
No. Years in Parliament	none	none
Current Job	environmental campaigner	checkout supervisor at B&Q
Biggest Achievement	raising awareness in schools	"my boys"
Family Life	divorced; three daughters	separated from Alice; two sons
Hobbies	music, writing poetry, swimming	pub quizzes, any kind of sport
Controversial Views	"Britain could be totally flooded!"	"Free clothes hangers for judges!"
Reason for Entering Politics	to help save the planet	a drunken bet that may backfire

* Cultural note: At general elections in the UK, it's possible for any British citizen (or citizen of the Republic of Ireland, or a Commonwealth country) over the age of 18 to stand as an MP, representing their own party – even a wacky made-up party like the "Bigger Wardrobes for All Party" – as long as they have paid a deposit of £500. If they fail to win more than 5% of the vote, they will lose their deposit. This freedom often leads to "joke" candidates appearing at elections alongside serious candidates. The only aims of such candidates may be to have fun, impress their friends, and win back their deposits – or win a bet, like our candidate in this activity. The man standing as Mr. Wally Wardrobe works in a DIY store – B&Q – and has probably sat in the pub with his friends until late at night dreaming up his joke party and identity (including the wardrobe costume!). In the cold light of day – i.e. at the election, when everybody else will be smartly dressed and behaving seriously – he might come to regret his decision!

"Who do you vote for? Why?" Answers will vary. When they have completed filling the gaps, students should discuss – given this choice of four candidates on their polling card – which prospective MP they would vote for in a general election. "Prospective" means that the candidates would like to be MPs, but are not guaranteed the job after the general election – they have to be voted in, to either gain or keep their seat in Parliament. Students should produce appropriate reasons for their choices – why they would choose one candidate rather than another. For example: "I would vote for Junita Khan because she is passionate about the environment, and that's a really important issue these days..." Or... "I would vote for Frank Smith, because it looks like he's trying to help people..." Or... "I wouldn't vote for Mr. Wally Wardrobe, because he isn't a serious candidate..." [etc.]

Sample Questions

Which party does _____ represent?
 How many years has _____ been in Parliament?
 How long has _____ been in Parliament?
 What is _____'s current job?
 What does _____ do for a living?
 What is _____'s biggest achievement?
 Tell me about _____'s family life.
 Is _____ married?
 Has _____ got any children?
 What are _____'s hobbies?

Sample Answers

He / she represents the _____ Party.
 He's / she's been in Parliament for _____ years. /
 He / she hasn't been elected to Parliament before.
 Since _____.
 He / she is _____.
 He / she is _____.
 _____.
 He's / she's _____ / He's / she's got _____.
 Yes, _____ / No, _____.
 Yes, he's / she's got _____ children. / No, he /
 she hasn't got any children.
 _____.

For more fun worksheets, games and quizzes log onto www.englishbanana.com now!

Talk a Lot

Politics

Information Exchange

What does _____ enjoy doing in his / her free time? He / she enjoys _____.

Has _____ got any controversial views? Yes: _____ / No.

Why did _____ enter politics? _____.

What was _____'s reason for entering politics? _____.

Examples

How many years has Paul Collins been in Parliament? He's been in Parliament for fourteen years.

What is Frank Smith's biggest achievement? He has campaigned hard for fairer benefit laws.

Is Junita Khan married? No, she's divorced.

Has Mr. Wally Wardrobe got any controversial views? Yes: "Free clothes hangers for judges!"

[etc.]

Extension 1: you could try to encourage some comparative/superlative questions and sentences too, for example:

Who has been in Parliament the longest? Frank Smith has...

Who has got the most children? Junita Khan has...

Which prospective MP has got the silliest reason for entering politics? Mr. Wally Wardrobe has...

[etc.]

Extension 2: you could get students to develop short role plays using the characters of the prospective MPs. For example, a small group of students could hold a debate, with each student playing one of the characters and arguing about a controversial political issue, such as, "This House believes that we should bring back capital punishment!", or "This house believes that global warming doesn't exist!" Another option is for students to work in pairs, with one playing an interviewer on a political TV programme, and the other playing one of the four candidates. What questions would you ask, if you were the interviewer? How would you answer them to your best advantage, if you were one of the candidates?

[etc.]

Multi-Purpose Text

Tough at the Top (Original Text)

Line

1 After school on Monday, Maggie had another meeting of the “Magic Holidays
2 Committee”, which she chairs. The aim of the committee is to raise money for school
3 trips for less-privileged pupils. Malcolm, the main fundraiser, made some astonishing
4 allegations about Tim, the treasurer, announcing that Tim had stolen forty pounds
5 from committee funds. Tim denied it, but by Tuesday afternoon Malcolm had given
6 Maggie an ultimatum: “Either he goes or I quit!” Maggie was under intense pressure
7 because Malcolm was a very good fundraiser. What’s more, she couldn’t believe that
8 Tim would steal from them. Besides, she knew that Malcolm had been trying to get
9 the treasurer’s job for a few months. Malcolm continued to threaten, but Maggie kept
10 a cool head, and demanded evidence of misconduct. On Thursday Tim unexpectedly
11 resigned from his post and Maggie’s heart sank. She heard from Kim, a trusted
12 colleague on the committee, that Malcolm had discovered documents proving that
13 Tim *had* unlawfully taken committee money for his own use. By close of play on
14 Friday Maggie had heard a full confession from Tim, who claimed that he had only
15 *borrowed* the cash “...to help my sister pay back her student loan debt.” Tim was
16 sacked from the committee and Kim was voted into the role. Malcolm said for the
17 record that he had only acted in the interests of the committee and he stayed on as
18 main fundraiser. Maggie felt a weight lifting when the weekend finally got underway.
19 “It’s true what they say, mum,” she told Kathleen on Friday evening after a long bath,
20 “A week really *is* a long time in politics!”
(271 words)

Tough at the Top (Text with 20 Differences)

After school on **1. Sunday (Monday)**, Maggie had another meeting of the “Magic Holidays Committee”, which she chairs. The aim of the committee is to raise **2. funds (money)** for school trips for less-privileged pupils. Malcolm, the **3. name (main)** fundraiser, made some astonishing allegations about Tim, the treasurer, announcing that Tim **4. has (had)** stolen forty pounds from committee funds. Tim denied it, but by Tuesday **5. morning (afternoon)** Malcolm had given Maggie an ultimatum: “Either he goes or I quit!” Maggie was under intense pressure because Malcolm was a **6. berry (very)** good fundraiser. What’s more, she couldn’t believe that Tim would steal from them. Besides, she knew that Malcolm had been trying to **7. net (get)** the treasurer’s job for a few **8. mums (months)**. Malcolm continued to threaten, but Maggie kept a **9. full (cool)** head, and demanded **10. elegance (evidence)** of misconduct. On Thursday Tim unexpectedly **11. replied (resigned)** from his post and Maggie’s heart sank. She heard from Kim, a trusted **12. friend (colleague)** on the committee, that Malcolm had discovered documents proving that Tim *had* unlawfully taken committee money for his own **13. shoes (use)**. By close of play on Friday Maggie had heard a full confession from **14. Kim (Tim)**, who claimed that he had only *borrowed* the cash “...to help my sister pay **15. black (back)** her student loan debt.” Tim was sacked from the committee and Kim was voted into the role. Malcolm said for the **16. second (record)** that he had only acted in the interests of the committee and **17. she (he)** stayed on as main fundraiser. **18. Kathleen (Maggie)** felt a weight lifting when the weekend finally got **19. on the way (underway)**. “It’s true what they say, mum,” she told Kathleen on Friday evening after a long bath, “A week really *is* a long **20. dime (time)** in politics!”

Discussion Questions

1. Do you vote? Which party do you usually vote for in... a) local elections, b) general elections? Why? If you don't vote, why not? Should it be compulsory to vote in general elections?

2. Would you like to get involved in local politics – either by joining your school or town council, or by joining a political party and running for election? Why? / Why not? If yes, what would you try to change? How easy would it be to get what you wanted?

3. What is the biggest decision you have ever had to make? How did you tackle the problem? Did anybody help you? What happened?

4. Does your country have a monarchy? Do you think that a royal family is an asset to a country, or a waste of money? Why?

5. Who is the leader in your family? How do you know that they are in charge? What kind of leader are they? Is there a hierarchy of power in your family that everybody follows? Where do you fit in?

6. What is the political system in your country? How well does it work? Why do some political systems work in some countries but fail in others? Is democracy the best political model for all countries? Why? / Why not?

7. Do you hold any positions of authority, or have you in the past? What kind of leader are you? Do you like power? How do / did you make decisions within the group? How do / did you deal with people who disagreed with you?

8. How free is your country? If your family's civil liberties were threatened by your government, how would you react? Have you ever had to resist state oppression? What happened? How far would you stand up against authority for something that you believed in passionately?

Talk a Lot

Politics

Role Plays

1. “Can I rely on your vote on Thursday?”

- Place: Your front doorstep
Time: 8.18 pm
Characters: You and three candidates in a general election (played by the same student)
Situation: You’ve just got home from a busy day at work, made tea for your family, and now you’re relaxing watching an important football match. The doorbell rings
- Scenes:
- i) The first candidate – from a right-wing party – tells you about their policies. You try to get rid of them so that you can watch the rest of the match
 - ii) Half an hour later another candidate rings the doorbell. This time they are from a left-wing party. They absolutely insist on explaining their policies...
 - iii) Twenty minutes later a third candidate turns up. This time they’re from a radical single-issue party. You try your best to get them to leave, but they are really quite determined to convert you to their cause...

If there are three people in the group, the third character could be:

- a) A member of your family who hates both football and politics
- b) A nosy neighbour, who is also standing as a candidate in the election

2. “Me!” “Me!”

- Place: Stone Age Britain
Time: 12,400 BC (9.05 am)
Characters: You are a caveman – the strongest caveman in your camp. The other student is your rival for power. (*Note: because language has yet to develop, the only word that you know is “Me!” No other words are allowed during the role play, although you can say “Me!” in many different ways*)
Situation: You are roaming a grassy plain hunting for food for your family
- Scenes:
- i) You discover the carcass of a huge giraffe. Your rival comes along and tries to steal the carcass. You fight to see who is the strongest. Unfortunately, your rival finds a hefty wooden club, and employs it to beat you over the head repeatedly, until you hand over the giraffe carcass
 - ii) The next day, while out hunting and gathering, you clash again over food. But this time you have the superior weapon – a sabre-toothed tiger! Your rival is very afraid and runs away, pursued by the tiger
 - iii) A few months later, the whole camp is starving. While looking for food you both find an enormous woolly mammoth carcass at the same time. Neither of you can move it on your own. You need each other to get it back to the camp. Do you fight for supremacy, or work together for the common good?

If there are three people in the group, the third character could be:

- a) The dead giraffe, then the sabre-toothed tiger, then the woolly mammoth carcass
- b) A cavewoman and mother, who tries to bring peace between the warring rivals

Talk a Lot

Politics

Role Plays

Role Play Extensions

Here are some additional situations for students to use as starting points for new role plays based on the topic of "Politics":

----- ✂ -----

Politics

1. You are butler to the king in a country which has had a monarchy for over 1,000 years. One day there is a revolution and the people take over. They decide to get rid of the monarchy. The revolutionaries order you to inform the king that he is no longer required. You don't want to do this, because you have been a loyal servant to the royal family for nearly fifty years, but the alternative is to be thrown into prison – or worse! First you try to be tactful and break the news gently. When the king refuses to accept it, you have to be more persuasive. Finally, when the king declares that he will never leave his position, you have to take more drastic action to get rid of him – before the revolutionaries come looking for you...

2. You work for the navy on board a submarine. The crew is organised in a very democratic way, with everybody able to take part in the decision-making process via a committee. One day there is an emergency and your submarine starts to sink. The committee meets to decide what action to take. The problem is that nobody can agree what to do, and everybody comes up with a different response to the crisis. The rules of the committee state clearly that there must be a majority in agreement before action can be taken. As discussion and debate continue, the submarine sinks slowly to the ocean floor. Will your committee be able to agree what to do before the oxygen runs out?

Janey hasn't forgotten her password for Facebook again.
6. (Modal Verbs) You can change your home page by clicking the link on your browser. / How can I change my home page? / By clicking the link on your browser. / Can I change my home page by clicking the link on my browser? / Yes, you can. / Can I change my home page by restarting my computer? / No, you can't. You can't change your home page by restarting your computer.
7. (Future Forms) Martin is going to contact his ISP, because his connection is too slow. / Why is Martin going to contact his ISP? / Because his connection is too slow. / Is Martin going to contact his ISP, because his connection is too slow? / Yes, he is. / Is Martin going to contact his ISP, because his broadband doesn't work? / No, he isn't. Martin isn't going to contact his ISP, because his broadband doesn't work.
8. (First Conditional) If Becca can't download the latest episode of "Doctor Who", she'll watch it on YouTube. / What will Becca do, if she can't download the latest episode of "Doctor Who"? / She'll watch it on YouTube. / Will Becca watch the latest episode of "Doctor Who" on YouTube, if she can't download it? / Yes, she will. / Will Becca watch the latest episode of "Doctor Who" at a friend's house, if she can't download it? / No, she won't. Becca won't watch the latest episode of "Doctor Who" at a friend's house, if she can't download it.

Sentence Block Extensions

For all of the sentence block starting sentences there are at least two different wh- question words that can be used to make sentence blocks. In one case eight different sentence blocks can be made from the same starting sentence when using different wh- question words. There isn't room here to print in full all of the sentence block extensions from this unit. Hopefully, the answers given above will give you the teacher (or you the student) enough guidance to be able to make the sentence block extensions for this unit with confidence.

For example, let's look at the third starting sentence from this unit:

For more fun worksheets, games and quizzes log onto www.englishbanana.com now!

Talk a Lot

Internet

Sentence Blocks

Gill emailed her parents some holiday photos yesterday.

On the handout the wh- question word that is given is "What", but this starting sentence also works equally well with seven other wh- question words and phrases: "What" (2nd), "What kind", "When", "Who" (x2), "Which", and "How many":

What did Gill do yesterday? / She emailed her parents some holiday photos.

What kind of photos did Gill email her parents yesterday? / Some holiday photos.

When did Gill email her parents some holiday photos? / Yesterday.

Who emailed her parents some holiday photos yesterday? / Gill did.

Who did Gill email some holiday photos yesterday? / Her parents.

Which photos did Gill email her parents yesterday? / Some holiday photos.

How many holiday photos did Gill email her parents yesterday? / Some holiday photos.

The idea is easy. Change the wh- question word each time and you can make several completely different sentence blocks from the original starting sentence, simply by finding the relevant information for the answer in the starting sentence. As you can see below, sometimes the same wh- question word can be used more than once to make different sentence blocks.

You could cut out and give the section below to students:

Internet

Make new sentence blocks from the starting sentences in this unit using different "wh-" question words:

	WHAT	WHERE	WHEN	WHO	WHY	WHICH	HOW
1.	what (x2)		when	who		which	
2.	what (x3)	where				which	
3.	what (2 nd) what kind		when	who (x2)		which	how many
4.	what (x3)	where		who	why	which	how long
5.	what (x2)			who whose			
6.	what (x2)			who		which	
7.	what			who (x2)			
8.	what (2 nd)	where		who		which	how

Sentence Blocks

-----✂-----

Sentence Blocks – Sentence Stress and Vowel Sounds

Task 1: Circle the content words in the following starting sentences. (For answer, see Task 2 below.)

Internet

1. Danny checks his email account every morning.
2. Georgia is posting a status update on Facebook about her new dog.
3. Gill emailed her parents some holiday photos yesterday.
4. Mariana was searching online for information about Barbados for two hours last night.
5. Janey has forgotten her password for Twitter again.
6. You can change your home page by clicking the link on your browser.
7. Martin is going to contact his ISP, because his connection is too slow.
8. If Becca can't download the latest episode of "Doctor Who", she'll watch it on YouTube.

-----✂-----

Sentence Blocks – Sentence Stress and Vowel Sounds

Task 2: Underline the stressed syllable in each content word, shown in black. (For answer, see Task 3 below.)

Internet

1. Danny checks **his** email account every morning.
2. Georgia **is** posting a status update **on** Facebook **about** her new dog.
3. Gill emailed **her** parents **some** holiday photos yesterday.
4. Mariana **was** searching online **for** information **about** Barbados **for** two hours last night.
5. Janey **has** forgotten **her** password **for** Twitter again.
6. You can change **your** home page **by** clicking the link **on** your browser.
7. Martin **is** going to contact **his** ISP, **because** **his** connection is too slow.
8. If Becca can't download **the** latest episode of "Doctor Who", **she'll** watch it **on** YouTube.

Internet

Sentence Blocks

Sentence Blocks – Sentence Stress and Vowel Sounds

Task 3: Write the correct vowel sound above each stressed syllable (underlined). (For answer, see below.)

Internet

1. Danny checks his email account every morning.
2. Georgia is posting a status update on Facebook about her new dog.
3. Gill emailed her parents some holiday photos yesterday.
4. Mariana was searching online for information about Barbados for two hours last night.
5. Janey has forgotten her password for Twitter again.
6. You can change your home page by clicking the link on your browser.
7. Martin is going to contact his ISP, because his connection is too slow.
8. If Becca can't download the latest episode of "Doctor Who", she'll watch it on YouTube.

----- ✂ -----

Sentence Blocks – Sentence Stress and Vowel Sounds

Each content word (shown in black) contains one syllable with a strong stress, which is underlined. Each stressed syllable has one vowel sound. The vowel sounds on stressed syllables are the most important sounds in the sentence. They make the "sound spine" of the sentence. To improve communication, try to get the sound spine right.

Internet

- /æ/ /e/ /i:/ /aʊ/ /e/ /ɔ:/
1. Danny checks his email account every morning.

/ɔ:/ /əʊ/ /eɪ/ /ɪ/ /eɪ/ /u:/ /ɒ/

 2. Georgia is posting a status update on Facebook about her new dog.

/ɪ/ /i:/ /eə/ /ɒ/ /əʊ/ /e/

 3. Gill emailed her parents some holiday photos yesterday.

/æ/ /ɜ:/ /aɪ/ /eɪ/ /eɪ/ /u:/ /aʊə/ /ɑ:/ /aɪ/

 4. Mariana was searching online for information about Barbados for two hours last night.

/eɪ/ /ɒ/ /ɑ:/ /ɪ/ /e/

 5. Janey has forgotten her password for Twitter again.

/eɪ/ /əʊ/ /eɪ/ /ɪ/ /ɪ/ /aʊ/

 6. You can change your home page by clicking the link on your browser.

/ɑ:/ /ɒ/ /i:/ /e/ /u:/ /əʊ/

 7. Martin is going to contact his ISP, because his connection is too slow.

/e/ /ɑ:/ /əʊ/ /eɪ/ /e/ /ɒ/ /u:/ /ɒ/ /u:/

 8. If Becca can't download the latest episode of "Doctor Who", she'll watch it on YouTube.

General Questions

1. Are there any words or phrases that you don't know? Find them in a dictionary.
2. Take some cards. Describe the word or phrase on a card without saying it.
3. How many words and phrases have... a) 1 syllable, b) 2 syllables, c) 3 syllables, d) 4 syllables?
4. Put words and phrases with more than one syllable into groups according to where the strong stress falls.
5. Put the words and phrases into alphabetical order.
6. Find and put into groups... a) compound nouns, b) words with suffixes.
7. Find words that... a) begin with a vowel sound, b) end with a vowel sound, c) begin with a consonant sound, d) end with a consonant sound. Put them into sound groups.
8. Find words which contain silent letters (letters which are not pronounced).
9. How many words and phrases can you remember when they are all turned over?
10. Put words and phrases that contain the same sounds into groups, using the IPA.

Lesson Questions

1. Which word sounds like... a) pink, b) cracker, c) bookie, d) cat, e) ham, f) amount, g) bitter, h) decorum, i) protection, j) mystery, k) female?
2. This is something that I can plug into my computer and use to transfer and save files.
3. a) Find the different websites. b) Talk about each for one minute, e.g. what is it for? Do you use it? Why is it popular? Do you have a similar site in your country? [etc.]
4. a) Find three negative things connected with the internet. b) Describe them.
5. "I had to change my _____ for Facebook recently because my brother discovered it."
6. This is the company that supplies my internet connection.
7. i) Find a word which has a weak stress schwa sound /ə/ on the... a) 1st syllable, b) 2nd syllable, c) 3rd syllable, etc. ii) Do any words and phrases *not* have a schwa?
8. Which word means... a) web address, b) an audio programme, c) best places, d) about me, e) the internet, f) added file, g) defence, h) 'net software?
9. This word means a list of websites that you have visited recently.
10. Find something that exists physically.

Internet

Discussion Words Question Sheet

Answers

General Questions

1. Answers will vary.

2. Answers will vary.

3. a) 3 words have 1 syllable: link, chat, spam. b) 23 words and phrases have 2 syllables: hacker, email, favorites*, download, Google, cookie, podcast, webcam, password, home page, forum, account, Twitter, profile, Facebook, browser, inbox, pen drive, comment, YouTube, virus, website, Wi-Fi. c) 11 words and phrases have 3 syllables: internet, cyberspace, attachment, history, world wide web, connection, search engine, ISP¹, username, URL², web server. d) 3 words and phrases have 4 syllables: social network, advertising, security.

**Note: we have used the American English spelling of the word "favorites", because this spelling is generally used by browsers, e.g. Internet Explorer.*

¹ ISP is an acronym for "internet service provider". ² URL is an acronym for "uniform resource locator".

4. 2 syllables: these words and phrases have the strong stress on the first syllable: **hacker**, **email**, **favorites**, **download**, **Google**, **cookie**, **podcast**, **webcam**, **password**, **home page**, **forum**, **Twitter**, **profile**, **Facebook**, **browser**, **inbox**, **pen drive**, **comment**, **YouTube**, **virus**, **website**, **Wi-Fi**; this word has the strong stress on the second syllable: **account**. 3 syllables: these words and phrases have the strong stress on the first syllable: **internet**, **cyberspace**, **history**, **search engine**, **username**, **web server**; these words have the strong stress on the middle syllable: **attachment**, **connection**; these words and phrases have the strong stress on the third syllable: world wide **web**, **ISP**, **URL**. 4 syllables: this word has the strong stress on the first syllable: **advertising**; this word has the strong stress on the second syllable: **security**; this phrase has the strong stress on the third syllable: social **network**.

5. Account, advertising, attachment, browser, chat, comment, connection, cookie, cyberspace, download, email, Facebook, favorites, forum, Google, hacker, history, home page, inbox, internet, ISP, link, password, pen drive, podcast, profile, search engine, security, social network, spam, Twitter, URL, username, virus, webcam, web server, website, Wi-Fi, world wide web, YouTube.

6. a) The following words are compound nouns: YouTube (you + tube), download (down + load), Facebook (face + book), inbox (in + box), internet (inter + net), password (pass + word), podcast (pod + cast), username (user + name), webcam (web + cam), website (web + site), cyberspace (cyber + space), social network (net + work). b) The following words and phrases contain suffixes: web **server**, **Twitter**, **browser**, **hacker**; **attachment**, **comment**; **connection**; **cookie**; **history**; **profile**; **search engine**; **security**; **social network**; **advertising**.

7. a) These words all begin with a vowel sound (grouped by IPA sound): /ɪ/ **inbox**, **internet**; /ə/ **attachment**, **account**; /æ/ **advertising**; /i:/ **email**; /aɪ/ **ISP**.

b) These words and phrases all end with a vowel sound (grouped by IPA sound): /ə/ web **server**, **hacker**, **Twitter**, **browser**; /i/ **cookie**, **history**, **security**; /i:/ **ISP**; /aɪ/ **Wi-Fi**.

c) These words and phrases all begin with a consonant sound (grouped by IPA sound): /w/ **Wi-Fi**, **webcam**, **world wide web**, **web server**, **website**; /s/ **social network**, **spam**, **cyberspace**, **security**, **search engine**; /p/ **podcast**, **password**, **profile**, **pen drive**; /k/ **cookie**, **connection**, **comment**; /h/ **history**, **home page**, **hacker**; /f/ **forum**, **Facebook**; /tʃ/ **chat**; /d/ **download**; /g/ **Google**; /t/ **Twitter**; /b/ **browser**; /f/ **favorites**; /j/ **YouTube**, **URL**; /l/ **link**; /v/ **virus**.

d) These words and phrases all end with a consonant sound (grouped by IPA sound): /t/ **chat**, **internet**, **podcast**, **attachment**, **account**, **comment**, **website**; /l/ **email**, **Google**, **profile**, **URL**; /m/ **webcam**, **spam**, **forum**, **username**; /k/ **social network**, **Facebook**, **link**; /s/ **cyberspace**, **inbox**; /d/ **download**, **password**; /n/ **connection**, **search engine**; /b/ **world wide web**, **YouTube**; /dʒ/ **home page**; /ɪŋ/ **advertising**; /v/ **pen drive**; /s/ **virus**; /z/ **favorites**.

8. Many English words contain one or more **silent letters** – letters which are part of the spelling of a word, but which are not pronounced. The aim of this activity is to demonstrate how so often the spelling of a word in English is different from how it sounds when spoken. Below are some good examples of words in this group of discussion words that have silent letters. The silent letters are shown in brackets. No doubt your students will be able to identify some more.

Discussion Words Question Sheet

browse [r], ha [c] ker, se [a] rch engine, home pag [e], downlo [a] d, Fac [e] book, adve [r] tising

9. Answers will vary.

10. There are many possible answers to this question; for example, “account”, “browser”, and “download” all contain the vowel sound /aʊ/. Use the phonetic chart on p.18.6 of the **Talk a Lot Elementary Handbook** (available free from www.englishbanana.com/talkalot) and the phonetic spellings of the vocabulary words on the *Discussion Words (with the IPA)* handout to help your students put the words into sound groups.

Lesson Questions

1. a) link. b) hacker. c) cookie. d) chat. e) spam. f) account. g) Twitter. h) forum. i) connection. j) history. k) email.

2. Pen drive.

3. a) The different websites are: Google, Twitter, Facebook, and YouTube. b) Answers will vary.

4. a) Spam, virus, and hacker. b) Answers will vary. For example, **spam** is email that you don't want, usually offering products or services that you don't require; a **virus** is a malicious program that you could download from the internet to your computer. It is likely to damage your computer. A **hacker** is a person who breaks into a private computer network.

5. Password.

6. ISP (internet service provider).

7. i) a) Words which have a weak stress schwa sound /ə/ on the 1st syllable: **attachment**, **account**, **connection**. b) Words and phrases which have a weak stress schwa sound /ə/ on the 2nd syllable: **virus**, **internet**, **social network**, **advertising**, **history**, **cyberspace**, **forum**, **Twitter**, **username**, **browser**, **favorites**, **hacker**, **Google**. c) Words and phrases which have a weak stress schwa sound /ə/ on the 3rd syllable: **web server**, **security**, **connection**, **attachment**. d) Words and phrases which have a weak stress schwa sound /ə/ on the 4th syllable: none. ii) 21 words and phrases don't have a weak stress schwa sound: YouTube, link, email, download, cookie, podcast, spam, webcam, password, home page, world wide web, profile, ISP, search engine, Facebook, inbox, pen drive, chat, URL, website, Wi-Fi.

8. a) URL. b) podcast. c) favorites. d) profile. e) cyberspace / world wide web. f) attachment. g) security. h) browser.

9. History.

10. The nouns which are objects and therefore have a physical form and presence (as opposed to being abstract nouns, or things that we cannot see or touch) are: **webcam**, **web server**, and **pen drive**.

Answers

Internet – What kind of internet user are you?

Task: "Ask and answer questions to complete the gaps, and find out information about four people who use the internet regularly. Who is the most similar to you? In what ways?"

	Suzi	"Gonk"*
Age / Age when first online	18 / 7	10 / 4
Type of user / Avg. hours per day	internet native / 6	gamer / 8
Browser / Type of connection	Internet Explorer / broadband	Firefox / fast broadband
# Friends on Facebook / Twitter	1,244 / 1,479	0 / 18
Prefers to communicate by...	instant message	email
Yesterday at 9.25am	chatting with boyfriend on MySpace	searching for games during IT class
Yesterday at 1.48 pm	chatting up boyfriend's mate in café	playing games during English class
Yesterday at 11.52 pm	chatting with new boyfriend on MySpace	completing 89 th level on "World of Heroes" after five hours online

	Patty	Richard
Age / Age when first online	38 / 30	91 / 90
Type of user / Avg. hours per day	proud mum / 2	silver surfer / 1
Browser / Type of connection	Google Chrome / broadband	Internet Explorer / dial-up
# Friends on Facebook / Twitter	104 / 43	12 / not registered yet
Prefers to communicate by...	Skype and email	snail mail
Yesterday at 9.25 am	posting super new pictures of family	talking to brother in Bali via Skype
Yesterday at 1.48 pm	reading friends' comments about family	emailing funds to brother via PayPal
Yesterday at 11.52 pm	deleting several pictures of family	celebrating brother's release on bail

"Who is the most similar to you? In what ways?" Answers will vary. When they have completed filling the gaps, students should discuss which person's internet use is most similar to their own. They should produce appropriate reasons for their choices – why they have chosen one person rather than another. For example: "I'm most similar to Patty, because I often use Skype, and I enjoy posting pictures of my family on Facebook..." Or... "I'm not at all like Richard, because I use broadband, rather than dial-up, and I've got lots of friends on Facebook and Twitter..." [etc.]

*Note: "Gonk" could be this boy's online nickname/username!

Sample Questions

How old is _____?
 How old was _____ when she/he first went online?
 What type of user is _____?
 How many hours per day does _____ spend online, on average?
 Which browser does _____ use?
 What type of connection does _____ have?
 How many friends has _____ got on Facebook?
 How many friends has _____ got on Twitter?
 How does _____ prefer to communicate?
 What was _____ doing online yesterday at 9.25 am?
 What was _____ doing online yesterday at 1.48 pm?
 What was _____ doing online yesterday at 11.52 pm?

Sample Answers

_____ is _____ years old.
 _____ was _____ years old when she/he first went online.
 _____ is a/an _____.
 _____ spends about _____ hours per day online, on average.
 She/he uses _____.
 _____ has a _____ connection.
 She/he's got _____ friends on Facebook.
 She/he's got _____ friends on Twitter.
 _____ prefers to communicate by _____.
 She/he was _____.
 She/he was _____.
 She/he was _____.

Examples

How old was Suzi when she first went online?
 What type of user is "Gonk"?
 How many friends has Patty got on Facebook?
 What was Richard doing online yesterday at 1.48 pm?
 [etc.]

Suzi was seven years old when she first went online.
 "Gonk" is a gamer.
 She's got one hundred and four friends on Facebook.
 He was emailing funds to his brother via PayPal.

New User (Original Text)

Line

1 It was hot – a still June night – and Maggie was sitting upstairs with her dad, patiently
2 showing him how to set up his own email account. “You need to think of a username,
3 dad,” she said. “What about my name – ‘Rob Jones’?” asked Rob. “That’s gone, I’m
4 sure,” replied Maggie. “There’s more than one Rob Jones in the world, dad!” They
5 both grinned. “It has to be something lowercase, and all one word. And put a few
6 numbers in it too. But make it easy to remember.” “Maybe ‘robjones1968’? No, that’s
7 already gone.” Eventually they chose a username and password for Rob, and Maggie
8 showed him how to send and receive an email. After years of ignoring his family’s
9 nagging, Rob now realised that he needed to be online – mainly so that he could find
10 a new driving job. He had been made redundant over a month ago, and his personal
11 adviser at the Jobcentre had suggested he look online. “I’ve got to get on with my
12 revision, dad,” said Maggie. “But try using Google to search for driving jobs.” Rob felt
13 like a kid with a new bike. He could feel the possibilities opening up before him.
14 “What you doin’, dad man?” Dennis called, throwing his dirty football boots on the
15 floor. “I’m going to find a job, son,” replied Rob brightly, “Surfing the ‘net!” “I never
16 took you for a silver surfer, dad,” sniggered Dennis, slurping from a pot of yoghurt. “I
17 need to check my Facebook now. Can I?” “In a minute, son.” Dennis loped off and
18 found his sister, “Hey – geek girl! Can I borrow your phone?” “What for?” Maggie’s
19 voice rose from beneath a mountain of GCSE revision guides. “I need to get online.”
(290 words)

New User (Text with 20 Differences)

It was hot – a still June night – and Maggie was sitting upstairs with her **1. lad (dad)**,
patiently showing him how to set up his own email **2. a cow (account)**. “You need to think of
a **3. new name (username)**, dad,” she said. “What about my name – ‘Rob Jones’?” asked
Rob. “That’s **4. gong (gone)**, I’m sure,” replied Maggie. “There’s more than one Rob Jones
in the world, dad!” They both **5. grim (grinned)**. “It has to be something lowercase, **6. an
(and)** all one **7. world (word)**. And put a few numbers in it too. But make it easy to
remember.” “Maybe ‘robjones1968’? No, that’s **8. steady (already)** gone.” Eventually they
chose a username and password for Rob, and Maggie showed him how to send and
9. achieve (receive) an email. After years of ignoring his **10. granny’s (family’s)**
nagging, Rob now realised that he needed to be **11. align (online)** – mainly so that he could
find a **12. few (new)** driving job. He had been made **13. red under (redundant)** over a
month ago, and his personal adviser at the Jobcentre had suggested he look online. “I’ve got
to **14. let on (get on)** with my revision, dad,” said Maggie. “But try using Google to
15. perch (search) for driving jobs.” Rob **16. fell (felt)** like a kid with a new bike. He could
feel the possibilities opening up before him. “What you doin’, dad man?” Dennis called,
throwing his dirty football boots on the floor. “I’m going to find a job, son,” replied Rob brightly,
“**17. Working (Surfing)** the ‘net!” “I never took you for a silver surfer, dad,” sniggered
Dennis, slurping from a pot of yoghurt. “I **18. knee (need)** to check my Facebook now.
Can I?” “In a minute, son.” Dennis loped off and found his sister, “Hey – geek girl! Can I
19. tomorrow (borrow) your phone?” “What for?” Maggie’s voice rose from beneath a
20. mound (mountain) of GCSE revision guides. “I need to get online.”

New User (Comprehension Questions)

1. What month was it?
2. What time of day was it?
3. What was Dennis eating?
4. Which website did Dennis want to go on?
5. Did Rob feel optimistic or pessimistic about using the internet?
6. Who had nagged Rob to use the internet for years?
7. When was Rob made redundant?
8. Why did Dennis want to borrow Maggie's phone?
9. What was the weather like?
10. What did Dennis throw on the floor?
11. What kind of job did Rob want to find online?
12. What did Maggie do after helping Rob?
13. What was Dennis's attitude to Rob using the internet?
14. Who showed Rob how to set up an email account?
15. What did Dennis call Maggie?
16. Did Maggie have a lot of books or a few?
17. Why did Dennis want to use the internet?
18. How long had Rob ignored his family's advice to get online?
19. Who is Maggie's sibling?
20. What did Rob need to think of to set up his email account?
21. What did Dennis want to borrow from Maggie?
22. Which search engine did Maggie recommend to Rob?
23. What was Maggie reading?
24. Who suggested that Rob ought to look for a job online?
25. Why did Rob want to use the internet?
26. Why couldn't Rob choose 'Rob Jones' as his username?
27. Why did Rob feel 'like a kid with a new bike'?
28. Does Maggie and Dennis's other parent appear in the story?
29. Where does Rob's personal adviser work?
30. Where did Dennis lope off to?

-----✂-----

New User (True, False, or Unknown?)

1. Maggie had a lot of revision to do.
2. Dennis was friendly and polite to his dad and sister.
3. Maggie ran out of patience with her dad.
4. Maggie was really pleased that her dad had gone online.
5. Maggie was sitting in the kitchen with her dad.
6. Rob already had an email account.
7. Rob chose the username 'robjones1968'.
8. Maggie had a much better phone than Dennis.
9. Rob had been afraid to use the internet because he thought that it would be too difficult for him.
10. Dennis thought that his dad being online was funny.
11. Rob wanted to find work as a mechanic.
12. Rob Jones is a common name.
13. Dennis was eating a strawberry yoghurt.
14. Maggie patiently showed her dad what to do.
15. Dennis wanted to get online to use Twitter.
16. Rob was excited about using the internet.
17. Rob's family supported his decision to go online.
18. Maggie was revising for her A' Levels.
19. The username that Rob chose included his year of birth.
20. Rob was upset about losing his job.
21. Rob and Maggie chose a username and password for Rob's new email account.
22. Maggie is an expert at using the internet.
23. The story took place during the summer.
24. Rob lost his job last week.
25. Rob's personal adviser at the Jobcentre is called Joan.
26. Rob was trying to find a job as a driver.
27. It had been cloudy all day.
28. The username they chose for Rob had lowercase letters.
29. It was a hot and breezy night.
30. Dennis had been playing football.

Discussion Questions

1. How often do you use the internet? What do you do online? What are your favourite websites? Why? Do you spend too much time surfing the 'net? Do you know anyone who doesn't use the internet?

2. What are the benefits of the internet? What can you do now, that you couldn't do before? What are the disadvantages of the internet?

3. Can you remember life before the internet? How did you communicate with your family and friends? Do you communicate with people more often now, as a result of the internet? Can you imagine life without the internet? What impact would it have on your everyday life?

4. How often do you visit social networking sites? Which ones? Why are they so popular? Do you feel that your personal information is safe online? If no, what steps could you take to protect yourself?

5. Have you got your own website or blog? If yes, tell me about it. How did you create it and why? How easy is it to build and maintain a website? What factors do you need to consider?

6. How has the internet changed in the last ten years?
How do you think it will change and develop in the next ten years?

7. Are you happy with your ISP? Is your internet connection speed fast enough? How much does it cost per month? Is it good value for money? Should everybody in the world have free access to the internet? Why? / Why not? What positive benefits could result? Who would pay for it?

8. Do you think that the internet should be controlled by your government, or by an international agency? Why? / Why not?

Internet

Role Plays

1. “Should I click here?”

Place: At your home
Time: 10.34 am
Characters: You and your elderly grandma
Situation: You work as a professional web designer. Your grandma’s beloved dog has just died, so to cheer her up you offer to help her learn how to use the internet. It’s difficult to teach her because she has never used a computer before, while you are a computer expert – and not a very patient person

Scenes: i) You teach her how to use a search engine, but she can’t work the mouse
ii) You try to teach her to send an email. Clicking wildly, she accidentally sends an offensive email to your mother-in-law that you had saved as a draft
iii) You leave the room for a moment. When you get back your computer screen has frozen. Your grandma has downloaded a virus by mistake, which has deleted all of your web design work – worth thousands of pounds! But you can’t be too angry, because she’s your grandma and her dog has died...

If there are three people in the group, the third character could be:

- a) One of your grandma’s friends from the day centre, who is against new technology
- b) One of your clients, whose work has been deleted, but who needs it finished today

2. “Hmm... this looks familiar!”

Place: At school, college, or university
Time: 4.08 pm
Characters: You are a student and the other person is a teacher (or lecturer)
Situation: Your teacher has invited you to meet them, to talk about your recent homework assignment

Scenes: i) The teacher accuses you of plagiarism, saying that you have copied 80% of your assignment from an article on the internet. You deny it, but they show you the evidence. You apologise and promise not to do it again. The teacher warns that next time they will give you detention for a month!
ii) A week later, your teacher again accuses you of plagiarism. You deny it, but they reveal that you have plagiarised *their* research work! To avoid the detention, you say how good you thought it was. The teacher is flattered and gives you their latest (long) article to proof-read – as well as the detention
iii) While proof-reading it, you recognise some paragraphs that look familiar. You realise that your teacher has copied another work published online. You threaten to reveal their plagiarism unless they remove the detention...

If there are three people in the group, the third character could be:

- a) The head teacher of the school, or the principal of the college / university
- b) The writer whose work the teacher has copied

Internet

Role Plays

Role Play Extensions

Here are some additional situations for students to use as starting points for new role plays based on the topic of "Internet":

Internet

1. You are at the library, using the internet for free. You are only allowed to use it for thirty minutes, because other people are waiting, but you become engrossed in playing a complicated online game that will last for much longer. The librarian – a very quiet, timid person – politely asks you to finish your session after thirty minutes. You lie and say that you are downloading an important file for your homework that will take about twenty more minutes. After one hour, the librarian again tries to get you to leave the computer, but you tell them that you have to wait for an important message from a relative who has just gone into hospital. Later, as the library is about to close, you are still trying to complete the game. Try to persuade the librarian – and later the security guard and cleaning staff – that you should be allowed to stay on the computer just a little while longer...

2. You spend most evenings downloading music and films from the internet – illegally. One day your internet connection speed is cut dramatically and it takes forever for even a normal web page to load. You phone your ISP to complain, and they tell you that you have been branded a web pirate because of all the illegal downloading. You use your charm to persuade them to increase the speed again. A month later, you have returned to your downloading habits, and once again your internet speed is cut – without warning. You phone your ISP again and this time you blame neighbours in your apartment building for hacking into your Wi-Fi connection. You give names and addresses of your neighbours to the ISP, and they lift the restriction on your connection speed. Later you meet some of your neighbours, who complain that their internet service has been cut – for no reason. Some of the children from the building are even crying because they can't get online anymore. You feel guilty, but do you come clean and tell them – *and* your ISP – the truth?

Talk a Lot

Australia

Sentence Blocks

*Note: the last two lines of each sentence block will vary. Below there are examples given for each sentence block, but students should think of their own way to get the negative forms in the last line. See the **Talk a Lot Elementary Handbook** for full instructions (available free from www.englishbanana.com).*

Answers

1. (Present Simple) Jonathan often says that Sydney is the most perfect place on earth. / Who often says that Sydney is the most perfect place on earth? / Jonathan does. / Does Jonathan often say that Sydney is the most perfect place on earth? / Yes, he does. / Does Rachael often say that Sydney is the most perfect place on earth? / No, she doesn't. Rachael doesn't often say that Sydney is the most perfect place on earth.
2. (Present Continuous) The team's getting some amazing photos of koala bears, because they're so tame. / Why is the team getting some amazing photos of koala bears? / Because they're so tame. / Is the team getting some amazing photos of koala bears, because they're so tame? / Yes, it is. / Is the team getting some amazing photos of koala bears, because they're all asleep? / No, it isn't. The team isn't getting some amazing photos of koala bears, because they're all asleep.
3. (Past Simple) Kelly went wine tasting in Barossa Valley last Friday with her mate Gavin. / Where did Kelly go wine tasting last Friday with her mate Gavin? / In Barossa Valley. / Did Kelly go wine tasting in Barossa Valley last Friday with her mate Gavin? / Yes, she did. / Did Kelly go wine tasting in Milton Keynes last Friday with her mate Gavin? / No, she didn't. Kelly didn't go wine tasting in Milton Keynes last Friday with her mate Gavin.
4. (Past Continuous) We were climbing down Sydney Harbour Bridge, when Alison slipped and twisted her ankle. / When did Alison slip and twist her ankle? / When we were climbing down Sydney Harbour Bridge. / Did Alison slip and twist her ankle, when you were climbing down Sydney Harbour Bridge? / Yes, she did. / Did Alison slip and twist her ankle, when you were coming out of a restaurant? / No, she didn't. Alison didn't slip and twist her ankle, when we were coming out of a restaurant.
5. (Present Perfect) Rickie has seen almost every single episode of *Neighbours*, since it began in 1985. / How many episodes of *Neighbours* has Rickie seen, since it began in 1985? / Almost every single episode. / Has Rickie seen almost every single episode of *Neighbours*, since it began in 1985? / Yes, he has. / Has Rickie seen only a few episodes of *Neighbours*, since it began in 1985? / No, he hasn't. Rickie hasn't seen only a few episodes of *Neighbours*, since it began in 1985.
6. (Modal Verbs) Darren has to write an assignment about injured kangaroos. / What does Darren have to write an assignment about? / Injured kangaroos. / Does Darren have to write an assignment about injured kangaroos? / Yes, he does. / Does Darren have to write an assignment about boomerangs through the ages? / No, he doesn't. Darren doesn't have to write an assignment about boomerangs through the ages.
7. (Future Forms) After Canberra we'll fly straight to Brisbane. / Where will you fly straight to after Canberra? / To Brisbane. / Will you fly straight to Brisbane after Canberra? / Yes, we will. / Will you fly straight to Adelaide after Canberra? / No, we won't. We won't fly straight to Adelaide after Canberra.
8. (First Conditional) If the footy match is cancelled, we'll have a barbie instead! / What'll we do, if the footy match is cancelled? / Have a barbie instead! / Will we have a barbie instead, if the footy match is cancelled? / Yes, we will. / Will we have a quiz night instead, if the footy match is cancelled? / No, we won't. We won't have a quiz night instead, if the footy match is cancelled.

Sentence Block Extensions

For all of the sentence block starting sentences there are at least two different wh- question words that can be used to make sentence blocks. In one case seven different sentence blocks can be made from the same starting sentence when using different wh- question words. There isn't room here to print in full all of the sentence block extensions from this unit. Hopefully, the answers given above will give you the teacher (or you the student) enough guidance to be able to make the sentence block extensions for this unit with confidence.

For example, let's look at the fourth starting sentence from this unit:

For more fun worksheets, games and quizzes log onto www.englishbanana.com now!

Talk a Lot

Australia

Sentence Blocks

We were climbing down Sydney Harbour Bridge, when Alison slipped and twisted her ankle.

On the handout the wh- question word that is given is "When", but this starting sentence also works equally well with six other wh- question words: "What" (x2), "Where", "Who" (x2), "Which":

What were you doing when Alison slipped and twisted her ankle? / Climbing down Sydney Harbour Bridge.

What were you climbing down, when Alison slipped and twisted her ankle? / Sydney Harbour Bridge.

Where were you when Alison slipped and twisted her ankle? / Climbing down Sydney Harbour Bridge.

Who was climbing down Sydney Harbour Bridge, when Alison slipped and twisted her ankle? / We were.

Who slipped and twisted her ankle, when you were climbing down Sydney Harbour Bridge?

Which bridge were you climbing down, when Alison slipped and twisted her ankle? / Sydney Harbour Bridge.

The idea is easy. Change the wh- question word each time and you can make several completely different sentence blocks from the original starting sentence, simply by finding the relevant information for the answer in the starting sentence. As you can see below, sometimes the same wh- question word can be used more than once to make different sentence blocks.

You could cut out and give the section below to students:

Australia

Make new sentence blocks from the starting sentences in this unit using different "wh-" question words:

	WHAT	WHERE	WHEN	WHO	WHY	WHICH	HOW
1.	what (x2)	where	when			which	how frequently
2.	what (x2) what kind			who			how
3.	what		when	who (x2)			
4.	what (x2)	where		who (x2)		which	
5.	what (x2)			who			
6.	what (2 nd) what kind			who		which	
7.	what		when	who			
8.	what (2 nd)		when	who

Talk a Lot

Australia

Sentence Blocks

-----✂-----

Sentence Blocks – Sentence Stress and Vowel Sounds

Task 1: Circle the content words in the following starting sentences. (For answer, see Task 2 below.)

Australia

1. Jonathan often says that Sydney is the most perfect place on earth.
2. The team's getting some amazing photos of koala bears, because they're so tame.
3. Kelly went wine tasting in Barossa Valley last Friday with her mate Gavin.
4. We were climbing down Sydney Harbour Bridge, when Alison slipped and twisted her ankle.
5. Rickie has seen almost every single episode of *Neighbours*, since it began in nineteen eighty-five.
6. Darren has to write an assignment about injured kangaroos.
7. After Canberra we'll fly straight to Brisbane.
8. If the footy match is cancelled, we'll have a barbie instead!

-----✂-----

Sentence Blocks – Sentence Stress and Vowel Sounds

Task 2: Underline the stressed syllable in each content word, shown in black. (For answer, see Task 3 below.)

Australia

1. Jonathan often says that Sydney is the most perfect place on earth.
2. The team's getting some amazing photos of koala bears, because they're so tame.
3. Kelly went wine tasting in Barossa Valley last Friday with her mate Gavin.
4. We were climbing down Sydney Harbour Bridge, when Alison slipped and twisted her ankle.
5. Rickie has seen almost every single episode of *Neighbours*, since it began in nineteen eighty-five.
6. Darren has to write an assignment about injured kangaroos.
7. After Canberra we'll fly straight to Brisbane.
8. If the footy match is cancelled, we'll have a barbie instead!

-----✂-----

Talk a Lot

Australia

Sentence Blocks

Sentence Blocks – Sentence Stress and Vowel Sounds

Task 3: Write the correct vowel sound above each stressed syllable (underlined). (For answer, see below.)

Australia

1. Jonathan often says that Sydney is the most perfect place on earth.
2. The team's getting some amazing photos of koala bears, because they're so tame.
3. Kelly went wine tasting in Barossa Valley last Friday with her mate Gavin.
4. We were climbing down Sydney Harbour Bridge, when Alison slipped and twisted her ankle.
5. Rickie has seen almost every single episode of Neighbours, since it began in nineteen eighty-five.
6. Darren has to write an assignment about injured kangaroos.
7. After Canberra we'll fly straight to Brisbane.
8. If the footy match is cancelled, we'll have a barbie instead!

----- ✂ -----

Sentence Blocks – Sentence Stress and Vowel Sounds

Each content word (shown in black) contains one syllable with a strong stress, which is underlined. Each stressed syllable has one vowel sound. The vowel sounds on stressed syllables are the most important sounds in the sentence. They make the “sound spine” of the sentence. To improve communication, try to get the sound spine right.

Australia

1. Jonathan often says that Sydney is the most perfect place on earth.
/ɒ/ /ɒ/ /e/ /ɪ/ /ɜ:/ /eɪ/ /ɜ:/
2. The team's getting some amazing photos of koala bears, because they're so tame.
/i:/ /e/ /eɪ/ /əʊ/ /ɑ:/ /eə/ /eɪ/
3. Kelly went wine tasting in Barossa Valley last Friday with her mate Gavin.
/e/ /e/ /aɪ/ /eɪ/ /ɒ/ /æ/ /ɑ:/ /aɪ/ /eɪ/ /æ/
4. We were climbing down Sydney Harbour Bridge, when Alison slipped and twisted her ankle.
/aɪ/ /aʊ/ /ɪ/ /ɑ:/ /ɪ/ /æ/ /ɪ/ /ɪ/ /æ/
5. Rickie has seen almost every single episode of Neighbours, since it began in nineteen eighty-five.
/ɪ/ /i:/ /e/ /ɪ/ /e/ /eɪ/ /æ/ /aɪ/ /eɪ/ /aɪ/
6. Darren has to write an assignment about injured kangaroos.
/æ/ /aɪ/ /aɪ/ /ɪ/ /u:/
7. After Canberra we'll fly straight to Brisbane.
/æ/ /aɪ/ /eɪ/ /ɪ/
8. If the footy match is cancelled, we'll have a barbie instead!.
/ʊ/ /æ/ /æ/ /æ/ /ɑ:/ /e/

Discussion Words Question Sheet

words that have silent letters. The silent letters are shown in brackets. No doubt your students will be able to identify some more.

co [a]st, drou [gh]t, wa [l]kabout, Brisban [e], Q [u]eensland, Outba [c]k, koala bea [r], im [m]igration

9. Answers will vary.

10. There are many possible answers to this question; for example, “**drought**”, “**Sydney Opera House**”, “**Outback**”, and “**walkabout**” all contain the vowel sound /au/. Use the phonetic chart on p.18.6 of the **Talk a Lot Elementary Handbook** (available free from www.englishbanana.com/talkalot) and the phonetic spellings of the vocabulary words on the *Discussion Words (with the IPA)* handout to help your students put the words into sound groups.

Lesson Questions

1. a) Shane Warne. b) barbie. c) drought. d) mining. e) coast. f) Sydney. g) transportation. h) great white shark. i) Brisbane. j) gold rush. k) pom.

2. a) The **famous people** are: Kylie Minogue, Cate Blanchett, Shane Warne, Captain Cook. b) The **places** are: Great Barrier Reef, Sydney, Pacific Ocean, Brisbane, Queensland, Outback, coast, Canberra, Uluru, Barossa Valley, Gallipoli, Sydney Opera House, rainforest. c) The **animals** are: duck-billed platypus, great white shark, emu, koala bear, kangaroo. d) The **historical terms** are: convict, transportation, immigration, gold rush, Captain Cook. (Note: see the *Discussion Words Glossary* for a brief summary of each one, or find out more online or at your local library.)

3. Barossa Valley.

4. i) a) Words and phrases which have a weak stress schwa sound /ə/ on the 1st syllable: Gallipoli, Barossa Valley, Pacific Ocean. b) Words and phrases which have a weak stress schwa sound /ə/ on the 2nd syllable: boomerang, walkabout, climate change, kangaroo, didgeridoo, forest fire, Queensland, minerals, Canberra, Brisbane, Aboriginal Australians, Uluru. c) Words and phrases which have a weak stress schwa sound /ə/ on the 3rd syllable: koala bear, Canberra, soap opera, Gallipoli. d) Words and phrases which have a weak stress schwa sound /ə/ on the 4th syllable: Sydney Opera House, transportation, immigration. e) Phrases which have a weak stress schwa sound /ə/ on the 5th syllable: Aboriginal Australians, Pacific Ocean. ii) 20 words and phrases don't have a weak stress schwa sound: Cate Blanchett, Sydney, footy, great white shark, mining, barbie, Outback, emu, Shane Warne, coast, Kylie Minogue, drought, duck-billed platypus, melting pot, convict, Captain Cook, pom, gold rush, rainforest, Great Barrier Reef.

5. a) Answers will vary. b) Answers will vary. Sample answer: the **duck-billed platypus** can live on land and underwater; the blockbuster film “Jaws” was about a **great white shark**; the **emu** is the second-largest bird in the world, after the ostrich; the **koala bear** is not actually a bear, but rather a marsupial, which is a kind of mammal; a baby **kangaroo** is known as a “joey”, and is kept in a protective pouch on the front of the mother's body. c) The great white shark, emu, and kangaroo cannot move backwards.

Note: the duck-billed platypus, emu, koala bear, and kangaroo are all unique to Australia, and don't occur naturally in any other country, while the great white shark can be found in temperate waters around the world.

6. melting pot.

7. a) footy (football). b) Uluru. c) coast. d) immigration. e) boomerang. f) mining. g) great white shark.

8. pom.

9. minerals.

10. transportation.

Nickname / Time Zone	Apple Isle / UTC+10 AEST	Premier State / UTC+10 AEST

Note: AEST = Australian Eastern Standard Time; AWST = Australian Western Standard Time

"Which states would you visit, and in what order? Why?" Answers will vary. When they have completed filling the gaps, students should discuss which states they would visit, and in what order. They should produce appropriate reasons for their choices – why they would choose one state rather than another, and why they have chosen the order that they have. For example: "I would explore Tasmania first, because I want to see the historic Port Arthur Penitentiary. After that I would need to relax and unwind, so I'd travel to Western Australia for surf, sand, and shopping..." Or... "I wouldn't visit Queensland, because I don't like tropical heat..." [etc.]

Sample Questions

What is the population of _____?

What is the area of _____?

What's the capital city of _____?

What kind of landscape does _____ have?

What's the climate like in _____?

Tell me some of the top tourist attractions in _____.

Have any famous people been born in _____?

Do any famous people come from _____?

Tell me a historical fact about _____.

Which website could I visit for more information about _____?

What is the minimum temperature in _____ in June [or December]?

What is _____'s nickname?

What time zone is _____ in?

Sample Answers

The population of _____ is _____ people.

_____ kilometres squared.

The capital city of _____ is _____.

_____.

It can be _____.

You could visit _____.

Yes, _____, the _____, was born in _____.

Yes, _____ comes / came from _____.

_____.

Try _____.

It's _____ degrees Celsius.

_____ 's nickname is _____.

_____.

Australia

Information Exchange

Examples

What is the population of Queensland?
What's the climate like in Western Australia?
Do any famous people come from Tasmania?

The population of Queensland is 4.4 million people.
It can be hot and dry.
Yes, Errol Flynn, the 1930s movie star, came from Tasmania.

What is New South Wales's nickname?

New South Wales's nickname is the Premier State.

[etc.]

Extension: you could try to encourage some comparative/superlative questions and sentences too, for example:

Which is the largest state by area?
Which state has the smallest population?
Which state is warmer than New South Wales in summer (December)?

Western Australia is...
Tasmania has...
Queensland is...

[etc.]

The Flyer (Original Text)

Line

1 One day in August Dennis was walking around the city centre aimlessly with his
2 girlfriend Linda. "Two weeks' break, but no money to *do* anything!" he complained.
3 Just then Linda picked up a brightly-coloured flyer. "Guaranteed trip to Australia!" she
4 read carefully, "Calls cost a pound..." Dennis sprang into action. "Come on, Linda!
5 Get your phone out and let's get dialling!" After listening to a recorded message about
6 the delights of Australia for ten minutes, both of their calls came to an end. They were
7 disappointed to be told that they hadn't won the trip "on this occasion", but that they
8 should "call again" – and often – to have another chance of winning. Neither of them
9 had a lot of credit left on their mobiles, so Dennis suggested: "Let's get me dad's
10 phone. It'll be amazing to go Down Under!" They found Rob's phone and made a
11 couple more calls, but each time they were unlucky. Then they tried from Dennis's
12 home phone, and after that from Linda's grandma's mobile, but no joy. "I'm getting
13 bored listening to all that going on about Australia!" commented Linda. Dennis
14 agreed, but they both fancied a luxury holiday in the sun, so they kept on calling,
15 asking everyone they knew whether they could use their phones: "Just for a minute –
16 and we'll pay you back!" By the end of the day they had heard the same message
17 twenty-seven times. It was then that Linda read the small print on the back of the
18 flyer. "It says here calls cost a quid..." "Right," agreed Dennis. "But it's a pound a
19 minute, Dennis!" Dennis's face turned purple. Their holiday of a lifetime would have to
20 wait. The next day Dennis went back to the garage to put in some overtime.
(296 words)

The Flyer (Text with 20 Differences)

One day in August Dennis was **1. talking (walking)** around the city centre aimlessly with his girlfriend Linda. "Two weeks' break, but no money to *do* anything!" he **2. trained (complained)**. Just then Linda picked up a brightly-coloured flyer. "Guaranteed trip to Australia!" she read **3. caringly (carefully)**, "Calls cost a pound..." Dennis sprang into action. "Come on, Linda! Get your phone out and let's get dialling!" After **4. listing (listening)** to a recorded message about the delights **5. off (of)** Australia for ten minutes, both of their calls came to an end. They were disappointed to be **6. bold (told)** that they hadn't won the trip "on this occasion", but that they should "call again" – and often – to have another chance of **7. winging (winning)**. Neither of them had a lot of credit left on their mobiles, so Dennis suggested: "Let's get me dad's phone. It'll be **8. crazy (amazing)** to go Down Under!" They found Rob's **9. foam (phone)** and made a couple more calls, but each time they were unlucky. Then they tried **10. fun (from)** Dennis's home phone, and after that from Linda's grandma's mobile, but no joy. "I'm getting **11. bought (bored)** listening to all that going on about Australia!" commented **12. limber (Linda)**. Dennis agreed, but they both fancied a luxury **13. corridor (holiday)** in the sun, so they kept **14. an (on)** calling, asking everyone they knew whether they could use their phones: "Just for a minute – and we'll pay you back!" By the **15. bend (end)** of the day they had heard the **16. sane (same)** message twenty-seven times. It was then that Linda read the **17. ball (small)** print on the back of the flyer. "It says here calls **18. lost (cost)** a quid..." "Right," agreed Dennis. "But it's a pound a minute, Dennis!" Dennis's face turned purple. **19. Discussion Questions

1. Have you ever been to Australia? If yes, tell me about it. If no, would you like to? What do you think of when you hear the word “Australia”?

2. Australia is the only country in the world that is also a whole continent! The landscape and climate are very varied, ranging from tropical in the north-east, to desert in the centre, and urban/beach at the coastal resorts. Tell me about the landscape and climate in *your* country. How does it compare?

3. Australia has some of the strangest animals in the world! Because of its island location, it was a closed ecosystem for millennia, and many exotic creatures developed there which are unique to Australia, such as the duck-billed platypus. Tell me about the weird and wonderful wildlife in *your* country.

4. Australia is home to some of the world’s most famous people, including actors, like Cate Blanchett and Russell Crowe, and sports stars, such as Shane Warne. Tell me about famous people from *your* country.

5. One of the biggest issues facing Australia today is climate change. How has *your* country been affected by this phenomenon, and what are *you* doing to help reduce the impact of climate change?

6. When you go on holiday are you a tourist or a traveller?
What are the main differences between each kind of visitor?

7. In Australia there is a tradition, handed down by Aboriginal Australians, to “go walkabout” – which means to go travelling for an extended period of time. Would you give up your education or work for a year and go travelling? Why? / Why not? Where would you like to visit? How would you kill time?

8. Are you a fan of Australian culture? Have you ever had any problems understanding the Australian accent? Do you know any Australian slang?

Australia

Role Plays

1. “This is for Pru in Woolloomooloo!”

Place: A travel agent's
Time: 10.34 am
Characters: You and a rather bizarre travel agent
Situation: You want to book a return flight to Perth in Western Australia to visit your sister, who you haven't seen for four years. You'd also like to book a three- or four-star hotel for twenty nights, and hire a rental car...

Scenes: i) Tell the travel agent your plans and ask them to arrange your flight, accommodation, and car. The travel agent – who behaves quite oddly throughout – takes your payment and promises to mail you your tickets
ii) A few days later, you receive your tickets, but the travel agent has booked you two weeks in Woolloomooloo – a docklands suburb of Sydney, New South Wales – on the other side of Australia. Go back to complain. The travel agent explains that their ex-wife, Pru, lives in Woolloomooloo, and begs you to take them a package (ten blue cotton handkerchiefs)
iii) You decide to be philosophical about the mix-up and agree to take the package to Woolloomooloo. When you return to your country, you rush back to the travel agent's with an urgent, shocking message from their relative...

If there are three people in the group, the third character could be:

- a) *The travel agent's ex-wife, Pru from Woolloomooloo*
- b) *Your sister, who is disappointed that you went to Sydney rather than Perth*

2. “Have I told you my dingo stories?”

Place: A remote part of the Australian Outback
Time: A starry night. 1.26 am
Characters: You and a colleague
Situation: Your work has organised a team-building walking expedition in the Outback where you have to carry all of your own kit and make a camp every night beneath the stars. The rest of your colleagues are fast asleep, except one...

Scenes: i) Remind your colleague of the time when you once fought off an aggressive dingo. Your colleague is sceptical, but can't sleep, due to insomnia
ii) A few minutes later: recall a tall tale about how you once witnessed a dingo killing an elephant at a safari park in New Delhi. Your colleague tries to sleep
iii) Your colleague has finally got to sleep. However, you suddenly notice a pack of wild dingoes approaching your camp. You try to wake your colleague, but they find it hard to believe your stories, and would much rather sleep...

If there are three people in the group, the third character could be:

- a) *Another colleague, who is allergic to absolutely everything in the Outback*
- b) *A grizzled old Bushman, who is an expert at rounding up pesky dingoes*

Role Plays

Role Play Extensions

Here are some additional situations for students to use as starting points for new role plays based on the topic of "Australia":

----- ✂ -----

Australia

1. It's your first day at work on a popular Australian soap opera. You are a famous soap actor and you believe that you will be the number one actor on the show. However, you meet another actor, who is also starting work there today. You're very jealous of this actor because they have had parts in successful Hollywood movies, and you haven't. First speak to the director about getting a bigger part in the soap than your rival. Use your influence as a well-known soap star to persuade them. Next speak to the lighting designer and camera operator about making yourself look slimmer on camera than your rival. Offer them a few dollars to make it worth their while. Finally, speak to the make-up artist about your rival. Offer them the use of your luxury yacht if they will make your rival appear less tanned than you...

2. You are on a boring coach trip in the Australian Outback with a large party of tourists. You stop at a small town by a creek where everybody is shown how to pan for gold. A few people find very small nuggets of unrefined gold, and everybody gets very excited. Suddenly you uncover a huge gold nugget that weighs about 2 kg. Your dilemma is how to get it back onto the coach without anybody else noticing it. First, the tour group leader wanders over to see how you're getting on; then a nosy middle-aged tourist wants to borrow your shovel; and finally one of the locals from a nearby watering hole comes over to invite everybody for a drink. Whatever happens, don't let anybody else get your gold!

Sentence Block Verbs from Elementary Book 3

All of the verbs below are used to form sentence blocks in this book. How many do you know? Write down a translation in your first language for each verb:

AFFORD	_____	INVEST IN	_____
APPLY FOR	_____	LAND	_____
ASK	_____	LEAVE	_____
BE	_____	LIKE	_____
BE BORN	_____	LOVE	_____
BE CANCELLED	_____	MAKE	_____
BE MUGGED	_____	MOVE UP	_____
BE STOPPED	_____	MUST	_____
BEGIN	_____	OPEN	_____
BOOK	_____	PASS	_____
BREAK	_____	PAY	_____
BRIEF	_____	PAY FOR	_____
BRING DOWN	_____	POST	_____
BROWSE	_____	PREFER	_____
BUY	_____	PROMISE	_____
CAN / COULD	_____	QUEUE	_____
CHANGE	_____	RAISE MONEY	_____
CHAT UP	_____	READ	_____
CHECK	_____	REMEMBER	_____
CLICK	_____	RENEW	_____
CLIMB	_____	RENT	_____
CONTACT	_____	SAY	_____
COPY	_____	SEARCH	_____
DEAL WITH	_____	SEE	_____
DISCOVER	_____	SHOULD	_____
DO	_____	SIGN	_____
DONATE	_____	SLIP	_____
DOWNLOAD	_____	SPEAK	_____
DRIVE	_____	SPEAK OUT	_____
EMAIL	_____	START	_____
ENJOY	_____	STEAL	_____
FINISH	_____	STUDY	_____
FLY	_____	SUPPORT	_____
FORGET	_____	TAKE	_____
GET	_____	TAKE OUT	_____
GET WORSE	_____	TRANSLATE	_____
GIVE	_____	TWIST	_____
GO	_____	USE	_____
GO THROUGH	_____	VISIT	_____
GO UP	_____	VOTE	_____
GOING TO	_____	WAIT	_____
HAVE	_____	WALK	_____
HAVE TO	_____	WATCH	_____
HEAD FOR	_____	WILL	_____
HELP	_____	WORK	_____
HIT	_____	WRITE	_____

Frequency of Vowel Sounds on Stressed Syllables of Discussion Words from Talk a Lot Elementary Book 3:

This table reveals that certain vowel sounds are more common than others in this group. All vowel sounds are represented, apart from the schwa /ə/, which is never stressed:

1 st	/e/	7 th	/i:/	13 th =	/u:/	19 th =	/ɔɪ/
2 nd	/ɪ/	8 th	/ɑ:/	13 th =	/ɜ:/	19 th =	/aɪə/
3 rd	/eɪ/	9 th	/aɪ/	15 th	/eə/	21 st =	/aʊə/
4 th	/æ/	10 th =	/ʌ/	16 th	/ʊ/	21 st =	/i/
5 th	/ɒ/	10 th =	/əʊ/	17 th =	/ɪə/		
6 th	/ɔ:/	12 th	/aʊ/	17 th =	/ʊə/		

Consonant Sounds of English in the International Phonetic Alphabet (IPA):

16 of them are easy to learn, because the phonetic symbols look very similar to the letters we use to write these sounds (see Group A, below), while the other 9 are more difficult to learn, because they look different to the letter(s) we use to write each sound (see Group B):

Group A:

IPA	spelling	IPA	spelling	IPA	spelling	IPA	spelling
/b/	b	/d/	d	/h/	h	/n/	n
/g/	g	/p/	p	/r/	r	/l/	l
/v/	v	/k/	k	/w/	w	/f/	f
/t/	t	/s/	s	/m/	m	/z/	z

Group B:

IPA	spelling	IPA	spelling	IPA	spelling
/θ/	th	/tʃ/	ch	/ʒ/	s
/ð/	th	/j/	y	/dʒ/	j
/ʃ/	sh	/ŋ/	ng	/x/	ch

35. /tʃ/	cheese	/tʃiːz/	48. /x/	loch	/lɒx/
36. /h/	head	/hed/			

Notes:

- The syllable that follows this mark has strong stress: /' /
- This mark denotes a division between syllables: /./
- We write sounds and words using the IPA between forward slashes: / / . We don't use punctuation marks.

Talk a Lot is a brand new spoken English course from English Banana.com.

The course objectives are very simple:

- ✓ Every student talking in English
- ✓ Every student listening to and understanding English
- ✓ Every student thinking in English, and
- ✓ Every student taking part in class

Talk a Lot Elementary Book 3 is suitable for students at these levels:

Student's Level: Common European Framework (CEF): Cambridge Assessment:

Elementary	to A2	KET
Pre-Intermediate	to B1	PET

About the Author:

Matt Purland is a lecturer in English Language. He has a BA Honours degree in Drama from the University of Wales and a Postgraduate Certificate in Further Education from the University of Derby. He has written more than 1,500 photocopiable worksheets for learning English. This is his tenth book. In 2002 he launched English Banana.com, which has become a hugely popular English language learning resource website.

*What teachers are saying about running **Talk a Lot** courses:*

*"I was searching for a free website which has useful material ... My search ended with English Banana. Thank you very much for bringing English to everyone's reach. I wish to include **Talk a Lot** in my syllabus."* (India)

*"Thank you for such a wonderful program of study. I teach English in Thailand at one of the most influential all-boys colleges in Bangkok. I also teach privately and have found the **Talk a Lot** program fast, effective, and professional."* (Thailand)

The BEST of **English Banana.com**

Free Printable Worksheets: 2003 to 2009

Introduction

Hello there!

Welcome to **The Best of English Banana.com Free Printable Worksheets!** After more than seven years online, we feel that the time is now right for a compilation book, spanning all of the worksheets and books published since we began in 2003, right up to now (January 2010).

This is a personal selection – I've chosen worksheets that I like the best. These are the materials that always seem to work well in the classroom – stand-bys, old faithfuls! Many of these worksheets brought back memories for me as I was sorting through them, either from when I was writing them, or trying them out on an unsuspecting class, or of particular students who inspired different ideas and activities. Whether you've been using our materials for a long while, or you're relatively new to English Banana, I hope that this book will bring back some happy memories for you too!

This compilation includes materials from all of the English Banana.com publications – all of the books and collections of worksheets – as well as two brand new, never-before-published worksheets about State Verbs (pp.19-20). What is my favourite English Banana.com worksheet ever? It's a hard question, for sure, because I like them all. I know that some of the worksheets are really practical and useful, like some of the grammar ones and list-based ones, but I wouldn't be able to say that they're my favourites. I enjoy the role plays from Talk a Lot, a lot (in fact, I **love** writing the Talk a Lot materials, end of story!) and also the reading comprehension puzzles from the Big Activity Book, but if I had to keep only three favourite worksheets from this book, and bin the rest, I would maybe choose: 49, 59, and 74. (Ask me again next week, though, and the answer might be completely different!)

This book is arranged using the same layout as the very earliest English Banana.com books – with the worksheets ordered firstly by skill (Grammar, Vocabulary, Spelling, Reading, etc.), and then by level – from Elementary up to Intermediate and through to Advanced. If you look at the contents pages you can also choose worksheets by the year in which they were published, and by source – which book or collection of materials they were first published in.

Where are the answers? You may well ask! This compilation book doesn't contain the answers to any of the worksheets, but in the contents pages we show you where you can find and download each worksheet (for free!), including full answers and notes for use. The idea behind this is that we want you to go online to our website and find and download books and worksheets that you maybe haven't found before. This book is a taster book then, but also a kind of celebration of seven years of free printable worksheets and books from English Banana.com. Remember, there's **so much more for you to discover online** – more than 1,500 free printable worksheets, covering all levels and skills! On the next page you can find a handy list of the links where you can access each set of resources.

Don't forget that all English Banana.com materials are covered by our unique free licences. Over the next few pages you can read our Free Copying Licence and Free Licence to Run Courses. We want you to **make money** with English Banana.com materials! This taster book could be an ideal book to have printed and either sell or give away to your students. The PowerPoint presentation on the page below provides an in-depth introduction to our innovative free licences:

Free Printable Worksheets: 2003 to 2009

That's about it then for this introduction. If this is a "Greatest Hits" for English Banana.com free printable worksheets (which it kind of is for me, because it contains all of my favourite materials from the past seven years) does that mean that the band is splitting up? No, of course not! We hope that English Banana.com will continue to go from strength to strength in 2010 and onwards! We've got loads of plans for new materials that we hope to bring you soon, including the finished version of Talk a Lot Elementary Book 3 – with all ten units completed and compiled into one easy-to-download .pdf file.

Watch this space – and keep learning English with English Banana.com!

All the best!

Matt Purland

Free Printable Worksheets: 2003 to 2009

Free Copying Licence

"There is no wealth but life." – John Ruskin (1819-1900)

Quick Summary:

You may download, print, copy, sell, and distribute English Banana.com materials, without paying anything.

Definition of Terms:

This licence is effective from 7th December 2008, and replaces all existing statements and notices regarding copyright and copying of English Banana.com materials. It applies to all English Banana.com materials.

"English Banana.com materials" means: worksheets, MP3s, video files, books, CD-ROMs, and any other file or product that has been created and published by English Banana.com, that exists either on its website server (www.englishbanana.com) or offline, including digital versions (e.g. a .pdf file) as well as physical copies (e.g. a workbook copy of the Big Grammar Book, or a CD-ROM).

Who May Use this Licence?

This licence applies to anybody who wishes to use English Banana.com materials.

Free Copying Licence:

1. You may download, print, copy, and distribute English Banana.com materials.
2. You may sell English Banana.com materials to make a profit.
3. You may distribute English Banana.com materials for free.
4. You may put English Banana.com materials on a website.
5. You may put English Banana.com materials on an intranet server.
6. You may adapt English Banana.com materials.
7. You may remove the English Banana.com name and logo from the materials, or replace it with your own.
8. You may produce plays or films using English Banana.com materials.

This is a free licence:

- You don't have to pay English Banana.com any royalties or fees.
- You don't have to credit English Banana.com as the originator of the materials.
- You don't have to contact us before using this licence, or apply for further permission, although if you do tell us how you are using it, we may be able to help you by publicising your initiative on English Banana.com.

In short, if you can use English Banana.com materials in any way, this licence gives you permission to use them.

For more information about our free licences, and ideas for using them, please visit:
<http://www.englishbanana.com/make-money-with-english-banana-free-licences.html>

The BEST of English Banana.com

Free Printable Worksheets: 2003 to 2009

Free Copying Licence

There is only one restriction:

You may not claim copyright to original English Banana.com materials. International copyright for English Banana.com materials belongs to Matt Purland/English Banana.com 2002-2010.

Why Free Licences?

Matt Purland, sole author of all English Banana.com materials, writes:

*"I feel that the quotation at the top of this page says it all: 'There is no wealth but life.' What do we have of value, really, apart from life? Life is fleeting, so if somebody sees value in my work – the English Banana.com materials – and can use it to improve their quality of life, I'm very happy for them to do so. I hope that perhaps **you** will be able to benefit from one or both Free English Banana.com Licences. If you would like to ask me a question, or send a comment, please do contact me via the English Banana.com feedback form."*

Common Prefixes and What they Indicate

- A prefix comes at the beginning of a word. It is sometimes **stressed** and sometimes **unstressed**.
- Prefixes give information about the meaning of the word.

<u>Prefix</u>	<u>Meaning</u>	<u>Example</u>	<u>Literally</u>
a-	common verbs/adverbs/prepositions/adjectives (e.g. annoy/again/above/awake)		
ante-	before	antenatal	before birth
anti-	against	anti-depressants	against depression
auto-	self	autobiography	a self-written biography
bi-	two	bicycle	two wheels
co-	with	cooperate	work with somebody
counter-	against	counter-culture	against the culture
de-	remove	declassify	remove classification
dis-	not	disapprove	not approve
equi-	equal	equidistant	at an equal distance
ex-	former	ex-wife	a former wife
fore-	before	forefather	relative before your existing family
homo-	same	homophones	words with same sounds/spellings
hyper-	extremely	hypersensitive	extremely sensitive
il-	not	illogical	not logical
ill-	badly	ill-prepared	badly prepared
im-	not	immature	not mature
in-	not	incomplete	not complete
inter-	between	international	between nations
kilo-	thousand	kilometre	one thousand metres
mal-	badly	malfunctioning	functioning badly
mega-	million	megawatt	one million watts
mini-	small	minibus	a small bus
mis-	wrongly	mispronounced	wrongly pronounced
mono-	one	monotone	one tone
multi-	many	multimedia	many different kinds of media
neo-	new	neoclassical	new classical style
non-	not	non-member	not a member
out-	separate / do better	outdoors/out-bid	not indoors/a higher bid
over-	too much	overachiever	one who achieves too much
post-	after	postgraduate	after graduation

The Funny Noise – Irregular Verbs in the Past Simple Tense

a) Read the letter below from Alan to his friend Ethel. All the **irregular** verbs have the wrong ending – a **regular** '-ed' ending! Underline each one.

b) Write the letter again, using the correct past simple form of each irregular verb.

Dear Ethel

I'm writing to tell you about something that happened yesterday. I getted up at the usual time - about 10am - haved a shower and maked breakfast. I eated a big bowl of cereal and some toast and watched TV for a while. Then I goed into the kitchen where I heard a funny noise. I thinked it comed from behind the cooker. I getted my tool box and moved the cooker out of the way.

The noise getted louder but I couldn't see anything. I ringed my uncle to ask his advice. He sayed that he thinked it could be a gas leak. When I heard this I just panicked! I putted the phone down, runned outside, getted in my car and drived to the local police station. I telled them about my gas leak but the constable losed his patience with me. He sayed that I should have phoned the gas company. He writed his report, then ringed the gas company for me.

Then I remembered that my house doesn't have gas - only electricity! I feeled really stupid and knowed that the constable would be angry with me for wasting his time, so I runned out of the police station while he ised still on the phone. I goed home to try to find out what the noise ised. On the way I buyed a newspaper and I readed about an escaped llama that breaked out of the city safari park last Wednesday.

When I getted home I putted my key in the door, turned it, goed inside and straight away heard that funny noise again. I holded my breath and opened the door slowly. Guess what? I finded the llama hiding in my cupboard! I letted him stay and he slepted in my garden last night. The snoring ised so loud! This morning I taked him back to the safari park. They areed really pleased to see him again and gived me a reward of £50!

Hope you are well. Write soon and let me know how you are. Your friend,

Alan

Really Useful List of 100 Irregular Plural Nouns in English

You've got one tomato and I've got two tomatos. Right? Wrong! I've got two tomatoes!

Although we usually add an -s to a noun to make it plural (one egg, two eggs, etc.), some nouns in English have irregular plural endings. We've put together a really useful list in alphabetical order of some common nouns which have irregular plural endings:

<u>Singular:</u>	<u>Plural:</u>	<u>Singular:</u>	<u>Plural:</u>	<u>Singular:</u>	<u>Plural:</u>
abyss	abysses	hoof	hooves	story	stories
alumnus	alumni	index	indexes	syllabus	syllabi
analysis	analyses	iris	irises	tax	taxes
aquarium	aquaria	kiss	kisses	thesis	theses
arch	arches	knife	knives	thief	thieves
atlas	atlases	lady	ladies	tomato	tomatoes
axe	axes	leaf	leaves	tooth	teeth
baby	babies	life	lives	tornado	tornadoes
bacterium	bacteria	loaf	loaves	try	tries
batch	batches	man	men	volcano	volcanoes
beach	beaches	mango	mangoes	waltz	waltzes
brush	brushes	memorandum	memoranda	wash	washes
bus	buses	mess	messes	watch	watches
calf	calves	moose	moose	wharf	wharves
chateau	chateaux	motto	mottoes	wife	wives
cherry	cherries	mouse	mice	woman	women
child	children	nanny	nannies		
church	churches	neurosis	neuroses		
circus	circuses	nucleus	nuclei		
city	cities	oasis	oases		
cod	cod	octopus	octopi		
copy	copies	party	parties		
crisis	crises	pass	passes		
curriculum	curricula	penny	pennies		
deer	deer	person	people		
dictionary	dictionaries	plateau	plateaux		
domino	dominoes	poppy	poppies

Mistakes that English Native Speakers Make 2

Believe it or not, English native speakers sometimes make mistakes when using their own language! To find them, simply read a daily newspaper regularly or check out some of the leaflets at an English Tourist Information Centre or library! Identify one mistake in each sentence below and write the letter of the category that it belongs to out of the following:

- | | | |
|----------------------|-------------|---------------------------|
| A. apostrophes | B. articles | C. capital letters |
| D. clumsy style | E. commas | F. extra or missing words |
| G. spelling mistakes | | |

1. Its worth asking about our amazing offers!
2. This ticket is valid for any friday or Saturday in December.
3. A few months a go I was earning £650 per month for 30 hours per week. Since then my salary has doubled.
4. Have you read Bridget Jones Diary?
5. Jennifer Jameson, our accountant is due to retire at the end of next month.
6. Do you know how many Eurpean countries have signed up to the single currency?
7. He's a spy, a con-man, a lover and a theif. Now he's back for another gripping adventure.
8. The new Ford Focus is in a different class from all the former ones which have gone before it.
9. You are welcome to join us in church for a Easter celebration.
10. The information about Richard and Tina's originated from reliable sources.
11. Every monday night is party night at McCoy's.
12. Become a teaching assistant and make a real difference to a childs life.
13. You can find us on St. Johns Street, near the post office.

Comprehensive List of State Verbs in English

State verbs are a small group of verbs in English **which don't usually have continuous forms**, but use only simple verb forms. They are sometimes called "stative" verbs or "non-progressive verbs". For example:

We say:	"Annie likes frozen peas."	not	"Annie is liking frozen peas."
We say:	"I saw a bird sitting on a branch."	not	"I was seeing a bird sitting on a branch."
We say:	"Sue is nearly forty years old."	not	"Sue is being nearly forty years old."

State verbs are different from **active verbs** (also called dynamic verbs), which describe deliberate physical actions, e.g. **run, eat, put**, etc. They fall into three main groups:

1. Things that I do in my head – with my mind:

These thoughts are already continuous – or permanent – without using a continuous tense

a) general thought processes:

believe
know
notice
realise
recognise
remember
understand
want
forget *
judge *
think *
wish *

b) negotiations with other people:

accept
agree
disagree
doubt
impress
mean
need
promise
refuse
suspect
mind (care about) *
suppose *
trust *

c) likes and dislikes:

like
dislike
love
hate
fancy
prefer
loathe

2. Things that I do involuntarily – that I can't help doing:

We use our senses all the time when we're awake – whether we want to or not! So these actions are already continuous, without using a continuous tense

a) senses:

hear
smell
feel *
see *
sense *
taste *

** These verbs can be both state and active, depending on the context in which they're being used, e.g.*

State meaning: "I **have** two garages." (general state of ownership) not: "I'm **having** two garages."

Active meaning: "We're **having** dinner at Emily's house." (deliberate action)

3. States which are either continuous or permanent:

These states are already continuous – or permanent – without using a continuous tense

a) general states of being:

deserve
last (duration)
matter
seem
sound
be *
keep (continue) *
fit (clothes) *
involve *
lie (position) *

b) possession:

belong
own
possess
have *
owe *

c) contents:

consist of
contain
include *

d) measurement:

measure *
weigh *

State Verbs in English – Matching Game 1

*State verbs are a small group of verbs in English **which don't usually have continuous forms**, but use only simple verb forms. They are different from **active verbs** – like run, eat, put, etc. – which describe deliberate physical actions. Some verbs are only state verbs, but other verbs can be both state and active, depending on the context in which they're used.*

*Look at the **continuous form** sentences below. All of them use state verbs. Ten of them use state verbs correctly, and ten incorrectly. Separate the sentences into **correct** and **incorrect**, and correct the mistakes.*

1. Jack is being silly in the garden.	11. Have you been smelling the pizzas in the oven? Delicious!
2. I was feeling awkward because it was my first day in class.	12. I'm wishing it would snow for Christmas!
3. Are you trusting me?	13. We're seeing the new film by Clint Eastwood tomorrow night.
4. I'm keeping the door closed because I don't want my dog to get out.	14. Are you realising what will happen if you leave?
5. I'm believing in Father Christmas.	15. We're trusting you to look after the house while we're away.
6. We're having dinner at Emily's house.	16. After watching it for eleven years, I'm still loving Coronation Street.
7. "You're forgetting something, John." "What?" "I love you!"	17. Which book are you meaning?
8. We're involving you in the discussion because you work for this company.	18. We're thinking about moving to Ireland.
9. Megan is really wanting to get married.	19. I was weighing the parcel on the scales, when my dog barked.
10. She is owing me five pounds.	20. It is seeming that you aren't very happy in this job.

A Boring/Fascinating Worksheet About Adjectives

Choose the best adjective out of the two given in each question below:

1. Sammi didn't have time to finish the whole exam, so some of her answers were *incomplete/deficient*.
2. My father's new car is really *rapid/fast*.
3. The weather forecast wasn't very *accurate/truthful*, because they said it would rain and it's been fine all day.
4. The noticeable dearth of goal-scoring opportunities means that these are *annoying/worrying* times indeed for Danby United.
5. My little brother is so *greedy/eager*. He's just finished his fourth banana!
6. We gave a donation to the charity, partly because the children on their poster looked so *precious/vulnerable*.
7. When we got married my husband promised that he would always be *dependable/faithful* to me.
8. I like the new cushions on your sofa, they're *lovely/lovable*.
9. I believe if you want something in life badly enough you should be *powerful/persistent* and never give up until you've reached your goal.
10. This isn't the finished version of my essay. I always write a *rough/clean* draft first.
11. Some critics haven't enjoyed Spielberg's later films, such as *The Terminal* and *AI*, finding them a little too *sentimental/extreme*.
12. James proposed to Maria at Gina's party on Saturday. He got down on one knee and everything! It certainly made for a *spectacular/memorable* evening.
13. When I told my boss that I needed two weeks off to visit my sick grandmother in Mexico, she wasn't very *sympathetic/acceptable*. Probably because she knows I don't have any relatives in Mexico.
14. Jenna doesn't like her *curly/floppy* hair, but she's too lazy to straighten it.
15. "Jas, that skirt is horrendous! No one will ever find you remotely *pleasant/attractive* if you go outside wearing that!" counselled Jas's best friend, Mandy.

Reading Comprehension 6 – How Much Money Do They Have?

Use only the following information to find the answers:

Tim has £3.47.

He gives £2 to **John**, who already had £10.75.

Tim's sister, **Clare**, takes £20 out of the bank and gives half to **Lisa**.

Lisa spends £4.99 on a t-shirt and gives the rest back to Clare, who then lends £2.50 to **Jalal**.

Jalal owes a pound to **his brother**, so he gives him three quarters of that.

John gives £5.58 to **Keith**, who needs it because he owes a fiver to **Kathy**.

She puts it with the 68p that she already has in her pocket, then withdraws £60 from a cashpoint and gives a quarter of that to **Laurie**, who spends a third and shares the rest equally between her cousins, Jalal and **Ruby**.

How much money does each person have now?

1. Tim has _____
2. John has _____
3. Clare has _____
4. Lisa has _____
5. Jalal has _____
6. Jalal's brother has _____
7. Keith has _____
8. Kathy has _____
9. Laurie has _____
10. Ruby has _____

Reading Comprehension 7 – When's Your Birthday?

Use the information below to find the date of each person's birthday:

Joe was born on the twenty-third day of the fifth month.

His wife **Colette**'s birthday is two days after that, which is five days before their wedding anniversary.

Conor's birthday is six days before Joe's.

Laura's birthday is three days before Christmas Day.

May's birthday is on the nineteenth day of the eighth month.

Sarah's birthday is exactly four weeks and one day later.

Leanne's birthday is on the day before Valentine's Day, while **her husband**'s birthday is four days after May's.

Tom's birthday is exactly a fortnight after Colette and Joe's anniversary, while **Mohammed** celebrates his birthday on the forty-second day of the year.

1. Joe's birthday is on _____.
2. Colette's birthday is on _____.
3. Conor's birthday is on _____.
4. Laura's birthday is on _____.
5. May's birthday is on _____.
6. Sarah's birthday is on _____.
7. Leanne's birthday is on _____.
8. Leanne's husband's birthday is on _____.
9. Tom's birthday is on _____.
10. Mohammed's birthday is on _____.

Reading Comprehension 10 – What's the Right Time?

Graham is telling his friend Marco about what happened yesterday:

"I woke up yesterday morning and looked at my alarm clock. It said 2.15pm! I couldn't believe it. I thought I was late for work, so I jumped out of bed and ran into the bathroom. The clock on the wall in there was two and a half hours ahead of the one in the bedroom. It was very confusing! I had a shower then went downstairs. The clock in the hall was an hour behind the one in the bathroom. When I went into the kitchen I looked at the clock on the microwave, which was three and a quarter hours ahead of the one in my bedroom. I found out later that day that my flatmate, Gordon, had changed all the clocks in my house for a joke. He thought it was very funny. In the living room the clock on the video said it was 3.30am, while in the guest bedroom the clock on the wall next to the window was two hours and twenty-five minutes slower than that. I went into the study and picked up my watch. It was eight hours ahead of the one in the kitchen. I was due at work at 8.30am and didn't want to be late. I went outside into the garden and looked in at the window of my shed. The clock on the wall in there was three hours behind my alarm clock. There was a postman walking past, but he didn't know the time. He said that when he left the sorting office an hour or two ago he thought it was about six o'clock. In the end I phoned my brother Alan in Toronto, Canada, and he was really annoyed because I'd woken him up, along with his whole family. He said it was 2.44 in the morning their time. I had forgotten that in Toronto they're five hours behind us. That's how I finally found out what time it was!"

What time was it... (use either 'am' or 'pm')

- | | |
|---|-------|
| 1. ...in the study? | _____ |
| 2. ...in the living room? | _____ |
| 3. ...in the guest bedroom? | _____ |
| 4. ...in the hall? | _____ |
| 5. ...in Toronto, Canada? | _____ |
| 6. ...in the shed? | _____ |
| 7. ...in the bedroom? | _____ |
| 8. ...in the kitchen? | _____ |
| 9. ...in the bathroom? | _____ |
| 10. ...at the end of the story? (the right time!) | _____ |

More questions...

- | | |
|---|-------|
| 11. What is Graham's friend called? | _____ |
| 12. What time did Graham have to be at work? | _____ |
| 13. Who changed the clocks in Graham's house? | _____ |
| 14. Where does Graham's brother live? | _____ |
| 15. Why was he angry with Graham? | _____ |

Reading Comprehension 11 – Car Park Query

John works at a printer's. He is showing Mike, his new boss, which employee holds each of the ten spaces in the car park (see picture). Read or listen to what John says and complete the table below:

	1	2	3	4	5	
	6	7	8	9	10	

space: employee name: make of car: colour:

- 1.
- 2.
- 3.
- 4.
- 5.
- 6.
- 7.
- 8.
- 9.
- 10.

Car makes: Seat Toyota Renault Ford Hyundai Peugeot

John:

"Well, your Renault Clio is over there on the end, next to number two, where there's another blue Clio, which, I think, belongs to Narinder, our HR Manager. Rob has parked his Ford – the red one – opposite yours. Three spaces along from Rob's there's a green Peugeot 206. That's Lisa's. She normally parks next to Tanya's silver Hyundai, which is on the end. The black Ford Focus opposite the Peugeot is Barbara's. She's a trainee. The white Toyota next to Rob's car belongs to Carrie, and Graham usually parks in between Narinder and Barbara. He's out today, but you'll normally see a red Seat there. On the right of the Ford Focus there's another car like Graham's, but newer – a brown one. I don't know who it belongs to. It was there yesterday as well. Your guess is as good as mine! My car's an Espace. I park in the other space. It's at the garage today because of the fan belt, so I had to come on the bus. I always have Renaults. They're so reliable, aren't they? It's the same colour as yours, by the way, but a bit darker."

Reading Comprehension 12 – Working out the Bill

Six friends – Amélie, Julia, Jan, Adam, Wai Ching, and Kevin – have just finished a fabulous meal at 'Jake's Pizzeria'. A waiter brings them their shared bill. After seeing the total, they decide to leave a gratuity of £9.00. Work out how much they all need to pay, including an equal share of the gratuity:

Kevin says:

"So, Amélie and Julia shared a medium margherita pizza, which was eleven pounds. Jan had the Classic Vegetable Tagliatelle, which was three pounds and a penny cheaper, and Wai Ching had an individual pizza – er, the Scrumptious Seafood – which was £6.99. Me and Adam both had the individual chicken thin crust pizza, which was the same price as Wai Ching's. I had extra cheese on mine, and Wai Ching had extra olives and extra tomatoes. The extra toppings were £1.49 each. No one had any side dishes, did they? Oh, I forgot; Julia and Adam had garlic bread, which costs £2.49. Amélie had a bottle of mineral water and Jan had lemonade. Wai Ching and Julia both had two bottles of beer. I had a vodka and orange, while Adam had a glass of wine. The soft drinks were £1.99 and the alcoholic drinks were a pound more, apart from the vodka, which was an extra 65p on top of that. We didn't have teas or coffees. They would have been £1.49 each, wouldn't they? Only four of us had desserts. Adam and Jan had the Fantastic Fudge Cake and Wai Ching had the strawberry cheesecake. Oh yes, I had the Death by Chocolate. How could I forget that? All the desserts were £3.99 each, apart from the cheesecake, which cost 50p less. Oh, hang on a minute! I haven't included Amélie and Julia's coffees."

Adam should pay:

Amélie should pay:

Julia should pay:

Jan should pay:

Wai Ching should pay:

Kevin should pay:

Total bill (including gratuity):

**Average cost of meal
(round up to the nearest penny):**

Giving Directions

Read the sentences below and look at the map of Melton Park. Write a number next to each of these places:

bank	_____	newsagent	_____
bookshop	_____	playing field	_____
clothes shop	_____	post office	_____
hospital	_____	school	_____
leisure centre	_____	supermarket	_____
Margaret Hart's house	_____	surgeries	_____
Mrs. Simon's house	_____	train station	_____
museum	_____		

The **museum** is next to the park.

The **playing field** is opposite the **station**.

To get to **Mrs. Simon's house** go past the station and over the bridge. It's on the left.

The **clothes shop** is on the corner of Ford Road and River Street.

The **surgeries** is next door to the clothes shop.

The **leisure centre** is on Murphy Road.

The **hospital** is opposite the park.

To get to the **bank** from the station, turn left and walk up River Street. Turn right onto Ford Road. The bank is halfway down the road on your left.

The **supermarket** is opposite the bank.

To get to the **post office** from the leisure centre, turn left and then right onto Oak Avenue. Go to the end of the road until you see the **school**. Turn left again onto St. John's Street. Cross over the road. The post office is near the school, on the same side of the road.

To get to **Margaret Hart's house** from the surgeries, walk up Ford Road to the roundabout. Turn right onto St. John's Street. Walk past the **bookshop**, then turn left onto Oak Avenue. Turn first right onto Garden Street and walk past the **newsagent**. Margaret's house is next to the newsagent.

Owen keeps us grooving in the aisles!

Owen Williams – showman

REVIEW *Birmingham NEC*

Fans at his sellout show in Birmingham gave Owen Williams an ecstatic response last night as he rolled back the years and treated us to a rock 'n' roll spectacular *par excellence*. It was like 1982 all over again as Williams sprinted energetically through all his memorable hits, as well as some superb new tunes. Sales of his latest release, *Never Be Lonely (When You've Got A Friend)*, have now past the 2 million mark in the UK alone.

Home Security – Dos and Don'ts

Photocopy this page, cut out the sentences and mix them up. Students read each sentence and decide in small groups whether they belong in the "DOS" list or the "DON'TS" list:

1. Close all the windows before going out.
2. When someone you don't know comes to the door, ask to see their ID.
3. Learn a martial art so that you can deal with burglars effectively if they break into your home.
4. Don't tell anyone your address, even your family and friends.
5. Ask a friend to call round a couple of times to check the house while you are away on holiday.
6. Fit several large locks to the inside of the front door.
7. Leave a spare key under a flowerpot outside near the front door.
8. Lock the front door when you leave the house.
9. Stay in all day and all night, just in case.
10. Leave on a radio or the TV when you go out at night.
11. Keep all tools and garden equipment safely locked in the shed.
12. Have a spare front door key cut and give it to a trusted friend, in case you lose your own key.
13. Tell everyone you know that you're going on holiday and for how long the house will be empty.
14. Leave a tall ladder in the garden leaning up against the wall near an open bathroom window.
15. Make sure that you have enough home contents insurance cover for all of your possessions and valuables, in case your house is burgled.
16. Put an address label on the key fob that has your house key on it.
17. Leave the front door unlocked when you go to bed at night.
18. Cancel the milk and papers for the period when you are away on holiday.
19. Close all the curtains before leaving the house.
20. Build an eight metre high metal perimeter wall around your property and land.

Talk a Lot

Family

Role Plays:

1. “You did that on purpose!”

- Place: Your cousin’s wedding
 Time: 2.35pm
 Characters: You and the bride-to-be
 Situation: With the wedding due to start at 3pm you are talking to your cousin’s bride-to-be, trying to calm her down because she is very nervous. She was your girlfriend ten years ago in high school but you are over her now
- Scenes: i) The bride makes you laugh and you accidentally spill your glass of red wine all over her dress
 ii) You try to clean up the dress. The bride-to-be is in tears and very angry. She accuses you of being jealous that she is getting married to your cousin and says that you ruined her dress on purpose
 iii) After a moment, you and the bride-to-be realise that you are still madly in love with each other. Will the wedding be cancelled?

If there are three people in the group the third character could be:

- a) Your cousin
- b) The mother of the bride-to-be

2. “A mean man whose wallet rarely opened!”

- Place: The funeral of your late Uncle Charles
 Time: 2.30pm
 Characters: You and Charles Jnr. – Uncle Charles’s son
 Situation: You have been chosen to read a speech at your uncle’s funeral. All of your family are there. They are all upset because Uncle Charles was much loved and will be greatly missed. You have just flown in from Fiji for the funeral and have been very busy with work lately, so you let your cousin, Charles Jnr., write the speech for you
- Scenes: i) Before the funeral Charles Jnr. gives you the speech moments before the funeral begins. You don’t have time to read it before going up to the front
 ii) You read out the speech but as you do so it becomes clear, from the offensive language used in it, that Charles Jnr. hated his father because he had excluded him from his will. You see that the family are very offended by the speech and that your life may now be in danger
 iii) Later on you confront Charles Jnr., who explains why he wrote the speech

If there are three people in the group the third character could be:

- a) A family member at the funeral, who is horrified by the speech
- b) Auntie Gladys – Uncle Charles’s wife

Learning English

Discussion Questions

1. Why are you learning English?

Have you got any qualifications in English? Would you like to achieve a qualification? Which one(s)? Are you self-motivated, or do you *have to* study English?

2. When did you start learning English?

Who was your first teacher? What did you do in your first lesson? How did you feel about it?

3. Who is your favourite English teacher, past or present?

Why? How have they helped you? Describe a typical lesson.

4. Have you ever been to the UK?

Tell me about it. Do you think you need to spend time in the UK or an English-speaking country to learn English well? Why? / Why not?

5. What kind of learner are you? Are you a **kinetic learner**, who learns by physically doing something practical; a **language-orientated learner**, who thinks in words and enjoys reading and listening; a **visual learner**, who thinks in pictures, and learns best by visualising concepts; or a **logical learner**, who thinks in terms of patterns and sequences, and enjoys puzzles and maths?

6. Do you use English outside the classroom?

Do you...

a) speak in English with friends and relatives; b) watch English-language TV shows with subtitles; c) listen to music with English lyrics; d) use the internet in English, e.g. social-networking sites, Skype, etc.? If not, why not?

7. Tell me about the other students in your English class. Who is your best friend in the class? Describe them. Who don't you get on with? Why not?

8. What do you think about your level of English? Are you happy with it? What do you need to improve? Why? How will you achieve your goal?

Note: questions 1-40 are for the competitive games, whilst questions 41-50 (in blue type) are only for the non-competitive activities. These questions cannot be used during the competitive games because the answers would reveal the identity of the word!

Talk a Lot

Focus on Connected Speech

Weak Forms – Information Sheet

Notes:

- The weak forms of many function words are commonly used in **spoken English** instead of strong forms (in Standard Pronunciation, dialects, and accents).
- All words that have weak forms usually act as function words.
- All words that have weak forms have only one syllable – they are monosyllabic (apart from “any”).
- Most of the weak forms use the vowel sound **schwa** /ə/.
- If we use strong forms when we should use weak, we sound overly **formal** and it's harder for people to understand us, because the sentence stress is incorrect (see p.12.1). Communication is reduced.
- If a function word comes at the end of a sentence we usually use its strong form, e.g. “What are you looking for?” /fɔ:/ or, “Who are you writing to?” /tu:/
- If we want to show emphasis or contrast, we can vary intonation by using strong forms where we would normally use weak forms, e.g. “Where've you been all day?” /bi:n/

17. /eə/	pear	/peə/	22. /ʊə/	pure	/pjʊə/
18. /aɪə/	hire	/haɪə/	23. /aʊə/	power	/paʊə/

25 Consonant Sounds (15 voiced) (10 unvoiced)

24. /b/	bag	/bæg/	37. /r/	road	/rəʊd/
25. /g/	glass	/glɑːs/	38. /w/	week	/wi:k/
26. /v/	van	/væn/	39. /j/	yoghurt	/'jɒg.ət/
27. /t/	taxi	/'tæks.i/	40. /m/	music	/'mjuzɪ.zɪk/
28. /d/	dice	/daɪs/	41. /n/	nurse	/nɜːs/
29. /θ/	thousand	/'θaʊ.zənd/	42. /ŋ/	ring	/rɪŋ/
30. /ð/	brother	/'brʌð.ə/	43. /l/	lake	/leɪk/
31. /p/	pig	/pɪg/	44. /f/	frog	/frɒg/
32. /k/	kit	/kɪt/	45. /z/	zip	/zɪp/
33. /s/	snow	/snəʊ/	46. /ʒ/	revision	/rɪ'vɪʒ.ən/
34. /ʃ/	shop	/ʃɒp/	47. /dʒ/	jam	/dʒæm/
35. /tʃ/	cheese	/tʃiːz/	48. /x/	loch	/lɒx/
36. /h/	head	/hed/			

Notes:

- The syllable that follows this mark has strong stress: /' /
- This mark denotes a division between syllables: /./
- We write sounds and words using the IPA between forward slashes: / / . We don't use punctuation marks.

Spelling and Sounds – 250 Common Magic “e” Words (Ordered by Final Consonant)

In one-syllable words that end with an “e”, the other vowel is almost always long and sounds the same as it does in the alphabet. This is known as the magic “e” rule. Note: the “e” is not pronounced – it is a silent letter.

Talk a Lot

Films

Role Plays

1. “Cut!”

- Place: A beautiful stately home in the country, which is the set of a high-budget film – a costume drama set in the 1860s
- Time: 11.40am
- Characters: You are a film extra; the other student is a famous actor
- Situation: The famous actor is filming some emotional scenes. You are supposed to be in the background, keeping quiet and unnoticed
- Scenes:
- i) Shooting a scene: the actor’s character’s lover has left them for another man/woman. There is a dramatic argument. Suddenly your mobile rings. You answer it. The actor has to restart the scene. This happens a few times
 - ii) Later, during a different scene, the actor’s character is plotting revenge on their former lover. You are supposed to be in the background, up a ladder, cleaning a window. You lose your balance and fall off. This happens a few times; the final time you actually fall through the window. The actor is cross
 - iii) At the end of the day, you go to the actor’s dressing room and apologise. Try to get their autograph for yourself, and then for your mum, dad, sister, brother, cousin, Auntie Dotty, etc.!

If there are three people in the group, the third character could be:

- a) *The upper-class director of the film, called Nigel*
- b) *Another film extra, who is jealous of your screen time with the actor...*

2. “Your world is confusing to me!”

- Place: A DVD rental store
- Time: 3.30pm
- Characters: You work in the store; the other person is an alien from the planet Sproot
- Situation: The alien comes into the store to complain about his rental. It wouldn’t play...
- Scenes:
- i) You check the DVD on your player. It works fine. The alien explains that it wouldn’t fit in the slot. He (or *she*, or *it*) had been trying to put it into a video recorder. He chooses a different DVD
 - ii) The next day, the alien returns to complain that the DVD is damaged. It wouldn’t play. This time it went in the slot OK, but all the power in his flat went off. He had been trying to put it into a toaster. He rents a different DVD
 - iii) The next day, the alien comes back with the DVD and a microwave oven. Both are badly damaged. He is banned from the DVD rental store for life

If there are three people in the group, the third character could be:

- a) *The alien’s equally confused friend / commander / overlord*
- b) *The store manager, who is drunk*

Talk a Lot

Hospital

Role Plays

1. “You won’t feel a thing!”

Place: A busy hospital on the edge of a large city
 Time: 10.20 am
 Characters: You are a patient; the other student is a nurse
 Situation: You’re staying in hospital for a few days. Your doctor has sent you to the blood clinic to have a routine blood test. You are terrified of needles and can’t stand the idea of anyone sticking a syringe in your arm. However, your treatment cannot continue without the results of the blood test...

Scenes: i) You go to the blood clinic; you’re very nervous, but try to remain calm. When the nurse produces the syringe you run screaming from the room
 ii) A few minutes later, you return to the clinic. You try to compose yourself. The nurse says that it will only take a second, and won’t hurt. You try to think about something pleasant, but at the last minute you see the syringe coming towards you and flee the room, gibbering as if you’ve seen a ghost
 iii) Evening of the same day. The doctor needs the blood test results. You must have the blood test, no matter what. The nurse must convince, cajole, entice, or otherwise persuade you to have the blood test

If there are three people in the group, the third character could be:

- a) *The doctor – who has an important appointment with some golfing chums*
- b) *Another patient, who seems to love having blood tests*

2. “We need a place to smoke!”

Place: The grounds and car park area of a large hospital in the UK
 Time: 11.35 am
 Characters: You are a very conscientious security guard; the other student is a patient
 Situation: Whilst patrolling the grounds you find somebody smoking behind a bike shed. The hospital has a “zero tolerance” policy on smoking, which means that smoking is not allowed anywhere on the hospital site – inside or outside

Scenes: i) You confront the offender and remind them of the hospital’s policy. The patient makes up an excuse. Tell them that if you see them smoking again you will be forced to issue a fine of £100
 ii) A few hours later, you catch the patient smoking again. This time you issue the fine. The patient tries to bribe you with some cheap cigarettes...
 iii) In the final scene you and the patient are running an unofficial smoking area behind the bike shed, where other tense patients and relatives can smoke in safety without fear of prosecution – for £5 per cigarette!

If there are three people in the group, the third character could be:

- a) *A nervous patient who can’t get through the day without twenty cigarettes*
- b) *Another security guard, who finds out what’s going on and threatens to report you*

Books

Multi-Purpose Text

Christmas Presents (Original Text)

Line

1 It was nearly 8pm on a late night shopping night, two weeks before Christmas.
 2 Maggie was in Harold's Bookshop in Derby with her little cousin Darren. "What about
 3 this for Auntie Kathleen?" He produced a copy of 'Dolphins of the World'. "No, I've
 4 got just the thing for mum," said Maggie, "She loves languages." And she popped a
 5 copy of 'Go Italia!' into her basket. "What about for my dad?" asked Maggie. Darren
 6 held up a copy of 'Flipper: The Authorised Biography'. "I'm not buying that!" squealed
 7 Maggie. "Try and help me, Dazza! Ah, dad'll like this – 'Steam Engines of the 1840s'."
 8 "Boring," said Darren, opening a pop-up book about killer whales. Maggie paid for the
 9 books and they went outside into the cold.
 10 "We've forgotten Dennis!" cried Darren. "He wants a car manual," replied
 11 Maggie, "About BMWs. They didn't have it in the last shop." "What about here", said
 12 Darren, pointing at World of Books, which was next to the market. They hurried in,
 13 but they couldn't find it. Books For U didn't have it either. Just when they were about
 14 to give up, they found Dennis's present in a tiny independent bookshop near the
 15 station, called The Bookworm. They felt so pleased. On the bus home, as the snow
 16 danced around outside, Darren was puzzled. "Why did you buy books for
 17 everybody?" "Because you should always give the kind of present that you'd like to
 18 receive yourself," replied Maggie. Darren thought for a moment. "So which book do
 19 you want them to get you?" "I'll have a book token," declared Maggie decisively, "So
 20 that I can choose my own present!"
 (272 words)

Christmas Presents (Text with 20 Differences)

It was nearly **1. 9pm (8pm)** on a late night shopping night, two weeks before Christmas.
 Maggie was in Harold's Bookshop in **2. Manchester (Derby)** with her little cousin Darren.
 "What about this for Auntie Kathleen?" He produced a copy of 'Dolphins of the World'. "No,
 I've got just the thing for **3. her (mum)**," said Maggie, "She loves languages." And she
 popped a copy of 'Go Italia!' into her basket. "What about for my dad?" asked Maggie. Darren
 held up a copy of 'Flipper: The Authorised **4. Story (Biography)**'. "I'm not buying that!"
 squealed Maggie. "Try and **5. tell (help)** me, Dazza! Ah, dad'll like this – 'Steam Engines of
 the 1840s'." "Boring," said Darren, opening a pop-up book about **6. really big (killer)**
 whales. Maggie paid for the **7. shopping (books)** and they went outside into the cold.
 "We've forgotten Dennis!" cried Darren. "He wants a car **8. book (manual)**," replied
 Maggie, "About BMWs. They didn't have it in the **9. past (last)** shop." "What about here",
 said Darren, **10. looking (pointing)** at World of Books, which was next to the
11. car park (market). They hurried in, but they couldn't find it. Books For U didn't have it
12. neither (either). Just when they were about to give up, they **13. discovered (found)**
 Dennis's present in a tiny **14. friendly (independent)** bookshop near the station, called
 The Bookworm. They felt so pleased. On the bus home, as the snow **15. passed (danced)**
 around outside, Darren was puzzled. "Why did you buy **16. them (books)** for everybody?"
 "Because you should always give the kind of present that you'd like to **17. get (receive)**
 yourself," replied Maggie. Darren thought for a **18. minute (moment)**. "So which book do
 you want them to get you?" "I'll have a **19. cheque (book token)**," declared Maggie
 decisively, "So that I can **20. use (choose)** my own present!"

Politics

Multi-Purpose Text

Tough at the Top (Gap-Fill – Nouns)

After school on Monday, Maggie had another meeting of the “Magic Holidays 1. _____”, which she chairs. The aim of the committee is to raise 2. _____ for school trips for less-privileged 3. _____. Malcolm, the main fundraiser, made some astonishing allegations about Tim, the treasurer, announcing that Tim had stolen forty pounds from committee 4. _____. Tim denied it, but by Tuesday afternoon Malcolm had given Maggie an 5. _____: “Either he goes or I quit!” Maggie was under intense 6. _____ because Malcolm was a very good fundraiser. What’s more, she couldn’t believe that Tim would steal from them. Besides, she knew that Malcolm had been trying to get the treasurer’s 7. _____ for a few months. Malcolm continued to threaten, but Maggie kept a cool 8. _____, and demanded evidence of misconduct. On Thursday Tim unexpectedly resigned from his post and Maggie’s 9. _____ sank. She heard from Kim, a trusted colleague on the committee, that Malcolm had discovered 10. _____ proving that Tim *had* unlawfully taken committee money for his own use. By close of play on Friday Maggie had heard a full 11. _____ from Tim, who claimed that he had only *borrowed* the cash “...to help my sister pay back her student loan 12. _____.” Tim was sacked from the committee and Kim was voted into the role. Malcolm said for the record that he had only acted in the 13. _____ of the committee and he stayed on as main fundraiser. Maggie felt a weight lifting when the weekend finally got underway. “It’s true what they say, mum,” she told Kathleen on Friday evening after a long 14. _____, “A week really *is* a long time in 15. _____!”

Tough at the Top (Multiple Choice – Use of English)

After school on Monday, Maggie had 1. **a) first, b) another, c) the** meeting of the “Magic Holidays Committee”, which she chairs. The aim 2. **a) for, b) to, c) of** the committee is to raise money for school trips 3. **a) for, b) and, c) the** less-privileged pupils. Malcolm, the main fundraiser, made 4. **a) a, b) an, c) some** astonishing allegations about Tim, the treasurer, announcing that Tim had stolen forty pounds from 5. **a) committee, b) its, c) those** funds. Tim denied it, but by Tuesday afternoon Malcolm had given Maggie 6. **a) a, b) an, c) her** ultimatum: “Either he goes or I quit!” Maggie was under intense pressure 7. **a) while, b) because, c) 'cos** Malcolm was a very good fundraiser. What’s more, 8. **a) I, b) She, c) she** couldn’t believe that Tim would steal from them. Besides, she knew that Malcolm had been trying to get the treasurer’s job for a 9. **a) few, b) little, c) several** months. Malcolm continued to threaten, but Maggie kept a cool head, and 10. **a) demand, b) demanded, c) demanding** evidence of misconduct. On Thursday Tim unexpectedly resigned from his post and Maggie’s heart sank. She heard 11. **a) that, b) from, c) with** Kim, a trusted colleague on the committee, that Malcolm had discovered documents proving that Tim *had* unlawfully taken committee money for his own use. By close of play 12. **a) on, b) at, c) in** Friday Maggie had heard a full confession from Tim, who claimed that he had only *borrowed* the cash “...to help my sister pay 13. **a) out, b) up, c) back** her student loan debt.” Tim was sacked from the committee and Kim was voted into the role. Malcolm said for the record that he had only 14. **a) helped, b) acted, c) begun** in the interests of the committee and he stayed on as main fundraiser. Maggie felt a weight lifting when the weekend finally got underway. “It’s true what they say, mum,” she told Kathleen on Friday evening after a 15. **a) full, b) cold, c) long** bath, “A week really *is* a long time in politics!”

Airport – Who would you look for first?

Student A

Four passengers have been reported lost at a large airport near London, where you work as a customer service assistant. The time is 6.49 pm. Ask and answer questions to complete the gaps, and find out information about each person. Who would you look for first? Why?

	Passenger #1	Passenger #2
Name / Age		Mr. P. MacNaulty / 42 y.o.
Destination / Check-in closes	Madrid / 19.25	
Flight no. / Airline		A303 / Scot Air
Departs / Gate No.	19.55 / 46	
Travelling with / Last seen	parents / 18.40	
Wearing		long brown jacket, black hat, grey shoes
Nationality / More information	English / first time abroad	
Reason for travelling		family reunion

	Passenger #3	Passenger #4
Name / Age	Claudia Estobar / 34 y.o.	
Destination / Check-in closes	Santiago / 19.15	
Flight no. / Airline		B916 / Overseas
Departs / Gate No.		20.10 / 35
Travelling with / Last seen	colleague / 18.07	
Wearing		new charcoal grey suit, red tie, buttonhole
Nationality / More information	Chilean / registered epileptic	
Reason for travelling		honeymoon

-----✂-----

Student B

Four passengers have been reported lost at a large airport near London, where you work as a customer service assistant. The time is 6.49 pm. Ask and answer questions to complete the gaps, and find out information about each person. Who would you look for first? Why?

	Passenger #1	Passenger #2
Name / Age	Rosie Cooper / 14 y.o.	
Destination / Check-in closes		Aberdeen / 19.00
Flight no. / Airline	M458 / Fly Me	
Departs / Gate No.		19.30 / 13
Travelling with / Last seen		brother / 17.52
Wearing	shorts, blue t-shirt, pink sandals	
Nationality / More information		Scottish / tall, glasses, curly hair, big nose
Reason for travelling	holiday	

	Passenger #3	Passenger #4
Name / Age		David Morgan (Lord) / 88 y.o.
Destination / Check-in closes		Bahamas / 19.40
Flight no. / Airline	S284 / Condor Airways	
Departs / Gate No.	19.45 / 1	
Travelling with / Last seen		new bride / 18.15
Wearing	floral print dress, white sandals	
Nationality / More information		Welsh / bald, red cheeks, has pacemaker
Reason for travelling	business trip

How to Make Your Own Board Game (instructions)

Playing board games is a great way for students to unwind and have a chance to practise their English in an informal environment. They can be even more valuable to students if they're allowed to design and make their own board game from scratch! Follow our simple instructions and your students will be busy in small groups making the next Monopoly® in no time:

Firstly, think of a name and theme for your game, e.g. animals, cars, sport, etc.

You will need to find:

- A die.
- Some counters (decide the minimum and maximum number of players).
- A game board – use our ready-to-play template or design your own using one of our blank templates.

The game board should have a mix of different types of spaces:

- Some positive spaces, e.g. go forwards x spaces, or go to space no. x (forwards).
- Some negative spaces, e.g. go back x spaces, miss a turn, go to space no. x (backwards), or go back to the start.
- Some spaces where if you land on them you have to do a forfeit/party piece or answer a general knowledge question (see below).

Finally, think of some special rules that are unique to your board game, e.g. you must throw a six to start or you must throw the right number to finish.

Examples of board game forfeits:

- Whistle or sing your national anthem
- Say the alphabet backwards
- Count from 30 or 50 down to 1 in English
- What is the correct time now in your country?
- Talk for one minute about... e.g. your favourite place, your school, your family.
- What is the total number if you add together all the numbers in your phone number?
- What is the combined age of everyone in the room?
- What is the address/phone number/email address of your school?
- What would you do if...? E.g. if you lost your bag, or if you won the lottery, etc.
- ***Try to think of some more forfeits that fit your chosen theme!***

Types of general knowledge questions:

- In which country is... e.g. Edinburgh? (It's in Scotland, by the way!)
- Name 5 things which have... e.g. wheels, wings, feathers, etc.
- Name five different... e.g. colours, animals, vegetables, clothes, jobs, furniture, etc.
- What is your favourite... e.g. type of music, or season... and tell us why
- Complete the sentence, e.g. "If I were Prime Minister I would..."
- Spell a word... e.g. "appointment"
- Maths equation, e.g. what is 60 divided by 4. (It's 15!)
- ***Try to think of some more questions that fit your chosen theme!***

Mixed-up Monarchs – Kings and Queens of England to 1603

It seems as if my friend Stanley Baker has swallowed a history book! He has been telling me all sorts of historical facts about England's past. But I think that he's got some of his facts wrong. Take this answerphone message that he left me recently, for example:

"These royals are an interesting lot, you know. I've been finding out all about when they reigned and all that. Let's start with the best king of all. Now then ... King Alfred the Great ruled England before King John, who ruled England before King Stephen, who ruled England after King Canute, who ruled England after King Edward the Confessor, who ruled England before King Henry IV, who ruled England before Queen Mary I, who ruled England after King Richard the Lionheart, who ruled England after King Edward II, who ruled England before King Athelstan, who ruled England before King Edmund I, who ruled England after King William II, who ruled England after King Alfred the Great. Have you got all that?"

How many mistakes has Stan made? _____

Are the following statements true or false?

1. King Alfred the Great ruled England before King John.
2. King John ruled England before King Stephen.
3. King Stephen ruled England after King Canute.
4. King Canute ruled England after King Edward the Confessor.
5. King Edward the Confessor ruled England before King Henry IV.
6. King Henry IV ruled England before Queen Mary I.
7. Queen Mary I ruled England after King Richard the Lionheart.
8. King Richard the Lionheart ruled England after King Edward II.
9. King Edward II ruled England before King Athelstan.
10. King Athelstan ruled England before King Edmund I.
11. King Edmund I ruled England after King William II.
12. King William II ruled England after King Alfred the Great.

Talk a Lot

Free Copying Licence

“There is no wealth but life.” – John Ruskin (1819-1900)

Quick Summary:

You may download, print, copy, sell, and distribute English Banana.com materials, without paying anything.

Definition of Terms:

This licence is effective from 7th December 2008, and replaces all existing statements and notices regarding copyright and copying of English Banana.com materials. It applies to all English Banana.com materials.

“English Banana.com materials” means: worksheets, MP3s, video files, books, CD-ROMs, and any other file or product that has been created and published by English Banana.com, that exists either on its website server (www.englishbanana.com) or offline, including digital versions (e.g. a .pdf file) as well as physical copies (e.g. a workbook copy of the Big Grammar Book, or a CD-ROM).

Who May Use this Licence?

This licence applies to anybody who wishes to use English Banana.com materials.

Free Copying Licence:

1. You may download, print, copy, and distribute English Banana.com materials.
2. You may sell English Banana.com materials to make a profit.
3. You may distribute English Banana.com materials for free.
4. You may put English Banana.com materials on a website.
5. You may put English Banana.com materials on an intranet server.
6. You may adapt English Banana.com materials.
7. You may remove the English Banana.com name and logo from the materials, or replace it with your own.
8. You may produce plays or films using English Banana.com materials.

This is a free licence:

- You don't have to pay English Banana.com any royalties or fees.
- You don't have to credit English Banana.com as the originator of the materials.
- You don't have to contact us before using this licence, or apply for further permission, although if you do tell us how you are using it, we may be able to help you by publicising your initiative on English Banana.com.

In short, if you can use English Banana.com materials in any way, this licence gives you permission to use them.

For more fun worksheets, games, and quizzes log onto www.englishbanana.com now!

Talk a Lot

Free Copying Licence

There is only one restriction:

You may not claim copyright to original English Banana.com materials. International copyright for English Banana.com materials belongs to Matt Purland/English Banana.com 2002-2010.

Why Free Licences?

Matt Purland, sole author of all English Banana.com materials, writes:

*"I feel that the quotation at the top of this page says it all: 'There is no wealth but life.' What do we have of value, really, apart from life? Life is fleeting, so if somebody sees value in my work – the English Banana.com materials – and can use it to improve their quality of life, I'm very happy for them to do so. I hope that perhaps **you** will be able to benefit from one or both Free English Banana.com Licences. If you would like to ask me a question, or send a comment, please do contact me via the English Banana.com feedback form."*

Standard Disclaimer:

By accessing and using www.englishbanana.com you accept that all materials and services, including links to external websites, are provided in good faith and 'as is'. Talk a Lot

Free Licence to Run Courses

“There is no wealth but life.” – John Ruskin (1819-1900)

Quick Summary:

You may use English Banana.com materials to plan and run courses, without paying anything.

Definition of Terms:

This licence is effective from 7th December 2008, and replaces all existing statements and notices regarding copyright and copying of English Banana.com materials. It applies to all English Banana.com materials.

“English Banana.com materials” means: worksheets, MP3s, video files, books, CD-ROMs, and any other file or product that has been created and published by English Banana.com, that exists either on its website server (www.englishbanana.com) or offline, including digital versions (e.g. a .pdf file) as well as physical copies (e.g. a workbook copy of the Big Grammar Book, or a CD-ROM).

Who May Use this Licence?

This licence applies to anybody who wishes to use English Banana.com materials.

Free Licence to Run Courses:

1. You may use English Banana.com materials to plan and administer your courses.
2. You may use English Banana.com materials as course content.
3. You may charge for and make a profit from courses that use English Banana.com materials.
4. You may adapt English Banana.com materials.
5. You may remove the English Banana.com name and logo from the materials, or replace it with your own.

This is a free licence:

- You don't have to pay English Banana.com any royalties or fees.
- You don't have to credit English Banana.com as the originator of the materials.
- You don't have to contact us before using this licence, or apply for further permission, although if you do tell us how you are using it, we may be able to help you by publicising your initiative on English Banana.com.

In short, if you can use English Banana.com materials in any way, this licence gives you permission to use them.

For more fun worksheets, games, and quizzes log onto www.englishbanana.com now!

Talk a Lot

Free Licence to Run Courses

There is only one restriction:

You may not claim copyright to original English Banana.com materials. International copyright for English Banana.com materials belongs to Matt Purland/English Banana.com 2002-2010.

Why Free Licences?

Matt Purland, sole author of all English Banana.com materials, writes:

*"I feel that the quotation at the top of this page says it all: 'There is no wealth but life.' What do we have of value, really, apart from life? Life is fleeting, so if somebody sees value in my work – the English Banana.com materials – and can use it to improve their quality of life, I'm very happy for them to do so. I hope that perhaps **you** will be able to benefit from one or both Free English Banana.com Licences. If you would like to ask me a question, or send a comment, please do contact me via the English Banana.com feedback form."*

Standard Disclaimer:

By accessing and using www.englishbanana.com you accept that all materials and services, including links to external websites, are provided in good faith and 'as is'. You agree that you will not hold English Banana.com responsible for any issues or consequences that may arise from accessing and using English Banana.com materials. No guarantee of availability or reliability of either use or accuracy is given by the author or may be assumed. All files on www.englishbanana.com have been virus-checked before being uploaded to the server. However, this disclaimer has been posted to make it clear that when users download files from this website they do so at their own risk. English Banana.com cannot be held responsible or liable for any damage or loss resulting from accessing and using materials from www.englishbanana.com.

About the Cover Picture – Jelly Cubes in the Fridge (May 2011)

In Lesson 4 we learn that a sentence is like a row of jelly cubes, with each cube representing one syllable. Some of the jelly cubes have a hard centre, which is unaffected when the jelly cubes are squeezed together. The hard centres represent the stressed syllables. I made the jelly in the pictures and stored it in the fridge. This particular row of jelly cubes represents a sentence with the following stress pattern: o O o o O o o O which fits all of the following sentences:

The painter is painting a fence. | A man was avoiding his boss. | I wasn't surprised to be fired. | They ran to the shop for some milk.

o	O	o	o	O	o	o	O
The	pain	ter	is	pain	ting	a	fence.
A	man	was	a	voi	ding	his	boss.
I	wa	sn't	sur	prised	to	be	fired.
They	ran	to	the	shop	for	some	milk.

Can you think of any more sentences with this stress pattern? Go to Lesson 4 for more on the Jelly Cube Comparison!

Talk a Lot

Foundation Course

Foreword

Hi there!

Talk a Lot Foundation Course is for anybody who needs to better understand how to speak English like a Native Speaker. It will be especially useful for anybody who is studying with – or about to study with – **Talk a Lot** materials (i.e. Elementary Books 1-3 or Intermediate Book 1). The theory studied on this course will enable learners to get a lot more out of any **Talk a Lot** materials. The course is suitable for learners from Pre-Intermediate level (CEF B1) to Advanced (CEF C1) – and beyond. It can also be adapted for lower-level learners. It goes without saying that zero beginner learners will benefit from learning about word stress and weak forms as they take their first steps with vocabulary and sentence-building in English.

The focus of this course is pronunciation – how we speak. The message of the entire course can be summed up in two words: **stress** and **reduce** – learners can improve their pronunciation by stressing the content words in a sentence and reducing the function words – then connecting the syllables together. The aim of the course is to teach learners how to do this. Learners will also develop their listening skills as they discover the techniques that English native speakers routinely use when speaking quickly.

This is not a book to be picked up and read from beginning to end, but rather a collection of practical materials that need to be studied within the context of a course – guided by a teacher. This is not really a self-study book, although I'm sure learners could learn a lot from reading it on their own, and listening to the audio files (see below). The course is made up of four lessons of theory – Introduction and Basic Principles; Spelling and Sounds; Stress; and Connected Speech. There is also a fifth lesson with practical exercises, which can be repeated as often as you like – or have time for. This book contains the course material for each lesson, which may be given to learners on the course, and which the teacher can use to plan and facilitate the lessons.

The materials in this course are fairly flexible. Each lesson has an outline of the main points, which are described in more detail in boxes, and then followed by examples and practical activities. You don't have to follow this course as it is written word by word, doing every activity – although you could. You may decide to use the text as an outline, adding extra activities and examples that are more relevant for your learners, and taking away things that they don't need. The timing of each lesson can vary – it will depend on the level of your learners, and how much time there is available. I would recommend a classroom session of at least 90 minutes for covering one of the theory lessons.

There are no formal lesson or end of course tests available at the moment, but you may prepare your own to suit your teaching situation by using a number of activities (speaking, listening, reading, and writing) from the course material. (Including a written test where

Talk a Lot

Foundation Course

Foreword

learners translate a text either from or into the NEA – or both.) Whether you set tests or not, learners should do the homework between the lessons, revising what they have learned.

This book also includes various pages of extra reference material at the end of each lesson, and two vital documents which learners will need to refer to throughout the course – the Glossary of Pronunciation Terms and the New English Alphabet (NEA) handout. They follow this Foreword. There are further related materials in the **Talk a Lot** Handbook, which is a free download from <http://www.englishbanana.com/talkalot/> There are cross-references to the **Talk a Lot** Handbook on the title page of some of the theory lessons.

I have tried the best I can to keep this course as jargon-free as possible. I'm not an academic or researcher – I'm a classroom teacher, and I want to write materials that can be easily absorbed by my learners. There is, of course, some jargon to be learned along the way. The comprehensive Glossary of Pronunciation Terms will be an invaluable point of reference. There are also some free .mp3 audio files to support this course, which are intended to bring the text to life, making the sounds and techniques discussed audible – and repeatable! You will find them at <http://www.englishbanana.com/talkalot/>

I would like to say a big thank you to all of the learners who have helped me to try out this material over the past six months – both online and face to face in the classroom. It has been really invaluable for me as I have tried to figure out how to explain in an approachable way how to do something which is, in essence, a fairly simple thing: **stress** the content words and **reduce** the function words. If *you* have any feedback about this course – including questions, comments, or suggestions – I would be happy to hear from you. You can contact me here: info@englishbanana.com

Finally, like all English Banana.com materials, this course is covered by our Free Copying Licence and Free Licence to Run Courses (see previous pages). These licences give you the right to print, copy, distribute, and even sell this material – as well as teach courses using it (including for-profit and not-for-profit courses) *without paying any commission*. You don't even have to tell us that you're using the licence(s) – but if you do we will be happy to mention your course online!

Thanks for reading this and for choosing **Talk a Lot** Foundation Course. Enjoy the course!
Guu Dluk!

Matt Purland, Ostróda, Poland (3rd June 2011)

Talk a Lot

Foundation Course

Course Outline

Lesson 1 – Introduction and Basic Principles

- 1.1 Talk a Lot Foundation Course is an opportunity to study the theory of pronunciation before beginning a Talk a Lot course
- 1.2 English spelling is broken
- 1.3 We need a new phonetic alphabet to represent sounds in written form
- 1.4 The vowel sounds on the stressed syllables of content words are the most important sounds in a sentence
- 1.5 English Native speakers use sounds, stress, and connected speech without thinking about it, but you have to *learn* to do it!
- 1.6 The *Glossary of Pronunciation Terms* will be a useful reference tool during the course
- 1.7 Standard EFL course books are good at teaching reading and listening skills, but less able to teach speaking and writing

Lesson 2 – Spelling and Sounds

- 2.1 English is not a phonetic language, which means that often spelling and sounds do not match
- 2.2 The spelling of a word and its sounds are usually two different things in English. You need to learn two parts of each word: the spelling and the sounds
- 2.3 Part of the problem is the high frequency of silent letters in English spelling
- 2.4 Students usually pronounce far too many vowel sounds when they speak English
- 2.5 The Schwa sound is the most common vowel sound in English – and the least discussed
- 2.6 The glottal stop is not a sound but rather an action – the cutting off of a sound at the moment of making it
- 2.7 We need to combine the written alphabet and the phonetic alphabet into one New English Alphabet (NEA)

Lesson 3 – Stress

- 3.1 English is a stress-timed language, not a syllable-timed language
- 3.2 Content words each have one strong stress, while function words are not stressed
- 3.3 Word stress is irregular in English
- 3.4 Communication is reduced when we don't use sentence stress
- 3.5 The sound spine is the sequence of vowel sounds on the stressed syllables in a sentence
- 3.6 It is not necessary to pronounce every letter in every word in every sentence
- 3.7 We reduce function words by using contractions and mega contractions
- 3.8 We also reduce function words by using weak forms
- 3.9 Most of the top 100 most common words in English are function words, which have weak forms that students do not generally use
- 3.10 We are not going to focus on intonation during this course

Lesson 4 – Connected Speech

- 4.1 Even with the stress and vowel sounds correct in a sentence, we still sound wrong when we don't use connected speech, because we are speaking word by word
- 4.2 We speak English syllable by syllable, not word by word
- 4.3 However, English words don't fit together very well. They are like badly-fitting puzzle pieces
- 4.4 We use the Features of Connected Speech to solve this problem. It can be learned using the mnemonic GLACIER
- 4.5 There are four possible sound connections between syllables
- 4.6 cc sound connections are the hardest to pronounce
- 4.7 The aim is to speak with only vc (vowel sound to consonant sound) sound connections between syllables, and we use connected speech techniques to achieve this
- 4.8 Friendly consonant sounds are helpful because they are happy to sit beside other consonant sounds

Talk a Lot

Foundation Course

New English Alphabet – 48 Phonemes (Individual Sounds)

23 vowel sounds: **8 short** **5 long** **10 diphthongs** | 25 consonant sounds: **15 voiced** **10 unvoiced**
 Each phoneme always has the same written identifier (ID). Letters not used from the old alphabet: c, q, x
 When pronounced on their own, all consonant sounds (including unvoiced) are followed by a Schwa sound, e.g. 7. buh, 16. fuh, and 37. tuh . This is called an **embedded Schwa sound**

No.	Phonemic ID	Old IPA Symbol	Old Spelling	New Spelling	Type
1.	a	/æ/	bat	Bat	v / s
2.	ai	/aɪ/	time	Taim	d

38.	th	/ð/	brother	Bru th	c / v
39.	tt	/θ/	thousand	Ttau znd	c / u
40.	u	/ʌ/	cup	Kup	v / s
41.	uh	/ə/	arrive	uh Raiv	v / s
42.	uu	/ʊ/	pull	Puul	v / s
43.	uuw	/ʊə/	pure	Pyuuw	d
44.	v	/v/	van	Van	c / v
45.	w	/w/	week	Week	c / v
46.	y	/j/	yoghurt	Yo gt	c / v
47.	z	/z/	zip	Zip	c / v
48.	zz	/ʒ/	revision	r Vi zzn	c / v
	—	/ʔ/	went out	Wen_ Au_	

Key – v = vowel sound: s = short l = long d = diphthong | c = consonant sound: v = voiced u = unvoiced

Talk a Lot

Foundation Course

Glossary of Pronunciation Terms

Glo s rii y vpr nun sii Yei shn Termz

Talk a Lot

Foundation Course

Glossary of Pronunciation Terms

This is a glossary of the main terms that learners should become familiar with before beginning a Talk a Lot course:

alphabet

An alphabet is a collection of words which are used to represent on a page the sounds that we make when speaking a language. There are 26 letters in the English alphabet, which are arranged in the following order:

a b c d e f g h i j k l m n o p q r s t u v w x y z

There are 21 consonant letters and 5 vowel letters (see below).

assimilation

A technique of connected speech. Assimilation occurs when the sound at the end of a syllable changes so that it is easier to pronounce with the sound at the beginning of the next syllable.

e.g. "clean bike" is easier to pronounce when the n at the end of clean changes to m : "cleam bike"

connected speech

The practice of joining together words in a sentence, rather than pronouncing each one separately.

consonant cluster

A combination of two or more consonant letters together in the spelling of a word.

e.g. "br" and "ng" in "bring", or "th" and "nk" in "think"

consonant letter

There are 21 consonant letters in the English alphabet. They are: b c d f g h j k l m n p q r s t v w x y z

consonant sound

There are twenty-five consonant sounds in spoken English. Consonant sounds are made when we move our tongue, lips, and mouth into different positions before releasing breath from our lungs.

There are fifteen voiced consonant sounds (we can feel our vocal cords moving when we make them):

b	bag	n	nurse	w	week
d	dice	ng	ring	y	yoghurt
j	jam	r	road	z	zip
l	lake	th	brother	zz	revision
m	music	v	van		

and there are ten unvoiced consonant sounds (we can't feel our vocal cords moving when we make them):

ch	cheese	hh	loch	s	snow
f	frog	k	kit	sh	shop
h	head	p	pig	tt	thousand

Most consonants sound as you would expect them to from looking at them (they are phonetic), so it is more important to spend time learning how the vowel sounds and diphthongs look and sound.

For more fun worksheets, games, and quizzes log onto www.englishbanana.com now!

Talk a Lot

Foundation Course

Glossary of Pronunciation Terms

content word

A content word is any word that has an individual meaning on its own, outside of a sentence. The following word groups are all content words: nouns, main verbs (but not verb “to be”, which is usually unstressed), phrasal verbs, adjectives, adverbs, numbers, proper names, and negative auxiliary verbs. Content words contrast with function words (see below), which are not usually stressed.

e.g. nouns – car, biscuit, tree, etc.
main verbs – eat, go, take, etc.
adjectives – interesting, good, expensive, etc.

contraction

A technique of connected speech. A contraction occurs when two words are merged together to make a single word, e.g. “it is” becomes “it’s”, and “I had” becomes “I’d”. The aim is to reduce unstressed syllables in the sentence: two function words, which are both unstressed, become one function word. The reduction of the function words makes the strong stresses on either side stand out more.

Note: a **mega contraction** is when a contraction is reduced even further to the barest minimum possible, without actually deleting the word, e.g. the contraction “you’re” is contracted further to y , “he’s” becomes uhz , and “they’re” becomes th .

diphthong

A diphthong is a vowel sound in English, in which two or more vowel sounds combine to make a new vowel sound. Therefore a diphthong is a double sound. There are 10 diphthongs in spoken English:

ai	time	auw	power	eu	home
aiy	hire	ei	plane	oy	toy
au	cow	eir	pear	uuw	pure

elision

A technique of connected speech. Elision occurs when a sound is removed from the end of a syllable, making it easier to pronounce next to the following syllable. The removal of a sound – usually t or d – often combines with a glottal stop (see below). The aim is to make a vc sound connection, which ensures a smooth transition to the next syllable.

e.g. in the phrase “hot coffee” there are two consonant sounds that meet – t and c – so to make them easier to pronounce together we get rid of the t (elision) and add a glottal stop: Ho_ Ko fii

embedded Schwa sound

An embedded Schwa sound occurs when we pronounce a consonant sound on its own. All consonant sounds are voiced in the NEA, and a Schwa sound naturally follows each consonant sound, e.g. b, f, or t . There is no need to write this Schwa sound (as uh) in the NEA, because it always follows a single consonant sound, e.g.

“today” = t Dei t is a consonant sound pronounced on its own which is followed by an embedded Schwa sound. It is pronounced like this: tuh , but we don’t need to write uh because the Schwa sound is assumed

Final Consonant Linking (FCL)

See *linking*, below.

For more fun worksheets, games, and quizzes log onto www.englishbanana.com now!

Talk a Lot

Foundation Course

Glossary of Pronunciation Terms

Friendly consonant sounds

Friendly consonant sounds are consonant sounds which are quite happy to meet other consonant sounds. They are:

n, m, and ng

(note that l can also sometimes be a friendly consonant sound...)

These are really helpful sounds, because when one of them happens to be at the end of a syllable and a consonant sound follows, they make the sound connection easy – just like a vc sound connection. n, m, and ng are all easy to pronounce with a following consonant sound. This is because the tongue and mouth are in a neutral position after pronouncing these sounds, and as such ready to pronounce any following sound. The tongue can rest on n, m, or ng without having to link it to the start of the next syllable.

function word

A function word is a short, unstressed grammar word that doesn't have an individual meaning on its own, outside of a sentence. Function words are usually: pronouns, auxiliary verbs, prepositions, articles, and conjunctions. Verb "to be" is also a function word – even when used as a main verb. Note: negative forms of auxiliary verbs do have stress, e.g. didn't is stressed on the first syllable (see **content words**, above).

e.g. pronouns – she, their, him, etc.
auxiliary verbs – have, do, will, can, etc.
prepositions – to, for, in, on, etc.
articles and determiners – a, an, the, some, etc.

glottal stop

A technique of connected speech. A glottal stop is not a sound but rather an action – the sudden cutting-off of a vowel sound just after making it, instead of letting it run on. We hear a glottal stop as a tiny gap in the flow of speech. It happens when we close our glottis (the opening of the vocal cords). The aim is to turn cc sound connections into vc sound connections (see below). By replacing a consonant sound with a glottal stop, we stop the friction that would have occurred by the meeting of the two consonant sounds. Glottal stops usually occur at the same time as elision (see above). A sound disappears, and a glottal stop is used automatically by the speaker in its place. Some native speakers tend to make a glottal stop even when the next sound is a vowel sound, but this deviates from standard pronunciation. In the NEA, a glottal stop is represented by the underscore symbol: _

e.g. "My mate Pat." = mai Mei_ Pa_. (the t's are deleted and replaced by glottal stops)

homophone

A homophone is a word that has exactly the same **sounds** as another word, but a different **spelling** and a different **meaning**. Homophones are good examples of how sounds and spelling have become disconnected in English.

e.g. your / yore wait / weight please / pleas mind / mined too / two
sail / sale weak / week tail / tale son / sun bean / been

intonation

Intonation is how we strongly stress one or more particular words in a sentence to emphasise a particular part of it. We use intonation as a variation from standard pronunciation, where all the information is presented with a similar level of importance.

e.g. standard pronunciation: "Julie's just won the swimming gala." = clear and informative, with no particular intonation or emphasis

For more fun worksheets, games, and quizzes log onto www.englishbanana.com now!

Talk a Lot

Foundation Course

Glossary of Pronunciation Terms

with intonation on **Julie**: a) “Julie’s just won the swimming gala.” = it is relevant *who* won the gala. Maybe the result is a shock because Julie is known to be a poor swimmer, or maybe the listener didn’t hear the winner’s name

with intonation on **swimming**: b) “Julie’s just won the *swimming* gala.” = it is relevant which gala Julie has won. Maybe the conversation has included several different galas.

intrusion

A technique of connected speech. When the sound connection (see below) between two syllables is **vv** (vowel sound to vowel sound) we insert a new consonant sound between them – y, w, or r – replacing the second vowel sound in the sound connection, making the sound connection much easier to pronounce.

e.g. intrusion with y : “grey eyes” = Grei Yaiz *not* Grei Aiz

the y in grey is not usually pronounced because it is part of a vowel cluster (“ey”) which makes the diphthong ei . However, when the next sound is another vowel sound, we must pronounce it, to create a **vc** sound connection (see below) instead of a **vv** connection.

more examples:

intrusion with w : “how old” = Hau Weuld *not* Hau Euld

intrusion with r : “four elephants” = For Re I fn_s *not* For E I fn_s

IPA

The IPA is an acronym for the International Phonetic Alphabet, a standard form of writing the sounds of a language. The current IPA (International Phonetic Alphabet) was invented in the nineteenth century by French and British linguists. The IPA can be helpful in some situations, for example if a student takes the time to learn it they will be able to accurately pronounce any word in the dictionary. When teaching language – and especially pronunciation – we do need a way of representing sounds on a page, but the current IPA is no longer fit for purpose in the Digital Age, because it cannot be easily reproduced on a keyboard or mobile phone keypad. Just try sharing a document that uses IPA symbols and you will see what I mean. Everybody needs to buy a new font – which does not happen. So we need a new phonetic way of writing. Another problem with the IPA is that students have to learn a whole new alphabet of around fifty new characters. Students are often put off by the unfamiliar and exotic-looking symbols that they have to learn, which only adds an extra burden for students – especially those whose first language does not always use the Roman alphabet, e.g. those whose first language is Arabic, Russian, Chinese, etc. They already have to learn one new alphabet to learn English; then we try to add a second. It’s no wonder the IPA is put on the back burner.

The **New English Alphabet (NEA)** is a modern phonetic English alphabet (see below).

linking

A technique of connected speech. Also known as Final Consonant Linking (FCL), linking occurs when the sound connection between two syllables is **cv** (consonant to vowel). Linking allows us to join together the two syllables with a **vc** (vowel to consonant) sound connection instead, which is the preferred sound connection for English native speakers, because it is the easiest to pronounce (see below).

e.g. in “like it” the two sounds meeting are k (consonant sound) and i (vowel sound)

before linking (original cv sound connection): Laik it

after linking (new vc sound connection): Lai kit

Talk a Lot

Foundation Course

Glossary of Pronunciation Terms

mega contraction

See *contraction*, above.

New English Alphabet (NEA)

A new alphabet for the English language, which is similar to the IPA in that it enables the reader to see all the phonemes (sounds) contained in each word. However, unlike the IPA, the NEA uses the more familiar Roman alphabet – a, b, c, etc. – and allows the reader to see the stressed syllable in a word as well as the connections between syllables and words. Each of the 48 sounds of English has its own written ID (identifier).

e.g. the “a” sound in “cake” is always written as *ei* – Keik

In normal spelling this sound can be written in different ways, but with the NEA it always looks the same: *ei*

e.g. make = *meik*, day = *dei*, change = *cheinj*, etc.

(See the separate NEA handout for the full list of sounds and IDs.)

phoneme

A phoneme is an individual sound, which is part of a syllable.

e.g. in the word “cat” there are three separate letters – c-a-t – and three separate phonemes – k a t – while in the word “tooth” there are five separate letters – t-o-o-t-h – but only three separate phonemes – t oo tt .

phonetics

Phonetics is the study of sound in human speech. “Phone” comes from the Greek word for “sound” and “voice”: *phōnē*, e.g. telephone = tele (distant) + phone (sound) = distant sound.

phonics

Phonics is how the study of phonetics is applied to language, e.g. understanding how spelling and sounds are connected. For example, Phonics may be used to teach reading to language learners. Phonics is sometimes used as a direct synonym for phonetics, though this is incorrect.

R-linking

A technique of connected speech. R-linking is part of intrusion and occurs when the *r* consonant sound is inserted between two vowel sounds, effectively replacing the second vowel sound in the sound connection. The aim is to transform a *vv* (vowel to vowel) sound connection into a *vc* (vowel to consonant) sound connection, which is easier to pronounce.

e.g. in “there is” the two sounds meeting are **eir** (consonant sound) and **i** (vowel sound)

original *cv* sound connection: **their iz**

new *vc* sound connection: **their riz**

Schwa sound

The Schwa sound **uh** is the most common vowel sound in English, and the least known. It is also the weakest vowel sound. It is the only sound in English to have an individual name, with “Schwa” coming from the Hebrew letter called *Shva*, which has the same function. It often occurs in weak stressed syllables, being a short expulsion of air, which

For more fun worksheets, games, and quizzes log onto www.englishbanana.com now!

Talk a Lot

Foundation Course

Glossary of Pronunciation Terms

sounds like the noise made when somebody hits you in the stomach – “Uh!” Or the kind of grunt that a teenager might make first thing in the morning as a form of greeting – “Uh!”

The Schwa sound helps to make the stress pattern in a sentence, because it makes the unstressed syllables weaker by replacing vowel sounds, especially diphthongs and long vowel sounds. This makes the unstressed syllables shorter, which in turn makes the stressed syllables stronger, by increasing the contrast between weak and strong. When you don't use the Schwa sound your spoken English will lack stress and you will be likely to pronounce letters that should be silent, e.g. the “o” and “r” at the end of “doctor”:

Pronunciation written using the NEA: Do kt

The word “doctor” has two syllables. The first syllable is stressed, and the second is not. The first has a strong-stressed vowel sound, while the second has a Schwa sound – the weakest and dullest vowel sound there is. The contrast adds to the stress pattern in the sentence. The intention of the spelling “or” is to represent the Schwa sound. Unfortunately, many learners are unaware of this sound and, trying to pronounce every letter in the word, will learn the pronunciation as: do ktor. Some will even roll the r at the end of the word, which is never done in English.

The Schwa sound is not unique to English and occurs in a variety of languages, from Russian to Dutch, and Indonesian to Hindi. Do you have it in *your* language? Does it provide a similar function to the English Schwa sound?

In the NEA the Schwa sound can be written as **uh**, but it is often not written at all, and simply pronounced as part of a consonant sound, e.g. **t** has a built-in Schwa sound when we say it: **t**. We call this an embedded Schwa sound (see NEA chart). It is enough to do this to pronounce the Schwa sound.

As we have seen above, in the NEA “doctor” is spelled: Do kt. The first syllable is the stressed one (hence capital “D”) and has a strong vowel sound **o**. The second syllable does not have a vowel sound, apart from an embedded Schwa sound which is not written, but occurs naturally when we pronounce the sound **t**. The “r” disappears from the spelling because it is a silent letter (see below) and not pronounced.

sentence stress

The sequence of stressed and unstressed syllables in a spoken sentence.

silent letters

Extra letters which appear in the spelling of the word when we write it, but which are not pronounced when we say the word.

e.g. “o”, “r”, “a”, and “e” in the word “comfortable”, which is pronounced Kum ft bl

sound connection

The place between two syllables where two sounds meet. There are four possible kinds of sound connection:

vc (vowel sound to consonant sound)	e.g. “my car”	mai Kar = easy to pronounce
vv (vowel sound to vowel sound)	e.g. “we are”	wee ar = difficult to pronounce
cv (consonant sound to vowel sound)	e.g. “it is”	it iz = difficult to pronounce
cc (consonant sound to consonant sound)	e.g. “that book”	that Buuk = difficult to pronounce

Speakers of English will do anything to their words and letters to create easy vc sound connections between syllables when they speak. They will quite ruthlessly get rid of sounds, add sounds, and change sounds to make these all-important vc sound connections. However, English spelling doesn't help, because not every syllable starts with a consonant sound and ends with a vowel sound. If only it did! Then we could all speak like this: ba ba ba ba ba etc. and we wouldn't need to use – or study – connected speech! Instead words clash and scrape together, like badly fitting puzzle pieces, and we must use the techniques of connected speech to “bash out” those troublesome sound connections. This is what usually happens:

For more fun worksheets, games, and quizzes log onto www.englishbanana.com now!

Talk a Lot

Foundation Course

Glossary of Pronunciation Terms

If the sound connection is:

we use:

vc
vv

OK – easy to pronounce (no connected speech required!)
intrusion with an extra consonant sound, which makes the connection vc: y, w, or r

cv
cc

Final Consonant Linking (FCL)
Elision, Glottal Stop, Assimilation, or FCL

examples:

vc (vowel sound to consonant sound)

mai Kar – no need to do anything!

vv (vowel sound to vowel sound)

wee yar – add y to make a vc sound connection

cv (consonant sound to vowel sound)

i tiz – move the final consonant t forward to start the next syllable, making a vc sound connection

cc (consonant sound to consonant sound)

tha_ Buuk – use elision: delete t and use a glottal stop instead. A vc sound connection results

sound spine

The sound spine is the sequence of vowel sounds on the stressed syllables in a sentence. These sounds are the most important sounds in the sentence – the sounds that the listener needs to hear in order to correctly process the words. They form the “backbone” of the sentence – hence “sound spine”. We should always try to find and emphasise the sound spine in a sentence. Whatever other sounds are wrongly pronounced, the vowel sounds on the stressed syllables should be heard clearly and correctly. If one or more of these vowel sounds are wrongly pronounced, miscommunication can occur and the listener may have to say: “Sorry, I didn’t catch that. Could you repeat that, please?”

e.g. compare these two sound spines:

1. correct vowel sounds on stressed syllables:

ei i u ar a ar
Jason has finished cutting the grass in the back garden.

2. incorrect vowel sounds on stressed syllables:

ee er e i uu iy
Jason has finished cutting the grass in the back garden.

In the second example it is very difficult to work out what is meant, because the incorrect vowel sounds transform the content words into something different (sometimes into completely different words), making them unidentifiable, e.g. “finished” now sounds like “furnished”, “back” now sounds like “book”, and “grass” now sounds like “griss”, which isn’t a word in English, etc.

spelling

The system we use to put language into written form. Unfortunately for people trying to learn English, spelling in English is not phonetic, i.e. the sound of a word (in most cases) does not match the spelling. This means that we have to learn how each word is pronounced by listening to a native speaker – who is hopefully a good model. We have to learn by experience, or by using the IPA phonetic spellings in a dictionary. So there are two parallel components for each word – its sound and its spelling. Furthermore, once we have learned how each word sounds on its own, we then have to take into account how they sound when they are joined together, since we don’t speak word by word, but rather syllable by syllable, merging words together using the techniques of connected speech.

Talk a Lot

Foundation Course

Glossary of Pronunciation Terms

standard pronunciation

Standard pronunciation is a neutral form of pronunciation, which is not influenced by any specific accented version of English, e.g. Scouse (the Liverpool accent), Geordie (the Newcastle accent), or Welsh (a Welsh accent). Formerly known as Received Pronunciation (RP), standard English can be heard when you watch the news on a British TV channel, or listen to many of the programmes on BBC Radio 4. Standard pronunciation is used in all of the Talk a Lot books, so that learners can study pronunciation with a neutral accent, rather than a particular regional one.

stressed syllable

The syllable in a content word that has greater stress than all of the other syllables. We pronounce this syllable a little louder – more strongly – than the others. In the NEA the stressed syllable always begins with a capital letter. This helps learners to identify them in a sentence and then work out the sound spine.

e.g. in the word “television”, there are four syllables and the third syllable is stressed: te l Vi zzn

stress mark

The stress mark shows us which syllable is stressed in an IPA phonetic spelling of a word. The stress mark always comes before the stressed syllable and looks like this: /'/. The stress mark takes the guesswork out of finding the stress in a word when using the IPA. In the NEA there is no need for a stress mark, because the stressed syllable always starts with a capital letter.

stress pattern

A stress pattern is the sequence of strong (stressed) and weak (unstressed) syllables in a sentence.

e.g. in the following sentence the syllables in bold are strong while the others are weak:

Jason has finished **cutting** the **grass** in the **back** garden.

stress-timed languages

English is a stress-timed language, which means that it should be spoken with its familiar rhythm, e.g. du DUH du DUH du DUH du DUH... etc. The stress pattern is like a mountain range, with the strong stresses the peaks, and the weak stresses the valleys. The contrast between weak and strong makes the distinctive rhythm of English. Other stress-timed languages include German, Dutch, and Swedish. Some languages are not stress-timed, but syllable-timed, with each syllable having roughly equal stress. Syllable-timed languages include French and Spanish. Learners of English who have these languages as their first language often try to force English to follow the same stress pattern. The result is confusion for the listener, because in English much of the meaning of the words is picked up subconsciously by the listener from the vowel sounds on the stressed syllables in a sentence.

strong form

Function words can have strong forms and weak forms, depending on where they are in a sentence. When a function word is in between words in a sentence, we should pronounce the weak form, e.g. the preposition “to” in the following sentences:

I went to the bank. ai Wen_ t th Bangk.

But when a function word comes at the end of a sentence, we should pronounce the strong form, e.g.

Which bank did you go to? Wi Chbang kdi ch Geu too?

Often learners use strong forms of words like prepositions (to, for, etc.) instead of the weak forms, leading to errors in the sentence stress, e.g.

For more fun worksheets, games, and quizzes log onto www.englishbanana.com now!

Talk a Lot

Foundation Course

Glossary of Pronunciation Terms

normal spelling:	NEA spelling (strong form):	NEA spelling (weak form):
to	too	t
for	for	f
the	thee	th
	or thu	th

strong stress

The strong stress is the stressed syllable in a word. This syllable must be pronounced more strongly – and clearly – than the others in the word. The vowel sound in this syllable must be correct and clear, because it is the most important sound in the syllable – and one of the most important sounds in the sentence as a whole. Pronouncing the correct vowel sound on the correct stressed syllable will help to ensure that the listener understands you.

suffix

A suffix is a word ending which is the same in many different words. Suffixes are not usually stressed. This is helpful to note because it means that we can discount the suffix when we are looking for the stressed syllable in a content word.

e.g. “-ing” in: “**cooking**”, “**going**”, “**putting**”, “**taking**”, etc.
or “-er” in: “**baker**”, “**letter**”, “**builder**”, “**player**”, better, etc.

syllable

A syllable is part of a word that can be said in one beat.

e.g. in the word “potato” there are three syllables = three beats: po-ta-to. The middle syllable is stressed: p Tei teu

vc sound connection

A vc sound connection occurs when a syllable that ends with a vowel sound meets a syllable that begins with a consonant sound, e.g. “be nice” or “daytime”. vc sound connections are the easiest of the four kinds of sound connection for native speakers of English to pronounce, because after making the vowel sound our tongue, lips, and mouth are in a neutral position – ready to form any consonant sound.

vowel cluster

A combination of two or more letters (vowel or consonant letters) together in the normal spelling of a word, which makes one sound.

e.g. the vowel cluster “ea” makes the sound e in the word “bread”, ei in the word “break”, and ee in the word “read” (among others).

(See also *Talk a Lot Handbook* p.18.55: List of Vowel Clusters – In Alphabetical Order.)

vowel letter

There are 5 vowel letters in the English alphabet. They are: **a**, **e**, **i**, **o**, **u**. The lack of vowel letters in the English language leads to the problematic differences between spelling and sounds, because just five vowel letters have to represent twenty-three different vowel sounds. For example, vowel letters can combine to form vowel clusters (see above) which then represent different sounds, creating a lot of confusion for learners of English. In the NEA one written ID (identifier) always represents the same single sound, so the sounds always look the same on the page.

For more fun worksheets, games, and quizzes log onto www.englishbanana.com now!

Talk a Lot

Foundation Course

Glossary of Pronunciation Terms

Because of this, spelling with the NEA is much easier: when you think of the sound, you know how it should look, and you know which letters to write. You don't have to memorise two different elements per word: spelling and sounds.

vowel sound

There are twenty-three vowel sounds in spoken English. Vowel sounds are made when we allow breath to move freely from our lungs out of our mouths, without blocking it with our tongue, lips, or mouth (as we do with consonant sounds).

There are eight short vowel sounds:

a	bat	ii	happy	uh	arrive (Schwa sound)
e	leg	o	sock	uu	pull
i	dish	u	cup		

...five long vowel sounds:

ar	star	er	shirt	or	ball
ee	three	oo	shoot		

...and ten diphthongs:

ai	time	ei	plane	oy	toy
aiy	hire	eir	pear	uuy	pure
au	cow	eu	home		
auw	power	iy	here		

Learners whose first language doesn't contain any long vowel sounds or diphthongs will often try to use only short vowel sounds to make all of the vowel sounds in English – which leads to errors and misunderstandings, because the vowel sounds on the stressed syllables in a sentence (the sound spine) must be correct and clear. In comparison, consonant sounds are mostly phonetic, i.e. they sound how you would expect them to from how they look, e.g. t, d, m, n, etc.

weak form

One-syllable function words often have weak forms, which should be used in spoken English instead of their strong forms (see *strong form* above). For example, the weak form of the preposition “for” is pronounced simply f, without a vowel sound, apart from the embedded Schwa sound (see above) which is the natural result of saying f. If learners use strong forms instead of weak forms, their pronunciation will sound stilted and “foreign”, because the sentence stress and the sound spine will be incorrect.

word stress

Word stress is the system of stress within an individual word. Every content word in English has one strong stress.

e.g. in the word “government”, the strong stress is on the first syllable: Gu v mnt

The second syllable contains an embedded Schwa sound, which is pronounced naturally when you say v, and the final syllable also contains an embedded Schwa sound after m. The strong stress in a content word should be emphasised by saying it more loudly and strongly than the other unstressed syllables. In any given content word, one syllable will be stressed strongly (with the vowel sound being the most important sound) and the other syllables will be unstressed, with one or more of them likely to contain a Schwa sound.

What I found most surprising / interesting today:

What I need to revise again after this lesson:

Talk a Lot

Foundation Course

Lesson 1 – Introduction and Basic Principles

A note on the kind of English used during this course:

Throughout this course we are using Standard British English pronunciation as the basis for the materials. Formerly known as RP (Received Pronunciation), Standard British English is English with a neutral accent, rather than an international (e.g. American English) or regional (e.g. Scouse or Geordie) accent.

1.1 Talk a Lot Foundation Course is an opportunity to study the theory of pronunciation before beginning a Talk a Lot course.

We are going to learn how to get from written words on a page to spoken English – using sounds, stress, and connected speech.

This course is made up of information that students and teachers need to know at the beginning of a Talk a Lot course. It comprises a brief introduction to the theory of pronunciation, as used throughout each Talk a Lot course. It is intended to be a practical and interactive guide to be used with Talk a Lot materials, rather than a dry theoretical course.

Discussion Questions:

1. Why do you want to learn about spoken English? What do you want to get out of it?
2. Are you confident in speaking English? If not, why not?
3. What do you know already about stress, sounds, and connected speech in English?
4. What are some of the differences between written English and spoken English?

1.2 English spelling is broken.

The current English spelling system is defunct. The spelling of a word on a page is supposed to represent the words spoken. There is a big difference between written English and spoken English. The current spelling system is unable to do this job, because the current spellings often do not represent the sounds made when speaking them, and because it doesn't take into account connected speech in spoken English. We can blame the history of the English language, the number of influences it has absorbed from other languages over the years, and the lack of control that has been exerted.

Examples:

Here are some examples of words whose spellings are very different to how we say them:

daughter
comfortable
though
pineapple

Activity:

- Practise saying the words. Did you know the correct pronunciation of each one?

Discussion Questions:

1. Is your first language a phonetic language, where most or all written letters are pronounced?
2. What are some difficult words or phrases for a non-native speaker of your language to pronounce?
3. Should spelling represent sounds? What difference does it make to learning a language if it doesn't?

For more fun worksheets, games, and quizzes log onto www.englishbanana.com now!

Talk a Lot

Foundation Course

Lesson 1 – Introduction and Basic Principles

4. Think of four more “un-phonetic” words in English which have a big difference between their spelling and pronunciation.

1.3 We need a new phonetic alphabet to represent sounds in written form.

The current IPA (International Phonetic Alphabet) was invented in the nineteenth century by French and British linguists. The IPA can be helpful in some situations, for example if a student takes the time to learn it they will be able to accurately pronounce any word in the dictionary. When teaching language – and especially pronunciation – we do need a way of representing sounds on a page, but the current IPA is no longer fit for purpose in the Digital Age, because it cannot be easily reproduced on a keyboard or mobile phone keypad. Just try sharing a document that uses IPA symbols and you will see what I mean. Everybody needs to buy a new font – which does not happen. So we need a new phonetic way of writing. Another problem with the IPA is that students have to learn a whole new alphabet of around fifty new characters. Students are often put off by the unfamiliar and exotic-looking symbols that they have to learn, which only adds an extra burden for students – especially those whose first language does not always use the Roman alphabet, e.g. those whose first language is Arabic, Russian, Chinese, etc. They already have to learn one new alphabet to learn English; then we try to add a second. It's no wonder the IPA is put on the back burner.

For these reasons, the New English Alphabet has been created [see NEA page] – a truly phonetic way of writing English – using the normal Roman alphabet instead of exotic symbols.

Examples:

- Try typing the IPA on a keyboard.
- Try typing it on a phone keypad.
- Try sharing a document written in the IPA.
- Try using it on a blog, on Twitter or Facebook, or on a web page.

Activities:

1. Can you read the following words written using the IPA?
 - a) /'kɑ:.sl/
 - b) /ɪn.tə'næ.ʃnl/
 - c) /'i:.tɪŋ/
 - d) /'sæ.tə.deɪ/
2. Can you read the following sentences written using the IPA?
 - a) /θə'best'kaɪnd.əv'bred.ɪz'wai?'slɑ:sd'bred/
 - b) /aɪ'wɪ'lɑ:ɪk.tə'spi:k'ɪŋ.gɪf'be.tə.thən.aɪ'du:'naʊ/

Discussion Questions:

1. Have you ever... a) heard of the IPA? b) used the IPA in class? c) used the IPA out of class?
2. Can you already read and write English words using the IPA? How did you first learn it – and why? How easy is it for you to use?
3. Do you find the IPA... a) easy to learn, b) hard to learn, c) interesting, d) boring, e) just plain odd?

Talk a Lot

Foundation Course

Lesson 1 – Introduction and Basic Principles

1.4 The vowel sounds on the stressed syllables of content words are the most important sounds in a sentence.

This sequence of vowel sounds forms the “sound spine” – the sound backbone of the sentence. To speak correctly the student needs to pronounce the correct vowel sounds on the correct stressed syllables in a sentence, and join those syllables together as tightly as possible using connected speech techniques. This is the main proposition regarding English pronunciation in a Talk a Lot course.

The Talk a Lot proposal is quite simple:

Find the stressed syllables in a sentence, and reduce the other syllables where possible.

From Sentence Blocks – Sentence Stress and Vowel Sounds (an activity included in each unit of Talk a Lot Elementary Book 3 and Intermediate Book 1):

“Each content word [in a sentence] contains one syllable with a strong stress... Each stressed syllable has one vowel sound. The vowel sounds on the stressed syllables are the most important sounds in the sentence. They make the “sound spine” of the sentence. To improve communication, try to get the sound spine right.”

From Talk a Lot Handbook cover:

*“Success in spoken English lies in **stress** and **vowel sounds**: specifically, getting the correct vowel sounds on the correct stressed syllables in a sentence, and joining them together...”*

Example:

The best kind of bread is white sliced bread.

Activity:

- Try to find the sound spine in the following sentence:

Michelle is having salad and pasta because she doesn't eat meat.

Discussion Questions:

1. Have you learned about the importance of vowel sounds and stress in English before? If yes, where – what can you remember?
2. Do you agree with the Talk a Lot Spoken English Proposition? Why? / Why not?

1.5 English Native speakers use sounds, stress, and connected speech without thinking about it, but you have to *learn* to do it!

They can do this because they have learned to do it in a natural way since before they were born. They are programmed to understand speech in terms of the stressed vowel sounds. In fact, they receive the meaning of the words and sentences from them, and automatically discount the weak stresses. Learners of ESL must approach it as an integral part of learning the language, which means studying consciously and intentionally what native speakers have absorbed without thinking about it from everybody around them for as long as they have been able to hear.

On this course we're going to learn how to do it in a stage by stage process:

For more fun worksheets, games, and quizzes log onto www.englishbanana.com now!

Talk a Lot

Foundation Course

Lesson 1 – Introduction and Basic Principles

Lesson 2 – Spelling and Sounds
Lesson 3 – Stress (finding the important sounds)
Lesson 4 – Connected Speech (joining together the important sounds)

Discussion Questions:

1. How did you learn to speak *your* first language?
2. How did you learn to write it? Which process was easier for you? Why?
3. Where can we hear examples of English native speakers talking in a natural way?

1.6 The *Glossary of Pronunciation Terms* will be a useful reference tool during the course.

At this level we can assume some knowledge of English pronunciation before we begin. However, let's check understanding of some of the basic terms that we are going to use on this course, using the *Glossary of Pronunciation Terms*.

Examples:

Discuss with a partner:

- What is the difference between:

- | | | |
|----|----------------------------|-------|
| a) | an alphabet | _____ |
| | a phonetic alphabet | _____ |
| b) | a phoneme | _____ |
| | a letter | _____ |
| c) | a consonant letter | _____ |
| | a consonant sound | _____ |
| d) | a vowel letter | _____ |
| | a vowel sound | _____ |
| e) | a content word | _____ |
| | a function word | _____ |
| f) | word stress | _____ |
| | sentence stress | _____ |

Talk a Lot

Foundation Course

Lesson 1 – Introduction and Basic Principles

- g) a strong-stressed syllable _____
a weak-stressed syllable _____

1.7 Standard EFL course books are good at teaching reading and listening skills, but less able to teach speaking and writing.

This is because the medium (book and CD or cassette, or smart board) can give the answers for reading and listening comprehension activities. Students can see their results, and learning can happen.

However, standard EFL course books have difficulty teaching speaking and writing, because for learning to take place there needs to be a third party (i.e. a teacher) present to check students' work – to listen to the student speaking and correct errors, or to read and mark their written work. Individual feedback must be given by this third party – something the course book simply cannot do.

The Talk a Lot series acts as a springboard for the student, providing many hours of practical pronunciation activities, which, done in conjunction with a teacher – whose feedback is required and is invaluable – can enable them to really improve their spoken English skills. We are happy that you have chosen to take this journey with us!

Activities:

1. Have a look through some standard ESL course books. Do a survey of one unit:
 - a) How many activities practise reading skills?
 - b) How many activities practise speaking and pronunciation skills?
 - c) How much is the phonetic alphabet used – if at all?
 - d) How much mention is made of connected speech?
2. How could you use the many reading texts in the course book to practise speaking and pronunciation skills?
3. What kind of activities for practising speaking and pronunciation skills would you like to see in your course book?

Discussion Questions:

1. What is your favourite course book? Why do you prefer it? Does it help you practise your speaking and pronunciation skills? How?
2. Can you recommend any good books for practising speaking and pronunciation?

Homework:

- Study the *Glossary of Pronunciation Terms*. Look up new words and try to find information about unfamiliar terms, either online or in a library. Discuss them with a partner and be prepared to ask your teacher about them in the next lesson.
- Ask a few native speakers (not connected with teaching English) about stress, sound connections, vowel sounds, Schwas, and glottal stops – in fact any terms from the *Glossary* – and you are likely to be met with confusion. Yet they can speak English – like a native speaker!

Foundation Course

Lesson 2 – Spelling and Sounds

2.1 English is not a phonetic language, which means that often spelling and sounds do not match.

The English spelling system doesn't work. The words that we write are supposed to represent the sounds that we make when speaking. That is the whole point of the alphabetic system of spelling that we use – letters are meant to represent sounds. However, more often than not, this does not happen, which means that English spelling is of only limited help for working out pronunciation. Unfortunately, students of English often try to pronounce all the letters in words they don't know, especially all of the vowel letters, just to "make sure" that they are pronouncing them correctly. In fact, the opposite happens – the pronunciation is wrong – and miscommunication takes place because the stress is messed up and the stressed vowel sound is incorrect.

The problem is that sounds in English do not each have individual identifiers (IDs):

There are 26 letters in the English alphabet, but 48 different sounds (see Glossary and NEA Handout).

There are 5 vowel letters but 23 vowel sounds = spelling problems!

Examples:

1. Words with "hard" spellings:

- | | |
|-------------|-----------|
| 1. daughter | Dor t |
| 2. natural | Na chrl |
| 3. pharmacy | Far m sii |

2. Common vowel digraphs (two vowel letters together) that represent different sounds:

1. the spelling "oo" can represent the following sounds:

oo in "fool"	u in "flood"
uu in "book"	eu in "brooch"

2. the spelling "ie" can represent the following sounds:

ai in "tie"	ee in "believe"
iy in "field"	aiy in "variety"

and so on...

Activity:

- Try to pronounce the words above, first without the phonetic spelling to help you, then with it. What is the difference?

Discussion Questions:

1. Is it a problem for you that spelling and sounds don't generally match in English words? If yes, how do you handle it?
2. How phonetic is your first language? How closely does the spelling match the sound of words?

2.2 The spelling of a word and its sounds are usually two different things in English. You need to learn two parts of each word: the spelling and the sounds.

When you are learning vocabulary, you should learn not only the spelling, but also the sounds of each word – and which syllable is stressed. Life is made more complicated because you then have to predict how each word will change when it comes up against other words. We will find out more about this in

Talk a Lot

Foundation Course

Lesson 2 – Spelling and Sounds

Lesson 4 – Connected Speech. Of course, there are plenty of spelling rules in English – with their numerous exceptions. But these only seem to exasperate learners, who tend to conclude that “English spelling doesn’t make sense!”¹

Some English words are phonetic in that the pronunciation is easily guessable from the spelling (List 1), but more often than not, the pronunciation is not obvious or easily guessable (List 2).

Examples:

List 1: 10 phonetic English words whose pronunciation can be easily guessed – they sound how we expect them to:

big, fell, frog, crash, greeting, keep, land, milk, string, upset

List 2: 10 English words which are not phonetic – their pronunciation cannot be guessed, but has to be learned. They don’t sound how they look:

breakfast, attendance, comfortable, famous, cough, gymnasium, knowledge, straighten, vegetable, wouldn’t

Another good example of this problem is the phenomenon of **homophones**, which are pairs or groups of words that have the same pronunciation, but different spellings and different meanings:

e.g. piece / peace poor / pour I’ll / aisle its / it’s one / won pear / pair new / knew plane / plain, etc.

This can often lead to confusion, as well as many jokes and puns, which abound in English:

e.g. “What kind of chocolate do pilots like?” “Plain!” (plane)

Activities:

1. Find 5 more words which are phonetic – i.e. they are spelled how they sound.
2. Find 5 more words which are not phonetic – i.e. they are not spelled how they sound.
3. Find 5 more examples of homophone word pairs.
4. How many English spelling rules do you know? Discuss them with a partner.

2.3 Part of the problem is the high frequency of silent letters in English spelling.

These are extra letters which appear in the spelling of a word when we write it, but are not pronounced when we say the word. Many of these are vowel letters, which are not pronounced because the syllable in which they appear is not stressed, and the vowel sound is a Schwa sound rather than a strong vowel sound – or it does not exist.

Examples:

Which letters are silent?

1. famous
2. attendance
3. knowledge
4. straighten

¹ This web page lists thirty spelling rules. Do you know them all? Can you memorise them and use them when you write in English? <http://www.phonicslessons.co.uk/englishspellingrules.html>. See also: 18.62 Spelling and Sounds – The Magic “e” Rule, *Talk a Lot Handbook* (English Banana.com, 2009)

For more fun worksheets, games, and quizzes log onto www.englishbanana.com now!

Talk a Lot

Foundation Course

Lesson 2 – Spelling and Sounds

Activity:

- Find 5 more words in English that contain one – or more – silent letter.

2.4 Students usually pronounce far too many vowel sounds when they speak English.

In general, in English spelling there is one vowel letter in each syllable which represents one vowel sound. Learners will often try to pronounce the vowel letter that they see as *they think it ought to sound* – i.e. with a full sound – when in fact many of these vowel sounds are pronounced as Schwa sounds (weak stress vowel sounds – see below). The result is that there are too many redundant vowel letters in written English, leading to mistakes by students who stress extra vowel sounds in a word as well as the correct stressed vowel sound. This messes up the stress pattern and makes the sound spine harder to hear.

This problem is historic and has grown up over hundreds of years of spoken English. Unlike the proud peoples of other countries, e.g. France and the USA, nobody in the UK has tried to control and tame the spelling of the English language, and as new words have flooded into the language, spelling has expanded to become a history of the development of English, rather than a useful tool for noting down the sounds that we make. (See pp.20-21 for a comparison of British English and American English spelling.)

Examples:

The Schwa Sound gets everywhere in English! In the following common food and drink words the Schwa sounds are in bold. Vowel sounds which are silent are crossed-out:

tomato	banana	potato	mineral water
lemonade	butter	chocolate	pasta
chicken	strawberry	water	vegetable

Activity:

Look for the hidden Schwa sounds in these words:

1. presenter (of 3 vowel sounds, 2 are Schwa sounds – which ones?)
2. responsibility (of 6 vowel sounds, 3 are Schwa sounds – which ones?)

...and in these common shopping vocabulary words:

customer	groceries	promotion	assistant
delicatessen	escalator	manager	frozen food

Discussion Questions:

1. Tell me about the alphabet in your language. Does it have vowels, diphthongs, and consonants? Compare it to the English alphabet.
2. Do words in your first language have silent letters?

2.5 The Schwa sound is the most common vowel sound in English – and the least discussed.

The Schwa sound is a short unstressed vowel sound, which is pronounced uh . It is simply an expulsion of air that comes straight from the gut. It sounds like the noise you would make if somebody hit you in the stomach: uh!

[The teacher models and students practise making the Schwa sound.]

For more fun worksheets, games, and quizzes log onto www.englishbanana.com now!

Talk a Lot

Foundation Course

Lesson 2 – Spelling and Sounds

The Schwa sound is a vowel sound, but one which has been reduced as far as possible. It can be found in the weak stressed syllables of many words, e.g. teacher, arrive, and twice in elephant (see also 2.4, above). As we have seen, one of the main problems in English pronunciation is that students pronounce full vowel sounds which should be Schwa sounds. They look like vowel sounds in the spelling, but are actually Schwa sounds.

It is typical of the chaos in English spelling that there is no dedicated vowel letter for the Schwa sound, which is the most common vowel sound of all! Instead we need to use all of the vowel letters, often in different combinations (see above).

The Schwa sound is not unique to English, but can be found in many other languages, e.g. Russian and French. Do you have it in your language? If you don't consciously use the Schwa sound in English at present, then you are definitely pronouncing a lot of unnecessary vowel sounds when you speak.

Two top tips:

1. Notice places where Schwas often appear, e.g. suffixes ("-tion", "-ment", "-ance", etc.) and function words (a, the, for, you, etc.)
2. Be suspicious of long words, e.g. four-syllable words. Only one syllable is stressed in each content word. How many of the rest of the syllables have Schwa sounds?

Examples:

These words all contain at least one Schwa sound. Find them and repeat each word:

slipper	buttons	trousers	underwear
necklace	glasses	pyjamas	trainers

In a quick test, I examined a text of 201 words. 57 of them contained a Schwa sound – around one quarter. If you read this text without using the vowel sound you would have made at least 57 errors. Your listener would have heard far too many unnecessary vowel sounds, which would have messed up the sound spine, leading to miscommunication and the question: "Sorry, can you say it again, please? I didn't catch it..."

Activities:

1. Find 5 more English words that contain a Schwa sound.
2. Say the word below:

permission

Which syllable is stressed? Find the Schwa Sound(s).

Answer: this word is pronounced: p Mi shn . The middle syllable is stressed, while there is a Schwa sound on each of the other syllables. Note: in the NEA we rarely have to write the Schwa sound because the sound is made naturally when single consonant sounds are pronounced, e.g. p , t , b , etc. In the word "permission" students might try to pronounce "er" and "io", both of which should be Schwa sounds (see 2.4 above). For example, in the word p Mi shn when we say p we hear the Schwa sound too. It naturally follows the p sound. This is called an **embedded Schwa sound** (see *Glossary* for more details).

Discussion Questions:

1. Were you aware of the Schwa sound? Have you learned about it before? If yes, where and when?
2. Do you use the Schwa sound in your language? What are the similarities and differences in how you use it, compared with English?
3. Do you have a problem with pronouncing the Schwa sound? How can you improve your skill in physically making this sound? How can you increase your understanding of when to use it?

For more fun worksheets, games, and quizzes log onto www.englishbanana.com now!

Foundation Course

Lesson 2 – Spelling and Sounds

2.6 The glottal stop is not a sound but rather an action – the cutting off of a sound at the moment of making it.

This action puts a tiny pause into the flow of sounds as you speak. We make a glottal stop by closing the glottis for a moment. The glottis is the small space at the top of our throat, in between the vocal cords. When you close it the air flow is stopped for a brief moment, and the previous sound is cut short – clipped. It is possible to learn to control the glottis – to open and close it – since this is only a physical action. It's like learning to click your fingers, or whistle. It might take some practise, but it can be learned.

[The teacher models the glottal stop and students practise: late night Lei_ Nai_]

The glottal stop is common in Standard Pronunciation, as well as in English spoken with an accent, e.g. a London accent. The glottal stop is not unique to English, but can be found in many other languages, e.g. Chinese, German, and Arabic.

If you are not using glottal stops, your spoken English won't sound as natural and smooth as it could, because you are pronouncing too many consonant sounds, especially t, d, and k. This will slow down your speech and mess up the stress pattern and the sound spine.

Remember that the glottal stop is not a sound – a vowel, diphthong, or consonant sound – but rather an action; it's something that we do when we want to get rid of cc sound connections from our speech (see *Glossary* for more details). It is written as _ in the NEA – the underscore implying that there is something missing (i.e. an unnecessary consonant sound).

I'm afraid neither the Schwa Sound nor the glottal stop can be avoided if you want to speak like a native speaker. Both have to be – and can be – learned and mastered.

Examples:

1. "We ate out late last night." can mean making four glottal stops: wi Ye_i_ Au_ Lei_ Lar Snai_

v v cv cc cc cc

vc vv vc vc vc

Four of the five sound connections are now vc, where none was before. It doesn't matter if we lose the t sound because the vowel sounds are the most important sounds in these four stressed syllables.

2. "a lot, lot worse" in normal Standard Pronunciation (e.g. a politician) = uh Lo_ Lo_ Wers

vc cc cc

vc vc vc

Activities:

1. Practise the phrases above – both without **and with** glottal stops.
2. Practise the following phrases – both without **and with** glottal stops:
fight night blood brother rude dog book club week day heart to heart
3. Find more English words or phrases where we need to use a glottal stop, e.g. "completely" = km Plee_ lii

Discussion Questions:

1. Were you aware of the glottal stop in English before this lesson?
2. Do you use the glottal stop in your language? What are the similarities and differences in how you use it, compared with English?
3. Do you have a problem with the glottal stop? How can you improve your glottal stop technique? Are you prepared to practise the technique over and over again until you have completely mastered it? If not, why not?

Foundation Course

Lesson 2 – Spelling and Sounds

2.7 We need to combine the written alphabet and the phonetic alphabet into one New English Alphabet (NEA).

We need a new written English alphabet. The old one (a, b, c, etc.) is not fit for purpose because it doesn't contain enough letters (especially vowel letters) to adequately represent all of the 48 sounds of English. We cannot write phonetically – as we speak – with this alphabet. It allows us to write words, but we speak syllable by syllable, not word by word. It doesn't show stressed syllables, but it is vital for us to know which syllables are stressed. It doesn't show the "hidden" features of spoken English – Schwas and glottal stops – but if we don't use these features our pronunciation will be much worse, and communication will be reduced.

We also need a new phonetic alphabet. The widely-used IPA (International Phonetic Alphabet) was invented in the 19th Century and is no longer fit for purpose because it cannot be easily typed on a keyboard or keypad, or shared electronically. Also the strange and unfamiliar symbols add an extra burden for busy students and can put them off learning about pronunciation altogether.

We looked at the problem in 2.1, above:

The old written alphabet has 26 letters – but there are 48 sounds in English.

The old written alphabet has 5 vowel letters – but there are 23 different vowel sounds in English.

The NEA provides the remedy to both problems, because it allows us to write phonetically, representing the sounds we make when we speak. It is a true alphabet. It also clearly shows individual syllables, stressed syllables, Schwas, and glottal stops.

Examples:

1. In the NEA there is one written identifier (ID) for each of the 48 different sounds. Each sound always has the same ID. The letters "ei" are always pronounced ei, like "train"; the letter "a" is always pronounced a like "cat", etc.

[Look at the NEA handout.]

Features of the NEA:

- Each ID matches a sound
 - Each sound always has the same ID
 - A capital letter always indicates a stressed syllable – not a new sentence or proper noun, etc.
 - Apart from that, punctuation remains the same – we still use full stops, commas, question marks, etc.
 - Schwas and glottal stops can be seen
 - It can be typed on a keyboard or keypad because it uses the Roman alphabet (a, b, c, etc.)
 - This alphabet is already familiar to learners of English – there are no new symbols to decode
 - You can write the way you speak – so when I read your writing I "hear" your voice in my head
2. [The teacher models each of the 48 different sounds and the students repeat them, making notes to help them remember each sound.]
 3. Compare the **IPA** and **NEA** spellings of these transport words. Which spelling is easier to read? Why? Which helps you more to understand the sounds in each word? Why? What is the difference?

Normal Spelling (Roman Alphabet):	NEA Spelling:	IPA Spelling:
journey	Jer nii	/'dʒɜː.ni/
engine	En jin	/'ɛn.dʒɪn/
garage	Ga rij	/'gæ.rɪdʒ/

Lesson 2 – Spelling and Sounds

aeroplane	Eir r plein	/ˈeə.re.pleɪn/
motorway	Meu t wei	/ˈməʊ.tə.weɪ/
tyre	Taiy	/taɪə/

Activities:

1. Write your first name using the NEA: _____
2. Write some more transport words using the NEA:
 - a) car _____
 - b) bike _____
 - c) station _____
 - d) airport _____
3. Look at the following *Tips for Working with the NEA*. Match the first half of a sentence with the second half. Which tips are going to be the most helpful for you?

Tips for Working with the NEA:

1. Don't expect the sounds of English...
2. Focus on learning the *vowel sounds*...
3. There will be an initial outlay of time and effort in learning the NEA, but learning is intuitive –
4. We can afford to get some consonant sounds wrong, or leave a few out...
5. When a syllable comes before a punctuation mark, e.g. a comma or full stop...
6. If a written text in the NEA looks strange and hard to read...
 - a) ...but we must get the correct vowel sound on the correct stressed syllable.
 - b) ...to be the same as in your first language.
 - c) ...try reading each syllable slowly, pronouncing all of the sounds fully – then getting faster and faster, and using the stress.
 - d) ...because consonant sounds may be similar to those in your language.
 - e) ...the NEA gets easier the more you use it, because the sounds always look the same.
 - f) ...the final consonant sound of that syllable can be pronounced in full, because there is nothing for it to connect to.

Discussion Questions:

1. Do you know all of the sounds of English in the IPA (International Phonetic Alphabet)? If yes, where, when, and how did you learn it? If no, why haven't you learned it? Do you recognise any of the symbols?
2. Do you think that you will be able to learn to write using the NEA... a) individual words, b) sentences including the features of connected speech? If not, what will stop you from learning this?
3. What are the potential difficulties for you in learning the NEA? How will you overcome them? What is easy for you and feels natural?
4. Is it important to you to be able to spell well in English? Why? / Why not? Does bad spelling obstruct communication? How?

Homework:

- Study the *NEA Handout*. Learn the IDs and sounds that they represent. Practise making the sounds.
- Translate words into the NEA... a) 10 household things, e.g. "guitar", b) 10 everyday actions, e.g. "eat".

Lesson 2 – 200 One-Syllable Words that End with “t”

Practise making **glottal stops** with this handy list of one-syllable words that end with *t* :

ant	dote	mart	sat	wrote
art	fat	mat	seat	wrought
at	fate	mate	set	yacht
bait	feat	Matt	short	yet
Bart	feet	meat	shot	zit
bat	fight	meet	sight	
beat	fit	met	sit	
beet	fleet	might	skate	<u>My words:</u>
belt	float	mitt	soot	_____
bet	foot	moat	soot	_____
bit	fought	mutt	sought	_____
bite	gate	Nate	splat	_____
bleat	get	neat	spout	_____
blot	git	net	sprout	_____
boat	gnat	newt	start	_____
bolt	goat	night	stat	_____
boot	got	nit	state	_____
bought	greet	not	stoat	_____
brat	grit	note	straight	_____
Brit	grot	nought	tart	_____
brought	gut	nut	tat	_____
built	hart	oat	Tate	_____
but	hat	ought	taught	_____
butt	hate	part	thought	_____
cart	heart	pat	throat	_____
cat	heat	peat	tight	_____
caught	height	pert	tit	_____
cert	hit	pet	toot	_____
chart	hot	Pete	tot	_____
chat	hurt	pit	tote	_____
cheat	hut	plate	treat	_____
chute	it	pleat	tut	_____
clot	jet	port	vat	_____
coat	jot	pot	vet	_____
coot	jut	put	vote	_____
cot	jute	quit	wait	_____
crate	Kate	quite	wart	_____
curt	kit	quote	weight	_____
cut	kite	rat	wet	_____
cute	late	rate	what	_____
dart	let	rent	wheat	_____
date	light	right	white	_____
debt	lit	root	wilt	_____
dirt	loot	rot	wit	_____
dot	lot	rut	writ	_____

Practise glottal stops by repeating these four fun phrases – then make up some of your own!

- Kate wrote a short note.
- The goat with the neat coat met a stoat whose feet got hot a lot.
- Bart bought some light wheat.
- Pete's pet cat knew a neat newt.

Lesson 2 – Comparing British English and American English Spellings

Problem: there are too many unnecessary silent letters in British English spelling – especially vowel letters. American English spelling gets rid of some of them (see below). NEA spelling gets rid of **all** of them!

British English Spelling	American English Spelling	How is the British English spelling simplified?
analyse	analyze	“s” changes to “z”, which better represents the sound z
apologise	apologize	
appetiser	appetizer	
breathalyse	breathalyze	
atalyse	catalyze	
civilise	civilize	
colonise	colonize	
cosy	cozy	
criticise	criticize	
emphasise	emphasize	
harmonise	harmonize	
memorise	memorize	
organiser	organizer	
paralyse	paralyze	
popularisation	popularization	
prise	prize	
realise	realize	
recognise	recognize	
defence	defense	
licence	license	
offence	offense	
practice	practise	
pretence	pretense	
cancelled	canceled	an “i” is deleted where two letters represent one i sound the AmE spelling “enroll” is an exception to this rule! silent vowel letter “e” is deleted too
chilli	chili	
enrol	enroll	
equalling	equaling	
fulfill	fulfil	
jewellery	jewelry	
modelling	modeling	
traveller	traveler	
woollen	woolen	
cheque	check	
disc	disk	
liquorice	licorice	
sceptical	skeptical	both spellings are valid, representing different pronunciations of the same word
dreamt	dreamed	
learnt	learned	“i” is a more rational way to represent a vowel sound
cypher	cipher	
sulphur	sulfur	“f” is a more rational way to represent f
omelette	omelet	silent letters “t” and “e” are deleted
programme	program	silent letters “m” and “e” are deleted
aluminium	aluminum	2nd “i” is deleted which cuts out y sound
aeroplane	airplane	2nd (weak) syllable is deleted; “aer” changes to “air”
speciality	specialty	2nd & 3rd syllables deleted; stress changes to 1st syllable
mum	mom	<i>both spellings are valid, representing different accents</i>
grey	gray	<i>in my opinion “ey” represents ei better than “ay”</i>
mementoes	mementos	<i>in my opinion “oes” represents euz better than “os”</i>
pyjamas	pajamas	<i>I don't like either spelling; p Jar mz is more accurate!</i>
tyre	tire	<i>there is a y sound in “tyre”, so I prefer the British English</i>

Lesson 3 – Stress

3.1 English is a stress-timed language, not a syllable-timed language

3.2 Content words each have one strong stress, while function words are not stressed

3.3 Word stress is irregular in English

3.4 Communication is reduced when we don't use sentence stress

3.5 The sound spine is the sequence of vowel sounds on the stressed syllables in a sentence

3.6 It is not necessary to pronounce every letter in every word in every sentence

3.7 We reduce function words by using contractions and mega contractions

3.8 We also reduce function words by using weak forms

3.9 Most of the top 100 most common words in written English are function words, which have weak forms that students do not generally use

3.10 We are not going to focus on intonation during this course

What I found most surprising / interesting today:

What I need to revise again after this lesson:

Talk a Lot

Foundation Course

Lesson 3 – Stress

3.1 English is a stress-timed language, not a syllable-timed language.

English is a stress-timed language. Each content word has one stressed syllable. The stress gives English its distinctive “up and down”, “rise and fall” rhythm. The contrast between the weak and strong stresses in a sequence of words creates the familiar rhythm of English. Other stress-timed languages include German, Dutch, and Swedish. Some languages are not stress-timed, but syllable-timed, giving each syllable an equal amount of stress, e.g. French and Spanish.

Example:

1. Carol is taking her puppy Goldie for a walk to the fountain after tea.
CArol is TAKing her PUppy GOLdie for a WALK to the FOUNTain after TEA.

Activities:

1. be be be be be be be be be be be be be be be be... etc.
b BE b BE b BE b BE b BE b BE b BE b BE... etc.
2. Read the sentence again. This time be LOUD on the stressed syllables and *whisper* the unstressed syllables:
CArol is TAKing her PUppy GOLdie for a WALK to the FOUNTain after TEA.

3.2 Content words each have one strong stress, while function words are not stressed.

Content words are words that have their own meaning outside of a sentence, e.g. nouns, main verbs, and adjectives. They each have one syllable that is strongly stressed. Function words are grammar words, which do not have meaning apart from in a sentence, e.g. prepositions, pronouns, and articles. They are not usually stressed.

Examples:

Content words: nouns (e.g. fountain), main verbs (e.g. take, but not “be”), adjectives (e.g. happy), adverbs (e.g. quickly, often), numbers, wh- question words (e.g. what, when), and negative auxiliary verbs (e.g. didn’t, isn’t).

Function words: pronouns (e.g. she, them, my), auxiliary verbs (e.g. “have” in “I have eaten...”), prepositions (e.g. in, at, on), articles and determiners (e.g. a, the, some), conjunctions (e.g. and, but, or), quantifiers (e.g. many), and the verb “be” when used as a main verb.

Activities:

1. Which words are content words and which words are function words:
 - My mum lives with her new partner in Brighton.
 - Sam’s brother is going to start university in Edinburgh next September.
2. Write two more of each kind of word, and say what kind of word they are (e.g. main verb, preposition, etc.)

For more fun worksheets, games, and quizzes log onto www.englishbanana.com now!

Talk a Lot

Foundation Course

Lesson 3 – Stress

Discussion Questions:

1. Is your first language stress-timed? What is the stress like in your language? How does it compare to English?
2. Do you notice the stress in English? Do you like it? Why? / Why not?
3. Give an example of some song lyrics in English that demonstrate the rise and fall stress pattern.

3.3 Word stress is irregular in English.

It is not easy to predict which syllable will be stressed in any given word. Don't expect the stress patterns in English to be the same as in your first language.

For example, find the stress in each of these common words (all nouns):

aeroplane reservation table behaviour anaesthetic apology

Examples:

However, there are some important word stress rules that we can learn:

1. in general, there is a *tendency* in English to stress words on the first syllable
2. **suffixes** are not usually stressed. For example, this means that two-syllable words ending in "-ing" or "-er", etc. will always be stressed on the first syllable
3. **compound words** (e.g. "breakfast" = "break" + "fast") are usually stressed on the first syllable
4. **two-syllable nouns** are very often stressed on the first syllable, e.g. "dentist", "table", "kitchen", etc.
5. **two-syllable verbs** are very often stressed on the second syllable e.g. "improve", "approach", "contain", etc.

As a result, we can often use **logic** to work out word stress:

e.g. in the word "teacher", "-er" is a suffix, so the stress must be on the first syllable: Tee ch .

Activities:

1. Find the stress in each holiday word:
a) campsite, b) departure, c) foreigner, d) passport, e) relaxation, f) arrive, g) waiter
2. Match each word to a word stress rule above.
3. Find... a) 5 words with different suffixes, b) 5 compound words, c) 5 two-syllable nouns, d) 5 two-syllable verbs. Do you notice any exceptions to the rules?

Discussion Questions:

1. Do you have word stress in your first language? If yes, is it regular or irregular? Where does the strong stress usually fall?
2. How much do you already know about word stress in English? How confident are you in identifying the stressed syllable in any given content word? Do you habitually learn the strong stress of each word when you are learning new vocabulary words? What strategies can you use to reduce your risk of error?

3.4 Communication is reduced when we don't use sentence stress.

Sentence stress creates the distinctive "rise and fall" rhythm of English: du DUH du DUH du DUH, du DUH, etc. When we don't use sentence stress, or we get it wrong, communication is reduced because the

For more fun worksheets, games, and quizzes log onto www.englishbanana.com now!

Talk a Lot

Foundation Course

Lesson 3 – Stress

listener cannot hear the all-important vowel sounds on the stressed syllables clearly. The listener is waiting to catch these sounds to be able to process your words quickly, and make sense of what you are saying.

Example:

- The bears at the zoo must be fed at least five times a day.

The bears at the zoo must be fed at least five times a day.

/eə/ /uː/ /e/ /aɪ/ /aɪ/ /eɪ/
The bears at the zoo must be fed at least five times a day.

“Each content word (shown in black) contains one syllable with a strong stress, which is underlined. Each stressed syllable has one vowel sound. The vowel sounds on stressed syllables are the most important sounds in the sentence. They make the “sound spine” of the sentence. To improve communication, try to get the sound spine right.” (from Talk a Lot course books)

Activities:

1. Practise the stress in the sentence above.
2. Now – read the sentence again, but this time with...
 - a) the wrong syllables stressed
 - b) all syllables stressed the same (syllable-timed)
 - c) the correct stresses but the wrong vowel sounds on the stressed syllables

Which is hardest to understand?

Discussion Questions:

1. How confident do you feel in separating content words from function words in a sentence? How can you improve your chances of identifying each kind of word correctly?
2. Do you speak English with stress or without? Ask a few of your fellow students, and your teacher, for their opinion. How can you improve? What areas do you need to work on in particular?

3.5 The sound spine is the sequence of vowel sounds on the stressed syllables in a sentence.

These stressed vowel sounds are the most important sounds in the sentence – the sounds that the listener needs to hear in order to make sense of the words. They form the “backbone” of the sentence – i.e. the “sound spine”. We should always try to find and emphasise the sound spine in a sentence. Whatever other sounds are wrongly pronounced, the vowel sounds on the stressed syllables should be loud and clear. If one or more of these vowel sounds is wrongly pronounced, miscommunication can occur and the listener may have to say: “Sorry, I didn’t catch that. Could you repeat it, please?”

Examples:

- See Activity 2 c), above. With the wrong vowel sounds on the correct stressed syllables, the sentence:

The bears at the zoo must be fed at least five times a day.

could become:

For more fun worksheets, games, and quizzes log onto www.englishbanana.com now!

Talk a Lot

Foundation Course

Lesson 3 – Stress

The BEERS at the TSAR must be FIRED at least FAVE TOMBS a DIE.

English is such a rich language, with such a large number of words in its collection, that when you pronounce the wrong vowel sound on a stressed syllable, you are very likely to say a completely different word, rather than a nonsense word, as can be seen here: bears -> beers fed -> fired, etc.

Activities:

1. a) Find the sound spine in this sentence:
 - The whole family has decided to go on holiday to Florida next year.b) Read just the stressed vowel sounds in order.
2. Listen to me (or a partner) read a phrase or short sentence. Write down just the stressed vowel sounds to make the sound spine.

Discussion Questions:

1. How easy is it for you to find the sound spine?
2. How aware are you of the stressed vowel sounds when... a) you hear spoken English, b) you speak in English?

3.6 It is not necessary to pronounce every letter in every word in every sentence.

When learners do this their pronunciation sounds wrong and “foreign”. The most important sounds are the vowel sounds on the stressed syllables in a sentence. Everything else can be reduced, i.e. made weaker (shorter) by being pronounced more quickly and without stress. We use contractions and weak forms to help us achieve this goal.

Where possible in spoken English, we use contractions and weak forms, e.g. “Are you going to buy...?” becomes uh y g n Bai...? The main aim for speakers is to get to the next stressed syllable as quickly as possible; to emphasise the content words – the point of what we are saying.

3.7 We reduce function words by using contractions and mega contractions.

A contraction is when two words are reduced and joined together to make one word. A mega contraction is when we reduce a normal contraction further. (See List of Contractions and Mega Contractions on P.14.)

Examples:

<u>Full Form:</u>	<u>Normal Contraction:</u>	<u>Mega Contraction</u> <u>(strong vowel sounds disappear):</u>	<u>In a Phrase:</u>
you are	you're	y	you're too late
I will	I'll	uhl	I'll go in a minute
she has	she's	shz	she's got two brothers
he is going to	he's gonna	i zg n	he's gonna buy a new car
they would	they'd	th	they'd better be quick
they are	they're	th	they're really nice
it will have	it'll've	uh lv	it'll have finished by now

This system of reduced reductions works because native speakers *automatically* associate particular beginning sounds with particular pronouns:

For more fun worksheets, games, and quizzes log onto www.englishbanana.com now!

Talk a Lot

Foundation Course

Lesson 3 – Stress

uh	= I
y	= you
h	= he
sh	= she
uh / uh_	= it
w	= we
th	= they

Activities:

1. Translate this phrase: s m v s g n...
2. Complete the table below:

Reducing Function Words with Contractions and Mega Contractions:

<u>Full Form:</u>	<u>Normal Contraction:</u>	<u>Mega Contraction</u> <u>(strong vowel sounds disappear):</u>	<u>In a Phrase:</u>
1. _____	you're	2. _____	_____
she will	3. _____	shl	_____
they are going to	4. _____	th g n	_____
I would	5. _____	uhd	_____
he has	he's	6. _____	_____
7. _____	they'll have	8. _____	_____

Discussion Questions:

1. Do you typically use contractions when you speak in English? If not, why not?
2. Do you sometimes change contractions back into their full form when you are reading out loud from a text? If yes, why? How can you break this habit?
3. Have you ever heard native speakers using mega contractions, e.g. y instead of "you're", or w instead of "we're"? When and where? Were you able to understand what they meant, e.g. from the context?

3.8 We also reduce function words by using weak forms.

Many function words have both strong and weak forms, for example:

<u>Function Word:</u>	<u>Strong Form:</u>	<u>Weak Form:</u>
to	too	t
for	for	f
the	thee or thu	th
of	ov	uhv

...and so on. We usually use weak forms in spoken English rather than strong forms, because they reduce unstressed words further, and increase the contrast between the weak and strong syllables. Function words are not often used on their own, but are almost always sandwiched between content words, like this: "I went **for** a walk **in** the park." I would never need to say, for example:

"Hello! Am, to, the, by, the, to, a, of."

...but I could say:

"Hello! I'm running **to** the shop **by** the park **to** buy a loaf **of** bread."

The strong forms of function words are rarely used in a sentence, but when a learner begins to learn English, they may learn these words as individual words, and memorise the strong forms, forever afterwards using them when they speak – rather than the weak forms, which should be used, but which the learner has not studied. The strong sounds of words like "for", "to", "I", "but", "and", etc. become

For more fun worksheets, games, and quizzes log onto www.englishbanana.com now!

Talk a Lot

Foundation Course

Lesson 3 – Stress

embedded in the learner's memory, rather than the weak forms: f , t , uh , buh_ , uhnd , etc.
Some learners may never learn the weak forms of function words.

Function words are the glue, or the cement, of the sentence, which keep the content words in place. So, if you use the full forms of these words in a sentence, the sentence stress is affected negatively and the stressed vowel sounds are harder to hear, reducing communication. When we reduce function words by using contractions and weak forms, the stressed vowel sounds are easier to hear. In reducing function words we generally change the strong vowel sound into a Schwa sound (an unstressed vowel sound) – or remove it altogether.

Examples:

<u>Normal Spelling:</u>	<u>Individual Word Form (Strong Form):</u>	<u>Sentence Form (Weak Form):</u>
and	and	uhn e.g. thi zn that
for	for	f e.g. Geu f r Work
to	to	t e.g. ai Won t Geu
a	ei	uh e.g. ai Nee d Lift (the Schwa sound is embedded – it occurs naturally when we say d)

(See P.10 for a comprehensive list of weak forms in English.)

Activities:

1. Practise saying the following words with both strong and weak forms:
the to of and you that because can your than
2. a) Listen to the full form and write the weak form, b) listen to the weak form and write the full form.

3.9 Most of the top 100 most common words in written English are function words, which have weak forms that students do not generally use.

The Oxford University list of the top 100 high-frequency words in written English is based on an analysis of the Oxford English Corpus of over one billion words carried out by Oxford Online, in association with the Oxford English Dictionary¹. (See word list on P.9.)

Of these 100 words, 67 are function words (including the first 27 most frequently used words in English!), e.g. be, to, for, of, etc. **the** is the #1 word in English. It has been estimated that this group of 100 words – and their variants, e.g. be, was, been, etc. – repeated again and again account for 50% of all the words in the Oxford English Corpus!

Since these function words are so commonly used (they are the words that fall in the gaps between the content words with the stressed syllables) it's vital for students to learn the weak form (reduced version) of each of them (see *Weak Forms – Lesson Plan*). Remember – we do not normally use the full form of these function words. A notable exception is when one of them occurs at the end of a sentence, e.g. "What did you say that for?" ("for" is pronounced: for). Another exception is when we use intonation (see 3.10, below), e.g. "That's what I think!" ("I" is pronounced: ai). The word "I" is stressed to emphasise a particular point, so we use the full form.

Talk a Lot

Foundation Course

Lesson 3 – Stress

Examples:

Word:	Reduction (NEA):	In a Phrase:
the	th	it's the best
to	t	I went to the shop
of	uhv	a piece of paper
and	uhnd	fish and chips
a	uh	I need a break
I	uh	I saw you
it	uht	it was good
for	f	go for a walk
with	w	I put it with the others
he	i	he said that
you	y	you need a haircut
from	frm	different from me

Activity:

1. Practise the phrases above using both the strong and weak form of each function word.
2. Write your own phrases for 5 of the function words, and practise them with a partner, using both the strong and weak form of each function word.
3. What are these common phrases:

- | | |
|--------------------|--------------------|
| a) th z _____ | e) k j? _____ |
| b) in t w _____ | f) sth _____ |
| c) b k z vth _____ | g) k dv _____ |
| d) j...? _____ | h) uh y g n? _____ |

(See *Weak Forms – Lesson Plan*.)

Discussion Questions:

1. Have you ever learned about weak forms in English before? If yes, when and where? What percentage of this course is brand new information for you?
2. Have you ever knowingly used mega contractions? Why do you think students tend to use the full forms of function words, rather than the weak forms, as they ought to?

3.10 We are not going to focus on intonation during this course.

On this course we are using Standard Pronunciation – also known as Received Pronunciation (RP). In this lesson we have looked at stress patterns – the sound spine – in sentences that use Standard Pronunciation. However, we can use stress differently, putting heavy stress (or emphasis) on a particular word or phrase, which then highlights the part of the sentence that we want to focus on. This is called **intonation**. It is really useful when we want to avoid misunderstandings or correct mistakes. However, we are not going to pay too much attention to intonation at this stage. As it says in the introduction to the *Talk a Lot Elementary Handbook*:

“The sentence stress activities in [Talk a Lot courses] are focused on neutral speech. Intonation is largely ignored ... in favour of grounding students in the basics of word stress, sentence stress, and connected speech techniques. The subtleties of intonation, and how meaning can be altered, can of course be practised in conjunction with Talk a Lot materials, but should perhaps come later on for new students of spoken English...”

Talk a Lot

Foundation Course

Lesson 3 – Stress

Examples:

- Customer: I'll have four eggs, please.
Shop assistant: Sorry, how many did you say?
Customer: **FOUR** eggs, please. I'd like **FOUR**. [*"four" has heavier stress than normal*]
The customer adds intonation to (emphasises) the keyword "eggs" to enable better understanding.
- Bob was happy because his boss gave him more overtime.
[*Standard Pronunciation: neutral – without special intonation*]
Who was happy? **Bob** was happy because his boss gave him more overtime.
How did he **feel** about it? Bob was **happy** because his boss gave him more overtime.
Why was Bob happy? Bob was happy because his boss gave him **more overtime**.
Who gave him more...? Bob was happy because his **boss** gave him more overtime.
...and so on.

Activities:

- Practise the sentences above with the particular intonation.
- Write your own example and practise it with a partner, e.g. "Are they **new** shoes?" / "Are they new **shoes**?" etc.

Discussion Questions:

- Do you use intonation in your first language? How is it similar to / different from its use in English?
- In what situations might you need to use intonation (heavy stress) to avoid a misunderstanding or correct a mistake? Think of a few example situations and roleplay them.

Final Thought:

If a listener can't understand your spoken English, it could be because...

Stress:	Vowel Sounds:	Result:
		 ?!
		 ?!
		 ?!
		

Homework:

- Learn the List of Common Weak Forms on P.10.
- Practise using the weak forms of function words when you speak and when reading out loud. If necessary, make a conscious decision to change how you pronounce function words.

Lesson 3 – The 100 Most Common Words in Written English

The Oxford University list of the top 100 high-frequency words in written English is based on an analysis of the Oxford English Corpus, which is a collection of texts in English that has a combined total of over one billion words. This analysis was done by Oxford Online, in association with the Oxford English Dictionary. **Of these top 100 words, 60 are function words, including all but 2 of the top 30 words!** “the” is the most common word in written English.

From Wikipedia:

*“Note that the items listed may represent more than one actual word; they are **lemmas**. For instance the entry “be” contains within it the occurrences of “are”, “is”, “were”, and “was”. **Note also that these top 100 lemmas listed below account for 50% of all the words in the Oxford English Corpus.**” [emphasis mine]*

Source: http://en.wikipedia.org/wiki/Most_common_words_in_English, accessed on 04.04.2011

Function words are highlighted and weak forms (where possible) are shown with the NEA:

List of Common Weak Forms in Spoken English

- In spoken English we often use the **weak forms of function words** instead of the strong forms to make the sound spine stand out more clearly. This is true of Standard Pronunciation, dialects, and accents
- The weak form is often made by replacing the vowel sound in the strong form with a **Schwa sound: uh**
- Most function words that have weak forms are **monosyllabic** – they have only one syllable
- If we use strong forms when we should use weak forms, we sound **too formal** and it is more difficult for people to understand us, because the sentence stress is incorrect. Communication is reduced
- If a function word comes **at the end of a sentence** we usually use its strong form, rather than its weak form, e.g. "What are you looking for?" (for) or, "Who are you writing to?" (too)
- If we want to show emphasis or contrast, we can vary the **intonation** by using strong forms where we would normally use weak forms, e.g. "What did *you* think of the book?" (you)

Lesson 3 – Weak Forms – Lesson Plan

This lesson is divided into four parts and lasts around 50-60 mins. It is suitable for Pre-Intermediate level and above:

Part 1:

Q. How many words are there in the English language?

A. Over 2 billion (Source: Oxford Corpus)

Q. Do you know these thirty words? (Word List, below)

A. Yes, of course.

These words are in the top 100 most common words in written English, according to Oxford University – out of more than two billion! “the” is the most common word in written English.

Q. What can you see here? What kind of words are there here?

A. Prepositions, articles, pronouns, auxiliary verbs, and conjunctions.

Q. What is the collective name for this kind of word?

A. Function words.

Q. Do you know how to pronounce these words?

A. Yes, of course.

Q. Can you read the thirty words out loud, please?

[A few students read the words out loud. In most cases they will pronounce the full form of each word, rather than the weak form. Let the students make mistakes at this stage, without correcting them.]

Word List:

the	your
to	some
of	them
and	than
a	because
that	as
have	be
I	at
for	from
with	we
you	will
he	into
an	do
there	could
can	so

Part 2:

Q. Now – can you read the twelve phrases out loud, please?

[A few students read the phrases out loud. In most cases they will pronounce the full form of each function word in a phrases, rather than the weak form, which will destroy the sentence stress. You might want to use just a few of the phrases – e.g. four – depending on time. Let the students make mistakes at this stage, without correcting them.]

For more fun worksheets, games, and quizzes log onto www.englishbanana.com now!

Talk a Lot

Foundation Course

Lesson 3 – Weak Forms – Lesson Plan

Phrases:

1. it is the first of May
2. work with a new partner
3. there is a bottle of milk on the table
4. some fish and chips in the park
5. do you want to go to the shop?
6. they are from the City of York
7. there is a book over there
8. could you give me a call in a minute?
9. the plane from Paris arrives at nine
10. we are going to be late
11. he has not got any money because he is broke
12. we will put the cake into a box

Let's look at the first phrase: "it is the first of May". Would I say it like that? [word by word] No. [Elicit the contraction "it's" and the two weak forms – th and uhv .]

Part 3:

At the beginning of the lesson, I asked you: "Do you know how to pronounce these words?" You all said yes, and you read them out loud. But you pronounced each one [or, almost all of them] with their full form. How often do we need to say any of these words individually? Almost never. We never need to say simply, "than", or "from"! These words are *almost always* in between a set of content words. These words are the glue, or the cement, of the sentence, that keep the content words together. So, since we know how common these words are – in the top 100 out of over 2 billion! – **is the mispronunciation of these words the main cause of your problems with pronunciation?** It will be well worth your while to learn the correct pronunciation of each one:

[If possible, try to elicit the weak forms from the students, and write them on the board alongside the original list, using the NEA. Remind learners of the importance of the Schwa sound in unstressed syllables, which is written uh , and the glottal stop, which is written _ and usually replaces t at the end of a syllable:]

Word List:

the	th	your	y
to	t	some	sm
of	uhv	them	thm
and	uhn	than	thn
a	uh	because	b kz
that	th_	as	uhz
have	uhv	be	bi
I	uh	at	uh_
for	f	from	frm
with	w	we	wi
you	y	will	uhl
he	hi	into	in t
an	uhn	do	d
there	th	could	kd
can	kn	so	s

[The teacher could improvise short phrases to illustrate some of the weak forms, e.g. in "fish and chips" the word "and" is reduced to uhn – the d sound is removed due to Elision (see Lesson 4), etc. As you go through each word and its reduced form, emphasise the fact that in most cases the vowel sound is removed and only consonant sounds – or the Schwa sound – is left, e.g. the word "can" loses its strong a sound, and we hear only the two consonant sounds, which create a natural Schwa sound when we put them together.]

For more fun worksheets, games, and quizzes log onto www.englishbanana.com now!

Talk a Lot

Foundation Course

Lesson 3 – Weak Forms – Lesson Plan

Part 4:

Now, armed with the knowledge of the correct pronunciation of each function word, let's return to the phrases. First, which words are stressed? Which word have the meaning? [i.e. the content words, underlined below] What happens to the function words in between? How can we reduce them so that they are as weak as possible, without deleting them – which would create a grammar error?]

[Students work on the task in pairs or small groups. If they are able to, they could write the NEA spelling of each phrase. After a short time, the teacher goes through each sentence on the board, eliciting feedback from the students. Pay particular attention to how the full form of function words, e.g. *for* changes to weak: f]

Phrases:

1. it is the <u>first</u> of <u>May</u>	i_ zth Fer st Vmei
2. <u>work</u> with a <u>new</u> <u>partner</u>	Wer kw th Nyoo Par_ n
3. there is a <u>bottle</u> of <u>milk</u> on the <u>table</u>	th z Bo_ uh l Vmil kon th Tei bl
4. some <u>fish</u> and <u>chips</u> in the <u>park</u>	sm Fi shn Chi psin th Park
5. do you <u>want</u> to <u>go</u> to the <u>shop</u> ?	j wo n Geu t th Shop?
6. they are from the <u>City</u> of <u>York</u>	th frm th Si_ ii y Vyork
7. there is a <u>book</u> over <u>there</u> *	th z Buu keu v Their
* the second "there" is an adverb. It is worth noting that function words at the end of a sentence should have full form (see notes)	
8. could you <u>give</u> me a <u>call</u> in a <u>minute</u> ?	k j Gi vmee y Kor li n Mi ni_?
9. the <u>plane</u> from <u>Paris</u> <u>arrives</u> at <u>nine</u>	th Plein frm Pa ri s Rai vz_ Nain
10. we are going to be <u>late</u> !	w g n bi Lei_?
11. he has <u>not</u> <u>got</u> any <u>money</u> because he is <u>broke</u>	hi Ya zn_ Go_ e nii Mu nii k zee Zbreuk
12. we will <u>put</u> the <u>cake</u> into a <u>box</u>	wl Puu_ th Kei kin t w Boks

Notes:

- Some function words keep their full form when they are used at the end of a sentence, e.g. object pronouns like "him", "them", and "us". Also, the prepositions "in" and "on" don't have weak form, but the n sound at the end of each word is a friendly consonant sound (see Lesson 4), which enables a smooth transition to the next sound.
- Summary of the problem: students learn function words with their full form and a strong vowel sound, e.g. a, and, at, etc. but not as part of a sentence. We hardly ever use function words individually, so students use the full form in a sentence when they should use the weak form – which they have never formally learned. **So, change the strong vowel sound in a function word into a Schwa sound, or remove it completely!**
- Where possible in spoken English, we use contractions with the weak forms, e.g. "Are you going to...?" becomes uh y g n...? The main aim for speakers is to get to the content words – to the point of what we are saying. Here are some very common contraction combos:

there is a...	=	th z...	could you...?	=	k j...?
into a...	=	in t w	because of...	=	b k z...
do you...?	=	j...?	it is the...	=	sth...

(we reduce "it is" to s because we are so used to this pattern that we don't need to hear "it is" every time. s is enough to communicate. And anyway, we want to get on to the point of the sentence – the content words.)

could have	=	k dv
you are going to	=	y g n

(see also *Levels of Reduction with Contractions, P.X*)

- These reductions work because our brains are programmed to understand these patterns, e.g. w for "we". There is only one pronoun that starts with w, etc.

Lesson 3 – List of Contractions and Mega Contractions

Note: this list includes the most common verb forms. It is by no means exhaustive

Verb: be (present simple / continuous)		
<u>Full Form:</u>	<u>Normal Contraction:</u>	<u>Mega Contraction</u> <small>(strong vowel sounds disappear):</small>
I am	I'm	uhm
you are	you're	y
he is	he's	iz
she is	she's	shz
it is	it's	i_z
we are	we're	w
they are	they're	th
Example:	He's really nice.	i Zriy lli Nais.

Verb: be (past simple / continuous)		
<u>Full Form:</u>	<u>Normal Contraction:</u>	<u>Mega Contraction</u> <small>(strong vowel sounds disappear):</small>
I was	none	uh wz
you were	none	y w
he was	none	i wz
she was	none	sh wz
it was	none	i_wz
we were	none	w w
they were	none	th w
Example:	She was late.	sh w Zlei_.

Verb: have (present perfect)		
<u>Full Form:</u>	<u>Normal Contraction:</u>	<u>Mega Contraction</u> <small>(strong vowel sounds disappear):</small>
I have	I've	uhv
you have	you've	yv
he has	he's	iz
she has	she's	shz
it has	it's	i_z
we have	we've	wv
they have	they've	thv
Example:	They've just left.	th Vju Sleft.

Verb: have (past perfect)		
<u>Full Form:</u>	<u>Normal Contraction:</u>	<u>Mega Contraction</u> <small>(strong vowel sounds disappear):</small>
I had	I'd	uhd
you had	you'd	yd
he had	he'd	id
she had	she'd	shd
it had	it'd	i_uh
we had	we'd	wd
they had	they'd	thd
Example:	She'd been told about it.	sh dbin Teul d bau ti_.

Lesson 3 – List of Contractions and Mega Contractions

Verb: will (future simple)		
<u>Full Form:</u>	<u>Normal Contraction:</u>	<u>Mega Contraction</u> <u>(strong vowel sounds disappear):</u>
I will	I'll	uhl
you will	you'll	yl
he will	he'll	il
she will	she'll	shl
it will	it'll	il
we will	we'll	wl
they will	they'll	thl
Example:	I'll see you soon.	uhl See y Soon.

Verb Form: will have (future perfect)		
<u>Full Form:</u>	<u>Normal Contraction:</u>	<u>Mega Contraction</u> <u>(strong vowel sounds disappear):</u>
I will have	I'll have	uh lv
you will have	you'll have	y lv
he will have	he'll have	i lv
she will have	she'll have	sh lv
it will have	it'll have	i lv
we will have	we'll have	w lv
they will have	they'll have	th lv
Example:	It'll have finished by then.	i l Fi ni shbai then.

Verb Form: be going to (future)		
<u>Full Form:</u>	<u>Normal Contraction:</u>	<u>Mega Contraction</u> <u>(strong vowel sounds disappear):</u>
I am going to	I'm going to	uhm g n
you are going to	you're going to	y g n
he is going to	he's going to	i zg n
she is going to	she's going to	sh zg n
it is going to	it's going to	i_ zg n
we are going to	we're going to	w g n
they are going to	they're going to	th g n
Example:	We're going to have lunch.	w g n Ha Vlunch.

Verb Form: would (conditional)		
<u>Full Form:</u>	<u>Normal Contraction:</u>	<u>Mega Contraction</u> <u>(strong vowel sounds disappear):</u>
I would	I'd	uhd
you would	you'd	yd
he would	he'd	id
she would	she'd	shd
it would	it'd	i_ uh
we would	we'd	wd
they would	they'd	thd
Example:	You'd be surprised.	y dbii s Praizt.

Foundation Course

Lesson 4 – Connected Speech

4.1 Even with the stress and vowel sounds correct in a sentence, we still sound wrong when we don't use connected speech, because we are speaking word by word

4.2 We speak English syllable by syllable, not word by word

4.3 However, English words don't fit together very well. They are like badly-fitting puzzle pieces

4.4 We use the Features of Connected Speech to solve this problem. They can be learned using the mnemonic GLACIER

4.5 There are four possible sound connections between syllables

4.6 cc sound connections are the hardest to pronounce

4.7 The aim is to speak with only vc (vowel sound to consonant sound) sound connections between syllables, and we use connected speech techniques to achieve this

4.8 Friendly consonant sounds assist with cc sound connections, because they are happy to sit next to other consonant sounds

What I found most surprising / interesting today:

What I need to revise again after this lesson:

Lesson 4 – Connected Speech

4.1 **Even with the stress and vowel sounds correct in a sentence, we still sound wrong when we don't use connected speech, because we are speaking word by word.**

The Jelly Cube Comparison:

Imagine each syllable in a sentence as a wobbly cube of jelly. Inside some of them is a hard round centre. The syllables with the hard centres are the stressed syllables. The hard centre represents the vowel sound on the stressed syllable, and the wobbly jelly around it represents the consonant sounds (see Fig. 1). When a syllable is pronounced separately, all of the sounds – vowel sound and consonant sounds – can be pronounced clearly, but when syllables meet they squash together – like cubes of jelly do – and the consonant sound(s) on either side are affected. As they merge together, they may change or disappear completely. The unstressed syllables can be squeezed the most, because they don't have a strong vowel sound (a hard round centre) but they cannot be left out – that would create a grammatical mistake. Furthermore, if you squeeze (reduce) a stressed syllable too much the hard centre will burst and the vowel sound will disappear, leading to miscommunication.

The process of changing syllables so that they fit together well – like cubes of jelly that squeeze and merge together – is what we call **connected speech**.

Writing Comparison:

When we write with our normal handwriting we don't print each letter separately. At school we are quickly taught to use joined-up handwriting. Sometimes people can't read my handwriting if I write quickly or carelessly, but if I write each letter separately (e.g. on a whiteboard in a classroom) it is very easy to read it. It's the same with connected speech. If I speak word by word – pronouncing each syllable, vowel sound and consonant sound clearly – it is easy to understand me, although I sound unnatural and not like a native speaker of English. The listener may experience fatigue listening to me, because they have to work much harder to identify the sound spine. If I speak quickly using connected speech, although I sound natural, it is much harder for people not used to listening to connected speech techniques to understand, or "catch" what I say.

Examples:

1. The cat was sitting on the floor.
2. I'm working at the bank at the moment.

Activity:

- Show the sentence stress in the sentences above using real jelly cubes and hard centres! (Note: don't eat the unstressed syllables until after the lesson!)

4.2 **We speak English syllable by syllable, not word by word.**

We don't pronounce every word individually, but rather connect words together syllable by syllable.

Examples:

1. How common one-syllable words are in English. (See Talk a Lot Handbook p.13.3-13.7)
2. I. Don't. Speak. Like. This, b_ wi thmor Fleu.

Discussion Questions:

1. What do you know already about connected speech in English?

For more fun worksheets, games, and quizzes log onto www.englishbanana.com now!

Talk a Lot

Foundation Course

Lesson 4 – Connected Speech

2. Do you connect syllables in a similar way in your first language? Say a sentence slowly in your language, and explain what happens between the syllables.

4.3 However, English words don't fit together very well. They are like badly-fitting puzzle pieces.

In spoken English, words don't fit together properly. If I try to pronounce each word individually, I sound overformal and "foreign". It is difficult to sound natural while speaking English because the syllables don't connect together naturally. English spelling works against pronunciation by often preventing vc sound connections (see below). For example, there are too many words and syllables that both start and end with a consonant sound. In short, the syllables in our language don't usually connect with vc sound connections – as we wish them to.

Activity:

- Practise reading the following sentences... a) word by word, b) syllable by syllable:

1. I'm working at the bank at the moment.
2. The cat was sitting on the floor.

Which syllable connections cause a problem? Why?

Discussion Questions:

1. Think about how you learned English. Were you drilled word by word, or in short chunks with several syllables in each? Do you speak word by word now? If so, how are you going to "un-learn" this habit?
2. When you speak in English, do you notice that sound connections between syllables are not smooth, but uneven? For example, you pronounce the phrase "buy it" like Bai it instead of Bai yit (i.e. without intrusion). Or, you pronounce the phrase "have to" like Hav too instead of Ha ftoo (i.e. without FCL)?

4.4 We use the Features of Connected Speech to solve this problem. They can be learned using the mnemonic GLACIER.

Examples:

<u>Feature:</u>	<u>Definition:</u>	<u>Example(s)</u>
Glottal stop	an empty space without sound: _	_____
Linking (FCL)	syllables connect together	_____
Assimilation	a sound changes	_____
Contraction	a word is shortened	_____
Intrusion	a new sound appears – y, w, or r	_____
Elision	a sound disappears	_____
R-linking	syllables connect with a r sound	_____

Activity:

1. Match a phrase to each feature of connected speech above:
 - a) my mate Pat
 - b) clean bike
 - c) bad dog
 - d) there is
 - e) grey eyes
 - f) like it
 - g) it is

For more fun worksheets, games, and quizzes log onto www.englishbanana.com now!

Talk a Lot

Foundation Course

Lesson 4 – Connected Speech

2. Work with a partner and think of some more example phrases for each feature.

Discussion Questions:

1. Are you already familiar with any or all of these features of connected speech? If yes, where did you learn them? Are you already using any or all of them when you speak in English?
2. Do you use any of these features of connected speech in your first language? If yes, which ones?
3. How confident are you in deleting the t sound at the end of a syllable and inserting a glottal stop instead? (See Lesson 3.) How are you planning to include this technique, along with the other features of connected speech, into your normal English speech?
4. What strategies can you use to practise the features of connected speech and improve your spoken English skills?

4.5 There are four possible sound connections between syllables.

vc (vowel sound to consonant sound)	e.g. "my car"	mai Kar	= easy to pronounce
vv (vowel sound to vowel sound)	e.g. "we are"	wee ar	= difficult to pronounce
cv (consonant sound to vowel sound)	e.g. "it is"	it iz	= difficult to pronounce
cc (consonant sound to consonant sound)	e.g. "that book"	that buuk	= difficult to pronounce

vc is the easiest and most natural sound connection for native speakers of English to pronounce.

Summary of what usually happens with each sound connection:

vc = OK – easy to pronounce	cv = Final Consonant Linking (FCL)
vv = Intrusion with y, w, or r	cc = Elision, Glottal Stop, Assimilation, or FCL

Examples:

What we typically see with each type of sound connection:

vc This sound connection is easy to pronounce. Feature of connected speech: **none required!**

vv This sound connection is difficult to pronounce, so we add a new consonant sound between the two syllables: y, w, or r. See below for further details. Feature of connected speech: **intrusion**

<u>Example:</u>	<u>Problem:</u>	<u>Solution:</u>
buy it...	Bai it	Bai yit
you and...	yoo uhnd	yoo wnd
teacher is	Tee ch iz	Tee ch riz

cv This sound connection is difficult to pronounce, so we often connect the consonant sound at the end of the first syllable with the vowel sound at the beginning of the next. Feature of connected speech: **linking (FCL = Final Consonant Linking)**

<u>Ending Sound:</u>	<u>Example:</u>	<u>Problem:</u>	<u>Solution:</u>
d	bed and...	Bed uhnd	Be dnd
k	take any...	Teik e nii	Tei ke nii
m	I'm only...	aim eun lii	ai meun lii
sh	push Alex...	Push A lex	Puu Sha lix
t	get up*	Get Up	Ge Tup

*Generally speaking, phrasal verbs provide a good example of this

For more fun worksheets, games, and quizzes log onto www.englishbanana.com now!

Talk a Lot

Foundation Course

Lesson 4 – Connected Speech

Activity:

- Match these phrases to the three groups: **vc**, **vv**, or **cv**:

- | | | |
|----------------|-------------|----------------|
| 1. see Oliver | 4. no way | 7. four events |
| 2. the day | 5. cup of | 8. put off |
| 3. nice office | 6. queue up | 9. my car |

4.6 cc sound connections are the hardest to pronounce.

This is the most difficult type of sound connection, and therefore the most radical action is required – including the use of **four** different features of connected speech. Because cc connections are so hard to pronounce (the jagged edges of the badly-fitting puzzle pieces) we become impatient with our language and simply delete (elision and glottal stop), change (assimilation), or link (FCL) the problematic consonant sound at the end of the first syllable. In each case our aim is to change the sound connection to a vc sound connection.

Examples:

Here are some typical examples of things we do to make cc sound connections easier to pronounce:

- Delete **t** or **d** at the end of a syllable when it meets another consonant sound. Use glottal stops to cut off the previous sound, leaving a tiny gap in place of the missing sound. Result = vc sound connection.
Features of connected speech: **elision** and **glottal stop**

Practise: art lesson great time bread bin closed bag

- Write more examples: _____

- Delete duplicate sounds that meet, e.g. in the phrase “black clock” there will be only one **k** sound where the syllables meet – at the beginning of the second syllable: Bla_ klok. Glottal stops may or may not be used in this kind of situation. Result = vc sound connection. Features of connected speech: **elision** and **glottal stop**

Practise: rode down pack case big game closed door

- Write more examples: _____

- Delete **h** at the beginning of a syllable when the previous sound is a consonant sound, e.g. “Is he?” This gives us a cv sound connection, which can be remedied with FCL: i zee? Result = vc sound connection. Features of connected speech: **elision** and **FCL**

Practise: put him deep hole push hard right heel

- Write more examples: _____

- Replace **tt** at the end of a syllable with **f**, then move it forward with FCL. It is easier to pronounce **f** next to another consonant sound, than **tt**, e.g. “both people” becomes: Beu Fpee pl . Result = vc sound connection. Note: although common, this is considered “sloppy” and less “correct” than Standard Pronunciation. Features of connected speech: **assimilation** and **FCL**

Practise: bath time both people toothbrush cloth bag

- Write more examples: _____

Replace **th** at the end of a syllable with **v**, then move it forward with FCL. It is easier to pronounce **v** next to another consonant sound, than **th**, e.g. “with two” becomes: wi Vtoo . Result = vc sound

For more fun worksheets, games, and quizzes log onto www.englishbanana.com now!

Talk a Lot

Foundation Course

Lesson 4 – Connected Speech

connection. Again, despite being widespread in various English accents, this is considered less “correct” than Standard Pronunciation. Features of connected speech: **assimilation** and **FCL**

Practise: clothes hanger bathe for... youths that... soothe him

- Write more examples: _____
- 1. When a l sound at the end of a syllable meets another consonant sound at the start of the next syllable, it often changes to w, which is then moved forward with FCL, e.g. “will you?” becomes: wi wyoo? or wi wy? (the pronoun “you” is reduced further). Result = vc sound connection. Features of connected speech: **assimilation** and **FCL**

Practise: bulldog pull down you’ll be school bus

- Write more examples: _____
- 2. We also use **final consonant linking (FCL)** with cc sound connections in other situations, for example:

<u>First Sound:</u>	<u>Example:</u>	<u>Problem:</u>	<u>Solution:</u>
ch	beach which...	Beech wich	Bee chwich
g	big dog	Big Dog	Bi Gdog
k	locked in	Lokt in	Lo ktin
p	escape the...	uh Skeip th	uh Skei pth

4.7 The aim is to speak with only vc (vowel sound to consonant sound) sound connections between syllables, and we use connected speech techniques to achieve this.

We use connected speech to flatten out the irregularly shaped syllables and make vc sound connections between them. Physiologically, it is much easier for English native speakers to talk using vc sound connections, e.g. ma ma ma ma, than with the other kinds of sound connections. We are much more comfortable with consonant sounds at the start of a syllable – even several together – than at the end. This is a result of the way our tools for speaking – our mouths, tongues, throats, and lips, etc. have grown and developed since we were first able to hear English being spoken around us – i.e. in our mother’s wombs.

Examples:

1. bigger, bigger, bigger, bigger
2. The perfect syllable for speaking in English is cv. It starts with a consonant sound and ends with a vowel sound, e.g. words like: “the”, “so”, “she”, “they”, etc.

cv syllables in a sequence guarantee vc sound connections:

CV CV CV CV CV CV CV CV CV CV CV, etc.

3. Examples of English words with only vc sound connections:

Normal Spelling:

ge ne ra tion
me lo dra ma tic
mo no po ly

NEA Spelling:

je n Rei shn
me l dr Ma tik
m No p lii

For more fun worksheets, games, and quizzes log onto www.englishbanana.com now!

Talk a Lot

Foundation Course

Lesson 4 – Connected Speech

4. Examples of phrases with only vc sound connections:

- a) The baker flew to Paris.
- b) A new car for my mother.

This contrasts nicely with tongue twisters – phrases that are deliberately difficult to say because of awkward sound connections:

- Bugs black blood, bugs black blood, bugs black blood, bugs black blood
- Round the rugged rock the ragged rascal ran
- Red lorry yellow lorry, red lorry yellow lorry
- How much wood would a woodchuck chuck if a woodchuck could chuck wood?

In the list of the 100 Most Common Words in Written English that we looked at in Lesson 3, there are 31 one-syllable words that fit the cv pattern:

the	do	she	go	see	day
be	by	my	me	now	
to	they	there	no	two	
for	we	their	know	how	
he	say	so	year	way	
you	her	who	your	new	

Try reading one of them individually, over and over, then several of the words in groups of five or ten. Easy isn't it?

Activities:

1. Think of some words with only vc sound connections. Practise repeating them.
2. Write your own phrases and sentences with only vc sound connections. Practise repeating them.
3. Find some more tongue twisters, or write your own.
4. Compare: sentences with only vc sound connections and tongue twisters.

4.8 Friendly consonant sounds help with cc sound connections because they are happy to sit next to other consonant sounds.

Having talked a lot about problematic consonant sounds, there are **a few** consonant sounds which are quite happy to work with other consonant sounds. These are called **friendly consonant sounds** and they are:

n, m, and ng

(note that **l** can sometimes be a friendly consonant sound too)

Friendly consonant sounds are our heroes in the world of consonant sounds, because when one of them occurs at the end of a syllable and a consonant sound follows, they make the sound connection easy – just like a vc sound connection. **n, m, and ng** “play nice” with other consonant sounds! This is because after making each of these sounds **the tongue and mouth are in a neutral position**, and therefore ready to pronounce any other sound. The tongue can *rest* on the friendly consonant sound without linking it to the beginning of the next syllable.

Examples:

1. fountain, maintain, mountain, etc.

For more fun worksheets, games, and quizzes log onto www.englishbanana.com now!

Talk a Lot

Foundation Course

Lesson 4 – Connected Speech

2. Let's look at some examples of friendly consonant sounds in action. Try saying each phrase out loud. Notice how the syllables with **n**, **m**, or **ng** at the end are easy to pronounce beside the next syllable, which starts with a consonant sound. There is a smooth sound connection:

n e.g. run towards, wanted, painted, can do, stranger, London

m e.g. time to, him because, climb down, simply, come here

ng e.g. ring true, sing five, going back, hang there, eating crisps, along with, penguin

Note: the friendly consonant sounds **n** and **m** are only used with **cc** sound connections. When a friendly consonant sound occurs at a **cv** sound connection, FCL takes place, as in these examples:

<u>First Sound:</u>	<u>Example:</u>	<u>Problem:</u>	<u>Solution:</u>
m	I'm only...	aim eun lii	ai meun lii
n	bin out	Bin aut	Bi naut

ng is different in that it cannot be moved forward with FCL. We simply have to rest on **ng**, whether a vowel sound or consonant sound follows, for example:

<u>First Sound:</u>	<u>Example:</u>	<u>No Problem:</u>	<u>No Solution Required:</u>
ng	ring up	Ring Up	Ri-Ngup
ng	going out	Geu wing Aut	Geu wi Ngaut

3. High-frequency words in English that end with **n**, **m**, or **ng**:

In the list of the 100 Most Common Words in Written English from Lesson 3, there are 11 monosyllabic high-frequency words that finish with either **n**, **m**, or **ng**. Their frequent reoccurrence has the effect of "oiling the wheels" of spoken English. The great thing is that these words are everywhere in English:

(list position is shown in brackets)

I'm (=2)	an (32)
am (=2),	him (58)
in (7),	some (66)
on (14),	them (68)
from (25)	

We can say that "and" (5) is an honorary member of this group too, because **d** is often deleted with elision, e.g. "fish and chips" = Fi shn Chipz .

Activity: say what kind of word each one is, e.g. "in" is a preposition, etc.

It is also worth noting that many common **suffixes** (i.e. word **endings**) finish with **n**, **m**, or **ng**:

suffixes: -an, -ane, -com, -en, -ian, -im, -in, -ing (which changes to -in, see above), -ism, -on, -phone, -sion, -tain, -teen (i.e. every number from 13-19), -tion, -um, -ant ("t" is deleted with elision)

There are also several common **prefixes** that end with **n**, **m**, or **ng**:

prefixes: com-, con-, en-, im-, in-, non-, un-

For more fun worksheets, games, and quizzes log onto www.englishbanana.com now!

Talk a Lot

Foundation Course

Lesson 4 – Connected Speech

If we extend the list of the most common words in spoken English to the top 1,000, there are many very common **content words** that also end with n, m, or ng, and most of them are **one-syllable words too**, for example: “thing”, “again”, and “time”, etc.

Activities:

1. All of these content words are in the list of the top 1,000 high frequency words in written English¹. Put them into four groups:

same	learn	done	again	mum	clean	run	soon	come	long
gone	home	son	young	time	game	often	brown		

nouns:

main verbs:

adjectives:

adverbs:

2. Look at how many numbers in English end with n, m, or ng :

twelve of the first twenty **numbers** end with n : one, seven, nine, ten, eleven, all -teen numbers (13-19), twenty (twen + ty), seventy (seven + ty), hundred (hun + dred), thousand (with d deleted by elision), million, billion, etc.

*Note: among the friendly consonant sounds, the n sound is easier to pronounce with other consonant sounds than ng. An example of this is when we frequently change ng at the end of an -ing word (a gerund or verb participle) to n, for example: **going** changes to **goin'**, **doing** changes to **doin'**, etc.*

3. List some more common words that end with n, m, or ng, and put them into different groups, according to the kind of word, e.g. nouns, main verbs, adjectives, as above.
4. Practise repeating these words which have only vc and friendly consonant sounds between syllables:

Normal Spelling:

can ce lla tion
e mer gen cy
im po ssi ble
main te nance

NEA Spelling:

kan s Lei shn
i Mer jn sii
im Po s bl
Mein t nns

5. Think of some more words which have only vc and friendly consonant sound connections. Practise repeating them.

We can put these words together to make **phrases** with only vc and friendly consonant sound connections, e.g.

- un ne ce ssa ry main te nance
- pho to gra pher can ce lla tion
- An im po ssi bly cha ri ta ble A me ri can pro fe ssor can ce lling an a ppear ance.
- Mark the stressed syllables and practise repeating them. How do you feel? Compare them with the tongue twisters, above.
- Write your own words and phrases.

Lesson 5:

Practice and Analysis of Results

Lesson 5:

Praktis n Na l si s vr Zl_s

Talk a Lot

Foundation Course

Lessons 5 – Practice and Analysis of Results

After completing the **theory** in Lessons 1-4, it is time for students to **practise** what they have learned so far. This pack contains materials for practising this method in a practical, step-by-step way. Students can repeat this practise material as often as they wish – either at home or in the classroom. If you have time for a six-lesson course, you could do Lessons 1-4, then two practice and evaluation lessons. Or there might be time for more practice lessons – it depends on how you organise your course. You could do the practise and evaluation in one lesson – if you have a fairly long session – or do the practice in one lesson and evaluate your results in the next, alternating each time.

Contents:

Page 1: Practice Page 1 – Blank

This page contains the main activity for practising the method studied during Lessons 1-4.

Page 2: Practice Page 1 – Example

This is an example of a completed Practice Page 1.

Page 3: Practice Page 1 – Syllable by Syllable (Notes for Students)

This is an analysis of the work done during the example Practice Page 1 activity.

Page 5: Cut-Up NEA Sentence – Example

The Cut-Up NEA Sentence activity provides a way of analysing the final syllable by syllable version of the sentence that students create during the Practice Page 1 activity. On this page you can see an example of the finished sentence from the Practice Page 1 example. The blank template is on the following page. You could cut up the cards, mix them up, and get students to put the sentence in order, sounding out each syllable as they go. They could count how many sounds are in each syllable, and decide whether the syllable starts and ends with a vowel or consonant. There is a section at either edge of each card which students can shade in if the adjacent sound is a consonant, and leave blank if the sound is a vowel sound. This helps students to notice the cv structure of the perfect syllable (it starts with a consonant sound and ends with a vowel sound), and the role friendly consonant sounds play – these syllable cards are the only ones which are shaded on both ends.

Page 6: Cut-Up NEA Sentence – Blank

A blank template for you to use with the sentences that students generate while using Practice Page 1.

Page 7: Practice Page 1 – Notes for Teachers

These notes offer general guidance for using the Practice Page 1 activity.

Page 10: Practice Page 2 – Blank

This is an alternative way of practising the method. It covers the same ground as Practice Page 1, but in a slightly more clinical and analytical way. Students could use both practice pages, or choose the one that they prefer.

Page 11: Practice Page 2 – Instructions

These instructions are for students to follow as they work through the Practice Page 2 activity.

Page 12: Practice Page 2 – Example

This is an example of a completed Practice Page 2.

Page 13: Practice Page 2 – Example (Notes)

This is an analysis of the work done during the example Practice Page 2 activity.

Foundation Course

IMPORTANT!
At each stage, **sound out**
the individual phonemes,
words, and sentences!

Practice Page 1

1. a) Write a word or phrase in each box below, on the topic of:

person

thing

topic

place / person / time

b) Underline the stressed syllable in each word or phrase

2. a) Write each word/phrase using the New English Alphabet. Check unstressed syllables for reduction

Per sn #
phonemic IDs

Tting #
phonemic IDs

Pleis / Per sn / Taim #
phonemic IDs

b) Write the number of phonemes the word contains on the right

c) Write the ID number of each phoneme, using the New English Alphabet handout

d) Which letters from the normal spelling (in 1.) are not pronounced? Cross them out

3. a) Add a main verb and function words to make a simple sentence in:

verb form

simple sentence (normal spelling)

b) Find the content words and underline the stressed syllable in each one

c) Write the sentence again, syllable by syllable (where possible, use **vc** sound connections)

simple sentence (normal spelling) – syllable by syllable

notes: sound connections

d) Mark the sound connection between each pair of syllables: **vc**, **cv**, **vv**, or **cc**

e) Circle the **vc** sound connections – these are easy to pronounce :o)

f) Circle connections with friendly consonant sounds **n**, **m**, **ng**, and **l** – these are easy too!

4. a) Make notes about each problem sound connection. Consider what usually happens, i.e.

vc = OK – easy to pronounce

cv = Final Consonant Linking (FCL)

vv = Intrusion with **y**, **w**, or **r**

cc = Elision, Glottal Stop, Assimilation, or FCL

b) Can we shorten any syllables with contractions? Cross out the unnecessary letters

c) Are there any function words that have weak forms? If there are, circle them

5. a) Write the sentence syllable by syllable using the New English Alphabet:

simple sentence (NEA spelling) – syllable by syllable

b) Circle the vowel sound on each stressed syllable to find the **sound spine**

6. Introduce some “wh” question words to make sentence blocks, e.g. what, where, when, etc.

Talk a Lot

Foundation Course

IMPORTANT!
At each stage, **sound out**
the individual phonemes,
words, and sentences!

Practice Page 1 – Example

1. a) Write a word or phrase in each box below, on the topic of:

FOOD

chef

potatoes

saucepan

b) Underline the stressed syllable in each word or phrase

2. a) Write each word/phrase using the New English Alphabet. Check unstressed syllables for reduction

Shef

3

p Tei teuz

6

Sor spn

5

36, 10, 16

33, 37, 12, 37, 15, 47

35, 31, 35, 33, 27

b) Write the number of phonemes the word contains on the right

c) Write the ID number of each phoneme, using the New English Alphabet handout

d) Which letters from the normal spelling (in 1.) are not pronounced? Cross them out

3. a) Add a main verb and function words to make a simple sentence in:

present continuous

The chef is boiling some potatoes in a saucepan.

b) Find the content words and underline the stressed syllable in each one

c) Write the sentence again, syllable by syllable (where possible, use **vc** sound connections)

The chef is boi ling some po ta toes in a sau cepan.

vc cv cc vc cc cc vc vc cv cv vc vc

FCL FCL (contraction)

FCL FCL

d) Mark the sound connection between each pair of syllables: **vc**, **cv**, **vv**, or **cc**

e) Circle the **vc** sound connections – these are easy to pronounce :o)

f) Circle connections with friendly consonant sounds **n**, **m**, **ng**, and **l** – these are easy too!

4. a) Make notes about each problem sound connection. Consider what usually happens, i.e.

vc = OK – easy to pronounce

cv = Final Consonant Linking (FCL)

vv = Intrusion with **y**, **w**, or **r**

cc = Elision, Glottal Stop, Assimilation, or FCL

b) Can we shorten any syllables with contractions? Cross out the unnecessary letters

c) Are there any function words that have weak forms? If there are, circle them

5. a) Write the sentence syllable by syllable using the New English Alphabet:

th She l Fsboy ling sm p Tei teu zi n Spl spn.

b) Circle the vowel sound on each stressed syllable to find the **sound spine**

6. Introduce some “wh” question words to make sentence blocks, e.g. what, where, when, etc.

Talk a Lot

Foundation Course

Practice Page 1 – Syllable by Syllable (Notes for Students)

The original words (NEA spelling): Shef p Tei teuz Sor spn

The simple sentence (NEA spelling): th She Fsboi ling sm p Tei teu zi n Sor spn.

- *To guarantee vc sound connections, each syllable should start with a consonant sound and end with a vowel sound – or one of the friendly consonant sounds, **n, m, ng, or l***
- *Don't forget that a sound on its own will have an embedded Schwa sound at the end, e.g. th, p, and n in this sentence*

th

This syllable represents the weak form of “the”. There is no written vowel sound – the Schwa sound at the end is embedded.

She

This syllable is written with a capital letter because it is a stressed syllable. The stressed vowel sound is e . The final consonant sound of the word “chef” – f – moves forward to start the next syllable, leaving a vc sound connection. The “ch” in the written spelling is misleading to students, because we usually associate it with the ch sound in “cheese”, rather than the sh in “ship”.

Fsboi

The three consonant sounds at the beginning of this syllable may look rather strange on the page, but it's natural for an English native speaker to dump consonants at the beginning of a syllable, so that a vc sound connection can be made. This syllable is stressed, so it starts with a capital letter and contains a stressed vowel sound – the diphthong oy .

ling

This is an unstressed syllable. We know from Lesson 3 that suffixes are not usually stressed, e.g. the “ing” in “boiling”. This syllable finishes with a friendly consonant sound – ng – which gives us a smooth transition to the first sound of the next syllable – the consonant sound s .

sm

This syllable represents the weak form of “some”. It is unstressed, so there isn't a vowel sound, apart from the Schwa sound which occurs naturally in the middle between the two consonant sounds when I say them together.

p

This is another unstressed syllable. There isn't a written vowel sound, although we automatically add a Schwa sound after saying this syllable out loud.

Talk a Lot

Foundation Course

Practice Page 1 – Syllable by Syllable (Notes for Students)

Tei

This is a stressed syllable, so it starts with a capital letter. It contains the stressed vowel sound *ei*, which is one of four stressed vowel sounds – the most important sounds in the sentence.

teu

This is an unstressed syllable. Although the vowel sound *eu* is a diphthong, it is unstressed. The final consonant sound *z* from the original word *p Tei teuz* is lost from this syllable, moving forward to begin the next syllable, which makes a *vc* sound connection instead of the former *cv* sound connection: *teu zin* instead of *teuz in*. The *vc* sound connection is much easier to pronounce.

zi

This is an unstressed syllable. The vowel sound *i* is nice and short, making it easy to pronounce quickly.

n

This is an unstressed syllable. There is no written vowel sound, but there is an embedded Schwa sound which provides the sound representing the word “a” – *uh*.

Sor

This is a stressed syllable, so it begins with a capital letter. It contains the stressed vowel sound *or* – one of the four most important sounds in the sentence. The letter “r” in the phonetic spelling of the sound *or* is part of the vowel sound, and therefore not pronounced as the consonant sound *r*. The final consonant sound *s* from the first part of the original word – *Sors* (“sauce”) – leaves this syllable and moves forward to start the next one, making a *vc* sound connection instead of a *cc* one: *Sor spn* instead of *Sors pn*. This *vc* sound connection is much easier to pronounce.

spn

This is an unstressed syllable. The only vowel sound is the Schwa sound, which is made naturally when we pronounce *p* and *n* together. The unstressed syllable makes the other syllable in the word – the strong-stressed syllable – much stronger and more prominent.

The sentence at stage 3. c). Stressed syllables are raised:

The sentence at stage 5. a). Stressed syllables are raised:

Foundation Course

Practice Page 1 – Notes for Teachers

1. a) The student could choose any topic, e.g. Food, Transport, Shopping, Books, etc. They think of a person, thing, and place / person / time connected with the topic.

b) The student could use a dictionary to find out what the stressed syllables are – or they could use logic, e.g. we know that suffixes are usually unstressed. If a word has more than one syllable, the syllable break should occur after a vowel letter. This is to ensure a **vc** (vowel to consonant) sound connection – apart from if the final sound of a syllable is *n, m, ng, or l*, which are friendly consonant sounds that blend well with other consonant sounds.

2. a) We're starting off in a fairly easy way with the New English Alphabet (NEA), by asking the student to figure out individual words, before having to deal with how connected speech can change the original form of each word.

b) The aim is to get the student thinking about a word as a group of individual phonemes (sounds). They become aware that some phonemes are written with one letter (e.g. *e*), some with two letters (e.g. *sh*), and a few with three letters (e.g. *auw*).

c) Here the student should refer back to the NEA chart from Lesson 2. It will help them to focus on which sound each Phonemic ID represents.

d) The student should compare the original spelling – the written version – with the NEA spelling – the spoken version. The NEA spelling shows which sounds are used. The student should note the differences between the original spelling, which will probably *not* represent the sounds needed to say the word, and the phonetic spelling, which will. This inconsistency is one of the main causes of pronunciation errors, with students attempting to pronounce the sounds of the letters in the word as they understand them, rather than the actual sounds in the word, as seen in the phonetic spelling.

3. a) This exercise helps the student to understand that content words (e.g. person, main verb, thing, and place) are the main building blocks in the sentence, and as such have one strong stress each, while the function words act like glue holding them together. The student has to think about grammar, by choosing a tense (or using one that is given) to make the sentence. The sentence should have a maximum of twelve syllables – the longer the sentence, the more work to do! The teacher should check the sentence for grammatical errors before the student continues.

b) This is a repeat of 1. b), reinforcing the idea of stress in content words – with the addition of finding the stressed syllable in the main verb, which was added by the student.

c) Here the student has to write the sentence syllable by syllable using normal spelling. This reinforces one of the main concepts of this work – that we speak syllable by syllable, not word by word. As in 1. b), above, if a word has more than one syllable, the student should ensure that the syllable break occurs after a vowel letter or *n, m, ng, or l*. This will make it easier to write the NEA version in stage 5. a).

d) The sound connections between syllables are really vital to deciding which features of connected speech to use – so it is really important to get the syllable breaks right (see above).

For more fun worksheets, games, and quizzes log onto www.englishbanana.com now!

Talk a Lot

Foundation Course

Practice Page 1 – Notes for Teachers

e) and f) Here we can see which sound connections are easy to pronounce, i.e. vc connections, and cc connections where the final sound of the first syllable is n, m, ng, or l. After this stage we are left with only problematic sound connections, which we need to change using connected speech techniques.

4. a) At this point the student tries to think of ways to change the problematic sound connections into vc sound connections, using what they know about each kind of sound connection and connected speech techniques. They could note down their ideas. For example, they have learned that cv usually results in Final Consonant Linking (FCL), and that vv results in Intrusion. cc sound connections are more difficult to work out, because there are four ways to deal with them. The student should sound out the syllables in question, listening to what happens at each sound connection. They could also remember that a cc sound connection with t or d at the end of the first syllable will probably result in Elision and a Glottal Stop. This is not always the case, but it's likely.

b) Here the students needs to check whether there are any contractions, i.e. whether there are two function words that could become one, e.g. "we are" could change to "we're", removing the problematic vv sound connection. If there are any contractions, the student should cross out the unnecessary letters, and update the written record of the sound connections.

c) This is to remind the student to look for weak forms of function words in the sentence, e.g. "to" is likely to be pronounced t (weak form), rather than too (full form) – except at the end of the sentence. The student should circle any words that have weak forms.

5. a) Finally the student needs to put together what they have learned about the sentence – the stress, sounds, and effects of connected speech – to produce the NEA version of the sentence, which will reveal each element in a very clear way. The student should note how the vowel sounds on the unstressed syllables are mostly Schwa sounds...

b) ...which is in marked contrast to the stressed syllables, which contain strong and clear vowel sounds. The student circles the stressed vowel sounds to reveal the sound spine – the most important sounds in the sentence.

At each stage the student should be sounding out the individual phonemes and words in the sentence. Now that they have the "finished product" – the NEA spelling of the sentence that they have created – they need to practise saying the sentence – slowly at first – sounding out each sound in each syllable, then getting faster, and putting stress on the stressed syllables, until they are speaking at regular speed.

6. The last stage is optional, integrating the work on pronunciation with a grammar activity from the Talk a Lot books – sentence block building. The student uses the sentence they have made to create a new sentence block, with any 'wh' question word – or one that they are given. For example, if the student has produced the sentence: "Peter went for a walk in the park last night." the teacher could give the question word "who" and the student would start building the sentence block:

For more fun worksheets, games, and quizzes log onto www.englishbanana.com now!

Talk a Lot

Foundation Course

Practice Page 1 – Notes for Teachers

- Peter went for a walk in the park.
- Who went for a walk in the park?
- Peter did.
- Did Peter go for a walk in the park?
- Yes, he did. ... etc.

With this sentence you could also give the question words: “what” (x2), “where”, and “when”.
(See any Talk a Lot book for more information about sentence blocks.)

The student can reflect on the whole activity with great satisfaction. From their original topic and the three original words that they provided, they have been able to build their own sentence, and figure out how to pronounce it correctly using connected speech, then create their own sentence block activity. Out of nothing, the student has initiated and completed an in-depth and enjoyable language activity, practising speaking, listening, vocabulary, and grammar skills to achieve a highly satisfying outcome.

14.																			
16.																			

Notes: _____

Talk a Lot

Foundation Course

IMPORTANT!
At each stage, **sound out** the individual phonemes, words, and sentences!

Practice Page 2 – Instructions

1. Write a short sentence, or part of a sentence (“Written English”). About 8-10 syllables will be fine.
2. Check grammar, vocabulary, and comprehension. Write the number of words and syllables.
3. Write the sentence to show the separate syllables (“Syllable by Syllable” version).
4. Underline the content words.
5. Mark the stressed syllable in each content word with a stress mark: ' ˈ
6. Mark the vowel sound on each stressed syllable using the NEA.
7. Mark the sound connection between each pair of syllables – vc, cv, vv, or cc. Circle vc sound connections – they are easy to pronounce.
8. Identify any friendly consonant sounds at the end of syllables: n, m, and ng. Mark them with an F and circle the sound connections.
9. Identify any l sounds at the end of syllables. Mark with an L.
10. Identify any glottal stops ʔ by looking for t and d sounds at the end of syllables. Mark each one with an underscore symbol ʔ and write how many there are.
11. Notice any possible places for contractions. Mark them with a C. Look for weak forms of function words. Identify any schwa sounds. Mark each one with uh and write how many there are.
12. Mark which Features of Connected Speech we need to use (see below).
13. Write the missing or new sounds using the NEA, e.g. ei or sh , etc.
14. Write the “Spoken English” version of the sentence – syllable by syllable – using the NEA, with a capital letter at the beginning of each stressed syllable.
15. Mark each stressed syllable with a stress mark ' ˈ , as 5. above.
16. Mark the new sound connections, which should now be either vc or F.
17. Practise saying the “Spoken English” version out loud, with the stresses. Slowly at first, then getting faster.
18. Repeat this process often with different sentences, or parts of sentences, until you learn this method. You will begin to see the same patterns occurring.

Sound Connections:

vc	vowel sound to consonant sound	>
cv	consonant sound to vowel sound	>
vv	vowel sound to vowel sound	>
cc	consonant sound to consonant sound	>

Result (Features of Connected Speech):

OK	– easy to pronounce. No change required!
FCL	Final Consonant Linking
I	Intrusion
E	Elision
G	Glottal Stop
A	Assimilation
FCL	Final Consonant Linking

Description:

The final consonant sound of the first syllable becomes the first sound of the next
A new consonant sound appears – y, w, or r
A sound disappears, e.g. t or d from the end of a syllable
A very short gap, represented by ʔ . This replaces the missing sound
A sound changes, e.g. l changes to w
See above

Other Features of Connected Speech:

- F** = friendly consonant sounds: n, m, ng, and l
C = Contraction: a phrase is shortened, e.g. “do not” > “don’t”

Talk a Lot

Foundation Course

Practice Page 2 – Example

Getting from Written English to Spoken English

7 words
 9 syllables
 0 glottal stops: _
 4 schwa sounds: uh

1. & 2. Written English: The man with the umbrella was late.

6.			a						e					ei			
5.			'						'					'			
3.	The		man		with		the		um		bre		lla		was		late.
4.	_____																
7.		vc		cc		cc		vv		cc		vc		vc		cc

9.																	
10.																	
11.	uh								uh				uh		uh		
15.																	
14.	th		Man		wi		thii		ym		Bre		l		w		Zleit.
16.		vc		F		vc		vc		F		vc		vc		vc	

Notes:

2 x th = duplicate sounds, so get rid of the first

th changes to thii when it meets a vowel sound

Final NEA version of the sentence:
th Man wi thii ym Bre l w Zleit.

vowel sound o is replaced by a schwa sound

Talk a Lot

Foundation Course

Practice Page 2 – Example (Notes)

There are no syllables that end with l in this sentence, so the boxes on line 9. stay blank.

10. In this sentence there are no sound connections which require the use of a glottal stop, so the boxes on line 10. stay blank too.

11. The aim at this stage is to reduce the function words using contractions and weak forms.

Contractions: in this sentence there are no words which can be combined with a contraction, so we don't need to write C in any of the boxes on line 11. This is because the verb form is past simple, rather than, for example, present continuous, where there would be a place for a contraction (e.g. "She is" could change to "She's", and so on).

Weak forms: in this sentence there are four syllables where the vowel sound should be a schwa sound uh rather than a strong vowel sound, e.g. e or u . They are: "The", "um", "lla", and "was". For the monosyllabic function words "the" and "was" we use the weak form of each word (see Lesson 3). The word "umbrella" is stressed in the middle, so to make this stress stronger we have to reduce the syllable on either side: "um" and "lla". If we use the full form of each of these syllables, e.g. um bre lar then each syllable will be stressed, making it difficult for the listener to hear the stressed vowel sound, which is vital for forming the sound spine.

12. and 13. Here we need to focus on the three problematic sound connections. In the first one – "with the" – which is a cc sound connection, we can see two occurrences of the same sound th – which we can call a duplicate sound. With duplicate sounds we simply remove the first one using Elision, so here we need to remove th from the end of "with" to make the vc sound connection wi thii . We make a note of the removed sound on line 13.

The next problematic sound connection is "the um", which is a vv sound connection, so we have to use Intrusion. Say the first syllable – thii – and hold the vowel sound. What consonant sound comes naturally at this point – y, w, or r ? Of course, y comes naturally at the end of thii – because our mouth and tongue are in a good position to pronounce it, so we insert a consonant sound y between the two vowel sounds to make the vc sound connection. We note down the new sound on line 13. Incidentally, we cannot use the weak form of "the" here, i.e. th , because we should always use the longer form thii when the next sound is a vowel sound.

The final problematic sound connection is "was late", which is a cc sound connection, so we have four options (see instructions on P.11). Try saying this phrase out loud again and again – slowly at first, then getting faster and faster. Let's use a process of elimination. Should we use Elision and a Glottal Stop? Is there a t or d sound at the end of the first syllable? No. Do we need to change the s sound? No, because it glides nicely into the next consonant sound. We simply need to move the s forward so that it begins the next syllable instead of ending the first. We use FCL – Final Consonant Linking. There are no removed or new sounds to write on line 13, so we leave the space blank.

14. At this stage we take everything that we have learned about the phrase or sentence so far and try to write it how it sounds, using the NEA. This will let us see the difference between the original written version (the "word by word" version that has familiar spelling) and the "syllable

For more fun worksheets, games, and quizzes log onto www.englishbanana.com now!

Talk a Lot

Foundation Course

Practice Page 2 – Example (Notes)

by syllable” version, which is a written record of how we actually speak. (See Lesson 2 for more about using the NEA.)

15. This step is the same as step 5, above. It is repeated on purpose to remind you at this moment of the importance of the stressed syllables in the sentence.

16. This is the magical part where you can see clearly that all of the sound connections are now either vc or friendly consonant sound connections. It is like the moment when the magician pulls a rabbit out of a hat and says to the audience “Ta daaa!” Through the use of connected speech, you have ironed out all the lumps and bumps in the sentence – the problematic sound connections which stop you from sounding natural – and ended up with a sequence of syllables which are easy to pronounce together in fast speech, and within which the sound spine rings out loud and clear, thanks to the process of stress and reduction.

17. You should have been “sounding out” the phonemes and words as you went along. When you have the finished product – the NEA spelling of the phrase or sentence – the sound spelling – you should practice saying it again and again, syllable by syllable – starting off slowly (even pronouncing each syllable separately, in or out of sequence) then gradually getting faster and faster.

18. The more often you practise this way of getting from written English to spoken English, the more comfortable you will become with it, because you will see that the same patterns repeat again and again. For example, the phrase “to the” in both of the following sentences will always be pronounced with weak forms in exactly the same way – t th .

I went to the shop...

ai Wen_ t th Shop...

Jo ran to the car...

Jeu Ran t th Kar...

and so on. Practice makes perfect! The more often you practise a skill, the better you will become at using it.

School Phone Number / Email Address / Website Address:

Let's learn to speak English really well – with correct sounds, stress and connected speech. This course can help YOU!

Talk a Lot Foundation Course is a great opportunity to study the theory of pronunciation – **how to speak English**. We are going to learn how to get from written words on a page to spoken English – using sounds, stress, and connected speech. This highly practical and interactive course contains loads of useful information that students and teachers should know at the beginning of a regular Talk a Lot course – including an introduction to the theory of pronunciation, as practised during every Talk a Lot lesson.

Talk a Lot Foundation Course is suitable for students at the following levels:

<i>Student's Level:</i>	<i>Common European Framework (CEFR):</i>	<i>Cambridge Assessment:</i>
Pre-Intermediate	to B1	PET
Intermediate	to B2	FCE
Advanced	to C1	CAE

About the Author:

Matt Purland is a lecturer in English Language. He has a BA Honours degree in Drama from the University of Wales and a Postgraduate Certificate in Further Education from the University of Derby. He has written more than 1,500 photocopiable worksheets for learning English. This is his eleventh book. In 2002 he launched English Banana.com, which has become a hugely popular English language learning resource website.

So far, Talk a Lot books have been downloaded more than 500,000 times - and counting! Here are some recent comments from course participants:

"It was a good lesson to know how English sounds are actually pronounced!" Hiroki
"Good teacher, learned a lot about the English language. The worksheets are very informative too.." Peter

"Really Matt is a perfect teacher and so helpful trying to improve your English language. Thanks Matt!" Silme

Free Copying Licence

“There is no wealth but life.” – John Ruskin (1819-1900)

Quick Summary:

You may download, print, copy, sell, and distribute English Banana.com materials, without paying anything.

Definition of Terms:

This licence is effective from 7th December 2008, and replaces all existing statements and notices regarding copyright and copying of English Banana.com materials. It applies to all English Banana.com materials.

“English Banana.com materials” means: worksheets, MP3s, video files, books, CD-ROMs, and any other file or product that has been created and published by English Banana.com, that exists either on its website server (www.englishbanana.com) or offline, including digital versions (e.g. a .pdf file) as well as physical copies (e.g. a workbook copy of the Big Grammar Book, or a CD-ROM).

Who May Use this Licence?

This licence applies to anybody who wishes to use English Banana.com materials.

Free Copying Licence:

1. You may download, print, copy, and distribute English Banana.com materials.
2. You may sell English Banana.com materials to make a profit.
3. You may distribute English Banana.com materials for free.
4. You may put English Banana.com materials on a website.
5. You may put English Banana.com materials on an intranet server.

Talk a Lot

Free Licence to Run Courses

“There is no wealth but life.” – John Ruskin (1819-1900)

Quick Summary:

You may use English Banana.com materials to plan and run courses, without paying anything.

Definition of Terms:

This licence is effective from 7th December 2008, and replaces all existing statements and notices regarding copyright and copying of English Banana.com materials. It applies to all English Banana.com materials.

“English Banana.com materials” means: worksheets, MP3s, video files, books, CD-ROMs, and any other file or product that has been created and published by English Banana.com, that exists either on its website server (www.englishbanana.com) or offline, including digital versions (e.g. a .pdf file) as well as physical copies (e.g. a workbook copy of the Big Grammar Book, or a CD-ROM).

Who May Use this Licence?

This licence applies to anybody who wishes to use English Banana.com materials.

Free Licence to Run Courses:

1. You may use English Banana.com materials to plan and administer your courses.
2. You may use English Banana.com materials as course content.
3. You may charge for and make a profit from courses that use English Banana.com materials.
4. You may adapt English Banana.com materials.
5. You may remove the English Banana.com name and logo from the materials, or replace it with your own.

This is a free licence:

- You don't have to pay English Banana.com any royalties or fees.
- You don't have to credit English Banana.com as the originator of the materials.
- You don't have to contact us before using this licence, or apply for further permission, although if you do tell us how you are using it, we may be able to help you by publicising your initiative on English Banana.com.

In short, if you can use English Banana.com materials in any way, this licence gives you permission to use them.

Talk a Lot

Intermediate Book 1

Introduction

Hello!

...and a very warm welcome to the first **Talk a Lot** course book for intermediate level! Following the great response to the first three elementary level books (750,000+ downloads and counting!) this book has been specially designed to help English students to tackle the next stage of learning. In this book you will find four complete spoken English courses on the following topics:

1. Hotel **2. Problems** **3. Media** **4. Getting a Job**

As well as the teaching material for each course – around 45 hours in total – this book contains more than 100 pages of additional material which complements the course activities, for use in the classroom or for self-study at home.

This book is for students who are studying from intermediate level (B2/FCE) to advanced level (C1/CAE), although there will also be plenty of good material for students at pre-intermediate level. The main proposal of this book is that intermediate level can come as something of a shock for students who realise that, despite dutifully learning all the basic grammatical forms and vocabulary at elementary level, the English language remains just as unknowable as ever, thanks to the introduction – at intermediate level – of non-literal English – i.e. idioms, phrasal verbs, and slang. Despite knowing plenty of words with their literal meanings, the goal of fluent communication retreats further into the distance, as the student begins to find coded language wherever they look – English that doesn't make sense as they know it. For example, they may have learned the vocabulary words “cost”, “arm”, and “leg”, but do they know what it means “to cost an arm and a leg”? (To be very expensive!)

Talk a Lot Intermediate provides plenty of practice with these bewildering forms.

The aim of these courses is the same as for any **Talk a Lot** course – to enable students to improve their English speaking skills. There is much that will be familiar from *Elementary Book 3*, because each course is based on the unit structure of that book. However, in **Talk a Lot** Intermediate, everything is *harder!* For example, there are still sentence blocks, but the verb forms have got tougher – e.g. present perfect continuous instead of present simple, and so on. The vocabulary used is more complex too throughout the book, and there are many new activities offering students rewarding practice at this level – for example the **Multi-Purpose Text: Guess the Function Words** activity, or any of the many new activities for practising non-literal English.

Of course, it's totally up to you how you build your course from the material in this book. **Talk a Lot** worksheets are used in so many different situations around the world, that it would be pointless to try to tell you how to structure your course – you can simply pick and choose what you need to use – that goes without saying!

If you are feeling particularly motivated and creative, you could design your *own* **Talk a Lot** Intermediate course on a similar model to these four courses. To do this you would need to:

- Choose a **topic** for your course (e.g. *Hotel*)
- Choose **4 related sub-topics** (e.g. *Facilities, Guests, Staff, and Food and Drink*)
- Choose **40 Discussion Words and Phrases** – and think up some questions
- Choose **20 common idioms, phrasal verbs, and slang words and phrases** –

Talk a Lot

Intermediate Book 1

Introduction

- 5 of each for each sub-topic – and devise some questions and gap-fill sentences
- Write your own **8 Sentence Block starting sentences** using given verb forms, from which you can then make the **Sentence Stress** and **Connected Speech** activities
- Think of a good idea for an **Information Exchange** – of course, related to your topic
- Find or write a text for the **Multi-Purpose Text** activities, then make a glossary
- Get your students to think of their own ideas for **Role Plays** and **What Would You Do?** situations, on the given course topic
- Get your students to write **Discussion Questions** or **Agree or Disagree?** statements on the course topic, which they can then ask each other

...and so on! English Banana.com material is designed to empower teachers, so I would really encourage you to have a go building your own **Talk a Lot** Intermediate course using the model provided here – with a topic that is motivating for you and your students.

With this in mind, although there are **Vocabulary Tests** and **Lesson Tests** in **Talk a Lot** Intermediate, the teacher will need to prepare their own end of course assessments to suit the situation in which they are working. I haven't tried to write long assessments for these courses, because the needs of teachers using this book will be sure to vary enormously. However, if I were to assemble a test for students based on this material, I might include some (or all) of the following tasks:

- Make sentence blocks from given starting sentences
- Talk for 3-4 minutes on a given topic related to an aspect of the course topic
- Engage in discussion with another student or myself using discussion questions
- Match idioms, phrasal verbs, and slang words with their literal English counterparts

...the list could go on! See *Talk a Lot Elementary Handbook* (2009) for more guidance on planning and assessing **Talk a Lot** courses, as well as general advice and ideas for many of the activities included at intermediate level.

Finally, a quick promo for the new *Talk a Lot Foundation Course* (2011). It would really benefit students of **Talk a Lot** Intermediate if they were able to look at the theory of English pronunciation before they started an intermediate level course, because they would gain a lot of valuable background information about the principles of pronunciation that inform many of the activities in these four courses, e.g. the **Connected Speech Template** and **Discussion Words** activities.

Thanks, as ever, to all of my students who have gamely tried out the material in this book – both in the classroom and online. Thank you for your feedback, which has been invaluable! If you have any feedback about **Talk a Lot** Intermediate, or indeed anything related to English Banana.com, please feel free to contact me at: info@englishbanana.com

Wishing you every success – whether you are teaching or learning English!

All the best,

Matt Purland, Ostróda, Poland (28th July 2011)

*P.S. Don't forget that you can use our **Free Copying Licence** and **Free Licence to Run Courses** with this book – and all English Banana.com books! For full details, see PP.v-viii.*

118 Answers to Supporting Material

Instructions for Teachers

Talk a Lot

Intermediate Book 1

Instructions for Teachers

Before you Begin:

The unit outline on the first page of each of the four units in this book shows that the structure of *Talk a Lot Intermediate Book 1* is very similar to that of the units featured in *Talk a Lot Elementary Book 3*. There are, however, some brand new activities which are unique to this book and this level of Talk a Lot. In this brief set of instructions I will attempt to highlight what is new at this level, while for activities that are more familiar, e.g. Sentence Blocks, full instructions have already been published in the *Talk a Lot Elementary Handbook*, which is a free download available from <http://www.englishbanana.com/talkalot/>

Outline:

While *Talk a Lot Elementary Book 3* featured 10 x 30-hour units, this book contains four complete courses, each of which is sub-divided into four vocabulary sub-units. For example, the vocabulary in Unit 1: Hotel is subdivided into the following sub-units:

Facilities, Guests, Staff, and Food and Drink

Each unit could, if all the activities were done in depth, form an individual 45-hour course. Or you could dip in and out, choosing material that you want to use; or build a shorter – or longer – course. The material is designed to be flexible and adaptable. Each unit is divided into five parts:

- Sentence Focus Activities
- Word Focus Activities
- Focus on Non-Literal Speech
- Free Practice Activities
- Continuous Assessment Tests

As well as practising speaking and listening skills, grammar skills, and building vocabulary, each unit aims to introduce students to the concept of non-literal English – idioms, phrasal verbs, and slang – which can be so confusing for students at intermediate level. It's up to you how you build your course using these materials, but I would suggest using a variety of materials during a typical session, e.g.

- 45 minutes of sentence focus practice
- 45 minutes of word focus practice
- 45 minutes of non-literal speech practice

and so on.

Sentence Focus Activities

Sentence Blocks:

For full instructions and further resources for this activity, please refer to the *Talk a Lot Elementary Handbook*.

For more fun worksheets, games, and quizzes log onto www.englishbanana.com now!

Talk a Lot

Intermediate Book 1

Instructions for Teachers

What's New?

- This book features sentence block building with verb forms that are usually introduced at intermediate level:
 1. Present Perfect Continuous
 2. Past Perfect
 3. Future Perfect
 4. Second Conditional
 5. Third Conditional
 6. Reported Speech
 7. Passive Voice
 8. Imperative Form
- Students practise sentence block building in the same way that they do in the elementary level books, except with intermediate verb forms and more advanced language structures. There is an information sheet for each verb form that you can give out to students, and/or use as the basis of a grammar lesson towards the beginning of the course (see *Supporting Material* – P.5 onwards). Also included in the supporting material is the Talk a Lot Intermediate Verb Forms – Matching Game (P.6).
- In the new Sentence Blocks (without Function Words) activity, students have to guess the function words in each sentence block starting sentence, before building the sentence block. The aim is to make the sentence blocks more challenging for students, while reinforcing work done on content and function words elsewhere in the unit.
- Another way to make the sentence blocks more challenging would be to jumble up the words in a starting sentence, meaning that students have to first put together the starting sentence, before building the sentence block.

Connected Sentence Cards:

For full instructions and further resources for this activity, please refer to the *Talk a Lot Elementary Handbook*.

What's New?

- This is the same activity as in *Elementary Book 3*, except using the higher-level verb forms.

Connected Speech Template:

For full instructions and further resources for this activity, please refer to the *Talk a Lot Elementary Handbook*.

For more fun worksheets, games, and quizzes log onto www.englishbanana.com now!

Talk a Lot

Intermediate Book 1

Instructions for Teachers

What's New?

- This is the same activity as in *Elementary Book 3*, except using the higher-level verb forms.
- New to this level is the Cut-Up IPA Sentence activity, which is intended to help reinforce the work done on sounds, stress, and connected speech in the Connected Speech Template.

Word Focus Activities

Discussion Words:

For full instructions and further resources for this activity, please refer to the *Talk a Lot Elementary Handbook*.

What's New?

- In this book the discussion words and phrases have been graded to be more appropriate and relevant at intermediate level, which means tougher vocabulary, i.e. longer, more complex words and phrases.
- In general, the original Discussion Words activities from the elementary books are still relevant at this level, although you may choose to adapt them to make them more challenging, for example, instead of asking students to put the words into alphabetical order, you could ask them to put them into *reverse* alphabetical order – from Z to A, instead of A to Z.
- Another difference is that the discussion word cards are now numbered, which will perhaps make it easier to refer to particular cards in class, for example, students can ask, "What does number ten mean?" instead of just pointing at the card, or saying, "That one." Teachers can also use the numbers to facilitate new word games, for example, they can say, "OK, Team A put all of the odd-numbered cards into reverse alphabetical order, and Team B do the even-numbered cards..." Or, you could devise a game where students work in pairs and one chooses a number from 1-40 and the other has to describe it, etc.
- On P.xxiv you can find an outline of a lesson plan using the discussion word cards from Unit 2: Problems. Check the *Talk a Lot Elementary Handbook* too for advice about how to structure a discussion words lesson.

Discussion Words Question Sheet:

For full instructions and further resources for this activity, please refer to the *Talk a Lot Elementary Handbook*.

For more fun worksheets, games, and quizzes log onto www.englishbanana.com now!

Talk a Lot

Intermediate Book 1

Instructions for Teachers

What's New?

- This is essentially the same activity as in the elementary level Talk a Lot books, except with the language graded to intermediate level, meaning harder questions.
- Totally new questions for this level are:
 5. Put the words and phrases into... b) reverse alphabetical order.
 7. Find words that... a) begin with a vowel sound, b) end with a vowel sound, c) begin with a consonant sound, d) end with a consonant sound. Put them into sound groups.
 8. Find words which contain silent letters (letters which are not pronounced).

Information Exchange:

For full instructions and further resources for this activity, please refer to the *Talk a Lot Elementary Handbook*.

What's New?

- This is essentially the same activity as in the elementary level Talk a Lot books, except with the language graded to intermediate level, meaning more complex tasks and tougher vocabulary.
- The teacher's notes include extra extension activities, including role plays.

Multi-Purpose Text:

For full instructions and further resources for this activity, please refer to the *Talk a Lot Elementary Handbook*.

What's New?

- Guess the Function Words – this is a new activity that aims to test students' understanding of content and function words. The idea is that students work in pairs or small groups and have to write in the function words for part of the text. Then the whole group comes together and puts the story into order. Or, the activity could be done with the teacher (or a student) reading out the story and giving students time to write in the function words. Students could try reading the story without any function words and analysing what difference they make – whether it is possible to understand the gist of the story without the function words – it should be! In this way, this activity combines Sentence Focus and Word Focus work.
- What's the Question? This activity replaces the standard comprehension questions that feature in *Talk a Lot Elementary Book 3*. The aim is to encourage students to

For more fun worksheets, games, and quizzes log onto www.englishbanana.com now!

Talk a Lot

Intermediate Book 1

Instructions for Teachers

write their own questions, which will help them to revise and better understand building question forms in English.

- Glossary of New Words – this section is much expanded compared to *Talk a Lot Elementary Book 3*, with detailed notes on vocabulary and usage. There is much emphasis on Features of Non-Literal English – i.e. idioms, phrasal verbs, and slang – which is studied in depth later in the unit. After the Glossary can be found ideas for extension activities that will enable students to practise the language that they have been learning through studying the text.
- As with all the activities in this intermediate level book, this one features higher-level vocabulary, and language structures which have been specially graded to intermediate level, in order to provide more of a challenge.

Focus on Non-Literal Speech

Role Play with Non-Literal English:

This is a brand new activity for *Talk a Lot Intermediate*.

What's New?

- In this activity students get the chance to examine nine different forms of non-literal English – forms that native speakers use which make the meaning of what they say difficult for non-natives to understand. For example, in the Hotel unit the forms are: *nicknames, exaggeration, idioms, discourse markers, phrasal verbs, sayings / proverbs, similes, swearing, and understatement*. Each feature of non-literal English is explained in detail – with examples – in the pages that follow.
- See P.91 for related supporting material: *Why Use Politically Correct Language?* (lesson material and activities)

20 Common English Idioms:

This is a brand new set of activities for *Talk a Lot Intermediate*.

What's New?

- At heart this is a matching activity: cut out all of the cards and students have to match the idioms (the white cards) with their literal English translations (the grey cards – grey because this kind of language is “grey” and dull compared to idioms). It depends on the level and capability of your students how many idioms you choose to introduce in one lesson – ten may be enough, or even five, or they may be so comfortable with idioms that they can attempt all twenty in one lesson.
- The material that follows the page with 20 idioms aims to practise this new vocabulary:

For more fun worksheets, games, and quizzes log onto www.englishbanana.com now!

Talk a Lot

Intermediate Book 1

Instructions for Teachers

English Idioms – Matching Game: students match the idiom cards to the sentence cards.

Activities Page: this page is modelled on the Discussion Words Question Sheet and contains loads of different activities for practising (and by practising *learning*) this group of idioms. This page is in three sections. The first two – Meaning and Context, and Practice Activities – can apply to any set of idioms, while the third section – Topic Questions – contains questions relating specifically to this set of idioms. Note: answers to all activities are located after the Slang section of each unit. (See P.xxv for Sample Answers to these activities.)

- There is a wealth of supporting material in this book relating to using idioms, some of which is new for this book (marked with an asterisk *), and some which has been published before on English Banana.com:

- P.21 200 Top Idioms in Spoken English Today – Main List*
- P.22 200 Top Idioms in Spoken English Today – with Definitions and Examples*
- P.26 Love and Relationships – English Idioms and Slang
- P.32 How Did You Feel When...? (English Idioms of Mood/Emotion)
- P.33 Football – 20 Common English Idioms*
- P.34 Common English Idioms 1 - 6
- P.40 Common English Idioms – Parts of the Body 1 & 2
- P.42 Really Motivational Page of Encouraging Thoughts

Answers to the supporting material activities can be found at the back of the book.

20 Common English Phrasal Verbs:

This is a brand new set of activities for *Talk a Lot Intermediate*.

What's New?

- Again, the main activity is a matching game, with 20 phrasal verb cards matching twenty definition cards – directions as for idioms, above. The short lines underneath each phrasal verb are spaces for students to write either v (for vowel) or c (for consonant) – to mark the sound connection between the two (or three) words in the phrasal verb. This is relevant to the pronunciation of the phrasal verb, and is demonstrated in detail later in the answer section. Most two-word phrasal verbs will have a cv (consonant to vowel) sound connection between the two words, e.g. “book in” and “wait on” in the Hotel unit. The teaching point is that when there is a cv sound connection, the syllables connect by FCL (Final Consonant Linking), with the final consonant sound moving forward to begin the next syllable, leaving a vc sound connection, which is easier to pronounce. For example:

Phrasal Verb:

Changes to:

book **in** (cv sound connection)

boo kin (vc sound connection)

wait **on** (cv sound connection)

wai ton (vc sound connection)

For more fun worksheets, games, and quizzes log onto www.englishbanana.com now!

Talk a Lot

Intermediate Book 1

Instructions for Teachers

- The material that follows the page with 20 phrasal verbs aims to practise this new vocabulary:

English Phrasal Verbs – Matching Game: students match the phrasal verb cards with the sentence cards.

Activities Page: this page differs from the idioms activity page. The first half of the page is a reference grid showing all of the phrasal verbs and their collocations. You could use this grid to create a quiz for students (see instructions on the page), or give it out to students for reference. The second half of the page contains Topic Questions which relate specifically to this set of phrasal verbs.

Note: answers to all activities are located after the Slang section of each unit.

- There is plenty of supporting material in this book relating to using phrasal verbs, **all of which is brand new for this book:**

- P.44 20 Basic English Phrasal Verbs
- P.45 200 Top Phrasal Verbs in Spoken English Today – Main List
- P.46 200 Top Phrasal Verbs in Spoken English Today – Translation
- P.48 Eat Up Your Phrasal Verbs – They're Good For You!
50+ Great Activities for Practising Phrasal Verbs
- P.69 Phrasal Verbs Dice Game
- P.75 Politics – Phrasal Verbs – Sentence Bash! (Test Material)

Answers to the supporting material activities can be found at the back of the book.

20 Common English Slang Words and Phrases:

This is a brand new set of activities for *Talk a Lot Intermediate*.

What's New?

- This part of the book follows exactly the same pattern as the idioms part (see above), only instead of idioms there are twenty common English slang words and phrases. Again, the aim is to focus on non-literal English – language that students may hear being spoken by native speakers (whether around them or on TV, in films, or on the internet, etc.) but which is unfamiliar and may not be found in the average ESL course book. The aim of the following activities is to help students to learn the twenty slang expressions and to provoke discussion around the use of non-literal English and slang in particular.
- The first activity is matching the slang expressions with their literal definitions. The grey cards (literal English) use abbreviations such as (n.) which means “noun”, and (phr.) which means “phrase”. These abbreviations are defined in the Glossary section of the Multi-Purpose Text activity (see above).

For more fun worksheets, games, and quizzes log onto www.englishbanana.com now!

Talk a Lot

Intermediate Book 1

Instructions for Teachers

- The English Slang Words and Phrases – Matching Game is the same kind of activity as in the Idioms and Phrasal Verbs sections: students match the slang cards with the sentence cards.
- As with the Idioms activities page, the Slang activities page offers a variety of different activities for practising (and by practising *learning*) this set of slang expressions. It may be that you don't cover every activity in depth, but there is something for everyone, so you and your students won't get bored! Note: answers to all activities are located after this section in each unit. (See P.xxix for *Sample Answers to these activities.*)
- There are a few supporting worksheets in this book featuring material relating to using slang, all of which has been published before on English Banana.com:

P.78 An A-Z of English Slang Terms – Parts 1 & 2

P.80 Australian Slang Phrases 1 & 2

P.82 Derbyshire Accent Project – Notes

P.84 Derbyshire Accent Project – Slang Phrases 1-3

Answers to the supporting material activities can be found at the back of the book.

Unit Vocabulary Reference:

This is a brand new set of activities for *Talk a Lot Intermediate*.

What's New?

- Each unit of *Talk a Lot Intermediate* is subdivided into four smaller topic areas, for example, in the Hotel unit the topic areas are:

Facilities, Guests, Staff, and Food and Drink

Each of these sub-topics has an equal share of the vocabulary, so there are five idioms, five phrasal verbs, five slang words/phrases, and ten discussion words for each sub-topic in each unit. Each sub-topic also has four "What Would You Do?" situations (see below). The vocabulary for each sub-topic can be found in the Unit Vocabulary Reference section – there is one page for each sub-topic. These pages – along with the Unit Vocabulary Reference Chart (which appears in units 2, 3, and 4) – can help students (and teachers!) understand how all of the vocabulary in the unit fits together. The sub-topic pages would make handy revision sheets if you wanted to set a test on one (or more) of the sub-topics in a unit.

Talk a Lot

Intermediate Book 1

Instructions for Teachers

What's New?

- This activity replaces the Role Plays activity from *Talk a Lot Elementary Book 3* – but it replaces four ideas for role plays with sixteen! At Intermediate level, students need less guidance on the content of the role plays, because they will be able to imagine more of the details themselves. This activity provides starting points for sixteen different role plays, with four role play ideas for each of the four sub-topics in the unit. Even if students aren't keen to physically act out a fictional situation, the cards provide a starting point for discussion (using the second conditional), which could prove very interesting for students as they discover their peers' attitudes and responses to hypothetical situations – what would you do *if...*? The aim in this activity – as with all of the Free Practice Activities – is to give students time and space to talk, discuss, imagine, think out loud, and debate – while practising using the vocabulary that they have been learning from the unit – the discussion words, idioms, phrasal verbs, and slang.

Discussion Questions:

For full instructions and further resources for this activity, please refer to the *Talk a Lot Elementary Handbook*.

What's New?

- This is the same activity as in *Elementary Book 3*, except using more challenging, in-depth questions, and vocabulary graded to intermediate level.

Agree or Disagree?

For full instructions and further resources for this activity, please refer to the *Talk a Lot Elementary Handbook*.

What's New?

- This is the same activity as in *Elementary Book 3*, except using more challenging concepts, and vocabulary graded to intermediate level.

Vocabulary Test:

For full instructions and further resources for this activity, please refer to the *Talk a Lot Elementary Handbook*.

What's New?

- This is the same activity as in *Elementary Book 3*, except using vocabulary graded to intermediate level.

Talk a Lot

Intermediate Book 1

Instructions for Teachers

Lesson Test:

For full instructions and further resources for this activity, please refer to the *Talk a Lot Elementary Handbook*.

What's New?

- In general, this is the same activity as in *Elementary Book 3*, except using vocabulary graded to intermediate level. However, there are some new types of question which reflect the different vocabulary in these units, e.g. questions about idioms, phrasal verbs, and slang. Also the intermediate level verb forms are used, as featured in the sentence blocks activity.

Special Topics and Bonus Material:

This book contains additional material that is relevant to the intermediate level grammar elements of the course – i.e. the new verb forms – and also to the intermediate level vocabulary and the topic of non-literal English. It's up to you how – or if – you want to use this material, but it is included here because I wrote it at the same time I was writing the four units in this book. The material is:

- P.88 Comprehensive List of State Verbs in English
- P.89 State Verbs in English – Matching Game 1 & 2
(Useful information and practice activities for students at intermediate level)
- P.91 Why Use Politically Correct Language?
(Relating to the topic of non-literal English)
- P.99 Christmas – Discussion Words
(Useful vocabulary activity – at a particular time of year only!)
- P.100 How to Pronounce the Past -ed Form of Regular Verbs
(Relating to the pronunciation of intermediate level verb forms which require a past participle, e.g. past perfect, etc.)
- P.103 The Story of a Music Group (Lesson Plan)
(This is a fun lesson plan for students at intermediate level)
- P.107 Surviving without the Media – an Experiment
(You could use this material to build a lesson plan relating to the Media unit. It will be bound to provoke lots of debate with intermediate level students)

Answers to the additional material activities can be found at the back of the book.

Talk a Lot

Intermediate Book 1

Discussion Words – Sample Lesson Plan

Unit 2: Problems

Time: Up to one hour

Aim: To learn, practise, and consolidate English vocabulary

Benefits: Easy to prepare and facilitate; effective for learners

1. choose a group of 10-20 discussion word cards
2. read all of the words
3. check new words
4. guess the topic
5. check meanings of words you already know
6. make connections – do the words have other forms, e.g. noun, verb, adjective, etc.?

Meaning

7. read the list out loud and check pronunciation
8. mark the stressed syllable on each word
9. identify the vowel sound on each stressed syllable
10. look at stress rules, e.g. suffixes and compound nouns help with finding the stressed syllable

Pronunciation

11. imagine a problem – what would you do?
(alternate asking questions / giving answers)
12. ask a question that includes one of the words,
using a given verb form
(alternate asking questions / giving answers)

Practice in
Context

Talk a Lot

Intermediate Book 1

Idioms Practice Activities – Sample Answers

Practice Activities – sample answers with a random idiom (from Unit 1: Hotel)

random idiom: to paint the town red

literal meaning: to celebrate by going to pubs/nightclubs; to party

1. think of a time or situation in your life when you... a) could have said this idiom (past), and b) might say this idiom (future).

- a) "I could have said this last month, when I went for a night out with my cousin, who was celebrating passing her FCE exam."
b) "I might paint the town red next month, when we go out for a few drinks for my brother's birthday."

2. say the name of a person you know who would be the *most likely* to say this. In what kind of situation?

"My mate Billy would be the most likely to say this idiom, because he loves a party and goes out a lot – much more often than me. He would use it describe a night out in town."

3. others guess while you act it out without speaking, although you can make sounds!

[The student pretends to be walking through a town and having a very good time. They might pretend to have a few alcoholic drinks. They are clearly celebrating something. They could make sounds to show this! They are holding a paint pot in one hand, and a brush in the other. From time to time they dip the brush into the pot, wipe off some of the paint on the side of the pot, then paint some of the imaginary buildings. The action of painting alone should be enough for students to guess the idiom. You should try to enforce the 'no talking' rule to encourage students to be more creative, put down their pens, and use non-verbal skills for a change!]

4. others guess while you draw a picture to represent both forms – idiomatic and literal.

[The student draws something on the board, or on paper. It doesn't have to be great art, but rather any picture that enables the other students to guess the idiom! Encourage students not to write words or letters (e.g. abbreviations) but only to draw. Of course, if students enjoy drawing or painting idioms, you could run a competition and put up a display of the best artwork! For this idiom, it could be a picture of a town (shops, streets, etc.) being painted red by a partygoer holding a giant paintbrush.]

5. analyse the words. Is it at all possible to guess the meaning from the words – or completely impossible? Research the origin and background of this idiom.

For more fun worksheets, games, and quizzes log onto www.englishbanana.com now!

Talk a Lot

Intermediate Book 1

Idioms Practice Activities – Sample Answers

[It's not really possible to get the meaning of "to celebrate by going to pubs/clubs" from the words used in the idiom, although we could guess that it's something to do with being in town. The students could use an idioms dictionary or the internet to research the origins of the idiom. In this case, the idiom "To paint the town red" is believed to date from 1837, when the 3rd Marquess of Waterford – along with some zany pals – really did paint part of the town of Melton Mowbray red, while on a night out!]

6. **replace the idiom in a sentence with the literal (boring) meaning. Compare the sentences. Which sounds better? Why?**

Sentence with idiom:

"We went out last night for John's birthday, and **painted the town red!**"

Sentence with literal (boring) meaning:

"We went out last night for John's birthday, and **celebrated by going to pubs and clubs.**"

[This activity should help students to see the big difference that the idiom makes to a sentence. They will be likely to conclude that the sentence with the idiom sounds better. We can use the literal meaning, and it will be absolutely correct in both grammar and vocabulary, but the idiom brings life to the sentence. It jumps out of the sentence and awakens the listener's attention and imagination. It's fun and colourful – literally in this case! "To paint the town red" makes the listener think of a great night out – it implies that you really enjoyed the time – that the group of people you went out with owned the town during this time, and everybody else who was out almost ceased to exist. "Celebrated by..." conveys factual information adequately – the literal meaning of what happened – but without saying how you and the people on the night out felt about it.]

7. **think of another idiom or saying that has the same or a similar meaning.**

[Students may know some other phrases, or may need to do some research – perhaps online – with a dictionary, or at the library. Here are some more idioms and slang phrases that have the same or a similar meaning to "to paint the town red" or "to celebrate":]

- a. To go out on the town (idiom)
- b. To go out on the lash (idiom)
- c. To party hard (from dusk 'till dawn) (idiom)
- d. To go out on the piss (offensive slang for "go out for several drinks")
- e. To go for a piss up (offensive slang, as above)
- f. To get bladdered (idiom meaning "to get very drunk")

8. **tell a story or devise a dialogue/role play by linking one idiom to the next.**

For more fun worksheets, games, and quizzes log onto www.englishbanana.com now!

Talk a Lot

Intermediate Book 1

Idioms Practice Activities – Sample Answers

Example 1 – Story

[Students widen their focus from one single idiom, and try to connect together different idioms from the unit. They could work in pairs, improvising the story – writing only notes, not the whole story. For example:]

“When I worked as a receptionist I always tried **to give the VIP treatment** and **bend over backwards for** guests, but one day my colleague **phoned in sick** and I **was starving**, so I ran to the restaurant where I met an old friend who was **wining and dining his girlfriend**. He said, ‘**It’s a small world, isn’t it?**’ and I joined them for lunch. We all got **absolutely stuffed**...”

[etc.]

Example 2 – Group Story

[Or, it could be a group activity: all the students sit in a circle; one begins the story (or you could begin it) and the next student continues with a different idiom (either chosen or given randomly). You could have a rule that no idiom is used more than once. Here is an example of the group activity:]

Student A: “This is a story about when I went to the South of France for a holiday. We booked a hotel which **cost an arm and a leg**...”

Student B: “...but it was worth it, because we **were welcomed with open arms**...”

Student C: “...We unpacked our things quickly and went straight to the restaurant, because we **were absolutely starving**...”

Student D: “...but we had **to wait for an eternity** for our meal...”

[etc.]

[A twist would be one student translating each idiom into literal (boring) English as the story is being told. Another twist would be one (or more) students acting out the story spontaneously as it is told.]

Example 3 – Dialogue

[Here is an example of a short dialogue using some of the idioms from this unit:]

Alma: Hi, Tom. How was your trip to Italy?

Tom: Wonderful! At the hotel we received the VIP treatment.

Alma: Sounds great.

Tom: Yes, the staff took care of everything. Any small problem we had, they dealt with it. For example, on the second day I had food poisoning, and I was as sick as a dog, but the hotel manager got me an English-speaking doctor straight away. He really bent over backwards to help us... [etc.]

Talk a Lot

Intermediate Book 1

Idioms Practice Activities – Sample Answers

[Note: this activity also works equally well with the phrasal verbs and slang words and phrases from this unit – or you could mix up all sixty non-literal English cards.]

Topic Questions

Choose the correct idiom, and make a sentence about... a) yourself, b) a friend:

1. that describes feeling the consequences of over-indulgence, e.g. after a night out.

Answer: To be as sick as a dog.

Example sentences:

- a) I had a curry and ten pints last night, and when I got home I **was as sick as a dog**.
- b) Peter **was as sick as a dog** after eating too much at his cousin's wedding.

[etc.]

Talk a Lot

Intermediate Book 1

Slang Practice Activities – Sample Answers

Practice Activities – sample answers with a random slang word (from Unit 1: Hotel)

random slang word: a pig-sty

literal (dictionary) meaning: (n.) an untidy room

1. think of a time or situation in your life when you... a) could have used this slang (past), and b) might use this slang (future).

- a) "I could have said this yesterday when I went to my friend's house, and his living room was very messy, because his parents are away and he had a party the night before..."
- b) "I might use this slang later today to encourage my kid brother to tidy his bedroom."

2. say the name of a person you know who would be the most likely to say this. In what kind of situation?

"It's definitely the sort of thing my mum would say if she wanted me to clean up my flat."

3. others guess while you act it out without speaking, although you can make sounds!

[The student makes the performance area untidy by throwing some bits of paper on the floor, and turning over chairs, etc. – all the time grunting like a pig!]

4. others guess while you draw a picture to represent both forms – slang and dictionary.

[The student could draw a pig covered in mud sitting in an untidy living room.]

5. analyse the word(s). Is it at all possible to guess the meaning from the words – or completely impossible? Research the origin and background of this slang word/phrase.

[There is a definite link between an untidy room and the home of a pig. There are also different ways of comparing people and their behaviour to pigs and pig-like behaviour, e.g. "He's a greedy pig!" (= he is greedy) and "My brother is a fat pig!" (= he is fat and I don't like him) etc.]

6. replace the slang word or phrase in a sentence with the literal (boring) meaning. Compare the sentences. Which sounds better? Why?

Sentence with slang:

"Please clean your room, Kevin – it's a **pig-sty!**"

For more fun worksheets, games, and quizzes log onto www.englishbanana.com now!

Talk a Lot

Intermediate Book 1

Slang Practice Activities – Sample Answers

Sentence with literal (dictionary) meaning:

“Please clean your room, Kevin – it’s **untidy**.”

[If you say, “This room is untidy”, you factually describe the condition of the room. If you say, “This room is a pig-sty”, you do this too, but also make known your feelings of disapproval about the condition of the room, and imply that the person responsible is living like a pig. The slang phrase is therefore a more efficient form of communication, adding emphasis, feeling, and commentary to the bare bones of the message.]

7. think of another slang word or phrase that has the same or a similar meaning.

[Here are a couple of examples that have the same or a similar meaning to “a pig-sty” or “an untidy room”:]

- This room is a right state! (slang)
- This room looks like a bomb’s hit it! (idiom)

8. tell a story or devise a dialogue/role play by linking one slang word/phrase to the next.

Example 1 – Story

“George has always been a bit of a **skiver**. The other day he was **chillaxing** at a local **watering hole**, when he should have been at work. Anyway, the **boss** caught him and gave him some **bloody aggro**! It was **awesome**! You should’ve been there...”

[etc.]

Example 2 – Group Story

Student A: “The hotel restaurant was a **dump**...”

Student B: “...so we went to a lovely café for a **full English**...”

Student C: “...When the meals were ready, the waiter announced, ‘**Grub’s Up!**’ and we all started cheering...”

Student D: “...except Kevin, who called us **salad dodgers**, because we’d ordered so much food...”

[etc.]

Example 3 – Dialogue

Clara: How are the **punters** in room 408 doing?

Manager: Well, she seems to be enjoying herself, but he’s actually a **jumped up little man**.

Clara: Why? What happened?

Manager: Well, we nearly had some **argy bargy** in reception last night.

For more fun worksheets, games, and quizzes log onto www.englishbanana.com now!

Talk a Lot

Intermediate Book 1

Slang Practice Activities – Sample Answers

Clara: Why?
Manager: It was all because we cancelled the **kids eat free** special offer...
[etc.]

Topic Questions

Choose the correct slang word/phrase, and make a sentence about... a) yourself, b) a friend:

7. that is a person who you might want to avoid sitting next to on a long-haul flight.

Answer: a travel bore

Example sentences:

- a) When I got on the plane there weren't many seats left, so I ended up sitting next to **a complete travel bore** for eight and a half hours!
- b) Don't get Marvin talking about Japan. He won't stop. He's such **a travel bore!**

[etc.]

Sentence Blocks

*Note: the last two lines of each sentence block will vary. Below there are examples given for each sentence block, but students should think of their own way to get the negative forms in the last line. See the **Talk a Lot Elementary Handbook** and **Intermediate Supplement** for full instructions (available free from <http://www.englishbanana.com>).*

Answers

1. (Present Perfect Continuous) Kay's been washing dirty sheets in the hotel laundry all morning. / Where has Kay been washing dirty sheets all morning? / In the hotel laundry. / Has Kay been washing dirty sheets in the hotel laundry all morning? / Yes, she has. / Has Kay been washing dirty sheets in the hotel restaurant all morning? / No, she hasn't. Kay hasn't been washing dirty sheets in the hotel restaurant all morning.
2. (Past Perfect) The duty manager had asked Philip to wipe down the other bar, because it was filthy – but he completely forgot. / Why had the duty manager asked Philip to wipe down the other bar? / Because it was filthy. / Had the duty manager asked Philip to wipe down the other bar, because it was filthy? / Yes, he had. / Had the duty manager asked Philip to wipe down the other bar, because Philip had nothing to do? / No, he hadn't. The duty manager hadn't asked Philip to wipe down the other bar, because he had nothing to do.
3. (Future Perfect) The pizza restaurant will've opened by the time you get back from the beach. / Which restaurant will've opened by the time I get back from the beach? / The pizza restaurant. / Will the pizza restaurant have opened by the time I get back from the beach? / Yes, it will (have). / Will the fish restaurant have opened by the time I get back from the beach? / No, it won't (have). The fish restaurant won't have opened by the time you get back from the beach.
4. (Second Conditional) If I had more free time, I'd help you set up the room for the conference tomorrow. / What would you help me set up for the conference tomorrow, if you had more free time? / The room. / Would you help me set up the room for the conference tomorrow, if you had more free time? / Yes, I would. / Would you help me set up the interactive whiteboard for the conference tomorrow, if you had more free time? / No, I wouldn't. I wouldn't help you set up the interactive whiteboard for the conference tomorrow, if I had more free time.
5. (Third Conditional) If you'd booked before the nineteenth of February, you could've taken advantage of one of our promotions. / How could I have taken advantage of one of your promotions? / By booking before the nineteenth of February. / Could I have taken advantage of one of your promotions, if I'd booked before the nineteenth of February? / Yes, you could (have). / Could I have taken advantage of one of your promotions, if I'd booked after the nineteenth of February? / No, you couldn't (have). You couldn't've taken advantage of one of our promotions, if you'd booked after the nineteenth of February.
6. (Reported Speech) My parents said they'd received the VIP treatment at Hotel Degas, the last time they stayed there. / What kind of treatment did your parents say they'd received at Hotel Degas, the last time they stayed there? / The VIP treatment. / Did your parents say they'd received the VIP treatment at Hotel Degas, the last time they stayed there? / Yes, they did. / Did your parents say they'd received atrocious treatment at Hotel Degas, the last time they stayed there? / No, they didn't. My parents didn't say they'd received atrocious treatment at Hotel Degas, the last time they stayed there.
7. (Passive Voice) Around midnight a couple of lager louts were turfed out by Big John, one of the bouncers, for causing trouble. / Who was turfed out by Big John, one of the bouncers, for causing trouble around midnight? / A couple of lager louts were. / Were a couple of lager louts turfed out by Big John, one of the bouncers, for causing trouble around midnight? / Yes, they were. / Were a couple of dancers turfed out by Big John, one of the bouncers, for causing trouble around midnight? / No, they weren't. A couple of dancers weren't turfed out by Big John, one of the bouncers, for causing trouble around midnight.
8. (Imperative Form) Bring that enormous plate of sandwiches here, now! / When should I bring that enormous plate of sandwiches here? / Now! / Should I bring that enormous plate of sandwiches here now? / Yes, you should. / Should I bring that enormous plate of sandwiches here in a minute? / No, you shouldn't. You shouldn't bring that enormous plate of sandwiches here in a minute.

Sentence Block Extensions

For all of the sentence block starting sentences there are at least two different wh- question words that can be used to make sentence blocks. In one case eight different sentence blocks can be made from the same starting sentence when using different wh- question words. There isn't room here to print in full all 39 of the sentence block extensions

Talk a Lot

Hotel

Sentence Blocks

from this unit. Hopefully, the answers provided above will give you the teacher (or you the student) enough guidance to be able to make the sentence block extensions for this unit with confidence.

For example, let's look at the seventh starting sentence from this unit:

Around midnight a couple of lager louts were turfed out by Big John, one of the bouncers, for causing trouble.

On the handout the wh- question word given is "Who", but this starting sentence also works equally well with seven other wh- question words: "What" (x2), "What kind", "When", "Who" (2nd), "Why", and "How many":

What did Big John, one of the bouncers, do around midnight? / He turfed out a couple of lager louts for causing trouble. [Note: active form]

What happened around midnight? / A couple of lager louts were turfed out by Big John, one of the bouncers, for causing trouble.

What kind of louts were turfed out by Big John, one of the bouncers, for causing trouble around midnight? / Lager louts.

When were a couple of lager louts turfed out by Big John, one of the bouncers, for causing trouble? / Around midnight.

Who turfed out a couple of lager louts for causing trouble around midnight? / Big John, one of the bouncers, did. [Note: active form]

Why were a couple of lager louts turfed out by Big John, one of the bouncers, around midnight? / For causing trouble.

How many lager louts were turfed out by Big John, one of the bouncers, for causing trouble around midnight? / A couple.

The idea is easy. Change the wh- question word each time and you can make several completely different sentence blocks from the original starting sentence, simply by finding the relevant information for the answer in the starting sentence. As you can see below, sometimes the same wh- question word can be used more than once to make different sentence blocks.

You could cut out and give the section below to your students:

----- ✂ -----
Hotel

Make new sentence blocks from the starting sentences in this unit using different "wh-" question words:

	WHAT	WHERE	WHEN	WHO	WHY	WHICH	HOW	Total:
1.	what (x2) what kind			who			how long	5
2.	what (x2)			who (x2)		which		5
3.	what (x2)		when					3
4.	what (2 nd)			who		which		3
5.	what (x2)			who		which		4
6.	what (x2)	where	when	who whose				6
7.	what (x2) what kind		when	who (2 nd)	why		how many	7
8.	what (x2)	where		who		which	how soon	6
Total:								39

Sentence Blocks

-----✂-----

Sentence Blocks – Sentence Stress and Vowel Sounds

Task 1: Circle the content words in the following starting sentences. (For answer, see Task 2 below.)

Hotel

1. Kay's been washing dirty sheets in the hotel laundry all morning.
2. The duty manager had asked Philip to wipe down the other bar, because it was filthy – but he completely forgot.
3. The pizza restaurant will've opened by the time you get back from the beach.
4. If I had more free time, I'd help you set up the room for the conference tomorrow.
5. If you'd booked before the nineteenth of February, you could've taken advantage of one of our promotions.
6. My parents said they'd received the VIP treatment at Hotel Degas, the last time they stayed there.
7. Around midnight a couple of lager louts were turfed out by Big John, one of the bouncers, for causing trouble.
8. Bring that enormous plate of sandwiches here, now!

-----✂-----

Sentence Blocks – Sentence Stress and Vowel Sounds

Task 2: Underline the stressed syllable in each content word, shown in black. (For answer, see Task 3 below.)

Hotel

1. Kay's been washing dirty sheets in the hotel laundry all morning.
2. The duty manager had asked Philip to wipe down the other bar, because it was filthy – but he completely forgot.
3. The pizza restaurant will've opened by the time you get back from the beach.
4. If I had more free time, I'd help you set up the room for the conference tomorrow.
5. If you'd booked before the nineteenth of February, you could've taken advantage of one of our promotions.
6. My parents said they'd received the VIP treatment at Hotel Degas, the last time they stayed there.
7. Around midnight a couple of lager louts were turfed out by Big John, one of the bouncers, for causing trouble.
8. Bring that enormous plate of sandwiches here, now!

Hotel

Sentence Blocks

Sentence Blocks – Sentence Stress and Vowel Sounds

Task 3: Write the correct vowel sound above each stressed syllable (underlined). (For answer, see below.)

Hotel

1. Kay's been washing dirty sheets in the hotel laundry all morning.
2. The duty manager had asked Philip to wipe down the other bar, because it was filthy – but he completely forgot.
3. The pizza restaurant will've opened by the time you get back from the beach.
4. If I had more free time, I'd help you set up the room for the conference tomorrow.
5. If you'd booked before the nineteenth of February, you could've taken advantage of one of our promotions.
6. My parents said they'd received the VIP treatment at Hotel Degas, the last time they stayed there.
7. Around midnight a couple of lager louts were turfed out by Big John, one of the bouncers, for causing trouble.
8. Bring that enormous plate of sandwiches here, now!

-----✂-----

Sentence Blocks – Sentence Stress and Vowel Sounds

Each content word (shown in black) contains one syllable with a strong stress, which is underlined. Each stressed syllable has one vowel sound. The vowel sounds on stressed syllables are the most important sounds in the sentence. They make the “sound spine” of the sentence. To improve communication, try to get the sound spine right.

Hotel

1. Kay's been washing dirty sheets in the hotel laundry all morning.
/eɪ/ /ɒ/ /ɜː/ /iː/ /əʊ/ /ɔː/ /ɔː/ /ɔː/
2. The duty manager had asked Philip to wipe down the other bar, because it was filthy – but he completely forgot.
/uː/ /æ/ /ɑː/ /ɪ/ /aɪ/ /aʊ/ /ʌ/ /ɑː/ /ɪ/ /iː/ /ɒ/
3. The pizza restaurant will've opened by the time you get back from the beach.
/iː/ /e/ /əʊ/ /aɪ/ /e/ /æ/ /iː/
4. If I had more free time, I'd help you set up the room for the conference tomorrow.
/ɔː/ /iː/ /aɪ/ /e/ /e/ /ʌ/ /uː/ /ɒ/ /ɒ/
5. If you'd booked before the nineteenth of February, you could've taken advantage of one of our promotions.
/ʊ/ /aɪ/ /e/ /eɪ/ /ɑː/ /ʌ/ /əʊ/
6. My parents said they'd received the VIP treatment at Hotel Degas, the last time they stayed there.
/eə/ /e/ /iː/ /iː/ /iː/ /əʊ/ /æ/ /ɑː/ /aɪ/ /eɪ/
7. Around midnight a couple of lager louts were turfed out by Big John, one of the bouncers, for causing trouble.
/ɪ/ /ʌ/ /ɑː/ /aʊ/ /ɜː/ /aʊ/ /ɪ/ /ɒ/ /ʌ/ /aʊ/ /ɔː/ /ʌ/
8. Bring that enormous plate of sandwiches here, now!
/ɪ/ /ɔː/ /eɪ/ /æ/ /aʊ/

Discussion Words Question Sheet

8. Many English words contain one or more **silent letters** – letters which are part of the spelling of a word, but which are not pronounced. The aim of this activity is to demonstrate how so often the spelling of a word in English is different from how it sounds when spoken. Below are some good examples of words in this group of discussion words that have silent letters. The silent letters are shown in brackets. No doubt your students will be able to identify some more.

ar [r] ival, moral [e], bounce [r], continental bre [a] kfast, food hyg [i] ene, ma [i] d, swip [e] ca [r] d

9. Answers will vary.

10. There are many possible answers to this question; for example, “chef”, “receptionist”, “hotel”, and “welcome”, (among others) all contain the vowel sound /e/. Use the phonetic chart on p.18.6 of the **Talk a Lot Elementary Handbook** (available free from <http://www.englishbanana.com/talkalot>) and the phonetic spellings of the vocabulary words on the *Discussion Words (with the IPA)* handout to help your students put the words into sound groups.

Lesson Questions

1. a) maid. b) sauna. c) chef. d) waiter. e) lunch. f) sous chef. g) reservation. h) dinner. i) spa. j) morale. k) fitness suite.

2. complimentary newspaper.

3. swipe card.

4. i) a) Words and phrases which have a weak stress schwa sound /ə/ on the 1st syllable: facilities, **communication** skills, **complaint**, **morale**, **arrival**. b) Words and phrases which have a weak stress schwa sound /ə/ on the 2nd syllable: **welcome**, **bouncer**, **business** trip, **holiday** rep, **cancellation**, **catering** assistant, **dinner**, **fitness** suite, **vegetarian**, **reservation**, **restaurant**, **vacancy**, **waiter**, **bed and breakfast**, **sauna**. c) Words which have a weak stress schwa sound /ə/ on the 3rd syllable: **arrival**, **departure**, **housekeeper**, **receptionist**. d) Words and phrases which have a weak stress schwa sound /ə/ on the 4th syllable: **bed and breakfast**, **cancellation**, **catering** assistant, **complimentary** newspaper, **continental** breakfast, **reservation**. e) Phrases which have a weak stress schwa sound /ə/ on the 5th syllable: **communication** skills, **duty manager**. f) Phrases which have a weak stress schwa sound /ə/ on the 6th syllable: **catering** assistant, **continental** breakfast. g) Phrases which have a weak stress schwa sound /ə/ on the 8th syllable: **complimentary** newspaper. ii) 16 words and phrases don't have a weak stress schwa sound: chef, en-suite bathroom, eye contact, food hygiene, hotel, lunch, maid, refund, room service, spa, sous chef, swipe card, wake up call, business trip, hospitality.

5. a) The different jobs are: **receptionist** – welcomes guests; takes bookings; answers the phone. **housekeeper** – in charge of rooms and maids. **sous chef** – deputy to the head chef. **bouncer** – prevents unauthorised access to a nightclub; keeps order; throws out troublemakers. **waiter** – takes food and drinks orders; serves guests. **catering assistant** – works in the kitchen; prepares food; assists the chef(s). **maid** – prepares rooms for guests; makes beds; cleans bathrooms; brings fresh towels. **holiday rep** – meets guests at the airport/station; assists guests with enquiries; plans and leads activities for guests. **chef** – prepares food; leads team of sous chef(s) and catering assistants. **duty manager** – is responsible for the smooth running of the hotel during their shift; deals with enquiries and complaints from guests; leads the staff team; deals with staff issues; hires and fires staff. b) Answers will vary.

6. bed and breakfast.

7. vegetarian.

8. a) spa. b) fitness suite. c) en-suite bathroom. d) restaurant. e) sauna. f) hotel or bed and breakfast.

9. continental breakfast.

10. a) bouncer. b) food hygiene. c) lunch. d) morale. e) welcome. f) fitness suite. g) duty manager. h) hospitality. i) swipe card. j) room service. k) dinner. l) communication skills. m) refund.

Talk a Lot

Hotel – Which customers will walk out first?

Student A

Ask and answer questions to complete the gaps, and find out information about customers at four different tables in a restaurant at a four-star hotel in Brighton. It's 6.45pm and there is only one waiter working at the moment (due to food poisoning) so service is rather slow. Which party [group] do you think will walk out (i.e. leave before their food arrives) first? Why?

	Table 4	Table 10
No. in Party / Type of Party		14 / 2 mums + kids' birthday party
Location in Restaurant	behind a large pillar by the bins	
Length of Wait Since Ordering	40 minutes	30 minutes
Problems with Order		kids keep changing their minds
Specific Time Pressure	football practice starting at 7.30pm	
# Times Asked for Manager		
Personal Problem in Party		lack of bladder control (among kids)
Specific Threat Made to Waiter	to contact the Waiters' Guild	

	Table 16	Table 9
No. in Party / Type of Party	16 / an entire rugby team + mascot	
Location in Restaurant		near the toilets
Length of Wait Since Ordering	28 minutes & 19 seconds precisely	
Problems with Order		the chive and leek soup isn't available
Specific Time Pressure	pub quiz starting at 7.45pm	
# Times Asked for Manager	6	0
Personal Problem in Party		the discovery of tattoos revealing names of previous romantic partners
Specific Threat Made to Waiter		

Student B

Ask and answer questions to complete the gaps, and find out information about customers at four different tables in a restaurant at a four-star hotel in Brighton. It's 6.45pm and there is only one waiter working at the moment (due to food poisoning) so service is rather slow. Which party [group] do you think will walk out (i.e. leave before their food arrives) first? Why?

	Table 4	Table 10
No. in Party / Type of Party	4 / parents with two teenagers	
Location in Restaurant		beside the (very) loudspeakers
Length of Wait Since Ordering		
Problems with Order	not enough vegetarian options	
Specific Time Pressure		get kids fed and home to bed ASAP!
# Times Asked for Manager	2	4
Personal Problem in Party	parents are planning to separate	
Specific Threat Made to Waiter		to leave noisiest kid at the restaurant

	Table 16	Table 9
No. in Party / Type of Party		2 / a couple on their first date
Location in Restaurant	opposite the kids' birthday party	
Length of Wait Since Ordering		25 minutes
Problems with Order	not enough menus to go round	
Specific Time Pressure		car parking will run out at 7.32pm
# Times Asked for Manager		
Personal Problem in Party	they lost their match this afternoon	
Specific Threat Made to Waiter	to leave without paying	to not leave a tip and never return

Answers

Hotel – Which customers will walk out first?

Task: "Ask and answer questions to complete the gaps, and find out information about customers at four different tables in a restaurant at a four-star hotel in Brighton. It's 6.45pm and there is only one waiter working at the moment (due to food poisoning) so service is rather slow. Which party [group] do you think will walk out (i.e. leave before their food arrives) first? Why?"

	Table 4	Table 10
No. in Party / Type of Party	4 / parents with two teenagers	14 / 2 mums + kids' birthday party
Location in Restaurant	behind a large pillar by the bins	beside the (very) loudspeakers
Length of Wait Since Ordering	40 minutes	30 minutes
Problems with Order	not enough vegetarian options	kids keep changing their minds
Specific Time Pressure	football practice starting at 7.30pm	get kids fed and home to bed ASAP!
# Times Asked for Manager	2	4
Personal Problem in Party	parents are planning to separate	lack of bladder control (among kids)
Specific Threat Made to Waiter	to contact the Waiters' Guild	to leave noisiest kid at the restaurant

	Table 16	Table 9
No. in Party / Type of Party	16 / an entire rugby team + mascot	2 / a couple on their first date
Location in Restaurant	opposite the kids' birthday party	near the toilets
Length of Wait Since Ordering	28 minutes & 19 seconds precisely	25 minutes
Problems with Order	not enough menus to go round	the chive and leek soup isn't available
Specific Time Pressure	pub quiz starting at 7.45pm	car parking will run out at 7.32pm
# Times Asked for Manager	6	0
Personal Problem in Party	they lost their match this afternoon	the discovery of tattoos revealing names of previous romantic partners
Specific Threat Made to Waiter	to leave without paying	to not leave a tip and never return

"Which party do you think will walk out first? Why?" Answers will vary. When they have completed filling the gaps, students should discuss which party they think would walk out first, and why. They should produce appropriate reasons for their choices – why they would choose one party rather than another. For example: "I think the couple would walk out first, because they would have a massive row about the tattoos..." Or... "I think the mums with the kids would walk out first, because the mums would get so stressed by the loud music and the kids wetting themselves that they would have to leave..." [etc.]

Sample Questions

How many people are in the party at table _____?
 What type of party is there at table _____?
 Where is table _____ located?
 Where is / are _____ sitting?
 How long has table _____ been waiting since ordering?
 What problems has table _____ had with its order?
 What specific time pressure is table _____ under?
 Is table _____ under a specific time pressure?
 How many times has table _____ asked for the manager?
 What personal problem does the party at table _____ have?
 What specific threat has the party at table _____ made to the waiter?
 Has the party at table _____ made any specific threats to the waiter?

Sample Answers

 There is / there are _____.
 Table _____ is located _____.
 They're sitting _____.
 They've been waiting for _____ minutes since ordering.
 _____.
 _____.
 Yes, _____.
 Table _____ has asked for the manager _____ times.
 _____.
 They've threatened _____.
 Yes, they've threatened...

Talk a Lot

Hotel

Information Exchange

Examples

What type of party is there at table four?
Where is the rugby team sitting?

There are some parents with two teenagers.
They're sitting opposite the kids' birthday party. *or*
They're sitting at table sixteen, opposite the kids' birthday party.

What problems has table nine had with its order?

The chive and leek soup isn't available.

[etc.]

Extension 1:

You could try to encourage some comparative/superlative questions and sentences, for example:

Which table has the largest party?
Which party has been waiting the longest?

Table sixteen has the largest party.
The parents with two teenagers have been waiting the longest.

Who has made the most serious threat to the waiter?
Why?

[This is rather subjective, so answers may vary, e.g.]
The parents with two teenagers have made the most serious threat to the waiter, because their actions could possibly damage his career.

[etc.]

Extension 2:

You could encourage students to develop short role plays or dialogues using the situations. For example, each small group of students could choose one party to portray, with one student playing the waiter. Depending on the number of small groups you could try to enact all of the situations at once, with one (increasingly flustered / jumped-up / nonchalant, blasé, etc.) waiter moving between the tables.

[etc.]

Extension 3:

Students work in pairs. One student plays any of the diners above, while the other student plays a friend who wasn't present at the restaurant. The diner describes what happened to them at the restaurant, how they behaved, how they felt about it at the time, how they feel about it now, and whether they are planning to take any further action regarding what happened. Encourage students to use a variety of different past, present, and future verb forms.

A Cultural Visit (Original Text)

Line

1 Kathleen phoned her friend Samantha: "Yeah, we've just got back from Scarborough.
2 We took a little group of Italian students from the college on a cultural visit. [Pause]
3 No, with Amanda – one of my colleagues. A smart lass, but... well, oh gosh, does she
4 not stop talking about work! My goodness! We'd booked quite a nice hotel, but when
5 we arrived it was absolutely grotty inside, so we decided to try somewhere else.
6 [Pause] Fine, fine, but the first couple of days it was awful. Rained cats and dogs!
7 Day in and day out. Incessant, it was. [Pause] Well, we had the police out on the first
8 night. Emilio and Lucio went for a walk and didn't come back 'till after twelve. Said
9 they'd been out practising their speaking skills in a casino. Well... And we had a little
10 romance, you know. Evelina and Rosa'd been fighting over Paolo all week, and on
11 Friday night at the disco Rosa finally won out! Poor lad. And on the second night I got
12 a call from Dennis. He said he'd just been hit by a bus! By a bus! No, he was alright.
13 It was a miracle, I think. But the bus was slightly damaged. And when I got home I
14 found Rob mopping the floor – the floor and everything soaking wet. The freezer'd
15 been quietly defrosting all day. Yeah, when he was out at work. Everything was
16 ruined. So, an eventful week! [Pause] No, I won't. No, no, I won't go anywhere with
17 Amanda again. No, we just didn't get on. The whole week she never stopped
18 lecturing me about phrasal verbs. Nightmare, it was!"

A Cultural Visit (What's the Question?)

1. To Scarborough.
2. No, everything was ruined.
3. Yes, it rained cats and dogs.
4. Rob.
5. Because the first one was absolutely grotty inside
6. Her friend Samantha.
7. Emilio and Lucio.
8. On Friday night.
9. Italian.
10. For a cultural visit.
11. Awful.
12. Because two students were missing.
13. One of Kathleen's colleagues from work.
14. Because she kept lecturing her about phrasal verbs.
15. Because Dennis wasn't harmed.
16. Slightly damaged.
17. When Rob was out at work.
18. Emilio.
19. After twelve.
20. Rosa.
21. Because the freezer had defrosted.
22. Evelina and Rosa.
23. Phrasal verbs.
24. Mopping the kitchen floor.
25. Dennis did.
26. To practise their speaking skills.
27. On the second night of the trip.
28. At the disco.
29. No, they didn't get on.
30. All day.

A Cultural Visit (True, False, or Unknown?)

1. They had some bad weather during the trip.
2. Amanda hadn't wanted to go to Scarborough.
3. They lost a lot of expensive food when the freezer defrosted.
4. Evelina and Paolo didn't get together at the disco on Saturday night.
5. Dennis was cycling home, when he was hit by the bus.
6. Amanda works with Kathleen.
7. Emilio and Paolo went to a casino.
8. Dennis was at work while the freezer was defrosting.
9. Kathleen went to Scarborough with some students and a colleague.
10. Evelina and Rosa often fight over the same guy.
11. The freezer defrosted during the night and everything was spoiled.
12. Samantha and Amanda are good friends.
13. Paolo had two admirers.
14. Kathleen and Samantha have known each other for years.
15. One of Rob's favourite pastimes is mopping the floor.
16. Amanda got up late each day and ate breakfast alone.
17. Amanda isn't very clever.
18. When Kathleen got home, Rob was out.
19. A small group of Italian students went on the trip.
20. It had been Emilio's idea to go to the casino.
21. The hotel they had booked wasn't suitable.
22. Amanda had a lot to say about phrasal verbs.
23. The bus was badly damaged.
24. The police came on the first night because of some missing students.
25. Amanda went to Italy with some students and a colleague.
26. The police cautioned the two students for going to the casino.
27. Rosa and Paolo got together at the disco.
28. Dennis was involved in a road accident.
29. The whole trip was a complete disaster.
30. Kathleen hates phrasal verbs.

Glossary of New Words

Here are some words and phrases from the text that may be unfamiliar to students. You could either pre-teach them, or encourage your students to find translations in a bilingual dictionary and write them in the spaces below. Stressed syllables are underlined.

Line:	Unfamiliar English:	Explanation:	Translation:
1	<u>yeah</u>	(sl) yes	
1	<u>Scarborough</u>	(prop n) A small seaside town on the north-east coast of England, which is a haven for tourists	
3	<u>lass</u>	(sl) northern slang for "girl". Kathleen comes from north Derbyshire, a county towards the north of England	
3	<u>gosh</u>	(excl) an expression of frustration or surprise; polite form of "God!"	
3	<u>does she not stop talking...</u>	(irreg) not a question form, but a rhetorical question (a question that does not require an answer). Kathleen uses inversion to emphasise her point. It gets to the stressed word more quickly. See also: line 7: "Incessant, it was!" / line 18: "Nightmare, it was!" / and line 13: "It was a miracle, I think."	
4	My <u>goodness!</u>	(excl) As "gosh", above	
5	<u>grotty</u>	(adj) dirty, unpleasant, e.g. esp. a place. Also, when you feel sick: "I feel grotty today."	
6	<u>Rained cats and dogs!</u>	(id) It rained heavily	
7	<u>Day in and day out.</u>	(phr) All day (for several days)	
7	<u>incessant</u>	(adj) continuous, without a pause	
7	we <u>had</u> the <u>police</u> out...	(irreg) the police were called and came to see us	
8	'till	(abbr) until	
8	<u>Said</u> they'd been <u>out</u> ...	(irreg) "They said they'd been out." By not saying the pronoun, Kathleen speeds up her tale	
9	<u>Well...</u>	(dm) Kathleen pauses, before embarking on a different train of thought; or she could be about to comment on something her friend has said, and then decides not to bother	
9	And we <u>had</u> ...	(irreg) It is not considered good grammar to begin a sentence with "and", but Kathleen is in a hurry to tell her friend what happened during the trip	
10	you <u>know</u>	(dm) Discourse marker. This phrase has no meaning, but allows Kathleen to pause before continuing the next anecdote	
10	<u>fighting</u> over <u>Paolo</u> ...	(phr v) to fight over sby = to be rivals for sby's affection; to both want to date the same person	
11	<u>Rosa</u> <u>finally</u> <u>won</u> <u>out</u>	(phr v) to win out = to be successful; to beat sby at sth; to win	
11	<u>Poor</u> <u>lad</u>	(sl) "lad" is northern slang for "boy". Kathleen talks about Paolo as a boy, rather than a young adult, probably because she is more than twenty years older than him	
12	By a <u>bus!</u>	(rep) Kathleen repeats this phrase to emphasise the unlikely event; or it could be that her friend misheard her, and she needs to repeat this phrase, which is so important to her tale	
13	It was a <u>miracle</u> ...	(exagg) exaggeration – Kathleen means that Dennis had been very <i>lucky</i> , not that a literal miracle had happened	
14	<u>soaking</u> <u>wet</u>	(id) very wet	
14	The <u>freezer</u> 'd been <u>quietly</u> <u>defrosting</u> <u>all</u> <u>day</u> ...	(id) The freezer had been defrosting all day without anybody noticing	
16	an <u>eventful</u> <u>week!</u>	(und) understatement – it had been not only an eventful week, but a week full of rather unexpected events	
17	we <u>just</u> <u>didn't</u> <u>get</u> <u>on</u>	(phr v) to get on with sby = to enjoy a good relationship with sby	

Talk a Lot

Hotel

Multi-Purpose Text

Line:	Unfamiliar English:	Explanation:	Translation:
17	she <u>never stopped</u> ...	(irreg) she didn't stop	
17	she <u>never stopped lecturing</u> me...	(exagg) Kathleen means that Amanda often spoke to her in a patronising way about phrasal verbs, rather than that she did it without a break for the whole trip. To lecture sby is to talk to them in a condescending way, without listening to their opinion, rather than engaging with them in a normal, equal conversation	
18	<u>Nightmare</u> , it was!	(exagg) it was a very difficult or unpleasant situation, rather than something as literally frightening as a nightmare	

(adj)	adjective	(id)	idiom	(sby)	somebody
(abbr)	abbreviation	(irreg)	irregular grammar	(sl)	slang
(dm)	discourse marker	(phr)	phrase	(sth)	something
(esp.)	especially	(phr v)	phrasal verb	(und)	understatement
(exagg)	exaggeration	(prop n)	proper noun		
(excl)	exclamation	(rep)	repetition		

Extension 1:

Encourage students to look at some of the verb forms used in the text, for example the several uses of Past Perfect and Past Perfect Continuous:

We'd booked...
Said they'd been out...

Evelina and Rosa'd been fighting...
The freezer'd been quietly defrosting...

Notice the use of contracted forms, even with proper nouns ("Rosa") and objects ("freezer"), which is very common in spoken English.

Extension 2:

Think about the times when Kathleen pauses and answers questions from her friend. Imagine what those questions could have been:

[sample answers:]

Line 2: "Did you go with [e.g.] Theresa?"
 Line 6: "What was the weather like?"
 Line 7: "How did it go?" / "What happened?"
 Line 12: "Was he hurt / injured?"
 Line 15: "When Rob was at work?"
 Line 16: "Will you go anywhere with Amanda in the future?"

Extension 3:

Ask students to count the number of characters in the text (there are 10 named characters), then to create a role play or dialogue, using a few of the characters. Or, students could work on their own and create a monologue using one character from the text, where they talk about what happened from their point of view.

Answers

A Cultural Visit (Guess the Function Words)

See Original Text for answer.

Multi-Purpose Text

A Cultural Visit (What's the Question?)

Answers will vary. Suggested answers:

1. Where did Kathleen take her students?
2. Did Kathleen and Rob manage to save any food from their freezer?
3. Did it rain heavily during the trip?
4. Who did Kathleen meet when she got home?
5. Why did they go to a different hotel?
6. Who was Kathleen talking to?
7. Which students went to the casino?
8. When was the disco?
9. What nationality were the students that Kathleen took on the trip?
10. Why did Kathleen take a group of students to Scarborough?
11. How was the weather on the first couple of days?
12. Why did the Police come on the first night?
13. Who was Amanda?
14. Why didn't Kathleen get on with Amanda during the trip?
15. Why did Kathleen say there'd been a miracle?
16. How badly damaged was the bus after the accident?
17. When had the freezer been defrosting?
18. Who did Lucio go to the casino with?
19. What time did Emilio and Lucio get back from their night out?
20. Which of the girls did Paolo choose?
21. Why was Rob mopping the floor?
22. Which students were fighting over Paolo?
23. What did Amanda keep lecturing Kathleen about?
24. What was Rob doing when Kathleen got home?
25. Who got hit by a bus?
26. For what reason did Emilio and Lucio claim to have been to the casino?
27. When did Dennis get hit by a bus?
28. Where did Rosa finally win Paolo's heart?
29. Did Kathleen enjoy spending time with Amanda?
30. How long had the freezer been defrosting?

A Cultural Visit (True, False, or Unknown?)

(*T = True, F = False, U = Unknown*)

Role Play with Non-Literal English

1. Practise the role play with a partner. Find and underline **nine** examples of non-literal English* and match each one to a category below:

1. nicknames	2. exaggeration	3. idioms
4. discourse markers	5. phrasal verbs	6. sayings / proverbs
7. similes	8. swearing	9. understatement

* For more information about each category, please see pp.36-38.

----- ✂ -----
Tina works in a hotel as a receptionist. Her friend Carrie phones her...

Carrie: Hi Tina, how's it going?
Tina: I'm fine? You?
Carrie: Fine. Are you still coming to the party tomorrow night?
Tina: I can't. I've got to work. The duty manager's changed my shifts.
Carrie: What? That's bloody stupid! It's JT's birthday!
Tina: I know.
Carrie: That's absolutely the worst thing that could've possibly happened!
Tina: And I'm really sorry, but I can't go out on Friday night either.
Carrie: That's great.
Tina: I'm sorry.

Pause

Carrie: Can't you, y'know, try and sort something out with your manager?
Tina: I'm too scared of him. Today he was walking around like a bear with a sore head.
Carrie: Right, but maybe you can speak to him...?
Tina: He told us today that if we don't get more customers the hotel could close next month.
Carrie: Really? It never rains but it pours!

----- ✂ -----
2. Replace each example of non-literal English with one of the literal words or phrases below. Practise the role play using only literal English, then using non-literal English. What differences do you notice? Which version sounds more natural? Why? Which do you prefer?

a) that is not very good	b) really [intensifier]	c) arrange
d) behaving in an angry way	e) how are you?	f) that is disappointing
g) pause	h) John Timpson	i) a lot of bad things seem to be happening at once

Hotel

Role Play with Non-Literal English

Answers:

Feature of Non-Literal English:	Example in this Text:	Literal Translation:
1. nicknames	JT	h) John Timpson
2. exaggeration	That's absolutely the worst thing that could've possibly happened!	a) that is not very good
3. idioms	how's it going?	e) how are you?
4. discourse markers	y'know	g) pause
5. phrasal verbs	sort something out [to sort out]	c) arrange
6. sayings / proverbs	It never rains but it pours!	i) a lot of bad things seem to be happening at once
7. similes	walking around like a bear with a sore head	d) behaving in an angry way
8. swearing	bloody	b) really [intensifier]
9. understatement	That's great.	f) that is disappointing

Note: in general, using non-literal English will help students' spoken English to sound more natural, because native speakers of English often favour non-literal forms – such as idioms, phrasal verbs, and slang – to the more literal, “dictionary definition” words and phrases that they replace.

Talk a Lot

Hotel

Features of Non-Literal English – Part 1

1. NICKNAMES

A nickname is a name for somebody (or something) that is different to the actual name, being usually either a shortened version, or a reference to appearance or character.

Example:

[Your friend Thomas phones you. You say:]

“Hi, Tommo!” [The nickname is based on the person’s given name]

[Your obese friend John phones you. You say:]

“Hi, Big John!” [The nickname is based on the physical characteristics of the person]

[Your friend who is into technology phones you. You say:]

“Hi Brains!” [The nickname is based on a personality trait, or the hobbies or interests of the person]

When:

When you want to emphasise that you are close enough to somebody to be able to adapt their name in an informal way. Also when you want to show that you belong to a particular group because everybody uses the same nicknames, while people outside the group don’t know the nicknames.

2. EXAGGERATION

An exaggeration is a statement that something is better than, worse than, more than, etc. when compared to the truth, which is more mundane.

Example:

“My feet are killing me!” [This is an idiom that means you feel tired and want to sit down. Your feet hurt, perhaps because you have been standing up for a long period of time. Your feet are not *literally* killing you!]

When:

When you want your speech to be more imaginative and interesting than normal speech. Perhaps you want people to notice you or you want to make a point in a strong way, or you are doing it to get a laugh, by making your listener imagine a humorous image.

3. IDIOMS

An idiom is a phrase that has a fixed meaning which cannot usually be understood by studying the literal meaning of each word in the phrase.

Example:

“Does dad really think Paul is having an affair with Mandy?”

“No, of course not. He was only *pulling your leg*.” [He was only *joking*, rather than physically pulling somebody’s leg.]

When:

In everyday speech, and in most sentences – unfortunately for learners of English! English idioms get so ingrained in the consciousness and speech patterns of the average native speaker, from before birth, that to them it feels far more *natural* to use idioms than literal language. Plus, idiomatic phrases are far more expressive, colourful, inventive, creative, and *fun* than their literal counterparts.

For more fun worksheets, games, and quizzes log onto www.englishbanana.com now!

Talk a Lot

Hotel

4. DISCOURSE MARKERS

A discourse marker is a short word, phrase, or sound that acts as a slight pause in speech, when the speaker needs time to think of what to say next, but doesn't want to give up their turn to speak.

Example:

"How do you feel about leaving college next week?"

"I think it's, *like*, gonna be, *you know, like, uh...* really good." [The words in italics have no meaning. They act as a form of punctuation in the sentence.]

When:

When you want to pause while talking to think of the next word, or where to go next with the conversation, but not let anybody else start talking. If you do this a lot, it may turn into a habit and you will use speech markers like punctuation in a written sentence, e.g. *like* = a comma [,]. Young people often use discourse markers. They are a sign of the speaker's lack of confidence in the value of what they are saying, because by pausing regularly they are able to closely monitor the reaction of their listener(s) and perhaps amend what they say in light of this feedback.

Also known as: *speech markers*.

5. PHRASAL VERBS

A phrasal verb is a verb phrase that consists of a verb plus preposition or adverb (or both), which has a meaning that may not be obvious from knowing the dictionary meaning of each individual word in the phrase.

Example:

"Things are *looking up!*" [My life is generally improving.]

When:

In spoken English phrasal verbs are more common because they are less formal than longer single verbs. Like idioms, we learn phrasal verbs from before birth; the simple one-syllable verbs that are used in phrasal verbs (with a preposition or adverb, or both) are familiar to young children and easy to remember. The prepositions and adverbs (in, out, up, down, on, off, back, etc.) bring a vibrant sense of action and movement to our speech, making it more interesting than if we used only standard verbs. With over 7,000 phrasal verbs in English, phrasal verbs create many shades of meaning, making English a rich and expressive language. It also allows us to quickly invent new verbs (e.g. the recent slang expression "Bog off!" which means "Go away!") without having to find verbs from Latin or other foreign languages, or inventing new verbs from scratch.

6. SAYINGS / PROVERBS

A saying or proverb is a well known phrase or sentence that includes wisdom from literature or folklore, and as such is generally accepted to be trustworthy, having been proved wise time after time by succeeding generations.

Example:

"Do you think it'll rain tomorrow?"

"Look out of the window. *Red sky at night, shepherd's delight.*" [Because there is a red sunset at the moment, according to the saying the weather will be fine tomorrow.]

When:

When you want to add weight to your opinions by citing received opinion that is generally considered, by the majority of people, to be wise and trustworthy.

For more fun worksheets, games, and quizzes log onto www.englishbanana.com now!

Talk a Lot

Hotel

7. SIMILES

A simile is a statement with “like” or “as” that compares somebody or something to something else, especially when it cannot be literally true.

Example:

“Why do you want to get a divorce?”

“Because *you are like a weight around my neck*. I can’t stay with you!” [Literally means: “I feel trapped by you; you are putting too much pressure on me...”]

When:

When you want to emphasise something, and make the other person think about the meaning of what you’re saying in a different, non-obvious way. When you want to appear poetic or romantic, e.g. “Your teeth are like stars!” (You can make a classic English joke if you continue with “They come out at night!”)

8. SWEARING

Swearing is an activity that uses swear words – words or phrases that are considered by most people to be impolite or offensive – and which may be taboo (forbidden on grounds of taste or offense) in certain contexts.

Example:

“My revision was a bloody waste of time.” [The swear word “bloody” acts as an intensifier, to emphasise the noun phrase that follows: “waste of time”. The speaker’s aim is to express their displeasure at having wasted their time – more strongly than it would have been expressed without using “bloody”.

When:

When you want to emphasise a noun (e.g. “A bloody car reversed and hit my bike!”) or an adjective (e.g. “That film was bloody brilliant!”). Or, to insult somebody, e.g. “You are a total arse.” (“arse” is slang for “bottom”). Or, to refer to taboo parts of the body (e.g. “knob” = “penis”), and bodily functions (“shit” = “excrement”). Or, when you want to shock somebody. However, if you use swear words a lot, people around you might become immune to them, and their power to shock will be greatly reduced. If everybody used swear words all the time, they wouldn’t be swear words at all, but normal everyday words and nobody would be offended by them. Their infrequency is what keeps them forbidden.

9. UNDERSTATEMENT

Understatement is a technique in spoken English that the speaker uses to deliberately downplay something by saying that it is/was less great or less important than it actually is/was. Understatement is the opposite of exaggeration.

Example:

[At work your boss spends twenty minutes shouting at the whole team, and then storms out of the office, slamming the door behind them. You are all stunned. Somebody says:]

“Well that was nice!”

[Everybody laughs, because the nervous tension that was built up is released.]

When:

When you want to draw attention to the absurdity or over-seriousness of something or somebody, by reducing its or their significance.

Talk a Lot

Hotel – English Idioms Activities

Meaning and Context

1. Check for new vocabulary. Are there any idioms that you know already? Explain each meaning and give an example sentence or situation in which you could use it. Find the meaning of the rest by using a dictionary, then match the meaning cards with the idiom cards.
2. Do any of the idioms exist in your first language? Translate each idiom.
3. Divide the idioms into four categories: **facilities**, **guests**, **staff**, and **food and drink**.
4. Take some cards. Describe the idiom on a card without saying it.
5. How many idioms can you remember when they are all turned over?

Practice Activities

Choose a random idiom (or one that particularly interests you) and...

1. think of a time or situation in your life when you... a) could have said this idiom (past), and b) might say this idiom (future).
2. say the name of a person you know who would be the most likely to say this. In what kind of situation?
3. others guess while you act it out without speaking, although you can make sounds!
4. others guess while you draw a picture to represent both forms – idiomatic and literal.
5. analyse the words. Is it at all possible to guess the meaning from the words – or completely impossible? Research the origin and background of this idiom.
6. replace the idiom in a sentence with the literal (boring) meaning. Compare the sentences. Which sounds better? Why?
7. think of another idiom or saying that has the same or a similar meaning.
8. tell a story or devise a dialogue/role play by linking one idiom to the next.

Topic Questions

Choose the correct idiom, and make a sentence about... a) yourself, b) a friend:

1. that describes feeling the consequences of over-indulgence, e.g. after a night out.
2. that you could use when talking about staff who tried extra hard to please you.
3. that suggests a romantic meal, perhaps on Valentine's Day.
4. that you could use to complain about not getting what you want *when* you want it.
5. that an irritable guest might use when speaking to a manager.
6. that you could say when you've eaten enough.
7. that you might see on a sign at an all-night supermarket.
8. that could be used when you meet a friend unexpectedly.
9. that is used by people who prefer to be in a familiar environment.
10. that you could use to tell people to be punctual.
11. that you could use to describe a hen night, stag night, or pub crawl.
12. that shows that you have lost money because of somebody's dishonest actions.

Talk a Lot

Hotel – English Phrasal Verbs Activities

This is a handy table that you could use to make a quick quiz for students after they have learned the meanings, e.g. “Which phrasal verb is related to suitcases?” Or, “Which action could a guest do at a restaurant?” Or, guess the preposition linking phrasal verb and place, or item, e.g. “We booked in [at]our hotel.” Or, encourage students to make sentences (positive, negative, and question forms) by linking content words together using function words, e.g. “The **hotel worker** was **gulping down** his **lunch** in the **staff canteen**.” They could also add a time phrase at the end, e.g. “...in the morning.” etc.

#	subject (person)	p/verb*	item e.g.	place e.g.
1.	I, you, he, she, it, we, they, etc.	book in	with our order number	at our hotel / at the airport
2.		wait on	a customer / a guest	in a restaurant
3.		splash out	a luxury holiday	at the travel agent's
4.		eat out	a meal	at a restaurant
5.		lug around	a heavy suitcase	from the car to the lobby
6.		tidy up	a messy room	upstairs / on the third floor
7.		skive off	work or school	at home / in the park
8.		sign up	for a conference	at reception / online
9.		chill out	with friends	on the beach
10.		throw up	in the sink	at my parents' house
11.	a person or thing, e.g. the hotel worker, a guest, Tom the bouncer, a newlywed couple, my brother, our plans, etc	pencil in	the diary / the planner	at reception / in the office
12.		pig out	on pizza and crisps	in the living room / upstairs
13.		turf out	of a nightclub	through the door
14.		gulp down	their lunch / a drink	in the staff canteen
15.		set up	the digital projector	in the conference room
16.		fork out	for my train fare	at the ticket office
17.		rip off	for the meeting	at the conference centre
18.		work out	the night's takings	at the bar
19.		look after	our valuables	in the safe
20.		check out	of their hotel	at the reception desk

* Choose any verb form, e.g. Present Perfect Continuous, Third Conditional, Future Perfect, etc.

Topic Questions

Choose the correct phrasal verb, and make a sentence about... a) yourself, b) a friend:

- making an expensive purchase.
- telling somebody to make their room less messy.
- going to a restaurant or fast food place.
- taking the day off work without permission.
- eating a lot in a short space of time.
- taking some heavy suitcases, bags, or items from one place to another.
- charging customers double the normal price for items in the minibar.
- making a room ready for a conference.
- paying my son's bills when I would rather he got a job and paid them himself.
- getting thrown out of a nightclub.
- what happens when I first arrive at a hotel, bed and breakfast, or guest house.
- lying by the pool while the sun kisses my skin and I sip a strawberry smoothie.

Hotel – English Slang Words and Phrases Activities

Meaning and Context

1. Are there any words/phrases that you know already? Explain each meaning and give an example sentence or situation in which you might hear it. Find the meaning of the rest by using a dictionary, then match the meaning cards with the slang cards.
2. Who would you be speaking to when you use these words and phrases? Are there any words or phrases that you wouldn't use with certain people? Explain why not.
3. Do any of the slang words and phrases exist in your first language? Translate them.
4. Divide the slang into four categories: **facilities**, **guests**, **staff**, and **food and drink**.
5. Take some cards. Describe the slang word or phrase on a card without saying it.
6. How many slang words/phrases can you remember when they are all turned over?

Practice Activities

Choose a random slang word or phrase (or one that particularly interests you) and...

1. think of a time or situation in your life when you... a) could have used this slang (past), and b) might use this slang (future).
2. say the name of a person you know who would be the most likely to say this. In what kind of situation?
3. others guess while you act it out without speaking, although you can make sounds!
4. others guess while you draw a picture to represent both forms – slang and dictionary.
5. analyse the word(s). Is it at all possible to guess the meaning from the words – or completely impossible? Research the origin and background of this slang word/phrase.
6. replace the slang word or phrase in a sentence with the literal (boring) meaning. Compare the sentences. Which sounds better? Why?
7. think of another slang word or phrase that has the same or a similar meaning.
8. tell a story or devise a dialogue/role play by linking one slang word/phrase to the next.

Topic Questions

Choose the correct slang word/phrase, and make a sentence about... a) yourself, b) a friend:

1. that you might use with a close colleague, but not with an important client.
2. that you could use to talk about a person who wasn't working as hard as you.
3. that you might hear in an English pub at around quarter to eleven at night.
4. that you might hear in a *greasy spoon*¹ café to indicate that your meal is ready.
5. that you could use as a classic example of Great British cuisine.
6. that somebody might call you if they thought you were *getting too big for your boots*, or *too full of yourself*².
7. that is a person who you might want to avoid sitting next to on a long-haul flight.

¹ a cheap, low-quality café or restaurant

² both phrases are idioms that mean "overly self-important"

|------------------------------------|------------------------------------|
| 1. To be as sick as a dog. | 7. To be open twenty-four seven. |
| 2. To bend over backwards for sby. | 8. "It's a small world, isn't it?" |
| 3. To wine and dine sby. | 9. "There's no place like home!" |
| 4. To wait for an eternity. | 10. At [time] sharp. |
| 5. "The customer is always right." | 11. To paint the town red. |
| 6. To be absolutely stuffed. | 12. To be taken for a ride. |

English Phrasal Verbs – Pronunciation and Linking

Phrasal Verb:	What happens:	IPA Spelling:	Phrasal Verb:	What happens:	IPA Spelling:
1. book in	L: (cv) changes to (vc)	/'bʊ'kɪn/	11. pencil in	L: (cv) changes to (vc)	/'pen.səl'ɪn/
2. wait on	L: (cv) changes to (vc)	/'weɪ'tɒn/	12. pig out	L: (cv) changes to (vc)	/'pi'gɑʊt/
3. splash out	L: (cv) changes to (vc)	/'splæ'ʃɑʊt/	13. turf out	L: (cv) changes to (vc)	/'tɜ:'fɑʊt/
4. eat out	L: (cv) changes to (vc)	/'i:'tɑʊt/	14. gulp down	A: (cc) remains (cc)*	/'gʌwp'daʊn/
5. lug around	L: (cv) changes to (vc)	/'lʌ.gə'raʊnd/	15. set up	L: (cv) changes to (vc)	/'se'tʌp/
6. tidy up	I: (vv) changes to (vc)	/'taɪ.dɪ'jʌp/	16. fork out	L: (cv) changes to (vc)	/'fɔ:'kɑʊt/
7. skive off	L: (cv) changes to (vc)	/'skaɪ'vɒf/	17. rip off	L: (cv) changes to (vc)	/'rɪ'pɒf/
8. sign up	L: (cv) changes to (vc)	/'saɪ'nʌp/	18. work out	L: (cv) changes to (vc)	/'wɜ:'kɑʊt/
9. chill out	L: (cv) changes to (vc)	/'tʃɪ'lɑʊt/	19. look after	L: (cv) changes to (vc)	/'lʊ'kɑ:ftə/
10. throw up	I: (vv) changes to (vc)	/'θrəʊ'wʌp/	20. check out	L: (cv) changes to (vc)	/'tʃe'kɑʊt/

Features of Connected Speech: L = Linking I = Intrusion A = Assimilation

Connecting sounds: (cc) = consonant sound to consonant sound (cv) = consonant sound to vowel sound
(vc) = vowel sound to consonant sound (vv) = vowel sound to vowel sound.

* The word connection remains (cc), but assimilation is used to change the /l/ sound in "gulp" to /w/ which is easier to say with /p/ than /l/ was, because the tongue is no longer involved.

English Phrasal Verbs – Matching Game

1. After we **booked in**, Harold took our cases up to our room.
2. I don't like **waiting on** customers who can't decide what to order.
3. We **splashed out** on a week in a hotel in the south of France.

Problems

Sentence Blocks

*Note: the last two lines of each sentence block will vary. Below there are examples given for each sentence block, but students should think of their own way to get the negative forms in the last line. See the **Talk a Lot Elementary Handbook** and **Intermediate Supplement** for full instructions (available free from <http://www.englishbanana.com>).*

Answers

1. (Present Perfect Continuous) Polly's been considering getting a divorce from Toby for quite some time. / How long has Polly been considering getting a divorce from Toby? / For quite some time. / Has Polly been considering getting a divorce from Toby for quite some time? / Yes, she has. / Has Polly been considering getting a divorce from Toby for a few hours? / No, she hasn't. Polly hasn't been considering getting a divorce from Toby for a few hours.
2. (Past Perfect) Kev's girlfriend had expected to get a little gift for cleaning Jackie's kitchen. / Whose girlfriend had expected to get a little gift for cleaning Jackie's kitchen? / Kev's girlfriend had. / Had Kev's girlfriend expected to get a little gift for cleaning Jackie's kitchen? / Yes, she had. / Had Robin's girlfriend expected to get a little gift for cleaning Jackie's kitchen? / No, she hadn't. Robin's girlfriend hadn't expected to get a little gift for cleaning Jackie's kitchen.
3. (Future Perfect) Your acne will've probably cleared up before the school prom. / When will my acne have probably cleared up (by)? / Before the school prom. / Will my acne have probably cleared up before the school prom? / Yes, it will (have). / Will my acne have probably cleared up by tomorrow morning? / No, it won't (have). Your acne probably won't have cleared up by tomorrow morning.
4. (Second Conditional) If Becs found out about William's bit on the side, she'd give him the boot in no time. / Who would give William the boot in no time, if she found out about his bit on the side? / Becs would. / Would Becs give William the boot in no time, if she found out about his bit on the side? / Yes, she would. / Would Sherri give William the boot in no time, if she found out about his bit on the side? / No, she wouldn't. Sherri wouldn't give William the boot in no time, if she found out about his bit on the side.
5. (Third Conditional) If you'd dropped out of high school, you might've ended up on the rock'n'roll. / Where might I have ended up, if I'd dropped out of high school? / On the rock'n'roll. / Might I have ended up on the rock'n'roll, if I'd dropped out of high school? / Yes, you might (have). / Might I have ended up in a really good job, if I'd dropped out of high school? / No, you might not (have). You might not have ended up in a really good job, if you'd dropped out of high school.
6. (Reported Speech) At dinner last Friday, Kyle told Delia that he'd given up gambling. / What did Kyle tell Delia that he'd given up, at dinner last Friday? / Gambling. / Did Kyle tell Delia that he'd given up gambling, at dinner last Friday? / Yes, he did. / Did Kyle tell Delia that he'd given up alcohol, at dinner last Friday? / No, he didn't. Kyle didn't tell Delia that he'd given up alcohol, at dinner last Friday.
7. (Passive Voice) Both of the red bills were paid immediately, because they were already overdue. / Why were both of the red bills paid immediately? / Because they were already overdue. / Were both of the red bills paid immediately, because they were already overdue? / Yes, they were. / Were both of the red bills paid immediately, because you enjoy paying red bills? / No, they weren't. Both of the red bills weren't paid immediately because I enjoy paying red bills.
8. (Imperative Form) Lose weight fast with the latest *E-Z-Loss™* formula! / How could I lose weight fast? / With the latest *E-Z-Loss™* formula! / Could I lose weight fast with the latest *E-Z-Loss™* formula? / Yes, you could. / Could I lose weight fast with a rival weight-loss formula? / No, you couldn't. You couldn't lose weight fast with a rival weight-loss formula.

Sentence Block Extensions

For all of the sentence block starting sentences there are at least two different *wh-* question words that can be used to make sentence blocks. In one case seven different sentence blocks can be made from the same starting sentence when using different *wh-* question words. There isn't room here to print in full all 33 of the sentence block extensions from this unit. Hopefully, the answers provided above will give you the teacher (or you the student) enough guidance to be able to make the sentence block extensions for this unit with confidence.

For example, let's look at the sixth starting sentence from this unit:

At dinner last Friday, Kyle told Delia that he'd given up gambling.

For more fun worksheets, games, and quizzes log onto www.englishbanana.com now!

Talk a Lot

Problems

Sentence Blocks

On the handout the wh- question word given is "What", but this starting sentence also works equally well with six other wh- question words: "What" (x2), "Where", "When", and "Who" (x2):

What did Kyle tell Delia at dinner last Friday? / That he'd given up gambling.

What did Kyle do at dinner last Friday? / Tell Delia that he'd given up gambling.

Where did Kyle tell Delia that he'd given up gambling last Friday? / At dinner.

When did Kyle tell Delia that he'd given up gambling? / At dinner last Friday.

Who told Delia that he'd given up gambling, at dinner last Friday? / Kyle did.

Who was told that Kyle had given up gambling, at dinner last Friday? / Delia was.

The idea is easy. Change the wh- question word each time and you can make several completely different sentence blocks from the original starting sentence, simply by finding the relevant information for the answer in the starting sentence. As you can see below, sometimes the same wh- question word can be used more than once to make different sentence blocks.

You could cut out and give the section below to your students:

Problems

Make new sentence blocks from the starting sentences in this unit using different "wh-" question words:

	WHAT	WHERE	WHEN	WHO	WHY	WHICH	HOW	Total:
1.	what (x2)			who (x2)				4
2.	what (x2) what kind			who	why			5
3.	what (x2)			whose				3
4.	what (x3)		when	who (2 nd)				5
5.	what			who			how	3
6.	what (x2)	where	when	who (x2)				6
7.	what		when			which	how many	4
8.	what		when			which		3
Total:								33

Problems

Sentence Blocks

Sentence Blocks – Sentence Stress and Vowel Sounds

Task 3: Write the correct vowel sound above each stressed syllable (underlined). (For answer, see below.)

Problems

1. Polly's been considering getting a divorce from Toby for quite some time.
2. Kev's girlfriend had expected to get a little gift for cleaning Jackie's kitchen.
3. Your acne will've probably cleared up before the school prom.
4. If Becs found out about William's bit on the side, she'd give him the boot in no time.
5. If you'd dropped out of high school, you might've ended up on the rock'n'roll.
6. At dinner last Friday, Kyle told Delia that he'd given up gambling.
7. Both of the red bills were paid immediately, because they were already overdue.
8. Lose weight fast with the latest E-Z-Loss™ formula!

----- ✂ -----

Sentence Blocks – Sentence Stress and Vowel Sounds

Each content word (shown in black) contains one syllable with a strong stress, which is underlined. Each stressed syllable has one vowel sound. The vowel sounds on stressed syllables are the most important sounds in the sentence. They make the "sound spine" of the sentence. To improve communication, try to get the sound spine right.

Problems

- /ɒ/ /ɪ/ /e/ /ɔ:/ /əʊ/ /aɪ/ /ʌ/ /aɪ/
1. Polly's been considering getting a divorce from Toby for quite some time.

/e/ /ɜ:/ /e/ /e/ /ɪ/ /ɪ/ /i:/ /æ/ /ɪ/

 2. Kev's girlfriend had expected to get a little gift for cleaning Jackie's kitchen.

/æ/ /ɒ/ /ɪə/ /ʌ/ /u:/ /ɒ/

 3. Your acne will've probably cleared up before the school prom.

/e/ /aʊ/ /aʊ/ /ɪ/ /ɪ/ /aɪ/ /ɪ/ /u:/ /əʊ/ /aɪ/

 4. If Becs found out about William's bit on the side, she'd give him the boot in no time.

/ɒ/ /aʊ/ /aɪ/ /u:/ /e/ /ʌ/ /ɒ/ /əʊ/

 5. If you'd dropped out of high school, you might've ended up on the rock'n'roll.

/ɪ/ /ɑ:/ /aɪ/ /aɪə/ /əʊ/ /i:/ /ɪ/ /ʌ/ /æ/

 6. At dinner last Friday, Kyle told Delia that he'd given up gambling.

/əʊ/ /e/ /ɪ/ /eɪ/ /i:/ /e/ /u:/

 7. Both of the red bills were paid immediately, because they were already overdue.

/u:/ /eɪ/ /ɑ:/ /eɪ/ /i:/ /ɔ:/

 8. Lose weight fast with the latest E-Z-Loss™ formula!

Problems

Discussion Words Question Sheet

/ŋ/ bullying, dating, gambling; /p/ benefits trap; /l/ fuel bill.

8. Many English words contain one or more **silent letters** – letters which are part of the spelling of a word, but which are not pronounced. The aim of this activity is to demonstrate how so often the spelling of a word in English is different from how it sounds when spoken. Below are some good examples of words in this group of discussion words that have silent letters. The silent letters are shown in brackets. No doubt your students will be able to identify some more.

divo [r] ce, de [b] t, hi [g] h expectations, lon [e] lines [s], disil [l] usionment, suicid [e], bo [re] dom

9. Answers will vary.

10. There are many possible answers to this question; for example, “gambling”, “acne”, “Alzheimer’s Disease”, and “alcoholism”, (among others) all contain the vowel sound /æ/. Use the phonetic chart on p.18.6 of the **Talk a Lot Elementary Handbook** (available free from <http://www.englishbanana.com/talkalot>) and the phonetic spellings of the vocabulary words on the *Discussion Words (with the IPA)* handout to help your students put the words into sound groups.

Lesson Questions

1. a) addiction. b) detention. c) fuel bill. d) neglect. e) gambling. f) boredom. g) childcare. h) divorce. i) debt. j) truancy. k) dating.

2. state pension.

3. i) a) Words which have a weak stress schwa sound /ə/ on the 1st syllable: appearance, addiction. b) Words and phrases which have a weak stress schwa sound /ə/ on the 2nd syllable: student loan, boredom, reconciliation, single parent, benefits trap, broken home, contraception, funeral expenses, truancy, euthanasia, negative equity, alcoholism. c) Words and phrases which have a weak stress schwa sound /ə/ on the 3rd syllable: peer pressure, child poverty, criminal record, obesity, loneliness, ambition, detention, state pension, appearance, Alzheimer’s Disease, addiction, funeral expenses, retirement home, fertility treatment. d) Words and phrases which have a weak stress schwa sound /ə/ on the 4th syllable: sibling rivalry, single parent, contraception, disillusionment. e) Words and phrases which have a weak stress schwa sound /ə/ on the 5th syllable: disillusionment, high expectations, negative equity. f) Words and phrases which have a weak stress schwa sound /ə/ on the 6th syllable: reconciliation, funeral expenses, fertility treatment. ii) 12 words and phrases don’t have a weak stress schwa sound: neglect, divorce, fuel bill, childcare, debt, dating, suicide, ingratitude, STI, gambling, acne, bullying.

4. acne.

5. retirement home.

6. Answers will vary. Suggested answers: a) childcare, single parent, broken home, contraception, STI, fertility treatment, child poverty. b) gambling, debt. c) bullying, acne, boredom, loneliness, truancy. d) peer pressure, alcoholism, criminal record, boredom, loneliness, detention, suicide, addiction, bullying, disillusionment. e) suicide, funeral expenses, retirement home, euthanasia, debt, single parent. f) sibling rivalry, boredom, ambition, bullying, truancy. g) sibling rivalry, obesity, peer pressure, loneliness, appearance, dating, STI, bullying, acne. h) obesity, loneliness, appearance, boredom, addiction, bullying, acne.

You could also do this quiz the other way around: read out the groups of words above and ask your students to match each group with one of these categories:

babies cards playground prison coffin exam nightclub chocolate

Or, students could think of their own category names for each word list, or devise their own categories and word lists.

7. “disillusionment” is a feeling that something is no longer worthwhile, and therefore doesn’t matter, while “disappointment” is a more trivial feeling that something hasn’t gone how you wanted it to, e.g.

*“I experience **disillusionment** when I imagine the future and find nothing at all to look forward to.”
“I felt **disappointment** when my football team lost an important match.”*

Talk a Lot

Problems

Discussion Words Question Sheet

“disappointment” is more of a short-term feeling, and may be experienced fairly often – although hopefully not too often! – while “disillusionment” is more of a long-term problem, which may indicate the beginning of depression.

8. high expectations.

9. a) acne. b) student loan. c) divorce. d) truancy. e) ambition. f) addiction. g) childcare. h) gambling. i) negative equity.

10. benefits trap.

Talk a Lot

Problems – Which day will be the toughest?

Student A

Angelica Lemming is a professional counsellor, who assists clients with their life problems. Below there is an extract from her private diary, listing some of her appointments for next week. Ask and answer questions to complete the gaps, and find out information about each client and appointment. Which day do you think will be the most demanding for her? Why?

	Monday	Tuesday
9:35	Carrie - eating disorder (mention special offer - buy 4 hours get 1 free!)	
11:45		Free (although Lewis will probably over-run again - leave slot available)
14:25		Alan and Charity - messy divorce + negative equity (ouch!)
15:40	Brian - dead budgie (bereavement counselling?)	
TO DO	Call Roger about plumbing (stench)	
EVENING		Rehearsal - choir (remember to pick up Jeff & Jules!)

	Wednesday	Thursday
10:55		Jimmy - ex-con (can't get a job - criminal record = lack of confidence / self-esteem / relapse)
11:50	Alma - can't find a date; desperate for love (don't mention speed dating again!)	
12:30		
15:10	Cliff - attempted suicide (teasing + bullying)	
TO DO		Remember - call Frank re cruise; last chance (fjords)
EVENING	Piano recital - Town Hall, 8 - Marvin (driving)	Long bath (pedicure?) - 9pm Bach on Radio 3 :o)

Student B

Angelica Lemming is a professional counsellor, who assists clients with their life problems. Below there is an extract from her private diary, listing some of her appointments for next week. Ask and answer questions to complete the gaps, and find out information about each client and appointment. Which day do you think will be the most demanding for her? Why?

	Monday	Tuesday
9:35		Lewis and parents - talk about general problems from childhood (esp. parental neglect)
11:45	Colin - depressed (unemployed - two years)	
14:25	Marion (sibling rivalry - sister is high-flier)	
15:40		Mandy and partner (Gavin? Kevin?) - benefits trap
TO DO		Johnny will return gerbils (maybe after 4pm)
EVENING	Party at Brenda's (take pie - not blueberry)	

	Wednesday	Thursday
10:55	Rosemary - trouble finding childcare + info about benefits and allowances	
11:50		Serena Robinson + mother - acne getting worse (could be some sobbing - ensure enough tissues to hand)
12:30	Paul - always bunking off school (lock door?)	Mr. Griffiths - pension / debt (remind re payment)
15:10		Martin - gambling addiction (big debts)
TO DO	Mop the floor (borrow mop - Karl)	
EVENING

EVENING	Piano recital - Town Hall, 8 - Marvin (driving)	Long bath (pedicure?) - 9pm Bach on Radio 3 :o)

"Which day do you think will be the most demanding for her? Why?" When they have completed filling the gaps, students should discuss which day they think will be the toughest, or most demanding, for Angelica, and why. Answers will be subjective and therefore vary from student to student. Students should produce appropriate reasons for their choices – why they would choose one day rather than another. For example: "I think Thursday will be the toughest day for Angelica next week, because she'll have appointments with clients about some serious issues, from lack of confidence to debt and gambling addiction..." Or... "I think Wednesday will be worse than Monday, because on Wednesday she's got the sessions about truancy and suicide, while the worst problem on Monday is Colin's..." [etc.]

Sample Questions

What's happening at _____ on _____?
 Which client will Angelica meet on _____ at _____?
 Tell me about Angelica's appointment at _____ on _____.
 Who is coming in on _____ at _____, and what do they want to talk about?
 What is planned for _____ at _____?
 What's on Angelica's TO DO list for _____?
 What does Angelica have to do on _____?
 What's Angelica planning to do in the evening on _____?
 What has Angelica got planned for _____ evening?

Sample Answers

_____ is coming in to talk about _____.
 She's meeting _____ to talk about _____.
 She's seeing _____, who's got a problem with _____.
 _____ is coming in on _____ at _____ to talk about _____.
 _____ is booked in to discuss _____.
 She has to _____.
 She's planning to _____. / She's going to _____. / She's hoping to _____. [etc.]
 _____.

Examples

What's happening at two twenty-five on Monday?

Marion is coming in to talk about sibling rivalry with her sister, who is a high-flyer.

For more fun worksheets, games, and quizzes log onto www.englishbanana.com now!

Talk a Lot

Problems

Information Exchange

Who is coming in on Tuesday at twenty to four, and what do they want to talk about?

What does Angelica have to do on Wednesday?

What has Angelica got planned for Thursday evening?

[etc.]

Mandy is coming in on Tuesday at twenty to four, with her partner, either Gavin or Kevin, to talk about being caught in the benefits trap.

She has to mop the floor, but first she'll need to borrow a mop from Karl.

She's going to enjoy a long bath, and maybe have a pedicure, while listening to Bach on Radio 3 from 9pm.

Extension 1:

You could try to encourage some comparative/superlative questions and answers, for example:

Which client has the most serious problem? Why?
Which evening will be the most... fun? / boring? Why?
Which client will be the hardest to handle? Why?

Martin has the most serious problem, because...
Monday evening will be the most fun, because...
I think that _____ will be the hardest to handle, because...

[etc.]

Extension 2:

Talk about Angelica. Use the information in the diary entries to speculate about: a) her appearance, b) her family life, c) her relationships, d) her likes and dislikes, e) any other part of her life. For example: how old is she? Is she married? Is she attractive? Is she clever? Is she rich? Does she like scuba-diving? Why? / Why not? etc. Imagine how her diary might look for the rest of the week, including the weekend. Create a role play in which she discusses her schedule with a friend, colleague, or relative.

Extension 3:

You could encourage students to develop short role plays or dialogues using the clients and appointments. For example, each small group of students could choose one day's appointments to portray, with one student playing Angelica and the other students playing the clients. They could try playing the role plays in different genres to see what happens, e.g. comedy, serious drama, melodrama, etc.

Extension 4:

Students work in pairs. One student plays Angelica, and the other chooses a client. The client tells their problem, and Angelica has to guess which client it is, then give advice. You could then create a follow-up scene, which takes place one week (or month, or ten years) later where we find out what happened to the client. Did they take Angelica's advice? Was it successful? If the advice didn't work out, perhaps the client now has a score to settle with Angelica! Encourage students to use a variety of different past, present, and future verb forms.

Problems

Multi-Purpose Text

England 1 – Broccoli 0 (Original Text)

Line

1 It's the last Saturday in September, and Maggie and Dennis are both getting ready
2 for the evening ahead. Since his parents are away, Dennis has invited ten of his
3 mates to watch the England match, while Maggie is also keen to have the house to
4 herself, having invited a "friend" round for a "homework session". She's currently in
5 the kitchen frantically preparing an elaborate (and not at all romantic) meal in his
6 honour. They've been fighting all week over who would get the house. For Dennis it
7 was remarkably simple: "It's England Paraguay, innit!" "But I never have the house to
8 myself!" complained Maggie, sticking her bottom lip out and trying hard to make it
9 tremble. Neither side has backed down, hence the uneasy stalemate that now exists.
10 A delicious aroma of broccoli and oregano rises from the kitchen, as Dennis slumps
11 before the telly, indolently awaiting his mates and the pre-match build-up. "Just go out
12 to a pub an' watch it!" begs Maggie for the fifteenth time, "Byron is due any minute!"
13 "Sorry, sis," says Dennis, restlessly channel surfing, "I'm the oldest – y'know?"
14 Exasperated, Maggie returns to the kitchen to crack some more yolks. Seven o'clock
15 arrives, but not Byron. Build-up becomes the match proper, and Dennis's mates
16 tuck into Maggie's cooking manfully, appreciative that snacks have been laid on.
17 Maggie weeps as she re-reads the text from Byron – "I'm immersed in coding my
18 iPad app..." – and seals the leftovers in tupperware boxes. Post-match analysis
19 wraps up and Dennis and pals decamp to the pub... All except for one sensitive soul:
20 a trainee fireman called Gareth, who has offered to help Maggie tidy up.
(279 words)

England 1 – Broccoli 0 (Text with 20 Differences)

It's the **1. past (last)** Saturday in September, and Maggie and Dennis are both getting ready for the **2. meeting (evening)** ahead. Since his parents are away, Dennis has invited ten of his mates to watch the England match, while Maggie is also **3. seen (keen)** to have the house to herself, having invited a "friend" **4. down (round)** for a "homework session". She's **5. sullenly (currently)** in the kitchen frantically preparing an elaborate (and not at all romantic) meal in his honour. They've been **6. biting (fighting)** all week over who would get the house. For Dennis it was remarkably **7. pimple (simple)**: "It's England Paraguay, innit!" "But I **8. ever (never)** have the house to myself!" complained Maggie, sticking her **9. button (bottom)** lip out and trying hard to make it tremble. **10. Either (Neither)** side has backed down, hence the uneasy **11. whale bait (stalemate)** that now exists. A delicious aroma of broccoli and oregano rises from the kitchen, as Dennis slumps **12. afore (before)** the telly, indolently awaiting his mates and the pre-match build-up. "Just go out to a pub an' watch it!" begs Maggie for the **13. fiftieth (fifteenth)** time, "Byron is due any minute!" "Sorry, sis," says **14. Kenneth (Dennis)**, restlessly channel surfing, "I'm the oldest – y'know?" Exasperated, Maggie returns to the kitchen to crack some more **15. jokes (yolks)**. Seven o'clock arrives, but not Byron. Build-up becomes the match proper, and Dennis's mates tuck into **16. Aggie's (Maggie's)** cooking manfully, appreciative that **17. stacks (snacks)** have been laid on. Maggie weeps as she re-reads the text from Byron – "I'm immersed in coding my iPad app..." – and seals the leftovers in tupperware **18. foxes (boxes)**. Post-match **19. paralysis (analysis)** wraps up and Dennis and pals decamp to the pub... All except for one sensitive soul: a trainee **20. barman (fireman)** called Gareth, who has offered to help Maggie tidy up.

England 1 – Broccoli 0 (What's the Question?)

1. Dennis.
2. Saturday.
3. Go to the pub and watch the match.
4. Maggie.
5. Ten.
6. That they were going to do their homework together.
7. All week.
8. Gareth.
9. After the post-match analysis.
10. By pretending to cry.
11. Yes, after the match had ended.
12. Paraguay.
13. Trainee fireman.
14. Because he was busy coding his iPad app.
15. Maggie put it into tupperware boxes to keep for another day.
16. Byron.
17. We don't know, but from the ingredients it might have been an Italian or Mediterranean dish.
18. Because they both believed that they had the right to use the house.
19. Because she wanted to impress Byron.
20. He slumped in front of the TV.
21. Ten of his mates.
22. To the pub.
23. England versus Paraguay.
24. She said that she never got the house to herself.
25. The aroma of broccoli and oregano.
26. Because he was older than Maggie.
27. No, not really.
28. Dennis and his friends.
29. At seven o'clock in the evening.
30. She was planning a romantic meal for Byron and herself.

-----✂-----

England 1 – Broccoli 0 (True, False, or Unknown?)

1. The story took place in October.
2. Maggie was upset that Dennis hadn't backed down.
3. Maggie is the eldest sibling.
4. Maggie had agreed with her parents that she could use the house.
5. The pre-match build-up preceded the match proper.
6. Paraguay played England at football.
7. Maggie was looking forward to doing her homework with Byron.
8. Dennis and his mates went to the pub after the post-match analysis.
9. Paraguay were playing Wales in the match.
10. Gareth helped Maggie to tidy up while his mates went for a drink.
11. Byron popped round to see Maggie for a few minutes after finishing coding his app.
12. Byron preferred to stay at home because he didn't want to get involved with Maggie.
13. Gareth was a trainee farmer.
14. Gareth and Maggie spent ages tidying up, then went into the garden.
15. Maggie had invited her friend for a meal.
16. They watched a World Cup qualifier match.
17. Maggie was not planning a romantic meal for her friend Byron.
18. Byron didn't come because he was busy with his IT work.
19. Gareth joined his mates in the pub after helping Maggie clean up.
20. Dennis had invited twelve friends round to watch the match.
21. Dennis wanted to watch the football match with his friends.
22. Dennis's parents had gone on holiday.
23. Byron was due to arrive at seven thirty.
24. Dennis rested while Maggie worked in the kitchen.
25. Dennis was channel surfing because he was bored.
26. Maggie tried to make Dennis feel sorry for her, so that she would get her own way.
27. Maggie is a great cook.
28. Maggie watched the pre-match build-up.
29. England beat Paraguay 2-0 [two-nil].
30. Most of Dennis's mates were trainee firemen.

Glossary of New Words

Here are some words and phrases from the text that may be unfamiliar to students. You could either pre-teach them, or encourage your students to find translations in a bilingual dictionary and write them in the spaces below. Stressed syllables are underlined.

Line:	Unfamiliar English:	Explanation:	Translation:
3	<u>mates</u>	(n) informal word for <i>friends</i>	
4	a " <u>friend</u> "	(iron/euph) the speech marks indicate that the word "friend" is ironic and a euphemism for something else, in this case a person that Maggie sees as more than a friend, i.e. she fancies this person and would like to become his girlfriend	
4	a " <u>homework session</u> "	(iron/euph) again, the speech marks indicate irony. In this context "homework session" is clearly a euphemism for "romantic meal"	
5	<u>frantically</u>	(adv) in a hurried and stressed out manner	
5	<u>elaborate</u>	(adj) complicated; complex	
5	(and <u>not</u> at all <u>romantic</u>)	(iron) The use of brackets indicates irony, i.e. the opposite of what is said is actually true – Maggie <i>is</i> preparing a romantic meal	
5	in his <u>honour</u>	(phr) especially for him; to make him feel special. This phrase is rather an exaggeration, because it would normally be used to talk about preparations for an important dignitary or monarch	
7	<u>England Paraguay</u>	(phr) England are playing a football match against Paraguay	
7	<u>innit</u>	(contr/irreg) isn't it?	
8	... <u>trying hard</u> to <u>make</u> it <u>tremble</u> .	(phr) Maggie wants to make it look as if she's really upset and about to cry, so that she gets her own way	
9	to <u>back down</u>	(phr v) to surrender; to admit defeat; to give up	
9	hence	(conj) "the result of which is..."; "which leads to..."	
9	<u>uneasy</u>	(adj) awkward; difficult; uncomfortable	
9	<u>stalemate</u>	(n) deadlock; impasse; a situation in which neither party in a dispute will compromise	
10	<u>aroma</u>	(n) smell	
10	<u>oregano</u>	(n unc) a herb used in cooking, esp. in Italian, Greek, and Latin American dishes	
10	to <u>slump</u>	(v) to sit in an awkward and careless manner	
11	<u>telly</u>	(n) informal word for <i>television</i>	
11	<u>indolently</u>	(adv) lazily; idly; in a lazy manner; in a way that deliberately wastes time	
11	the <u>pre-match build-up</u>	(phr) the discussion and analysis that takes place on TV before a football match begins	
12	an'	(contr) and	
12	any <u>minute</u>	(adverbial) very soon, i.e. he could arrive now	
13	<u>sis</u>	(abbr) short for <i>sister</i>	
13	to <u>channel surf</u>	(v) to keep changing channels on TV using the remote control, without watching any programme for longer than a few seconds	
13	y' <u>know</u> ?	(contr) you know? (do you know?) In this context <i>y'know</i> is used to show that the preceding comment is indisputable, and therefore to end any debate	
14	<u>Exasperated</u>	(adj) angry and frustrated	
14	to <u>crack</u> some <u>more yolks</u>	(phr) Maggie will, of course, crack eggs to get the yolks, but this phrase is used to emphasise that she will crack the eggs for the yolks	
14	<u>yolks</u>	(n) the yellow part of an egg	
15	the <u>match proper</u>	(id) the actual match. To say "the _____ proper" means that something occurs after a preliminary or preparatory phase, e.g. "After a little discussion about modal verbs, we began the lesson proper."	

Talk a Lot

Problems

Multi-Purpose Text

Line:	Unfamiliar English:	Explanation:	Translation:
16	to <u>tuck into</u>	(phr v) to eat enthusiastically, with much enjoyment	
16	<u>manfully</u>	(sarc) courageously; bravely; selflessly without fear. This is a rather sarcastic way to describe the situation. Dennis's friends may be eating food that would have otherwise been wasted, but it didn't require any particular courage for them to do it!	
16	to <u>lay on</u>	(phr v) to provide food and/or drink for a special occasion, e.g. a party or a conference	
17	<u>immersed</u>	(adj) absorbed; busy with; wrapped up in	
17	<u>coding</u> my iPad <u>app</u>	(phr) Byron is busy creating an application for the Apple iPad portable electronic device	
18	to <u>seal</u>	(v) to close something firmly, usually so that it is air-tight; to lock	
18	<u>tupperware</u> <u>boxes</u>	(n) air-tight plastic containers that can be used to store food	
18	<u>post-match</u> <u>analysis</u>	(phr) the discussion about a football match that takes place on TV just after the game has finished. The opposite of "the pre-match build-up" (see line 11)	
19	to <u>wrap up</u>	(phr v) to conclude or be concluded by sby; to finish in a satisfactory way, e.g. "The mystery was finally wrapped up" (i.e. solved successfully)	
19	<u>pals</u>	(n) informal word for <i>friends</i>	
19	to <u>decamp</u>	(v/iron) to move to another place as one large group of people, e.g. "The soldiers decamped to Winchester." An ironic parallel is drawn between Dennis and his mates, and soldiers – ironic because soldiers would probably be on a serious mission, while the boys' aim is totally trivial – to have a drink	
19	<u>one sensitive soul</u>	(phr/iron) a thoughtful person; the phrase is used with some irony. We don't usually think of firemen – trainee or otherwise – as being particularly sensitive. Perhaps Gareth has more romantic ambitions in mind than simply helping Maggie to tidy up	
20	to <u>tidy up</u>	(phr v) to clean and organise the house after the party	

(abbr) abbreviation
(adj) adjective
(adv) adverb
(conj) conjunction
(contr) contraction
esp. especially

(euph) euphemism
(id) idiom
(iron) irony
(irreg) irregular grammar
(n) noun
(n unc) noun (uncountable)

(phr) phrase
(phr v) phrasal verb
(sarc) sarcasm
(sby) somebody
(v) verb

Extension 1:

Encourage students to look at the verb forms used in the story. Ask them what time the story is set in (the past). If it's set in the past, why are present verb forms used to tell the story? For example:

It's the last Saturday in September...

She's currently in the kitchen frantically preparing...

...a trainee fireman called Gareth, who has offered to help Maggie tidy up.

Ask students to retell the story (in pairs or small groups) using past verb forms, e.g.

It was the last Saturday in September...

She was in the kitchen frantically preparing...

...a trainee fireman called Gareth, who had offered to help Maggie tidy up.

Discuss the effect of using present forms to tell a story that is set in the past, e.g. it can bring immediacy to the story; the story becomes more interesting and relevant because the listener needs to imagine it happening *now*, at this present moment, etc. How does the story change when past forms are used instead?

Talk a Lot

Problems

Multi-Purpose Text

Extension 2:

Ask students to count the number of characters in the text (there are 4 named characters, as well as Maggie and Dennis's parents, and Dennis's group of ten friends, not to mention the team of pundits on TV), then to create a role play or dialogue, using a few of the characters. Or, students could work on their own and create a monologue using one character from the text, where they recall what happened from their point of view.

Extension 3:

Students continue the story – either as a role play or a monologue – and explore what happened next...

Answers:

England 1 – Broccoli 0 (Guess the Function Words)

See Original Text for answer.

England 1 – Broccoli 0 (What's the Question?)

Answers will vary. Suggested answers:

1. What is the name of Maggie's brother?
2. What day was it in the story?
3. What did Maggie beg Dennis to do?
4. What is the name of Dennis's sister?
5. How many friends did Dennis invite to watch the match?
6. What was Maggie's alleged reason for inviting Byron round?
7. How long had Maggie and Dennis been fighting about who would get the house?
8. Who stayed behind to help Maggie tidy up?
9. When did the lads go to the pub?
10. How did Maggie try to make Dennis feel sorry for her?
11. Did Maggie get the house to herself?
12. Which team was England playing?
13. What was Gareth's job?
14. Why didn't Byron come round to spend time with Maggie?
15. What happened to the excess food?
16. Who did Maggie invite round for a meal?
17. What was Maggie cooking?
18. Why didn't either side in the dispute back down?
19. Why was Maggie preparing an elaborate meal?
20. What did Dennis do while he was waiting for his friends?
21. Who did Dennis invite to watch the football?
22. Where did Dennis and his mates go after the post-match analysis had finished?
23. Who was playing in the football match?
24. Why did Maggie feel hard done by?
25. What smelled delicious?
26. Why did Dennis feel that he had the right to use the house?
27. Did Byron have a good excuse for letting Maggie down?
28. Who ate Maggie's cooking?
29. What time was Byron due to arrive?
30. Why did Maggie want to have the house to herself?

England 1 – Broccoli 0 (True, False, or Unknown?)

(T = True, F = False, U = Unknown)

Problems

Role Play with Non-Literal English

1. Practise the role play with a partner. Find and underline **nine** examples of non-literal English* and match each one to a category below:

1. puns	2. phrasal verbs	3. non-standard grammar
4. cultural references	5. idioms	6. politically correct (PC) language
7. hints	8. slang	9. catchphrases

* For more information about each category, please see pp.37-39.

Three teenage girls are at school watching a boring netball match:

Tracey: Have you seen that new girl? What's her name?
Mandy: Susan Jacobs.
Tracey: Do you know who she reminds me of? What's her name? Marjorie Dawes from *Little Britain* – "Fat Fighters".
Mandy: Oh, I love that show! (*Putting on a funny voice*) I'm a lady!
Tracey: Look at her running. She's such a whale.
Lena: Tracey!
Tracey: What?
Lena: You can't say that!
Tracey: Why not?
Lena: You shouldn't pick on her because of her size. She told me that she's been fighting a losing battle with her weight recently.
Tracey: So what would you call her then?
Mandy: Lena would probably say that she's horizontally-challenged.
Tracey: (*Laughing*) Ha ha! That's a bit better than whale, ain't it?
Mandy: Personally I think that Susan is fat-tastic!
Lena: I wouldn't call her anything. Why don't you two just be nice to her?
Tracey: OK, Lena. Forget it. OK? Listen, next week it's my birthday, and I'm not saying I really want earrings but... Well, I'm not going to say any more. (*She winks*)

2. Replace each example of non-literal English with one of the literal words or phrases below. Practise the role play using only literal English, then using non-literal English. What differences do you notice? Which version sounds more natural? Why? Which do you prefer?

a) putting on weight, despite trying not to	b) I want you to buy me some earrings	c) fat person
d) isn't	e) bully	f) a fictional character from a popular TV comedy series
g) I know a famous line from that TV programme	h) a person that I can ridicule because of her weight	i) overweight

Talk a Lot

Problems

Role Play with Non-Literal English

Answers:

Feature of Non-Literal English:	Example in this Text:	Literal Translation:
1. puns	fat-tastic	h) a person that I can ridicule because of her weight*
2. phrasal verbs	pick on	e) bully
3. non-standard grammar	ain't	d) isn't
4. cultural references	Marjorie Dawes from <i>Little Britain</i> – “Fat Fighters”	f) a fictional character from a popular TV comedy series
5. idioms	fighting a losing battle with her weight	a) putting on weight, despite trying not to
6. politically correct (PC) language	horizontally-challenged	i) overweight
7. hints	I'm not saying I really want earrings but...	b) I want you to buy me some earrings
8. slang	whale	c) fat person
9. catchphrases	I'm a lady!	g) I know a famous line from that TV programme

* There is no literal translation for “fat-tastic”. It is simply a combination of two words: “fat” and “fantastic”. The pun works because “fat” sounds very similar to “fan”, sharing two out of three phonemes (individual sounds) – /f/ and /æ/. By making this joke, Mandy is showing her contempt for Susan: “a person that I can ridicule because of her weight”.

Note: in general, using non-literal English will help students’ spoken English to sound more natural, because native speakers of English often favour non-literal forms – such as idioms, phrasal verbs, and slang – over the more literal, “dictionary definition” words and phrases that they replace.

Talk a Lot

Problems

Features of Non-Literal English – Part 2

1. PUNS

A pun is a kind of joke that is based around a word or phrase which has two meanings: one which is natural in the sentence, and one which is relevant to what you are talking about.

Example:

[Somebody is making bread in the kitchen. You go up to them and ask:]

“Do you *need* any help?”

[You stress the word “need” because it is a pun on the word “knead”, which is an action in the bread-making process. “Knead” and “need” are homophones – words that sound exactly the same but which have different meanings and different spellings.]

When:

For fun! When you want to brighten up your spoken English; to make somebody smile or laugh – or groan, because your joke is so corny [old and too obvious].

2. PHRASAL VERBS

See *Unit 1: Hotel – Features of Non-Literal English – Part 1*

3. NON-STANDARD GRAMMAR

Non-standard grammar is a grammatical form that, although incorrect, is often used on purpose in place of the correct form by a person who knows what the correct form *should* be.

Example:

[You phone your friend and leave a voice message:]

“Y’alright mate? You comin’ down town later, or what, innit?”

[Translation: “Y’alright, mate?” = “Hello” or “Are you alright, my friend?”; “You comin’ down town later” = “Are you coming down to the town later?”; “or what, innit?” = speech markers (see *Unit 1: Hotel – Features of Non-Literal English – Part 1*). These phrases are simply a form of verbal punctuation and have no real meaning in the sentence, apart from perhaps reinforcing the question.]

When:

When you want to show that you belong to a particular group, or class of people, who all speak in the same way – as a means of fitting in. When you don’t want to appear too “posh”, or middle-class, or too highly educated.

Talk a Lot

Problems

4. CULTURAL REFERENCES

A cultural reference is a word, phrase, or saying that has entered popular culture, e.g. a song, reference to or dialogue from a film or TV programme, an advert, a catchphrase (e.g. by a comedian), or any other memorable phrase that has been featured in the media.

Example:

"Hayley! Are you responsible for breaking that window?"

"Yeah... but, no... but, yeah... but no..." [her evasive and rather cheeky reply copies a well-known catchphrase from the popular BBC comedy series *Little Britain*.]

When:

When you want to show that you are aware of and a part of the general national popular culture that extends beyond your home town.

5. IDIOMS

See Unit 1: *Hotel – Features of Non-Literal English – Part 1*

6. POLITICALLY CORRECT (PC) LANGUAGE

Politically correct language (known as PC language) consists of polite words and phrases that are used to replace potentially derogatory or insulting language, so that we can talk about something negative or controversial *without causing offence*. There are two kinds of politically correct language:

1. Extreme Politically Correct Language: phrases that we don't use very often in everyday life, because they seem too extreme or sound silly.

Example:

"My little Billy isn't fat, he's just *big-boned*." The aim is to try to see something positive in something negative. But taken to extremes, political correctness can become a bit of a joke, and can lead people to exclaim in frustration: "It's political correctness gone mad!"

2. Everyday Politically Correct Language: phrases that we *do* need to use in everyday life, to avoid offending or stigmatising other people, especially people who belong to minority groups.

Example:

"We're planning a special lunch for senior citizens next week." [Not for *old people*.] More respectful or neutral phrases replace blunter, more potentially insensitive, offensive, or alienating language. Politicians, for example, are keen to use inclusive PC language, which comes across as inclusive to as many people as possible. Another example of required politically correct language is the use of gender-neutral terms, e.g. "police officer" rather than "policeman", to reflect changes in our workforce and culture.

When:

When you don't want to cause offense to anybody who belongs to a minority group. Or when you want to draw attention to something in a humorous or ironic way, e.g. "Tom *hasn't* gone a big nose. No. He's just a bit nasally challenged!"

Note: a related non-literal form is *Euphemism*.

For more fun worksheets, games, and quizzes log onto www.englishbanana.com now!

Talk a Lot

Problems

7. HINTS

A hint is an indirect reference to an object or situation. The speaker hopes that the person listening will understand what they mean, without them having to mention it directly. However, it is not guaranteed that the listener *will* understand and therefore “get the hint”.

Example:

[A young couple in love are passing a jeweller’s shop window. She says:]

“Oh, what a beautiful ring! Do you like it?”

[She means: “When are you going to ask me to marry you?”]

When:

When you want to say something or ask for something indirectly – in a subtle way. In the example, the woman hopes that her partner will “read her mind” regarding getting married, after which she can pretend that *he* thought of proposing without having to be asked or reminded. She can therefore tell herself that her beloved is more thoughtful and sensitive than he really is – and that she is really lucky to be with him!

8. SLANG

Slang is informal language consisting of words and phrases that replace standard dictionary words and phrases. It is used far more often in spoken English than in written English. Slang words are known and used by members of a particular group of people, which might be based on: class, race, gender, age, education, interests, job, etc.

Example:

“Do you like my new t-shirt?”

“Yeah, man!” [“Yes, my friend.”] “It’s totally sick!” [“It’s really nice!”]

When:

When you want to show that you belong to a particular group. By adopting their slang and customs you will feel closer to them, and they will be more likely to accept you as a legitimate member of their group.

9. CATCHPHRASES

A catchphrase is a phrase that is repeated often by somebody, particularly somebody famous, usually for comic effect so that it becomes associated with them through repetition. It may not be very funny if said only once, but by being repeated often it can become amusing, or annoying – or both.

Example:

“You wouldn’t let it lie!” [In the early ’90s, surreal British comedian Vic Reeves introduced this catchphrase via his late night cult TV show, which became very popular among students, and is now always associated with him. To let something lie = to stop talking about a particular thing.]

When:

When you want to build an audience of initiates who feel part of your imaginative world because they are “in on the joke” (your catchphrases), as opposed to other people who don’t know them. Catchphrases can also be in-jokes, that enable your followers to feel that they belong to your “gang”.

Talk a Lot

Problems – English Idioms Activities

Meaning and Context

1. Check for new vocabulary. Are there any idioms that you know already? Explain each meaning and give an example sentence or situation in which you could use it. Find the meaning of the rest by using a dictionary, then match the definition cards with the idiom cards.
2. Do any of the idioms exist in your first language? Translate each idiom.
3. Divide the idioms into four categories: **Children**, **Teenagers**, **Adults**, and **Elderly People**.
4. Take some cards. Describe the idiom on a card without saying it.
5. How many idioms can you remember when they are all turned over?

Practice Activities

Choose a random idiom (or one that particularly interests you) and...

1. think of a time or situation in your life when you... a) could have said this idiom (past), and b) might say this idiom (future).
2. say the name of a person you know who would be the *most likely* to say this. In what kind of situation?
3. others guess while you act it out without speaking, although you can make sounds!
4. others guess while you draw a picture to represent both forms – idiomatic and literal.
5. analyse the words. Is it at all possible to guess the meaning from the words – or completely impossible? Research the origin and background of this idiom.
6. replace the idiom in a sentence with the literal (boring) meaning. Compare the two sentences. Which sounds better? Why?
7. think of another idiom or saying that has the same or a similar meaning.
8. tell a story or devise a dialogue/role play by linking one idiom to the next.

Topic Questions

1. Choose the correct idiom. 2. Make a sentence about... a) yourself, b) a friend.

1. I might use this when talking to somebody about a car they've just bought, which was, in my opinion, far too expensive.
2. A parent or teacher could use this idiom to rebuke two kids who are fighting over a computer.
3. This rather crude idiom might be used to say that somebody has got his partner pregnant.
4. This is a moralistic saying that warns against the dangers of getting into debt.
5. This is perhaps a problem for people who are unemployed or retired, and lack motivation.
6. I would use this idiom to show that I can do something without anybody else's help.
7. This idiom describes what people do when they are "sheep" and don't think for themselves.
8. This phrase shows a rather cavalier or casual approach towards investing in property.
9. Somebody who has put on weight recently might use this idiom to moan about the fact.
10. You could use this idiom to advise somebody to leave their current partner...
11. Or, if they don't like that advice, use *this* idiom to advise them to *stay* with their partner.
12. This is an expressive way to describe feelings provoked by long, tedious lessons about idioms!

Problems – English Phrasal Verbs Activities

This is a handy table showing **collocations** – words that go well with these phrasal verbs. You could use it to make a quick quiz for students after they have learned the meanings, e.g. “Which phrasal verb is to do with prison?” Or, “Find a phrasal verb that’s transitive separable.” Or guess the preposition linking phrasal verb and object, e.g. “To get on **with** somebody...” Or encourage students to make sentences (positive, negative, and question forms) by linking content words together using function words, e.g. “The **students** are going to **bunk off** school **tomorrow**.” etc.

#	subject (person)	p/verb*	tr?	sep?	object e.g.	place / time e.g.
1.	a pronoun, e.g. I, you, he, she, it, we, they, etc.	break up	✓	✗	with somebody	over dinner
2.		bang up	✓	✓	a criminal / a prisoner	in prison / in jail
3.		take out	✓	✓	a loan / a mortgage	at the bank / online
4.		fit in	✓	✗	with a group / a class	at school / at work
5.		end up	✓	✗	alone / getting fired	if you’re not careful
6.		bunk off	✓	✗	school / a lesson	tomorrow
7.		pick up	✓	✓	an infection / a cold	at nursery / at the pool
8.		pass away	✗	-	-	in bed / peacefully at home
9.		get on	✓	✗	with somebody / friends	at school / at work
10.		knock up	✓	✓	his girlfriend / his partner	at his parents’ house
11.	a person or thing, e.g. the students, my sister, Max, the children, Sarah’s grandma, our good friends, etc.	make up	✓	✗	with somebody	in the staff canteen
12.		lash out	✓	✗	at sby / because...	at the nightclub
13.		set aside	✓	✓	some money / savings	for a rainy day**
14.		drop out	✓	✗	of school / of the concert	last week / for good
15.		sign on	✓	✗	the dole***	for two years
16.		stand up to	✓	✗	my boss / a bully	in the office / at school
17.		long for	✓	✗	a child / a holiday	all the time / every day
18.		give up	✓	✗	smoking / gambling	yesterday / forever
19.		rack up	✓	✗	some debts / a high score	over a period of time
20.		be on	✓	✗	drugs / medication	for the past few months

Notes: **tr = transitive** – the phrasal verb can have an object. **sep = separable** – some transitive phrasal verbs are separable, which means that the object, e.g. an object pronoun like “him” or “it”, or somebody’s name, can go before the particle or after it. Some transitive phrasal verbs are **inseparable** – the object has to go after the particle. **Intransitive** phrasal verbs do not have an object, therefore cannot be separable or inseparable. Remember, some phrasal verbs, e.g. “pick up”, can have many different meanings. The information here relates to the definitions given on the “20 Common English Phrasal Verbs” handout.

* Choose any verb form, e.g. Present Perfect Continuous, Third Conditional, Future Perfect, etc.

** Idiom meaning “for a time when I won’t have enough money”. *** Slang for “unemployment register”

Topic Questions

Choose the correct phrasal verb, and make a sentence about... a) yourself, b) a friend:

- worrying about starting a new school.
- losing your job and having to claim benefits.
- wishing that you could buy your own house with a garden.
- shouting at somebody, then hitting them after getting drunk.
- deciding to quit college and do something different.
- how a favourite uncle died at the weekend.
- putting somebody in prison.
- getting somebody pregnant.
- how you finally stopped somebody from bullying you.
- not wanting to take tablets prescribed by your doctor.
- leaving class early when nobody was looking.
- getting a bad cold after visiting some friends who were ill.
- trying hard to maintain a working relationship with a colleague.
- saving for a holiday in Portugal.

Problems – English Slang Words and Phrases Activities

Meaning and Context

1. Are there any words/phrases that you know already? Explain each meaning and give an example sentence or situation in which you could use it. Find the meaning of the rest by using a dictionary, then match the definition cards with the slang cards.
2. Who would you be speaking to when you used these words and phrases? Are there any words or phrases that you wouldn't use with certain people? If yes, why not?
3. Do any of the slang words and phrases exist in your first language? Translate them.
4. Divide the slang into four categories: **Children, Teenagers, Adults, and Elderly People.**
5. Take some cards. Describe the slang word or phrase on a card without saying it.
6. How many slang words/phrases can you remember when they are all turned over?

Practice Activities

Choose a random slang word or phrase (or one that particularly interests you) and...

1. think of a time or situation in your life when you... a) could have used this slang (past), and b) might use this slang (future).
2. say the name of a person you know who would be... a) the *most likely* to say this, and b) the *least likely* to say it. In what kind of situation?
3. others guess while you act it out without speaking, although you can make sounds!
4. others guess while you draw a picture to represent both forms – slang and dictionary (literal).
5. analyse the word(s). Is it at all possible to guess the meaning from the words – or completely impossible? Research the origin and background of this slang word or phrase.
6. replace the slang word or phrase in a sentence with the literal (boring) meaning. Compare the two sentences. Which sounds better? Why?
7. think of another slang word or phrase that has the same or a similar meaning.
8. tell a story or devise a dialogue/role play by linking one slang word/phrase to the next.

Topic Questions

1. Choose the correct slang word or phrase. 2. Make a sentence about... a) yourself, b) a friend.

1. This is a slang word for a pimple or spot.
2. This is a person who is unpopular and who nobody really likes.
3. This is a person who has to score their next fix.
4. This is what happens to a criminal who is locked up.
5. This is a person who could either help you win or lose money.
6. This is a very informal way to talk about getting drunk – but it isn't swearing.
7. This phrase means that I owe money to somebody, for example, a bank.
8. This is a person who always gives in too easily and doesn't stand up to other people.
9. If I had had an older brother, I would probably have worn these while I was growing up.
10. We can use this rather unkind phrase to describe an old person who doesn't seem to be in any hurry to depart this mortal coil.

| 3. To get / be up the duff. | 9. To pile on the pounds. |
| 4. Neither a borrower nor a lender be. | 10. To give sby the boot. |
| 5. To have too much time on your hands. / To be worth your while [to do sth]. | 11. To give sby a second chance. |
| 6. On your own. | 12. To bore sby to tears. |

English Phrasal Verbs – Pronunciation and Linking

Phrasal Verb:	What Happens?	IPA Spelling:	Phrasal Verb:	What Happens?	IPA Spelling:
1. break up	L: (cv) changes to (vc)	/'breɪ'kʌp/	11. make up	L: (cv) changes to (vc)	/'meɪ'kʌp/
2. bang up	L: (cv) remains (cv) ¹	/'bæŋ'ʌp/	12. lash out	L: (cv) changes to (vc)	/'læʃ'ɔʊt/
3. take out	L: (cv) changes to (vc)	/'teɪ'kaʊt/	13. set aside	L: (cv) changes to (vc)	/'se.tə'saɪd/
4. fit in	L: (cv) changes to (vc)	/'fɪ'tɪn/	14. drop out	L: (cv) changes to (vc)	/'drɒ'pʌʊt/
5. end up	L: (cv) changes to (cc) ²	/'en'dʌp/	15. sign on	L: (cv) changes to (vc)	/'saɪ'nɒn/
6. bunk off	L: (cv) remains (cv) ³	/'bʌŋ'kɒf/	16. stand up to	L: (cv) changes to (cc) ⁴	/'stænd'ʌp.tu:/
7. pick up	L: (cv) changes to (vc)	/'pɪ'kʌp/	17. long for	L: (cc) remains (cc) ⁵	/'lɒŋ'fɔ:/
8. pass away	L: (cv) changes to (vc)	/'pɑ:sə'weɪ/	18. give up	L: (cv) changes to (vc)	/'gɪv'ʌp/
9. get on	L: (cv) changes to (vc)	/'ge'tɒn/	19. rack up	L: (cv) changes to (vc)	/'ræk'ʌp/
10. knock up	L: (cv) changes to (vc)	/'nɒ'kʌp/	20. be on	l: (vv) changes to (vc)	/'bi:tʃɒn/

The following connected speech techniques are used to make the words easier to say together quickly:

L = Linking I = Intrusion

Connecting sounds: (cc) = consonant sound to consonant sound (cv) = consonant sound to vowel sound
(vc) = vowel sound to consonant sound (vv) = vowel sound to vowel sound

¹ The sound connection /ŋ/ to /ʌ/ is already easy to say, so it doesn't need to be made easier

² It's easier to make the sound connection /n/ to /d/ than /d/ to /ʌ/

³ It's easier to make the sound connection /ŋ/ to /k/ than /k/ to /ɒ/

⁴ It's easier to make the sound connection /n/ to /d/ than /d/ to /ʌ/

⁵ The sound connection /ŋ/ to /f/ is already easy to say, so it doesn't need to be made easier

39.	acne	/'æk.ni/

What Would You Do? – Problems

2. The school holidays are looming and all of my best buddies are going away on holiday. I can't afford to do anything, but I don't want to get a crummy [not good] job. I can't face lying in front of the TV all summer...

8. We were at the mall yesterday, when my mate took some clothes, put them in her bag, and walked out. Nobody saw and now she's dared *me* to do it. I know it's wrong, but I need a new bikini and I'm absolutely broke...

14. The girl I fancy won't look twice at me, and my mates have started calling me "pizza face"... My mum thinks I should get a special cream from the doctor's, but there could be some unwanted side effects...

15. I'd *love* to go to university, but I don't want to be saddled with a massive debt when I finish. I'm too scared to get a loan, but I won't get a decent job without a degree, will I?

What Would You Do? – Problems

1. We're thinking about putting your grandma in a home. She's eighty and she can't really look after herself any more. We can't have her here, because she'll clutter the place up. The problem is, she's dead-set against it...

3. There's an old man near us who lives on his own. I don't know if he's got any relatives, but we never see anybody going in or out. He looks in a bad way. I wonder what he lives on. I don't want to be nosey, but maybe I could help...

10. My husband is showing early signs of dementia, and I realise that things are only going to get worse. He won't go into a home, and we can't afford private care, but I know I won't manage on my own...

12. We decided we should both go together, so we sold everything and we're booked in for a slot next week. Paul's illness has been almost too much to bear, but now I'm wondering whether we *both* need to end it all...

Talk a Lot

Problems

What Would You Do?

Read the problems below and decide which group each one belongs in: **Children, Teenagers, Adults, or Elderly People.** There are four problems in each group. Then offer some advice to each person. Try to use some of the **discussion words, idioms, phrasal verbs, and slang words and phrases** from this unit in each answer:

1. We're thinking about putting your grandma in a home. She's eighty and she can't really look after herself any more. We can't have her here, because she'll clutter the place up. The problem is, she's dead-set against it...	2. The school holidays are looming and all of my best buddies are going away on holiday. I can't afford to do anything, but I don't want to get a crummy [not good] job. I can't face lying in front of the TV all summer...	3. There's an old man near us who lives on his own. I don't know if he's got any relatives, but we never see anybody going in or out. He looks in a bad way. I wonder what he lives on. I don't want to be nosey, but maybe I could help...	4. It'd cost a small fortune to put my daughter in a nursery full-time - almost as much as I earn. And my parents live 200 miles away. I could look after her myself, but I'd go mad spending every day at home with her...
5. It seems that Greg's been bunking off again. He says he can't stand his teachers and that the other pupils think he's a pushover. I don't want him to change schools, and I haven't got time to home-school him...	6. My husband started drinking three years ago, when his mum died. He's always kept it under control, but lately it's got worse - especially since he lost his job. Now he drinks every day, but he won't admit he's got a problem...	7. I have a good job, a loving family, a nice car, and plenty of money, but recently life has seemed more and more meaningless. What's the point of working hard and doing well, if this is all there is...	8. We were at the mall yesterday, when my mate took some clothes, put them in her bag, and walked out. Nobody saw and now she's dared <i>me</i> to do it. I know it's wrong, but I need a new bikini and I'm absolutely broke...
9. My wife left me last autumn, and now she wants to make it official. I was seeing other birds [women], and out partying most nights, but I love the old girl to death, and I know I can be faithful if I put my mind to it...	10. My husband is showing early signs of dementia, and I realise that things are only going to get worse. He won't go into a home, and we can't afford private care, but I know I won't manage on my own...	11. Somebody just phoned to tell me that my little Brian's been picking on other kids at school. The teacher was really angry! But he's such a nice boy at home. I really can't believe this news - my baby wouldn't hurt a fly...!	12. We decided we should both go together, so we sold everything and we're booked in for a slot next week. Paul's illness has been almost too much to bear, but now I'm wondering whether we <i>both</i> need to end it all...
13. I did time for two years for my part in a company fraud. It wasn't that serious, but now I can't get a job for love nor money, because I've been banged up. It's enough to make me want to go off the rails again...	14. The girl I fancy won't look twice at me, and my mates have started calling me "pizza face"... My mum thinks I should get a special cream from the doctor's, but there could be some unwanted side effects...	15. I'd <i>love</i> to go to university, but I don't want to be saddled with a massive debt when I finish. I'm too scared to get a loan, but I won't get a decent job without a degree, will I?	16. All of Pete's new friends are overweight, and he eats too much fast food when he's at their homes. He's really started piling on the pounds. How can I encourage him to exercise and eat more healthily?

Talk a Lot

Problems

Discussion Questions

- 1.** What is the biggest problem you have faced so far in your life? How did you deal with it? Who helped you? If you had the same problem again, would you tackle it in the same way? Has it helped you become stronger? How?

- 2.** Who do you usually go to for advice when you don't know what to do? Have you ever had counselling or therapy? Is it easier to trust a stranger than somebody close to you? Would you ever write in to a magazine for advice?

- 3.** Tell me about a problem that you've got at the moment. What caused it? How serious is it on a scale of 1 (not serious) to 10 (very serious)? How are you planning to handle it? Who will be the best person to lend a hand?

- 4.** Given the choice, would you rather have ten niggling problems or one big problem? Why?

- 5.** When did you last help somebody with their problems? What was the problem? What did you propose as a solution? What was the outcome? Would you recommend the same course of action if it happened again?

- 6.** Talk about troubles that your family and friends are facing at the moment. What are they and how are they coping? Are *you* part of the answer?

- 7.** Are you a caring person? Would you consider training to become a counsellor, and helping people for a living? Why? / Why not?

- 8.** What social problems do you notice each day? What impact do they have upon your life? Is education the key to reducing problems in society? Why? / Why not? What programmes should be run to teach people how to make more informed choices about their lives? Do most people bring their problems upon themselves? What steps can be taken to prevent problems occurring in the first place? What other ways are there to tackle social ills?

Sentence Blocks

*Note: the last two lines of each sentence block will vary. Below there are examples given for each sentence block, but students should think of their own way to get the negative forms in the last line. See the **Talk a Lot Elementary Handbook** and **Intermediate Supplement** for full instructions (available free from <http://www.englishbanana.com>).*

Answers

1. (Present Perfect Continuous) Katy's been listening to Radio 2 at home all morning. / Where has Katy been listening to Radio 2 all morning? / At home. / Has Katy been listening to Radio 2 at home all morning? / Yes, she has. / Has Katy been listening to Radio 2 at work all morning? / No, she hasn't. Katy hasn't been listening to Radio 2 at work all morning.

2. (Past Perfect) Cheryl had given away more freesheets than Dan, because she was more outgoing than him. / Who had given away more freesheets than Dan, because she was more outgoing than him? / Cheryl had. / Had Cheryl given away more freesheets than Dan, because she was more outgoing than him? / Yes, she had. / Had Cheryl's friend given away more freesheets than Dan, because she was more outgoing than him? / No, she hadn't. Cheryl's friend hadn't given away more freesheets than Dan, because she was more outgoing than him.

3. (Future Perfect) The programme will've started by the time you get home. / What will've started by the time I get home? / The programme will (have). / Will the programme have started by the time I get home? / Yes, it will (have). / Will the film have started by the time I get home? / No, it won't (have). The film won't've started by the time you get home.

4. (Second Conditional) If you upgraded your internet package, you'd get a much faster broadband speed. / How would I get a much faster broadband speed? / By upgrading your internet package. / Would I get a much faster broadband speed, if I upgraded my internet package? / Yes, you would. / Would I get a much faster broadband speed, if I downgraded my internet package? / No, you wouldn't. You wouldn't get a much faster broadband speed, if you downgraded your internet package.

5. (Third Conditional) If Reg'd called in, he would've been able to join in the discussion about gardening. / Which discussion would Reg have been able to join in, if he'd called in? / The discussion about gardening. / Would Reg have been able to join in the discussion about gardening, if he'd called in? / Yes, he would (have). / Would Reg have been able to join in a discussion about music, if he'd called in? / No, he wouldn't (have). Reg wouldn't have been able to join in a discussion about music, if he'd called in.

6. (Reported Speech) Pam said last night that she hadn't heard the doorbell, because there'd been something on in the background. / Why did Pam say last night that she hadn't heard the doorbell? / Because there'd been something on in the background. / Did Pam say last night that she hadn't heard the doorbell, because there'd been something on in the background? / Yes, she did. / Did Pam say last night that she hadn't heard the doorbell, because she'd been washing her hair? / No, she didn't. Pam didn't say last night that she hadn't heard the doorbell, because she'd been washing her hair.

7. (Passive Voice) The paparazzi were encouraged to go after the Z-list celebs which haunted that restaurant. / Which celebs were the paparazzi encouraged to go after? / The Z-list celebs which haunted that restaurant. / Were the paparazzi encouraged to go after the Z-list celebs which haunted that restaurant? / Yes, they were. / Were the paparazzi encouraged to go after the A-list celebs which frequented that restaurant? / No, they weren't. The paparazzi weren't encouraged to go after the A-list celebs which frequented that restaurant.

8. (Imperative Form) Bring your mobile to my office now, so I can ring Jo. / What must I (or do I have to) bring to your office now, so you can ring Jo? / Your mobile. / Must I bring my mobile to your office now, so you can ring Jo? / Yes, you must. / Must I bring my netbook to your office now, so you can ring Jo? / No, you don't have to. You don't have to bring your netbook to my office now, so I can ring Jo.

Sentence Block Extensions

For all of the sentence block starting sentences there are at least two different wh- question words that can be used to make sentence blocks. In one case seven different sentence blocks can be made from the same starting sentence when using different wh- question words. There isn't room here to print in full all **32** of the sentence block extensions from this unit. Hopefully, the answers provided above will give you the teacher (or you the student) enough guidance to be able to make the sentence block extensions for this unit with confidence.

For more fun worksheets, games, and quizzes log onto www.englishbanana.com now!

Talk a Lot

Media

Sentence Blocks

For example, let's look at the last starting sentence from this unit:

Bring your mobile to my office now, so I can ring Jo.

On the handout the wh- question word given is "What", but this starting sentence also works equally well with six other wh- question words: "What" (2nd), "Where", "When", "Who", "Why", and "Which":

What must I do now, so you can ring Jo? / Bring your mobile to my office.

Where must I bring my mobile now, so you can ring Jo? / To my office.

When must I bring my mobile to your office, so you can ring Jo? / Now.

Who must bring their mobile to your office now, so you can ring Jo? / You must.

Why must I bring my mobile to your office now? / So I can ring Jo.

Which mobile must I bring to your office now, so you can ring Jo? / Your mobile (or Yours).

The idea is easy. Change the wh- question word each time and you can make several completely different sentence blocks from the original starting sentence, simply by finding the relevant information for the answer in the starting sentence. As you can see below, sometimes the same wh- question word can be used more than once to make different sentence blocks.

You could cut out and give the section below to your students:

----- ✂ -----
Media

Make new sentence blocks from the starting sentences in this unit using different "wh-" question words:

	WHAT	WHERE	WHEN	WHO	WHY	WHICH	HOW	Total:
1.	what (x2)			who		which	how long	5
2.	what (x2)				why		how	4
3.	what (2 nd)		when					2

Sentence Blocks

-----✂-----

Sentence Blocks – Sentence Stress and Vowel Sounds

Task 1: Circle the content words in the following starting sentences. (For answer, see Task 2 below.)

Media

1. Katy's been listening to Radio 2 at home all morning.
2. Cheryl had given away more freesheets than Dan, because she was more outgoing than him.
3. The programme will've started by the time you get home.
4. If you upgraded your internet package, you'd get a much faster broadband speed.
5. If Reg'd called in, he would've been able to join in the discussion about gardening.
6. Pam said last night that she hadn't heard the doorbell, because there'd been something on in the background.
7. The paparazzi were encouraged to go after the Z-list celebs which haunted that restaurant.
8. Bring your mobile to my office now, so I can ring Jo.

-----✂-----

Sentence Blocks – Sentence Stress and Vowel Sounds

Task 2: Underline the stressed syllable in each content word, shown in black. (For answer, see Task 3 below.)

Media

1. Katy's been listening to Radio 2 at home all morning.
2. Cheryl had given away more freesheets than Dan, because she was more outgoing than him.
3. The programme will've started by the time you get home.
4. If you upgraded your internet package, you'd get a much faster broadband speed.
5. If Reg'd called in, he would've been able to join in the discussion about gardening.
6. Pam said last night that she hadn't heard the doorbell, because there'd been something on in the background.
7. The paparazzi were encouraged to go after the Z-list celebs which haunted that restaurant.
8. Bring your mobile to my office now, so I can ring Jo.

Sentence Blocks – Sentence Stress and Vowel Sounds

Task 3: Write the correct vowel sound above each stressed syllable (underlined). (For answer, see below.)

Media

1. Katy's been listening to Radio Two at home all morning.
2. Cheryl had given away more freesheets than Dan, because she was more outgoing than him.
3. The programme will've started by the time you get home.
4. If you upgraded your internet package, you'd get a much faster broadband speed.
5. If Reg'd called in, he would've been able to join in the discussion about gardening.
6. Pam said last night that she hadn't heard the doorbell, because there'd been something on in the background.
7. The paparazzi were encouraged to go after the Z-list celebs which haunted that restaurant.
8. Bring your mobile to my office now, so I can ring Jo.

----- ✂ -----
Sentence Blocks – Sentence Stress and Vowel Sounds

Each content word (shown in black) contains one syllable with a strong stress, which is underlined. Each stressed syllable has one vowel sound. The vowel sounds on stressed syllables are the most important sounds in the sentence. They make the "sound spine" of the sentence. To improve communication, try to get the sound spine right.

Media

1. Katy's been listening to Radio Two at home all morning.
/eɪ/ /ɪ/ /eɪ/ /uː/ /əʊ/ /ɔː/ /ɔː/
2. Cheryl had given away more freesheets than Dan, because she was more outgoing than him.
/e/ /ɪ/ /eɪ/ /ɔː/ /iː/ /æ/ /ɔː/ /əʊ/
3. The programme will've started by the time you get home.
/əʊ/ /ɑː/ /aɪ/ /e/ /əʊ/
4. If you upgraded your internet package, you'd get a much faster broadband speed.
/eɪ/ /ɪ/ /æ/ /e/ /ʌ/ /ɑː/ /ɔː/ /iː/
5. If Reg'd called in, he would've been able to join in the discussion about gardening.
/e/ /ɔː/ /ɪ/ /eɪ/ /ɔː/ /ɪ/ /ʌ/ /ɑː/
6. Pam said last night that she hadn't heard the doorbell, because there'd been something on in the background.
/æ/ /e/ /ɑː/ /aɪ/ /æ/ /ɜː/ /ɔː/ /ʌ/ /ɒ/ /æ/
7. The paparazzi were encouraged to go after the Z-list celebs which haunted that restaurant.
/æ/ /ʌ/ /əʊ/ /ɑː/ /e/ /e/ /ɔː/ /e/
8. Bring your mobile to my office now, so I can ring Jo.
/ɪ/ /əʊ/ /ɒ/ /aʊ/ /ɪ/ /əʊ/

Discussion Words Question Sheet

Answers

General Questions

1. Answers will vary.

2. Answers will vary.

3. a) 2 words have 1 syllable: bias, show. b) 18 words and phrases have 2 syllables: ratings, touchscreen, programme, tabloid, web page, jingle, advert, freesheet, channel, headline, box set, feature, podcast, mobile, playlist, gossip, viewer, sidekick. c) 9 words and phrases have 3 syllables: file sharing, presenter, convergence, article, journalist, editor, listener, subtitles, censorship. d) 7 words and phrases have 4 syllables: TV licence, competition, remote control, data transfer, HDTV, [Wi-Fi] device, paparazzi. e) 1 phrase has 5 syllables: streaming video. f) 3 phrases have 6 syllables: interactive content, digital radio, reality TV.

4. 2 syllables: these words and phrases have the strong stress on the first syllable: **ratings**, **touchscreen**, **programme**, **tabloid**, **web page**, **jingle**, **advert**, **freesheet**, **channel**, **headline**, **feature**, **podcast**, **mobile**, **playlist**, **gossip**, **viewer**, **sidekick**; this phrase has the strong stress on the second syllable: box **set**. 3 syllables: these words and phrases have the strong stress on the first syllable: **file** sharing, **article**, **journalist**, **editor**, **listener**, **subtitles**, **censorship**; these words have the strong stress on the middle syllable: **presenter**, **convergence**. 4 syllables: this phrase has the strong stress on the first syllable: **[Wi-Fi]** device; this phrase has the strong stress on the second syllable: **TV** licence; these words and phrases have the strong stress on the third syllable: **competition**, **data transfer**, **paparazzi**; these words and phrases have the strong stress on the fourth syllable: remote **control**, **HDTV**. 5 syllables: this phrase has the strong stress on the third syllable: streaming **video**. 6 syllables: this phrase has the strong stress on the second syllable: **reality** TV; this phrase has the strong stress on the fourth syllable: digital **radio**; this phrase has the strong stress on the fifth syllable: interactive **content**.

5. a) advert, article, bias, box set, censorship, channel, competition, convergence, data transfer, digital radio, editor, feature, file sharing, freesheet, gossip, HDTV, headline, interactive content, jingle, journalist, listener, mobile, paparazzi, playlist, podcast, presenter, programme, ratings, reality TV, remote control, show, sidekick, streaming video, subtitles, tabloid, touchscreen, TV licence, viewer, web page, [Wi-Fi] device. b) As a), but in reverse order.

6. a) The following words are compound nouns: freesheet (free + sheet), headline (head + line), censorship (censor + ship), touchscreen (touch + screen), sidekick (side + kick), playlist (play + list), podcast (pod + cast). b) The following words and phrases contain suffixes: **presenter**, **listener**, **data transfer**, **viewer**; **ratings**, file sharing, **streaming video**; **jingle**, **article**; **tabloid**; **advert**; **channel**; **feature**; **digital radio**; **mobile**; **editor**; **journalist**; **remote control**; **interactive content**; **convergence**; **reality TV**; **[Wi-Fi] device**; **TV licence**; **competition**.

7. a) These words and phrases all begin with a vowel sound (grouped by IPA sound): /ɪ/ **interactive content**; /ɑː/ **article**; /e/ **editor**; /æ/ **advert**; /eɪ/ **HDTV**.

b) These words and phrases all end with a vowel sound (grouped by IPA sound): /ə/ **feature**, **presenter**, **listener**, **viewer**, **editor**; /əʊ/ **streaming video**, **digital radio**, **show**; /iː/ **HDTV**, **reality TV**; /i/ **paparazzi**; /z/ **data transfer**.

c) These words and phrases all begin with a consonant sound (grouped by IPA sound): /p/ **paparazzi**, **playlist**, **podcast**, **presenter**, **programme**; /s/ **sidekick**, **streaming video**, **subtitles**, **censorship**; /f/ **feature**, **file sharing**, **freesheet**; /t/ **tabloid**, **touchscreen**, **TV licence**; /r/ **ratings**, **reality TV**, **remote control**; /k/ **competition**, **convergence**; /d/ **data transfer**, **digital radio**; /dʒ/ **jingle**, **journalist**; /b/ **bias**, **box set**; /w/ **web page**, **[Wi-Fi] device**; /tʃ/ **channel**; /g/ **gossip**; /h/ **headline**; /l/ **listener**; /m/ **mobile**; /ʃ/ **show**; /v/ **viewer**.

d) These words and phrases all end with a consonant sound (grouped by IPA sound): /t/ **advert**, **box set**, **freesheet**, **interactive content**, **journalist**, **playlist**, **podcast**; /l/ **article**, **channel**, **jingle**, **mobile**, **remote control**; /s/ **convergence**, **TV licence**, **[Wi-Fi] device**, **bias**; /n/ **competition**, **headline**, **touchscreen**; /p/ **censorship**, **gossip**; /z/ **ratings**, **subtitles**; /ŋ/ **file sharing**; /m/ **programme**; /k/ **sidekick**; /dʒ/ **web page**; /d/ **tabloid**.

8. Many English words contain one or more **silent letters** – letters which are part of the spelling of a word, but which are not pronounced. The aim of this activity is to demonstrate how so often the spelling of a word in English is different from how it sounds when spoken. Below are some good examples of words in this group of discussion words that have silent letters. The silent letters are shown in brackets. No doubt your students will be able to identify some more.

Discussion Words Question Sheet

adve [r] t, chan [n] el, fe [a] tur [e], he [a] dlin [e], jingl [e], sideki [c] k, t [o] uchscreen

9. Answers will vary.

10. There are many possible answers to this question; for example, “box set”, “gossip”, “touchscreen”, and “convergence”, (among others) all contain the vowel sound /s/. Use the phonetic chart on p.18.6 of the **Talk a Lot Elementary Handbook** (available free from <http://www.englishbanana.com/talkalot>) and the phonetic spellings of the vocabulary words on the *Discussion Words (with the IPA)* handout to help your students put the words into sound groups.

Lesson Questions

1. a) show. b) feature. c) bias. d) freesheet. e) playlist. f) mobile. g) jingle. h) viewer. i) editor. j) channel. k) article. l) touchscreen.

2. TV licence.

3. a) mobile. b) box set. c) playlist. d) gossip. e) competition. f) file sharing. g) journalist. h) show. i) paparazzi.

4. convergence.

5. streaming video

6. a) article. b) gossip. c) sidekick. d) jingle. e) listener/viewer. f) HDTV/mobile/box set, etc.

7. a freesheet.

8. i) a) Words which have a weak stress schwa sound /ə/ on the 1st syllable: **presenter**. b) Words and phrases which have a weak stress schwa sound /ə/ on the 2nd syllable: **jingle**, **channel**, **paparazzi**, **feature**, **copyright**, **competition**, **journalist**, **listener**, **data transfer**, **interactive content**, **viewer**. c) Words and phrases which have a weak stress schwa sound /ə/ on the 3rd syllable: **listener**, **article**, **remote control**, **editor**, **subtitles**, **convergence**, **digital radio**, **reality TV**. d) Words and phrases which have a weak stress schwa sound /ə/ on the 4th syllable: **TV licence**, **competition**. ii) 20 words and phrases don't have a weak stress schwa sound: **sidekick**, **touchscreen**, **[Wi-Fi] device**, **show**, **gossip**, **bias**, **playlist**, **programme**, **streaming video**, **mobile**, **ratings**, **tabloid**, **web page**, **file sharing**, **advert**, **freesheet**, **headline**, **box set**, **podcast**, **HDTV**.

9. a) and b) Answers will vary. Suggested answer: file sharing is an activity where members of the public upload files to the internet (usually music or video) to share with other people for free. Often this material is subject to copyright, and files are therefore shared illegally. This potentially deprives the copyright owner of income, because the person who downloads the free files might have bought the material, if it hadn't been available for free.

10. a) **competition**. b) **data transfer**. c) **playlist**. d) **programme**. e) **interactive content**. f) **feature**. g) **interactive content**. h) **convergence**. i) **show**. j) **ratings**. k) **listener**, **interactive content**. l) **presenter**. m) **streaming video**.

Media – Which radio station would they choose?

Student A

Ask and answer questions to complete the gaps, and find out information about each radio station. Think of a person that you know – a friend or family member – who would be likely to tune in regularly to each station. Why would they choose it?

	Rich FM	B.A.M FM
frequency / offers		97-99 FM / the latest pop hits – commercial radio
slogan	"The very best in speech radio."	
target audience		C2DE, high disposable income, aged 14-22
funded by		advertising (16 minutes per hour) & sponsorship
top show (avg. # listeners)	The Book Report (220,100)	
total weekly listeners (avg.)	1.4 million	
weekdays @ 8 am		Crazy Jello Presents the B.A.M. Brekkie Hit Mix!
Thursdays @ 11 pm	Late Night Story	
Saturdays @ 1 pm		The Hit Mix! (with Barry's Tyre and Clutch Centre)

	LEEz BANGIN' CHOONS	Coastal FM
frequency / offers	663 MW / illegal pirate radio	104-106 FM / local radio for the Coastal region
slogan	"Chillin 'n' illin on you steero." [sic]	
target audience		C2DE, time-rich, medium income, aged 45-60
funded by	unlawful sale of Lee's dad's bike	
top show (avg. # listeners)		
total weekly listeners (avg.)	approx. 800 (plus Lee's dog Mallett)	
weekdays @ 8 am		Wake Up and Relax – with Sammy and Sally
Thursdays @ 11 pm	"More sik CHoonz chos by Lee"	
Saturdays @ 1 pm		Clark Rogerson's Laughter Class

Note: ABC1 & C2DE are categories used by marketing companies to describe the socio-economic background of their target audience. They are based on factors such as age, income, job, education, skills, and aspirations, etc.

Student B

Ask and answer questions to complete the gaps, and find out information about each radio station. Think of a person that you know – a friend or family member – who would be likely to tune in regularly to each station. Why would they choose it?

	Rich FM	B.A.M FM
frequency / offers	94-96 FM / quality speech radio	
slogan		"All the hits – all the time!"
target audience	ABC1, good income, aged 40-60	
funded by	audience subscription	
top show (avg. # listeners)		The New Max Cola Midweek Hit Chart (649,000)
total weekly listeners (avg.)		2.3 to 2.4 million
weekdays @ 8 am	Breakfast News	
Thursdays @ 11 pm		The Hitzzzz – Sponsored by Slumberworld Beds
Saturdays @ 1 pm	The Saturday Play	

	LEEz BANGIN' CHOONS	Coastal FM
frequency / offers		
slogan		"Keeping you up to date in your neighbourhood."
target audience	anyone who happens to tune in	
funded by		advertising (14 minutes per hour)
top show (avg. # listeners)	Leez Bangin' Choons (85+)	Gardening Time with Marigold Pluck (370,350)
total weekly listeners (avg.)		998,000 to 1.2 million
weekdays @ 8 am	off the air ("at skool")	
Thursdays @ 11 pm		Mark Pemberley Up Late
Saturdays @ 1 pm	off the air ("footy")	

Note: ABC1 & C2DE are categories used by marketing companies to describe the socio-economic background of their target audience. They are based on factors such as age, income, job, education, skills, and aspirations, etc.

Task: "Ask and answer questions to complete the gaps, and find out information about each radio station. Think of a person that you know – a friend or family member – who would be likely to tune in regularly to each station. Why would they choose it?"

	Rich FM	B.A.M FM
frequency / offers	94-96 FM / quality speech radio	97-99 FM / the latest pop hits – commercial radio
slogan	"The very best in speech radio."	"All the hits – all the time!"
target audience	ABC1, good income, aged 40-60	C2DE, high disposable income, aged 14-22
funded by	audience subscription	advertising (16 minutes per hour) & sponsorship
top show (avg. # listeners)	The Book Report (220,100)	The New Max Cola Midweek Hit Chart (649,000)
total weekly listeners (avg.)	1.4 million	2.3 to 2.4 million
weekdays @ 8 am	Breakfast News	Crazy Jello Presents the B.A.M. Brekkie ¹ Hit Mix!
Thursdays @ 11 pm	Late Night Story	The Hitzzzz – Sponsored by Slumberworld Beds
Saturdays @ 1 pm	The Saturday Play	The Hit Mix! (with Barry's Tyre and Clutch Centre)

	LEEz BANGIN' CHOONS	Coastal FM
frequency / offers	663 MW / illegal pirate radio	104-106 FM / local radio for the Coastal region
slogan	"Chillin 'n' illin on you steero." [sic] ²	"Keeping you up to date in your neighbourhood."
target audience	anyone who happens to tune in	C2DE, time-rich, medium income, aged 45-60
funded by	unlawful sale of Lee's dad's bike	advertising (14 minutes per hour)
top show (avg. # listeners)	Leez Bangin' Choons (85+)	Gardening Time with Marigold Pluck (370,350)
total weekly listeners (avg.)	approx. 800 (plus Lee's dog Mallett)	998,000 to 1.2 million
weekdays @ 8 am	off the air ("at skool")	Wake Up and Relax – with Sammy and Sally
Thursdays @ 11 pm	"More sik ³ CHoonz chos by Lee" ⁴	Mark Pemberley Up Late
Saturdays @ 1 pm	off the air ("footy" ⁵)	Clark Rogerson's Laughter Class

Note: ABC1 & C2DE are categories used by marketing companies to describe the socio-economic background of their target audience. They are based on factors such as age, income, job, education, skills, and aspirations, etc.

"Think of a person that you know – a friend or family member – who would be likely to tune in regularly to each station. Why would they choose it?" When they have completed filling the gaps, students should discuss which radio station a particular friend or member of their family would tune into regularly, and why. Answers will be subjective and therefore vary from student to student. Students should produce appropriate reasons for their choices – why they would choose one station rather than another. For example: "I think my mum would tune into Coastal FM, because she always listens to local radio. I don't think she would like Lee's radio station, because I know that she prefers easy listening music." Or... "I think my friend Ryan would tune into Rich FM, because he's a news junkie [i.e. "addicted" to news] and loves to be up to date with what's going on in the world each morning. He wouldn't tune into B.A.M. FM, because he only listens to lute music from the early middle ages..." [etc.]

Sample Questions

What's _____'s frequency?
 What does _____ offer?
 What is _____'s slogan?
 What is the target audience of _____?
 How is _____ funded?
 What is the top show on _____?
 How many listeners does it receive, on average?

Sample Answers

_____ 's frequency is _____.
 _____ offers _____.
 _____ 's slogan is _____.
 The target audience of _____ is _____.
 _____ is funded by _____.
 _____ is the top show on _____.
 It receives _____ listeners, on average.

¹ brekkie is a slang word that means *breakfast*

² [sic] indicates that the spelling mistakes have been left in the text on purpose. Clearly Lee has problems with English

³ sik is a slang word that means *great*

⁴ this sentence means: "More great tunes chosen by Lee."

⁵ footy is a slang word that means *football*

For more fun worksheets, games, and quizzes log onto www.englishbanana.com now!

Talk a Lot

Media

Information Exchange

How many people listen to _____ every week, _____ people listen to _____ every week, on average?
What's on _____ on weekdays at 8 am? _____ is on _____ on weekdays at 8 am.
What can I hear on _____ every Thursday at 11 pm? You can hear _____ on _____ every Thursday at 11 pm.
What is broadcast on Saturdays at 1 pm on _____? _____ is broadcast on Saturdays at 1 pm on _____.

Examples

How is Rich FM funded? Rich FM is funded by audience subscription.
What is the top show on B.A.M. FM? The New Max Cola Midweek Hit Chart is the top show on B.A.M. FM.
What's on LEEz BANGIN' CHOONS on weekdays at 8 am? The station is off the air because Lee is at school.
What is broadcast on Saturdays at 1 pm on Coastal FM? Clark Rogerson's Laughter Class is broadcast on Saturdays at 1 pm on Coastal FM.

[etc.]

Extension 1:

You could try to encourage some comparative/superlative questions and answers, for example:

Which radio station has the fewest listeners, on average? LEEz BANGIN' CHOONS has...
Which radio station plays the most hit music? B.A.M. FM plays...
Which radio station has the most advertising? B.A.M. FM has...
Which radio station targets the wealthiest listeners? Rich FM targets...
Does _____ have more advertising than _____? Yes, it does. / No, it doesn't.

[etc.]

Extension 2:

Working in pairs or small groups, students could use the template given to plan their own imaginary radio station, including name, frequency, type, slogan, etc. They could design a poster advertising the station, or create a jingle for one of their shows – or radio adverts for different products. Get them to compare their station with another group's, and then present their ideas to the whole class. If possible, each pair or group could record their jingle(s) and/or adverts, enabling you to make a class CD (or podcast) featuring their work.

Extension 3:

Encourage students to work in pairs to develop short role plays or dialogues, where one of them plays a DJ hosting a phone-in discussion show, and the other is a caller. Each student should play their character with a particular mood, e.g. angry, happy, annoying, arrogant, etc., which the other has to guess. Get them to think of a particular hot topic to discuss – e.g. "Should we bring back the death penalty?" – and give them a few minutes to devise the dialogue, before then sharing all of the role plays with the whole group – who also have to guess the moods.

Extension 4:

If your students are up for it, encourage them to put together their own radio show, using either their own imaginary radio station, or one of the stations in the activity. They could then record it, or perform extracts for the whole class, who could vote on which group has worked the hardest.

Read All About It! (Original Text)

Line

1 One autumnal day at the crack of dawn, Dennis was walking into town, when an
2 alarmed youth in an orange tabard abruptly forced some torn banknotes into his
3 hand, and passed him a full bag of fresh newspapers. "If you take this bag," he said
4 urgently, boggle-eyed, "I'll give you twenty-five pounds!" Dennis took the money and
5 the bag, and the youth ran away screaming. Shortly afterwards, Dennis nonchalantly
6 abandoned the bag behind a bench and went on his way. Suddenly he heard an
7 unfamiliar accent: "Hey! No hide papers, man!" Dennis found himself being pursued
8 by an angry-looking hippy wearing an orange tabard, and closely observed by a slim
9 raven-haired femme fatale. He ducked into an alley and prostrated himself behind
10 some bins that reeked of pickle. All was quiet. "Don't speak!" croaked a terrified
11 teen, who was also clad in an orange tabard. Dennis grew mystified. "I'm Stevo,"
12 confessed the boy. "I hide here each morning and wait 'till the shift's finished. I bin all
13 my freesheets! I can't take it! The wind – the h-howling wind! The rejection when
14 people say 'No thanks, mate!' The fear!" "So why don't you quit?" asked Dennis.
15 "Dax!" intoned Stevo. "Dax is the gaffer. He'll kill me! Nobody can leave!" He
16 rocked upon his heels and quivered. "What about his girl?" enquired Dennis casually.
17 "Kristina's his *cousin*," vouchsafed Stevo. "Thank you, my friend," declared
18 Dennis, getting up. "Your secret's safe with me!" The next morning Dennis began his
19 first shift giving away freesheets. By the end of the week he'd had four dates with
20 Kristina, and within two weeks they'd split up and he'd been given the sack – along
21 with two black eyes – by the celebrated Dax. But he never did rat on Stevo, who,
22 perhaps, even to this day, is still timidly hiding there behind the pickle merchant's.

Read All About It! (What's the Question?)

1. Autumn.
2. Kristina.
3. Answers will vary, e.g. because Dax didn't like Dennis going out with his cousin.
4. Dennis.
5. Kristina.
6. Because he didn't want to do his job giving away freesheets.
7. Manager of the freesheet team.
8. Twenty-five pounds in cash and his bag of freesheets.
9. Black – she was raven-haired.
10. Freesheets (free newspapers).
11. We don't know exactly. He was a working teenager, so presumably between sixteen and nineteen.
12. Answers will vary, e.g. the job made him feel stressed out.
13. He left it behind a bench.
14. For about two weeks.
15. No, he didn't.
16. Dax.
17. So that he would take his bag of freesheets, allowing him to leave.
18. Orange.
19. Because he fancied Kristina.
20. Behind some pickle-filled bins.
21. No, he spoke in broken English.
22. Two people.
23. A person who worked giving away freesheets.
24. He was walking into town.
25. Freesheet distributor.
26. AWOL freesheet distributor Stevo.
27. Because he was afraid of Dax.
28. It was early in the morning.
29. Four.
30. Dax did.

Read All About It! (True, False, or Unknown?)

1. Dax was from The Netherlands.
2. Dax gave Dennis two black eyes.
3. Dennis kept Stevo's secret.
4. Stevo asked Dennis his name.
5. Dennis was given twenty pounds.
6. Kristina was attracted to Dennis because of his looks.
7. Dax was formerly a customer operations manager for a well-known global brand.
8. Dax beat up Dennis because Dennis dumped Kristina.
9. Kristina liked Dennis.
10. Dax had been the freesheet team's manager for two years.
11. Kristina was Dax's cousin.
12. The freesheet business has since closed down due to falling revenues.
13. The freesheet distributors were afraid of their boss.
14. Stevo is still in hiding.
15. Stevo wouldn't tell Dennis what he wanted to know.
16. Dennis was originally going to the bank.
17. Dennis made twenty-five pounds.
18. Dax was pleased that Dennis and Kristina got together.
19. The youth who gave Dennis twenty-five pounds was called Gareth.
20. Dennis and Kristina went out for a week.
21. The newspaper distributors had to wear orange tabards.
22. Kristina was Dax's second-cousin.
23. Two angry hippies chased Dennis.
24. Dennis and Stevo hid behind a pickle merchant's.
25. Dennis spent some of the twenty-five pounds on a large jar of pickle.
26. Dennis took the money, then left the bag behind a bench.
27. Stevo was twenty-five years old.
28. The story took place in winter.
29. Stevo was afraid of Dax.
30. Dax spoke English really well.

Glossary of New Words

Here are some words and phrases from the text that may be unfamiliar. You could either pre-teach them, or encourage students to find translations in a bilingual dictionary. Stressed syllables are underlined.

Line:	Unfamiliar English:	Definition / Explanation:
1	autumnal	(adj) connected with the season of autumn
1	at the crack of dawn	(id) very early in the morning
2	a tabard	(n) a brightly-coloured sleeveless tunic, usually worn by people who are working in the street as part of a team
4	urgently	(adv) forcefully, with much energy, in a powerful manner
4	boggle-eyed	(adj) staring with wide-open eyes, e.g. a very surprised or very stressed person might look at you in a boggle-eyed way
5	nonchalantly	(adv) casually, in a relaxed manner
6	to abandon	(v) to leave sth or sby somewhere, with the intention of never returning
7	"Hey! No <u>hide</u> papers, <u>man</u> !"	(phr) Clearly, English is not Dax's first language. He means to use the imperative form: "Hey! Don't hide the papers!" "man" is a word that hippies tend to use as a general form of address for people that they meet
7	to pursue	(v) to follow, to chase
9	raven-haired	(adj) with shiny black hair. "raven-haired" implies that the woman is enigmatic and exotic: not simply "black-haired", but "raven-haired"
9	femme-fatale	(n) a term used to describe a beautiful, mysterious, dangerous, woman
9	to duck into	(phr v) when being pursued, to quickly change direction
9	to prostrate yourself	(v) to lie down flat on your front
10	to reek	(v) to smell of sth unpleasant, e.g. rotting food
10	to croak	(v) to speak in a low voice with a dry throat
11	teen	(n) teenager
11	to be clad in sth	(v phr) to be wearing sth
11	mystified	(adj) very confused, bewildered
11	Stevo	(person) first name – nickname for "Steven"
12	to bin sth	(v, sl) to put sth in the bin
13	freesheets	(n) free newspapers which are given away outside bus and train stations and in town centres by part-time workers (often students)
13	h-howling	(adj) the repetition of the first letter – "h" – indicates that Stevo is shivering with either cold or fear – or both
15	Dax	(person) we can assume from Dax's name – in particular from the letter "x" – that he is not from the UK; as well as from how he speaks in line 7
15	to intone	(v) to speak slowly and distinctly so that your listener hears you very clearly
15	the gaffer	(sl) the boss, the manager
15	"He'll <u>kill</u> me! <u>Nobody</u> can <u>leave</u> !"	(phr) this is (hopefully!) an exaggeration brought about by fear and intimidation on the part of Dax
16	He <u>rocked</u> upon his <u>heels</u>	(phr) we imagine Stevo sitting on the floor cross-legged, hugging his knees, rocking backwards and forwards, with his heels pressed to the floor
16	to quiver	(v) to tremble
17	to vouchsafe	(v) to tell sth in an exaggerated manner (old-fashioned terminology)
19	a date	(n) a romantic meeting
20	to split up	(phr v) to break up; to end a romantic relationship
20	to be given the sack	(v phr) passive form; to be told that your job no longer exists
21	two black eyes	(phr) you would get a black eye if somebody punched you in the face, making the area around your eye turn black and blue
21	the celebrated Dax	(adj) in this context "celebrated" is used in an ironic way to mean "notable", "famous" or "renowned". It's ironic, since he is more "feared" than "celebrated"
21	to rat on sby	(phr v) to tell on sby, to give somebody away, to tell sby's secret
22	who, <u>perhaps</u> , <u>even</u> to this <u>day</u> , is <u>still</u> ...	(iron) this is tongue-in-cheek, because the reader knows that the story is fictional (don't they...?!)
22	timidly	(adv) nervously, in a frightened manner
22	<u>pickle-merchant's</u>	(n) again, this is rather tongue-in-cheek, and used for comic effect. Most readers will realise that there are no shops in the UK that sell only pickles!

(adj) adjective
(adv) adverb
(id) idiom
(iron) irony

(n) noun
(phr) phrase
(phr v) phrasal verb
(sby) somebody

(sl) slang
(sth) something
(v) verb
(v phr) verb phrase

Extension 1:

Ask students to count the number of characters in the text (there are four named characters), then to create a role play or dialogue, using a few of the characters. Or, students could work on their own and create a monologue using one character from the text (or a bystander), where they recall what happened from their point of view.

Extension 2:

Students continue the story – either as a role play or a monologue – and explore what happened next... Or, they could imagine a prequel – what were the characters doing... a) one week, b) one day, or c) one hour before the story begins?

Answers:

Read All About It! (Guess the Function Words)

See Original Text for answer.

Read All About It! (What's the Question?)

Answers will vary. Suggested answers:

1. What season was it?
2. Who watched Dennis being chased?
3. Why do you think Dennis got two black eyes?
4. Who was walking into town at the beginning of the story?
5. What was the name of Dax's cousin?
6. Why was Stevo hiding?
7. What was Dax's job?
8. What did the youth in an orange tabard give to Dennis?
9. What colour hair did Dax's cousin have?
10. What was Stevo supposed to hand out?
11. How old was Stevo?
12. Why do you think the youth at the beginning of the story was so upset?
13. What did Dennis do with the bag of newspapers?
14. How long did Kristina go out with Dennis for?
15. Did Dennis give away Stevo's secret?
16. Who chased Dennis?
17. Why did the youth give Dennis twenty-five pounds?
18. What colour tabards did the newspaper team have to wear?
19. Why did Dennis want to get a job giving away freesheets?
20. Where did Dennis hide?
21. Was Dax an English native speaker?
22. How many people hid behind the pickle merchant's?
23. Who was Stevo?
24. Where was Dennis going at the start of the story?
25. What new job did Dennis get?
26. Who did Dennis meet behind the bins?
27. Why wouldn't Stevo quit his job?
28. What time was it at the beginning of the story?
29. How many dates did Dennis have with Dax's cousin that week?
30. Who shouted at Dennis?

Role Play with Non-Literal English

1. Practise the role play with a partner. Find and underline **nine** examples of non-literal English* and match each one to a category below:

1. play-fighting	2. idioms	3. jargon
4. phrasal verbs	5. irony	6. slang
7. cliché	8. hyperbole	9. colloquialisms

* For more information about each category, please see pp.36-38.

-----✂-----
Matt and Clare are journalists writing for the technology section of a national newspaper. They are also good friends. Matt was born in Derbyshire. Matt enters the office:

Matt: Eyup, miduck!
Clare: Hi, Matt.
Matt: What've you got there?
Clare: It's the prototype from Panasonic for their latest TV projector. I'm going to review it.
Matt: Open the box and let's play with it. *[Impatiently, as she struggles with the packaging]* Hey! Get a move on!
Clare: OK. I've done it. Look, it says on the packaging, "...the whole world in your pocket!"
Matt: Let me see that. *[Reading:]* "...boasts picture quality like nothing else on earth." Hmm. *[Reading:]* "...this pocket device includes a 3.3 inch WVGA AMOLED display for ease of use..." The design is amazing. Let's see whether it works. Where's the thingummybob?
Clare: What?
Matt: The on button. Ah, here it is. *[He switches it on. A weak image is projected onto the wall]* Oh, but that's absolutely pathetic. Is that the best it can do?
Clare: You know, I thought it was going to be fantastic. It won a major prize at the electronics fair.
Matt: Oh yes, I can see how fantastic it is! *[He waves the gadget in her face]*
Clare: Hey pack it in!
Matt: Make me! *[He starts to follow her around the desk]* Can I help you review any more gadgets today, Miss Eliot?
Clare: I hate you, Matthew Peterson!

[He chases her out, but she thrashes him with the empty box. Both laugh]

-----✂-----
2. Replace each example of non-literal English with one of the literal words or phrases below. Practise the role play using only literal English, then using non-literal English. What differences do you notice? Which version sounds more natural? Why? Which do you prefer?

a) I like you. You make me laugh	b) an up-to-date kind of screen	c) hi
d) it isn't very good	e) hurry	f) something that I can't remember the name of now
g) "...it's useful and convenient."	h) stop	i) "...it projects the image very well."

Talk a Lot

Media

Role Play with Non-Literal English

Answers:

Feature of Non-Literal English:	Example in this Text:	Literal Translation:
1. play-fighting	I hate you, Matthew Peterson!	a) I like you. You make me laugh
2. idioms	Get a move on!	e) hurry
3. jargon	a 3.3 inch WVGA AMOLED display	b) an up-to-date kind of screen
4. phrasal verbs	pack it in!	h) stop
5. irony	Oh yes, I can see how fantastic it is!	d) it isn't very good
6. slang	thingummybob	f) something that I can't remember the name of now
7. cliché*	"...the whole world in your pocket!"	g) "...it's useful and convenient."
8. hyperbole	"...boasts picture quality like nothing else on earth."	i) "...it projects the image very well."
9. colloquialisms	Eyup, miduck!	c) hi

* Cliché and hyperbole are closely related in that clichés are often used to make hyperbolic sentences, for example: "My new camera is simply the best, because the picture quality is out of this world!" The underlined phrases are clichés, while the entire sentence is an example of hyperbole – saying that something is much better than it really is.

Note: in general, using non-literal English will help students' spoken English to sound more natural, because native speakers of English often favour non-literal forms – such as idioms, phrasal verbs, and slang – over the more literal, "dictionary definition" words and phrases that they replace.

Media

Features of Non-Literal English – Part 3

1. PLAY-FIGHTING or VERBAL SPARRING

An informal part of a conversation when the participants pretend to have an argument and say unkind things to each other, but don't mean what they say. It is just for fun.

Example:

[Peter's girlfriend comes in and shuts the front door. They appear to be very much in love. Peter says:]

"Hi piggy [nickname]. Did you pick up my dry cleaning?"

"No, I forgot." (They kiss)

"You dozy muppet!" [dozy muppet = offensive slang for "silly idiot"]

(She laughs and hits him in the face with a cushion)

He says: "Come here, I'm going to have to sort you out." [euphemism for "I'm going to kiss and cuddle you". In a different context, e.g. a nightclub brawl, "sort you out" could also mean "beat you"]

"Oh, please don't!" (her face and body language indicate that she is enjoying the interchange) "You're such a naughty boy! I'm going to call the police...!"

"Po-lice do!" ["po-lice" is a pun on the word "please" – both have similar sounds]

[etc.]

When:

When you want to tease somebody that you are close to and interact with them in a way that is spontaneous, fun, and perhaps a little challenging, because there may be a grain of truth there beneath the pretend insults and joking. For example, although they are joking and clearly in love, the fact that he calls her "You dozy muppet!" may betray the fact that deep down he doesn't really respect her. The context of the play-fighting gives him licence to say what he *really* feels, either consciously or subconsciously.

2. IDIOMS

See Unit 1: Hotel – Features of Non-Literal English – Part 1

3. JARGON

Jargon (an uncountable noun) is technical language that is specific to a particular job or field of interest. It is characterised by long words and/or unfamiliar words and expressions (often including acronyms, e.g. FCE) that cannot be understood by a person outside of the related job or field of interest, i.e. a layman – one who has not been initiated in this area, and therefore lacks specialist knowledge. Fields that typically have a lot of jargon are: technology, computing, the military, and, of course, education – including EFL and ESL. (The acronyms prove the point!)

Example:

[Phil is in a computer shop with his mum, who wants to buy a new PC:]

Mum: "I just need to be able to use email, and perhaps buy something online."

Phil: "What about this new HP laptop? It's equipped with the AMD Athlon II Dual-Core Processor P320, which is brilliant, and features a widescreen 1366x768 resolution LED-backlit display, plus an ATI Mobility Radeon HD 4250 Graphics card – which means it's good."

Mum: "What was that, love? You lost me after 'laptop'..."

[Phil believes the laptop to be good, because he understands the jargon. His mum, on the other hand, will have to take his word for it, or take time to learn the meaning of the jargon.]

When:

When you want to communicate technical information quickly to people who are able to decode what you mean. Or when you want to deliberately exclude people who are not part of the group.

Talk a Lot

Media

4. PHRASAL VERBS

See Unit 1: Hotel – Features of Non-Literal English – Part 1

5. IRONY

Irony is a way of speaking where we say something that is obviously not true, and the listener realises that we mean something else, even the opposite of what we have just said. This is an effective way of drawing attention to what we really mean, which is the thing that we don't say.

Example:

[It's raining. You say to your friends:] "What a lovely day!" [Everybody smiles]

When:

When you want to draw attention to something that you think is important by highlighting how much it differs from the way in which it wants to present itself, e.g. if a male politician wanted to present an image of himself as a family man, it would be ironic to point out that he has had many affairs in the past. The use of irony often results in humour. It is similar to the comic technique of reversing the expectations of the listener – we say what the listener is not expecting to hear, which provokes a laugh. Because we have been surprised – or even shocked – by the reversal, we laugh as a form of relieving the tension, and hiding our surprise, so as not to lose face in the eyes of the speaker.

6. SLANG

See Unit 2: Problems – Features of Non-Literal English – Part 2

7. CLICHÉ

An unoriginal and corny phrase which has lost its power to be relevant in a situation, because it has been used too many times before.

Example:

Mandy: "I really miss my boyfriend. I wish we could have stayed together."

Mandy's grandma: "Don't worry, my dear. *Time heals all wounds.*" ["*In the future you will feel less pain*"]

When:

When you can't think of anything more original to say. People tend not to like clichés – such as over-used sayings and idioms, rhymes in greetings cards, or lyrics to cheesy pop songs – because using them shows a lack of originality of thought on the part of the speaker. It's as if they can't be bothered to even *paraphrase* the cliché. Using clichés can betray a certain amount of insincerity, and indicate that the speaker is not really listening to you – and definitely not empathising with you [putting themselves in your place]. Clichés can also be used in an ironic way. For example, when both speaker and listener know that the *opposite* of what is being said is – or will be – true.

8. HYPERBOLE

A statement that something is bigger, better, or more positive than it really is.

Example:

[Your new girlfriend invites you to her home and cooks dinner for you for the first time:]

"This is the best meal I've ever had!" [What he means: "I'm glad that you invited me here and I want to impress you with my good behaviour and attitude. The meal is actually quite average, as meals go."]

When:

When you want to please somebody (see above), or show off about something (e.g. "I've got the best trainers in my whole town!"). It can often be seen in advertising, e.g. "Our prices are out of this world!"

Talk a Lot

Media

9. COLLOQUIALISMS [DIALECT WORDS OR PHRASES]

A colloquialism is an informal word or phrase that originates from – and is mainly used in – a particular place. Instead of the standard dictionary word for something, local people use their own local word or phrase.

Example:

Mum: “Do you want a cheese and tomato cob for lunch?” [cob = bread roll in parts of the Midlands and northern England]

Tom: “Yes please, mum.”

When:

When you want to show that you come from a particular part of the country; to show allegiance to your home town and area; or because it’s the word for something that you’ve grown up using – that you’ve always used.

Media – English Idioms Activities

Meaning and Context

1. Check for new vocabulary. Are there any idioms that you know already? Explain each meaning and give an example sentence or situation in which you could use it. Find the meaning of the rest by using a dictionary, then match the definition cards with the idiom cards.
2. Do any of the idioms exist in your first language? Translate each idiom.
3. Divide the idioms into four categories: **Radio**, **Television**, **Journalism**, and **New Media**.
4. Take some cards. Describe the idiom on a card without saying it.
5. How many idioms can you remember when they are all turned over?

Practice Activities

Choose a random idiom (or one that particularly interests you) and...

1. think of a time or situation in your life when you... a) could have said this idiom (past), and b) might say this idiom (future).
2. say the name of a person you know who would be the *most likely* to say this. In what kind of situation?
3. others guess while you act it out without speaking, although you can make sounds!
4. others guess while you draw a picture to represent both forms – idiomatic and literal.
5. analyse the words. Is it at all possible to guess the meaning from the words – or completely impossible? Research the origin and background of this idiom.
6. replace the idiom in a sentence with the literal (boring) meaning. Compare the two sentences. Which sounds better? Why?
7. think of another idiom or saying that has the same or a similar meaning.
8. tell a story or devise a dialogue/role play by linking one idiom to the next.

Topic Questions

1. Choose the correct idiom. 2. Make a sentence about... a) yourself, b) a friend.

1. I might do this while I'm doing something else – because I don't like silence.
2. This is what you do when you make somebody very frustrated or angry.
3. You could say this when you are desperate to find out what other people are doing.
4. This is what people do when they don't want you to know *everything*, e.g. politicians.
5. If you are completely absorbed in the TV show that you're watching, you are this idiom.
6. A corrupt public figure who has *too close* a relationship with the media could be this.
7. This is what the producers of innovative new media content do...
8. ...and this is what other producers do when they have run out of ideas.
9. This idiom describes the experience of listening to a really bad song straight after a great one.
10. You could use this idiom to describe a new purchase that you're really pleased with...
11. ...and this idiom to describe something that doesn't work or is a complete waste of time.
12. You do this when you *use* somebody, e.g. taking without any intention of paying them back.

Please _____ to access your email account.
_____ the page to read our exclusive interview with Charlize Theron.
The TV show was _____ tickets to an upcoming Justin Bieber concert.
Lisa was trying to _____ on the amount of telly she watched, because so much of it was just a load of old rubbish [low quality].
When I've finished reading my paper, I usually _____ it _____.
The girls _____ with the telethon by donating money online.

Talk a Lot

Media – English Phrasal Verbs Activities

This is a handy table showing **collocations** – words that go well with these phrasal verbs. You could use it to make a quick quiz for students after they have learned the meanings, e.g. “Which phrasal verb is to do with photographs?” Or “Find a phrasal verb that’s transitive separable.” Or guess the preposition linking phrasal verb and object, e.g. “To join in **with** a competition...” Or encourage students to build sentences (positive, negative, and question forms) by linking content words together using function words, e.g. “My **sister called in** to the **radio station earlier**.” etc.

#	subject (person)	p/verb*	tr?	sep?	collocation e.g.	place / time e.g.
1.	a pronoun, e.g. I, you, he, she, etc.	switch on	✓	✓	the telly / a computer	in the living room / office
2.		log in	✗	-	to an account, e.g. email	at work / at home
3.		throw away	✓	✓	some rubbish	outside / in the kitchen
4.		tune into	✓	✓	a radio station	in the car / every morning
5.		zoom in	✗	-	on a photo	on the screen
6.		give away	✓	✓	a flyer / a free sample	in the street / at the mall
7.		shut down	✓	✓	a newspaper	in 1986 / last month
8.		go after	✓	✗	a famous actor	outside a nightclub
9.		trade up	✗	-	to a better model	every year / regularly
10.		call in	✗	-	to a talk show on the radio	during the programme
11.	a person or thing, e.g. the presenter, my sister, Peter, the television, my Auntie Ruth, the boys, etc.	get into	✓	✗	a group / album / novel	at the moment / recently
12.		cut down	✗	-	on TV / on chocolate	at the moment / lately
13.		join in	✗	-	with sth / with the debate	on the show / in the media
14.		find out	✗	-	some information / gossip	online / at work
15.		turn down	✓	✓	the volume / the heating	on the radio / at home
16.		listen to	✓	✗	music / a radio play	often / sometimes / rarely
17.		sell out	✗	-	quickly / completely	due to high demand
18.		catch up on	✓	✗	the latest episode / news	for the past hour or two
19.		scroll down	✗	-	the page	on the screen / monitor
20.		turn over	✗	-	the page / the paper	while reading / in the library

Notes: **tr = transitive** – the phrasal verb can have an object. **sep = separable** – some transitive phrasal verbs are separable, which means that the object, e.g. an object pronoun like “him” or “it”, or somebody’s name, can go before the particle or after it. Some transitive phrasal verbs are **inseparable** – the object has to go after the particle. **Intransitive** phrasal verbs do not have an object, therefore cannot be separable or inseparable. Remember, some phrasal verbs, e.g. “get into”, have a range of meanings. The information here relates to the definitions given on the “20 Common English Phrasal Verbs” handout.

* Choose any verb form, e.g. Present Perfect Continuous, Third Conditional, Future Perfect, etc.

Topic Questions

Choose the correct phrasal verb, and make a sentence about... a) yourself, b) a friend:

- having a chat with a relative after a long time apart from them.
- contacting a DJ who is live on the air, to state your opinion or ask for a request.
- handing out leaflets or free newspapers to passersby in the street.
- trying to like a new TV series or book that everybody else is raving about [loves].
- attempting to buy the latest gadget when it first goes on sale – but without success.
- spending less time listening to the radio, watching TV, or using the internet.
- chasing a famous person in the street in order to get their autograph.
- what you do with a computer... a) first thing in the morning, b) last thing at night.
- wanting to buy a newer and better mobile or gadget, to replace your current model.
- regularly listening to the same programme on the radio.
- getting rid of something that no longer works or doesn’t have any value.
- reading a long text message, or information online that doesn’t fit on the screen.
- doing something that other people are also doing.
- getting some information from an online dictionary or encyclopaedia.

Media – English Slang Words and Phrases Activities

Meaning and Context

1. Check for new vocabulary. Are there any words/phrases that you know already? Explain each meaning and give an example sentence or situation in which you could use it. Find the meaning of the rest by using a dictionary, then match the definition cards with the slang cards.
2. Who would you be speaking to when you used these words and phrases? Are there any words or phrases that you wouldn't use with certain people? If yes, why not?
3. Do any of the slang words and phrases exist in your first language? Translate them.
4. Divide the slang into four categories: **Radio**, **Television**, **Journalism**, and **New Media**.
5. Take some cards. Describe the slang word or phrase on a card without saying it.
6. How many slang words/phrases can you remember when they are all turned over?

Practice Activities

Choose a random slang word or phrase (or one that particularly interests you) and...

1. think of a time or situation in your life when you... a) could have used this slang (past), and b) might use this slang (future).
2. say the name of a person you know who would be... a) the *most likely* to say this, and b) the *least likely* to say it. In what kind of situation?
3. others guess while you act it out without speaking, although you can make sounds!
4. others guess while you draw a picture to represent both forms – slang and dictionary (literal).
5. analyse the word(s). Is it at all possible to guess the meaning from the words – or completely impossible? Research the origin and background of this slang word or phrase.
6. replace the slang word or phrase in a sentence with the literal (boring) meaning. Compare the two sentences. Which sounds better? Why?
7. think of another slang word or phrase that has the same or a similar meaning.
8. tell a story or devise a dialogue/role play by linking one slang word/phrase to the next.

Topic Questions

1. Choose the correct slang word or phrase. 2. Make a sentence about... a) yourself, b) a friend.

1. This example of "text-speak" indicates that I found something funny.
2. I might say this to a close friend or family member if I wanted them to be quiet.
3. This is a catchy tune that I can't stop thinking about.
4. This is a derogatory term for lowbrow newspapers that print scandalous stories.
5. Find two different slang phrases that mean the same thing – and say what it is.
6. This is a project that doesn't get off the ground – an idea that is badly conceived.
7. An idle telly addict, or gamer, who seems to be attached to the sofa might be described as this.
8. People who make use of this service can use any computer that is connected to the internet, and still access all of their files.
9. If you listen to this, you will get a comprehensive view of which music is popular these days.
10. You can find them at every showbiz party in town. In fact they never turn down an invitation!

English Phrasal Verbs – Pronunciation and Linking

Phrasal Verb:	What Happens?	IPA Spelling:	Phrasal Verb:	What Happens?	IPA Spelling:
1. switch on	L: (cv) changes to (vc)	/'swɪtʃɒn/	11. get into	L: (cv) changes to (vc)	/'geɪtɪn.tu:/
2. log in	L: (cv) changes to (vc)	/'lɒɡɪn/	12. cut down	E: (cc) changes to (vc)	/'kʌt'daʊn/
3. throw away	I: (vv) changes to (vc)	/'θrəʊ.wə'weɪ/	13. join in	L: (cv) changes to (vc)	/'dʒɔɪ'nɪn/
4. tune into	L: (cv) changes to (vc)	/'tjuːnɪn.tu:/	14. find out	E: (cv) changes to (cc) ¹	/'faɪn'daʊt/
5. zoom in	L: (cv) changes to (vc)	/'zuːmɪn/	15. turn down	L: (cc) remains (cc) ²	/'tɜːn'daʊn/
6. give away	L: (cv) changes to (vc)	/'ɡɪ.və'weɪ/	16. listen to	L: (cc) remains (cc) ³	/'lɪ.sən'tuː/
7. shut down	E&G: (cc) changes to (vc)	/'ʃʌt'daʊn/	17. sell out	L: (cv) changes to (vc)	/'seɪ'ləʊt/
8. go after	I: (vv) changes to (vc)	/'gəʊ'wɑː.ftə/	18. catch up on	L: (cv) changes to (vc)	/'kæ'tʃʌ.pən/
9. trade up	L: (cv) changes to (vc)	/'treɪ'dʌp/	19. scroll down	E: (cc) remains (cc) ⁴	/'skrəʊw'daʊn/
10. call in	L: (cv) changes to (vc)	/'kɔːlɪn/	20. turn over	L: (cv) changes to (vc)	/'tɜːnəʊ.və/

The following connected speech techniques are used to make the words easier to say together quickly:

L = Linking **I** = Intrusion **E** = Elision **G** = Glottal Stops /ʔ/

Connecting sounds: **(cc)** = consonant sound to consonant sound **(cv)** = consonant sound to vowel sound
(vc) = vowel sound to consonant sound **(vv)** = vowel sound to vowel sound

¹ Despite being (cc), it's easier to make the sound connection /n/ to /d/ than /d/ to /aʊ/, because after /n/ the mouth and tongue are in the right position to pronounce the next sound

² Despite being (cc), the sound connection /n/ to /d/ is already easy to say because... (see footnote ¹, above)

³ Despite being (cc), the sound connection /n/ to /t/ is already easy to say because... (see footnote ¹, above)

⁴ Despite being (cc), it's easier to make the sound connection /w/ to /d/ than /l/ to /d/, because after /w/ the mouth and tongue are in the right position to pronounce /d/

On the other hand, I don't want to upset the little dears...	6. I made up a story about a politician and my paper ran it. It forced the guy to resign. Everybody said it was right to print the article - although I know it was untrue. Should I come clean and apologise? I'll probably lose my job...	7. Very often I find that I'm in the middle of my favourite programme, and the channel suddenly changes, and we're watching whatever my partner wants to watch. How can I get to have the remote control once in a while...?	8. I called in to a late-night phone-in show on the radio, to discuss a personal problem, but the DJ made fun of me and some of my friends heard it. Now they won't stop teasing me...
9. I've started using a cloud computing service, and it's really convenient, because I can sit down and work on any computer with internet access. However, my kid brother seems intent on stealing my password...	10. I work in a factory, where the tasks are repetitive and monotonous. We usually listen to the radio - all the latest chart hits. But recently a new gaffer [boss] has banned the radio and plays classical music CDs instead...	11. I'm a journalist on a local rag [low-quality newspaper] and I haven't had a good scoop for ages. My boss has ordered me to bring back "something sensational" for tomorrow's edition. How can I uncover an amazing story...?	12. I recorded the final of a talent contest last night, and I can't wait to watch it when I get home. I haven't heard the result yet, and I'm terrified that one of my friends will spoil it for me - or I'll find out another way...
13. I'm just about to settle down and enjoy the season finale of my favourite TV show, but I can see that the TV Licensing inspectors are coming. I haven't got a licence! What shall I do? I don't want to miss it...	14. I get a magazine each week, but I often throw it away unread. When I do have time to read it, though, I love it. I'm thinking of cancelling my subscription, because of the cost. But what if I miss some juicy gossip...?	15. I'm a DJ on a national music radio station. I used to have really high ratings, but recently they've been getting lower and lower. I seem to have run out of ideas for new, original features and competitions...	16. Somebody I don't get on with has set up an embarrassing website dedicated to me, using pictures from my Facebook page. I think they're making fun of me, because I refused to help them cheat in an exam...

Media

Discussion Questions – Group 1

- 1.** What is your favourite... a) radio station, b) DJ, c) TV channel, d) TV programme, e) newspaper, f) magazine, g) website, h) podcast, i) gadget, j) technology brand? Why? Which do you dislike? Why?
- 2.** Radio is over a hundred years old. Why hasn't it ever been replaced by a more modern form of media?
- 3.** Do you approve of the actions of the paparazzi? How do they manage to make a living? Do certain celebrities invite prying eyes? If yes, who... how... and why?
- 4.** Would you prefer to be able to receive over a thousand mediocre TV channels, or just four really brilliant ones?
- 5.** Why is social networking so popular? Are you part of a social network? How did we use to keep in touch before the arrival of social networking?
- 6.** Who is your favourite TV presenter? Would you like to become one? Why? / Why not? What qualifications and skills do you think you'd need to be successful?
- 7.** What would happen if the media just stopped production? How would it affect your life?
- 8.** How do freesheets (free newspapers) make money? Is it a good business model?
- 9.** Which TV shows get you and your friends and family talking, producing "water-cooler" moments? How do they achieve such an effect?
- 10.** Should the internet be censored so that it contains only material that everybody agrees with?
- 11.** Do you subscribe to any magazines? If yes, why? What do you like about them?
- 12.** Is it possible to access an unbiased source of news? Why? / Why not?
- 13.** Why is it much cheaper to buy a radio than a television or MP3 player? Which form of media offers the best value for money?
- 14.** Do you know anybody who is a complete Luddite or technophobe [fearing and rejecting new technology] – or are *you* one? What effect does this have on their (or *your*) life? Should we always gratefully embrace new technological advances, or should we be more cautious?
- 15.** Describe what you think the *next* popular form of mass media will look like.

Talk a Lot

Media

Discussion Questions – Group 2

- 1.** If you could keep only one form of media, which would you choose? Why?
- 2.** Do you listen to drama on the radio? How does it differ from drama on TV or in films?
- 3.** Are newspapers becoming obsolete? If yes, why? Do you think they'll still be around in ten years' time? If not, what will replace them? Will it be a change for the better?
- 4.** Why do technology companies continue to produce more and more new gadgets, and updates for existing gadgets? Haven't we got enough devices?
- 5.** How can students use different parts of the media to improve their language skills?
- 6.** Who controls the remote control in your home? Why? How did they gain this power? How do you feel about this situation?
- 7.** Are these things too expensive: a) magazines, b) internet connection, c) satellite TV packages, d) newspapers, e) TV licence? What media is available to you for nothing?
- 8.** Imagine that you could be a top radio DJ and present your own two hour show. What kind of music or speech content would you broadcast? Imagine the running order for the show.
- 9.** Do you think of the planet when purchasing new consumer goods, such as mobiles, MP3 players and flat screen TVs? What kind of natural resources are required to produce these products? Where do these resources come from? What happens to the consumer goods that we throw away? How do you dispose of waste generated by using the media?
- 10.** Why do newspapers contain so many articles? Nobody can possibly read them all!
- 11.** How influenced are you by the media? How does it affect your decisions?
- 12.** How is the media funded? How much do you pay towards it? How much *should* we have to pay? Do you pay to surf the internet? What do you think about adverts in the media, e.g. on TV or on the radio / internet? How far do they dictate your spending habits?
- 13.** Do you like hearing and reading about celebrities in the media? Why? / Why not?
- 14.** Should the government control the press? Why? / Why not?
- 15.** If you could choose *anybody*, who would you most like to interview for a newspaper / magazine article? Choose one living person and one dead person. Why would you choose them? Think of three questions to ask each. Invite your partner to imagine their answers.

Getting a Job

Sentence Blocks

*Note: the last two lines of each sentence block will vary. Below there are examples given for each sentence block, but students should think of their own way to get the negative forms in the last line. See the **Talk a Lot Elementary Handbook** and **Intermediate Supplement** for full instructions (available free from <http://www.englishbanana.com>).*

Answers

1. (Present Perfect Continuous) Ruth's been trawling through the classifieds in the paper all day to find a new job. / How long has Ruth been trawling through the classifieds in the paper to find a new job? / All day. / Has Ruth been trawling through the classifieds in the paper all day to find a new job? / Yes, she has. / Has Ruth been trawling through the classifieds in the paper for a few minutes to find a new job? / No, she hasn't. Ruth hasn't been trawling through the classifieds in the paper for a few minutes to find a new job.
2. (Past Perfect) The candidate had unhelpfully glossed over long gaps in his employment history. / Who had unhelpfully glossed over long gaps in their employment history? / The candidate had. / Had the candidate unhelpfully glossed over long gaps in his employment history? / Yes, he had. / Had the candidate's brother unhelpfully glossed over long gaps in his employment history? / No, he hadn't. The candidate's brother hadn't unhelpfully glossed over long gaps in his employment history.
3. (Future Perfect) Henry will've put his foot in it today, because he's rubbish at job interviews. / Why will Henry have put his foot in it today? / Because he's rubbish at job interviews. / Will Henry have put his foot in it today, because he's rubbish at job interviews? / Yes, he will (have). / Will Henry have put his foot in it today, because he got there late? / No, he won't (have). Henry won't have put his foot in it today, because he got there late.
4. (Second Conditional) If you mapped out a strategy, your goal would become clearer. / Whose goal would become clearer, if I mapped out a strategy? / Yours would. / Would my goal become clearer, if I mapped out a strategy? / Yes, it would. / Would your goal become clearer, if I mapped out a strategy? / No, it wouldn't. My goal wouldn't become clearer, if you mapped out a strategy.
5. (Third Conditional) If he'd employed more positive body language, Brett would've come across better. / How would Brett have come across, if he'd employed more positive body language? / Better. / Would Brett have come across better, if he'd employed more positive body language? / Yes, he would (have). / Would Brett have come across worse, if he'd employed more positive body language? / No, he wouldn't (have). Brett wouldn't have come across worse, if he'd employed more positive body language.
6. (Reported Speech) I told Eileen that she had to believe in herself, because life's what you make it. / What did you tell Eileen? / That she had to believe in herself, because life's what you make it. / Did you tell Eileen that she had to believe in herself, because life's what you make it? / Yes, I did. / Did you tell Eileen that she had to be patient, because Rome wasn't built in a day? / No, I didn't. I didn't tell Eileen that she had to be patient, because Rome wasn't built in a day.
7. (Passive Voice) Mrs. Harris has been passed over for promotion again at the office. / Where has Mrs. Harris been passed over for promotion again? / At the office. / Has Mrs. Harris been passed over for promotion again at the office? / Yes, she has. / Has Mrs. Harris been passed over for promotion again at the store? / No, she hasn't. Mrs. Harris hasn't been passed over for promotion again at the store.
8. (Imperative Form) Please fill out this application form by tomorrow, and hand it in to our HR manager. / When do I need to (or *when should I* or *when must I*) fill out this application form by, and hand it in to your HR manager? / By tomorrow. / Do I need to fill out this application form by tomorrow, and hand it in to your HR manager? / Yes, you do. / Do I need to fill out this application form by four o'clock today, and hand it in to your HR manager? / No, you don't. You don't need to fill out this application form by four o'clock today, and hand it in to our HR manager.

Sentence Block Extensions

For all of the sentence block starting sentences there are at least two different wh- question words that can be used to make sentence blocks. In one case eight different sentence blocks can be made from the same starting sentence when using different wh- question words. There isn't room here to print in full all 33 of the sentence block extensions from this unit. Hopefully, the answers provided above will give you the teacher (or you the student) enough guidance to be able to make the sentence block extensions for this unit with confidence.

For example, let's look at the first starting sentence from this unit:

For more fun worksheets, games, and quizzes log onto www.englishbanana.com now!

Talk a Lot

Getting a Job

Sentence Blocks

Ruth's been trawling through the classifieds in the paper all day to find a new job.

On the handout the wh- question phrase given is "How long", but this starting sentence also works equally well with seven other wh- question words: "What" (x2), "Where", "When", "Who", "Why", and "Which":

What has Ruth been trawling through all day to find a new job? / The classifieds in the paper.

What has Ruth been doing all day to find a new job? / Trawling through the classifieds in the paper.

Where has Ruth been trawling through all day to find a new job? / The classifieds in the paper.

When has Ruth been trawling through the classifieds in the paper to find a new job? / All day.

Who has been trawling through the classifieds in the paper all day to find a new job? / Ruth has.

Why has Ruth been trawling through the classifieds in the paper all day? / To find a new job.

Which classifieds has Ruth been trawling through all day to find a new job? / The classifieds in the paper.

The idea is easy. Change the wh- question word each time and you can make several completely different sentence blocks from the original starting sentence, simply by finding the relevant information for the answer in the starting sentence. As you can see below, sometimes the same wh- question word can be used more than once to make different sentence blocks.

You could cut out and give the section below to your students:

----- ✂ -----
Getting a Job

Make new sentence blocks from the starting sentences in this unit using different "wh-" question words:

	WHAT	WHERE	WHEN	WHO	WHY	WHICH	HOW	Total:

Sentence Blocks – Sentence Stress and Vowel Sounds

Task 1: Circle the content words in the following starting sentences. (For answer, see Task 2 below.)

Getting a Job

1. Ruth's been trawling through the classifieds in the paper all day to find a new job.
2. The candidate had unhelpfully glossed over long gaps in his employment history.
3. Henry will've put his foot in it today, because he's rubbish at job interviews.
4. If you mapped out a strategy, your goal would become clearer.
5. If he'd employed more positive body language, Brett would've come across better.
6. I told Eileen that she had to believe in herself, because life's what you make it.
7. Mrs. Harris has been passed over for promotion again at the office.
8. Please fill out this application form by tomorrow, and hand it in to our HR manager.

-----✂-----

Sentence Blocks – Sentence Stress and Vowel Sounds

Task 2: Underline the stressed syllable in each content word, shown in black. (For answer, see Task 3 below.)

Getting a Job

1. Ruth's been trawling through the classifieds in the paper all day to find a new job.
2. The candidate had unhelpfully glossed over long gaps in his employment history.
3. Henry will've put his foot in it today, because he's rubbish at job interviews.
4. If you mapped out a strategy, your goal would become clearer.
5. If he'd employed more positive body language, Brett would've come across better.
6. I told Eileen that she had to believe in herself, because life's what you make it.
7. Mrs. Harris has been passed over for promotion again at the office.
8. Please fill out this application form by tomorrow, and hand it in to our HR manager.

-----✂-----

Talk a Lot

Getting a Job

Sentence Blocks

Sentence Blocks – Sentence Stress and Vowel Sounds

Task 3: Write the correct vowel sound above each stressed syllable (underlined). (For answer, see below.)

Getting a Job

1. Ruth's been trawling through the classifieds in the paper all day to find a new job.
2. The candidate had unhelpfully glossed over long gaps in his employment history.
3. Henry will've put his foot in it today, because he's rubbish at job interviews.
4. If you mapped out a strategy, your goal would become clearer.
5. If he'd employed more positive body language, Brett would've come across better.
6. I told Eileen that she had to believe in herself, because life's what you make it.
7. Missus Harris has been passed over for promotion again at the office.
8. Please fill out this application form by tomorrow, and hand it in to our HR manager.

----- ✂ -----

Sentence Blocks – Sentence Stress and Vowel Sounds

Each content word (shown in black) contains one syllable with a strong stress, which is underlined. Each stressed syllable has one vowel sound. The vowel sounds on stressed syllables are the most important sounds in the sentence. They make the “sound spine” of the sentence. To improve communication, try to get the sound spine right.

Getting a Job

1. Ruth's been trawling through the classifieds in the paper all day to find a new job.
/u:/ /ɔ:/ /u:/ /æ/ /eɪ/ /ɔ:/ /eɪ/ /aɪ/ /u:/ /ɒ/
2. The candidate had unhelpfully glossed over long gaps in his employment history.

Talk a Lot

Getting a Job

Discussion Words Question Sheet

preparation, presentation, promotion; /t/ candidate, classified advert, self-improvement; /z/ key skills, nerves, qualifications; /m/ application form, self esteem; /k/ seasonal work, voluntary work; /dʒ/ body language, mortgage; /l/ goal, rival; /v/ objective; /ŋ/ networking.

8. Many English words contain one or more **silent letters** – letters which are part of the spelling of a word, but which are not pronounced. The aim of this activity is to demonstrate how so often the spelling of a word in English is different from how it sounds when spoken. Below are some good examples of words in this group of discussion words that have silent letters. The silent letters are shown in brackets. No doubt your students will be able to identify some more.

ach [i] evements, body lang [u] age, go [a] l, dis [c] ipline, q [u] alifications, rejection let [t] er, ne [r] ves

9. Answers will vary.

10. There are many possible answers to this question; for example, “referee”, “independence”, “presentation”, and “preparation”, (among others) all contain the vowel sound /e/. Use the phonetic chart on p.18.6 of the **Talk a Lot Elementary Handbook** (available free from <http://www.englishbanana.com/talkalot>) and the phonetic spellings of the vocabulary words on the *Discussion Words (with the IPA)* handout to help your students put the words into sound groups.

Lesson Questions

1. a) goal. b) nerves. c) salary. d) key skills.

2. a) and b) Answers will vary. Suggested answer: redundancy is what happens when you have to leave your job because there isn't enough work for you to do, or because the company is closing down. “Being made redundant” means that you lose your job due to external forces or events, while “getting the sack” or “getting sacked” means that you have to leave your job as a result of your own incompetence, unsuitability, or misconduct.

3. i) a) Words which have a weak stress schwa sound /ə/ on the 1st syllable: **promotion**, **success**, **achievements**.

b) Words and phrases which have a weak stress schwa sound /ə/ on the 2nd syllable: **perseverance**, **voluntary work**, **preparation**, **presentation**, **strategy**, **seasonal work**, **discipline**, **self esteem**, **independence**, **salary**, **referee**, **covering letter**, **interviewer**, **rival**. c) Words and phrases which have a weak stress schwa sound /ə/ on the 3rd syllable:

curriculum vitae, **Jobcentre Plus**, **seasonal work**, **promotion**, **recruitment agency**, **rejection letter**, **employment history**, **jobseeker**, **redundancy**, **achievements**. d) Words and phrases which have a weak stress schwa sound /ə/ on the 4th syllable: **perseverance**, **preparation**, **curriculum vitae**, **self improvement**, **presentation**, **application form**, **independence**, **job security**, **interviewer**. e) Words and phrases which have a weak stress schwa sound /ə/ on the 5th syllable: **recruitment agency**, **rejection letter**, **employment history**, **qualifications**, **discrimination**, **covering letter**.

ii) 11 words and phrases don't have a weak stress schwa sound: **nerves**, **training course**, **body language**, **networking**, **key skills**, **work experience**, **objective**, **candidate**, **mortgage**, **classified advert**, **goal**.

4. Jobcentre Plus.

5. a) rival. b) mortgage. c) strategy. d) nerves. e) referee. f) objective or goal. g) redundancy. h) perseverance. i) voluntary work.

6. training course.

7. key skills.

8. a) body language. b) achievements. c) presentation or strategy. d) promotion. e) candidate.

9. classified advert.

10. a) training **course**. b) **preparation**. c) **candidate**. d) **self-improvement**. e) **interviewer**. f) **presentation**. g) **independence**. h) **classified ad**. i) **strategy**. j) **interviewer**. k) **training course**.

CLOSING DATE	ongoing recruitment (no closing date)	2 nd December at 8am PST

"Which job would you apply for? Why? Choose a person you know who would be suitable for each position. Why would they be a good candidate?" When they have completed filling the gaps, students should discuss which job they would apply for, and why. They should also choose a person they know who would be suitable for each position, and state why they would be a good candidate. Answers will be subjective and therefore vary from student to student. Students should produce appropriate reasons for their choices – why they would choose one job rather than another. For example: "I would apply for the job of fish wrangler, because the salary is really good." Or... "I wouldn't apply to be a lighthouse keeper, because I wouldn't be able to cope with being on my own for such long periods of time..." Or... "My boss would be a good candidate for balloon tester, because he's full of hot air...!" [etc.]

Sample Questions

What's the salary for a _____?
 How much can you get for being a _____?
 Which company is looking for a _____?
 What are the hours of work for the _____ job?
 What are the duties and responsibilities for the _____ job?
 What would I have to do for the _____ job?
 What skills and experience do I need to be a _____?
 What benefits are they offering for the _____ job?
 How do I apply to be a _____?
 What other information do I need to consider for the _____ job?
 What's the closing date for the _____ job?

Sample Answers

The salary for a _____ is _____.
 You can get _____ for being a _____.
 _____ is looking for a _____.
 _____.
 _____.
 You'd have to / You'd be responsible for _____
 You need _____.
 They're offering _____.
 You should / You have to _____.
 The advert says that _____.
 The closing date for the _____ job is _____.

Getting a Job

Information Exchange

Examples

What's the salary for a Balloon Tester?	The salary for a Balloon Tester is minimum wage, plus a bonus, which is 4,000 free burst balloons per month.
What are the duties and responsibilities for the Lighthouse Keeper job?	You will be responsible for the constant operation of a lighthouse on a remote North Sea island.
What skills and experience do I need to be a Hilarious Clown?	You need the ability to engage the general public.
How do I apply to be a Fish Wrangler?	You have to forward your application form, CV, and references to... [e.g. Golden Temple Studios, Hollywood, CA, USA]

[etc.]

Extension 1:

You could try to encourage some comparative/superlative questions and answers, for example:

Which job offers the best salary?	Fish Wrangler offers...
Does the _____ job require more skills and experience than the _____ job?	Yes, it does. / No, it doesn't.
Which job is the most sociable?	_____ [e.g. Hilarious Clown] is the most sociable job.
Which job will close the soonest?	The Lighthouse Keeper job will close...

[etc.]

Extension 2:

Working in pairs or small groups, students could interview each other for the jobs described in this activity. Following that, they could use the template provided to write their own job adverts, including job title, salary, company, hours of work, etc. They could then interview each other for the made-up jobs, perhaps using the interview questions on p.59 as a guide.

Extension 3:

Working in pairs, one student is a journalist making a television documentary about employment, and the other student is an unemployed person who gets one of the four jobs outlined in this activity (or one of the made-up jobs). The students create three different short interviews:

- just after the candidate finds out that they've got the job
- two months into the job – when parts of it are going well, and other parts are going badly
- one year into the job – when the candidate either really loves the job, or is desperate to leave...

A Life of Leisure (Original Text)

Line

1 November staggered on, and Dennis, let go from yet another short-lived position,
2 privately resolved to henceforth live a life of leisure. "I'm *through* with the working life!"
3 he declared to himself one Monday, shovelling an enormous bowlful of Cheerios into
4 his gob. "If you're at a loose end today, could you water the plants, please?" asked
5 his mum, heading off to an early meeting. "Er, right?" replied Dennis. "And would you
6 mind raking up the leaves in the back garden, lad?" enquired his dad, also gearing up
7 for a busy day. "The sink upstairs is still blocked," reminded Maggie, disappearing off
8 to college. "Alright!" growled Dennis, plugging in his Xbox, "I'll do it in a minute..."
9 Hours passed, and though the moon rose and set twice, Dennis completely forgot
10 about his duties. A crisis meeting was called, at which Dennis inadvertently revealed
11 his master plan to never work again. "OK, but you'll have to help out around the
12 house," said his mum, angrily. "We'll draw up a list of chores for you," said his dad.
13 "I'll do 'em all tomorrow," promised Dennis, somewhat underestimating the regular
14 nature of such work. The next day, Dennis got stuck into the Hoovering, dusting, and
15 ironing (trousers excepted) – as well as all of the other jobs he'd neglected. He was
16 exhausted, but felt a warm glow when he remembered that he wouldn't have to work
17 again. An hour later, he returned to earth with a bump, when his mum explained
18 firmly that household tasks – including ironing trousers – would become an *everyday*
19 part of his life, if he didn't try to find a job. This unpleasant news was the wake-up call
20 that he needed – and nobody was surprised when, the next day, Dennis hit the
21 Jobcentre hard, and landed a temporary job packing tinsel.

A Life of Leisure (Guess the Function Words)

November staggered on, and Dennis, let go of his another short-lived position, privately resolved to henceforth live a life of leisure. "I *through* with working life!" he declared to himself one Monday, shovelling an enormous bowlful of Cheerios in his gob. "I've got a loose end today, could you water the plants, please?" asked his mum, heading off to an early meeting. "Er, right?" replied Dennis. "Are you mind raking up the leaves in the back garden, lad?" enquired his dad, as gearing up for a busy day.

"The sink upstairs is still blocked," reminded Maggie, disappearing out of college. "Alright!" growled Dennis, plugging in his Xbox, "I'll do it in a minute..." Hours passed, as the moon rose and set twice, Dennis completely forgot about his duties. A crisis meeting was called, and while Dennis inadvertently revealed his master plan to never work again.

"OK, but you've got to help out around the house," said his mum, angrily. "We'll draw up a list of chores for you," said his dad. "I'll do 'em all tomorrow," promised Dennis, somewhat underestimating the regular nature of such work. The next day, Dennis got stuck into the Hoovering, dusting, and ironing (trousers excepted) – and with all of those jobs he neglected. He was exhausted, but felt a warm glow when he remembered that he wouldn't have to work again.

An hour later, he returned to earth with a bump, when his mum explained firmly that household tasks – including ironing trousers – would become an everyday part of his life, if he didn't try to find a job. The unpleasant news was his wake-up call that he needed – and nobody was surprised when, the next day, Dennis hit the Jobcentre hard, and landed a temporary job packing tinsel.

A Life of Leisure (What's the Question?)

1. To an early meeting.
2. Because he had been fired from yet another short-term job.
3. His dad did.
4. On Wednesday.
5. His intention to never work again.
6. No, he revealed it inadvertently.
7. Yes, he felt exhausted.
8. That the sink upstairs was still blocked.
9. A busy day.
10. In November.
11. An enormous bowlful of Cheerios.
12. His mum.
13. Because he thought that when he'd finished he wouldn't have to do any more housework in the future.
14. No, he didn't.
15. Because they knew that he hated doing housework and would rather find a job.
16. He played on his Xbox.
17. Dennis's mum did.
18. Maggie was a student.
19. To college.
20. She was angry.
21. Trousers.
22. To live a life of leisure from that point on.
23. To the Jobcentre.
24. Because his mum told him that he'd have to do household chores every day if he didn't look for a job.
25. Because he had to find a job.
26. On Thursday.
27. That they would prepare a list of duties for Dennis.
28. A temporary job packing tinsel.
29. Answers will vary.
30. Answers will vary, but probably no more than four or five weeks, because tinsel is a seasonal product which is usually only sold at Christmas.

A Life of Leisure (True, False, or Unknown?)

1. Rob had to drive a long way on Monday.
2. The sink downstairs was blocked.
3. Dennis found a permanent job packing tinsel.
4. The crisis meeting on Wednesday lasted for two hours.
5. The story took place three weeks before Christmas.
6. Maggie had to go to college.
7. Maggie was annoyed about her idle brother.
8. Dennis ate a lot of Cheerios for breakfast.
9. Dennis's mum was pleased that he didn't want to find a job.
10. Dennis was fed up because he kept being sacked from short-term jobs.
11. At the family meeting Dennis accidentally let the cat out of the bag about his plans.
12. Dennis hated watering the plants, because there were so many of them at home.
13. Dennis felt energised after completing the housework.
14. Dennis's mum was at her wit's end with him.
15. Dennis preferred playing on his Xbox to doing the household chores.
16. Three people asked Dennis to help out.
17. Dennis often spent four or five hours playing the same computer game.
18. Maggie couldn't be bothered to go to college.
19. Dennis's dad promised to draw up a list of rules.
20. On Thursday Dennis did all of the ironing.
21. Dennis worked hard at home on Thursday.
22. Dennis went to the Jobcentre on Sunday.
23. Dennis managed to unblock the sink upstairs on Thursday.
24. Dennis completely forgot that he'd been asked to do some chores on Monday.
25. Dennis was first in the queue at the Jobcentre on Friday morning.
26. Cheerios was Dennis's favourite cereal.
27. Dennis tidied up the garden on Tuesday.
28. Dennis was sacked for misconduct from his latest job.
29. Dennis hoovered on Thursday morning, and did all of the other jobs in the afternoon.
30. The story ended happily because Dennis found a job.

Glossary of New Words

Here are some words and phrases from the text that may be unfamiliar. You could either pre-teach them, or encourage students to find translations in a bilingual dictionary. Stressed syllables are underlined.

Line:	Unfamiliar English:	Definition / Explanation:
title	a <u>life of leisure</u>	(euph) this phrase is a euphemism for being unemployed. We sometimes talk about unemployed people "leading a life of leisure" – i.e. they can do what they want all day
1	November <u>staggered</u> on	(met) if you took the metaphor of a year as a person, November would be an old man, because the year is "old", i.e. nearly finished. In the UK, November is often a difficult month to get through, partly because of the cold weather, so this sentence provides the sense that the year is ending disagreeably
2	to <u>resolve</u>	(v) to decide; to make a strong promise to yourself to do (or not to do) sth
2	<u>henceforth</u>	(adv) from this moment on
2	to be <u>through</u> with sth	(id) to stop doing sth, often because it makes you feel angry
3	to <u>shovel</u>	(v) to put a lot of sth somewhere, i.e. he is eating large spoonfuls of cereal
3	<u>Cheerios</u>	(n) a popular brand of breakfast cereal in the UK
4	<u>gob</u>	(sl) mouth
4-7	[<u>three requests</u>]	(pol) notice how Dennis's mum, dad, and sister all ask him politely at first to help with the housework. His mum uses: "could you... please?", his dad uses "would you mind...?" while Maggie uses an indirect question: "The sink upstairs is still blocked" and a "reminding" tone of voice
4	to be at a <u>loose end</u>	(id) to have nothing to do; to be wondering what to do with your time
4	to <u>water</u> the <u>plants</u>	(phr) to put water on house plants (indoors or outdoors) on a regular basis
6	to <u>gear up</u> for sth	(phr v) to prepare yourself for sth, esp. a challenging activity
8	to <u>growl</u>	(v) this verb is usually associated with angry animals, e.g. a dog or a bear. In this context it shows that Dennis is beginning to get angry because of the unusual number of requests
8	<u>Xbox</u>	(n) a popular games console, produced by Microsoft
9	the <u>moon rose</u> and <u>set twice</u>	(phr) i.e. two days passed
10	a <u>crisis meeting</u>	(exagg) this phrase is usually used to describe a meeting at a time of emergency, e.g. at work, or in politics, so in this context it is an exaggeration, used ironically (there isn't a crisis!) to create a funny atmosphere in the story
10	<u>inadvertently</u>	(adv) accidentally; by mistake
11	his <u>master plan</u>	(exagg) a <i>master plan</i> is something that we might associate with an evil villain in a sci-fi or adventure film, so in this context it is an exaggeration, as above
12	<u>chores</u>	(n) repetitive, boring household jobs; the same meaning as <i>duties</i> or <i>tasks</i>
13	'em	(contr) Dennis uses the contraction 'em instead of <i>them</i> , because it is easier to say "do 'em" quickly than "do them"
13	to <u>underestimate</u>	(v) to misjudge; to miscalculate
14	to <u>get stuck into</u> sth	(phr v) to do sth with enthusiasm, esp. work
14	to <u>hoover</u>	(v) to clean the floor using a vacuum cleaner
16	to <u>feel</u> a <u>warm glow</u>	(id) to feel satisfied and a sense of pride in your achievement(s)
17	he <u>returned</u> to <u>earth</u> with a <u>bump</u>	(id) he saw the reality of the situation, rather than what he had wrongly imagined. Also: "to come back down to earth with a bump or bang"
19	a <u>wake-up call</u>	(id) the realisation that something has to change. This idiom comes from the idea of an alarm clock waking you up at a certain time. Dennis had to wake-up from his dream of lying around at home all day playing computer games, rather than doing chores or going to work to make money
20	to <u>hit</u> [a place]	(id) to go somewhere with a very strong resolve to do sth; i.e. "Dennis hit the Jobcentre hard..." means that he went there with the strong intention of finding a job. Other forms: hit the shops (intention to spend money), hit the town (intention to drink and party), and hit the beach (intention to have fun)
21	to <u>land</u> a <u>job</u>	(id) to get a job
21	<u>tinsel</u>	(n) long, colourful metallic decorations that people hang up in their homes at Christmas time – particularly around Christmas trees

(adv) adverb
(contr) contraction
esp. especially
(euph) euphemism
(exagg) exaggeration

(id) idiom
(met) metaphor
(n) noun
(phr) phrase
(phr v) phrasal verb

(pol) polite form
(sl) slang
(sth) something
(v) verb

Talk a Lot

Getting a Job

Multi-Purpose Text

Extension 1:

Ask students to count the number of characters in the text (there are four named characters), then to create a role play or dialogue, using a few of the characters. Or, students could work on their own and create a monologue using one character from the text (or a bystander), where they recall what happened from their point of view.

Extension 2:

Students continue the story – either as a role play or a monologue – and explore what happened next... Or, they could imagine a prequel – what were the characters doing... a) one week, b) one day, or c) one hour before the story begins?

Answers:

A Life of Leisure (Guess the Function Words)

See Original Text for answer.

A Life of Leisure (What's the Question?)

Answers will vary. Suggested answers:

1. Where was Dennis's mum going at the start of the story?
2. Why was Dennis feeling down at the beginning of the story?
3. Who asked Dennis to rake up the leaves in the back garden?
4. When was the crisis meeting held?
5. What did Dennis reveal at the crisis meeting?
6. Did Dennis mean to tell his family about his master plan?
7. Did Dennis feel tired after doing the housework?
8. What did Maggie remind Dennis?
9. What kind of day did Dennis's dad have in front of him?
10. When does the story take place?
11. What did Dennis eat for breakfast?
12. Who asked Dennis to water the plants?
13. Why did Dennis feel a warm glow after doing the housework?
14. Did Dennis enjoy helping out around the home?
15. Why was nobody in the family surprised that Dennis started looking for work again?
16. What did Dennis do instead of the chores?
17. Who had to go to an early meeting?
18. Who was a student in the story?
19. Where was Maggie going at the beginning of the story?
20. How did Dennis's mum feel about his revelation?
21. Which article of clothing did Dennis avoid ironing?
22. What did Dennis resolve at the beginning of the story?
23. Where did Dennis go on Friday?
24. Why did Dennis come back to earth with a bump?
25. Why did Dennis go to the Jobcentre?
26. On which day did Dennis do the housework?
27. What did Dennis's dad suggest at the crisis meeting?
28. What kind of job did Dennis get at the end of the story?
29. Were Dennis's parents right to ask him to help out with the housework? Why? / Why not?
30. How long do you think Dennis's new job will last?

Getting a Job

Role Play with Non-Literal English

1. Practise the role play with a partner. Find and underline **nine** examples of non-literal English* and match each one to a category below:

1. allusion	2. metaphor	3. phrasal verbs
4. sarcasm	5. slang	6. flights of fancy
7. in-jokes	8. idioms	9. euphemism

* For more information about each category, please see pp.36-38.

Colin Bradley is having a job interview at Moore's Toothpaste Factory. He is being interviewed by Richard and Henry – two senior employees. After twenty minutes, the interview is not going well:

Richard: [Bored] After driving a taxi for a year, you sold electric lighting. What happened there?
 Colin: Well, I had to hand in my notice after eight months. [Pause] I was... I had to take a bit of time away from work for, er, for... personal reasons, y'know?
 Richard: Are you a friend of Jack, Mr. Bradley?
 Colin: I don't get what you mean?
 Henry: Jack Daniels, Mr. Bradley. Richard means – were you drinking at work?
 Colin: Oh no, no. Er, well maybe just a little bit. But, you see, I loved my job. Electric lighting was my whole life. [Sadly] I lived and breathed it.
 Henry: What did you do after that?
 Colin: I was unemployed for a while, until, er, I got a job delivering flowers, which went really well, until one day, when I got chased by an enormous sheepdog, which was, I swear, it was as big as a house! With enormous, great big teeth as sharp as broken glass – fangs is a better word to describe them – and two horrible big yellow eyes glowing like hot coals...
 Richard: [To Henry:] This guy is clearly two squirts short of a tube. [Henry laughs]
 Colin: I'm sorry? What was that? Look, I can't stay much longer. Have I got the job, or not?
 Richard: [As if speaking to a child:] Yes, Mr. Bradley. You've got the job. You'll be a big asset to us!
 Colin: [Overjoyed] Great! When can I start?
 Henry: Mr. Bradley, er, let me explain. How can I put this? No, I'll just say it. You are by far the worst candidate we've seen. So, for that reason, I'm afraid we'll have to turn down your application.
 Richard: To put it bluntly, Mr. Bradley, please do one!
 Colin: [Angrily] Well! Don't worry – I'm leaving! Can I have my CV back? No? OK. Thanks. Bye.

2. Replace each example of non-literal English with one of the literal words or phrases below. Practise the role play using only literal English, then using non-literal English. What differences do you notice? Which version sounds more natural? Why? Which do you prefer?

a) resign	b) reject	c) No, you haven't got the job
d) Do you drink a lot of alcohol?	e) leave immediately!	f) I was pursued by a frightening dog
g) because I had problems with alcohol addiction	h) it gave me an enormous sense of purpose and self-worth	i) not very clever

Talk a Lot

Getting a Job

Role Play with Non-Literal English

Answers:

Feature of Non-Literal English:	Example in this Text:	Literal Translation:
1. allusion*	for, er, for... personal reasons	g) because I had problems with alcohol addiction
2. metaphor	Electric lighting was my whole life. I lived and breathed it	h) my job gave me an enormous sense of purpose and self-worth
3. phrasal verbs	turn down	b) reject
4. sarcasm	Yes, Mr. Bradley. You've got the job. You'll be a <i>big</i> asset to us!	c) No, you haven't got the job
5. slang	do one!	e) leave immediately!
6. flights of fancy	I got chased by an enormous sheepdog... coals...	f) I was pursued by a frightening dog
7. in-jokes	two squirts short of a tube	i) not very clever
8. idioms	hand in my notice	a) resign
9. euphemism	Are you a friend of Jack...?	d) Do you drink a lot of alcohol?

* Allusion and euphemism are closely related in that both are words or phrases that deliberately hide the literal meaning of what is being said, although the speaker and listener both understand the true meaning. Allusion is used as a general term for this, while euphemism is more specifically related to talking about taboo subjects, including sex, bodily functions, addiction, money, etc.

Note: in general, using non-literal English will help students' spoken English to sound more natural, because native speakers of English often favour non-literal forms – such as idioms, phrasal verbs, and slang – over the more literal, “dictionary definition” words and phrases that they replace.

Talk a Lot

Getting a Job

Features of Non-Literal English – Part 4

1. ALLUSION

An allusion is an indirect reference to something used instead of the direct truth. Both listener and speaker usually know what is really meant by the allusion.

Example:

"I heard that Susan has taken the kids to her mother's again." [You both know that Susan's husband is having an affair, and that they are on the verge of breaking up. This sentence refers to their marriage problems: Susan has taken her kids to stay with her mother, because they can't live in the family home together at the moment.]

When:

When the topic may be embarrassing or delicate – something that you want to avoid talking about directly, e.g. a personal problem, or something connected with money or sex.

2. METAPHOR

A metaphor is a statement that compares somebody or something to something else, by saying that they *are* that thing. A metaphor makes somebody or something into a symbol representing something else.

Example:

"Alison – you know, you're my rock. I can't live without you."
[i.e. "Alison, you are not literally a rock, but you *are* a very supportive person. I feel safe and secure when I'm with you – as I would were I to be standing on a rock in the middle of a raging river. Therefore, you symbolise "security" to me. Thank you."]

When:

We can use metaphor when literal English is too prosaic or ordinary, and not capable of expressing the strength and depth of our feelings, or what we want to say.

3. PHRASAL VERBS

See Unit 1: Hotel – Features of Non-Literal English – Part 1

4. SARCASM

Sarcasm occurs when a speaker makes a statement that is obviously not true, in order to draw attention to the truth, and at the same time to insult somebody or cause offense.

Example:

[A woman you don't like comes to a party at your house, wearing a dress that is two sizes too small for her and makes her look terrible. While your friends are watching, you say to her:]

"Oh! *That's* a nice dress!"

[What you mean, and what everybody understands: "Oh! You look *awful!*"]

When:

Sarcasm is a deliberate and open form of insincerity. You could use it when you want to openly offend or be rude to somebody, by drawing attention to their faults or weaknesses, particularly when compared to your own – far more abundant – attributes and achievements.

Sarcasm is similar to irony (see Unit 3: Media), but more explicitly cruel. We could call it an unkind form of irony.

Talk a Lot

Getting a Job

5. SLANG

See Unit 2: Problems – Features of Non-Literal English – Part 2

6. FLIGHTS OF FANCY

A flight of fancy is a blatantly untrue “tall” story that you make up spontaneously, in which you imagine yourself involved in impossible or highly unlikely events. The purpose is to illustrate the truth of the point that you wish to make, while entertaining your listeners and perhaps making them laugh.

Example:

“Are you scared of wasps, Greg?”

“No, I’m not afraid of wasps, but, I’m telling you, if that wabby [slang for “wasp”] comes anywhere near me, I’m going to show it no mercy [cliché]. I’ll take it out [kill it] and post the remains of the deceased to its family along with a little note: don’t mess with the Greg-meister!” [nickname]

[What he means:] “Yes, I am scared of wasps, and if I kill this one, I’ll feel really proud of myself.” [i.e. he is not really going to treat the wasp as if it were human.]

When:

People use flights of fancy when they enjoy inventing humorous situations and describing them, or acting them out, for other people’s pleasure and amusement – or as a way of drawing attention to themselves. The idiom “to go off on one” describes this process, e.g. “We were chatting to Josh last night, and *he went off on one* about his boss’s mistress...” Literally: “We were chatting to Josh last night, and *he told us a far-fetched story* about his boss’s mistress...”

7. IN-JOKES

An in-joke is a private joke that only a select group of people can understand and therefore find funny.

Example:

In an office there is a desk that is known by the workers there as “the desk of doom”, because two years earlier the person who used to work there was fired for having an affair with the boss’s daughter, and soon afterwards was killed in a horrific road accident. Since then it has acquired the morbid nickname, and new members of staff are always deliberately given that desk, making the rest of the staff laugh. The new member of staff is not “in” on the joke, because they don’t know the story. Once they find out, they ask to change desks, and “the desk of doom” becomes vacant again... Until the next newbie [slang for *new person*] arrives!

When:

When you want to show that you are part of a group of people – part of a pack, a gang, a club, or any group of people with something in common. The sense of belonging that is created by in-jokes can act as a protective barrier against anything or anybody new or unfamiliar.

8. IDIOMS

See Unit 1: Hotel – Features of Non-Literal English – Part 1

Talk a Lot

Getting a Job

9. EUPHEMISM

A euphemism is a word or phrase that replaces part of a sentence which is considered offensive or taboo – i.e. that cannot be talked about in “polite” conversation.

Example:

[Your elderly Aunt Agatha visits your new home. She whispers:] “I just need to spend a penny, dear.”
[“Spend a penny” is a euphemism for “Go to the toilet”. Therefore, you should show her where the toilet is.]

When:

When you can't mention something directly, but want other people to know that you know about it, e.g. you are aware of a secret. Or, when you want to talk about sex or another taboo subject without mentioning it directly.

Similar to Politically Correct (PC) Language (see *Unit 2: Problems*).

Getting a Job – English Idioms Activities

Meaning and Context

1. Check for new vocabulary. Are there any idioms that you know already? Explain each meaning and give an example sentence or situation in which you could use it. Find the meaning of the rest by using a dictionary, then match the definition cards with the idiom cards.
2. Do any of the idioms exist in your first language? Translate each idiom.
3. Divide the idioms into four categories: **Looking for a Job**, **Applying for a Job**, **Job Interviews**, and **Motivation**.
4. Take some cards. Describe the idiom on a card without saying it.
5. How many idioms can you remember when they are all turned over?

Practice Activities

Choose a random idiom (or one that particularly interests you) and...

1. think of a time or situation in your life when you... a) could have said this idiom (past), and b) might say this idiom (future).
2. say the name of a person you know who would be the *most likely* to say this. In what kind of situation?
3. others guess while you act it out without speaking, although you can make sounds!
4. others guess while you draw a picture to represent both forms – idiomatic and literal.
5. analyse the words. Is it at all possible to guess the meaning from the words – or completely impossible? Research the origin and background of this idiom.
6. replace the idiom in a sentence with the literal (boring) meaning. Compare the two sentences. Which sounds better? Why?
7. think of another idiom or saying that has the same or a similar meaning.
8. tell a story or devise a dialogue/role play by linking one idiom to the next.

Topic Questions

1. Choose the correct idiom. 2. Make a sentence about... a) yourself, b) a friend.

1. If you are a quiet, reserved person who has low self-esteem, this could be difficult for you.
2. People who are slapdash and careless with their writing don't bother doing this.
3. Many people need to work so that they don't become homeless.
4. If you do this you might be among the first to find out about the latest job vacancies.
5. This is what I would say to you if I found out that you'd got a new job.
6. If you apply for jobs when they're first advertised, you may have more success.
7. I always read up on the firms that I'm applying to, because it helps me know what to expect.
8. It's important to keep calm at job interviews. Listen to the panel and answer questions carefully.
9. What will you do if you don't get promoted this year? It's good to have a few options.
10. If you're getting nowhere fast, maybe reconsider your approach, and try to be more patient.
11. You should put more on your CV about your skills and experience. You're being too modest!
12. Although the last candidate was grossly obese, we should appraise him on merit, not belt size!

On Monday I'm going to visit some employers and generally _____!

Talk a Lot

Getting a Job – English Phrasal Verbs Activities

This is a handy table showing **collocations** – words that go well with these phrasal verbs. You could use it to make a quick quiz for students after they have learned the meanings, e.g. “Which phrasal verb is to do with appearance?” Or “Find a phrasal verb that’s transitive separable.” Or guess the preposition that links phrasal verb and object, e.g. “To stand out **from** the rest...” Or encourage students to build sentences (positive, negative, and question forms) by linking content words together using function words, e.g. “Lee is **working towards** a **qualification at work**.” etc.

#	subject (person)	p/verb*	tr?	sep?	collocation e.g.	place / time e.g.
1.	a pronoun, e.g. I, you, he, she, etc.	apply for	✓	✗	a job / position / vacancy	at the Job Centre / online
2.		cheer up	✗	-	please	as soon as possible / quickly
3.		work towards	✓	✗	a promotion / qualification	at work / university
4.		knuckle down	✗	-	and finish your work!	at school / university / work
5.		stand out	✗	-	from the crowd	at an interview / in a task
6.		break away	✗	-	from your old way of life	this month / this year
7.		smarten up	✗	-	and look more professional	at work / an interview
8.		bring up	✓	✓	a topic / the subject of...	during a meeting / appraisal
9.		fill out	✓	✓	a form / blank fields	on paper / on a web form
10.		map out	✓	✓	the future / a clear strategy	on a big piece of paper
11.	a person or thing, e.g. the interviewer, Paul’s brother, the jobseeker, the presentation, this candidate, etc.	try out	✓	✓	a new activity / employee	in the office / all week
12.		gloss over	✓	✗	a few details / facts	on an application / CV
13.		put yourself about	✓	✓	by visiting / phoning firms	regularly / twice a week
14.		mess up	✗	-	badly / completely	at work / during the interview
15.		come across	✓	✗	well / badly / poorly	on paper / at the interview
16.		get across	✓	✓	information / my P.O.V. ¹	as clearly as possible
17.		chivvy along	✓	✓	because they’re too slow	at home / all the time
18.		look out for	✓	✗	the latest vacancies	every day / on Fridays
19.		jot down	✓	✓	a phone number / address	on a scrap of paper
20.		trawl through	✓	✗	job adverts / the classifieds	online / in the paper / regularly

Notes: **tr = transitive** – the phrasal verb can have an object. **sep = separable** – some transitive phrasal verbs are separable, which means that the object, e.g. an object pronoun like “him” or “it”, or somebody’s name, can go before the particle or after it. Some transitive phrasal verbs are **inseparable** – the object has to go after the particle. **Intransitive** phrasal verbs do not have an object, therefore cannot be separable or inseparable. Remember, some phrasal verbs, e.g. “bring up”, have a range of meanings. The information here relates to the definitions given on the “20 Common English Phrasal Verbs” handout.

* Choose any verb form, e.g. Present Perfect Continuous, Third Conditional, Future Perfect, etc.

Topic Questions

Choose the correct phrasal verb, and make a sentence about... a) yourself, b) a friend:

- encouraging a friend not to be down-hearted because they’ve been rejected.
- making a mistake on an application form and having to start again.
- attempting to be different from other candidates so that the employer notices you.
- stepping out of your comfort zone² and attempting a new challenge.
- nagging somebody who lacks motivation and is not very interested in getting a job.
- communicating your key skills and achievements at a job interview.
- sitting down with a trusted friend and planning your short- and long-term goals.
- looking for employment in a different town, because you need to make a fresh start.
- telling somebody to be more confident and pro-active in searching for vacancies.
- making progress towards a goal by completing various short-term objectives.
- seeing a job advertised in a shop window, and making a note of the phone number.

¹ point of view

² the place where you feel comfortable – either a real place or a metaphorical one

Getting a Job – English Slang Words and Phrases Activities

Meaning and Context

1. Check for new vocabulary. Are there any words/phrases that you know already? Explain each meaning and give an example sentence or situation in which you could use it. Find the meaning of the rest by using a dictionary, then match the definition cards with the slang cards.
2. Who would you be speaking to when you used these words and phrases? Are there any words or phrases that you wouldn't use with certain people? If yes, why not?
3. Do any of the slang words and phrases exist in your first language? Translate them.
4. Divide the slang into four categories: **Looking for a Job**, **Applying for a Job**, **Job Interviews**, and **Motivation**.
5. Take some cards. Describe the slang word or phrase on a card without saying it.
6. How many slang words/phrases can you remember when they are all turned over?

Practice Activities

Choose a random slang word or phrase (or one that particularly interests you) and...

1. think of a time or situation in your life when you... a) could have used this slang (past), and b) might use this slang (future).
2. say the name of a person you know who would be... a) the *most likely* to say this, and b) the *least likely* to say it. In what kind of situation?
3. others guess while you act it out without speaking, although you can make sounds!
4. others guess while you draw a picture to represent both forms – slang and dictionary (literal).
5. analyse the word(s). Is it at all possible to guess the meaning from the words – or completely impossible? Research the origin and background of this slang word or phrase.
6. replace the slang word or phrase in a sentence with the literal (boring) meaning. Compare the two sentences. Which sounds better? Why?
7. think of another slang word or phrase that has the same or a similar meaning.
8. tell a story or devise a dialogue/role play by linking one slang word/phrase to the next.

Topic Questions

1. Choose the correct slang word or phrase. 2. Make a sentence about... a) yourself, b) a friend.

1. If I got one of these, I would probably chuck it in the bin – especially if I had no vacancies.
2. I've found a job for you, which I think you would be able to do – and really enjoy.
3. I'm sending in my CV and asking for work, even though nothing has been advertised.
4. You could say this to a friend who you believe to be a dreamer and lacking in real purpose.
5. If I didn't have any money until my next pay cheque, I could describe myself in this way.
6. This phrase means to make yourself look better in somebody else's opinion.
7. Having trouble finding a job? This is the kind of thing you might hear from a sympathetic friend.
8. You do this when you earn a lot of money from your work.
9. You're shocked to see a mate who is usually scruffy looking well-dressed before an interview.
10. This is what you do when you spend a lot of your leisure time at a particular place.
11. At a job interview you can expect to be asked many questions, including some tricky ones.

8. bring up	L: (cv) remains (cv)	/'brɪŋ'ʌp/	18. look out for	1 st : L: (cv) changes to (vc) 2 nd : E, G: (cc) changes to (vc)	/'lʊ'kaʊ?.fɔ:/
9. fill out	L: (cv) changes to (vc)	/'fɪ'lʌʊt/	19. jot down	E, G: (cc) changes to (vc)	/'jɒ?'daʊn/
10. map out	L: (cv) changes to (vc)	/'mæ'paʊt/	20. trawl through	E, G: (cc) changes to (vc)	/'trɔ:?'θru:/

The following connected speech techniques are used to make the words easier to say together quickly:

L = Linking **I** = Intrusion **E** = Elision **G** = Glottal Stops /ʔ/

Connecting sounds: **(cc)** = consonant sound to consonant sound **(cv)** = consonant sound to vowel sound
(vc) = vowel sound to consonant sound **(vv)** = vowel sound to vowel sound

¹ Despite being (cc), it's already easy to say /l/ to /d/ because after /l/ the mouth and tongue are in the right position to pronounce /d/

² Despite being (cc), it's easier to make the sound connection /n/ to /d/ than /d/ to /au/, because after /n/ the mouth and tongue are in the right position to pronounce the next sound

Talk a Lot

Getting a Job

Focus on Non-Literal Speech

³ Despite being (cc), it's easier to make the sound connection /l/ to /f/ than /f/ to /ə/, because after /l/ the mouth and tongue are in a better position to pronounce /f/

English Phrasal Verbs – Matching Game

1. I've **applied for** over thirty jobs, but only had two interviews so far.
2. I told her to **cheer up**, because things can only get better.
3. Mandy is at university, **working towards** a degree in Sports Therapy.
4. If you want to get a good job, you'll have to **knuckle down** and put some effort into it!
5. Olive wore green tights to the interview, in a bid to **stand out** from the rest.
6. Getting a job will enable me to **break away** from my parents' home and be independent.
7. Try to **smarten up** before the interview. Perhaps buy a new suit, or get a haircut.
8. What should I say if they **bring up** my previous boss at the interview?
9. Please **fill out** this form and return it to us ASAP*. [*Acronym for: "as soon as possible"]

Getting a Job

Discussion Questions

1. Are you looking for a job at the moment? Where do you usually look for a new job? What is the best way to find a job, in your experience?

2. Which skills and personal qualities does a candidate need when...
a) looking for a job, b) applying for a job, c) attending job interviews? How well do you usually do? What could you do to increase your chances of success?

3. If you were an HR manager reading different applications for the same job, what would make you... a) invite an applicant to interview, b) reject an applicant, c) screw up the application form and propel it towards the bin?

4. What are your key skills? What do you have to offer a potential employer? What kind of information do you need to play down in your application form and at job interviews? Have you got a CV? How did you put it together? How effective do you think it is?

5. Tell me about... a) your most successful interview, b) your worst interview. Have you ever completely messed up at a job interview? Why? What happened? Have you ever had to interview anybody? How did it feel? If you had to interview yourself for your *current job*, would you get the job?

6. How should a candidate prepare for an interview beforehand? How could they reduce nerves and ensure that they stand out on the big day? How important is body language and eye contact when attending a job interview? Why are interviews so stressful? Do they need to be?

7. Do you need to work? What would happen if you didn't work? What motivates people to look for work? Is it important to you to have goals to achieve? Why? Why not?

8. How can we avoid discouragement and keep positive while looking for a job, when disappointment is part and parcel of the process?

Talk a Lot

Getting a Job

Preparing for a Job Interview – 20 Typical Questions

Below are 20 typical questions that you could be asked at a job interview – and also some questions that perhaps you shouldn't be asked, because your answers may lead the employer to discriminate against you unfairly*.

- 1) Say whether each question is fair or unfair – and give **reasons**.
- 2) Discuss with a partner: what are interviewers trying to find out when they ask each question? What would be the **right way** and the **wrong way** to answer each question?
- 3) Find a job advert (or use your current job as an example) and use the questions in **role plays** with your partner. The interviewer could decide to be either fair or unfair in their choice of questions – or a bit of both! The candidate could answer the questions in... a) the right way, or b) the wrong way.

1. What kind of salary are you looking for?
2. If you knew your manager was wrong about something, what would you do?
3. Why do you think you would be suitable for this position?
4. Do you have any health conditions that we should know about?
5. Where do you see yourself in x years' time?
6. What religion are you?
7. What do you find irritating?
8. If successful, would you be willing to relocate?
9. Why do you want to work here?
10. What do you like to do outside of work?
11. Are you planning to start a family in the next x years?
12. Where do your parents hail [come] from?
13. If I asked one of your friends to name your weaknesses, what would they say?
14. If you were an x, what kind of x would you be? [e.g. If you were an animal...]
15. If I gave you the job, would you...? [e.g. go out for a drink with me]
16. Are you willing to work... shifts / weekends / overtime / flexitime, etc.?
17. Tell me about... your skills / qualifications / experience / achievements, etc.
18. Give an example of when you had to operate outside your comfort zone.
19. How do you deal with stress?
20. Do you have any questions that you want to ask us?

*Note: questions about race, religion, age, disability, sexual orientation, and family, e.g. marital status and pregnancy, should be avoided at job interviews, because the answers given could lead the employer to discriminate against the candidate. Therefore, questions 4, 6, 11, 12, and 15 may be considered unfair – or even unlawful – at a job interview.

More Features of Non-Literal English

Talk a Lot

Intermediate Book 1

More Features of Non-Literal English

1. ABBREVIATION / SHORT FORM

A shorter version of a word or phrase.

Example:

"Are you going to uni today?" [university]

"Yes, later on. But I've got to pop to the doc's first." [doctor's]

When:

When you need to speed up communication. It's not necessary to say the full word, because both of you know what you mean by the shorter form.

2. BANTER

An informal conversation (chat) where the participants use humorous language and techniques to entertain each other (e.g. friends chatting with bar staff at a pub), and perhaps an audience (e.g. on a radio show the hosts indulge in banter) in a spontaneous, unscripted way. Can contain many examples of idioms, phrasal verbs, and slang.

Example:

"I went out last night."

"You went out? I thought you were stony-broke!" [without money]

"I was."

"What, did you meet...? Have you got a bit on the side?"

"A bit on the side? What another Sheila?" [Australian slang for "girlfriend"]

"No, I meant another job, but tell me more about your Sheila!"

"You're impossible!" [etc.]

When:

When you enjoy spending time with friends or family and chatting in a relaxed way about things that are not really important. If you worked on a radio show, you could get paid for chatting about your daily life and topics of national interest in an entertaining way.

3. DOUBLE ENTENDRE

A phrase which can have two meanings or interpretations: one literal (and innocent) and the other sexual. It literally means "double meaning", from the French: entendre = to mean/understand.

Example:

[Two men are walking in a park where there are some pear trees. A woman wearing a tight t-shirt is walking towards them. One man comments:]

"What a lovely pair!"

[His comment could be interpreted as either "a lovely *pear*" – as in the fruit, which is visible – or "a lovely *pair*" – as in the pair of breasts that the woman's t-shirt displays. The pun works because the words "pear" and "pair" are homophones, having the same sound when spoken, but different meanings.]

When:

When you want to make a risqué joke, but have the get-out clause that you meant the literal interpretation, not the sexual one. So if the woman took offence at his remark, he could protest, "I meant, pear – as in the fruit! What did you think I meant?"

For more fun worksheets, games, and quizzes log onto www.englishbanana.com now!

Talk a Lot

Intermediate Book 1

More Features of Non-Literal English

4. EXPRESSIONS

A kind of idiom that may not be as well known or visual as general idioms, or one that you've made up yourself. The phrase has both a *literal* meaning and a *figurative* meaning, that often does not make sense literally.

Example:

"Would you like another cream cake, gran?"

"Ooh, thank you, dear. *I don't mind if I do!*" [I will have another cream cake]

When:

When you want to say something more interesting than standard dictionary words and phrases, perhaps to show yourself to be a little bit different or eccentric.

5. FUNNY VOICES / FUNNY ACCENTS

You say something using a funny voice or a comic version of a foreign accent.

Example:

[You are pretending to be a toy robot, because you don't want to tidy your bedroom.]

Mum: "Will you tidy your room?"

You (in a metallic, monotone voice): "Your command does not compute! Processing error! Processing error! Must. Go. Out. Side. Play. Football!" [etc.]

Mum: "You're not going anywhere until you've tidied your room!"

When:

When you want to pretend, play, have fun, make somebody laugh, or generally behave in a silly way. Or when you want to make somebody else look stupid, e.g. by imitating their voice, or when you want to show a humorous, stereotypical view of a particular people, e.g. the French, the Germans, the Welsh, etc., which might be funny to some but offensive to others.

6. INNUENDO

Similar to *double entendre*, this is a phrase which can have two meanings or interpretations: one literal and the other implied or hidden. However, the hidden meaning can be something other than sexual.

Example:

[Two clerks are working in an office. Jeff enters with a female colleague. They are both late for work.

Jeff is holding a pile of folders. One clerk says:]

"I see that Jeff's still taking his work home with him!"

[His comment could be interpreted literally, due to the folders, as in "Jeff is taking work to do at home", but is meant as an allusion to the context: both members of staff coming in together – late. So "taking his work home with him" = "having an affair with his colleague".]

When:

When you want to say something that is gossipy or offensive, but retain the option to claim that you meant the literal interpretation, if the listener challenges your remark – i.e. if they are not in agreement with the intended coded meaning.

Talk a Lot

Intermediate Book 1

More Features of Non-Literal English

7. JOKE / GAG

You tell a joke with the direct aim of making somebody laugh.

Example:

"A horse is sitting at a bar reading a newspaper. The barman comes up to him and says, 'Alright, mate? Why the long face?'"

[The concept of a horse sitting at a bar reading a newspaper could be funny on its own, but the joke comes from the double meaning (pun) barman's use of the idiomatic phrase "Why the long face?" which means "Why do you look sad?" A 'long face' is a sad face. But of course horses naturally have long 'faces', so the horse can't help appearing sombre.]

When:

When you want to make somebody laugh, e.g. a comedian in a comedy club or on TV, a radio DJ, two friends telling each other jokes on the bus, etc.

8. PARABLE

A short, easy-to-understand story that has a deep meaning which is relevant to the situation that is being discussed. It is implied or obvious that the hearer – if they are able to decode the veiled meaning – should learn how to deal with their situation by listening to the parable and following the advice.

Example:

"I can't decide whether to leave my job, where I'm comfortable, and take a new job, that looks difficult, but more challenging..."

"Well, there was once a woman who had two daughters. One worked in the fields beside her home every day, had very few cares, and reaped a small harvest. The other went abroad to seek her fortune, went through many trials and tests, but returned home very rich. The moral is: fortune favours the brave." [the implied meaning is: you should take a chance and accept the new job, because it could be beneficial to challenge yourself]

When:

When you want to give advice or illustrate a moral or lesson in an indirect way, without appearing too prescriptive.

Talk a Lot

Intermediate Book 1

More Features of Non-Literal English

9. RUNNING JOKE

Something which is not fundamentally amusing becomes funny by being repeated often.

Example:

[In the popular British sitcom from the 1980s, *'Allo 'Allo*, there were many running jokes – jokes that were repeated in every episode – sometimes several times per episode! One example is when the English character, who was pretending to be a French policeman, appeared he would say:]

“Good *moaning*.”

[He mispronounced “morning” because he thought he was using a good French accent. This phrase is not funny on its own, but each time he did this – very often – there would be gales of laughter from the studio audience. It became funnier with repetition. See also *catchphrase*, *Unit 2: Problems*, P.39.]

When:

When you want to make people laugh but can't (or don't want to) think up any traditional jokes. Repetition makes people feel that they are “in” on something that other people “don't get” (see also *in-jokes*, *Unit 4: Getting a Job*, P.37).

10. SATIRE

You tell a joke with the direct aim of making fun of the government or somebody in authority.

Example:

[Imagine this context: the foreign secretary has been caught taking bribes worth a total of £1,680:]

“Why is the foreign secretary like a used Robin Reliant [old-fashioned and much-mocked car]? They can both be bought for well under £2,000!”

[The juxtaposition of the foreign secretary and the second-hand, unfashionable Robin Reliant (a car with a poor reputation) is humorous on its own, but the joke comes from the double meaning, or pun, of “to be bought”, which has both the literal meaning of “purchased” and also the idiomatic meaning of “bribed”.]

When:

When you want to draw attention to the failings of politicians or people in authority without directly stating your meaning, instead allowing your audience to perceive the implied message in what you are saying. Direct statements are the stuff of speeches or diatribes, rather than comedy. By making the audience do some of the work in identifying the meaning, the person speaking involves them and draws them into their worldview.

Intermediate Verb Forms – Matching Game

Cut out all of the cards, mix them up, then match them together again:

<i>Verb Form:</i>	<i>Quick Way to Remember it: (Mnemonic)</i>	<i>Example Sentence:</i>
Present Perfect Continuous	recent continuous action	I've been living here for six years.
Past Perfect	two past actions	I'd just put the phone down when there was a knock at the door.
Future Perfect	two future actions	By the time you get to work, I'll have already left.
Second Conditional	different present or future	If you sold your car, you could buy a better one.
Third Conditional	different past	If I hadn't called my manager a fat pig, I could have kept my job.
Reported Speech	changing verb forms	John said that he'd ordered the new furniture for the office.
Passive Voice	be + past participle	The parcel will be delivered on Wednesday.
Imperative Form	orders or instructions	Bring those chairs over here, please.

Talk a Lot

Intermediate Book 1

Notes on Intermediate Verb Forms

Present Perfect Continuous = recent continuous action

Time of action:	From the past up to the recent past, or up to now (present).
When do we need to use it?	<p>To describe a recent continuous action, e.g. to catch up with a friend:</p> <ul style="list-style-type: none">- <i>What have you been doing all morning?</i>- <i>I've been putting up wallpaper.</i> <p>[It's not clear from my words whether I've finished the whole job, e.g. I might have stopped for a break.]</p> <p>To describe an action that has been continuing for a period of time and is still going on:</p> <ul style="list-style-type: none">- <i>How long have you been living in Bristol?</i>- <i>I've been living here for six years.</i>
How is it formed?	have (aux.) + been + present participle (-ing verb)
Contractions in spoken English:	I have been ⇨ I've been /əv.bɪn/ she has been ⇨ she's been /ʃə.zbɪn/
Examples:	
Positive Form	Kay's been washing dirty sheets in the hotel laundry all morning.
Negative Form	Kay hasn't been washing dirty sheets in the hotel laundry all morning.
Question Form	Has Kay been washing dirty sheets in the hotel laundry all morning?
Answers:	Yes, she has . / No, she hasn't .
Passive form:	Rare, but possible, e.g. The car's been being fixed for hours!
Used with state verbs?	No, e.g. <i>I've been liking this film a lot!</i> = <i>I've liked this film a lot since...</i>
Tips:	<ul style="list-style-type: none">• This form highlights the time period or duration of the action.• It is often used with a time clause to describe duration, e.g. "for x weeks / years" or "since" + day, date, or time, as well as with "...recently", "...lately", "...all day", "this morning/afternoon", etc.

Talk a Lot

Intermediate Book 1

Notes on Intermediate Verb Forms

Past Perfect = two past actions

Time of action:	Past.
When do we need to use it?	<p>When there are two different times in the past.</p> <p>To describe an action in the past that happened before another past action. To set the scene. To give background information.</p> <p>- <i>I'd just put the phone down when there was a knock at the door.</i> [We use "just" when the times are close together.]</p> <p>- <i>Pete went to the same university that his father had studied at.</i> [The times are far apart.]</p>
How is it formed?	1 st clause: had (aux.) + past participle ; 2 nd clause: (often) past simple
Contractions in spoken English:	I had ⇒ I'd /aɪd/ She had ⇒ She'd /ʃi:d/
Examples:	
Positive Form	The duty manager had asked Philip to wipe down the other bar, because it was filthy – but he completely forgot .
Negative Form	The duty manager hadn't asked Philip to wipe down the other bar...
Question Form	Had the duty manager asked Philip to wipe down the other bar...?
Answers:	Yes, he had . / No, he hadn't .
Passive form:	Philip had been asked to wipe down the other bar. [by...]
Used with state verbs?	Yes, e.g. <i>I'd liked spending time with them very much.</i>
Tips:	<ul style="list-style-type: none">• If it is obvious that the first action was before the second (a logical sequence), or you don't need to draw attention to this fact, past perfect is unnecessary and both actions could be past simple, e.g. "I got up and had a shower." In the sentence "The duty manager..." it is crucial to the meaning that the duty manager <i>had</i> asked Philip, before he forgot.• This form is used in second conditional (see below).

Talk a Lot

Intermediate Book 1

Notes on Intermediate Verb Forms

Past Perfect Continuous = two past actions – one is continuous

Time of action:	Past.
When do we need to use it?	To describe a continuous action in the past that happened before another past action. To set the scene. To give background information. - <i>I'd been hoping for an A in Maths, but I got a B.</i> - <i>She'd been expecting Trevor at seven, so she was annoyed when he arrived at quarter to eight.</i>
How is it formed?	1 st clause: had (aux.) + been + present participle (-ing verb) ; 2 nd clause: (often) past simple
Contractions in spoken English:	I had been ⇨ I'd been /əd.biɪn/ She had been ⇨ She'd been /ʃə??.biɪn/
Examples:	
Positive Form	The children had been swimming all day, so when they got home they were absolutely exhausted.
Negative Form	The children hadn't been swimming all day, so...
Question Form	Had the children been swimming all day?
Answers:	Yes, they had . / No, they hadn't .
Passive form:	Rare, but possible, e.g. The documents had been being prepared since... [they had been "in the process of" being prepared since...]
Used with state verbs?	No, e.g. I'd been liking playing the guitar = I'd liked playing the guitar.
Tips:	<ul style="list-style-type: none">• This is a good form for showing <i>cause and effect</i>, e.g. "Something had been happening, so something else happened."

For more fun worksheets, games, and quizzes log onto www.englishbanana.com now!

Talk a Lot

Intermediate Book 1

Notes on Intermediate Verb Forms

Future Perfect = two future actions

Time of action:	Future.
When do we need to use it?	<p>When there are two different times in the future.</p> <p>To describe an action in the future that will happen before another future action. To speculate. To predict.</p> <p>- <i>By the time you get to work, I'll have already left.</i> [i.e. I will leave work before you arrive.]</p> <p>- <i>Call Barry tomorrow morning, because by then I will have spoken to him about your problem.</i> [i.e. I will speak to Barry about your problem at some point before tomorrow morning.]</p>
How is it formed?	<p>1st clause: will (aux.) + have (aux.) + past participle</p> <p>2nd clause: (often) present simple or imperative form</p>
Contractions in spoken English:	<p>I will have ⇨ I'll've /ə.leɪv/ She will have ⇨ She'll've /ʃə.leɪv/</p>
Examples:	
Positive Form:	The pizza restaurant will've opened by the time you get back .
Negative Form:	The pizza restaurant won't've opened by the time you get back ...
Question Form:	Will the pizza restaurant have opened by the time I get back ...
Answers:	Yes, it will (have) . / No, it won't (have) .
Passive form:	All the children will have been told about the trip by next Tuesday.
Used with state verbs?	Yes, e.g. I'm sure I will have remembered to pack my passport.
Tips:	<ul style="list-style-type: none">• Sometimes known as "Future Past" or "Past in the Future".• Often used with "by the time..." [second action]" or "When..." or "by [time] e.g. "By 10am..." / "By next week..." or "This time next..."• We can use "going to" instead of "will", but using "will" gets us to the main verb (with the strong stress) more quickly.

Talk a Lot

Intermediate Book 1

Notes on Intermediate Verb Forms

Future Perfect Continuous = two future actions – one is continuous

Time of action:	Future.
When do we need to use it?	<p>To describe a continuous action in the future that will or might happen before another future action. To speculate. To predict.</p> <p>- <i>By the time we arrive, she will have been getting ready for two hours.</i> [“getting ready” is a continuous future action that happens before another future action, “arrive”.]</p> <p>- If you get to the stadium at half past three, the match will have been going on for half an hour. [“going on” is a continuous future action that happens before another future action, “get to”.]</p>
How is it formed?	1 st clause: will (aux.) + have (aux.) + been + present participle (-ing verb); 2 nd clause: present simple
Contractions in spoken English:	<p>I will have been ⇒ I'll've been /ə.lə.vbɪn/ She will have been ⇒ She'll've been /ʃə.lə.vbɪn/</p>
Examples:	
Positive Form:	By two pm we'll have been flying for two hours.
Negative Form:	We won't've been flying for two hours...
Question Form:	Will you have been flying for two hours?
Answers:	Yes, we will (have) . / No, we won't (have) .
Passive form:	Rare, but possible, e.g. <i>The meeting will have been being held for over an hour... [the meeting will have been “in process” or “going on”...]</i>
Used with state verbs?	No, e.g. <i>Terry will have been remembering to...</i> Use Present Perfect , e.g. <i>Terry will have remembered to...</i>
Tips:	<ul style="list-style-type: none"> • Sometimes known as “Future Past Continuous”. • We can use “going to” instead of “will”, but using “will” gets us to the main verb (and stressed syllable) more quickly. We would need a lot of contractions and it's six syllables before we get a stress! e.g. <i>We're going to have been flying...</i> = /wɪ.gə.nə.rə.vbɪn'flaɪ.jɪŋ/ or, this shorter slang version: /wɪ.gə.nə.bɪn'flaɪ.jɪŋ/

Talk a Lot

Intermediate Book 1

Notes on Intermediate Verb Forms

Second Conditional = different present or future

Time of action:	Present or future.
When do we need to use it?	<p>To describe hypothetical actions or alternative choices – and their consequences – in the present or future. To give advice.</p> <p>- <i>If I switched on the light, the room would get brighter.</i> - <i>If you sold your car, you could buy a better one.</i></p> <p>To describe imaginary actions and situations in the present or future, where there is perhaps little or no chance of them happening:</p> <p>- <i>If I met the President of the World Bank, I would ask him for a loan.</i></p>
How is it formed?	<p>1st clause: if + past simple 2nd clause: would/could/should/might + infinitive</p>
Contractions in spoken English:	<p>I would ⇨ I'd /aɪd/ She would ⇨ She'd /ʃi:d/ could / should / might = no contractions possible</p>
Examples:	
Positive Form:	If I made time, I could help you with your homework.
Negative Form:	Even if I made time, I couldn't help you with your homework.
Question Form:	If you made time, could you help me with my homework?
Answers:	Yes, I could . / No, I couldn't .
Passive form:	If time were made , you could be helped with your homework.
Used with state verbs?	Yes, e.g. <i>If you liked fish and chips, you could have some for dinner.</i>
Tips:	<ul style="list-style-type: none">• Often called “unreal future” form.• We can use “might”, “could”, or “should” instead of “would”.• Great for giving advice: <i>If I were you, I would...</i> I imagine what I would do in your position – <i>If I were in your shoes...</i> (idiom)• Optimists use first conditional more: “If I get a pay rise, I’ll...” while pessimists use second conditional more: “If I got a pay rise, I’d...” The difference is in the outlook – how unlikely the situation appears to be to the speaker.

For more fun worksheets, games, and quizzes log onto www.englishbanana.com now!

Talk a Lot

Intermediate Book 1

Notes on Intermediate Verb Forms

Third Conditional = different past

Time of action:	Past.
When do we need to use it?	To describe hypothetical actions (that didn't happen) in the past: <i>- If I'd arrived a few minutes earlier, I would've caught the bus.</i> To express regrets and sorrow for having done something: <i>- If I hadn't called my manager a fat pig, I could have kept my job.</i> Or to accuse somebody over something: <i>- If you'd worked harder at school, you could've been a doctor by now!</i>
How is it formed?	1 st clause: if + past perfect 2 nd clause: would/could/might + have + past participle
Contractions in spoken English:	I would have ⇒ I'd've /aɪ.dəv/ or I woulda /ə.wʊ.də/ She could have ⇒ She could've /ʃə.kʊ.dəv/ or She coulda /ʃə.kʊ.də/ could / should / might = no contractions possible
Examples:	
Positive Form:	If you'd booked before the twelfth, you could've saved fifteen percent.
Negative Form:	If you hadn't booked before the twelfth, you couldn't have saved...
Question Form:	If I'd booked before the twelfth, could I have saved...?
Answers:	Yes, you could (have) . / No, you couldn't (have) .
Passive form:	If the room had been booked before the twelfth, you could've...
Used with state verbs?	Yes, e.g. <i>If I'd remembered to post that letter, you would have got it...</i>
Tips:	<ul style="list-style-type: none">• There is no chance of this action happening – it's impossible.• Sometimes the "if" clause is not spoken, but rather implied by the speaker: <i>I would've got you some tickets for the concert.</i> [i.e. "If you had asked me to, but you didn't."]

Notes on Intermediate Verb Forms

Reported Speech = changing verb forms

Time of action:	Past.								
When do we need to use it?	To report what somebody else said, in either written or spoken English: <i>1pm: John: "I have ordered the new furniture for the office." [Pr. Perf.]</i> <i>6pm: Bob: "John said that he'd ordered..." [Past Perfect]</i>								
How is it formed?	Verb forms and pronouns change: <table border="0" style="width: 100%;"> <tr> <td style="width: 50%; vertical-align: top;"> <u>first person pronouns:</u> I you we </td> <td style="width: 50%; vertical-align: top;"> <u>change to third person pronouns:</u> he, she he, she, they they </td> </tr> <tr> <td style="vertical-align: top;"> <u>present forms:</u> Present Simple John: "The cake is ready." Present Continuous John: "We're eating the cake." Present Perfect Kay: "You've finished the cake." Present Perfect Continuous Kay: "You've been eating the cake." </td> <td style="vertical-align: top;"> <u>change to past forms:</u> Past Simple John said the cake was ready. Past Continuous John said they were eating the cake. Past Perfect Kay said they'd finished the cake. Past Perfect Continuous Kay said they'd been eating the cake. </td> </tr> <tr> <td style="vertical-align: top;"> <u>past forms:</u> Past Simple John: "The cake was delicious." Past Continuous John: "Kay was baking for hours." </td> <td style="vertical-align: top;"> <u>change to past perfect forms:</u> Past Perfect John said the cake had been delicious. Past Perfect Continuous John said that Kay had been baking for hours. </td> </tr> <tr> <td style="vertical-align: top;"> <u>modal forms:</u> will Kay: "I'll make another one soon." shall Kay: "Shall I make a chocolate cake?" can John: "Can I have a piece?" may Kay: "You may be allowed." </td> <td style="vertical-align: top;"> <u>change to:</u> would Kay said she'd make another one soon. should Kay asked whether she should make a chocolate cake. could John asked whether he could have a piece. might Kay said that he might be allowed. </td> </tr> </table>	<u>first person pronouns:</u> I you we	<u>change to third person pronouns:</u> he, she he, she, they they	<u>present forms:</u> Present Simple John: "The cake is ready." Present Continuous John: "We're eating the cake." Present Perfect Kay: "You've finished the cake." Present Perfect Continuous Kay: "You've been eating the cake."	<u>change to past forms:</u> Past Simple John said the cake was ready. Past Continuous John said they were eating the cake. Past Perfect Kay said they'd finished the cake. Past Perfect Continuous Kay said they'd been eating the cake.	<u>past forms:</u> Past Simple John: "The cake was delicious." Past Continuous John: "Kay was baking for hours."	<u>change to past perfect forms:</u> Past Perfect John said the cake had been delicious. Past Perfect Continuous John said that Kay had been baking for hours.	<u>modal forms:</u> will Kay: "I'll make another one soon." shall Kay: "Shall I make a chocolate cake?" can John: "Can I have a piece?" may Kay: "You may be allowed."	<u>change to:</u> would Kay said she'd make another one soon. should Kay asked whether she should make a chocolate cake. could John asked whether he could have a piece. might Kay said that he might be allowed.
<u>first person pronouns:</u> I you we	<u>change to third person pronouns:</u> he, she he, she, they they								
<u>present forms:</u> Present Simple John: "The cake is ready." Present Continuous John: "We're eating the cake." Present Perfect Kay: "You've finished the cake." Present Perfect Continuous Kay: "You've been eating the cake."	<u>change to past forms:</u> Past Simple John said the cake was ready. Past Continuous John said they were eating the cake. Past Perfect Kay said they'd finished the cake. Past Perfect Continuous Kay said they'd been eating the cake.								
<u>past forms:</u> Past Simple John: "The cake was delicious." Past Continuous John: "Kay was baking for hours."	<u>change to past perfect forms:</u> Past Perfect John said the cake had been delicious. Past Perfect Continuous John said that Kay had been baking for hours.								
<u>modal forms:</u> will Kay: "I'll make another one soon." shall Kay: "Shall I make a chocolate cake?" can John: "Can I have a piece?" may Kay: "You may be allowed."	<u>change to:</u> would Kay said she'd make another one soon. should Kay asked whether she should make a chocolate cake. could John asked whether he could have a piece. might Kay said that he might be allowed.

Intermediate Book 1

Notes on Intermediate Verb Forms

Passive Voice = be + past participle

Time of action:	Past, present, or future.
When do we need to use it?	<p>When it isn't important who does the action (who is the subject):</p> <p><i>The parcel will be delivered here on Wednesday.</i></p> <p>Or when you don't know who does the action (who is the subject):</p> <p><i>Stonehenge was built around five thousand years ago.</i></p>
How is it formed?	<p>object + be + past participle</p> <p>Present Simple: Active: Paul delivers newspapers every day. is / are + past participle Passive: Newspapers are delivered (by Paul) every day.</p> <p>Past Simple: Active: Paul delivered newspapers yesterday. was / were + past participle Passive: Newspapers were delivered (by Paul) yesterday.</p> <p>Present Continuous: Active: Paul is delivering newspapers. is / are + being + past participle Passive: Newspapers are being delivered (by Paul).</p> <p>Past Continuous: Active: Paul was delivering newspapers. was / were + being + past participle Passive: Newspapers were being delivered (by Paul).</p> <p>Present Perfect: Active: Paul has delivered the newspapers. have / has + been + past participle Passive: The newspapers have been delivered (by Paul).</p> <p>Present Perfect Continuous: Active: Paul has been delivering the newspapers. have / has + been + being + past participle Passive: The newspapers have been being delivered (by Paul). [RARE]</p> <p>Past Perfect: Active: Paul had delivered the newspapers. had + been + past participle Passive: The newspapers had been delivered (by Paul).</p> <p>Past Perfect Continuous: Active: Paul had been delivering the newspapers. had + been + being + past participle Passive: The newspapers had been being delivered (by Paul). [RARE]</p> <p>Future with "will": Active: Paul will deliver the newspapers. will + be + past participle Passive: The newspapers will be delivered (by Paul).</p> <p>Future with "going to": Active: Paul is going to deliver the newspapers. be + going to + be + past participle Passive: The newspapers are going to be delivered (by Paul).</p>

Talk a Lot

Intermediate Book 1

Notes on Intermediate Verb Forms

	<p>Future Perfect with “will”: <i>Active:</i> Paul will have delivered the newspapers. <i>Passive:</i> The newspapers will have been delivered (by Paul).</p> <p>Future Perfect with “going to”: <i>Active:</i> Paul is going to have delivered the newspapers. <i>Passive:</i> The newspapers are going to have been delivered (by Paul).</p> <p>Future Perfect Continuous with “will”: <i>Active:</i> Paul will have been delivering the newspapers. <i>Passive:</i> The newspapers will have been being delivered (by Paul). [RARE]</p> <p>Modal Forms: will / can, etc. + be + past participle</p> <p>Modal Perfect: will / can, etc. + have + been + past participle</p>
<p>Contractions / Questions / Negatives / Passive / State verbs</p>	<p>As usual for verb forms.</p>
<p>Tips:</p>	<ul style="list-style-type: none"> • All English sentences are either active (subject + verb) or passive (object + be + past participle). • We can add “by...” if we know who does the action and it’s relevant, or omit it. • Passive forms need transitive verbs, i.e. verbs that can take an object, such as “open” or “prepare”: <i>The door was opened [by...]</i> <i>The lunch was prepared [by...]</i> etc. • Intransitive verbs, such as <i>live</i>, <i>wait</i>, and <i>sit down</i>, cannot be used in passive sentences, e.g. <i>Active: Bob sat down at the table. ✓</i> <i>Passive: The table was sat down at by Bob. ✗</i> This kind of sentence is needlessly clumsy and unclear.

Intermediate Book 1

Notes on Intermediate Verb Forms

Imperative Form = orders or instructions

Time of action:	Past, present, or future.
When do we need to use it?	To give orders – to tell somebody what to do: - <i>Come here!</i> - <i>No! You come here!</i> - <i>Put those books on the table, please.</i> To give instructions or directions: - <i>Cook on a low heat for...</i> - <i>Turn left, then drive for four miles...</i>
How is it formed?	With bare infinitive at or near the beginning of the sentence.
Contractions in spoken English:	As usual for verb forms.
Examples:	
Positive Form:	Bring that enormous plate of sandwiches here, now!
Negative Form:	Don't bring that enormous plate of sandwiches here!
Question Form:	Should I / Do I have to bring that enormous plate of sandwiches here, now?
Answers:	Yes, you should / do. / No, you shouldn't / don't have to.
Passive form:	Possible, but not common. Often with "let... ", e.g. Active: "Open the door!" Passive: "Let the door be opened!"
Used with state verbs?	Yes, e.g. <i>Remember to pack your passport!</i>
Tips:	<ul style="list-style-type: none"> • Be careful who you use it with. The tone is very informal, and commands are often considered too direct or even rude by English native speakers. Use it with family, friends, and inferiors! • Make an imperative sentence negative by putting <i>don't</i> before the verb. • You could make it seem more polite by putting <i>please...</i> or <i>please would you...?</i> before the infinitive, or at the end, e.g. "Please don't smoke." • Can be used with question tags to make sure that the other person is listening, e.g. "Pass me that book, would you?"

Idioms

Talk a Lot

Intermediate Book 1

Idioms

Definition of Idioms – from *Unit 1: Hotel*

An idiom is a phrase that has a fixed meaning which cannot usually be understood by studying the literal meaning of each word in the phrase.

Example:

“Does dad really think Paul is having an affair with Mandy?”

“No, of course not. He was only *pulling your leg*.” [He was only *joking*, rather than physically pulling somebody’s leg.]

When:

In everyday speech, and in most sentences – unfortunately for learners of English! English idioms get so ingrained in the consciousness and speech patterns of the average native speaker, from before birth, that to them it feels far more *natural* to use idioms than literal language. Plus, idiomatic phrases are far more expressive, colourful, inventive, creative, and *fun* than their literal counterparts.

Talk a Lot

Intermediate Book 1

Eat Up Your Phrasal Verbs – They're Good for You!

Introduction

The study of phrasal verbs is a big part of Talk a Lot Intermediate. Phrasal verbs become more and more common at intermediate level, and can become a massive problem for students who realise that they have to start learning verbs whose meaning is (often) unrelated to their form. This section provides materials that can help students practise working with phrasal verbs. It's named after an expression that will be familiar to generations of British children who have been refused permission to leave the table at dinner time until their plate has been cleared of a (seemingly) monstrous amount of unappetising vegetables:

"Eat up your greens [vegetables] – they're good for you!"

Learning phrasal verbs is a bit like having to munch through plate after plate of boring carrots and cabbage – especially for young people. It's something that they may not particularly want to do, but something that will be really beneficial in the long run nevertheless. Eat up your phrasal verbs – they're good for you!

In this section you will find:

1. A one-page condensed question sheet, which lists all of the main phrasal verb activities
2. The full list of 57 quick activities for practising phrasal verbs, which are divided into four categories:
 - Meaning and Context
 - Form
 - Practice (Usage)
 - Memory Games
3. Activity Cards – one for each activity. They can be used as follows:
 - Decide whether you want to work with a group of phrasal verbs (e.g. from one of the four units, or *any* group of phrasal verbs) – or to analyse an individual phrasal verb
 - Cut up the cards, and choose either the group cards or individual cards accordingly
 - Shuffle the cards and hand them out to students – or mix them up on the desk in front of the students
 - Students pick a card and have to perform the task given on that card
 - There are a few blank cards so that you can design your own questions
 - Make it more fun by getting teams of students to compete against each other for small prizes!
4. For guidance about each activity, please reference the Sample Answers after the Activity Cards (starting on P.60).

Talk a Lot

Intermediate Book 1

Eat Up Your Phrasal Verbs – They're Good for You!

Introduction

5. Phrasal Verbs Dice Game (see P.69 for full instructions).
6. Phrasal Verbs – Sentence Bash! (Test Material) (see P.75 for activity and P.121 for answers)

Definition of Phrasal Verbs – from *Unit 1: Hotel*

A phrasal verb is a verb phrase that consists of a verb plus preposition or adverb (or both), which has a meaning that may not be obvious from knowing the dictionary meaning of each individual word in the phrase.

Example:

"Thing's are *looking up!*" [My life is generally improving.]

When:

In spoken English phrasal verbs are more common because they are less formal than longer single verbs. Like idioms, we learn phrasal verbs from before birth; the simple one-syllable verbs that are used in phrasal verbs (with a preposition or adverb, or both) are familiar to young children and easy to remember. The prepositions and adverbs (in, out, up, down, on, off, back, etc.) bring a vibrant sense of action and movement to our speech, making it more interesting than if we used only standard verbs. With over 7,000 phrasal verbs in English, phrasal verbs create many shades of meaning, making English a rich and expressive language. It also allows us to quickly invent new verbs (e.g. the recent slang expression "Bog off!" which means "Go away!") without having to find verbs from Latin or other foreign languages, or inventing new verbs from scratch.

Talk a Lot

Intermediate Book 1

Eat Up Your Phrasal Verbs – They're Good for You!

General Questions

1. Are there any words or phrases that you don't know? Find them in a dictionary.
2. Take some cards. Describe the phrasal verb on a card without saying it.
3. Put the phrasal verbs into alphabetical order.
4. Put them into groups depending on: a) connecting sounds, b) transitive or intransitive, c) separable or inseparable.
5. Put together two or three phrasal verbs from the group into the same sentence.
6. Find phrasal verbs which contain silent letters (letters which are not pronounced).
7. Put phrasal verbs that contain the same sounds into groups, using the IPA.
8. How many phrasal verbs can you remember when they are all turned over?

Phrasal Verb Analysis

Choose a phrasal verb that interests you (or at random) and ask any or all of these questions:

1. a) Say a literal (physical) meaning, or an idiomatic meaning.
b) Translate it into your language.
c) Is it used with an object (transitive) or without an object (intransitive), or both?
d) Where can the object go? Is it separable (middle or end) or inseparable (just end)?
e) Is the phrasal verb formal, informal, or neutral?
f) Is there an opposite phrasal verb?
g) Say an example sentence based on the topic (using a given verb form).
h) Say an example sentence on any topic (using a given verb form).
i) Make three collocations with nouns.
j) Make one or more collocations with adverbs.
2. What is the usual meaning of the verb (without a particle)? Can it be related to any of the meanings of the phrasal verb?
3. Does it have... a) a noun form, b) an adjective form?
4. Can you replace the phrasal verb (in any of its meanings) with a single word?
5. Can another phrasal verb be made by adding another particle to the end?
6. What are the connecting sounds between the two (or three) words? (cv, vc, vv, or cc)
7. Think of another phrasal verb... a) that has a similar meaning, b) on the same topic, c) that uses the same verb, d) that uses the same particle.
8. Think of another phrasal verb that uses the same verb. Compare the different meanings.

Intermediate Book 1

Eat Up Your Phrasal Verbs – They're Good for You!

50+ Great Activities for Practising Phrasal Verbs

Pick a Group of Phrasal Verbs (e.g. 6-8 different phrasal verbs):

Meaning and Context

1. Are there any phrasal verbs that you know already? Explain each meaning and give an example sentence or situation where you might use it/hear it.
2. Use a dictionary to check the meaning(s) of each phrasal verb.
3. Match the definition cards (grey) with the phrasal verbs cards (white).
4. Take a handful of cards. Describe the phrasal verb on a card without saying it.
5. Make two piles of cards – phrasal verbs and definitions. Pick a phrasal verb card and say the definition, then try the activity vice versa.
6. Group the phrasal verbs by particle. Can you see any patterns in terms of form and meaning?

Form

1. Group the phrasal verbs by connecting sounds: (cv), (vc), (vv), or (cc).
2. Put all of the transitive* phrasal verbs into a group. (*pv's that take an object)
3. Put all of the intransitive* phrasal verbs into a group. (*pv's that don't take an object)
4. Put all of the separable* phrasal verbs into a group. (*trans. pv's that take an object before or after the particle)
5. Put all of the inseparable* phrasal verbs into a group. (*trans. pv's that take an object after the particle only)
6. Using the IPA, group together phrasal verbs that contain the same vowel sounds.
7. Using the IPA, group together phrasal verbs that contain the same consonant sounds.
8. Put phrasal verbs with silent letters* into a group. (*letters which are not pronounced)

Practice (Usage)

1. Put together two or more phrasal verbs into the same sentence.
2. Link phrasal verbs to make a story or dialogue/role play – one in each sentence.
3. Put the phrasal verbs into the four categories in the unit that you are studying.
4. Think of a subject and an object for each phrasal verb (where possible).
5. Think of an item that you could associate with each phrasal verb.
6. Put the phrasal verbs into groups of places where the actions could happen.
7. Put the phrasal verbs into groups to show what time of day the actions might occur, e.g. a) morning, b) afternoon, c) evening, d) night.

Memory Games

1. Put the phrasal verbs into alphabetical order.

Talk a Lot

Intermediate Book 1

Eat Up Your Phrasal Verbs – They're Good for You!

50+ Great Activities for Practising Phrasal Verbs

2. Put the phrasal verbs into reverse alphabetical order.
3. Make a chain of phrasal verbs: one, *then* one plus two, *then* one plus two plus three... etc. (Shopping List Game).
4. Set up a group of cards face up. Memorise the arrangement. Turn them face down. Try to find each phrasal verb by turning up the correct card first time.
5. How many phrasal verbs can you remember when they are all face down on the table?

*Pick an Individual Phrasal Verb
...and choose **one** of its meanings to explore*

Meaning and Context

1. Decide whether it has an idiomatic meaning, a literal meaning, or both.
2. Translate it into your language.
3. Say whether it can be replaced by a single verb. If it can, which verb?
4. Decide whether its tone is formal, informal, neutral, or slang.
5. Act it out without speaking – although you can make noises!
6. Draw a picture to represent its double meaning.
7. Analyse the words. Is it possible to try to guess the meaning from the words?
8. Say a sentence with the literal meaning, then the same sentence with the phrasal verb. Compare them. Which sounds better? Why?
9. Think of another phrasal verb that has the same or a similar meaning.
10. Think of another phrasal verb that is connected with the same topic.
11. Think of an opposite phrasal verb (if possible).
12. Think of another phrasal verb that uses the same verb. Compare the meanings.
13. Describe the usual meaning of the verb, without the particle. Does it relate in any way to the meaning of the phrasal verb?

Form

1. Decide whether it takes an object (transitive), no object (intransitive), or can be both.
2. If it is transitive, where can the object go? Is it separable (middle or end) or inseparable (end only)?
3. If it has a noun form, what is it?
4. If it has an adjective form, what is it?
5. Say whether another phrasal verb can be made by adding another particle.
6. What is the sound connection between the words – i.e. (cv), (vc), (vv), or (cc)?
7. Think of some more phrasal verbs that use the same verb.
8. Find one or more idioms that contain this phrasal verb.

50+ Great Activities for Practising Phrasal Verbs

Practice (Usage)

1. Use this phrasal verb in a sentence to talk about a situation in your past.
2. Use this phrasal verb in a sentence to talk about a future situation.
3. Use the phrasal verb in a sentence on any topic (using a given verb form).
4. Use the phrasal verb in a sentence based on the topic (using a given verb form).
5. Think of two or more collocations with nouns.
6. Think of two or more collocations with adverbs.
7. Use it to ask a wh- question. The other student(s) answer... a) as themselves, b) as a role play character.
8. Use it to ask a yes/no question. The other student(s) answer... a) as themselves, b) as a role play character.
9. Use it to ask a question with "Have you ever...?" The other student(s) answer... a) as themselves, b) as a role play character.
10. Use it to ask a conditional question. The other student(s) answer... a) as themselves, b) as a role play character.

Eat Up Your Phrasal Verbs – They're Good for You!

Sample Answers

For the first part of this set of sample answers I have chosen a group of eight phrasal verbs at random from Unit 2: Problems. They are:

break up take out fit in make up sign on stand up to long for give up

It goes without saying that a good dictionary – and even a good dictionary of phrasal verbs, if possible – will be an invaluable companion for students during this activity.

Pick a Group of Phrasal Verbs:

Meaning and Context

These activities are done by the students, with the teacher checking their results. There are no sample answers to record.

Form

1. Group the phrasal verbs by connecting sounds: (cv), (vc), (vv), or (cc).

cv: break up, fit in, sign on, take out, make up, give up
cc: long for
cv and cc: stand up to

- 2. Put all of the transitive* phrasal verbs into a group. (*pv's that take an object)**
- 3. Put all of the intransitive* phrasal verbs into a group. (*pv's that don't take an object)**
- 4. Put all of the separable* phrasal verbs into a group. (*trans. pv's that take an object before or after the particle)**
- 5. Put all of the inseparable* phrasal verbs into a group. (*trans. pv's that take an object after the particle only)**

Students can check their answers to these questions against the table of phrasal verbs on P.45 of this unit.

6. Using the IPA, group together phrasal verbs that contain the same vowel sounds.

the verbs in: break up, take out, and make up all contain the vowel sound /eɪ/
the verbs in: fit in, and give up both contain the vowel sound /ɪ/

7. Using the IPA, group together phrasal verbs that contain the same consonant sounds.

For example, break up, take out, and make up all contain the consonant sound /k/ at the end of the verb.

Talk a Lot

Intermediate Book 1

Eat Up Your Phrasal Verbs – They're Good for You!

Sample Answers

8. Put phrasal verbs with silent letters* into a group. (*letters which are not pronounced)

For example, “a” is not pronounced in “break”, “e” is not pronounced in “take”, “make”, and “give”, and “g” is not pronounced in “sign”.

Practice (Usage)

1. Put together two or more phrasal verbs into the same sentence.

For example:

“My brother is always **breaking up** with his girlfriend, then five minutes later they've **made up** again.”

“As a child I used to **long for** my dad to **give up** smoking, but he was **signing on** and it was one of the few pleasures he had left in life.”

2. Link phrasal verbs to make a story or dialogue/role play – one in each sentence.

John: Did you know Roger and Claire have **broken up**?

Janey: I thought they were going to **take out** a mortgage together?

John: Yes, but I think they've been so busy they couldn't **fit it in**.

Janey: Oh, that's terrible. I hope they can **make up** with each other.

etc.

3. Put the phrasal verbs into the four categories in the unit that you are studying.

Children: sign on, stand up to

Teenagers: fit in, take out

Adults: break up, long for, give up

Elderly People: make up

4. Think of a subject and an object for each phrasal verb (where possible).

Tina **broke up** with her boyfriend.

The Smiths **took out** a loan.

I tried to **fit in** with my class at school.

My sister **made up** with her former boss.

Jeremy is **signing on** the dole.

Arthur **stood up to** the bully at his school.

My parents were **longing for** a grandchild.

My teacher has **given up** smoking.

Talk a Lot

Intermediate Book 1

Eat Up Your Phrasal Verbs – They're Good for You!

Sample Answers

5. Think of an item that you could associate with each phrasal verb.

break up: an engagement ring returned to the shop
take out: a loan agreement ready to sign
make up: some paper tissues to mop up the tears
sign on: a worn social security book

etc.

6. Put the phrasal verbs into groups of places where the actions could happen.

fit in / stand up to: a school playground
take out: a bank
break up / make up: a nightclub or restaurant

etc.

7. Put the phrasal verbs into groups to show what time of day the actions might occur, e.g. a) morning, b) afternoon, c) evening, d) night.

a) morning: take out
b) afternoon: sign on, stand up to
c) evening: long for
d) night: break up, make up

etc.

Memory Games

1. Put the phrasal verbs into alphabetical order.

break up, fit in, give up, long for, make up, sign on, stand up to, take out.

2. Put the phrasal verbs into reverse alphabetical order.

take out, stand up to, sign on, make up, long for, give up, fit in, break up.

3. Make a chain of phrasal verbs: one, *then* one plus two, *then* one plus two plus three... etc. (Shopping List Game).

Here students sit in a circle and recite the phrasal verbs from memory. The first student says one, then the next student says that one plus one of their own, then the third student says those two plus one of their own, and so on. You could make it harder by asking the students to tell you whether the phrasal verbs are transitive separable or inseparable, or intransitive. Or, by asking them to think of a phrase or short sentence for each new phrasal verb, etc.

Talk a Lot

Intermediate Book 1

Eat Up Your Phrasal Verbs – They're Good for You!

Sample Answers

4. Set up a group of cards face up. Memorise the arrangement. Turn them face down. Try to find each phrasal verb by turning up the correct card first time.

5. How many phrasal verbs can you remember when they are all face down on the table?

These activities are both self-explanatory – the aim being to become familiar with all of the phrasal verbs in the unit as quickly as possible.

*Pick an Individual Phrasal Verb
...and choose **one** of its meanings to explore*

For the second part of this set of sample answers I have chosen the phrasal verb “give up” with the literal meaning “to finish a habit” (from *Unit 2: Problems*).

Meaning and Context

1. Decide whether it has an idiomatic meaning, a literal meaning, or both.

The meaning of “give up” is idiomatic. To “give up” is not a literal, physical action, and “give up” is not related to the verb “to give”. On the other hand, “sign on” has a literal meaning in that in order to receive benefits from the British Government you do have to sign a document.

2. Translate it into your language.

Answers will vary.

3. Say whether it can be replaced by a single verb. If it can, which verb?

“give up” could be replaced in a sentence by either of these synonyms: “stop” or “quit”, e.g.

Sally has **given up** smoking.

Sally has **stopped** smoking.

Sally has **quit** smoking.

4. Decide whether its tone is formal, informal, neutral, or slang.

“give up” is fairly standard, everyday English. It is not slang – “quit” is the slang term. It is not formal – a more formal verb with the same meaning would be “cease”.

5. Act it out without speaking – although you can make noises!

A student might mime somebody smoking, coughing, then discarding the cigarette, or screwing up the packet and throwing it away.

Talk a Lot

Intermediate Book 1

Eat Up Your Phrasal Verbs – They're Good for You!

Sample Answers

6. Draw a picture to represent its double meaning.

This question is relevant to a phrasal verb if it has more than one meaning. For example, “give up” can mean two different things: “finish a habit” and “stop trying”. A student might draw a picture of a smoker who has tried to give up smoking, but can't manage it, and because of this has stopped trying.

7. Analyse the words. Is it possible to try to guess the meaning from the words?

This question is related to Question 1, above. Since we have decided that “give up” does not have a literal meaning, it follows that it will not be possible to guess the meaning from the words, although we might argue that if somebody “gives up” something – literally offering it up as a gift – then they won't have it for themselves, and therefore won't benefit from it. Tenuous links are still valid, as long as they get students talking and thinking about phrasal verbs!

8. Say a sentence with the literal meaning, then the same sentence with the phrasal verb. Compare them. Which sounds better? Why?

Compare these two sentences:

Literal/boring meaning: “I'm going to stop smoking.”
With the phrasal verb: “I'm going to give up smoking.”

In the first sentence it is quite clear what you are going to do, although you might need to add further information, such as the adverb “permanently”, to make the meaning crystal clear. The second sentence is only clear if you understand the meaning of the phrasal verb “give up”. If you do, then the second sentence – with the phrasal verb stating the permanence of the action – is more concise and therefore more satisfactory.

9. Think of another phrasal verb that has the same or a similar meaning.

The phrasal verbs “pack up” and “pack in” are synonyms for “give up”, although they are slang expressions rather than standard English:

“I'm going to **give up** smoking.”)
“I'm going to **pack up** smoking.” } same meaning
“I'm going to **pack in** smoking.”)

10. Think of another phrasal verb that is connected with the same topic.

If you “give up” smoking, you might then “throw away” your cigarettes, lighter, and ashtrays, and forever afterwards “look down on” anybody who refuses to do the same!

11. Think of an opposite phrasal verb (if possible).

The opposite of “give up” (stop) is “take up” (start). For example:

A: My husband has given up smoking.
B: Oh really? Mine has just taken it up!

Talk a Lot

Intermediate Book 1

Eat Up Your Phrasal Verbs – They're Good for You!

Sample Answers

12. Think of another phrasal verb that uses the same verb. Compare the meanings.

“give up” shares the same verb (give) with “give in”, which is related to “give up” in that when you “give in” you submit to something, or are dominated by something, e.g. tobacco. When you “give up” that thing you gain freedom and you win, rather than “giving in”.

13. Describe the usual meaning of the verb, without the particle. Does it relate in any way to the meaning of the phrasal verb?

This question is related to Questions 1 and 7. “give” means to offer something to somebody or something. When we “give up” something we could argue that we are offering something which – after giving it up – we won't have any more.

Form

1. Decide whether it takes an object (transitive), no object (intransitive), or can be both.

In the meaning of “finish a habit”, “give up” is transitive: it needs an object following it. We can't say, for example: “My friend gave up last month.” What did they give up? It is intransitive in its second meaning “stop trying”, so we can say “My friend has given up”, with the meaning that they have stopped trying.

2. If it is transitive, where can the object go? Is it separable (middle or end) or inseparable (end only)?

In the meaning of “finish a habit”, “give up” is transitive inseparable: we can't put the object between the verb “give” and the particle “up”. We can't say, for example: “My friend gave smoking up last month.” The correct sentence would be: “My friend gave up smoking last month.”

3. If it has a noun form, what is it?

“give up” does not have a noun form, although plenty of phrasal verbs do. For example, from our original group of eight we can find: a break up; some take out (food); some make up (cosmetics); and a longing for sth/sby.

4. If it has an adjective form, what is it?

“give up” does not really have an adjective form, although we might see the phrase “a given-up habit”, or something similar. Plenty of phrasal verbs do have adjective forms, however. For example, from our original group of eight we can find the following compound adjectives: take-out food; a making-up party; a signing-on book; and a longed-for child.

Talk a Lot

Intermediate Book 1

Eat Up Your Phrasal Verbs – They're Good for You!

Sample Answers

5. Say whether another phrasal verb can be made by adding another particle.

We can make the following phrasal verbs by adding another particle to “give up”:

<u>Phrasal Verb:</u>	<u>Literal Meaning:</u>	<u>Example:</u>
give up for	applaud	Let's give it up for The Monkees!
give up on	abandon	Jack gave up on his wayward son.
give up to	denounce	Jack gave up his son to the authorities.

6. What is the sound connection between the words – i.e. (cv), (vc), (vv), or (cc)?

The sound connection between the words “give” and “up” is cv – consonant sound /v/ to vowel sound /ʌ/

7. Think of some more phrasal verbs that use the same verb.

This question is related to Meaning & Context Question 12, above. There are a lot more phrasal verbs starting with the verb “give” that you could explore, for example:

give away, give back, give in, give in to, give off, give out, give over, give up on, give up to
etc.

8. Find one or more idioms that contain this phrasal verb.

There are several well-known idioms that are based on the phrasal verb “give up”:

<u>Idiom:</u>	<u>Literal Meaning:</u>
1. To give sby up for dead.	To believe that sby is dead and therefore stop looking for them.
Example:	“The police were no longer searching for Mr. Clifton. They had given him up for dead.”
2. To give up the ghost.	To die (people) or to break down irreparably (machines)
Example:	“My computer has finally given up the ghost.”
3. To not give up without a fight.	To keep trying, even though the situation is very difficult.
Example:	I'm going to get my solicitor to examine my father's will again. I <i>will</i> get some money from it! I won't give up without a fight!

Intermediate Book 1

Eat Up Your Phrasal Verbs – They're Good for You!

Sample Answers

Practice (Usage)

1. Use this phrasal verb in a sentence to talk about a situation in your past.

For example: "My dad gave up smoking in 1989."

2. Use this phrasal verb in a sentence to talk about a future situation.

For example, "My Auntie Mary is going to give up chocolate for Lent."

3. Use the phrasal verb in a sentence on any topic (using a given verb form).

For this question you could give the students a particular verb form, or they could suggest one themselves, for example:

Verb form: future with "going to"
Topic: any
Sentence: "I'm going to give up playing the piano, because I haven't got time to practice."

4. Use the phrasal verb in a sentence based on the topic (using a given verb form).

Verb form: past simple
Topic: Problems
Sentence: "Tim gave up drinking after he was arrested for being drunk and disorderly."

5. Think of two or more collocations with nouns.

Students should try to think of as many different collocations as possible, for example:

give up smoking	give up drugs
give up chocolate	give up soap operas
give up alcohol	give up gambling

etc.

i.e. "give up" any habit, particularly one which has negative results.

6. Think of two or more collocations with adverbs.

give up smoking reluctantly	give up drugs willingly
give up chocolate enthusiastically	give up soap operas resentfully
give up alcohol half-heartedly	give up gambling completely

etc.

Eat Up Your Phrasal Verbs – They're Good for You!

Phrasal Verbs Dice Game – Instructions

The Phrasal Verbs Dice Game consists of the following worksheets:

P.71 Most Common Verbs and Particles Dice

Print the worksheet onto thin card. Use colour ink if possible. Cut out the dice and score along each connecting line. Then fold the dice together and glue or tape the tabs underneath.

When you have both dice ready, students take it in turns to roll them both together and then use the resulting phrasal verb with some of the 57 quick activities from the *Eat Up Your Phrasal Verbs* activity list (from P.51). The aim of the dice game is to create random phrasal verbs which can then be analysed. This particular pair of dice will make 34 different phrasal verbs, e.g. "go out" – see P.72 for the full list – and even more if you have two particle dice and make three-word phrasal verbs, e.g. "put back down". The six verbs have been specially chosen because each is used in many different phrasal verbs. Similarly, the six particles have been chosen as among the most commonly occurring phrasal verb particles in English. To make the game more fun, you could award points for successfully completing a task.

A simpler, more informal activity would be to get students to roll the dice and then discuss the resulting phrasal verb – its meaning(s), translation, and the situation and context in which it could be used.

It can be interesting to choose an individual verb and then roll only the particle dice, making up to six different phrasal verbs. Similarly, you could choose one particle and roll only the verb dice – and look for possible connections between phrasal verbs that use the same particle.

Note: there may be a few occasions when no phrasal verbs are made when you roll both dice, e.g. "give down" is not a valid phrasal verb.

P.73 Object Dice

These dice can be used with the main game (above). Students roll the verb, particle, and object dice and discuss whether they can use the object with the resulting phrasal verb – and where that object can go – or whether there is no object (the blank face of the dice). For example:

"give up" + "sth" = give something up (e.g. stop smoking)

"give up" + "him" = give him up (e.g. stop thinking about an ex-lover)

"come back" + "it" = impossible. "come back" is intransitive and does not need an object.

"come back" + "no object" (blank face of the dice) = possible: "come back" (return)

Intermediate Book 1

Eat Up Your Phrasal Verbs – They're Good for You!

Phrasal Verbs Dice Game – Instructions

This activity is intended to get students talking about whether phrasal verbs take an object (transitive) or not (intransitive) – and if they do take an object, where that object can go: either between the verb and particle or after the particle (separable), or only after the particle (inseparable).

There is also a blank dice on this page with which you can create your own verbs, particles, or objects dice.

P.74 Two Blank Dice

This worksheet gives students or teachers the opportunity to design and print their own verb, particle, or object dice. You can tailor the activity to focus on the phrasal verbs in a particular unit, or indeed *any* group of phrasal verbs that you need to practise.

Phrasal Verbs Dice Game – Combinations

When you roll the **Most Common Verbs and Particles Dice** there are 36 possible combinations, which produce 34 different phrasal verbs. They are listed below, along with their literal meanings and example sentences. For this exercise only one literal meaning is listed for each phrasal verb – there may be more, so if you have time you could explore further with a phrasal verbs dictionary – or online!

<u>Verb Dice:</u>	<u>Particle Dice:</u>	<u>Literal Meaning:</u>	<u>Example Sentence:</u>
BE	BACK	<i>none</i>	–
	DOWN	be not functioning	Oh no! The internet's down again!
	IN	be fashionable	Plain blue shirts are in this season.
	OFF	be no longer fresh	The milk's off . Can you buy some?
	OUT	be an unsuitable day	I'm away next week, so Friday's out .
COME	UP	be awake	I've been up for about two hours.
	BACK	return	I just came back to get my jacket.
	DOWN	decrease	I hope the price of fuel comes down .
	IN	enter	Hi! Great to see you! Please come in .
	OFF	be removed	The stain on the carpet won't come off .
GET	OUT	be released	When's that new CD coming out ?
	UP	occur unexpectedly	I can't meet later; something's come up .
	BACK	return	What time did you get back last night?
	DOWN	dance	They were getting down at the club!
	IN	enter	Hurry up and get in the car, please!
GIVE	OFF	leave	I got off the train and ran to meet her.
	OUT	become known publicly	The news about her pregnancy got out .
	UP	rise	I usually get up at seven in the morning.
	BACK	return sth	I forgot to give back Tammy's DVD.
	DOWN	<i>none</i>	–
GO	IN	surrender	In a fight he never gives in .
	OFF	produce sth	The car engine gave off a funny smell.
	OUT	distribute	Can you help give out these leaflets?
	UP	finish a habit	My brother has given up smoking.
	BACK	revisit	I went back to my old school last week.
PUT	DOWN	decrease	At night the temperature goes down .
	IN	be understood	If I revise at night the facts go in better.
	OFF	happen	The event went off really well.
	OUT	socialise	Me and my mates go out every Friday.
	UP	increase	The price of milk has gone up again.
PUT	BACK	replace	Please put my books back on the shelf.
	DOWN	criticise	My brother is always putting me down .
	IN	interject	"What about me?" put in Bob angrily.
	OFF	postpone	The concert was put off until next year.
	OUT	extinguish	It took fifteen minutes to put out the fire.
UP	allow sby to stay	When I went to Rio, my mate put me up .

Intermediate Book 1

Slang

Definition of Slang – from *Unit 2: Problems*

Slang is informal language consisting of words and phrases that replace standard dictionary words and phrases. It is used far more often in spoken English than in written English. Slang words are known and used by members of a particular group of people, which might be based on: class, race, gender, age, education, interests, job, etc.

Example:

“Do you like my new t-shirt?”

“Yeah, man!” [“Yes, my friend.”] “It’s totally sick!” [“It’s really nice!”]

When:

When you want to show that you belong to a particular group. By adopting their slang and customs you will feel closer to them, and they will be more likely to accept you as a legitimate member of their group.

Derbyshire Accent Project – Notes

The language is English, but the accent is unique to Derbyshire. It doesn't sound the same as "standard English" (also known as RP – Received Pronunciation).

Accent = how we speak the language – vowel sounds and consonant sounds
Slang = words & phrases that are used by a certain group of people instead of the normal terms
Dialect = words & phrases that are learned and used only in a particular geographical area

What does a person from Derbyshire do when they speak?

1. They lose the beginning of a word:

- e.g. **because** becomes → '**cos**
- In particular the initial **h**, e.g. **head** → '**ed**

2. They lose the end of a word:

- e.g. **were** → **w'**. They also change /ŋ/ of gerunds to /n/ e.g. **doing** → **doin'**

3. They use short vowel sounds instead of long vowel sounds:

- e.g. **be** /bi:/ → **bi** /bɪ/

4. They run words together and miss out words which are not important to the meaning of the sentence:

- They miss out verbs, especially auxiliary verbs, e.g. **I have been** → '**Av bin**
- They miss out **to** before an infinitive, e.g. **want to go** → **wanna go**
- They miss out the short space between words, e.g. **got a** → **gotta**

5. They use the wrong word:

- e.g. **there** → **the**
- Use verb **to be** incorrectly, e.g. **I was** → **I were**
- Use the wrong pronoun, e.g. **The girl who...** → **The girl what...**

6. They pause, stumble and interrupt themselves

7. They don't speak in complete sentences:

- They continue speaking without pausing between sentences
- They stop suddenly in the middle of a sentence and start a new one

8. They use slang words and phrases, including words not appropriate in a formal situation, e.g. swear words, words appropriated from TV and popular culture (in particular words from American English), and/or words and phrases that are only known locally (dialect terms)

Note: they may do any combination or all of these things. No wonder it can sometimes be difficult for a non-native speaker of English to understand what English people are saying!

Talk a Lot

Intermediate Book 1

Derbyshire Accent Project – Notes

Why do people from Derbyshire speak like this?

- So that they can speak faster. To minimise the time from speaker's brain to listener's brain
- To fit in. To feel that they belong to a particular social, geographical, economic and/or cultural group
- Because they are proud of their class and their heritage
- To keep continuity with their family: "My dad spoke like this, and his dad before him..." and so on. For some people it may be that they are comfortable with how they speak and everyone else is incorrect – either odd or comical (e.g. a Cockney or Brummie (Birmingham) accent), or posh (e.g. RP – Received Pronunciation)
- Mixing in dialect words makes the language richer and more varied – and as such more interesting and alive – than standard literal dictionary English

Important Phonetic Differences:

/ʊ/ for /ʌ/ e.g. bus → /bʊs/ one → /wʊn/

/i/ for /eɪ/ e.g. Monday → /'mʊn.di/

/ɑː/ for /aʊ/ e.g. about → /ə'baʊt/ out → /aʊt/

/æ/ for /ɑː/ e.g. bath → /bæθ/

/ʌ/ for /ɒ/ e.g. was → /wʌz/

/e/ for /i/ e.g. ready → /'re.de/

/uː/ for /juː/ e.g. stupid → /'stʊː.pɪd/

/z/ for /s/ e.g. because → /'bi.kʌz/

/ə/ for /eə/ e.g. wasn't there? → /wɒnt ðə/

/e/ for /eɪ/ e.g. make → /mek/

/ɪ/ for /aɪ/ e.g. my → /mɪ/

/ɪ/ for /iː/ e.g. she → /ʃɪ/

Intermediate Book 1

Comprehensive List of State Verbs in English

State verbs form a small group of verbs in English **which don't usually have continuous forms**, but use only simple verb forms. They are sometimes called "stative verbs" or "non-progressive verbs". For example:

We say:	"Annie likes frozen peas."	not	"Annie is liking frozen peas."
We say:	"I saw a bird sitting on a branch."	not	"I was seeing a bird sitting on a branch."
We say:	"Sue is nearly forty years old."	not	"Sue is being nearly forty years old."

State verbs are different from **active verbs** (also called "dynamic verbs"), which describe deliberate physical actions, e.g. **run, eat, put**, etc. They fall into three main groups:

1. Things that I do in my head – with my mind:

These thoughts are already continuous – or permanent – without using a continuous tense

a) general thought processes:

believe
know
notice
realise
recognise
remember
understand
want
forget *
judge *
think *
wish *

b) negotiations with other people:

accept
agree
disagree
doubt
impress
mean
need
promise
refuse
suspect
mind (care about) *
suppose *
trust *

c) likes and dislikes:

dislike
fancy
hate
like
loathe
love
prefer

2. Things that I do involuntarily – that I can't help doing:

We use our senses all the time when we're awake – whether we want to or not! So these actions are already continuous, without using a continuous tense

a) senses:

hear
smell
feel *
see *
sense *
taste *

** These verbs can be both state and active, depending on the context in which they're being used, e.g.*

State meaning: "I have two garages." (*general state of ownership*) not: "I'm having two garages."

Active meaning: "We're having dinner at Emily's house." (*deliberate action*)

3. States which are either continuous or permanent:

These states are already continuous – or permanent – without using a continuous tense

a) general states of being:

deserve
last (duration)
matter
seem
sound
be *
keep (continue) *
fit (clothes) *
involve *
lie (position) *

b) possession:

belong
own
possess
have *
owe *

c) contents:

consist of
contain
include *

d) measurement:

measure *
weigh *

State Verbs in English – Matching Game 1

State verbs form a small group of verbs in English **which don't usually have continuous forms**, but use only simple verb forms. They are different from **active verbs** – e.g. run, eat, put, etc. – which describe deliberate physical actions. Some verbs are only state verbs, but other verbs can be both state and active, depending on the context in which they're being used.

Look at the **continuous form** sentences below. All of them use state verbs. Ten of them use state verbs correctly, and ten incorrectly. Separate the sentences into **correct** and **incorrect**, and correct the mistakes.

1. Jack is being silly in the garden.	11. Have you been smelling the pizzas in the oven? Delicious!
2. I was feeling awkward because it was my first day in class.	12. I'm wishing it would snow for Christmas!
3. Are you trusting me?	13. We're seeing the new film by Clint Eastwood tomorrow night.
4. I'm keeping the door closed because I don't want my dog to get out.	14. Are you realising what will happen if you leave?
5. I'm believing in Father Christmas.	15. We're trusting you to look after the house while we're away.
6. We're having dinner at Emily's house.	16. After watching it for eleven years, I'm still loving Coronation Street.
7. "You're forgetting something, John." "What?" "I love you!"	17. Which book are you meaning?
8. We're involving you in the discussion because you work for this company.	18. We're thinking about moving to Ireland.
9. Megan is really wanting to get married.	19. I was weighing the parcel on the scales, when my dog barked.
10. She is owing me five pounds.	20. It is seeming that you aren't very happy in this job.

State Verbs in English – Matching Game 2

State verbs form a small group of verbs in English **which don't usually have continuous forms**, but use only simple verb forms. They are different from **active verbs** – e.g. run, eat, put, etc. – which describe deliberate physical actions. Some verbs are only state verbs, but other verbs can be both state and active, depending on the context in which they're being used.

Look at the **continuous form** sentences below. All of them use state verbs. Ten of them use state verbs correctly, and ten incorrectly. Separate the sentences into **correct** and **incorrect**, and correct the mistakes.

1. The film is lasting for an hour and a half.	11. We were tasting different wines all afternoon, and well into the evening too!
2. The tap was keeping dripping, so I called a plumber.	12. Paul could be hearing the TV as he walked past the living room door.
3. I'm sensing some discomfort among the audience.	13. We are including Kayleigh, because she always feels left out.
4. Annette is lying about her relationship with Alex.	14. I'm judging a talent show at the local theatre in March.
5. I am doubting that the bus will be on time.	15. My mate is fancying you!
6. I was minding my own business the other day when...	16. Are you minding if I sit here?
7. Gordon's fitting the legs onto the new coffee table.	17. I was measuring the driveway, because we wanted to sell our house.
8. Are you knowing what time it is?	18. Are you preferring Mozart or Vivaldi?
9. This fruit cake is tasting delicious!	19. Owing to the large number of letters, we can't reply to you all.
10. Wishing you a very happy birthday!	20. I'm not able to be remembering my cousin's girlfriend's name.

Intermediate Book 1

Why Use Politically Correct Language?

Introduction

Political Correctness (PC) is an unofficial movement that rose to prominence in the 1980s and early '90s. Its aim is to promote equality in society and reduce discrimination towards people belonging to different groups. Among its various activities that aim to influence society and government, one of its strategies is to make taboo forms of language that potentially cause offence among – generally speaking – minority groups, on the grounds of:

ability
age
appearance

gender
race
religion

sexuality
status
other reasons

In short, politically correct language means words and phrases that we use, instead of potentially derogatory or insulting language, to talk about something negative without causing offence. It is connected with **euphemism**, which can be defined as:

“A euphemism is a word or phrase that replaces part of a sentence which is considered offensive or taboo – i.e. that cannot be talked about in “polite” conversation.”

Example: John is Ellen’s boyfriend, but she introduces him to her parents as “A close friend”, because she doesn’t want them to know how serious their relationship is.

There are two kinds of politically correct language:

1. **Extreme Politically Correct Language:** phrases that we don’t use very often in everyday life, because they seem too extreme or sound silly
 - e.g. “My little Billy isn’t fat, he’s just *big-boned*.”

Aim: to try to see something positive in something negative. But taken to extremes political correctness can become a bit of a joke in itself.
2. **Everyday Politically Correct Language:** phrases that we *do* need to use in everyday life, to avoid offending or stigmatising other people, especially people who belong to minority groups.
 - e.g. “We’re planning a special lunch for *senior citizens* next week.” [not *old people*]
More respectful or neutral phrases replace blunter, more potentially insensitive or offensive language. For example, politicians are keen to use inclusive PC language in order to appeal to the greatest number of voters. Another example of required politically correct language is the use of gender-neutral terms, e.g. “police officer” instead of “policeman”, to reflect changes in our workforce and culture.

Intermediate Book 1

Why Use Politically Correct Language?

1. Extreme Politically Correct Language

Let's imagine two different situations:

Situation 1

You start a new job in a large office. The person showing you round describes some of the members of staff using the following politically correct language. Match each PC phrase with one of the franker meanings:

a) deaf b) ugly c) drunk d) old e) fat f) ignorant

1. Paul isn't _____, he's just rather **factually unencumbered**.
2. Jean over there isn't _____, she's just **horizontally enabled**.
3. As you can see, Brioney is _____, but we prefer to say **aurally inconvenienced**.
4. Tina is almost sixty-six, but we don't call her _____; rather **chronologically gifted**.
5. Tommy works hard but has the tendency to get _____ – or as we like to put it, **over-served** – every now and again.
6. One might devise some cruel nicknames for Maggie, but I prefer to think of her as **visually challenging**, and not _____.

Situation 2

Your job doesn't work out and after about six months you begin a new job at a furniture store. The person showing you round describes a few of the people who work there using the following quite direct and insensitive language. You are so used to PC language by now that you try to correct your new colleague, using one of the following PC phrases in each case:

a) terminally inconvenienced
b) an individual with temporarily unmet objectives
c) residentially flexible

d) motivationally deficient
e) potentially good
f) involuntarily leisured

1. When you say that Jonathan is **lazy**, do you mean _____?
2. I prefer to think of your former colleague, Mr. Hoskins, as _____, rather than **dead**.
3. Instead of labelling your boss a **failure**, you should say that he's _____.
4. I'm sorry, but calling that person who asked you for change a **bum** isn't very kind. Could you perhaps refer to him as _____ instead?
5. I believe that instead of considering Larry **pure evil**, we should think of him as _____.
6. No, I wasn't **unemployed** for two months. I was simply _____.

sexually active

STATUS

Don't say:

drug addict

tramp/bum
trailer park
broken home

Say instead:

person with a chemical dependency/person in
recovery
homeless person
mobile home community
dysfunctional family

OTHER NEGATIVE THINGS

Don't say:

used/second-hand
worst
mistake
to lie
politically correct

Say instead:

recycled
least best
learning experience
to be creative with the truth/with the facts
culturally sensitive

Further Study:

- Consider politically correct language and behaviour in *your* culture. How politically correct are *you* / is *your* school or workplace?

Intermediate Book 1

Why Use Politically Correct Language?

- Examine the language in “extreme” politically correct phrases, and try to build your own:

A typical “extreme” PC phrase consists of:

- an **adverb** of viewpoint (often an “-al” adjective + “-ly” suffix, e.g. *emotional + ly = emotionally*) related to the thing that you want to describe, such as:

academically	education
alphabetically	alphabet/language
aurally	hearing
behaviourally	behaviour/actions
biologically	biology/body/metabolism
chronologically	time
cosmetically	face/appearance
differently	being different
ecologically	the environment
economically	money
emotionally	emotions/feelings
environmentally	the environment
ethnically	ethnicity/race
experientially	experience/age
facially	face
factually	facts/information/knowledge
follically	hair
geographically	geography/places
historically	history
ideologically	ideologies
indefinitely	lasting for a long time or forever
involuntarily	something not being your choice
mathematically	mathematics/numbers
metabolically	body/metabolism
morally	morality/behaviour/actions
motivationally	motivation level/behaviour
musically	music/rhythm
nasally	nose
nautically	boats/the sea/the ocean
politically	politics/power
psychologically	the mind/the brain/psychology
racially	race
residentially	housing
socially	society/other people
statistically	statistics/facts
technically	technical things
technologically	technology/computers/gadgets
terminally	death/the end
vertically	height
visually	sight

etc.

- ...with an **adjective**, such as:

Intermediate Book 1

Why Use Politically Correct Language?

challenged
challenging
deficient
different
disadvantaged
discouraged
embarrassed
impaired
inconvenienced
unencumbered
unfocused
untalented

= **negative meaning** e.g. you don't have enough of something or you are not able to do something

enabled
enhanced
flexible
gifted
improved
interesting
orientated
qualified

= **positive meaning** e.g. you have a lot of something or are able to do something

etc.

Examples of new politically correct phrases, using some of the words listed above:

- Somebody who is afraid of travelling by boat could be called **nautically challenged**.
- Somebody who is lost could be said to be **geographically unfocused**.

etc.

Answers:

Situation 1:	1. f)	2. e)	3. a)	4. d)	5. c)	6. b)
Situation 2:	1. d)	2. a)	3. b)	4. c)	5. e)	6. f)

How to Pronounce the Past -ed Form of Regular Verbs

The past forms (2nd and 3rd forms) of all regular verbs in English end in “-ed”. Sometimes “-ed” is pronounced /əd/, sometimes /d/, and sometimes /t/. It depends on the **sound** (not the spelling) at the end of the infinitive form of the verb:

1. If the verb ends with a /t/ sound, “-ed” is pronounced as an extra syllable /əd/
e.g. “accepted” is pronounced /ə'kseptəd/ All of these verbs (and more) follow this pattern:

accept, admit, alienate, attempt, attract, chat, cheat, communicate, complete, correct, create, debate, distract, doubt, exist, experiment, fascinate, fit, hate, hunt, invent, invite, last, paint, point, post, print, protect, start, suggest, tempt, test, text, trust, visit, wait, want, waste

2. If the verb ends with a /d/ sound, “-ed” is pronounced as an extra syllable /əd/
e.g. “added” is pronounced /'æ.dəd/ All of these verbs (and more) follow this pattern:

add, applaud, ascend, attend, avoid, decide, descend, end, explode, extend, fade, fold, forward, guard, include, intend, load, mend, need, recommend, record, succeed, suspend, trade

3. If the verb ends with a vowel sound – any vowel sound – “-ed” is pronounced as /d/
e.g. “admired” is pronounced /ə'dmaɪəd/ All of these verbs (and more) follow this pattern:

admire, agree, allow, annoy, appear, bother, care, continue, deliver, employ, empty, enjoy, enter, fry, glue, lie, matter, offer, order, owe, play, prefer, reply, share, spare, try, weigh, worry

4. If the verb ends with a *voiced* consonant sound “-ed” is pronounced as /d/. Voiced consonant sounds are: /b/ /g/ /v/ /ð/ /r/ /w/ /j/ /m/ /n/ /ŋ/ /l/ /z/ /ʒ/ /dʒ/
e.g. “cleaned” is pronounced /kli:nd/ All of these verbs (and more) follow this pattern:

clean, complain, earn, explain, happen, imagine, join, learn, listen, loan, open, own, phone, rain, return, stain, train, apologise, close, erase, praise, realise, suppose, surprise, use, charm, climb, dream, form, perform, seem, achieve, arrive, behave, improve, live, love, move, preserve, boil, call, fill, handle, pull, travel, arrange, challenge, change, manage, bathe, beg, belong, rob

5. If the verb ends with an *unvoiced* consonant sound “-ed” is pronounced as /t/. Unvoiced consonant sounds are: /θ/ /p/ /k/ /s/ /ʃ/ /tʃ/ /h/ /f/ /x/
e.g. “baked” is pronounced /beɪkt/ All of these verbs (and more) follow this pattern:

bake, book, check, kick, knock, like, look, talk, thank, walk, work, fax, fix, guess, kiss, pass, promise, pronounce, match, reach, touch, watch, finish, push, rush, wash, hope, stop, laugh

Final advice: the main thing is to avoid saying /əd/ when it is not necessary. The /d/ and /t/ sounds actually sound very similar, so don't worry if you get them mixed up sometimes. To sum up – learn the five rules on this page, and focus on avoiding an unwanted /əd/

200 Common Regular Verbs in English

The past forms (2nd and 3rd forms) of all regular verbs in English end in “-ed”. The rules are:

- If the verb ends with a /t/ or /d/ sound, “-ed” is pronounced /əd/
- If the verb ends with a vowel sound, “-ed” is pronounced /ɪd/
- If the verb ends with a voiced consonant sound, “-ed” is pronounced /ɪd/
- If the verb ends with an unvoiced consonant sound, “-ed” is pronounced /t/

Practise saying the past form of each regular verb, ending in /əd/ , /ɪd/ , or /t/

Intermediate Book 1

The Story of a Music Group (Lesson Plan)

<u>Level:</u>	Pre-Intermediate to Intermediate
<u>Skills:</u>	Speaking, Listening, Reading, Writing, and Imagination
<u>Groups:</u>	Students work in groups of three or four
<u>Aim:</u>	Speaking and listening practise; making a presentation
<u>Time:</u>	50 mins (activities) + 10 mins (error correction/feedback)
<u>Materials:</u>	Board and pens; handouts (optional); paper and pens for students
<u>Notes:</u>	Depending on time and the level/interest of your class, you could choose to do only Part 1 or only Part 2, below; you could start off with a few minutes of warmers connected with music, e.g. What's your favourite...? or How many genres can you name...? etc.

Procedure:

Part 1: A Real Music Group

1. SS form small groups of 3-4 students, or work in pairs.
2. Think of a music group from any genre. Answer the following questions:
 1. name
 2. genre
 3. members and instruments
 4. title and year of their biggest hit
 5. years active
3. All small groups feed back to main group.
4. Think about the history of your group in terms of three distinct stages:
 - Stage 1: STARTING OUT (initial period)
 - Stage 2: SUCCESS? (middle period)
 - Stage 3: SPLIT UP? (end period, or period to date – did they split up, or keep going?)

See the cards below for some ideas about what to consider for each stage.

5. T demonstrates a timeline, using their own example group (see Example Timeline, below). SS draw a timeline to show the three stages (as above) in terms of the level of success (commercial, artistic, etc.) of their group. It could be general or very detailed, with dates and events, e.g. tours, single and album releases, dates when people joined/left, etc.
6. Each group gives a presentation to the whole group. They talk about the three stages of their group's history and draw their timelines on the board. Each student should talk about one of the stages. (*Don't let one student do all the talking!*)

<i>Note: steps 4-6 could be missed out if SS don't know enough about their group's history. Or, SS could spend time researching their group on the internet – or decide to change their chosen group to one that they know more about.</i>
--

7. Error correction feedback. T discusses errors on the board with SS, who write notes.

Talk a Lot

Intermediate Book 1

The Story of a Music Group (Lesson Plan)

Part 2: A Made-Up Group

SS repeat the process as above, but this time imagining their own group (from any genre).

1. SS work in small groups of 3-4 students, or work in pairs.
 2. Imagine a music group from any genre. Answer the following questions:
 1. name
 2. genre
 3. members and instruments
 4. title and year of their biggest hit
 5. years active
 3. All small groups feed back to main group.
 4. Think about the history of your group in terms of three distinct stages:
 - Stage 1: STARTING OUT (initial period)
 - Stage 2: SUCCESS? (middle period)
 - Stage 3: SPLIT UP? (end period, or period to date – did they split up, or keep going?)
- See the cards below for some ideas about what to consider for each stage.*
5. SS draw a timeline to show the three stages (as above) in terms of the level of success (commercial, artistic, etc.) of their group.
 6. Each group gives a presentation to the whole group. They talk about the three stages of their group's history and draw their timelines on the board. Each student should talk about one of the stages. (*Don't let one student do all the talking!*)
 7. Error correction feedback. T discusses errors on the board with SS, who write notes.

Extension Activities:

1. Write lyrics to a hit song by your group
2. Write a list of album track titles, or album names
3. Rehearse and perform a track
4. Write a fan letter or email/message from a fan of your group – and/or the reply
5. Devise a music video and (if possible) record it!
6. One person interviews members of the group
7. Improvise role play scenes, e.g. getting together, signing a record deal, splitting up, etc.
8. Discuss question forms using the prompt cards, e.g. "How did the group get together?"

My proposition: **“Can I survive for 7 days without the media?”**

What is “the media”?

My definition:

“The media” consists of various constantly updated streams (or channels) which contain news, information, and entertainment – in particular that which is considered, usually for reasons of profit, to be the most important at the present time.

The primary purpose of the media is to make money by advertising products and services. By-products of the media (or secondary functions that result from this) are: information (e.g. news, weather, research info), entertainment (e.g. TV shows, music, films), and communication channels (e.g. email, phone calls, chat).

Advertising mixes in with news, entertainment, and useful services, until it is inseparable from that which we actually want to get from the media...

What is “the media”?

Media Streams:

radio
television
cinema

newspapers
magazines

internet
mobile devices
games consoles

shop windows
street advertising
junk mail
public events

What is **NOT** the Media?

Category	Not Media
communication / spending time with other people	email / texts / chat messages / phone calls normal conversation / discussion / argument telling stories / singing songs / playing games
what I choose to do without being influenced by the media (my free choice)	music that I choose to listen to (not broadcast) books that I choose to read DVDs that I choose to watch (not broadcast) games that I choose to play (not via internet) hobbies that I choose to pursue, e.g. gardening, musical instruments, drama club, etc.
reference material	reference sites online, e.g. dictionary, encyclopaedia, bus timetable, etc. libraries of books / archives
products per se which are necessary, and which I choose to buy without being influenced by the media	my shopping electronic devices

How I Use the Media – Self-Assessment Form

Media Streams: radio / television / cinema / newspapers / magazines / internet / mobile devices /
games consoles / shop windows / street advertising / junk mail / public events

Media Stream	Swimming in the Stream	On / Off? Level? (Low, Medium, or High)	My Current Use of this Stream	Positives and Negatives of this Stream	My Results after ___ Days
				<u>[+] what I value</u>	<u>what was easy</u>
				<u>[-] potential dangers</u>	<u>what was difficult</u>

Some points for discussion:

- How many of these streams are switched on in your life? To what extent? Low, medium, or high? Have you got too many switched on? What effect do they have?
- What is swimming in each media stream...? (advertising and marketing for the latest products, e.g. music, films, books, games, technology, toys, fashion, food, etc.; news and factual information; entertainment; sport; communication, etc.)
- Isn't the aim and net effect of these media streams **to make you feel dissatisfied with life and with yourself so that you buy more?**
- Thanks to the internet, we can now buy a single device that can open up all of these media streams. Who benefits the most from this – you or big business?

Pros and Cons of the Media:

Pros of the media:

Cons of the media:

Surviving for 7 Days without **the Media** <http://www.englishbanana.com/talkalot/>

Pros and Cons of the Media:

Pros of the media:

- We feel **connected** to a wider community and wider world
- We can get **relevant** information that is helpful to us
- We get the **positive benefits** of the secondary functions of the media streams, e.g. faster communication via email or mobile, and **enjoyment** from the entertainment and sport
- We **learn** things that we didn't know before. Our knowledge, outlook, and experience **widens**
- The media **challenges** our views and beliefs in a positive way

Cons of the media:

- The media brings **the market** into our homes and personal space like never before. In the past the market was outside the home. Thanks to the media, we can now carry the market with us in our pockets. How did it get so close? How exposed are we to the market? Is it healthy to be over-exposed?
- We spend money that we do not have buying products that we do not need**
- A lot of the information that we learn is totally **irrelevant** – or gossip – and as such is a distraction from what is important to us
- The media encourages us to **waste our time and money**
- We learn much that is not helpful – information that perhaps we shouldn't know – which can cause negative feelings of **low self-esteem and fear** (e.g. crime reconstructions, plastic surgery shows, etc.)
- The media **dictates** our views and beliefs. It tells us how to think, what to wear, how to behave, etc.
- We can **hide behind superficial online relationships**, not seeking out opportunities to interact with people in real space and time

The Media Junkie vs. The Media Realist

Media Junkies...	Media Realists...

The Media Junkie vs. The Media Realist

Media Junkies...	Media Realists...
have an insatiable appetite for “the new” and “the latest...”	enjoy what they already have
are constantly distracted by the media cloud around them	are calm and clear-headed
are constantly being told what to think and how to feel	learn how to think for themselves and let feelings come naturally
tend to be passive consumers	tend to be active “do-ers”
buy things that they don’t need with money that they don’t have	don’t waste money, but spend it carefully
are willingly in a servile relationship with big business	think and act independently of marketing pressure, making informed choices about what to buy
damage the environment by consuming too much too often	have a lower negative impact on the environment by consuming less
have superficial relationships with many “friends” online, but often feel lonely – even while sharing the latest piece of gossip or joke	have a smaller number of real friends that they socialise with in real space and time. They too sometimes feel lonely, as is natural
seem to other people to be artificial and fake	seem to other people to be natural and genuine
don’t know what is coming next – what the media will provide	plan what they want to happen next
enjoy being spoon-fed entertainment, news, and information	actively choose their own entertainment and source(s) of news/information
are considered by others to be “in the loop” and “switched on”	are considered by others to be “out of it”
are obsessed with trivial information	think more about what is important in life
spend more time alone doing solitary activities – fully engaged by advertising-soaked media streams, e.g. surfing the ‘net alone while watching TV and messaging friends	spend more time actively doing things in community with other people in real space and time
are constantly fed other people’s values, morality, and beliefs, even though they may be incompatible with their own beliefs/upbringing	consider values, morality, and faith for themselves, and try to live their lives in accordance with them
have unhealthy passions and an inner urgency for “more” – all of which are encouraged and given form by the media	have unhealthy passions and an inner urgency for “more” – which are more controlled and in the process of being mastered

A few conclusions:

- **Understand the function of the media in society**
- Understand your relationship with the market. How susceptible are you to the market?
- Consider that although the media brings advantages, it also has disadvantages
- Too much exposure to the media can be harmful
- **Be selective.** Learn to take and use only that which is valuable to you
- Consider how we use the media for escapism, and how it feeds our dreams of a better life – preventing us from living in the moment
- Consider whether you use the media as a form of white noise to block out silence and quiet. Why?
- Take regular breaks from the media, e.g. 7 days off. Put your head outside the cloud from time to time! e.g. go for a walk in the country – where there are no shops and no marketers
- Don't share too much personal information online. Control what you share
- Don't put the media before genuine personal relationships, e.g. with your family and friends
- Consider whether you are communicating on public channels or private channels
- Know that the media doesn't always want what is best for you. Make your own choices
- **Use the media, but don't let it use you!**

2. p) Many hands make light work.
3. e) Rome wasn't built in a day.
4. n) Life is a marathon, not a sprint.
5. b) It's not what happens to you in life, but how you deal with it that counts.
6. t) All good things come to those who wait.
7. g) Into each life a little rain must fall.
8. o) You can't win 'em all!
9. a) Make hay while the sun shines.
10. r) A change is as good as a rest.
11. d) Life is a mystery to be lived, not a problem to be solved.
12. i) Dance like nobody's watching.
13. s) The best way to dispose of an enemy is to become their friend.
14. l) Least said, soonest mended.
15. h) Have nothing in your home that you do not either know to be useful, or believe to be beautiful.

Talk a Lot

Answers to Supporting Material

89 State Verbs in English – Matching Game 1

The incorrect sentences were: 3, 5, 9, 10, 11, 12, 14, 16, 17, and 20. Here's how they should read:

- 3. Do you trust me? (present simple, not present continuous)
- 5. I believe in Father Christmas. (present simple, not present continuous)
- 9. Megan really wants to get married. (present simple, not present continuous)
- 10. She owes me five pounds. (present simple, not present continuous)
- 11. Have you smelled (or smelt) the pizzas in the oven? Delicious!
(present perfect simple, not present perfect continuous)
- 12. I wish it would snow for Christmas! (present simple, not present continuous)
- 14. Do you realise what will happen if you leave? (present simple, not present continuous)
- 16. After watching it for eleven years, I still love Coronation Street.
(present simple, not present continuous)
- 17. Which book do you mean? (present simple, not present continuous)
- 20. It seems that you aren't very happy in this job. (present simple, not present continuous)

90 State Verbs in English – Matching Game 2

The incorrect sentences were: 1, 2, 5, 8, 9, 12, 15, 16, 18, and 20. Here's how they should read:

- 1. The film lasts for an hour and a half. (present simple, not present continuous)
- 2. The tap kept dripping, so I called a plumber. (past simple, not past continuous)
- 5. I doubt that the bus will be on time. (present simple, not present continuous)
- 8. Do you know what time it is? (present simple, not present continuous)
- 9. This fruit cake tastes delicious! (present simple, not present continuous)
- 12. Paul could hear the TV as he walked past the living room door.
(modal simple, not modal continuous)
- 15. My mate fancies you! (present simple, not present continuous)
- 16. Do you mind if I sit here? (present simple, not present continuous)
- 18. Do you prefer Mozart or Vivaldi? (present simple, not present continuous)
- 20. I'm not able to remember my cousin's girlfriend's name.
(modal simple, not modal continuous)

Do you ever feel a bit *annoyed* when you consider that...

- a) You've worked hard to learn lots of English vocabulary – all the main sets
- b) You've studied (a bit) about how people use sentence stress and connected speech when they speak to connect words in a sentence
- c) You've been studying English for a long time

...but you still find it difficult to understand what people are saying, because a lot of it doesn't seem to make sense literally? These four full-length spoken English courses can help you!

Talk a Lot Intermediate is suitable for students at the following levels:

Student's Level: *Common European Framework (CEFR):* *Cambridge Assessment:*

Intermediate	to B2	FCE
Advanced	to C1	CAE

About the Author:

Matt Purland is a lecturer in English Language. He has a BA Honours degree in Drama from the University of Wales and a Postgraduate Certificate in Further Education from the University of Derby. He has written more than 2,000 photocopiable worksheets for learning English. This is his eleventh book. In 2002 he launched English Banana.com, which has become a hugely popular English language learning resource website.

*In the past three years, Talk a Lot books have been downloaded **more than 750,000 times** - and counting! Here are some recent comments from teachers and students:*

"It helps us improve much about English. Long live Talk a Lot!" Laishram - Student

"Thanks for this wonderful course. Please come up with Talk a Lot Intermediate!" Grace, Teacher

Talk a Lot Intermediate Book 2

Author's Note

Written between November 2011 and February 2012, *Talk a Lot Intermediate Book 2* is an attempt to combine the Talk a Lot approach to learning English with the look and feel of a traditional ESL course book. This project is still unfinished, although the first two units are complete. They have been collected together for the first time in this pack.

Matt Purland

Getting Away from it All!

Have you ever had
an expensive holiday?
Where did you go?
What did you do?

1 Discussion Words

Check any new words and mark the strong stress in each word or phrase:

Chief Executive Mauritius stepdaughter
Stuart getaway to jet off supplier PA
manufacturing firm sandcastles karaoke wi-fi
sunbathing resort reports tropical island
sales forecasts quarter Melanie factory

2 Dialogue

Read the following dialogue aloud with your partner:

- 1 *Stuart Willis is the Chief Executive of a small manufacturing firm based in Halifax, West Yorkshire. He recently jetted off to Mauritius for a romantic getaway at a luxury resort, with his second wife Denise and their stepdaughter Chloe. However, despite the sun, sand, and karaoke competitions, he just can't seem to relax. He phones his PA in England for a chat:*
- 5 **Melanie:** So how's your holiday going? Are you having a lovely time? What are you doing right now?
Stuart: Well, Denise is sunbathing and Chloe is making sandcastles on the beach, but I'm going through some sales forecasts for next quarter...
- Melanie:** Oh, I thought you were going on holiday to get away from it all. You should be sunning yourself. **Treat yourself!** It's the **holiday of a lifetime**.
- 10 **Stuart:** What's Tom doing today? Is he driving to Leeds to meet that supplier?
Melanie: Yes, he's meeting them at one o'clock for lunch.
Stuart: And are the lads in the factory **getting on alright**?
Melanie: Yes, I think so. They're hoping to finish two orders by five o'clock. Are you **checking up on us**?
Stuart: You know what they say, Melanie – **while the cat's away, the mice will play**.
- 15 **Melanie:** Well, **everybody's working flat out** to meet the targets you set us before you left. Don't worry – your deputy is taking care of everything.
Stuart: Good, good! Well, I can't chat any longer. I have to hurry. **Time is money**, you know!
Melanie: **What on earth** are you hurrying for? You're on a tropical island in the middle of the Indian Ocean!
Stuart: You know I'm a bit of a **control freak**. That's why I'm finishing off these two reports and then later we're going back to the resort.
- 20 **Melanie:** Oh, right. So you're not a total **workaholic**. You will have a chance to unwind with your family?
Stuart: Well, we're going so I can email some new reports to you. I can't get wi-fi on the beach!

3 New English Alphabet and Connected Speech

Can you find this sentence in the text? Practise saying it aloud:

uh y Ha ving uh Lu vlii Taim?
 a b c d e f g h

1. There are ____ syllables in this sentence.
2. The stressed syllables are _____.
3. The stressed vowel sounds are _____.
4. There are ____ Schwa sounds on _____.
5. There's an embedded Schwa sound on ____.
6. uh represents two different words: ____ and ____.
7. There are ____ friendly consonant sounds on...
8. There are ____ weak-stressed syllables.

4 Sentence Blocks – Present Continuous

Underline examples of **present continuous** form in the text, then practise the sentence blocks.

What time does present continuous indicate in each sentence?

1. **Chloe is making sandcastles on the beach.** *who / what / where*
2. **He's meeting them at one o'clock for lunch.** *when / what / why / who*
3. **They're hoping to finish two orders by five o'clock.** *what (x2) / when / who*

While the cat's away, the mice will play!

5 Non-Literal English – Idioms, Phrasal Verbs, and Slang

Look at the idioms which are highlighted in the text (left). Match each one to a phrase below:

- a) working without problems
- b) spying on somebody
- c) working very hard
- d) if you waste time you waste cash
- e) do something that you enjoy
- f) people won't work hard if the boss is absent
- g) a person who lives to work
- h) a trip you can only afford once
- i) why??
- j) somebody who must be in charge

Title

“To get away from it all” is an idiom meaning to have a relaxing break – a time when you can forget about work and problems.

Lead-in – Discussion Questions

Extensions: Prepare further discussion questions on this lesson topic – the tension between work and holidays. Or get SS to write their own and ask each other, perhaps changing partners a few times during the activity.

Pictures

Extensions: SS describe the pictures and how they are related to the lesson. SS look for other relevant pictures on the internet.

1 Discussion Words

The stressed syllable(s) are underlined:

Chief Executive Mauritius stepdaughter Stuart getaway to jet off supplier P A manufacturing firm
sandcastles karaoke wi-fi sunbathing resort reports tropical island sales forecasts quarter
Melanie factory

Extensions: Use the Discussion Word Questions from Talk a Lot Elementary Books 1-3 or Talk a Lot Intermediate Book 1, or use the Big Word Game or Talk a Lot Bingo from Talk a Lot Elementary Handbook.

2 Dialogue

Extensions: 1. SS improvise role plays based on the situation, e.g. what happened before or after? What happened back at the hotel? Imagine the other characters: Denise, Chloe, the lads at the factory, etc. 2. SS choose one character from the text and devise and perform a monologue as that character. They could practise different verb forms by setting the monologue before the time of the action (using future verb forms), during the action (using present verb forms), or after the action (using past verb forms).

3 New English Alphabet and Connected Speech

The sentence is from line 5: “Are you having a lovely time?”

1. There are **8** syllables in this sentence.
2. The stressed syllables are **Ha , Lu , and Taim [c, f, and h]**.
3. The stressed vowel sounds are **a , u , and ai**.
4. There are **3** Schwa sounds on **a, b, and e**.
5. There's an embedded Schwa sound on **b**.
6. uh represents two different words: **Are** and **a**.
7. There are **2** friendly consonant sounds on **d [ng] and h [m]**.
8. There are **5** weak-stressed syllables. [a, b, d, e, and g.]

Extensions: Translate other sentences from the text into the NEA and answer the same questions about them. Look at sentence stress and connected speech features. How do the syllables connect together? See Talk a Lot Foundation Course for more ideas.

4 Sentence Blocks – Present Continuous

There are many examples of present continuous form in the text, for example:

- 5 So how's your holiday **going**? **Are** you **having** a lovely time? What **are** you **doing** right now?

6 Well, Denise **is sunbathing** and Chloe **is making** sandcastles on the beach.

etc.

Note: parts of the text *in italics* will vary. SS should use their own ideas:

1. Chloe is making sandcastles on the beach.

In this sentence present continuous indicates: **now / at the moment**.

Who is making sandcastles on the beach? / Chloe is. / Is Chloe making sandcastles on the beach? / Yes, she is. / Is Bob making sandcastles on the beach? / No, *he isn't*. Bob isn't making sandcastles on the beach. / So...

What is Chloe doing on the beach? / Making sandcastles. / Is Chloe making sandcastles on the beach? / Yes, she is. / Is Chloe *reading a book* on the beach? / No, she isn't. Chloe isn't *reading a book* on the beach. / So...

Where is Chloe making sandcastles? / On the beach. / Is Chloe making sandcastles on the beach? / Yes, she is. / Is Chloe making sandcastles *in the park*? / No, she isn't. Chloe isn't making sandcastles *in the park*. / So...

2. He's meeting them at one o'clock for lunch.

In this sentence present continuous indicates: **future**.

When is he meeting them for lunch? / At one o'clock. / Is he meeting them at one o'clock for lunch? / Yes, he is. / Is he meeting them at *two o'clock* for lunch? / No, he isn't. He isn't meeting them at *two o'clock* for lunch. / So...

What is he doing at one o'clock? / Meeting them for lunch. / Is he meeting them at one o'clock for lunch? / Yes, he is. / Is he *playing golf* with them at one o'clock? / No, he isn't. He isn't *playing golf* with them at one o'clock. / So...

Why is he meeting them at one o'clock? / For lunch. / Is he meeting them at one o'clock for lunch? / Yes, he is. / Is he meeting them at one o'clock *for dinner*? / No, he isn't. He isn't meeting them at one o'clock *for dinner*. / So...

Who is he meeting at one o'clock for lunch? / Them (that supplier). / Is he meeting them at o'clock for lunch? / Yes, he is. / Is he meeting *his dentist* at one o'clock for lunch? / No, he isn't. He isn't meeting *his dentist* at one o'clock for lunch. / So...

3. They're hoping to finish two orders by five o'clock.

In this sentence present continuous indicates: **now / at the moment**.

What are they hoping to finish by five o'clock? / Two orders. / Are they hoping to finish two orders by five o'clock? / Yes, they are. / Are they hoping to finish *four orders* by five o'clock? / No, they aren't. They aren't hoping to finish *four orders* by five o'clock. / So...

What are they hoping to do by five o'clock? / Finish two orders. / Are they hoping to finish two orders by five o'clock? / Yes, they are. / Are they hoping to finish *four orders* by five o'clock? / No, they aren't. They aren't hoping to finish *four orders* by five o'clock. / So...

When are they hoping to finish two orders by? / (By) five o'clock. / Are they hoping to finish two orders by five o'clock? / Yes, they are. / Are they hoping to finish two orders by *three o'clock*? / No, they aren't. They aren't hoping to finish two orders by *three o'clock*. / So...

Who are hoping to finish two orders by five o'clock? / They (the lads) are. / Are they hoping to finish two orders by five o'clock? / Yes, they are. / Are *your parents* hoping to finish two orders by five o'clock? / No, they aren't. *My parents* aren't hoping to finish two orders by five o'clock. / So...

Extensions: Use other sentences from the text (or sentences written by SS on the same topic) and practise building sentence blocks using a variety of question words. SS work individually, in pairs, in small groups, or as a whole class. Or SS could focus on the verb form in question - present continuous - to create more starting sentences and sentence blocks. See Talk a Lot Elementary Handbook for further ideas.

5 Non-Literal English – Idioms, Phrasal Verbs, and Slang

Treat yourself!	e) do something that you enjoy
holiday of a lifetime	h) a trip you can only afford once
getting on alright	a) working without problems
checking up on us	b) spying on somebody
while the cat's away, the mice will play	f) people won't work hard if the boss is absent
everybody's working flat out	c) working very hard
Time is money	d) if you waste time you waste cash
What on earth	i) why??
control freak	j) somebody who must be in charge
workaholic	g) a person who lives to work

Extensions: 1. SS could translate the non-literal phrases into literal ones, and practise the dialogue again so that it is entirely literal - wholly grey language - instead of having the colour that the idioms, phrasal verbs, and slang bring. 2. Find other idioms, phrasal verbs, and/or slang on the same topic of work and holidays.

About Talk a Lot Intermediate Book 2

The aim of any Talk a Lot course is for students to practise and improve their speaking, listening, and pronunciation skills. Along the way the student will learn plenty of new vocabulary – including non-literal English expressions, such as idioms, phrasal verbs, and slang – and also practise reading, writing, and grammar skills, e.g. verb forms, word order, parts of a sentence, and so on.

This two-page spread provides an organised sequence of learning activities for students at intermediate level (CEF B2). We believe that there is easily enough material here for a 90-minute lesson. Of course, how long the material lasts will depend on a variety of factors, such as the level of your students, and how familiar they are with Talk a Lot techniques. If you used some or all of the extension activities, you could make the material last much longer.

Although many of the activities in this book can be used without having previously studied with Talk a Lot material, e.g. the reading comprehension tests, this is the second Talk a Lot Intermediate course book and the author has assumed that students will have some prior knowledge of Talk a Lot methodology, e.g. knowing how to make sentence blocks, and how to find the stressed syllables and sounds in a word or phrase; or how to read the New English Alphabet. If you or your students feel a bit lost with some of this material, you may practise the techniques with any of the previous Talk a Lot course books:

Talk a Lot Elementary Books 1-3
 Talk a Lot Elementary Handbook
 Talk a Lot Foundation Course
 Talk a Lot Intermediate Book 1

All of these books – and much more – may be downloaded for free from <http://www.englishbanana.com/> and they are all covered by our Free Copying Licence and Free Licence to Run Courses, which means that **you may freely print, copy, adapt, distribute, sell, and give them away**. Please visit our website for full details.

We hope that you will really enjoy using this free material, whether you are a student or teacher of English! If you have any questions or comments, please do get in touch with us here: info@englishbanana.com. If you and your students come up with further **extension activities**, please contact us and let us know what you did! It would be great to hear from you! If you can provide photo or video evidence we'll happily put it online so that other students and teachers can learn from your experience. 😊

Note: in this book, as with most English Banana.com material, we generally use British English.

Pictures used with kind permission. Source: <http://www.4freephotos.com/> and <http://www.flickr.com/photos/olois/>

WORK GETTING YOU DOWN?

1 Non-Literal English – Phrasal Verbs

Check the meaning of any new phrasal verbs. Use them to complete the gaps in the text below. Change forms where necessary.

get away with sth **fight off** sth

get sby **down** **get by** **throw up**

get sth **out of** sth **come up with** sth

play up **come on** **crack on with** sth

TIP: sth = something sby = somebody

2 Discussion

a) Read about four different employees who are having problems at work:

Tom, 28, from Luton: I'm so busy at work normally that I never have enough time to do all my housework, and now my partner's nagging me to **a)** _____ a spot of decorating. She's bought the paint and rollers and she's told me I'll have to take a few days off work. I can't think I'll be able to **b)** _____ a good enough excuse – or even if I'll **c)** _____ – but I don't know who I'm more scared of upsetting – my boss or my girlfriend...

Gloria, 34, from Stirling: Last week I rang in sick and pretended I'd been **d)** _____ all night, and was suffering from a bad case of diarrhoea. I laid it on thick and I could tell the guy who answered the phone didn't want to hear all the details... I usually tell them that my back's been **e)** _____. The real problem is that I'm being bullied at work by one of my colleagues, but I can't discuss it with my line manager, because he's one of her best friends...

Frank, 36, from Swindon: I enjoy my job, although I feel that I should be getting paid more, because I've been there for more than ten years. Recently I was told that I wouldn't be getting a pay rise this year, and the staff Christmas party has been cancelled due to lack of funds. Would you believe it!

I sometimes think about quitting and getting a new job, 'cause I don't **i)** _____, but all of my friends, you know, are there and I can't be bothered – to be honest – to look for anything different. I guess I'll just have to keep pulling sickies, but I don't really like doing it 'cause I know it's wrong. So... I'm sure they can **j)** _____ without me though.

b) Discuss with your partner: what would you do in each situation?

Suzy, 23, from Nottingham (above):

I fell out with a woman at work – well, now we're former friends, I suppose. I said something I shouldn't have done and things just got out of hand. You know, other people found out and they, well, most of them anyway, ended up taking her side, and I've been persona non grata ever since.

So I phoned in sick on Monday and told them I'm **f)** _____ an infection, which **g)** _____ suddenly. I've been at home all week, too frightened to go back to work. It's really **h)** _____, because it feels like they've all got it in for me...

QUICK FACT > THE AVERAGE WORKER IN THE UK HAS 7 DAYS OFF SICK FROM WORK EACH YEAR

Source: 2011 Absence management survey report, <http://www.cipd.co.uk/>

(What about you? What is the figure in your country?)

QUICK FACT > THE MOST COMMON CAUSE OF SICK LEAVE IN THE UK IS STRESSSource: <http://www.guardian.co.uk/05.10.11>

(Have you ever been off work due to stress?)

3 Discussion

Look at the reasons that people sometimes give for being off work sick. Imagine that you are an employer, and say whether you would consider them to be valid excuses or not – and why:

stomach bug

I hate my job

I'm being **bullied** at work**food poisoning**sickness and **diarrhoea**I've just **split up** with

my partner

I'm caring for a sick

relative**flu symptoms**taking the car to the
garage**splitting headache**appointment at
the dentist's**RSI****(repetitive strain injury)**I'm a **lone parent** and

I need to sort out

something**I've got a migraine**problems with **childcare**crippling **back pain**going to a **job interview****stress****I've earned a long weekend****4 Discussion Words**

Look at the words and phrases in **pink type**. Find the **strong-stressed syllable** in each one and circle all of the **Schwa sounds**.

Sometimes I just fancy a duvet day!**5 Pronunciation – Sound Connections**

Look at four phrases from the text (in blue). What are the **sound connections** between them? Should we use **intrusion** or **elision**? Explain why, then practise saying them:

- She's **bought the** paint and rollers...
- Recently I** was told...
- the guy **who answered** the phone...
- So I phoned in sick on Monday
and **told them**...

6 Role Plays

Work with your partner to create a short role play or dialogue based on each situation in the text. You could imagine each one from the point of view of different characters, e.g. the employee, their boss, their partner, their colleagues, and so on. You could also show what happens next in the situation, or the events that led up to it...

7 Sentence Blocks – Present Perfect Passive

Practise the sentence blocks. What time does **present perfect passive** indicate? Why is passive voice used here?

The staff Christmas party has been cancelled due to lack of funds.
what (x2) / why / which

Title

“Work getting you down?” is a short question form of the phrasal verb “to get sby down” (see below). It literally means: “Is work making you feel unhappy at the moment?”

Pictures

Extensions: SS describe the pictures and how they are related to the lesson. SS look for other relevant pictures on the internet.

1 Non-Literal English – Phrasal Verbs

Phrasal Verb:	Literal Meaning:	Gap:	Form in the Text:
get away with sth	be not caught doing something wrong	c)	get away with it
fight off sth	recover from sth, e.g. an illness or infection	f)	fighting off
get sby down	make somebody feel upset or depressed	h)	getting me down
get by	manage / handle sth / cope	j)	get by
throw up	vomit / be sick	d)	throwing up
get sth out of sth	benefit or profit from doing sth	i)	get anything out of it
come up with sth	think up / invent	b)	come up with
play up	cause discomfort or pain	e)	playing up
come on	start	g)	came on
crack on with sth	a colloquial form of “get on with sth”, meaning to continue working on a project after a break	a)	crack on with

Extensions: See Talk a Lot Intermediate Book 1 for more interesting ways to practise phrasal verbs.

2 Discussion

b) Answers will vary. Encourage SS to look up any new words and expressions.

Extensions: SS could write a formal email or letter to their manager explaining how they feel about their job, and what they would like to change about it.

3 Discussion

Answers will vary. Encourage SS to look up any new words and expressions.

Extensions: The pair or small group discussion could lead into a wider class debate, with SS putting their views on both sides of the argument, e.g. a zero-tolerance (strict) approach to staff absence versus a more “softly-softly” (lenient) approach. For example, if an employer comes down very hard on somebody who has taken a duvet day, it could be counter-productive in that the employee might start actively looking for another job. But if the employer is too lenient, however, it could lead to further working days being lost due to unnecessary sick leave. SS could research and debate the different points of view.

4 Discussion Words

The strong-stressed syllable(s) are underlined. Schwa sounds are indicated in grey type:

stomach bug
bullied
food poisoning
sickness
diarrhoea
split up
relative

flu symptoms
 splitting headache
appointment
 RSI
 repetitive strain injury
 lone parent

migraine
childcare
back pain
job interview
stress
 long weekend
duvet day

Extensions: Use the Discussion Word Questions from Talk a Lot Elementary Books 1-3 or Talk a Lot Intermediate Book 1, or use the Big Word Game or Talk a Lot Bingo from Talk a Lot Elementary Handbook. You might decide to focus on the topic of sound connections, which is practised in the next exercise. You can find out more about this topic in Talk a Lot Foundation Course. You could also get SS to put each word or phrase into their own sentence, using a verb form of their (or your) choice.

5 Pronunciation – Sound Connections

Phrase:	Sound Connection:	We Should Use:	NEA (Phonetic) Translation:
a) bought the	cc	elision	Bor_ th

Why? We remove the t at the end of “bought” to make it easier to say the two consonant sounds together. We should also use a glottal stop to make the transition sound more natural.

b) Recently I	vv	intrusion	Ree sn_ lli yai
---------------	----	-----------	-----------------

Why? When two vowel sounds meet, we need to add a consonant sound – w, y, or r. In this case, the y sound occurs naturally between “Recently” and “I”.

c) who answered	vv	intrusion	hoo Warn sd
-----------------	----	-----------	-------------

Why? As in b), above, we need to add a consonant sound, in this case the w sound occurs naturally between “who” and “answered”.

d) told them	cc	elision	Teul_ thm
--------------	----	---------	-----------

Why? We remove the d at the end of “told” to make it easier to say the two consonant sounds together. We should also use a glottal stop to make the transition sound more natural.

Extensions: SS look at sound connections between phrases taken from the text, or from the discussion words, above, or any phrases that they can find or invent. In this exercise we focus on two features of connected speech – intrusion and elision – but you could extend the exercise to include any or all of the other features, i.e. glottal stop, linking, assimilation, contraction, and r-linking. SS could write each phrase using the NEA (as above) to show which sounds are used and which are missing or have been added.

6 Role Plays

Answers will vary. Why not have a class competition to see which pair or group can come up with the best short drama?

Extensions: See Talk a Lot Elementary Handbook for more ideas and guidance on developing role plays. One tip is to start to add more detail to the scene. SS could invent more information about each character, e.g. in the first short text we know that Tom is from Luton and has a partner, but do they have any children? Do they *want* to have children? Are they planning to get married? Have they just moved into their house? Is that why his partner wants him to hurry up and do the decorating? What’s her name? Are they happy together? SS work together to add layers of detail which make the role play much richer. Of course, there are no right or wrong answers here: the idea is for SS to use their imaginations and to create something that can be assessed by the teacher in terms of spoken English, pronunciation, use of English, vocabulary, and so on.

7 Sentence Blocks – Present Perfect Passive

Note: parts of the text *in italics* will vary. SS should use their own ideas:

The staff Christmas party has been cancelled due to lack of funds.

In this sentence present perfect passive indicates: **recent past**, e.g. in the last 24 hours. The use of passive voice indicates that either we don’t know who cancelled it, or that this information is so well-known that it is not worth mentioning it – i.e. the manager, or the board of directors, etc.

What has been cancelled due to lack of funds? / The staff Christmas party. / Has the staff Christmas party been cancelled due to lack of funds? / Yes, it has. / Has the *children's carol concert* been cancelled due to lack of funds? / No, it hasn't. The *children's carol concert* hasn't been cancelled due to lack of funds. / So...

What has happened? / The staff Christmas party has been cancelled due to lack of funds. / Has the staff Christmas party been cancelled due to lack of funds? / Yes, it has. / Has *the deputy manager dressed up as Santa Claus*? / No, she hasn't. *The deputy manager hasn't dressed up as Santa Claus.* / So...

Why has the staff Christmas party been cancelled? / Due to lack of funds. / Has the staff Christmas party been cancelled due to lack of funds? / Yes, it has. / Has the staff Christmas party been cancelled due to *lack of interest*? / No, it hasn't. The staff Christmas party hasn't been cancelled due to *lack of interest.* / So...

Which party has been cancelled due to lack of funds? / The staff Christmas party. / Has the staff Christmas party been cancelled due to lack of funds? / Yes, it has. / Has the *children's party* been cancelled due to lack of funds? / No, it hasn't. The *children's party* hasn't been cancelled due to lack of funds. / So...

Extensions: Use other sentences from the text (or sentences written by SS on the same topic) and practise building sentence blocks using a variety of question words. SS work individually, in pairs, in small groups, or as a whole class. Or SS could focus on the verb form in question - present perfect passive - to create more starting sentences and sentence blocks. See Talk a Lot Elementary Handbook for further ideas.

About Talk a Lot Intermediate Book 2

The aim of any Talk a Lot course is for students to practise and improve their speaking, listening, and pronunciation skills. Along the way the student will learn plenty of new vocabulary – including non-literal English expressions, such as idioms, phrasal verbs, and slang – and also practise reading, writing, and grammar skills, e.g. verb forms, word order, parts of a sentence, and so on.

This two-page spread provides an organised sequence of learning activities for students at intermediate level (CEF B2). We believe that there is easily enough material here for a 90-minute lesson. Of course, how long the material lasts will depend on a variety of factors, such as the level of your students, and how familiar they are with Talk a Lot techniques. If you used some or all of the extension activities, you could make the material last much longer.

Although many of the activities in this book can be used without having previously studied with Talk a Lot material, e.g. the reading comprehension tests, this is the second Talk a Lot Intermediate course book and the author has assumed that students will have some prior knowledge of Talk a Lot methodology, e.g. knowing how to make sentence blocks, and how to find the stressed syllables and sounds in a word or phrase; or how to read the New English Alphabet. If you or your students feel a bit lost with some of this material, you may practise the techniques with any of the previous Talk a Lot course books:

Talk a Lot Elementary Books 1-3
Talk a Lot Elementary Handbook
Talk a Lot Foundation Course
Talk a Lot Intermediate Book 1

All of these books – and much more – may be downloaded for free from <http://www.englishbanana.com/> and they are all covered by our Free Copying Licence and Free Licence to Run Courses, which means that **you may freely print, copy, adapt, distribute, sell, and give them away**. Please visit our website for full details.

We hope that you will really enjoy using this free material, whether you are a student or teacher of English! If you have any questions or comments, please do get in touch with us here: info@englishbanana.com. If you and your students come up with further **extension activities**, please contact us and let us know what you did! It would be great to hear from you! If you can provide photo or video evidence we'll happily put it online so that other students and teachers can learn from your experience. ☺

Note: in this book, as with most English Banana.com material, we generally use British English.

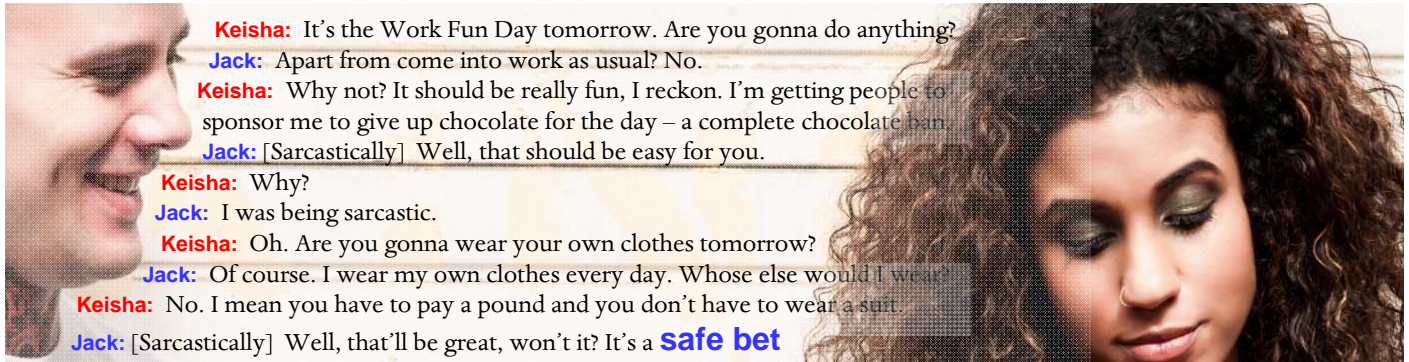

Pictures used with kind permission. Source: <http://www.kozzi.com>

1 Dialogue – Part 1

The Work Fun Day

Read the dialogue aloud with your partner. Check any new words or expressions in your dictionary:

The annual Work Fun Day is approaching at Teknekat, a multinational based in Bristol. Employees from the company's five main sites are going to come together at Head Office to raise money for charity. Two employees discuss the forthcoming event:

Keisha: It's the Work Fun Day tomorrow. Are you gonna do anything?

Jack: Apart from come into work as usual? No.

Keisha: Why not? It should be really fun, I reckon. I'm getting people to sponsor me to give up chocolate for the day – a complete chocolate ban.

Jack: [Sarcastically] Well, that should be easy for you.

Keisha: Why?

Jack: I was being sarcastic.

Keisha: Oh. Are you gonna wear your own clothes tomorrow?

Jack: Of course. I wear my own clothes every day. Whose else would I wear?

Keisha: No. I mean you have to pay a pound and you don't have to wear a suit.

Jack: [Sarcastically] Well, that'll be great, won't it? It's a **safe bet** I'll be in my normal office clothes.

Keisha: Oh, don't be a party pooper! What? You're not going to join in the fun?

Jack: I don't know. It's a definite maybe. Let's just leave it at that.

Keisha: Oh, go on, Jack! It'll be a laugh!

Jack: Well it's a bit of an oxymoron, isn't it? Work Fun Day. I don't come here to have fun. I come to work to get paid – and that's all.

2 Discussion Words & Pronunciation Focus

Look at the list of typical company departments (in red type below).

- a) Check any new words or phrases and mark the stressed syllables
- b) Underline the **suffixes**, e.g. Management. Remember that in English pronunciation, suffixes are not usually stressed. This helps us when we're looking for the stressed syllable in a word, because we can usually discount the suffix

3 Information Exchange

Work with a partner. Decide who is A and B. If you are A, use the grid below, if B use the other grid. Ask questions and complete the missing info in columns 1 and 2. Don't read the other page – find out the information by listening!

Department	1 Main Responsibilities	2 Funds Raised (8am - 1pm)	3 Funds Raised (1 - 4pm)	4 Funds Raised (Dept. Total)
Management	planning the way forward; troubleshooting			£597.38
Human Resources (HR)		£228.10		
Finance	payroll; doing the accounts			£170.75
Legal	dealing with legal issues; giving legal advice		£156.79	
Sales		£580.23		
Marketing	making sure customers know about the products	£779.12		
Production		£668.43		£1,090.87
Distribution			£234.68	
Information Technology (IT)	providing and maintaining computer equipment and software		£108.61	
Research and Development (R&D)			£216.88	
Customer Service	ensuring the customer is happy and will order again	£640.53		£880.55
Maintenance		£833.86		
			Total Raised:	

- a) Which department has raised the most before lunch? Give possible reasons.
- b) Have you ever taken part in a work fun day? What was it like? How much money did you raise?

SarCasM!

We use sarcasm when we say something that clearly isn't true, with the intention of emphasising the truth and criticising or mocking somebody or something. In this text Jack is being sarcastic because he doesn't like the idea of a work fun day. He says the opposite of what he means, but Keisha knows his true meaning, e.g. he says "Well, that'll be great, won't it?" but both know that he means it won't be.

– and other

Oxymorons

4 Dialogue – Part 2

Friday, 9.45am – the staff car park has been transformed into a maze of different fundraising activities:

Keisha: Hi, Jack! So you *did* wear your own clothes after all.
Jack: You know, it's the same difference to me. I mean, it's an open secret that I'm the best-dressed guy in HR, so I thought I'd better make an effort and dress up for the big day.
Keisha: [Sarcastically] Ha ha! Seriously funny, Jack. Hey – did you see the guys from Maintenance doing that bungee jump? Amazing! I thought it was all gonna end in tears. Could've been **pretty ugly**.
Jack: How's your sponsored chocolate ban going?
Keisha: Actually, it's been a bit of a minor disaster, really. I've had three Kit Kats already since I got here. And the Sales Department are selling some really delicious-smelling cookies...
Jack: [Sarcastically] Huh! My faith in your willpower has been completely destroyed! I guess I won't need to donate to you then.
Keisha: Well, you can make a contribution – as long as it's cocoa-based!
Jack: Come on, let's go. This is boring.
Keisha: No, Jack, we can't go. We're not allowed. We'll get into trouble.
Jack: [Sarcastically] Oh, I'm really scared.
Keisha: And anyway, my mate's gonna get chucked in a bath of baked beans in a minute.
Jack: [Sarcastically] I can hardly wait!

6 Listening – Track 1.3a

*The Fun Day has nearly finished, and it's time for **Bernard Good**, CEO of Teknekat, to announce the total amount raised by each department during the afternoon session. Listen and complete the missing information in columns 3 and 4 of your information exchange grid.*

- a) Which department has raised the most?
- b) How much has the company raised in total?

7 Dialogue – Part 3

Friday, 5.10pm – going home:

Keisha: So – did you enjoy the fun day?
Jack: [Sarcastically] Yes, it's been one of the most incredible days of my life. [Laughing] The best bit was when the scoreboard broke down at the end.
Keisha: Oh, trust you to think that was the best part! You must have enjoyed *something* today. What about the welly wanging competition?
Jack: The truth is that at this kind of event I feel like a social outcast.
Keisha: Why?
Jack: Because I just don't see how you can have fun at work.
Keisha: I'm not even going to answer that. I'll just leave an eloquent silence.
Jack: It's always nice to talk to you. You almost always seem to understand me.
Keisha: Now – are you being sarcastic or not? It's so hard to tell with you.
Jack: Let's discuss it further over a drink. I'll buy you a hot chocolate.
Keisha: Oh, no thanks. I mean, yes, I'll have a drink with you – but no more chocolate. I've eaten enough today to last me till next year's fun day!

People in the UK are generally keen to get involved in raising money for charity by doing, sometimes, really strange things! Match each fundraising activity to a picture above:

- 1. welly wanging
- 2. sitting in a bath of baked beans
- 3. bungee jumping
- 4. climbing wall

5 Non-Literal English – Oxymorons

An oxymoron is a phrase in which the words contradict each other, e.g. **Work Fun Day** is an oxymoron because “work” and “fun” are usually opposite concepts. There are lots of other oxymorons in the dialogues, including, **safe bet** and **pretty ugly**. See if you can find 8 more, then discuss them with your partner, and try to think of a few more. Do you have oxymorons in your language? If so, give examples.

3 Information Exchange

Student B's Grid:

Department	1 Main Responsibilities	2 Funds Raised (8am - 1pm)	3 Funds Raised (1 - 4pm)	4 Funds Raised (Dept. Total)
Management		£467.13		£597.38
Human Resources (HR)	finding new staff; caring for employees' needs; training			
Finance		£104.35		£170.75
Legal		£249.79	£156.79	
Sales	selling the products			
Marketing				
Production	manufacturing the products			£1,090.87
Distribution	getting the products in front of customers	£454.56	£234.68	
Information Technology (IT)		£547.90	£108.61	
Research and Development (R&D)	coming up with new products	£487.19	£216.88	
Customer Service				£880.55
Maintenance	taking care of equipment, property, and vehicles			
			<i>Total Raised:</i>	

6 Listening – Track 1.3a

Transcript:

Note: fundraising activities are underlined. Unfamiliar idiomatic expressions are shown in **blue type**, with literal translations below:

*The Fun Day has nearly finished, and it's time for **Bernard Good**, CEO of Teknekat, to announce the total amount raised by each department during the afternoon session. Listen and complete the missing information in columns 3 and 4 of your information exchange grid.*

Bernard Good:

Well, let me just say **a big thank you**¹ to everybody who took part in today's work fun day! We all think – I mean, the company directors and I – want to congratulate you. You've all done an absolutely incredible job here today raising funds for Colon Research, our chosen charity for this year's Fun Day. Er, so, **without any further ado**², let me just, er... on to the final scores! As we know, the Maintenance department were leading at lunch, with a total of £833.86 raised – thanks largely, no doubt, to the whole team of mechanics who bravely agreed to do a group bungee jump from **the very top**³ of the building.

But I digress... Er, which brings me on to the total funds raised by each department after lunch, between one o'clock and four o'clock. Well, in reverse order, the Finance department, I'm sad to say, raised the least, with just £66.40. But on the other hand I'm pleased to see they were able to discourage employees from spending money, which is one of their functions, so... good. **Keep up the good work!**⁴ Er, next were the HR girls – and, er, guys – who raised £102.47, giving their department a grand total of, er, well you can see the department totals there on the old, er, electronic scoreboard. OK, well, the **boffins**⁵ from IT managed to raise £108.61 after lunch, while the Management Team, led by, ahem, **yours truly**⁶, could have done better, I suppose, with £130.25. The Legal team raised, well you can see how they got on there on the scoreboard – and the Distribution **bods**⁷ have also done **a really splendid job**⁸ raising £234.68, although was it absolutely necessary for *fifteen* different members of that team to try and jump in the bath of baked beans? No, I didn't think so.

The Customer Services team have **done themselves proud**⁹ this afternoon, raising £240.02. And a word about R&D too. They did a grand job, considering they are such a small team – and one of them had **to pop off**¹⁰ to the library after lunch to return some books. So, well done that R&D team! Now, the Sales team raised £196.18, but an hour ago an anonymous donor (it was Tony from HR, in actual fact), handed me an envelope containing **a crisp fifty pound note**¹¹. He wants it to go towards supporting the efforts of the Sales team – who, in my opinion, have done a really great job with the welly wanging competition. And a special mention to Brian, who endured a beard of bees for twelve minutes. Well done, Brian – and get well soon.

So, on to **the big-hitters**¹². The departments who've raised the most. Now, the Production department have worked really hard on the abseiling activity and the climbing wall, and don't forget that they also organised the Wear Your Own Clothes to Work scheme, the proceeds of which were included in their total for this morning. They raised an additional £422.44 this afternoon. So... fantastic! **A big round of applause, please!**¹³ Er, thank you for your hard work. So, two departments to go. At lunch, Maintenance were on top, but Marketing were **nipping at their heels**¹⁴. Well, I'm pleased to be able to announce that... er, wait a moment. Er, something's gone wrong with the old, er, scoreboard. Is anyone from Maintenance around to have a look at it? Well, anyway – your department raised an extra £427.90, and Marketing have an afternoon total of £482.97. So, which department raised the most? Can anybody work it out? And what is **the grand total**¹⁵ for the whole company?

¹ thank you very much; many thanks

² without any further hesitation

³ the top of the building – “very” emphasises “top”, indicating that it was a tall building

⁴ continue to work hard

⁵ clever people; people who are good at working with technology

⁶ me

⁷ people; folks; team

⁸ a very good job

⁹ done very well; they can feel proud of their achievement

¹⁰ to go quickly; to run

¹¹ a new bank note; “crisp” indicates that it is flat and has never been folded

¹² the teams who have done the best; the top contenders

¹³ please clap enthusiastically

¹⁴ just behind them in the competition; catching them up

¹⁵ the final score; the total when all of the department totals have been added together

Test Your Vocabulary Skills

100 Great English Oxymorons – Phrases that Contradict Themselves!

absolutely unsure	lower inflation
accurate estimate	minor disaster
active retirement	minor miracle
act naturally	modern history
advanced beginner	never again
all alone	new tradition
almost always	non-alcoholic beer
awfully nice	non-working mother
bad health	nothing much
bad luck	numbing sensation
boxing ring	open secret
calculated risk	one hundred and ten percent
civil disobedience	one size fits all
civil war	only choice
classic rock & roll	organized chaos
clean toilet	original copy
clear as mud	partially completed
cold sweat	passive aggressive
common courtesy	peacekeeping force
completely destroyed	perfectly normal
conservative liberal	permanent substitute
consistently inconsistent	personal computer
controlled chaos	practice test
criminal justice	pretty ugly
crisis management	pure 100% orange juice from concentrate
critical acclaim	real polyester
deafening silence	recent history
definite maybe	relative stranger
eloquent silence	required donation
essential luxury	resident alien
fatally injured	retired worker
foreign national	safe bet
free credit	safety hazard
friendly fire	same difference
genuine imitation	school holiday
graduate student	science fiction
great depression	second best
group of individuals	seriously funny
half full	short distance
home office	single copy
homework	social outcast
humanitarian invasion	student teacher
ill health	think out loud
incomplete cure	toll free
incredibly dull	tough love
initial conclusion	unbiased opinion
intense apathy	unfunny joke
last initial	virtual reality
limited freedom	working party
liquid gas	young adult

Title

“The Work Fun Day – and Other Oxymorons”. In the UK it is traditional for company employees to get involved with fundraising activities on certain days of the year, to support causes such as the BBC’s Children in Need telethon (held once a year in November), and Comic Relief’s Red Nose Day (held every two years in March). Some companies hold their own “fun days” to raise money for particular causes, as described in this lesson. On such fun days, employees are given licence to behave in a more relaxed way and to do silly things, such as the fundraising activities shown in the Picture Quiz on Page 2. Some employees don’t want to get involved, perhaps because they object to this kind of institutionalised “fun” – being told by their bosses *when* they can have a good time. Or maybe because they prefer to keep their work life and social life separate. It may be that they don’t want their colleagues or superiors (who may not be their friends) to see them in a more informal mood – or even in non-work clothes. In the dialogues Jack declines to get involved, and his sarcasm is used as an angry weapon against the company which he feels is forcing him to conform and have fun at work.

Pictures

Extensions: SS describe the pictures and how they are related to the lesson. SS look for other relevant pictures on the internet.

1 Dialogue – Parts 1-3

SS should be encouraged to work in pairs and practise their pronunciation by reading each dialogue out loud. It would be better to work through the lesson in sequence, rather than reading the dialogues together. There may be some unfamiliar vocabulary and expressions, including examples of colloquial speech, e.g. “I reckon...”, “Are you gonna...?” and “party pooper” in Dialogue 1. SS could use their dictionaries or the teacher could pre-teach such vocabulary. SS could look online for further audible examples of sarcasm, e.g. in films, TV shows, as well as in everyday life, then play them back to the rest of the class. SS could have their own sarcastic conversations with each other – if they are not doing so already!

Extensions: See Talk a Lot Elementary Handbook for more ideas and guidance on developing dialogues and role plays. One tip is to add more detail to the scene. SS could invent more information about each character, e.g. what is the relationship between Keisha and Jack? We know they work in HR, but what are their roles? What did they have for breakfast this morning? Even trivial details can make the characters come alive, for example, perhaps Jack woke up late and didn’t have time for breakfast, which put him in a bad mood. SS work together to add layers of detail which make the role plays much richer. SS could imagine what happened before Dialogue 1 and after Dialogue 3 – did they go out for a drink? – as well as what happens in between the dialogues. Of course, there are no right or wrong answers here: the idea is for SS to use their imaginations and to create something that can be assessed by the teacher in terms of spoken English, pronunciation, use of English, vocabulary, and so on.

2 Discussion Words & Pronunciation Focus

- Stressed syllables are shown in blue type.
- The suffixes are underlined:

Management, Human Resources (HR), Finance, Legal, Sales, Marketing, Production, Distribution, Information Technology (IT), Research and Development (R&D), Customer Service, Maintenance.

Extensions: Use the Discussion Word Questions from Talk a Lot Elementary Books 1-3 or Talk a Lot Intermediate Book 1, or use the Big Word Game or Talk a Lot Bingo from Talk a Lot Elementary Handbook. There is also related practice on the topic of suffixes in the Handbook. You could ask SS to think of more examples of departments in a company, or research different companies online and find out what departments they have – and what they do. SS could think about which departments are necessary in different-sized companies, e.g. small, medium, large, and multinational. SS could discuss working for a company department, if they have this kind of experience.

3 Information Exchange

Here is the completed grid, including answers to the Listening task (Exercise 7):

Department	1 Main Responsibilities	2 Funds Raised (8am - 1pm)	3 Funds Raised (1 - 4pm)	4 Funds Raised (Dept. Total)
Management	planning the way forward; troubleshooting	£467.13	£130.25	£597.38
Human Resources (HR)	finding new staff; caring for employees' needs; training	£228.10	£102.47	£330.57
Finance	payroll; doing the accounts	£104.35	£66.40	£170.75
Legal	dealing with legal issues; giving legal advice	£249.79	£156.79	£406.58
Sales	selling the products	£580.23	£246.18	£826.41
Marketing	making sure customers know about the products	£779.12	£482.97	£1,262.09
Production	manufacturing the products	£668.43	£422.44	£1,090.87
Distribution	getting the products in front of customers	£454.56	£234.68	£689.24
Information Technology (IT)	providing and maintaining computer equipment and software	£547.90	£108.61	£656.51
Research and Development (R&D)	coming up with new products	£487.19	£216.88	£704.07
Customer Service	ensuring the customer is happy and will order again	£640.53	£240.02	£880.55
Maintenance	taking care of equipment, property, and vehicles	£833.86	£427.90	£1,261.76
Total Raised:				£8,876.78

- a) The Maintenance Department has raised the most before lunch. Reasons will vary, for example, perhaps it is a big department, or perhaps they did some daring stunts, or provided the most interesting fundraising activities.
 b) Answers will vary.

Extensions: You could ask SS to think about the results of the morning's fundraising. Why did the Finance Department raise the least? Perhaps because there are usually fewer employees in this department than in other departments; or because they are used to encouraging people to be frugal with money, so the role of fundraising doesn't come naturally to them...? Why did the Marketing Department raise much more? Perhaps because there are more employees, or the employees in this department are more creative and gifted at persuading people to take action - and so on.

SS could do the activity again with a different partner, taking the other role, e.g. A if they were B, and vice versa. Or repeat the activity using different figures, e.g. higher or lower amounts raised, or different department names. Or you could encourage SS to write their own definitions of what the company departments do, before beginning the information exchange activity.

SS could focus on question forms and write down the questions they used to get the missing information, e.g. for completing column 1 SS need to ask: "What are the main responsibilities of the _____ Department?" or "What does the _____ Department do?" etc. To complete column 2, SS need to ask: "How much did the _____ Department raise between 8am and 1pm?" or "...in the morning?" or something similar. You could encourage SS to think of some comparative/superlative questions and answers too, e.g.

"The _____ Department raised more than the _____ Department, but the _____ Department raised the most."

or, if the SS enjoy maths problems: "The _____ Department raised £ _____ more/less than the _____ Department, etc."

Picture Quiz – Fundraising Activities

1. d) 2. a) 3. c) 4. b)

Extensions: SS research online and find out about each kind of activity - adding more that they know of. They could watch videos and swap accounts of their own fundraising initiatives. SS might be so inspired by this lesson that they decide to organise their own Fun Day in aid of a good cause - and actually take part in some of the activities discussed!

5 Non-Literal English – Oxymorons

The eight other oxymorons are below. Each phrase is a contradiction in terms, because the first word disagrees with the second word. While the phrases don't make sense literally, they work as idioms because each has a fixed meaning.

Dialogue 1:

Oxymoron:	Literal Meaning:	Where's the Contradiction?
It's a definite maybe	I'll think about it; I might come; it's a possibility	if something is definite , then there is no doubt about it – there is no maybe !

Dialogue 2:

Oxymoron:	Literal Meaning:	Where's the Contradiction?
it's the same difference to me	it doesn't matter to me either way; I'm not bothered; I don't mind	the same and difference are two opposite concepts
it's an open secret	it's officially a secret, but everybody knows about it	if something is open then by definition it cannot be secret
a bit of a minor disaster	a failure; a problem; something that didn't work out	something minor is fairly small, while a disaster is a very big problem
completely destroyed	ruined; totally destroyed	something complete is whole, while something destroyed is broken apart

Dialogue 3:

Oxymoron:	Literal Meaning:	Where's the Contradiction?
a social outcast	a person that other people don't want to know	social means "with others" while an outcast doesn't spend time with other people
an eloquent silence	when I don't speak it indicates more than if I replied	when somebody is eloquent they speak very well, while there is silence when nobody speaks
almost always	usually; most of the time; nine times out of ten	almost indicates a non-definite time period, while always indicates a definite time period

Extensions: SS could use each oxymoron in a new sentence, or make up a new dialogue that includes many or all of them. Or look for more oxymorons and think about how to apply them in an everyday conversation. SS might even have fun making up their own oxymorons, taking two opposite concepts and putting them together in a phrase. (For more examples of oxymorons, please see the worksheet "100 Great English Oxymorons" on page 5 of this pack.)

6 Listening – Track 1.3a

You can download the recordings for the lesson here:

Track 1.3a (full audio) <http://www.englishbanana.com/tali2-track1.3a.mp3>

Track 1.3b (voice only – without sound effects) <http://www.englishbanana.com/tali2-track1.3b.mp3>

See completed grid (above) for all the amounts raised.

- The Marketing Department has raised the most funds for charity.
- The company has raised £8,876.78 in total.

Extensions: SS read the transcript and study the new vocabulary and expressions - which could be tested in the next lesson. SS could write and read out their own final speech giving the same results as in the audio, or the teacher could read out the address, but change the amounts raised - to provide further practice of listening for numbers. Or SS write and read out an address given by Bernard Good at *lunchtime*, which announces the morning fundraising results and encourages the employees to raise even more money. Or SS could imagine Jack and Keisha's sarcastic commentary as they listen to Bernard Good's address - the teacher plays the audio file, while SS improvise their comments over the top.

About Talk a Lot Intermediate Book 2

The aim of any Talk a Lot course is for students to practise and improve their speaking, listening, and pronunciation skills. Along the way the student will learn plenty of new vocabulary – including non-literal English expressions, such as idioms, phrasal verbs, and slang – and also practise reading, writing, and grammar skills, e.g. verb forms, word order, parts of a sentence, and so on.

This two-page spread provides an organised sequence of learning activities for students at intermediate level (CEF B2). We believe that there is easily enough material here for a 90-minute lesson. Of course, how long the material lasts will depend on a variety of factors, such as the level of your students, and how familiar they are with Talk a Lot techniques. If you used any or all of the extension activities, you could make the material last much longer.

Although many of the activities in this book can be used without having previously studied with Talk a Lot material, e.g. the reading comprehension tests, this is the second Talk a Lot Intermediate course book and the author has assumed that students will have some prior knowledge of Talk a Lot methodology, e.g. knowing how to make sentence blocks, and how to find the stressed syllables and sounds in a word or phrase; or how to read the New English Alphabet. If you or your students feel a bit lost with some of this material, you may practise the techniques with any of the previous Talk a Lot course books:

Talk a Lot Elementary Books 1-3
Talk a Lot Elementary Handbook
Talk a Lot Foundation Course
Talk a Lot Intermediate Book 1

All of these books – and much more – may be downloaded for free from <http://www.englishbanana.com/> and they are all covered by our Free Copying Licence and Free Licence to Run Courses, which means that **you may freely print, copy, adapt, distribute, sell, and give them away**. Please visit our website for full details.

We hope that you will really enjoy using this free material, whether you are a student or teacher of English! If you have any questions or comments, please do get in touch with us here: info@englishbanana.com. If you and your students come up with further extension activities, please contact us and let us know what you did! It would be great to hear from you! If you can provide photo or video evidence we'll happily put it online so that other students and teachers can learn from your experience. 😊

Note: in this book, as with most English Banana.com material, we generally use British English.

Time Travelling

1 Listening – Find 20 Differences

Work in groups of 4. Students C & D follow the text (introduction and first column) as A & B read the alternative text (see Notes). Students C & D listen and mark 10 differences between the texts. Then swap over – A & B follow the rest of the text and mark 10 more differences, as C & D read. Check any new vocabulary in your dictionaries.

Welcome to Time Travelling Job Swap – the reality show that lets YOU change jobs with an employee from the past! This week, Cro-Magnon hunter-gatherer Borag travels forward 15,000 years to become a supermarket checkout operator for a week.

We grabbed an exclusive interview with Borag, ahead of this week's episode. He spoke via a special time travel interpreter:

Why do you work?

I work to get food for my clan. If I didn't go out hunting, we wouldn't eat, so it's absolutely vital!

Why did you choose your present career path?

My father was a hunter-gatherer and he showed me the ropes: how to trap a bear in a cave; how to skin a reindeer; how to fish. Pretty much all the men in my clan go out hunting. If you're young, fit, and strong, you have to bring back food for the group.

Tell me about your role in the company. Does it offer you status, job security, job satisfaction, and promotion opportunities?

My specific role is to cut up the animals after they've been killed. I'm quite a valued member of the hunting team. My job is safe because I'm pretty handy with a knife! I get a lot of pleasure from my work – particularly when I'm eating the delicious results! I'd like to work my way up from apprentice to assistant butcher, but I'm happy for now.

What do you value in your job? What do you dislike?

I love being out in the open air – running; chasing wild beasts. I love the feeling of the rain on my back and the wind in my hair; the excitement of discovering a herd of bison or perhaps a baby woolly mammoth that's been separated from its mother. I hate it when we can't find anything to eat and we have to return to our clan and face them with empty hands.

Tell me about your colleagues.

We're a mixed group in terms of age and experience, but all are strong and dedicated to the job in hand. Whether we're harpooning fish or capturing wild horses, it's a team effort. You know that you're working together for the good of the whole clan. It's a great feeling!

If you could change one thing about your job, what would it be?

Nothing really – I love my job. Although, we don't have weekends or holidays, as such, so I would love to have a bit more free time to spend with my wife and my three children. I'm away from home a lot – travelling for long periods at a time.

What are the working conditions like? (hours, salary, leave, perks, etc.)

We work when we have to – often from early morning till late at night. If we've had a really big kill, we might not have to work for a few days. If that happens we can rest, and we might pass the time making jewellery or painting pictures on the walls of our caves. We get paid in meat, so if we don't work we will go to sleep hungry for sure.

What is your ambition? Where would you like to be in five years' time?

Like I said before, I'm hoping to become an assistant butcher, but five years is too far ahead for me to think, really. The most important goal is to stay alive – and that means dodging wild animals, avoiding hypothermia and infections – and most importantly bringing back food for my clan.

If you could do any job in the world, what would it be?

I would say to be chief hunter in our clan! What an honour! Because they get to wrestle with wolves and bears – and everybody respects them.

If you could take on any job from history, what would it be?

Well, I'm swapping places this week with Lee, a young guy from Finchley. He works as a cashier in a supermarket, so I'm looking forward to my first shift tomorrow. Bring it on!

Name: **Borag the Brave**
Age: **22**
From: **Southern France**
Time: **13,120 BC**
Job: **Hunter-Gatherer**

Borag is more used to fighting off starving wolves than scanning cereal packets and soup. How do you think he will get on?

2 Discussion Questions

Work in pairs. Use the questions above to ask and answer questions about your work.

3 Discussion Words – Work

- a) Find the following words and phrases in the text and circle them
b) Find the stressed syllable in each, and write the strong vowel sound:

ambition

hours

job satisfaction

career path

salary

status

perks

pleasure

leave

goal

working conditions

job security

role

promotion

colleagues

JOB SWAP

6 Discussion & Function Words

Fill in the missing function words in the text and discuss the **reasons why we work** with your partner. Order them from 1-15, where 1 is the most important reason and 15 is the least. What are **YOUR** main reasons for working?

Why Do We Work?

- * to buy luxury items, e.g. 1. _____ expensive holiday
- * to pay 2. _____ our own living space
- * to help other people
- * to achieve a higher status 3. _____ our friends
- * to be able to afford non-essential items, e.g. a better car
- * to get money to buy food 4. _____ drink
- * because money gives 5. _____ control over our destinies
- * to be able to pay our bills, e.g. light, heat, insurance, etc.
- * to spend time 6. _____ other people and not be alone
- * to save so that we have money when 7. _____ need it
- * so that we 8. _____ become bored
- * so that we can purchase essential items, e.g. furniture
- * to challenge ourselves
- * money allows us to 9. _____ more independent
- * for pride – 10. _____ feel fulfilled by doing something we are good at

4 Pronunciation

a) Look at the sentences from the text below. Mark the strong stresses.

1. **it was nice to meet his friends there**
2. **Lee lives in a warm, dry flat**
3. **It's really made me think about why we work.**
4. **I had to wear this horrible uniform all day**

b) Look at the unstressed syllables. How many Schwa sounds are there? How many short i sounds are there?

5 Sentence Blocks

Which *wh-* question words can be used with each sentence above? Practise making sentence blocks with your partner. Check the stress!

7 Reading

It's the end of the week on the checkout, and we've managed to catch five minutes with Borag, who looks completely fed up:

How did you get on?

Oh, it was too boring! Lee showed me the ropes, and **it was nice to meet his friends there**, but the actual work itself was tedious. I felt like a robot having to scan every product – and the queue of people seemed endless!

What were the main differences compared with your current job?

I found it really hard to sit still for such long periods of time. Also the repetitive nature of the job was really getting to me by the end. I couldn't cope with the lack of physical exercise. I mean, human beings have got legs! We're meant to move. Humans are among the greatest runners on the planet. I found myself clock-watching all day, and dealing with idiotic comments from customers who seemed to look down on me. **I had to wear this horrible uniform all day** and my line manager told me I had to have a bath before going to work. Where I come from it doesn't matter how you're dressed or whether you smell nice. For some reason here it's a big deal!

What surprised you the most?

I didn't expect to have to deal with a female boss! In my clan the women have to raise the little ones and guard the camp. It was quite hard being told what to do by a woman. Also I was surprised at how... well, how overweight and unfit people from your time are! In my time we haven't got a chance to become fat. We're always on the move – and usually because we're pursuing our food!

What did you enjoy the most?

It was good to feel safe – without the threat of a violent death every minute of the day.

8 Role Plays

a) Work with a partner or group to make the following role plays. b) Use the questions above to do a final interview with each time traveller at the end of the role play.

- a) Imagine what happens next week when Lee travels back to Borag's time
- b) Imagine what would happen if YOU swapped jobs with either Borag or Lee
- c) Imagine swapping places with any employee from history, for example, an **Aztec warrior**, a **courtier** in the palace of The Sun King, or a **chimney sweep** from Victorian England...

Lee lives in a warm, dry flat and he told me there are no wild beasts roaming the streets of England any more – so that gave me confidence and peace of mind.

Would you like to swap jobs permanently?

No thanks! I miss my wide open spaces and fresh air. The rolling valleys, the hills, the mountains, the thrill of the chase as a dozen reindeer gallop off in terror... swap that for sitting on a till all day, in a supermarket for six days a week? No chance! I'll take my time over yours any day of the week!

What will you take away from this experience?

It's really made me think about why we work. I mean, in my time it's really simple: you have to work to put food on the table; but in your time you seem to have invented loads of different motivations for going to work. You want to have a career and job satisfaction. You want to get paid more and buy more things. You always need a bigger house, a better car, a more exotic holiday, nicer furniture... You need to challenge yourselves, get promoted, achieve a higher status... But really it's all about just getting enough for food for our bodies and making a safe place to live... isn't it?

Next week: discover what happens when Lee (below) swaps his scanner and "Here to Help" badge for a long-handled spear and a joint of barbecued reindeer!

Find out whether he eats or gets eaten in next week's exciting episode of *Time Travelling Job Swap!*

1 Listening – Find 20 Differences

Alternative Text – Part 1

----- ✂ -----

Students **A & B** read the first part of the text with 10 differences – shown in **bold type**. Students **C & D** should underline each word that has changed, and if possible write the new word:

A or B: Time Travelling Job Swap

Welcome to Time Travelling Job **Swat** [Swap] – the reality show that lets YOU change jobs with an employee from the past! This week, Cro-Magnon hunter-gatherer Borag travels forward 15,000 years to become a supermarket checkout operator for a week. We grabbed an exclusive interview with Borag, ahead of this week's episode. He spoke via a special **tile** [time] travel interpreter:

A Why do you work?

B I work to get food for my clan. If I didn't go out hunting, we wouldn't eat, so it's absolutely vital!

A Why did you choose your present career **park** [path]?

B My father was a hunter-gatherer and he showed me the ropes: how to trap a bear in a cave; how to skin a reindeer; how to **fit** [fish]. Pretty much all the men in my clan go out hunting. If you're young, fit, and strong, you have to bring back food for the group.

A Tell me about your role in the company. Does it offer you status, job security, **jog** [job] satisfaction, and promotion opportunities?

B My specific role is to cut up the animals after they've been **kilt** [killed]. I'm quite a valued member of the hunting team. My job is safe because I'm pretty handy with a **nice** [knife]! I get a lot of pleasure from my work – particularly when I'm eating the delicious results! I'd like to work my way up from apprentice to assistant butcher, but I'm happy for now.

A What do you value in your job? What do you dislike?

B I love being **owl** [out] in the open air – running; chasing wild beasts. I love the feeling of the rain on my back and the wind in my hair; the excitement of discovering a **hurl** [herd] of bison or perhaps a baby woolly mammoth that's been separated from its mother. I hate it when we can't find anything to **each** [eat] and we have to return to our clan and face them with empty hands.

----- ✂ -----

Alternative Text – Part 2

----- ✂ -----
 Students **C** & **D** read the rest of the text with 10 more differences – shown in **bold type**. Students **A** & **B** should underline each word that has changed, and if possible write the new word:

- C** Tell me about your colleagues.
- D** We're a mixed group in terms of **aid** [age] and experience, but all are strong and dedicated to the job in hand. Whether we're harpooning fish or capturing wild horses, it's a team effort. You know that you're working together for the good of the **home** [whole] clan. It's a **grape** [great] feeling!
- C** If you could change one thing about your job, what would it be?
- D** Nothing really – I love my job. Although, we don't have weekends or holidays, as such, so I would love to have a bit more free time to spend with my wife and my three children. I'm away from home a lot – travelling for long periods at a time.
- C** What are the working conditions **light** [like]? (hours, salary, leave, perks, etc.)
- D** We work when we have to – often from early morning till late at night. If we've had a really big kill, we might not have to work for a few days. If that happens we can rest, and we might **part** [pass] the time making jewellery or painting pictures on the walls of our caves. We get paid in meat, so if we don't work we will go to sleep hungry for sure.
- C** What is your ambition? Where **wool** [would] you like to be in five years' time?
- D** Like I said before, I'm hoping to become an assistant butcher, but five years is too far ahead for me to **thing** [think], really. The most important goal is to stay alive – and that means dodging wild animals, avoiding hypothermia and infections – and most importantly bringing back food for my **clam** [clan].
- C** If you could do any job in the world, what would it be?
- D** I would say to be chief hunter in our clan! What an honour! Because they get to wrestle with wolves and bears – and everybody respects **then** [them].
- C** If you could take on any job from history, what would it be?
- D** Well, I'm swapping places this **wheat** [week] with Lee, a young guy from Finchley. He works as a cashier in a supermarket, so I'm looking forward to my first shift tomorrow. Bring it on!

Title

“Time Travelling Job Swap”. This lesson is about a fictional TV show where people from the present day are able to exchange jobs with an individual from the past for a week to find out what their job was like. You could start by asking SS some warm-up questions, e.g. “What is your favourite period in history? Why?”, “What jobs did they do in the past that we don’t do today?”, and “If you could travel back in time and try any job for one week, where would you go and what would you do? Why?” etc.

Pictures

Extensions: SS describe the pictures and how they are related to the lesson. SS look for other relevant pictures on the internet.

1 Listening – Find 20 Differences

See Alternative Text on P.3 for instructions. SS should check any new words and expressions in their dictionaries, or you could pre-teach any vocabulary that you think may be new before starting the activity. When SS have finished the activity and checked their answers, ask them what they notice about the words that were exchanged. They should notice that in each case the **final consonant sound** of each word has been changed to make a different word.

Extensions: a) SS could practise their speaking and listening skills by reading the interview in pairs, then changing roles and reading it again. b) They could repeat the listening activity but with different words changed, e.g. instead of final consonant sounds they could change the vowel sound in one-syllable words to make a different word, e.g. “get” changes to “got”, “eat” to “ate”, and so on.

2 Discussion Questions

SS should work in pairs and ask each other the ten questions from the text. SS should give answers about themselves. Here is the complete list:

1. Why do you work?
2. Why did you choose your present career path?
3. Tell me about your role in the company. Does it offer you status, job security, job satisfaction, and promotion opportunities?
4. What do you value in your job? What do you dislike?
5. Tell me about your colleagues.
6. If you could change one thing about your job, what would it be?
7. What are the working conditions like? (hours, salary, leave, perks, etc.)
8. What is your ambition? Where would you like to be in five years’ time?
9. If you could do any job in the world, what would it be?
10. If you could take on [try; do; have a go at] any job from history, what would it be?

Extensions: SS could think of more questions on the topic of work. They could ask and answer the new questions either as themselves or as Borag. Or SS could conduct a survey by asking a variety of students from the class, and then compile their results into a short report which they then present to the class. To consolidate this, they could write out the report for homework.

3 Discussion Words – Work

SS should check any new words or phrases in their dictionaries. Here are the discussion words with stressed syllables underlined and **strong vowel sounds** indicated. The teaching point is that these strong vowel sounds are the most important sounds in each word or phrase, and therefore should be heard clearly.

i amb <u>ition</u>	ei stat <u>us</u>	er <u>work</u> ing conditions
auw <u>hour</u> s	er <u>perk</u> s	uuw job sec <u>ur</u> ity

a job satisf <u>ac</u> tion	e <u>pl</u> ea <u>su</u> re	eu <u>ro</u> le
iy care <u>er</u> path	ee <u>le</u> ave	eu prom <u>o</u> tion
a <u>sa</u> lary	eu <u>go</u> al	o <u>col</u> leagues

Extensions: a) SS could match words and phrases that have the same strong-stressed vowel sound, i.e.

working conditions and perks; role, promotion, and goal; job satisfaction and salary

b) SS could think of more discussion words on the topic of work and repeat the activity above; then use the words and phrases from the activity or the ones they have found (or both) to practise with any Discussion Words practice activities, i.e. from Talk a Lot Elementary Books 1-3 or Talk a Lot Intermediate Book 1. Or SS could use the Big Word Game or Talk a Lot Bingo from Talk a Lot Elementary Handbook. You could also get SS to put each word or phrase into a sentence, using a verb form of their (or your) choice, or to practise making collocations, e.g. verb and noun (apply for a promotion), or adjective and noun (a high salary), etc.

4 Pronunciation

a) The strong stresses are marked: ○

b) Schwa sounds are marked: ● ; short i sounds are marked: ● ; other unstressed syllables are marked: ○

● ● ○ ● ○ ● ○ ○
1. it was nice to meet his friends there

○ ○ ● ● ○ ○ ○
2. Lee lives in a warm, dry flat

● ○ ○ ○ ● ○ ● ○ ○ ● ○
3. It's really made me think about why we work.

● ○ ● ○ ● ○ ● ● ○ ○ ○ ○
4. I had to wear this horrible uniform all day

NEA Phonetic Translation:

i_ w Znai st Mee ti Zfren Ztheir

Lee Li vzi n Worm, Draï Flat

i_ Sriy lii Mei mi Tting k bau_ Wai wi Work.

uh ha_ t Weir thi So r bl Yoo n for morl dei

SS should notice that the vowel sounds in the unstressed syllables in these sentences are mainly either Schwa sounds or short i sounds. This is true of unstressed syllables in an English sentence generally. Out of 22 unstressed sounds, there are **9 Schwa sounds**, **7 short i sounds**, and **6 other sounds**. Note: in sentence 1 the preposition "there", which is often an unstressed function word, is stressed because it occurs at the end of the sentence.

Extensions: SS examine other sentences from the text - or that they have made up on the same topic - to see how many Schwa sounds, short i sounds, and other sounds comprise the unstressed syllables.

5 Sentence Blocks

Note: parts of the text *in italics* will vary. SS should use their own ideas:

1. it was nice to meet his friends there (past simple)

Who was it nice to meet there? / His friends. / Was it nice to meet his friends there? / Yes, it was. / Was it nice to meet his *bank manager* there? / No, it wasn't. It wasn't nice to meet his *bank manager* there. / So...

What was it nice to do there? / To meet his friends. / Was it nice to meet his friends there? / Yes, it was. / Was it nice to *do your homework* there? / No, it wasn't. It wasn't nice to *do my homework* there. / So...

Where was it nice to meet his friends? / There. / Was it nice to meet his friends there? / Yes, it was. / Was it nice to meet his friends *in a crowded lift*? / No, it wasn't. It wasn't nice to meet his friends *in a crowded lift*. / So...

2. Lee lives in a warm, dry flat (present simple)

Who lives in a warm, dry flat? / Lee does. / Does Lee live in a warm, dry flat? / Yes, he does. / Does *a prisoner* live in a warm, dry flat? / No, they don't. *A prisoner* doesn't live in a warm, dry flat. / So...

Where does Lee live? / In a warm, dry flat. / Does Lee live in a warm, dry flat? / Yes, he does. / Does Lee live in a *cold, damp house*? / No, he doesn't. Lee doesn't live in a *cold, damp house*. / So...

What kind of flat does Lee live in? / A warm, dry one. / Does Lee live in a warm, dry flat? / Yes, he does. / Does Lee live in a *horrible flat*? / No, he doesn't. Lee doesn't live in a *horrible flat*. / So...

3. It's really made me think about why we work. (present perfect)

What has it really made you think about? / Why we work. / Has it really made you think about why we work? / Yes, it has. / Has it really made you think about *astrophysics*? / No, it hasn't. It hasn't really made me think about *astrophysics*. / So...

What has it really made you do? / Think about why we work. / Has it really made you think about why we work? / Yes, it has. / Has it really made you *feel annoyed*? / No, it hasn't. It hasn't really made me *feel annoyed*. / So...

4. I had to wear this horrible uniform all day (past modal form)

What did you have to wear all day? / This horrible uniform. / Did you have to wear that horrible uniform all day? / Yes, I did. / Did you have to wear *casual clothes* all day? / No, I didn't. I didn't have to wear *casual clothes* all day. / So...

What did you have to do all day? / Wear this horrible uniform. / Did you have to wear that horrible uniform all day? / Yes, I did. / Did you have to *stay in bed* all day? / No, I didn't. I didn't have to *stay in bed* all day. / So...

What kind of uniform did you have to wear all day? / This horrible uniform. / Did you have to wear that horrible uniform all day? / Yes, I did. / Did you have to wear *a nice uniform* all day? / No, I didn't. I didn't have to wear *a nice uniform* all day. / So...

Who had to wear that horrible uniform all day? / I did. / Did you have to wear that horrible uniform all day? / Yes, I did. / Did *your niece* have to wear that horrible uniform all day? / No, she didn't. *My niece* didn't have to wear this horrible uniform all day. / So...

How long did you have to wear that horrible uniform for? / All day. / Did you have to wear that horrible uniform all day? / Yes, I did. / Did you have to wear that horrible uniform *for only a few hours*? / No, I didn't. I didn't have to wear this horrible uniform *for only a few hours*. / So...

Extensions: Use other sentences from the text (or sentences written by SS on the same topic) and practise building sentence blocks using a variety of question words. SS can work individually, in pairs, in small groups, or as a whole class. See Talk a Lot Elementary Handbook for further ideas.

6 Discussion & Function Words

1. an
2. for
3. than
4. and
5. us
6. with
7. we
8. don't

9. be
10. to

SS should discuss the reasons and put them into order from 1 (most important) to 15 (least important). There are no right or wrong answers here. SS could present the results of their discussion to the whole class. Or SS could interview each other – even recording the interviews (audio or video), where possible. SS could work in small groups or pairs and leave the classroom to go and find a group of employees to interview on the topic of “Why Do We Work?” – e.g. at the school, or at a company, then come back and edit their interviews together, and show them to the whole group.

7 Reading

SS should read the interview out loud with a partner, then change roles and read it again. They should check any new words and expressions in their dictionaries, or you could pre-teach any vocabulary that you think might be new before starting the activity. The reading may lead into a discussion about Borag’s attitudes towards work and the present day, and how they contrast with our modern attitudes – or it may lead directly into the role play activity.

8 Role Plays

Extensions: See *Talk a Lot Elementary Handbook* for more ideas and guidance on developing role plays. One tip is to start to add more detail to the scene. SS could invent more information about each character, e.g. we don’t know much about the character of Lee from the text, so students could flesh it out a bit. As SS work together to add layers of detail the role play will become much richer. Of course, there are no right or wrong answers here: the idea is for SS to use their imaginations and to create something that can be assessed by the teacher in terms of spoken English, pronunciation, use of English, vocabulary, and so on. If your SS are competitive, there could be a challenge between groups to see which produces the most professional role play. SS could record their performances on video, and since the lesson is based on a fictional TV show, it could be a good chance for SS to learn how to create and edit a short video in the style of a reality show (e.g. *Undercover Boss*). If the performances are particularly good, you could invite people from within your school (e.g. other classes or staff) and even people from outside the school (parents, friends, etc.) to watch the resulting work, as a form of promotion for your school.

About Talk a Lot Intermediate Book 2

The aim of any Talk a Lot course is for students to practise and improve their speaking, listening, and pronunciation skills. Along the way the student will learn plenty of new vocabulary – including non-literal English expressions, such as idioms, phrasal verbs, and slang – and also practise reading, writing, and grammar skills, e.g. verb forms, word order, parts of a sentence, and so on.

This two-page spread provides an organised sequence of learning activities for students at intermediate level (CEF B2). We believe that there is easily enough material here for a 90-minute lesson. Of course, how long the material lasts will depend on a variety of factors, such as the level of your students, and how familiar they are with Talk a Lot techniques. If you used any or all of the extension activities, you could make the material last much longer.

Although many of the activities in this book can be used without having previously studied with Talk a Lot material, e.g. the reading comprehension tests, this is the second Talk a Lot Intermediate course book and the author has assumed that students will have some prior knowledge of Talk a Lot methodology, e.g. knowing how to make sentence blocks, and how to find the stressed syllables and sounds in a word or phrase; or how to read the New English Alphabet. If you or your students feel a bit lost with some of this material, you may practise the techniques with any of the previous Talk a Lot course books:

Talk a Lot Elementary Books 1-3
Talk a Lot Elementary Handbook
Talk a Lot Foundation Course
Talk a Lot Intermediate Book 1

All of these books – and much more – may be downloaded for free from <http://www.englishbanana.com/> and they are all covered by our Free Copying Licence and Free Licence to Run Courses, which means that **you may freely print, copy, adapt, distribute, sell, and give them away**. Please visit our website for full details.

We hope that you will really enjoy using this free material, whether you are a student or teacher of English! If you have any questions or comments, please do get in touch with us here: info@englishbanana.com. If you and your students come up with further extension activities, please contact us and let us know what you did! It would be great to hear from you! If you can provide photo or video evidence we'll happily put it online so that other students and teachers can learn from your experience. 😊

Note: in this book, as with most English Banana.com material, we generally use British English.

Pictures used under licence with kind permission from: P.1 © Hunta – Fotolia,

English is a rich language, which means there is often more than one way to say exactly the same thing. Native speakers often enjoy using idioms, phrasal verbs, and slang – a kind of **picture language** – rather than literal dictionary words, because it feels more natural to them. When speech includes a lot of this kind of non-literal English, as in the dialogues below, it can be really confusing for the English student, who might feel as if they're not listening to English at all, but...

A DIFFERENT LANGUAGE

1 Dialogue 1 – Quiz

- a) Read the dialogue with your partner quickly to get the gist. Student A is **Leanna** and Student B is **Billie**.
Note that the dialogues in this lesson are not exaggerated – native speakers (especially young people) really do speak like this!
 b) Read it together more slowly. Each student reads their lines and tells or guesses the **literal translation** of each idiomatic phrase in **red type**. The other student checks the meaning on their handout (see PP.3-4) and gives 10 points for each correct answer. The student with the most points is the winner!

Two teenage girls are chatting on the bus...

- L: ¹ Why the long face? ² What's up?
 B: Brandon's ³ **chucked me**.
 L: What?
 B: Yeah. We had ⁴ **a bust-up** last night – at Kim's party – and he's been ⁵ **giving me the cold shoulder** ever since.
 L: Ah! You must be ⁶ **gutted**.
 B: I'll ⁷ **get over it**, I suppose.
 L: What was it about?
 B: Well, you know, at first I thought he was ⁸ **playing hard to get**. Then when we started ⁹ **going out** he was still ¹⁰ **putting it about** with some girl from the school play, which was really ¹¹ **winding me up**.
 L: Yeah. I remember.
 B: So, yesterday afternoon I was shopping in town when I saw Brandon walking hand in hand with ¹² **a right minger** who works in the fish and chip shop – who's actually ¹³ **got a bun in the oven** anyway by *another* ¹⁴ **complete lowlife!**
 L: Ah, babe. ¹⁵ **I'm lost for words**. Well, ¹⁶ **it's not the end of the world**, is it? ¹⁷ **Plenty more fish in the sea, and all that**. I reckon you're better off ¹⁸ **well rid**.
 B: I'd love to ¹⁹ **teach him a lesson** though.
 L: ²⁰ **Don't stoop to his level**. You know – just ²¹ **pick up the pieces** and ²² **move on with your life**. ²³ **Be the better person**.
 B: D'you ever get the feeling that ²⁴ **life sucks?** I really trusted him, you know. How could he just ²⁵ **stab me in the back** like that? And he's so ²⁶ **two-faced!** I thought we were ²⁷ **soul mates** – together forever! I know I ²⁸ **took him for granted** sometimes, but...
 L: I guess you just ²⁹ **don't know what you've got till it's gone**.

"She's got a bun in the oven" – not connected with buns... or ovens

- c) Read the dialogue again, but this time replace the idiomatic phrases with the literal ones. Do you notice any difference? Which way is easier to understand? Which way is more interesting?

2 True, False, or Unknown?

Work in pairs and mark each statement T, F, or U:

1. Billie has split up with her boyfriend.
2. Leanna encourages Billie to get back with Brandon.
3. Leanna went to Kim's party last night.
4. Billie's not bothered about the break-up.
5. Brandon was unfaithful to Billie with a girl who works in a fast food place.
6. Billie is not bitter about what's happened.
7. Billie and Leanna are best friends.
8. Billie thought that the relationship had a future.

3 Non-Literal English – Clichés

A cliché is a standard phrase (often an idiom) that we use to express a feeling when we can't think of the words on our own – or when we are too lazy to think of our own phrase.

Clichés are, by definition, unoriginal and over-used. We often reach for a cliché when we need to react to some important news, e.g. a life-changing event or decision. For example, in Dialogue 1, above, the following phrases are clichés:

"just pick up the pieces and move on with your life"
"I guess you just don't know what you've got till it's gone"

Leanna uses clichés to give advice; perhaps because she has heard them before (e.g. on a TV talk show or soap opera) and believes that they sound like the right thing to say.

- a) Find two more clichéd phrases in Dialogue 1 and two more in Dialogue 2 on the opposite page
- b) Can you think of any more clichés that the girls could use in this situation?

4 Pronunciation – Final t Sound (Tracks 2.1a & 2.1b)

- | | |
|------------------|---------------|
| 1. not nice | 5. don't know |
| 2. what was | 6. got with |
| 3. can't believe | 7. that life |
| 4. get the | 8. what they |

"He was playing the field" – not discussing an actual field

- a) Find the phrases above in the dialogues and circle them
- b) Repeat the phrases a few times with your partner
- c) Listen to Track 2.1a, then Track 2.1b. The phrases are said in two different ways. What is the difference? Which way sounds more like natural English? Which way would you normally say them?
- d) Listen again to the second way (Track 2.1.b) and repeat the phrases
- e) Find more examples in the dialogue of similar phrases, where a t sound at the end of a syllable meets a consonant sound at the beginning of the next, and practise saying them in the manner that you heard in Track 2.1b

Some frustrated students speak out:

"It sounds like they're discussing relationship problems, so why do I hear nouns like bell, fish, trousers, oven, and so on? Why can't they say what they mean?"

[Answer: because English is not a direct language!]"

"When I hear the word fish I picture it and imagine it with its literal meaning; I get confused because I haven't yet learned that 'plenty more fish in the sea' is an idiom – a phrase with a fixed meaning. I need to learn more idioms!"

5 Dialogue 2 – Quiz

Follow the same instructions as for Dialogue 1. Student A is **Leanna** and Student B is **Terri**. Next, work together to create a short dialogue using 10 of the new idiomatic phrases from this lesson, and perform it to the rest of the class.

- L: Have you heard ¹ **the latest** about Billie?
 T: What?
 L: She's had a massive ² **argy-bargy** with Brandon! He's ³ **gone off with** ⁴ **some scrubber** from the ⁵ **chippie**.
 T: ⁶ **You're joking!** Well, he's ⁷ **led her a merry dance**, hasn't he? The ⁸ **low-down, rotten scum**. Talk about being ⁹ **done over!** She was ¹⁰ **so totally into him**, wasn't she?
 L: I know, but anyway – ¹¹ **I reckon she was punching above her weight a bit**, don't you think? And anyway, Brandon was ¹² **playing the field** with a bunch of ¹³ **old flames**, the whole time he and Billie were ¹⁴ **an item**. His mates were ¹⁵ **blabbing their mouths off** that he was having ¹⁶ **a bit on the side** when he first ¹⁷ **got with** Billie.
 T: Oh, you can't believe a word of what *they* say. I'd ¹⁸ **take it with a pinch of salt**, if I were you. They're ¹⁹ **all mouth and trousers**. How's Billie? ²⁰ **Keeping her chin up?**
 L: Pretty ²¹ **down in the dumps**, really. I think she's just ²² **sick and tired of** ²³ **hooking up** with ²⁴ **jerks**. It's not nice being ²⁵ **cheated on**, is it? I mean – her previous ²⁶ **bf** was ²⁷ **a total loser** too, wasn't he?
 T: I know, but anyway... Ah, ²⁸ **bless her**. You know, we need to get her ²⁹ **all dolled up**. Tell her to ³⁰ **get her glad rags on** and ³¹ **her dancing shoes** as well, and we'll take her out for ³² **a night on the town**. She can ³³ **paint the town red** and just ³⁴ **let her hair down**. Some ³⁵ **sick** music'll be ³⁶ **just the trick** to ³⁷ **mend her broken heart**.
 L: Yeah. Great idea! Let's ³⁸ **give her a bell** and ³⁹ **see how she's fixed** for tonight.

Discuss with your partner and then with the whole class: how can we learn MORE non-literal English?

"There's plenty more fish in the sea" – not about counting marine life

7 Sentence Blocks

Work in pairs. Make the six sentence blocks:

BRANDON WAS PLAYING THE FIELD WITH A BUNCH OF OLD FLAMES, THE WHOLE TIME HE AND BILLIE WERE AN ITEM.

when, who (x2), what (x2), how long

6 Discussion Words – NEA Translation

- a) Say the words from Dialogue 2 (below) out loud. Where is the strong stress? What is the strong vowel sound? Are there any Schwa sounds or short i sounds? Are there any silent letters?

massive dance mates mouths

give fixed trousers tonight

- b) Match them with their NEA translations:

t Nait Mauthz Fikst Giv Trau zz Meits Ma siv Darns

- c) Translate 10 more **content words** from the dialogues into the NEA and then repeat exercise a) above

1 Dialogue 1 – Quiz

----- ✂ -----
Student A checks as **Student B** tells or guesses Billie's literal translations:

- ³ ended our relationship
- ⁴ an argument
- ⁵ ignoring me
- ⁷ recover
- ⁸ deliberately making it hard for me to get close to him
- ⁹ having a romantic relationship
- ¹⁰ in a close relationship
- ¹¹ annoying me
- ¹² a really ugly girl
- ¹³ pregnant
- ¹⁴ horrible guy
- ¹⁹ do something nasty to him so that he regrets hurting me
- ²⁴ life is horrible
- ²⁵ betray me
- ²⁶ deceitful
- ²⁷ two people who matched perfectly
- ²⁸ didn't appreciate him fully

----- ✂ -----
Student B checks as **Student A** tells or guesses Leanna's literal translations:

- ¹ Why do you look so sad?
- ² What's wrong?
- ⁶ really upset.
- ¹⁵ I don't know what to say
- ¹⁶ it's not that serious
- ¹⁷ There are lots of other potential partners around
- ¹⁸ without him
- ²⁰ Don't behave as badly as he has
- ²¹ recover gradually
- ²² forget the past and focus on a more positive future
- ²³ Act like a more morally superior person than him
- ²⁹ don't value what you have until you have lost it

----- ✂ -----

5 Dialogue 2 – Quiz

----- ✂ -----
Student A checks as **Student B** tells or guesses Terri's literal translations:

- ⁶ Is that really true?
- ⁷ treated her very badly
- ⁸ very bad person
- ⁹ betrayed
- ¹⁰ very keen on him
- ¹⁸ treat it as if it were not true
- ¹⁹ always boasting about relationships
- ²⁰ staying positive
- ²⁸ I wish her well
- ²⁹ dressed up smartly
- ³⁰ put on her best party clothes
- ³¹ shoes which are suitable for dancing
- ³² a night at some pubs and clubs in town
- ³³ have a good time with friends, visiting pubs and nightclubs
- ³⁴ relax
- ³⁵ very good
- ³⁶ the best way
- ³⁷ help her to recover after being hurt emotionally

----- ✂ -----
Student B checks as **Student A** tells or guesses Leanna's literal translations:

- ¹ the latest news
 - ² fight
 - ³ started to date
 - ⁴ an unpleasant woman
 - ⁵ fish and chip shop
 - ¹¹ I think that she had a lower social status than him
 - ¹² having romantic relationships
 - ¹³ former partners
 - ¹⁴ together in an exclusive relationship
 - ¹⁵ boasting
 - ¹⁶ a secret relationship
 - ¹⁷ started to date
 - ²¹ unhappy
 - ²² very tired of
 - ²³ starting relationships
 - ²⁴ idiots
 - ²⁵ deceived by your partner, who is having a relationship with somebody else at the same time as you
 - ²⁶ boyfriend
 - ²⁷ an unpleasant person
 - ³⁸ call her
 - ³⁹ see whether she's available
- ✂ -----

Talk a Lot

Foundation Course

Lesson 2 – 200 One-Syllable Words that End with “t”

Practise making **glottal stops** with this handy list of one-syllable words that end with *t* :

ant	dote	mart	sat	wrote
art	fat	mat	seat	wrought
at	fate	mate	set	yacht
bait	feat	Matt	short	yet
Bart	feet	meat	shot	zit
bat	fight	meet	sight	
beat	fit	met	sit	
beet	fleet	might	skate	<u>My words:</u>
belt	float	mitt	soot	_____
bet	foot	moat	soot	_____
bit	fought	mutt	sought	_____
bite	gate	Nate	splat	_____
bleat	get	neat	spout	_____
blot	git	net	sprout	_____
boat	gnat	newt	start	_____
bolt	goat	night	stat	_____
boot	got	nit	state	_____
bought	greet	not	stoat	_____
brat	grit	note	straight	_____
Brit	grot	nought	tart	_____
brought	gut	nut	tat	_____
built	hart	oat	Tate	_____
but	hat	ought	taught	_____
butt	hate	part	thought	_____
cart	heart	pat	throat	_____
cat	heat	peat	tight	_____
caught	height	pert	tit	_____
cert	hit	pet	toot	_____
chart	hot	Pete	tot	_____
chat	hurt	pit	tote	_____
cheat	hut	plate	treat	_____
chute	it	pleat	tut	_____
clot	jet	port	vat	_____
coat	jot	pot	vet	_____
coot	jut	put	vote	_____
cot	jute	quit	wait	_____
crate	Kate	quite	wart	_____
curt	kit	quote	weight	_____
cut	kite	rat	wet	_____
cute	late	rate	what	_____
dart	let	rent	wheat	_____
date	light	right	white	_____
debt	lit	root	wilt	_____
dirt	loot	rot	wit	_____
dot	lot	rut	writ	_____

Practise glottal stops by repeating these four fun phrases – then make up some of your own!

- Kate wrote a short note.
- The goat with the neat coat met a stoat whose feet got hot a lot.
- Bart bought some light wheat.
- Pete's pet cat knew a neat newt.

Title

“A Different Language”. The aim of this lesson is to explore how English can sound like a different language when native speakers use a lot of non-literal expressions. In the dialogues from this lesson, SS can learn (or revise) **68 different idiomatic expressions** on the topic of relationships. SS should focus on the idiomatic language in the dialogues, and how idioms include words which have no connection with their normal literal meaning, for example, in the idiom “he’s been giving me the cold shoulder”, the meaning (“he’s been ignoring me”) is unconnected with the words “cold” and “shoulder”. But if SS don’t know the idiom, the use of these unrelated words can make them picture only the literal meaning of each word. Of course, the answer is for SS to first of all be aware that we use idioms and non-literal language in English, and secondly to learn idioms in a regular, systematic way, like they would learn any vocabulary. On page 2 of the lesson there are some “student complaints”: “...so why do I hear nouns like bell, fish, trousers, oven, and so on?” Here is a full list of nouns (in order) which are used in a non-literal way in the dialogues:

Dialogue 1: shoulder, bun, oven, world, fish, sea, lesson, level, pieces, back, soul, mates

Dialogue 2: scrubber, dance, scum, weight, flames, item, mouths, bit, side, pinch, salt, mouth, trousers, chin, dumps, jerks, rags, dancing, shoes, hair, trick, heart, bell

Pictures

Extensions: SS describe the pictures and how they are related to the lesson. SS look for other relevant pictures on the internet.

1 Dialogue 1 – Quiz

c) SS’ answers will vary and a short class discussion could develop. Hopefully SS will realise that there is a big difference when we use idiomatic phrases instead of literal ones. While using literal phrases may be easier for SS to understand – because they have already learned them in class – using idiomatic phrases makes the dialogue more interesting – and also closer to how an actual conversation between two native speakers would be.

Extensions: a) You could make this exercise more difficult by not giving the SS the handouts with the answers on. Instead they have to use dictionaries (e.g. a dictionary of idioms) or the internet to find the literal meanings, and then write their own literal version of the dialogue. b) After completing the exercise, SS could work in pairs or small groups and develop a short role play based on what they imagine was happening before the dialogue began, or what happened afterwards, or spend time looking for more idioms and slang expressions on the topic of love and relationships.

2 True, False, or Unknown?

Where possible, encourage SS to tell you a sentence from the dialogue to back up their answer, rather than giving just a letter:

1. T “Brandon’s chucked me.”
2. F “...it’s not the end of the world, is it?”
3. U We don’t know because this information is not given in the dialogue.
4. F “Why the long face? What’s up?”
5. T “...I saw Brandon walking hand in hand with a right minger who works in the fish and chip shop.”
6. F “I’d love to teach him a lesson though.”
7. U We don’t know because this information is not given in the dialogue. Perhaps not, considering how Leanna speaks to Terri about Billie in Dialogue 2.
8. T “I thought we were soul mates – together forever!”

Extensions: SS could make up further statements where the answer is true, false, or unknown, and test their partners. SS could use some of the sentences (not the negative ones) as starting sentences for building sentence blocks, e.g. “Billie has split up with her boyfriend. / WHO has split up...” etc.

3 Non-Literal English – Clichés

a) Since Leanna and Billie include a lot of well-known standard phrases (idioms) in their dialogues, it is fair to say that much of their speech is clichéd. However, the following phrases stand out as being particularly clichéd:

© English Banana.com This free material from <http://www.englishbanana.com> is 100% photocopyable!

Dialogue 1:

"I'm lost for words."

"It's not the end of the world, is it?"

"Plenty more fish in the sea, and all that."

"Don't stoop to his level."

Dialogue 2:

"He's led her a merry dance, hasn't he?"

"I'd take it with a pinch of salt, if I were you."

"Tell her to get her glad rags on and her dancing shoes as well..."

"She can paint the town red and just let her hair down."

b) SS' answers will vary. For example, other clichés (idioms that apply very generally to a situation) that could be used include:

Billie says:

"I need time *to get over him...*" (to recover from being hurt)

"I felt we were *made for each other...*" (a perfect couple)

"*It's hit me like a ton of bricks...*" (it has been a big shock)

"It's completely *out of the blue...*" (unexpected)

Leanna says:

"*You're better off without him...*" (your life will be better without him)

"*Just put it down to experience...*" (see it as something that has given you more experience of life)

"Try to *put it behind you...*" (forget the past and focus on a more positive future)

Extensions: SS could look for more examples of clichéd language in online videos, e.g. on YouTube, or on DVDs, in songs, and so on. SS could then try to rewrite lines which contain clichés using their own original phrases instead.

4 Pronunciation – Final t Sound (Tracks 2.1a & 2.1b)

You can download the recordings for the lesson here:

Track 2.1a <http://www.englishbanana.com/tali2-track2.1a.mp3>

Track 2.1b <http://www.englishbanana.com/tali2-track2.1b.mp3>

c) SS should be able to hear that the phrases in the second recording (Track 2.1b) sound more natural than those in the first (Track 2.1a). The reason for this is that in Track 2.1b the speaker uses elision to remove the t sound at the end of the first syllable, and adds a glottal stop before the next sound, whereas in Track 2.1a the speaker pronounces the t sound. This sounds awkward next to the following consonant sound, because it is a cc (consonant to consonant) sound connection, rather than the more usual and more natural-sounding vc (vowel to consonant) sound connection. You can see how the glottal stops (marked with _) have replaced the final t sound in the NEA phonetic spelling of the phrases below:

Normal Spelling:

NEA Translation:

- | | |
|------------------|--------------|
| 1. not nice | No_ Nais |
| 2. what was | Wo_ wz |
| 3. can't believe | Karn_ b Leev |
| 4. get the | Ge_ th |
| 5. don't know | Deun_ Neu |
| 6. got with | Go_ with |
| 7. that life | th_ Laif |
| 8. what they | wo_ thei |

This could be a good opportunity to revise (or study for the first time) how the glottal stop is used in English. You can find more information on this topic in *Talk a Lot Foundation Course*, which is a free download from

englishbanana.com. Read *Lesson 2 – Spelling and Sounds* in particular, and allow SS time to practise forming the glottal stop. On page 19 of this lesson there is a list of 200 one-syllable words that end with a t sound, which can provide plenty of practice of making glottal stops. It is included in this pack on page 5. There are also plenty of videos online which demonstrate how to make the glottal stop. Note: syllable linking and connected speech in general is covered in detail in *Unit 4 of Talk a Lot Foundation Course*. If SS ask why they have to study this, it could be worth pointing out to them that the final t sound – and consequently the elision and glottal stop combination – is very common in spoken English – **there are 65 final t sounds in these two short dialogues!** – so it is really important to study it if they want to achieve a more natural-sounding spoken English.

e) There are many more similar phrases in the dialogues, for example:

Normal Spelling: NEA Translation:

wasn't she?	Wo zn_ shi?
don't you	Deun_ y
thought we	Ttor_ wi

SS should avoid phrases where the first syllable ends with a consonant cluster, rather than a single t sound. There are several phrases, for example, where the first syllable ends with st . If this happens, elision may or may not occur but a glottal stop is unnecessary. Instead, we use FCL (final consonant linking) and the consonant cluster st moves forward to the beginning of the next syllable, for example:

elision does not occur and there is no glottal stop:

just don't	ju Steunt
just stab	ju Stab

elision occurs, but there is no glottal stop:

just sick	ju Sik
just chill	ju Schil
just the	ju sth

There are also a few phrases where a final t sound meets another consonant sound and the t sound is kept, but the sound at the beginning of the next syllable disappears (using elision), for example:

thought he	Ttor ti
hasn't he?	Ha zn_ tee?

Extensions: a) SS could record themselves practising the phrases, or new phrases that they have found from the dialogues - or any examples of cc sound connections where a final t sound meets another consonant sound. SS listen back to each other's recordings and offer feedback. Of course, the teacher should also offer feedback to each student. If possible SS should record themselves saying the phrases on video so that they can watch how they physically make the sounds, e.g. what position the mouth and tongue are in. b) SS could extend the phrases into full sentences and practise saying them, paying particular attention to the cc sound connection, e.g. after practising "not nice, not nice," etc. SS should practise the phrase in its wider context: "It's not nice being cheated on." etc.

5 Dialogue 2 – Quiz

SS should follow the same instructions as for Dialogue 1. They can use some or all of the same extensions as well – or think up their own.

Discussion question: "**How can we learn MORE non-literal English?**"

SS should think of their own list of ways in which they can learn more non-literal English, but here are a few suggestions to get the discussion started:

In general, SS should try to immerse themselves in the English language as much as possible. The following tips will help them to learn more non-literal English in context:

- buy a dictionary of English idioms and resolve to learn 10 new idioms per week in a systematic way. Do the

same for phrasal verbs, and even for slang too

- read English language websites, e.g. newspapers, gossip sites, information sites, etc.
- make friends with an English native speaker and chat on Skype or email each other
- watch English-language films with English subtitles on YouTube
- read the comments that people leave on YouTube, or similar sites, and look up any new idioms, phrasal verbs, and slang
- watch DVDs and films on TV with English subtitles
- exchange messages with English native speaker friends on Facebook
- attend free English lessons online at websites such as WizIQ.com
- pay for lessons with an English native speaker, e.g. on Skype, and focus on non-literal English
- use Twitter in English and read what people are tweeting on a particular topic
- spend time in the UK – either for a short holiday or for a longer stay
- learn English or work in the UK or an English-speaking country

6 Discussion Words – NEA (New English Alphabet) Translation

a) SS should check any new words or phrases in their dictionaries. Here are the discussion words with stressed syllables underlined and **strong vowel sounds** indicated.

a	ar	ei	au	i	i	au	ai
massive	dance	mates	mouths	give	fixed	trousers	tonight

There are Schwa sounds in the following words: trousers, tonight

There are short i sounds in the following words: massive, give, fixed

There are silent letters (letters which are not pronounced) in every word: massive, dance, mates, give, fixed, trousers, tonight

b) Normal Spelling: NEA Translation:

massive	Ma siv
dance	Darns
mates	Meits
mouths	Mauthz
give	Giv
fixed	Fikst
trousers	Trau zz
tonight	t Nait

c) Here are some more examples of content words (nouns, main verbs, adjectives, etc.) from the dialogues translated into the NEA:

Normal Spelling:	NEA Translation:
face	Feis
shopping	Sho ping
pieces	Pee sz
believe	b Leev
broken	Breu kn

Extensions: a) SS could look at the NEA in more detail, if they are not already familiar with it (see *Talk a Lot Foundation Course Page 16* for the full chart and *Lesson 2 Page 6* for more information) and practise using it to write simple one- or two-syllable words, for example their first name or their friends' names. SS could discuss the differences between the NEA and other phonetic alphabets, and consider whether their dictionary has phonetic spellings of the words it contains and how this could help them to understand the differences between spelling and sounds in English. If SS are familiar with the NEA, you could have a team writing race activity, where two teams compete to see which can write a given word (e.g. a word from this lesson) on the board using the NEA. Or SS have to write a word on the board and their team has to shout out the normal English spelling, and so on. b) You could

also use this activity as an opportunity to discuss the Schwa sound, or the short i sound (which is sometimes called “the second Schwa sound” because it is a very short sound which is consequently found in many unstressed syllables), or stress and strong vowel sounds, or silent letters – whichever of these topics your SS are currently least confident in. c) SS could think of more discussion words on the topic of relationships and repeat any of the activities above; then use the words and phrases to practise with any Discussion Words practice activities, i.e. from *Talk a Lot Elementary Books 1-3* or *Talk a Lot Intermediate Book 1*. Or SS could use the Big Word Game or Talk a Lot Bingo from *Talk a Lot Elementary Handbook*.

7 Sentence Blocks

Note: parts of the text *in italics* will vary. SS should use their own ideas:

Brandon was playing the field with a bunch of old flames, the whole time he and Billie were an item.
(past continuous)

When was Brandon playing the field with a bunch of old flames? / The whole time he and Billie were an item. / Was Brandon playing the field with a bunch of old flames, the whole time he and Billie were an item? / Yes, he was. / Was Brandon playing the field with a bunch of old flames, *towards the end of his relationship with Billie*? / No, he wasn't. Brandon wasn't playing the field with a bunch of old flames, *towards the end of his relationship with Billie*. / So...

Who was playing the field with a bunch of old flames, the whole time he and Billie were an item? / Brandon was. / Was Brandon playing the field with a bunch of old flames, the whole time he and Billie were an item? / Yes, he was. / Was *Billie's ex-boyfriend* playing the field with a bunch of old flames, the whole time he and Billie were an item? / No, he wasn't. *Billie's ex-boyfriend* wasn't playing the field with a bunch of old flames, the whole time he and Billie were an item. / So...

Who was Brandon playing the field with, the whole time he and Billie were an item? / A bunch of old flames. / Was Brandon playing the field with a bunch of old flames, the whole time he and Billie were an item? / Yes, he was. / Was Brandon playing the field with *my cousin's sister*, the whole time he and Billie were an item? / No, he wasn't. Brandon wasn't playing the field with *your cousin's sister*, the whole time he and Billie were an item. / So...

What was Brandon doing with a bunch of old flames, the whole time he and Billie were an item? / Playing the field. / Was Brandon playing the field with a bunch of old flames, the whole time he and Billie were an item? / Yes, he was. / Was Brandon *playing chess* with a bunch of old flames, the whole time he and Billie were an item? / No, he wasn't. Brandon wasn't *playing chess* with a bunch of old flames, the whole time he and Billie were an item. / So...

What was Brandon doing, the whole time he and Billie were an item? / Playing the field with a bunch of old flames. / Was Brandon playing the field with a bunch of old flames, the whole time he and Billie were an item? / Yes, he was. / Was Brandon *being completely faithful to Billie*, the whole time they were an item? / No, he wasn't. Brandon wasn't *being completely faithful to Billie*, the whole time they were an item. / So...

How long was Brandon playing the field with a bunch of old flames? / The whole time he and Billie were an item. / Was Brandon playing the field with a bunch of old flames, the whole time he and Billie were an item? / Yes, he was. / Was Brandon playing the field with a bunch of old flames *for two weeks*? / No, he wasn't. Brandon wasn't playing the field with a bunch of old flames *for two weeks*. / So...

Extensions: Use other sentences from the dialogues (or sentences written by SS on the same topic) and practise building sentence blocks using a variety of question words and verb forms. SS can work individually, in pairs, in small groups, or as a whole class. See *Talk a Lot Elementary Handbook* for further ideas.

About Talk a Lot Intermediate Book 2

The aim of any Talk a Lot course is for students to practise and improve their speaking, listening, and pronunciation skills. Along the way the student will learn plenty of new vocabulary – including non-literal English expressions, such as idioms, phrasal verbs, and slang – and also practise reading, writing, and grammar skills, e.g. verb forms, word order, parts of a sentence, and so on.

This two-page spread provides an organised sequence of learning activities for students at intermediate level (CEF B2). We believe that there is easily enough material here for a 90-minute lesson. Of course, how long the material lasts will depend on a variety of factors, such as the level of your students, and how familiar they are with

Talk a Lot techniques. If you used any or all of the extension activities, you could make the material last much longer.

Although many of the activities in this book can be used without having previously studied with Talk a Lot material, e.g. the reading comprehension tests, this is the second Talk a Lot Intermediate course book and the author has assumed that students will have some prior knowledge of Talk a Lot methodology, e.g. knowing how to make sentence blocks, and how to find the stressed syllables and sounds in a word or phrase; or how to read the New English Alphabet. If you or your students feel a bit lost with some of this material, you may practise the techniques with any of the previous Talk a Lot course books:

Talk a Lot Elementary Books 1-3
Talk a Lot Elementary Handbook
Talk a Lot Foundation Course
Talk a Lot Intermediate Book 1

All of these books – and much more – may be downloaded for free from <http://www.englishbanana.com/> and they are all covered by our Free Copying Licence and Free Licence to Run Courses, which means that **you may freely print, copy, adapt, distribute, sell, and give them away**. Please visit our website for full details.

We hope that you will really enjoy using this free material, whether you are a student or teacher of English! If you have any questions or comments, please do get in touch with us here: info@englishbanana.com. If you and your students come up with further extension activities, please contact us and let us know what you did! It would be great to hear from you! If you can provide photo or video evidence, we'll happily put it online so that other students and teachers can learn from your experience. 😊

Note: in this book, as with most English Banana.com material, we generally use British English.

Pictures used under licence with kind permission from: <http://www.kozzi.com>, <http://www.fotopedia.com/users/joi>

1 Grammar – Future Forms:

How many different future forms do you know?

Say an example sentence for each form.

Here are two common verb forms for future plans:

present continuous + time

e.g. "She's doing yoga on Thursday at 8.15 p.m."

going to + infinitive

e.g. "She's going to buy some bananas on Monday."

2 Speaking and Listening

a) Read Megan's diary for next week (right) and check any new words. Work with a partner and take it in turns to make sentences about her plans – using *present continuous* and *going to + infinitive*. You should say:

- i) 10 true sentences (with positive form)
- ii) 10 true sentences (with negative form)
- iii) 10 false sentences (with positive or negative form)

b) Write some notes for each day to show YOUR plans for next week (or plans of a relative or a celebrity), and dictate them to your partner, who has to write them, then tell your plans back to you using full sentences and the above future verb forms. Then swap roles.

Megan's Diary ♡♡!!

My Plans:

Your Plans:

Monday 8.20 a.m. dentist (two fillings!)

After work: shopping – buy bagels, ketchup, bananas, potatoes, 2 packs tobacco (for Dad)

Tuesday morning: hopefully cushy work!

11.45 a.m. meeting with Paula – agree to project

Lunchtime: change 20 quid into Dollars

buy shampoo and talk

Wednesday 10.35 a.m. brunch with Ray –

deli (get him to try espresso!)

borrow memory card from Alex 512 MB or larger

Thursday morning: call Angie's sister –

do they still need to borrow mattress?

8.15 p.m. yoga at sports centre (new guru!)

Friday 7.30 p.m. whisky, music, guitar +

rock 'n' roll = eventful evening! 10 p.m. tattoo?!?

Saturday 8.05 p.m. – meet Charlotte + Gaby

(karaoke – but no vodka!)

Sunday 1.15 p.m. lunch with boys at home

boomerang lesson? :)

BTW – remember pudding 4 Jo's party next Friday

ENGLISH IS A BIG BOILING POT OF DELICIOUS STEAMING-HOT WORD STEW!

4 Agree or Disagree? – Learning English Vocabulary

Do you agree or disagree with these statements? Say why and give examples. Find out what your partner thinks – mark ✓ for agree and ✗ for disagree:

1. I find it easy to learn new English words
2. Vocabulary is more important than grammar
3. I know more than two thousand English words
4. I try to learn at least 40 new words each week
5. I use a vocab notebook in lessons to record new words
6. I've got a good dictionary that I take with me everywhere
7. I'm interested in finding out the origins of words.
8. My first language has a large vocabulary – like English

3 Pronunciation – Focus on Similar Vowel Sounds

Write 3 English words which have a stressed sound like the ones below. Dictate them in a random order to your partner, who writes them in their grid – then check and swap roles. Try to avoid saying duplicate words!

uu	oo	u	o
e.g. pudding	tattoo	lunch	borrow

5 Reading and Research

The English language can be compared to a big boiling pot of word stew, because it consists of words that have been borrowed over a long period of time from many different languages. It's a very open language and anybody can drop a new word or phrase into the word soup! To understand the English language is to understand a little about the history of our island race. While many of the everyday words that we use come from Anglo-Saxon words (5th Century AD), the rest come from a wide variety of sources, such as Latin, French, Spanish, Arabic, Chinese... the list is endless!

Through being conquered by other nations repeatedly, to conquering others and encouraging immigration, the English language has grown constantly for the past two and a half thousand years or so – and it's still gaining new words and expressions today! **The fact that English is not a "pure" language which developed in isolation has some important implications for students** (see bottom of page).

a) The common English words in the Diary text (left) originate from a wide range of different languages. Match the ten highlighted words with their source languages in the 4th column below (use an online etymological dictionary to help you)

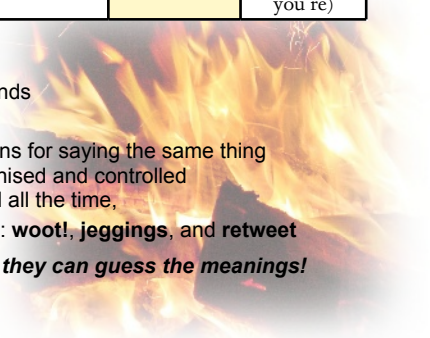

b) Fill in the gaps in the 5th column by finding another example of an English word that originates from that language

Century:	Source Language:	People who Added their Languages to the Word Stew:	Example from Diary:	Another Example:	
5 th BC	Celtic Languages, e.g. Scottish, Gaelic, and Welsh	the original inhabitants of the British Isles	whisky		
1 st BC	Latin	Roman conquerors		salary	
5 th AD	Old English – a combination of three Anglo-Saxon languages	Germanic invaders: Angles, Saxons, and Jutes		house	
6 th	Latin (again)	Christian missionaries from Europe led by St. Augustine	diary		
8 th	Old Norse	Viking invaders from Scandinavia	want	get	
11 th	Old French	Norman conquerors		biscuit	
15 th	Middle English	Chaucer is the first writer to put into print the current mix of English, French, and Norse words	agree	scissors	
13 th -16 th	Dutch / Flemish	traders, messengers, and explorers bring back words from Europe... (e.g. from the languages on the left)	dollar	sketch	
	German		delicatessen		
	Italian		espresso	casino	
	Spanish		guitar		
	Arabic		...the Middle East, and the Far East		coffee
	Sanskrit			yoga	karma
	Hindi			shampoo	
	Persian			peach	
5 th BC	Greek	scholars rediscover Greek during the Renaissance (15 th -17 th AD)		alphabet	
16 th	<i>The imagination of a genius writer from Stratford-upon-Avon</i>	Shakespeare is the greatest writer ever to work in English. He adds 1,700+ new words to the language	eventful		
16 th -19 th	<i>Languages from... the Americas, e.g. Nahuatl</i>	explorers, soldiers, missionaries, and colonisers bring new lands under English rule; as the official language of a growing Empire, English becomes a global language	potato		
	<i>West Indies, e.g. Arawakan</i>		tobacco	hurricane	
	<i>India, e.g. Hindi</i>		guru		
	<i>Africa, e.g. Fulani</i>			jazz	
	<i>Pacific Islands, e.g. Tahitian</i>		tattoo	taboo	
	<i>...and Australian Aboriginal languages, e.g. Wiradjuri</i>			koala	
19 th	Yiddish	travellers, traders, writers, journalists, and anybody who leaves their home country, comes into contact with a new language and culture, and shares it with the folks back home...	bagel	klutz	
	Chinese		ketchup		
	Japanese			judo	
	Russian		vodka	pavlova	
20 th	Various, e.g. Hindi	post-World War II, citizens of former British colonies immigrate to the UK, as the British Empire disintegrates	cushy	bungalow	
20 th	American English	US pop culture – film, music, TV, books, etc. – introduces many new words and expressions into English	rock 'n' roll		
late-20 th	text-speak	English becomes the main language of computing and the internet, and is a global language once more		ur (your or you're)	

Important implications for students:

1. We tend to keep the original spellings of the words we import, but use our native vowel and consonant sounds to pronounce them, while forcing the words to fit our stress-timed rhythm
2. Different source languages provide many synonyms in English, giving shades of meaning, and lots of options for saying the same thing
3. Unlike other languages, e.g. French, the spelling and vocabulary of English have never been formally organised and controlled
4. The fire of communication is still burning brightly, the pot is still boiling hot, and new words are being added all the time, e.g. *The Oxford English Dictionary* recently included 400 new English words in its Twelfth Edition – words like: **woot!**, **jeggings**, and **retweet**

Can you find any more recently-added English words? Describe them to your partner and see if they can guess the meanings!

1 Grammar – Future Forms

Answers will vary, e.g. future simple with will, future continuous, future perfect, present simple for future, etc.

2 Speaking and Listening

a) Examples:

- i) Megan’s having brunch with Ray on Wednesday at 10.35 a.m.
- ii) She isn’t going to the cinema on Thursday night (because she’s doing yoga at the sports centre).
- iii) Megan is going to meet Charlotte and Claire on Saturday night. (false; positive form)
Megan isn’t having lunch at home on Sunday. (false; negative form)

3 Pronunciation – Focus on Similar Vowel Sounds

Answers will vary. Examples of words which have these stressed vowel sounds:

uu	oo	u	o
<i>e.g. pudding</i>	<i>tattoo</i>	<i>lunch</i>	<i>borrow</i>
wood	boot	up	clock
book	rude	but	got
put	you	luck	lot
push	pool	club	song
should	route	under	dog
look	do	flood	shop

5 Reading and Research

a) and b)

<i>Century:</i>	<i>Source Language:</i>	<i>Example from Diary:</i>	<i>Another Example:</i>
5th BC	Celtic Languages		Thames
1st BC	Latin	dentist	
5th AD	Old English	work	
6th	Latin		village
11th	Old French	music	
13th-16th	German		hamburger
	Spanish		mosquito
	Arabic	mattress	
	Hindi		dungarees
	Persian	talc	
5th BC	Greek	MB (megabyte)	
16th	Shakespeare		disgraceful
16th-19th	Languages from... the Americas		chocolate
	India		dinghy
	Africa	banana	
	Australian Aboriginal languages	boomerang	
19th	Chinese		tea
	Japanese	karaoke	
20th	American English		cool
late-20th	text-speak	BTW (by the way)	

(Note: the spellings of the example words in the grid on Page 2 may have changed and developed over the years; the exact dates when they first became current vary.)

Extension:

The point of this lesson is to show SS that the English words around us (e.g. in the diary extract) come from a wide variety of source languages. You could underline this by getting them to find or write a short sentence, then look up each content word in an etymological dictionary (e.g. online) to see how many different source languages they can find. It could be a competition between pairs – the winner is the student whose sentence contains words from the largest number of sources!

For example, let's examine this starting sentence from Unit 1 of *Talk a Lot Intermediate Book 1*:

The pizza restaurant will've opened by the time you get back from the beach.

The content words, which are underlined, come from four different source languages:

English Word:	Source Language:
pizza	Italian
restaurant	French
open	Old English
time	Old English
get	Old Norse
beach	Old English

Important implications for students

1. An example of this is the English word "chauffeur". The word is of French origin and in English we have kept the original French spelling from when it was first used in 1899. This word can cause a lot of problems for learners of English because of the great disparity between spelling and sound. It's not very often that "ch" is pronounced sh in English, for example. It's hard for SS to know how to deal with the vowel cluster at the end: "eur", which is transformed into a simple Schwa sound in English: uh . The English pronunciation can be spelled phonetically like this: Sheu f . Let's look at how a different language has treated the same word. The Polish language has also borrowed the word "chauffeur", instead of thinking of its own word, but has adapted the spelling to fit Polish spelling rules. In Polish the word is spelled "szofer" and it is immediately obvious for Polish speakers how it needs to be pronounced. We can see that the word originates from "chauffeur" but it has been assimilated into Polish. Why can't we do the same in English? How would a native English version of the word be spelled? Maybe "showfer", which would be much easier to pronounce on first reading than the French spelling.

About Talk a Lot Intermediate Book 2

The aim of any Talk a Lot course is for students to practise and improve their speaking, listening, and pronunciation skills. Along the way the student will learn plenty of new vocabulary – including non-literal English expressions, such as idioms, phrasal verbs, and slang – and also practise reading, writing, and grammar skills, e.g. verb forms, word order, parts of a sentence, and so on.

This two-page spread provides an organised sequence of learning activities for students at intermediate level (CEF B2). We believe that there is easily enough material here for a 90-minute lesson. Of course, how long the material lasts will depend on a variety of factors, such as the level of your students, and how familiar they are with Talk a Lot techniques. If you used extension activities, you could make the material last much longer.

Although many of the activities in this book can be used without having previously studied with Talk a Lot material, e.g. the reading comprehension tests, this is the second Talk a Lot Intermediate course book and the author has assumed that students will have some prior knowledge of Talk a Lot methodology, e.g. knowing how to make sentence blocks, and how to find the stressed syllables and sounds in a word or phrase; or how to read the New English Alphabet. If you or your students feel a bit lost with some of this material, you may practise the techniques with any of the previous Talk a Lot course books:

Talk a Lot Elementary Books 1-3
Talk a Lot Elementary Handbook
Talk a Lot Foundation Course
Talk a Lot Intermediate Book 1

All of these books – and much more – may be downloaded for free from <http://www.englishbanana.com/> and they are all covered by our Free Copying Licence and Free Licence to Run Courses, which means that **you may freely print, copy, adapt, distribute, sell, and give them away**. Please visit our website for full details.

We hope that you will really enjoy using this free material, whether you are a student or teacher of English! If you have any questions or comments, please do get in touch with us here: info@englishbanana.com. If you and your students come up with some interesting extension activities, please contact us and let us know what you did! It would be great to hear from you! If you can provide photo or video evidence, we'll happily put it online so that other students and teachers can learn from your experience. 😊

Note: in this book, as with most English Banana.com material, we generally use British English.

Describing Boring Tasks

For speaking exams, it's good to be able to talk about anything and everything. One way to train yourself to do this is by practising describing everyday menial tasks. For example, you've maybe practised talking about the best day of your life or the most interesting place you've ever visited, but have you ever tried to describe something as mundane as doing the washing-up? If you can describe your walk to the bus stop, or how you do up a tie, you'll be able to describe anything!

1 Speaking Game – No Um-ing and Ah-ing Allowed!

Work with a partner. Try to speak for twenty seconds on the topic of “describe your pen” without pausing or umming or ahing. Keep going – try to describe every small detail, e.g. colour, shape, style, origin, use, cost, etc. Start off with ten points. For each um or pause longer than two seconds your partner deducts one point. The player with the most points at the end wins! If you can do it, increase the time! *Consider: what are good techniques for doing this?*

2 Reading

a) Read aloud the **transcript** (written version of speech) of a native speaker describing how he does a boring task – the washing-up. What do you notice about how he speaks?

“I start to run the water, hot water hopefully, put some washing-up liquid, not too much, just a, a little squirt, erm, pop it in, maybe run some cold water to get the lather going up. And then when it's half full **1.** I switch off the water and... but even before I switched off the water I maybe start **2.** to, erm, clean, wash the glasses, so I start off with glasses – yeah? – running the, I'm washing in the hot water with the soap, so the glasses come out really soapy and I'm rinsing them. I move the tap over to the left-hand side, and **3.** I'm rinsing the glass. Er, glasses. Yep? Each glass, and putting it on the top drainer. So there shouldn't be any suds on it.

“So... I start off with the hot water and the glass – all the glass stuff; then I do the cups – any cups and mugs; anything that we drink out of. That... And they're all done. And I've rinsed each one individually in the left-hand sink. Then I get into the phase, what I call, **4.** the sort of, er “It's all gravy” phase. So, this means it's all easy to do. **5.** I can do really quickly, I put all the plates and saucers and plates and small and dinner plates and so on, and stick them all in the water, and then this frees up space in the left-hand sink, so, er, I'm running water in the left-hand sink – just a little bit to rinse – and I'm washing the plates really quickly in the right-hand sink, and I'm washing them, erm, with the sponge, and then rinsing them in the left-hand side and sticking them on the drainer with the... with the, er, insert bits for the plates. [Pause; clears throat] And, er, like I said, I do this really quickly. I can do all of the plates in just, er, a couple of minutes like this.

“Anyway, er, once you've done the plates and so on, then really you've just got the bigger items to do, like **6.** the, erm, thing – the thing you use for grating cheese – saucepans, big spoons, big cutlery, and then the odd items to do. Not like the big... maybe jars and things. [Pause] So, I try and do the rest of it as quickly as I can, erm, all the things I've just mentioned, I put them... I drain... I sort of rinse them and then put them on the drainer. If I've got extra, **7.** then I tend to... er, put... er, I tend to put it on a, on a plastic tray by the side of... the sink, just to get dry; er, and I might even dry that up afterwards, so it doesn't look like a mess, there's still a mess there.

8. “So, erm, I've done all the... the bigger items, then I've got the cutlery – and I do have a special routine for cutlery as well, uh, what I... what I do there is, first of all I take all the knives out – like maybe six or seven knives, hold them in my left hand, pick them out of the left-hand sink, hold them all together and wash them in the right-hand sink, in the water, one by one, individually with the sponge – just really quickly go, take the dirt, the bits of food and grease off it, off them, then, hold them, holding them all together, I rinse them in the left-hand sink, and put them in the cutlery drainer. Then I do the same with the forks; er, then I follow the same pattern with the, with the spoons – like cereal spoons, bigger spoons. And finally just the small spoons; teaspoons – and there's usually loads of these for some reason, so I will, um, do maybe two lots of the teaspoons. And everything's rinsed; everything is nice and clean, *hopefully* – as far as I know.”

b) Discourse markers such as “erm” are like verbal punctuation. They give us the chance to pause for breath before continuing our speech – without letting another person interrupt. How many of these discourse markers can you find?

c) Match the 8 features of speech below to the highlighted parts of the text:

- a) Using a personal term, e.g. slang
- b) Grammatical error
- c) Self-correction
- d) Changing a word for a more suitable synonym
- e) Long rambling sentence with too many clauses
- f) Grasping for what to say next
- g) Using incorrect or unsatisfactory vocabulary
- h) About-turn – stop and change direction

d) Where possible, find another example of each in the text.

Glossary

washing-up liquid:

detergent that makes water soapy

the “It's all gravy” phase:

part of the process which is easy to do

suds:

the bubbles that are made by the detergent

to rinse:

to run water over sth to remove the bubbles

drainer:

the rack where plates, etc. stand to drain

cutlery:

knives, forks, spoons, etc.

3 Reading

a) We asked the same person to **write** a description of doing the washing-up. Compare an extract from the written version with paragraph 3 of the transcript. What do you notice?

Then all I'm left with is the big stuff, like the saucepans and large baking trays, or awkwardly-shaped stuff, like the cheese grater and various plastic jugs. I deal with these quickly in the water, which by now is getting a bit dirty. If there is a lot of washing-up I will drain the sink and refill it with fresh water before continuing with the heavy items. I might use a metal scouring pad to clean the saucepans, depending on how encrusted with grease and bits they are...

b) Rewrite paragraph 1 of the transcript by removing the pauses (erm, um, etc.) and correcting the errors (as in question 4). Read it aloud. What is the difference from the original version?

c) Discuss the following questions with your partner:

- What kind of person do you think the speaker is? What can you tell about their personality, background, age, income, education, etc. from how they speak and what they say? Give reasons.
- What is *your* spoken English like? Do you leave long pauses? Do you make mistakes? Does a flood of words rush out or do you umm a lot? Do you talk in well-structured sentences? Why? / Why not?

4 Writing

Summarise how the person in the text does the washing-up into a step-by-step list of instructions using **imperative form**, for example: **1. Run the hot water...**

5 Re-order the steps for changing an ink cartridge in a printer:

- ___ Follow the instructions for calibrating the new ink cartridge
- ___ Fit the cartridge into the holder
- ___ Open the ink cartridge box
- ___ Buy a new ink cartridge which is suitable for your printer
- ___ Press it to make sure that it's securely in place
- ___ Open the front of the printer
- ___ Remove the outer packaging that surrounds the cartridge
- ___ Close the front of the printer
- ___ Wait for the cartridge holder to move to the right-hand side
- ___ Take off the plastic strip that covers the bit where the ink comes out
- ___ Switch on the printer
- ___ Take the cartridge out of the box

6 Interview

a) Your partner interviews you as you describe doing a boring everyday task, e.g. **making breakfast** or **brushing your teeth**. Record it. Try to make the steps as detailed as possible. Your partner could pretend to be an **alien**, who has no experience of this activity and needs to find out a lot of information. Here are some questions you could use:

- How often do you do it?
- Why do you do it?
- Do you enjoy doing it? Why? / Why not?
- How did you learn to do it?
- What would happen if you didn't do it?
- What do you think about while you're doing it?
- Do you have a fixed routine or do you do it a different way each time?
- Can you describe to me in detail what you do, step by step?

b) Change roles and repeat the activity. Then each student writes a transcription of part (or all) of their partner's audio. Study it for speech markers and features of speech as in question 4. Give your partner advice for improving their speaking skills. They then read it again, but without the pauses and errors.

7 Sentence Blocks – Imperative Form

- First, fill the sink with hot water. [what x2, when]
- Wash the glasses in hot soapy water. [where, what x2]
- Next, rinse each plate in the left-hand sink. [what, where]
- Put the forks into the cutlery drainer. [where, what]

1 Speaking Game – No Umming and Ahhing Allowed!

Extension:

A group of SS sit in a circle. One student begins talking about a boring task, but the moment they umm or pause for longer than two seconds the student on their left-hand side has to continue talking. The teacher is timing each student with a stopwatch, and the winner is the student who can continue talking for the longest!

2 Reading

b) If you count up all the pauses marked by “er”, “erm”, “uh”, and “um” the total number is: 19. There are other discourse markers in the transcript too, where the speaker pauses for breath, or to consider what to say next, for example:

Line 1: “just a, a little squirt” – the speaker repeats a word to give himself time to think of the next phrase. This occurs again later in the transcript: “put it on a, on a plastic tray...” and once again: “with the, with the spoons...”

“so” – the speaker uses this word as a discourse marker, rather than as a conjunction with its proper meaning

“yeah?” and “yep?” – the speaker is checking that the listener is still following what he is saying

“...” this punctuation mark with three dots, called the ellipsis, is used to indicate a short pause in speech

“ – “ the dash is also used to indicate a short pause

[*Pause; clears throat*] there are a couple of times in the transcript when a pause is clearly marked. On the first of these occasions the speaker pauses to clear his throat, i.e. to cough; to clear any phlegm from his mouth so that he can speak more clearly

If we count all of the pauses in the transcript, we can say that the speaker paused 43 times in total. And perhaps there were other pauses which weren't recorded in the transcript.

c) The answer are as follows:

- | | |
|---|-------|
| a) 4. | e) 8. |
| b) 5. (It should be: “I can do it really quickly.”) | f) 7. |
| c) 3. | g) 6. |
| d) 2. | h) 1. |

d) Answers will vary.

3 Reading

a) Answers will vary, but there are several key differences between the transcript and the written version. In the written version:

- there are no pauses
- there are no grammatical errors
- classic grammatical structures are used properly, e.g. first conditional: “If there is... I will...”
- the vocabulary is richer, e.g. *awkwardly-shaped* and *encrusted with grease*
- the paragraph is better ordered and follows a more logical structure
- we read what the individual wanted to present – an edited version of their thoughts – rather than a transcript of their improvised rambling speech

b) Answers will vary. Here is an example of a rewritten “tidied-up” version of paragraph 1:

"I start to run the hot water and add some washing-up liquid, but not too much. Just a little squirt. I will perhaps run some cold water to make an effective lather. When it's half full I begin washing the glasses and rinse each one under the hot water, which is still running in the left-hand sink. This is to wash off the soap, because the glasses come out really soapy. After I have finished rinsing a glass, I place it carefully onto the top drainer. There shouldn't be any suds on it..."

Extension: SS could continue rewriting more of the transcript, or all of it.

c) Answers will vary.

4 Writing

Answers will vary. Here is an example summary of the steps outlined in the transcript:

1. Run the hot water
2. Add a little washing-up liquid
3. Run some cold water to make the lather
4. Wash the glasses
5. Rinse the glasses under the tap on the left-hand side
6. Wash and rinse the cups and mugs
7. Wash and rinse the saucers and plates and put them on the drainer
8. Wash and rinse the larger items and put them on the drainer
9. If there are too many items for the drainer, put the extra ones on a tray by the side of the sink
10. Wash the cutlery, starting with the knives
11. Wash and rinse the forks, spoons, and teaspoons and put them in the cutlery drainer
12. Dry up the extra items on the tray, if there are any

5 Writing

This is the correct order:

1. Buy a new ink cartridge which is suitable for your printer
2. Open the ink cartridge box
3. Take the cartridge out of the box
4. Remove the outer packaging that surrounds the cartridge
5. Take off the plastic strip that covers the bit where the ink comes out
6. Switch on the printer
7. Open the front of the printer
8. Wait for the cartridge holder to move to the right-hand side
9. Fit the cartridge into the holder
10. Press it to make sure that it's securely in place
11. Close the front of the printer
12. Follow the instructions for calibrating the new ink cartridge

Extension: SS could put the instructions into different tenses, e.g. if you describe how you did it in the past, you could say: "I bought a new ink cartridge... I opened the ink cartridge box..." etc. Or if you want to describe how you are planning to do it in the future, you could say: "I'm going to buy a new ink cartridge..." and so on. SS could also do this for the step-by-step instructions that they create in question 6.

6 Interview

Tip: SS should try to imagine doing the activity in slow motion, so that every movement is examined and noted. For example, if you want to describe brushing your teeth, you could say: "I pick up my brush with my right hand; hold it up, then pick up a tube of toothpaste with my left hand, and open the top with my right hand. Then I press the middle of the toothpaste tube so that a pea-sized amount of toothpaste comes out. I connect this toothpaste with the waiting brush head..." and so on. SS could even film themselves doing this kind of mundane activity and use the video to find out and write down exactly what they do. The aim is to analyse in detail activities that we normally do without thinking about them.

7 Sentence Blocks – Imperative Form

Note: parts of the text *in italics* will vary. SS should use their own ideas:

1. First, fill the sink with hot water. (imperative form)

What should I do first? / Fill the sink with hot water. / Should I fill the sink with hot water first? / Yes, you should. / Should I *make a cup of tea* first? / No, you shouldn't. You shouldn't *make a cup of tea* first. / So...

What should I fill with hot water? / The sink. / Should I fill the sink with hot water? / Yes, you should. / Should I fill the *bath* with hot water? / No, you shouldn't. You shouldn't fill the *bath* with hot water. / So...

When should I fill the sink with hot water? / First. / Should I fill the sink with hot water first? / Yes, you should. / Should I fill the sink with hot water *last*? / No, you shouldn't. You shouldn't fill the sink with hot water *last*. / So...

2. Wash the glasses in hot soapy water. (imperative form)

Where should I wash the glasses? / In hot soapy water. / Should I wash the glasses in hot soapy water? / Yes, you should. / Should I wash the glasses in a *cool mountain stream*? / No, you shouldn't. You shouldn't wash the glasses in a *cool mountain stream*. / So...

What should I wash the glasses in? / In hot soapy water. / Should I wash the glasses in hot soapy water? / Yes, you should. / Should I wash the glasses in *sparkling mineral water*? / No, you shouldn't. You shouldn't wash the glasses in *sparkling mineral water*. / So...

What should I do with the glasses? / Wash them in hot soapy water. / Should I wash the glasses in hot soapy water? / Yes, you should. / Should I *throw the glasses in the nearest bin*? / No, you shouldn't. You shouldn't *throw the glasses in the nearest bin*. / So...

3. Next, rinse each plate in the left-hand sink. (imperative form)

What should I do next with the plates? / Rinse each plate in the left-hand sink. / Should I rinse each plate in the left-hand sink next? / Yes, you should. / Should I *put each plate in the cupboard* next? / No, you shouldn't. You shouldn't *put each plate in the cupboard* next. / So...

Where should I rinse each plate? / In the left-hand sink. / Should I rinse each plate in the left-hand sink? / Yes, you should. / Should I rinse each plate *in the River Thames*? / No, you shouldn't. You shouldn't rinse each plate *in the River Thames*. / So...

4. Put the forks into the cutlery drainer. (imperative form)

Where should I put the forks? / Into the cutlery drainer. / Should I put the forks into the cutlery drainer? / Yes, you should. / Should I put the forks *into the fridge*? / No, you shouldn't. You shouldn't put the forks *into the fridge*. / So...

What should I put into the cutlery drainer? / The forks. / Should I put the forks into the cutlery drainer? / Yes, you should. / Should I put *the plates* into the cutlery drainer? / No, you shouldn't. You shouldn't put *the plates* into the cutlery drainer. / So...

About Talk a Lot Intermediate Book 2

The aim of any Talk a Lot course is for students to practise and improve their speaking, listening, and pronunciation skills. Along the way the student will learn plenty of new vocabulary – including non-literal English expressions, such as idioms, phrasal verbs, and slang – and also practise reading, writing, and grammar skills, e.g. verb forms, word order, parts of a sentence, and so on.

This two-page spread provides an organised sequence of learning activities for students at intermediate level

(CEF B2). We believe that there is easily enough material here for a 90-minute lesson. Of course, how long the material lasts will depend on a variety of factors, such as the level of your students, and how familiar they are with Talk a Lot techniques. If you used extension activities, you could make the material last much longer.

Although many of the activities in this book can be used without having previously studied with Talk a Lot material, e.g. the reading comprehension tests, this is the second Talk a Lot Intermediate course book and the author has assumed that students will have some prior knowledge of Talk a Lot methodology, e.g. knowing how to make sentence blocks, and how to find the stressed syllables and sounds in a word or phrase; or how to read the New English Alphabet. If you or your students feel a bit lost with some of this material, you may practise the techniques with any of the previous Talk a Lot course books:

Talk a Lot Elementary Books 1-3

Talk a Lot Elementary Handbook

Talk a Lot Foundation Course

Talk a Lot Intermediate Book 1

All of these books – and much more – may be downloaded for free from <http://www.englishbanana.com/> and they are all covered by our Free Copying Licence and Free Licence to Run Courses, which means that **you may freely print, copy, adapt, distribute, sell, and give them away**. Please visit our website for full details.

We hope that you will really enjoy using this free material, whether you are a student or teacher of English! If you have any questions or comments, please do get in touch with us here: info@englishbanana.com. If you and your students come up with some interesting extension activities, please contact us and let us know what you did! It would be great to hear from you! If you can provide photo or video evidence, we'll happily put it online so that other students and teachers can learn from your experience. 😊

Note: in this book, as with most English Banana.com material, we generally use British English.

The other pictures are by the author.

The Hare and

1 Discussion Words

a) Translate each word from the NEA into normal spelling. Check the meaning of any that you don't know:

Fi ni shlain _____
 hyoo Mi lii yeit _____
 e Ksor std _____
 He jhog _____
 Heir _____
 Tor ts _____
 Kors _____
 Pa nikt _____

Ga thd _____
 Peis _____
 Ba j _____
 A r gnt _____
 Beu sting _____
 Dornd _____
 Vi kt _____

b) Say what kind of word each is, then circle any silent letters (letters which are in the spelling, but not pronounced)

2 Focus on Punctuation Marks

a) Write the name of each punctuation mark:

, _____ ; _____ . _____

b) Match each function to a punctuation mark:

inserts extra information

indicates the end of a sentence

separates items in a list

is used before a relative clause. e.g. which. where. who. that. etc.

separates two main clauses in a sentence. when both have a main verb

is used before a conjunction. but not in short sentences

3 Dictation

Each student has four puzzle pieces, which are mixed up:

a) On your own: add the missing conjunctions (joining words) and relative clause words:

so (x2), and (x3), while (x2), including, as (x2), who, which

b) Add the missing capital letters and punctuation marks: , ; .

c) Dictate your texts to your partner, who writes them down. Check that the texts are correct now

d) Put the pieces in order to make the complete story

e) Find examples of each function in the complete text

f) What could be a good *alternative* title for the story? Do you have this fable (legendary story) in your culture? Is it different from this version? Tell it to your partner

the Tortoise

4 More Punctuation Marks

a) Name each punctuation mark, below, and write its NEA phonetic spelling:

	Normal Spelling:	NEA Spelling:		Normal Spelling:	NEA Spelling:
,	_____	_____	!	_____	_____
:	_____	_____	/	_____	_____
-	_____	_____	“ ”	_____	_____
_	_____	_____	?	_____	_____
()	_____	_____	@	_____	_____

b) Mark the stressed syllable in each word or phrase. What is the stressed vowel sound in each?

c) Discuss when we need to use each punctuation mark with your partner. Get a newspaper or online text and find an example of each in use. Is it used properly? What would happen if we didn't have any punctuation marks? Are there any languages that don't?

d) What is your favourite punctuation mark? Why?

5 Listening – Track 2.4a

Listen to the mp3 file. You will hear a story read **without punctuation**. It is in eight parts, which are mixed up. The story is called *The Windmill Contest*.

Write down the text in each part, adding punctuation marks and capital letters. Change the word POTATO for a conjunction or relative clause word (as in Q.3). Compare your answers with your partner. Together put the parts into order.

6 Role Play

a) The second story is a new version of the same tale from Aesop's Fables. Find another of his fables (e.g. from [gutenberg.org](http://www.gutenberg.org)) and devise a modern version as a role play with your partner or small group. Act it out for the rest of your class. You could use, for example, *The Boy Who Cried Wolf* or *The Lion and the Mouse*.

b) Write your story, then dictate it to a new partner without giving away the punctuation (i.e. in a continuous stream of words). Your partner has to insert the punctuation marks. You could replace some of the words with a fun word, as in Q.5, above, e.g. all the articles, or all the conjunctions, are replaced by "HIPPO", and so on.

c) What do you think of stories with morals, like fables or parables? Do you like them? What function do / did they serve? What fables are popular in your culture? Why?

7 Sentence Stress & Sound Connections

i) Underline the stressed syllables and mark the sound connections (e.g. vc, cc, etc.) in these sentences from the text.
 ii) Use connected speech techniques to change the sound connections into vc. Write the sentences using the NEA.

a) Whoever got the highest mark from their teacher would be the winner.

b) The teacher and all the students were astonished, and Amy's face glowed with pride.

3 Dictation – *The Hare and the Tortoise*

Student A – Story Puzzle Pieces.

- a) Add the missing conjunctions and relative clause words: **including, and (x3), while, as, which**
- b) Add the missing capital letters and punctuation marks: , ; .
- c) Dictate each part to Student B, who writes it down; then write down what Student B dictates to you
- d) Put the pieces in order to make the complete story

(Please cut out the four puzzle pieces below before use)

----- ✂ -----

_____ the tortoise was nowhere to be seen the hare panicked and ran the whole course as fast as he could _____ was very fast indeed _____ he reached the top of the final hill

----- ✂ -----

and steady pace _____ the hare was dancing around laughing at him other animals were laughing too _____ the rabbit the badger

----- ✂ -----

the tortoise _____ invited him to a five mile race the hare loved to race the tortoise accepted his challenge and trained hard for the event

----- ✂ -----

the tortoise was explaining patiently to the gathered friends that he had simply tried to do the best he could with the resources he had the moral is that slow _____ steady wins the race

----- ✂ -----

3 Dictation – *The Hare and the Tortoise*

Student B – Story Puzzle Pieces.

- a) Add the missing conjunctions and relative clause words: **as, who, while, so (x2)**
- b) Add the missing capital letters and punctuation marks: , ; .
- c) Dictate each part to Student A, who writes it down; then write down what Student A dictates to you
- d) Put the pieces in order to make the complete story

(Please cut out the four puzzle pieces below before use)

----- ✂ -----

_____ the hare walked around boasting that he was going to humiliate the tortoise and make him look stupid the day of the race dawned the tortoise set off at a slow

----- ✂ -----

there was once an arrogant hare _____ wanted to prove that he was better than everybody else _____ he chose the slowest animal in the county

----- ✂ -----

and even the little hedgehog the hare became exhausted from all his dancing around _____ he decided to have a nap when he awoke he realised that a few hours had passed

----- ✂ -----

he could see the finish line in the distance with the tortoise walking slowly across it the victor _____ the hare crossed the line a few minutes later red with anger

----- ✂ -----

5 Listening – Track 2.4a

Transcript:

Part 1:

POTATO amy so confident that she would win the contest hadn't even begun building yet at 10 pm she decided that she had better get started POTATO she was so tired from visiting her friends that she fell asleep

Part 2:

POTATO her rival burst into the classroom red in the face holding aloft a beautifully crafted POTATO lovingly painted toy windmill made out of brand new lolly sticks the teacher POTATO all the students were astonished POTATO amy's face glowed with pride the only problem was the price tag POTATO read \$25

Part 3:

POTATO she had even opened a tube of wood glue the day of the contest dawned POTATO the teacher wanted to see both windmills joan presented her model

Part 4:

POTATO a deadline of one week was set for the completion of each model joan began collecting lolly sticks straight away POTATO amy messed about visited her friends POTATO told them how she was better than joan POTATO how joan's windmill would inevitably suck it was the night before the deadline

Part 5:

POTATO amy crept back to her desk joan smiled shyly POTATO explained how she had only tried to do the best she could with the resources she had the moral is that slow POTATO steady wins the race

Part 6:

POTATO was small leaned slightly to one side POTATO looked a little odd due to the fact that the lolly sticks were all dirty POTATO used joan explained that she had collected them from all around town next came amy's turn her name was called POTATO she wasn't there the teacher was about to award the prize to joan

Part 7

there was once an arrogant girl called amy POTATO wanted to prove that she was the best student in the class POTATO she chose the weakest student joan POTATO challenged her to a contest both had to make a toy windmill out of lolly sticks whoever got the highest mark from their teacher would be the winner joan accepted

Part 8:

it was still visible for everybody to see dangling beneath amy's model amy was humiliated POTATO joan was named the winner of the contest POTATO placed her model on the teacher's desk nervously

1 Discussion Words

a) and b) Silent letters are in boxes:

NEA Spelling:	Normal Spelling:	Kind of Word:	NEA Spelling:	Normal Spelling:	Kind of Word:
Fi ni shlain	finish line	noun	Ga thd	gathered	verb
hyoo Mi lii yeit	humiliate	verb	Peis	pace	noun
e Ksor std	exhausted	adjective / verb	Ba j	badger	noun
He jhog	hedgehog	noun	A r gnt	arrogant	adjective
Heir	hare / hair	noun	Beu sting	boasting	verb / noun
Tor ts	tortoise	noun	Dornd	dawned	verb
Kors	course	noun	Vi kt	victor	noun
Pa nikt	panicked	verb			

2 Focus on Punctuation Marks

a) and b)

, comma

inserts extra information

is used before a conjunction, but not in short sentences

separates items in a list

is used before a relative clause, e.g. which, where, who, that, etc.

; semi-colon

separates two main clauses in a sentence, when both have a main verb

. full stop

indicates the end of a sentence

3 Dictation

a)-d) Here is the complete corrected text in order:

There was once an arrogant hare, **a) who** wanted to prove that he was better than everybody else, **b) so** he chose the slowest animal in the county,

the tortoise, **c) and** invited him to a five mile race; the hare loved to race. The tortoise accepted his challenge and trained hard for the event,

d) while the hare walked around boasting that he was going to humiliate the tortoise and make him look stupid. The day of the race dawned. The tortoise set off at a slow

and steady pace, **e) while** the hare was dancing around laughing at him; other animals were laughing too,

f) including the rabbit, the badger,

and even the little hedgehog. The hare became exhausted from all his dancing around, **g) so** he decided to have a nap. When he awoke, he realised that a few hours had passed

h) and the tortoise was nowhere to be seen. The hare panicked and ran the whole course as fast as he could, **i) which** was very fast indeed. **j) As** he reached the top of the final hill,

he could see the finish line in the distance, with the tortoise walking slowly across it, the victor. **k) As** the hare crossed the line a few minutes later, red with anger,

the tortoise was explaining patiently to the gathered friends that he had simply tried to do the best he could with the resources he had. The moral is that slow **l) and** steady wins the race.

e) Answers will vary. Suggested examples of punctuation use from the text:

, comma

inserts extra information:

so he chose the slowest animal in the county, the tortoise, and invited him...

is used before a conjunction, but not in short sentences

The hare became exhausted from all his dancing around, so he decided...

separates items in a list

other animals were laughing too, including the rabbit, the badger, and even the little hedgehog.

Note: some writers use a comma after the final item in a list. This is called an **Oxford comma**. Others avoid doing this. It is a matter of personal preference. I prefer to use it, as it helps to present the information more clearly.

is used before a relative clause, e.g. which, where, who, that, etc.

There was once an arrogant hare, who wanted to prove...

; semi-colon

separates two main clauses in a sentence, when both have a main verb

The tortoise set off at a slow and steady pace, while the hare was dancing around laughing at him; other animals were laughing too...

. full stop

indicates the end of a sentence

The day of the race dawned.

f) Answers will vary.

4 More Punctuation Marks

a) and b) Stressed vowel sounds are underlined:

	<u>Normal Spelling:</u>	<u>NEA Spelling:</u>		<u>Normal Spelling:</u>	<u>NEA Spelling:</u>
'	apostrophe	uh P <u>o</u> str fii	!	exclamation mark	e kskl M <u>e</u> i shn mark

()	brackets or parentheses	Br <u>a</u> kits p R <u>e</u> n tt seez	@	at sign or ampersat	<u>A</u> t sain <u>A</u> m p sat

c) and d) Answers will vary.

5 Listening – Track 2.4a

You can download the recording for the lesson here:

Track 2.4a <http://www.englishbanana.com/tali2-track2.4a.mp3>

Here is the complete corrected text in order:

Part 7

There was once an arrogant girl called Amy, **who** wanted to prove that she was the best student in the class. **So** she chose the weakest student, Joan, **and** challenged her to a contest; both had to make a toy windmill out of lolly sticks. Whoever got the highest mark from their teacher would be the winner. Joan accepted

Part 4:

and a deadline of one week was set for the completion of each model. Joan began collecting lolly sticks straight away, **but** Amy messed about, visited her friends, **and** told them how she was better than Joan, **and** how Joan's windmill would inevitably suck. It was the night before the deadline,

Part 1:

and Amy, so confident that she would win the contest, hadn't even begun building yet. At 10 pm she decided that she had better get started, **but** she was so tired from visiting her friends that she fell asleep

Part 3:

before she had even opened a tube of wood glue. The day of the contest dawned, **and** the teacher wanted to see both windmills. Joan presented her model,

Part 6:

which was small, leaned slightly to one side, **and** looked a little odd, due to the fact that the lolly sticks were all dirty **and** used. Joan explained that she had collected them from all around town. Next came Amy's turn. Her name was called, **but** she wasn't there. The teacher was about to award the prize to Joan,

Part 2:

when her rival burst into the classroom, red in the face, holding aloft a beautifully-crafted **and** lovingly-painted toy windmill made out of brand new lolly sticks. The teacher **and** all the students were astonished, **and** Amy's face glowed with pride. The only problem was the price tag, **which** read \$25;

Part 8:

it was still visible for everybody to see, dangling beneath Amy's model. Amy was humiliated, **but** Joan was named the winner of the contest, **and** placed her model on the teacher's desk nervously.

Part 5:

As Amy crept back to her desk, Joan smiled shyly, **and** explained how she had only tried to do the best she could with the resources she had. The moral is that slow **and** steady wins the race.

6 Role Play

a)-c) Answers will vary.

You Are The Course Book

by Matt Purland

You Are The Course Book

English Banana.com Free Copying Licence

“There is no wealth but life.” – John Ruskin (1819-1900)

Quick Summary:

You may download, print, copy, sell, and distribute English Banana.com materials, without paying anything.

Definition of Terms:

This licence is effective from 7th December 2008, and replaces all existing statements and notices regarding copyright and copying of English Banana.com materials. It applies to all English Banana.com materials.

“English Banana.com materials” means: worksheets, MP3s, video files, books, CD-ROMs, and any other file or product that has been created and published by English Banana.com, that exists either on its website server (www.englishbanana.com) or offline, including digital versions (e.g. a .pdf file) as well as physical copies (e.g. a workbook copy of the Big Grammar Book, or a CD-ROM).

Who May Use this Licence?

This licence applies to anybody who wishes to use English Banana.com materials.

Free Copying Licence:

1. You may download, print, copy, and distribute English Banana.com materials.
2. You may sell English Banana.com materials to make a profit.
3. You may distribute English Banana.com materials for free.
4. You may put English Banana.com materials on a website.
5. You may put English Banana.com materials on an intranet server.
6. You may adapt English Banana.com materials.
7. You may remove the English Banana.com name and logo from the materials, or replace it with your own.
8. You may produce plays or films using English Banana.com materials.

This is a free licence:

- You don't have to pay English Banana.com any royalties or fees.
- You don't have to credit English Banana.com as the originator of the materials.

English Banana.com Free Licence to Run Courses

“There is no wealth but life.” – John Ruskin (1819-1900)

Quick Summary:

You may use English Banana.com materials to plan and run courses, without paying anything.

Definition of Terms:

This licence is effective from 7th December 2008, and replaces all existing statements and notices regarding copyright and copying of English Banana.com materials. It applies to all English Banana.com materials. “English Banana.com materials” means: worksheets, MP3s, video files, books, CD-ROMs, and any other file or product that has been created and published by English Banana.com, that exists either on its website server (www.englishbanana.com) or offline, including digital versions (e.g. a .pdf file) as well as physical copies (e.g. a workbook copy of the Big Grammar Book, or a CD-ROM).

Who May Use this Licence?

This licence applies to anybody who wishes to use English Banana.com materials.

Free Licence to Run Courses:

1. You may use English Banana.com materials to plan and administer your courses.
2. You may use English Banana.com materials as course content.
3. You may charge for and make a profit from courses that use English Banana.com materials.
4. You may adapt English Banana.com materials.
5. You may remove the English Banana.com name and logo from the materials, or replace it with your own.

This is a free licence:

- You don't have to pay English Banana.com any royalties or fees.
- You don't have to credit English Banana.com as the originator of the materials.
- You don't have to contact us before using this licence, or apply for further permission, although if you do tell us how you are using it, we may be able to help you by publicising your initiative on English Banana.com.

In short, if you can use English Banana.com materials in any way, this licence gives you permission to use them.

There is only one restriction:

The Story of Baa Baa

The Story of Baa Baa

Once there was a gang of business persons who got together with the aim of making some serious money. They divided themselves into the following groups, each according to his or her preference. There were the course book writers and the publishers of materials, and the language school owners and the website operators, and the language experts, and not forgetting, of course, a great army of teachers – many of whom were really travellers, working their way around the world. Anyway this diverse group of business people organised themselves and got together for a business meeting. After talking long and hard for day and night they came up with an idea that was so deliciously simple yet so frightfully effective they couldn't quite believe they had come up with it. Their proposal was to design a language that was so rich and varied and so ridiculously difficult to master that it would keep them all in work until they could afford to finally retire. And they called their language: Baa Baa. Here we are privileged to be able to overhear part of their discussion:

'Shall we make it a direct language which is easy to use for communication?' suggested one. 'No,' replied another, 'We need to make it a subtle language with plentiful shades of meaning in each phrase. Let's give it lots of synonyms so that many different words can mean the same thing. The people who speak it will gain a reputation for not saying what they feel, and for being two-faced and distant, but I'm sure they'll be able to live with that.'

'Let's add at least eight thousand different idioms, so that students of the language can't tell what the native speaker means, even though they know what all the individual words in the sentences mean.'

'Good idea! And let's add the same number of phrasal verbs – yes more than eight thousand different verbs which all look very similar but which all have their own completely different meanings!'

'And don't forget to make it so that native speakers prefer to use phrasal verbs rather than normal verbs,' added another, learnedly.

‘And let’s add a multitude of slang phrases which are only understandable by select groups of people. That should confuse students a lot! They might even want to give up because they’ll feel like they haven’t got a chance of learning the real spoken language! Ha, ha!’

‘Yes, and while we’re at it, can we factor in vocabulary from every other language on the planet. We won’t bother changing the spellings to fit a particular spelling or sound system. Students will have to work it out for themselves – or go on a course!’ laughed a language school owner.

‘And let’s make it really hard to know how to pronounce this language, by making the spelling system and pronunciation system completely different from each other,’ suggested a Teacher. We could give it dozens of spelling rules which students have to learn. That will keep us in work for a good number of years!’

‘Let’s add a phonetic alphabet so that many millions of students will have to master not one but two different alphabets,’ said another teacher. The other looked at him in horror, fearing that a tool to help learners had been suggested in error. ‘Don’t worry,’ said the first teacher, smiling, ‘They won’t be able to master the phonetic one. Most of them won’t even bother trying. It’ll just be for show.’

‘Why not make it so that lots of different words sound the same but have different spellings. We could call them “homophones”. That should confuse students a lot – especially the beginners!’

‘And what about stress? Shall we give it a regular pattern of stress, let’s say on the first syllable of every word?’ asked one website owner rather naively. ‘No, what are you crazy?’ said one of the others, ‘We’ll make sure that the stress of a word can only be worked out by complete and utter guesswork.’ ‘Or by looking in a dictionary,’ said another, ‘Although most students won’t bother buying or carrying around one of those.’

‘But if we have stress, then we need some weak stress words,’ posited a little language expert, who hadn’t spoken yet. ‘What about if we had three words that had to go before nouns – let’s call them articles. You know, just three little words, but nobody would

know how to use them or when to use them – not even the highest-level learner! It'd be hilarious to watch them trying to master that! Ah, ha ha ha ha ha!' And he fell off his stool and had to be carried away. (He later returned wearing a little brown paper hat and carrying a glass of water.'

'Don't forget to include some sounds, for example a few consonant sounds, which will be impossible for many students to pronounce, no matter how hard they try, suggested an elderly course book writer. 'While we're at it, we could make sure that some of the most common words in the language include those sounds,' said another, 'Ha, ha, that would be really funny, yeah? A word people can't pronounce is the most common word in the whole language!'

'Ah, ha ha ha ha ha ha!' laughed a website owner as he imagined money raining down.

'Don't forget glottal stops,' warned a language school owner, 'And we could include a mysterious sound that could be in almost every single weak stressed syllable of the language, but which would remain an absolute mystery to learners of the language. Let's call it "the Schwa sound". Native speakers will use them all the time, but students will never manage to get them right!'

'Because they won't know about 'em,' coughed an ugly language school owner.

'Because we won't *tell* them about 'em!' laughed a veteran teacher, rubbing her hands together in glee.

'Ha, ha, that's a good one!' boomed a great big fat course director.

'Er, so what about tenses. You know, there are three basic times, right? Past, present, and future,' spoke up one teacher, anxiously.

'Yes, but to ensure the survival of our businesses – ' interjected a language school owner, 'To keep bums on seats at our academies and schools and summer schools – '

‘And to ensure that our course books keep on selling – ’ interrupted a course book publisher huskily.

‘– we’ll give our new language sixteen different tenses,’ continued the language school owner, ‘What do you think? Will that be enough?’

‘What about thirty or even sixty tenses?’ said one of the younger teachers optimistically.

‘No, I think that any more than sixteen and they’ll rumble us,’ said an older teacher who was leaning on an oak stick and dragging on a foul-smelling herbal cigarette.

‘Let’s leave it at sixteen then,’ they all agreed.

After the dinner had been served and everybody had had their cakes, the industrious business people resumed their important ruminations, with everybody in the room feeling that they were really onto something.

‘What about making it more complicated to understand this language by ensuring that the native speakers use a whole shed load of different accents, many of which sound completely different to the received pronunciation version, which we will teach almost exclusively?’ suggested one teacher.

‘And we could make this language popular all over the world by installing it as the first language of several major world powers,’ exclaimed a language expert, ‘And we could further spread it by making it the first language of the movies, television, communications, business, and the internet, and so on and so forth. You know?’

‘Yes, and then people will feel like they have to learn Baa Baa,’ said another, ‘Because everyone else is learning it. And they need to too. And we will absolutely rake it in!’

And over coffee and a rather tempting cheese board they all set to discussing how they would profit from the new language they had created:

‘We’ll make money by selling our specialist knowledge and writing skills to the publishers,’ said the course book writers.

‘And we’ll make money by selling the books they write,’ said the publishers, ‘And we’ll make it so that every student has to buy their own copy and that no copying is allowed! And when the teachers do copy the books – which they inevitably will, but OK, what can you do about it anyway? – we’ll sell the books as electronic versions for which you will need a whole shed load of really expensive electronic equipment. Ah, ha ha ha ha ha!’

‘And we’ll make money by selling expensive courses to students,’ said the language school owners, ‘And the courses will be taught by an army of inexperienced and barely-qualified teachers, but it won’t matter that they’re not very good because the course books will tell them what to do.’ At this point the course book writers awarded themselves a wry smile.

‘And we’ll make money by publishing content online and displaying highly targeted ads with it,’ said the website operators, ‘And we’ll make it so that users have to pay us subscriptions and log in to use the materials – which they won’t actually really *need* – although we might give them a handful of free printable worksheets; a free sample – let’s say five.’

‘And *we’ll* make money by making speeches about the language,’ said the language experts, ‘And running specialist teacher-training courses, and speaking at conferences, and pontificating, and coming up with new theories and new methods. Yes, we’ll gain reputations for being windbags and boring, but we’ll be well rewarded for our efforts. And we’ll write academic books that nobody will really want to read – and that most teachers won’t be *able* to read – despite them being set texts on the teacher training courses – and then we’ll sit back in our leather-backed chairs in our ivory towers and write some more.’

Finally the great army of teacher-travellers had their say.

‘We’ll make money by going into the classes, going through the course books with the students, trying to dodge awkward questions about the language, and generally just

sleep-walking our way through course after course. This way we will make enough money for travelling and we'll always have a job somewhere in the world. We'll never be unemployed because there will always be folks who need and therefore want to learn this language.'

One of the language experts ruminated on their plan, which they all believed to be foolproof: 'Countless millions of people will learn the basic words and phrases of Baa Baa; many millions of them will make it through to intermediate level but then get stuck and be unable to progress – and then, because it will seem too difficult they'll give up because they have become demotivated. A much tinier percentage will be persistent and not give up, and progress on to the higher levels of Baa Baa, but I confidently predict that they will never be able to get their pronunciation right – I mean, sounding like a native speaker. Never. Ever! Never! Ah, ha! Ah, ha ha ha ha ha ha ha ha ha ha!'

So this was their plan; and everything went very well for them for a time. And the teachers were happy because they didn't really have to know very much about the language, they just had to teach from the books. So they didn't have to know how to present the grammar points or model stress and pronunciation; instead they just said, 'OK, open your books. What page are we on then?' and off they would go – the students had to work. And they learned... a little; often in silence.

However, there was a small number of teachers who, because of an unnatural quirk in their chemical makeup, tended to do things their own way; who knew the grammar of the language well, and how to teach stress and pronunciation; who hated the course books because they made them passive and their students passive – and because they were so boring to use. And one by one they found one another and got together, until a group was formed and they began to plot a counterattack against the language that the course book writers and the publishers of materials, and the language school owners and the website operators, and the language experts, and the vast army of teachers had created. These strange rebellious individuals – acting as a group – didn't care about securing their future work, but only about how quickly and how well their students learned. They began to dream about a new language that would be simple and straightforward to learn; satisfying to teach; effective for communication; that had a logical grammar, and spelling that accurately reflected the pronunciation of a word. This

language would have words that meant what they said; where the meaning was clear; where there was no beginner, elementary, pre-intermediate, intermediate, upper-intermediate, or advanced levels, but simply two groups of students: those who could use it to communicate effectively and those who could not.

And they developed this language – a rival for Baa Baa – which they named Elum, and it spread across the world like wildfire. And the great army of teachers no longer bought from the big companies, because they weren't producing what they needed to teach Elum. Instead they created their own materials, using what they found around them; using simple techniques that practised the most needed parts of the language. And people learned this new language quickly and communicated easily and directly with one another. With greater communication came greater understanding, which led to harmony in the world – peace at last, and prosperity for all – all around the world. With the exception, of course, of the course book writers, and the publishers of materials, and the language school owners, and the website operators, and the language experts... until they began to change their materials and methods to suit Elum. Then slowly – ever so slowly – over time, began to make Elum more complicated, adding more rules, divorcing spelling from sounds, adding idioms, and phrasal verbs, and slang, and hidden meanings, until Elum became more difficult to learn than Baa Baa had ever been. And they were happy again. And they made money from making language learning as difficult as possible again – until the day when they could afford to – finally – retire.

Dear M.

Thanks so much for your offer to work for you next year at XXXXX School of Foreign Languages. I have really thought about it and I'm sorry but I won't be returning for another year with you. It's not that I don't enjoy working at your school. I really enjoy it, and I love the students. But the reason I don't want to work for you is that the work is so boring. This year we've worked through the whole course book from start to finish and the students have done everything they were supposed to do, but they are not really any further on in their understanding of English – in my opinion. I don't understand why you are so tied to the course book. You explained it to me once that the students expect to have a course book and their parents do too – most importantly, because it's their parents who are the ones who pay for the course for these high school kids! – but you have to understand that we don't *need* a course book to teach these kids English. I would go so far as to say that I hate the course book, and having to use the course book again is the main reason – no, in fact it's the only reason – why I won't be returning to work with you next year. Sorry.

All the best, yours

Matt

Dear M.

Thanks for very much for your kind letter. It was good to hear from you, as usual. ☺

Yes, I'm sorry too that we won't be working together, but I've had to kind of make up my mind what to do, and I can't stand it any more – more boring hours in the classroom. I didn't get into teaching for that. In the place where I started out teaching I was allowed to design the syllabus and create my own lessons based on that. You know, I worked with other teachers to do that. We didn't just follow the course book like a slave. Why can't I do that with you? Because of the course book. The course book *is* the syllabus, you have said. But the course book is not only the syllabus – but it takes over the role of the teacher too. In your school it has usurped my (our) role fully. I don't need to prepare lessons, even. I can just walk into the classroom and say to my students, "OK, which page are we on?" and they tell me, and I say, "OK, well let's start then. Do the reading, check any new words in your dictionary, then answer the true/false questions, the multiple choice questions, do the matching, match this and that," and so on, and so on. And I can sit back and do nothing. I can switch off, until it's time to check the answers; but I can read the answers from the teacher's book – or worse still just point at them on the interactive whiteboard that you had installed last year (I don't know why you bought that, I really don't), and I don't even need to look at the questions or engage with what the students are doing. I can go into "low-power mode", or just switch off altogether. I spend most of my time looking out of the window, to be honest.

Think of the money, my wife says, and other teachers say, “Oh, just do it for the money, Matt. What does it matter if the students learn anything?” Well I was trained so that it did matter whether the students learned something. But they aren’t learning with the course book. I feel like the course book has taken away my teaching role. The students have to cover everything on every page, but a lot of it is not social – not interactive – and it could be done at home, rather than in the classroom. In the classroom they have got a unique opportunity to speak in English with other people. They have got a chance to speak with me, a native speaker of the language. Instead they are reading texts which do not interest them (in my opinion) and answering the same three types of question again and again – true or false, multiple choice, and matching. If they’re not doing that then they’re doing grammar exercises, which again they could do at home or online or with a CD-ROM in their own time. I don’t need to do a grammar presentation, by the way, because the book does it for me. I just tell them to read the bit in the book about the grammar point, then answer the questions. If they don’t get it, it doesn’t matter to me (just think of the money, right?) and the point usually doesn’t come up again during the course, except for in a test. All too often it feels like if they miss the week on present perfect, or whatever, then they miss present perfect.

Do I sound angry? Yes, I’m a little bit angry. I feel like you have been wasting my time for the past seven months, since September. Every week I have been to your school to teach, twice a week for two hours each time, but I haven’t been *allowed* to teach. I’m just a drone, a robot facilitating the course book. The course book is the teacher, not me. When did I become just a passive functionary, instead of an educator, which is what I trained to be – what I wanted to be? You are not using me to my full potential. I can teach. I don’t want to just tell them to open the book and do the exercises. Anybody could do that. I’m fully qualified and educated to a high level, but in your classes I don’t really need to do anything except show up and make sure they don’t mess about (or leave early). The interactive whiteboard makes it worse, because (when it actually works) it even does the auxiliary things that I used to do, like finding the listening part on the CD or finding the answers in the teacher’s book. A few clicks and everything is there on the board for the students. So then, what is my role?

The problem is that when I’m bored, it tends to show, and the students get bored. Most of them hate the course book as well. After seven months of the same book they are like,

“Have we got to do XXXXX book again?” And I say, “Yes, we have to do one spread [two pages] per lesson. If we finish it we can play a game or something...”, but frankly I can’t be bothered to prepare anything like a game. When you treat me like just a baby-sitter for the students – when you don’t respect me as a professional and let me teach – why should I motivate myself to provide something different and fun? To be honest the whole thing can be summed up like this – the course book market is a bloody racket. It stops students from using their own creativity, and it prevents teachers from teaching English – it exists solely to make money for business people. In fact, I believe that the course book publishers have deliberately and cynically done what all successful business people do – they have created a need where there wasn’t one before and then encouraged a dependency upon it. (I’ve written a short story about this. I did it during one of my classes at your school, actually, when the students were doing a reading comprehension and I had nothing to do). I hope you won’t mind reading it through. I have enclosed it here: *“The Story of Baa Baa”*.

I’m only writing this because I want you to understand my reasons for not teaching with you next year. Of course I still want to be friends with you. In fact our friendship still means the world to me. But after ten years as an English teacher, I can’t go on like this. I am over-bubbling with ideas on how to teach, to communicate this wonderful language. I can’t do any more spreads, M. I can’t do it, because I am betraying myself and I just feel like I’m wasting my time. I’m wasting my time. And time is so precious. I hate wasting time, above all things, because we don’t know how long we have got on this planet, do we? I work in three different language schools, including yours, and in all three I have to use a course book, but the frustration is always the same. The students are not engaged, I’m not interested, the clock is ticking, and the time is just wasted. Yes, money is being made for everybody, but money isn’t everything. I know *you* understand that actually, because you are not materialistic like other people I know. But, M., can you see my point, dear?

You asked me, “Well, what is the alternative?” You got a bit hot and bothered – even angry – as you asked it: “So, what, do you expect me just to let you walk into the classroom and do whatever you want, Matt?” Well, what do you think I would do in that situation? I think it looks like you don’t really trust me to do my job. If I was a plumber, I would be employed to go to a specific location and do a particular job, right? My boss

would send me there, but he or she wouldn't tell me step by step how to fix the problem. They would just trust me to know how best to do it. Why don't Directors of Studies and Language School Owners understand that they can trust qualified teachers? Instead you give us an idiot's guide to the lesson (the course book and teacher's book) that we have to follow to the letter – and the students have got so used to this that they will complain to you about it if we don't do every single tiny exercise. Why not let me do my job? OK – yes – plan a syllabus and I will follow it, but let *me* choose the route – the way to do it that best suits me, and the students I'm caring for. But people like you (no offense, M.) don't trust language school teachers. I know you don't. "Oh, we've been bitten too many times in the past," you might say. Hmm. You don't know, but I am going to propose to you in this letter a whole brand new system for teaching English in language schools without a course book. You don't know, but it works really well. I've been trialling it with my private students at home. Yes, at home. I've been trying it out – when I can – in my language school jobs (which you and the other DOS's don't know about, but you probably wouldn't care anyway, because you are so busy and overworked). I think I'm really onto something here. This could be really big! Let's get rid of the course books forever and teach the students ourselves! When did big business people take our jobs away? "But what about your own course books and materials," you might say, "that you've written?" Well, yes, it's true that I have written hundreds and hundreds of pages of material for learning and teaching English. And they're all online free for anybody to download from <http://www.englishbanana.com>. That has been my hobby. But I have found a way where I don't need to do it any more. Yes, don't be shocked! But, I have found a way. Why should I carry on writing materials and books ad infinitum? I've found a different way – a better way – a higher path!

"What about Talk a Lot books," you might say? Yes, I have written three elementary courses; one intermediate course; one foundation course on pronunciation; one handbook for the elementary courses, so that makes six big manuals or course books – plus I started writing a second intermediate-level course book. "What about those," you might ask. (Are you still reading this now, M.? I hope so; please do think about it and give me some feedback on what you make of it, won't you? You have helped inspire me to do this. You've really inspired me, M.) "They have done really well," you said to me once, a little patronisingly, but you still said it anyway. Yes, over 850,000 copies have been downloaded from the internet to date. That figure is verified and public. And that's

free downloads, I might add. If they'd all been paid downloads I'm sure I wouldn't be needing to work for you – or for anyone else – at all, even ever again! How many proper published course books can say that they have that many copies in print – in the hands of people who've printed them out themselves? And the books are *popular* – people like them. I get a lot of positive feedback about them, day in day out, week in week out. The Talk a Lot materials are about enabling and educating teachers to use techniques for teaching spoken English, rather than to be tied into the more fixed structure of course books. Yes, people do say nice things about Talk a Lot, like:

“Hi Matt, thanks for making this available for us to download online. Much appreciated. You've helped a lot of youth in Sri Lanka!” (Susan)

“Thanks a million for sharing this.” (another downloader at Scribd.com)

That's great, but now I'm going to propose that they don't need any course books – not even free ones. Not even my ones! This brings up the point about the price of course books and materials, like interactive whiteboards and so on. I know how you sweated to get hold of just one of those whiteboards, which in my view are simply white elephants, because all you really need is any plain good old-fashioned board – be it black or white. For the manufacturers of interactive whiteboards it is money for old rope. They are reinventing the wheel, and you are paying through the nose to get hold of one. Not only are they expensive – not to mention having to buy the projector (which I concede is useful for watching films in class when you are not there) – but most of the time they don't even work – and nobody knows how to fix them. You have to get someone in from the head office. How many times have I complained to you about the special pen not connecting with the electronic whiteboard, rendering the whole kit and caboodle a complete waste of time? How it winds me up! You don't need all this rubbish. (I know I'm ranting, and yes, I complain a lot, but you know that it is because I'm a perfectionist. I want to do my best. I am not only in it for the money, like some teachers.) What about the price of course books themselves? Students in one of the schools where I work are paying around £20 to buy their course book. Then, if a student has to have a course book, then they'll probably also have to buy the accompanying workbook, which costs the same again, or more if it has a 'free' CD-ROM or DVD (or both). If the student is doing more than one course, as many of them are, they'll have to fork out over £100 just

on books and resources. (They often buy all of this, but then fail to buy the one thing which they really do need – a good, easy to carry, bilingual dictionary.) But you don't need all these products to learn English. Also, if people can't afford to buy material, they tend to copy it. But the course books strictly prohibit doing this, forcing schools to make uncomfortable moral choices.

Anyway, the Talk a Lot books were always different from traditional course books, since they gave teachers tools and materials that they could use in lots of different ways to plan lessons, rather than the linear “bitty” approach that course books have, of “OK, let's do this small section, then this bit, then this bit, and then this...” Yes, late last year I tried to write some intermediate-level Talk a Lot units in the style of a traditional course book. This turned into the first eight units of the then-proposed *Talk a Lot Intermediate Book 2*. But I'm not going to continue with it. I learned a lot about laying out the pages so that the material looked appealing and engaging. I tried to include a lot of Talk a Lot-style speaking and listening activities, but I know that I ended up falling into the same trap as the standard course books fall into, i.e. creating pages of material full of exercises that could be done by an individual at home, rather than material that was suitable for speaking and listening, and pair and group work in the classroom.

But anyway, now, after working on this latest project, I've realised that I don't need to write any more Talk a Lot materials. Or even any more materials at all! You see, I have discovered the secret of teaching English without a course book – even without any materials at all. If I tell you, will you consider letting me do it in your school next year? If you will, I will come back, gladly. But if you insist on using the course book, I will stick it out on my own and just work from home. I don't care about losing income because what I'm interested in most of all is *time well spent*.

Well, I've gone this far and I've told you this much. I might as well share with you what I've discovered. I think we could use this method as a basis for all our courses next year – assuming that we are still going to work together. See what you think, M. The idea is that we don't need course books to teach English, because the students, with the teacher's guidance, can provide everything necessary for sufficient learning to take place so that they pass their exams. My new way is called, “You Are The Course Book”. The “You” means the students and the teacher together. The course book has usurped the

teacher's role in many classrooms; it's time to take back the right to teach. If the course book was the teacher, then now I'm saying to teachers and students: "You Are The Course Book" – the lesson is inside of you. In other words, it is time to bin the course book. (Don't worry, it will be out of date after a few years anyway, through planned obsolescence, while this method will not be.)

Can I sketch it out for you a little bit? (You know that you are so important to me, and I really value your opinion highly – more highly than anyone else's.)

You Are The Course Book

Teach And Learn English Without A Course Book

All You Need Is Paper And Pens (Stationery)

Allowing Students And Teachers To Finally Think For Themselves

From Dependency On Published Materials To Self-Reliance

This is a method that can be used with groups or individuals at any level from Elementary upwards, teen or adult, and with any duration of lesson. For example, if you meet the same class for four hours a week, you will probably complete one full process in that time; but if you meet an individual adult, say, for one 45 minute lesson per week, you could spend three or four weeks completing the process. The time is "rolling time" rather than "fixed time". You work on each stage for as long as you and the students want to, then move on to the next one. When the lesson finishes, you make a note of where you got to (on the *"Progress Tracker"*), and continue from that point on at the start of the next lesson. You finish the whole cycle when you finish, rather than at a pre-determined point. So far, I have used this method with teenagers in different language schools, and with adult learners (in groups and individuals) in my classroom at home. In each situation the results have been thrilling. The students are making good progress and it is exciting to observe them *thinking hard*, rather than simply "going through the motions" of the course book. As an added bonus, the time flies by in these lessons – maybe because I'm engaged in the lessons too and not clock-watching. I intend to pursue

this method and write about it the more we discover. With this method the lessons feel like a shared adventure – a journey which the teacher and student or students take together – on which, although the participants know the stages along the way, nobody quite knows what the result will be.

I turn up to the class with nothing. No course book, no teacher’s book, no CD player, no laptop, in fact no technology at all is necessary – apart from a board and pen or chalk. This is low-tech stuff! On the other hand, you *can* use technology (including that frustrating interactive whiteboard) if you have it. But it is not essential. The students should have:

- a notebook – preferably A4, lined, with pages that can be easily and neatly removed
- a pen – black or blue ink
- a dictionary – bilingual, modern, easy to carry around (compact)
- an open mind and a willingness to learn

Students should be arranged facing one another, e.g. with four to a table, like this:

rather than sitting in rows facing the teacher. Our work is student-centric, rather than teacher-centric. The teacher is a guide, not the fount of all knowledge.

I’m going to take you through how I’m using this method at the moment, but there are potentially thousands of different combinations for putting lessons together – without a course book.

We're going to travel through the seven stages of the process together:

1. Vocabulary
2. Text
3. Grammar Point
4. Verb Forms Revision
5. Pronunciation
6. Free Practice
7. Writing

So, I walk into the class with nothing, like I say. All we've got is a whiteboard and the students sitting as described above, with their pens, notebooks, and dictionaries on the desks in front of them. No one is chewing gum!

Revision and checking homework

We spend about ten minutes looking at the main points from the previous lesson, and marking homework exercises and answering any remaining questions. It may be that we have to do a short test, e.g. vocabulary or grammar at this stage too.

1. Vocabulary

I ask them for eight interesting and random content words or phrases. I write them on the board. When they give me something boring, like "table" or "student" I tell them it's boring and vanilla and I want something "interesting and random". Encourage them to go for higher level words, so instead of "happy" they could use a stronger adjective, like "delighted"; or instead of "circle" they could use a less well-known shape like "diamond". The words can be any kind of word, but they must be content words, so not prepositions or articles, and so on. An alternative is to give the students categories to work with, e.g. "a person", "a place", "a thing", "a time", "a piece of furniture", etc. Or you could ask them for eight interesting and random words beginning with... a particular letter of the alphabet. That will get them reaching for their dictionaries (which is never a bad thing). When we've got eight (you could vary the number, according to the level), we check that everybody knows what they all mean, and then I tell them to write them down in their notebooks and mark the stressed syllable in each one. We check this on the board,

and look at any other interesting features, e.g. silent letters, or aspects of connected speech.

2. Text

Then I tell them that they are going to make a text by writing one sentence each on the board* and that they must include all of these words somewhere in the text. Every student should write one sentence on the board, no matter how short. The text could be a story, a letter, a dialogue, a promotional text – anything. Maybe the students will choose the type of text randomly, or you may already have an idea of what you want to practise before you go into the class, e.g. your syllabus tells you to practise writing a formal letter.

(*If there is a laptop, the teacher could type each sentence as it is said. The student says “full stop!” when they have finished their sentence. This is especially good if you do have a projector hooked up to the laptop because the students can see the text growing on the board in front of them in typed form.)

2.1 First Draft – Getting the Initial Ideas

Each student writes their sentence and the other students can help them, but the final form should be their own. You shouldn't help or correct them at this stage, but you might guide them if they really draw a blank. When the last student comes up, remind them that they should somehow finish off the text. It goes without saying that the different sentences should complement one other and continue one after the other, rather than being separate, self-contained ideas. At this point the students have created the first draft of the text from their own ideas, using their imaginations and knowledge of English.

2.2 Second Draft – Corrections

One of the things cited in favour of the course book is the “wealth” of interesting texts, but in this method the students produce their own text. You will be amazed what true riches in terms of creativity lies inside your students waiting to be called for. When you give them a course book, you don't ask them to contribute and that creative fire remains inside. In this method *they have to do everything*. So the text is on the board, in its first draft state. I say to the students, “Can you see any mistakes here?” Everybody laughs.

Yes, of course, there are a lot of mistakes. I can usually see mistakes with verb forms, e.g. everything is in present simple, instead of a variety of verb forms, and function words (those horrible little words that fall in between the content words), so things like articles, prepositions, auxiliary verbs, and so on will be wrong. I ask the students to work in pairs and correct the mistakes. They do this and I can have a cup of tea for a few minutes... I mean, walk around the pairs guiding them and eliciting answers. Then I ask the whole group for feedback. Maybe I will pick on somebody and ask them to come to the board to make the corrections, which the rest of the board call out. I am careful to ensure that by the end of this stage the text is completely grammatically correct. I may need to guide a little more with some groups, e.g. lower-level groups, than others. However, the great thing here is that the errors (grammar, spelling, punctuation, sense, etc.) that we focus on are the ones which are most relevant to the group, because they are the mistakes that the group has made that day. In the course book the syllabus is fixed – everybody learns what is in the book at the same time, regardless of whether this is what they most need to learn at this point. In this method students are more motivated because they can see that it is *immediately beneficial* to them. As I teacher I guide them, trying to *elicit* everything from them without telling them – but telling them as a last resort. As a general rule, in this method the students should do the work, not you. You are a guide. There will usually be somebody in the group who can point out a particular error. We are activating the group's present knowledge of, among other things, English grammar, spelling, punctuation, and vocabulary – which can only be a good thing. Time well spent. When the text has been corrected I congratulate them. Usually, by now, the text is at a high standard compared to the group's normal written work – largely because the grammar is perfect. I congratulate the students on the lesson text that *they* have produced (not a bookish course book writer living in New York), but I inform them that it can still be much better; and so we move on to the third draft – improvements.

2.3 Third Draft – Improvements

It may be that the text is a bit dull and pedestrian; there may be bits that don't make sense, which can be edited out, or phrases that students want to change. Students will naturally (the first few times) write about something close to home, e.g. table, book, student, chair, etc. as vocabulary words, and sentences about going to the shop, going home, parents, family, likes and dislikes, etc. Encourage them to think outside the box. For example, if the group are trying to write a story and somebody goes to a restaurant,

make something happen there, not just that they have dinner there. What activities could occur there? What kind of story is it? What genre? Comedy, horror, romance, etc.? (Of course you could set the story's genre before you begin the lesson.) I ask students to work in pairs or small groups and set about improving the text, so after this stage the text has gone from something correct that the whole group agreed upon, to as many different texts as there are small groups (or pairs), and errors will again creep in since students are working without the teacher. However, they are working in a positive way towards a clearly defined goal. All the time the students are encouraged to see the writing process as something that can go through different stages, not simply something they dash off in one quick, error-strewn draft, while watching TV or chatting online (or both – plus playing video games) and then hand in, sometimes smeared with jam, and produced with almost zero effort or thought.

These are areas they could improve upon (you might be able to think of more):

- | | |
|-----------------------|----------------|
| 1. Title | 5. Motivations |
| 2. Vocabulary | 6. Actions |
| 3. Sentence Structure | 7. Results |
| 4. People | 8. Details |

1. TITLE

Give the text a name or title.

2. VOCABULARY

Can we replace boring everyday words with more interesting or unusual words? Use synonyms – English has a rich vocabulary! Identify the difference between everyday and interesting words, e.g. “Mercedes” is more specific, and therefore more interesting, than the generic word “car”, “timepiece” is a higher-level word than “watch”, and “a peculiar old butcher with a limp” is more intriguing for the reader than “an old man”, etc.

Students should use adjectives to describe nouns, where they can, and adverbs to describe actions, when possible too. Could we include idioms, phrasal verbs, slang, dialect words? If it's a dialogue, have we used contractions, which certainly would be used, e.g. “He's” and not “He is”, etc.? Can we use specific places and company names,

e.g. “Hotel Rembrandt”, not just “hotel”, or “Cadbury’s Dairy Milk” instead of “chocolate bar”?

3. SENTENCE STRUCTURE

It’s highly likely that students have opted to write short sentences, if only to be allowed to sit down quicker, or to minimise their chances of making mistakes. (But students must get used to other people seeing their mistakes and helping to correct them. We must foster a sense of shared empathy in the group rather than tolerating an atmosphere of competition – where students are laughed at for using an article incorrectly.) If the board is full of short sentences, albeit ones that are correct grammatically, can we not make them longer by using conjunctions (and, but, because, etc.) or relative clause words (which, that, who, whose, etc.)? Encourage students to do this. Another common mistake that will often crop up is when a student tries to join two clauses in a sentence with just a comma, instead of a dash, semi-colon, or conjunction.

4. PEOPLE

If it’s a story: who are the main characters? What are their names? What do they look like? What do they do? How do they *feel*? If it’s a letter: who is the person writing? Who are they writing to? Why? What were they doing immediately before writing the letter? What will they do afterwards? and so on. Bring the people to life.

5. MOTIVATIONS

Why do the people behave as they do? What do the people want? How do the people feel about what happens/has happened, etc.? How do they feel about their past, present, and future? What’s going on inside their heads? This is *interesting* to the reader – and you can be sure that it is interesting to the students too, who are working now without even bothering to check the clock on the wall. You aren’t clock-watching either, as you monitor each pair and group. The time is flying by! You’ll be surprised when it is nearly the end of the lesson! There won’t be enough time to finish, but you’re not concerned. Time is not an issue in this method. The process is everything. You can simply pick up again where you left off next lesson.

6. ACTIONS

If it's a short story: there could be at least four actions or main events. Of course, it depends on the length of the story. I would suggest at least eight sentences, so if you are doing this process with an individual student they need to produce at least that many sentences to make it worthwhile. What actions occur? Are the actions interesting or ordinary? Make them extraordinary rather than pedestrian! If it's a letter, there could be at least four main points (paragraphs), which follow a logical order. What has happened in the past? etc.

7. RESULTS

What are the outcomes? What happens? How does it end? Bring things to a conclusion. If it's a story: the actions should lead to a final result that affects the different characters in different ways. If it's a letter: the writer should follow the correct protocol for ending a letter, and so on.

8. DETAILS

Can we add any more details to make the text more interesting and readable? As we've already seen, using adjectives and adverbs could help, e.g. if there is a "jacket" you could make it "a smelly old jacket". If somebody "walks" to a park, they could "walk quickly" or – using an idiom instead of a plain adverb – "walk at top speed". Another example would be to use the idiom "at the stroke of midnight" to replace the vanilla phrase "at midnight".

During this time, you should be walking around checking the students and guiding them as they make their improvements. When students have done enough – maybe it is starting to drag – one person from each pair or group reads their improved story out loud to the whole group. You can correct errors verbally, or highlight a few points on the board. Don't try to catch every error now at this stage. The students – and you too – will be delighted by the huge difference now between the first draft (initial ideas) and the third draft. It really will be incredible what a difference two revisions have made!

So now we have the third draft of the text, but it will be different for each group. Nobody will check or mark this draft, but students will use it as the basis for writing their

fourth and final draft – an individual written assignment which will occur towards the end of the process.

3. Grammar Point

During the corrections and improvements stages you have been labouring various grammar points that pop up, e.g. “article before noun” and “infinitive after modal verb” etc. If you have time and feel it is necessary – or if it is part of the syllabus that you have devised – you could do a grammar presentation at this point using PPP method: presentation, practice, and production. For example you could outline on the board the use of articles, then improvise some sentences with the students based on this, then ask them to write ten (or however many) sentences of their own using articles. Or you could use a page from a grammar book or a pre-prepared worksheet at this stage, but it is not essential. One of the problems with course books is that they explain the grammar point to the students. Surely the teacher should be allowed to present grammar. It’s another job that the course book has robbed teachers of. And anyway, if teachers don’t have to present English grammar, how can they really learn it and become confident in using it themselves? By the way, yes, I did say syllabus, just now! We may not have a course book or a lesson plan – just a general outline (see “*Outline of Mode 1 and Mode 2*”), but you may want to prepare a syllabus that you and all the other teachers work to, so that you cover an agreed amount of grammar, vocabulary, and so on, during each term.

4. Verb Forms Revision

So we move on swiftly and seamlessly to the next stage in the process. I quickly write some question words on the board and ask the students to write down a question beginning with each one, where the answer is something from the text. For example, I write on the board:

WHAT	WHY
WHERE	WHICH
WHEN	HOW
WHO	DID*

and the students supply the rest of the questions, plus a short answer. For students it seems to be instinctive and they quickly grasp what they have to do. The reason for

doing this is to iron out any problems with question forms such as, “What they do in the garden?” It’s a regular opportunity to remind students about tenses – which all students struggle with – and what the form is for positive, negative, and question forms – and which auxiliary verb is used for which tense. In my opinion students can’t do this kind of work often enough. If they get bored doing it because they know all the forms, then I will know that I have done my job! The problem with course book grammar exercises, reviews, and end of unit tests is that students can get 80-90% or more when it is just gap-fill and matching questions, and it looks like they are doing really well on the course. But if you ask them another time to write a sentence in present perfect or whatever – positive, negative, and question form – they get it completely wrong. Yet their course book test results call them high-flyers.

Another activity during this stage is to give students some sentence blocks work to do (see *Talk a Lot Elementary Handbook* for full instructions), based on individual sentences from their third draft texts – work which will have the same kind of results – or to give them a Verb Forms Revision Test (see “*Verb Forms Revision Test – Blank Test*” and “*Sample Answers*”). Students need to repeat this kind of work often and in this method they can – using sentences that they have produced themselves, rather than the course book author. How much more rewarding! In the course book a verb form or grammar point may be mentioned once and then never explicitly repeated until the next level. In this method students are doing what is important, using content that comes from inside of them, rather than generic texts that are cynically designed to appeal to everybody learning English around the world, from Buenos Aires to Tokyo.

(*For some reason I have found that eight is a good number for this kind of work: eight vocabulary words, eight sentences, eight question words, and so on. Ten seems like perhaps too many, while six is not enough. Funny but true!)

5. Pronunciation

For “Pronunciation”, read “Sentence Stress” and “Connected Speech”. How many times do these vital pronunciation topics crop up in the average ESL course book? Not very often. In this method students have to learn to do both as a matter of course on a regular basis, and it is given the same prominence as everything else in the process, rather than being something exceptional that only the most eccentric teacher is allowed to wheel

out once a year. The teacher asks a few students to write a sentence from their third draft text on the board. Of course errors should be corrected straight away. The teacher elicits:

- the content words, which are underlined
- the stressed syllables, which are marked

and the whole group examines the parts of the sentence which are not stressed – the weak stressed syllable chains. What happens here? Probably contractions, elision, squeezing of sounds, reduction of vowel sounds, with Schwa sounds appearing where the vowel sounds are weak, glottal stops replacing t and d sounds, and so on. The students learn about all of this. There is more detail about teaching pronunciation in my previous book, *Talk a Lot Foundation Course*, which is also a free download.

To look at connected speech, the teacher breaks one or more of the sentences down into its syllables and elicits the sound connections from the students, e.g. is it CV, CC, VV, or the preferable VC? If we know this, we know more or less which features of connected speech to use. Do your students know what the features of connected speech are? Do you? The students practise saying each sentence and different phrases from them using stress and connected speech. This kind of information is golden, because it can be applied by the students to any sentence in English. But how often is this covered in a standard course book? There isn't room, what with all the big glossy photos, texts about life in the United States (favouring the American market), and comprehension questions. Students can't really do this kind of work at home. The classroom is the perfect place to try it, but too often we're using classroom time for silent reading.

6. Free Practice

The teacher or students can choose from a list (see "*Free Practice Activities*"), for example creating a role play or dialogue based on the situation in the text, or spend time speaking with a partner or small group using discussion questions that you or the students have made yourselves (see "*Write Your Own Discussion Questions*") – based on a topic that comes out of the text naturally. This is an opportunity for students to speak with one another freely, without anybody correcting every single mistake, but you the teacher are still walking around each group with a clipboard, pen in hand, not clock-

watching, but listening carefully, *avidly* even – guiding, and writing down mistakes, that can form the basis of a whole group feedback session on the board towards the end of this time. It’s fascinating for the teacher to see the students at work like this – and to think that this has all flowed from... nothing. You went into the class with nothing. Not even an idea for a topic. Let the students do the work and they will be happy – and make your life happier. This is also a valuable opportunity for the students to let their hair down a bit and to let off some steam after working so hard on the first five stages of the process. They might reflect on what they have achieved so far. They have learned some new vocabulary; created, corrected, and improved a short text; practised a grammar point that was pertinent and relevant to where they are on their journey learning English; they have practised verb forms that are relevant to them, which they perhaps weren’t completely 100% sure of when they came into the classroom that day; and studied sentence stress and connected speech – something which their friends at other schools seem to hardly ever or never do; and they feel quietly pleased about being able to get to grips with this pronunciation business. They have spent virtually the whole lesson working with a partner or group, or – even better – with a variety of partners and groups, and speaking in English – rather than just reading out a text from a course book (or worse, reading it in their heads during class time) and answering uninspired questions that they could just as easily have finished on their own at home (with loud music or the telly on). They have been speaking English – what they signed up to do in the first place – and yet even after all that speaking practice and pair and group work, they have still got a $\frac{3}{4}$ finished piece of written work – something that seems as if it could be pretty good. Written work that seems so much better than what they used to pass off as homework in a previous class after twenty minutes’ quick effort while chatting on Skype. *How did that happen?* They are happy. The teacher feels a weight lifting from their shoulders.

7. Writing

I give the students this last activity to do at home, as homework, but you could do it in class with them as a supervised quiet writing activity. The students take their third draft (corrected and improved) version of the text and write a final fourth draft on their own. The final draft is then handed in to the teacher and it is marked according to your normal standards for marking written work; after marking you give individual feedback to each student. There will of course still be some errors for you to correct, but the

overall standard of work should be much higher than you have previously had any right to expect from that particular student, thanks to the process of revision and the much greater level of engagement and thought that has gone into it. Of course the teacher should also push for the student to improve things like handwriting and the overall presentation of their work, as well as the content. In this process a very useful (and highly desirable, from the DOS's or language school owner's point of view) paper trail is created, showing the improvement of a student's work from its genesis as a handful of vocabulary words, through the first draft created by the whole group, the second, group-corrected draft, and the third draft (which you could get from the students if you wanted to and photocopy it for their individual files), until you finally arrive at a much more ambitious and vastly improved individual fourth draft. Meanwhile the students have been learning about how to produce a better piece of written work; not by reading a course book, but through speaking, listening, group work, pair work – and above all by *thinking* for themselves. This method really does make students think. Furthermore, they will be able to apply the techniques that they are learning by doing this process when they study again in the future.

In summary then, your students have worked hard for several hours, doing varied and enjoyable, achievable tasks; by now they rightly feel that they own their text, which makes the whole process more interesting and real to them, rather than just having read a text from another two-page spread in “the book”. Meanwhile, you the teacher have had to stay focused, but it hasn't been difficult because you have been genuinely interested in the journey that the students have been taking throughout the process. Their work and their activities based upon it has been wholly original and new – and can never be replicated. It is a one-time only process! Next time, the initial vocabulary, then text will yield something completely different. What is more, you couldn't have predicted where the students' imaginations would take the process from the opening moments of the lesson. Each lesson will be different each time, while the process remains fixed. The students have done absolutely everything themselves – with your guidance. Which is why this method is called “*You Are The Course Book*”.

Homework

Of course, students should do homework. For all I care they can do most of the course book that they've already bought as homework. I would estimate that 80% of any

leading ESL course book can be done by a student on their own in the privacy of their own home – since it is mainly reading comprehensions, listening comprehensions, and grammar exercises – so let them do it there. If you don't believe me about the 80%, maybe check your favourite course book for yourself. Or you could give the students some reading to do, and set some questions on it – or get them to write their own questions – or print out some worksheets for them to do (on englishbanana.com there are hundreds of free worksheets to download) on the topic of something from the lesson, e.g. the grammar point, or you could photocopy something else for them, or give them any other kind of task. This will feed into what they bring to the classroom next time. It may be that you will give them something to do which is part of the process, like doing the grammar, spelling, punctuation, and sense corrections of the first draft (Stage 2.2 – Corrections). Then you could check the answers with the whole group at the beginning of the next lesson, when it is time for homework to be checked in class.

Here are some notes that are higgledy-piggledy and really need writing up in a better way than I can manage now, as I write this letter, but I hope that they will support what I'm saying in some way:

- The main point is that when the teacher is engaged, the students are more likely to be engaged. Busy teacher = busy students; bored, passive teacher = bored, passive students. They take their cue from you.
- This method really does fill up the time! It answers the two all-important questions without the need for a course book: “How can I fill the lesson time?” Follow the 7 stages of this process. “What do my students need to learn?” You work on the particular language problems that they demonstrate during the lesson. Students focus on their errors (and those of their peers), rather than following a fixed syllabus in a course book.
- Students get used to helping and correcting one another's errors, rather than competing with one another.
- If this process is repeated regularly, e.g. ten times during a 40-hour course, the students will inevitably try to better their previous work, while almost automatically taking on board key elements of the process, such as how to make question forms, and how to find stress in a sentence.

- As I said before, during this process the students have to produce four separate drafts of the same piece of written work, which creates a fascinating paper trail. Some or all of those documents can be filed – either in a group folder or individual folders – and referred back to, in order to examine the progress of the group and the individual.
- What’s more, this kind of draft work is priceless for successive groups of students, because previous drafts can be used in other classes or given as homework to demonstrate errors and error-correction. As time goes on, corrected drafts can form the basis of gap-fill material in classes with other students.
- It’s a fun and fast-moving process. I believe that students enjoy this method because they do all the work. They are active and therefore time passes by quickly, but as they reflect on their work they realise that they have learned a lot.
- You will need to keep track of where each group or individual student is, so that at the start of the next lesson you can pick up from where you left off. You could use a Progress Tracker like the one I have included here. (See “*Progress Tracker*”.)
- There need be no distractions from technology, but if you do want to use it, and you have it, e.g. a laptop and printer, or a laptop and projector, or an electronic whiteboard, you can use it. The point is, though, that *you don’t need it*.
- Students are given licence by the teacher to use their imaginations – which they’ve all got. This might come as a surprise to many students when you first call upon them to unlock their creativity! And yet they are just waiting to be asked. The course book doesn’t really ask, because the course book supplies everything. It is a “comprehensive solution” and is even marketed as that. It takes away the role of creating the learning materials from the students and the teacher, and makes them dependent upon it – making more money for already-rich business people. Better to let the students produce or find their own learning material, and save the money they would have spent on course books for something else, e.g. class trips.
- The teacher grows in knowledge and confidence, e.g. in handling grammar. The teacher is able to present and must be on their toes when it comes to verb forms, and throughout the lesson as students come up against language problems, e.g.

in the free practice activity. But keeping on your toes means that you are not playing with your phone, or watching the second hand progress slowly around the clock on the wall.

- A really interesting side benefit is that you as the teacher get to find out what preoccupies your students – what they are thinking about. Their concerns will inevitably surface in the text that they produce, when their imaginations are given free rein, e.g. I had a group of weak-Elementary-level Saudi students once who, completely unprompted, produced a first draft text concerning an evil dictator and a subsequent revolution – on the moon. Yes, I said a *weak-elementary-level* group!

Are there any drawbacks to this method?

I'm not saying that this is completely perfect. I'm going to continue working on it. But I think this process is a pretty good starting point. It allows me to teach in the classroom without a course book – without getting bored. I can already hear some of your objections, of course. “What about the parents. They won't like it. They're paying for the course,” and so on. But isn't it enough to just trust your teachers? If you don't trust them, why did you hire them? Our certificates didn't print themselves, you know! We had to prove that we were able to teach when we got our CELTA or Trinity Cert. TESOL certificate, or whatever we have got. If you don't think that we can teach without a course book, you shouldn't be paying us – in my opinion. “What if the students don't like it?” Well they don't like the course book now. I'm sure most of them don't. But the majority tend to trust the course book/ exam format as blindly as you do. Let's show them a different way. Couldn't we even try it so that one 90-minute session a week we do the course book, and the other 90-minute session we do it my way? Even just for ten weeks? And then you could see the work they produce; and gather testimonials from the students and the parents – and the teachers – and see what you think. You might change your mind. I know I'm suggesting something new, but we can't go on like we are now. For example, now I don't want to work for you any more. (Yet I still hold you in high regard.)

“What if the students just mess about in class?” Well, if they do that at the moment we have a behaviour policy that they had to sign when they started that should cover it, don't we? We just use that. We do what we normally do when they misbehave. But I

think that this method will lead to less bad behaviour, since students will be more engaged. Just let me try it, please. If they throw this method back in my face, then I don't really think that I can offer them – or you – anything better at the moment. But anyway, students tend to like this process, because they are working on their mistakes, and improving. It feels relevant to them. How many lessons do students sit through and they know it all already? What is the point of being there? Or they're bored of the reading and endless matching activities and they've got their heads on the desks – falling asleep! Couldn't we try a different way? "But teachers must be trained. With your way, they must be much more adept at teaching grammar and pronunciation." Yes, I would agree with you there. Let's have better teacher training – *ongoing* teacher training! How many teachers know how to write phonetically and show the students what the different sounds are in a word? How many teachers are confident in presenting present perfect form – really know it? Doing this method they would quickly learn how to do all of this, and each time the process was repeated they would gain in confidence, but it wouldn't become boring – I don't think – because each time the students would make it different by their input – each text and each process would be wholly original and unique.

I'm going to stop now because I know I have whittled on and on and you are probably just about sick of reading this now. I'm going to stop, but I will write to you again – a bit more later on about how this method can be adapted – another version. Another mode. Mode 2. Up to now I have written about the "hardcore", "classic", or "extreme" version of this process. Mode 1 – You Are The Course Book. But there are other – perhaps more *grounded* – modes that I have identified, which I'm happy to describe to you. And I will show you, M., how we could use this method together with a syllabus that we have designed ourselves – or all the teachers have designed. I would be happy to work with you on it, if you want.

So, all the best. Thanks for listening.

As ever, your friend,

Matt

Dear M.

Hi, how are you? I will try to keep this part short because I think I've nearly told you everything, and I don't want you to get bored. I won't wait for your reply to my last letter but I will send these both together, with the supplementary notes and evidence that I'm including, because I want to get on with this missive to you and to finish it – even today finish it!

The Course Book Is All Around You

Like I said before, I have written a description of the “classic” Mode 1 process of the “You Are The Course Book” method, but there are many other possible variations with the same stages in the same order:

1. Vocabulary
2. Text
3. Grammar Point
4. Verb Forms Revision
5. Pronunciation
6. Free Practice
7. Writing

(You could even change the order, but I would recommend sticking with this way for now.) Have a look at the material I have included in this pack – the lists of activities that you could do at each stage, which start here: “*Vocabulary Activities*”. So, teachers (or students) choose one activity from each list and do them in the order given above. You could use a variety of different activities at each stage so that neither of you get bored or used to one particular way. You could choose the activities randomly, or with a particular purpose, e.g. to fit the syllabus that you have designed. Everything could be chosen to suit the level, age, and needs of your students. For example, your process, which might last for four or six lesson hours in total, could look like the following (as opposed to the “classic” method explained before):

- | | |
|------------------------|---|
| 1. Vocabulary | Focus on Idioms, which are found in the text |
| 2. Text | Dictation (of the text, or the target vocab, i.e. the idioms)
– Student to Student |
| 3. Grammar Point | Whatever you have chosen, which is demonstrated in the text |
| 4. Verb Forms Revision | Sentence Blocks – using tenses found in the text |
| 5. Pronunciation | Connected Sentence Cards – with sentences from the text |
| 6. Free Practice | Discussion Questions – about the topic in the text |
| 7. Writing | Write a formal letter connected with the text |

You can see that this version of the process is not based on the students creating a text, but rather the text comes from outside of the classroom – and from a free source. You don’t have to pay royalties to use newspaper articles, or a text from online, or song lyrics, or poems, or a letter from your bank manager (realia) in your own classroom. You are not going to publish it, but simply use it locally with your students. That’s why this variation is called: “The Course Book Is All Around You”. There’s no need to buy a course book with its expensive texts, because you can get fresher, more relevant, more interesting texts for nothing. And you could tie this process into a written syllabus. Decide how long you want to spend at each stage and then work out how many lessons you will need to get through one full process. I have included a “*Lesson Planner*” for Mode 2, which shows an imagined block of four lessons for the whole process. As you know, 90 minutes is equal to two lesson hours, so this whole process lasts for 180 minutes. In the first 90 minutes we would aim to do the following stages:

1. Vocabulary
2. Text
3. Grammar Point
4. Verb Forms Revision

and in the second 90 minutes we would complete the rest:

5. Pronunciation
6. Free Practice
7. Writing

In the second block of time, there are fewer activities because Free Practice gets more time. So with Mode 2 the teacher needs to be more disciplined and try to get through everything in 4 x 45 minute classes, including homework and class revision at the top of each 90 minute block and setting homework at the end. Or we could just use Mode 1 – the “classic” version – where time is not an issue and each stage continues until it has run its course, or the students are getting bored; where the process can happily roll over into the next lesson. With Mode 1 you don’t have to plan or prepare anything, but you do need to keep notes using the *“Progress Tracker”* (as described above). For Mode 2, which can be a syllabus-based process, the teacher *does* need to plan the class. Usually a course book negates the need to plan a class, and many online materials websites offer teachers paid memberships so that they can download materials and reduce or even eliminate planning time. They promise things like: “We make life easier for teachers!” and “All your planning worries will be over when you download our latest lesson plans!”, and so on. The problem with that is that when you don’t plan the lesson, but simply photocopy a worksheet or open the book at the beginning of the lesson, you don’t engage with the lesson and you end up feeling frustrated and switched off during the lesson that you should be a leading player in. With Mode 2 – the syllabus-based version – you *would* need to plan the lesson. For example, to be ready for the lesson as listed above you would need to find a text (or write one) that contained the idioms (the target vocabulary) that you wanted to teach. If you wished to practise a specific grammar point you would need to find a text that demonstrated that too, for example, if your syllabus required practice of, let’s say, conjunctions, you would choose a text that had plenty of good examples of using conjunctions. A “text” could also be a listening text – a

song, a conversation, a video from YouTube, whatever. There are millions of options – and all of them freely available to you – without subscription! Another benefit of this method is that you are choosing real texts, which can be absolutely up to date. You could be surfing the net while having breakfast – as you do – and find a fantastic article about something really interesting that would be perfect for one of your groups later on that day. You could print it out and begin to plan your lesson, within the 7-stage framework shown above, picking out target vocabulary, good sentences for sentence stress, possible discussion questions, ideas for role plays, and so on. It comes from you and the students. You Are The Course Book. By way of contrast, course book texts are usually *not* authentic texts – they have been commissioned and written specially for the book, or they are simplified versions of real texts from newspapers or magazines, and so on. They might be years out of date, or just completely culturally inappropriate for your students. Also, since you – or your students – have chosen the text, you have invested in the lesson from the start. You care about it and want it to succeed. It isn't something abstract, created by a jaded professional course book writer, hunched over a laptop in Bangkok or Vienna – turning out material for money. It can be to do with you and your students. It can be relevant. It can be realia, e.g. a bus timetable or an instruction leaflet. It doesn't matter, as long as it's a text. But we teachers know this already, don't we? It is what we are taught, in our teacher training – to use what is around us. And yet when we are let loose inside the classroom a course book is thrust into our hands and we are urged to: "Try and stick to the book!" But why do we need expensive course books when The Course Book Is All Around Us?

Here are a few notes on planning a sequence of lessons using Mode 2:

- Decide whether it has a grammar or vocabulary focus – or both
- Find a text (or some realia) that illustrates your point(s) – or write one
- Underline target vocabulary words and phrases that are likely to be new for your students, and which are interesting in terms of pronunciation – e.g. sounds and spelling are very different
- Prepare an activity: e.g. create a gap-fill version of the text, or prepare a dictation with a few changed words, or write some comprehension questions, etc.

- Isolate one or more sentence that gives a good example of sentence stress and/or connected speech
- Prepare a free practice activity: e.g. devise a situation for a role play, or debate, or a set of discussion questions
- Think of an appropriate kind of text that students could write – that will fit the topic of the lesson text
- Keep an eye on the clock (but not clock-watching!) – keep the pace fast-moving and try to stick to your pre-arranged timings for each stage; but don't become a slave to your lesson plan
- The format is: seven stages to the process, each with many different potential activities; the stages can be optional; you don't have to do them all in each lesson, or in the same order – it depends on the level and length of the lesson – it depends on the teacher and the needs of your students; it would be good to vary the activities each time you do the process, e.g. if your students love doing role plays, don't let them do role plays each time, but introduce them to other, perhaps more challenging activities
- Make time for teachers within the school to be able to share with one another what they have done and how it went – what worked and what really bombed. That's just sharing best practice. It's obvious to do it, but how often do we sit down as a group of teachers and talk about our teaching practice?

Assessment Methods

“What about assessment,” I hear you ask! Well, I believe that students using either of these processes – or a mix of both (e.g. one week Mode 1 – “classic” mode – and one week Mode 2, with a found text) – would be able to prepare for all of the standard ELT exams using it. No course book publisher holds a copyright on the English language. Students can succeed in assessment by using a variety of methods. It doesn't have to mean using the course book *du jour*. Of course you should be careful to ensure that students have a steady diet of “input” in the form of reading and listening from a wide range of sources, but reading is a solitary activity and can be done as homework. Listening is another activity that we can do really well on our own. Nobody can jump inside our head and comprehend and unpack something that we read or hear. Only we can do that – so why do it in class time, when we've got a precious opportunity to work

together? Homework is important in this process. I am simply arguing that time in the class should be spent doing things that can't be done as homework, i.e. speaking practice, group work, pair work, and above all enjoying and appreciating the teaching of their qualified, enthusiastic, and wonderful teacher! (By the way, we could still run all of the social and cultural activities that the students have and enjoy now. The increased level of pair and group work in this new method will really help to bring them closer together as classmates – rather than all the boring reading and answering homework-style questions that they have to do now because we're following the course book.)

I would suggest that we use the following assessment methods with either of the above processes (either YATCB or TCBI AAY – I know you love acronyms, M.):

- Before each class do 10 minutes revision of the previous class
- Regular tests, e.g. grammar, vocabulary, speaking, listening, pronunciation, etc.
- Regular homework (discussed above)
- End of “unit” tests, e.g. after 12 hours of study
- Regular one to one tutorials with the teacher
- End of course assessment, including grammar, vocabulary, speaking, listening, pronunciation, etc. (We can put these tests together ourselves. I'll help you do it!)

Commando Mode

Another form of the original YATCB method is the Commando Approach, which can be used by teachers who *have to* use a course book in their lessons – who have no choice. Like at your school at the moment! We are like slaves, following a course book that neither we nor the students like or believe in. So, Commando Approach involves working undercover and doing the YATCB process but using the course book as the raw material. For example, we follow the usual outline (or a variation of it):

1. Vocabulary
2. Text
3. Grammar Point
4. Verb Forms Revision

5. Pronunciation
6. Free Practice
7. Writing

but before the lesson the teacher has examined the two-page spread that they have to work through, and identified points like the target vocabulary, the text, the main grammar point, as well as a few sentences from the text that could be suitable for pronunciation practice. The idea is to do everything that is in the YATCB process, e.g. find the stress and vowel sounds of the vocabulary words; help the students to “discover” the text in an interactive way, rather than just reading it out loud or to themselves (it could be done as a pair dictation, for example); practise verb forms with the 8 questions technique, or with sentence blocks, and work out the sentence stress and connected speech, followed by a free practice activity from the list, and a writing task – all based on the topic of what’s in the spread. You could do some (or all) of the activities from the actual spread as well, but do them really quickly and make time for activities from the YATCB lists of activities. This gives the impression to the students (and directors of studies) that you have covered the whole spread, which you have in a way, but really you have been focused on conducting a YATCB lesson based on the material in the course book. It may be that you can do most or all of the activities in the course book, or just set some of them for homework. This way everything is covered, but you leave the classroom *having done more* than you would have done if you had only covered the 2-page spread – which usually does not provide enough material for a 90-minute class anyway. You feel more fulfilled, and so do the students, who realise that they have learned more than normal. Commando Mode is really a kind of compromise and I don’t recommend it, but it’s better than the alternative (just following the course book) and could be useful for honing your skills using YATCB activities and working methods, while slugging it out in a “sausage factory”-type role, where you have to do what you’re told and work your way through a book which you all believe to be unsatisfactory and which does not meet the needs of your students.

Using Existing Talk a Lot Materials

“What about the Talk a Lot books and all the other wonderful materials that you have already written, Matt?” I hear you asking. Well, it might have crossed your mind. You are a lovely, thoughtful person, after all. ☺ The point is that I don’t have to write any

more learning materials – and I don’t want to. I feel like I’m off the hook! Maybe I have just written myself out after writing nine course books, hundreds of different worksheets, and spending ten years doing the englishbanana.com website. Maybe I’ve exhausted everything. But it isn’t that. More to the point is that:

You Are The Course Book
and
The Course Book As All Around You

Why should I write another line when my students can do a better job at creating their own learning material than I can? How can I – or any materials writer, for that matter – compete with that fact? I can’t win out against my students’ imaginations. (Remember the Saudi students’ revolution on the moon?) Even the weakest student will be able to produce something interesting if you encourage and guide them; if you help them to get it out, to express themselves. And in Mode 2 – TCBIAAY – well, there is so much fresh and exciting material out there, which is freely available, that I can’t and don’t want to compete. I’d far rather use a real, authentic example of English than something I have specifically written for the classroom. Wouldn’t you? And I can’t write a better text than one of Shakespeare’s sonnets; I can’t write something as interesting or original as a well-written news story from an online newspaper’s website – it can be hot off the press on the day that I use it in class! So I’ve stopped trying to write more worksheets and English resource books. I don’t *need* to any more.

But yes, of course, you could still use the existing Talk a Lot materials in the classroom. Maybe you will want to use them – especially Elementary Book 1 – with real zero beginners or students who can produce very little English. Yes, they need to learn the basic vocabulary sets, like “clothes” and “food and drink”, which is what that book is useful for teaching. But you should still try to use this new method with low-level learners. Try it – you might be surprised at what they can come up with. You might have to guide them more than elementary and pre-intermediate level students, but follow the process with them and see what happens. And of course you can still use any of the materials I wrote for englishbanana.com – or materials from any other source, including course books, text books, worksheets, and so on – but as part of the 7-stage process (or for homework). For example, if I know I’m teaching past perfect tense (because it’s on

the syllabus that we've agreed on) and I've got a text which has a few instances of this, I might reach for a favourite grammar book and use some of the well thought-out activities and sample sentences from that. I'm not advocating getting rid of all books and the sum of human knowledge! I'm just saying that with Mode 1 of this process, you don't need any materials or resources. Just you and your students will be enough. Why not try it? Try it and see what I mean. While it might initially take some courage on the part of teachers and language school owners to ditch the course book, I hope you can see – after reading my long letters and the accompanying notes – how the YATCB method is just so much fresher and, well, healthy than the course book. We can compare the two ways like this: the course book is stodgy fast food or a processed TV dinner, full of additives (to make it palatable) and unnecessary ingredients, while the YATCB method is fine cuisine that you and your students have individually hand-prepared on the day, using only fresh ingredients. The processed food of the course book *can* fulfil a pressing hunger, but it doesn't satisfy you in the long run, because it's designed, like salty and sweet junk food, only to make you want to consume more. What's more – the people consuming this rubbish never learn to cook properly for themselves.

After that hastily constructed metaphor I'm going to go. But before I sign off (I have to pop to the post office now and then prepare my lessons for tomorrow) I wanted to just remind you that I've already written copious instructions on how to use the activities in the *Activity Lists*. Have a look at *Talk a Lot Elementary Handbook* or *Talk a Lot Intermediate Book 1* and you'll find comprehensive notes and instructions and resources. For example, if you haven't got a clue how to get your students building sentence blocks, you'll find everything you need to know to get them started from Section B P.2.1 of *Talk a Lot Elementary Handbook*. I'm not going to include all of that information again here – this should be a slim volume compared to those books! We've talked before about me doing a Talk a Lot Foundation Course with the students at your school. I would really recommend doing one of those before starting a YATCB course. It would be good for the other teachers at your school to do it as students first, before they teach it to their students. I know that none of them have the first idea about how native speakers use connected speech in a sentence, for example (let alone how to teach it). I'm not being funny when I say this, but how can we expect our students to learn to speak English well when we the teachers haven't got a clue what stress and connected speech are – and what we do when we speak. I'm sure most of the teachers at your school

wouldn't even know what a Schwa sound was if it hit them over the head and stole their mobile phone, never mind a glottal stop! (If I'm wrong, by the way, please prove me wrong! I'd be happy for you to do so!) Anyway, please let me run a pronunciation course (Talk a Lot Foundation Course) for the teachers here at your wonderful school, and then we can roll it out to all the groups of students. What do you think? Then we'll do lessons properly, without a course book, with YATCB and/or TCBIAAY, and I'll take you up on your kind offer to work with you again next year, and every year – happily.

Thank you, M., for reading this, and not just binning it. (I assume you have read it all through thoroughly. Several times. I'm joking now!) I sincerely mean it – you know, you are the best, the finest language school owner I have ever met – and a quite brilliant person too! I would love to work with you.

See you soon, with love from,

Matt

Supporting Material

Outline of Mode 1 and Mode 2

Mode 1: You Are The Course Book

- One process; it lasts as long as it takes; time and activities roll over into new lessons
 - 1. Vocabulary – “Interesting and random!”
 - stress
 - vowel sounds
 - other interesting features
 - 2. Text
 - 2.1 First Draft – Getting the Initial Ideas (whole group)
 - 2.2 Second Draft – Corrections (whole group)
 - Grammar
 - Spelling
 - Punctuation
 - Sense
 - 2.3 Third Draft – Improvements (pairs or small groups)
 - Title
 - Vocabulary
 - Sentence Structure
 - People
 - Motivations
 - Actions
 - Results
 - Details
 - 3. Grammar Point
 - 4. Verb Forms Revision
 - 8 Questions, e.g. What, Where, When, Who, Why, Which, How, and Auxiliary Verbs
 - Sentence Blocks
 - Verb Forms Revision Test
 - 5. Pronunciation
 - Sentence Stress
 - Connected Speech
 - 6. Free Practice
 - Choose an activity from the list on P.65
 - 7. Writing
 - 2.4 Final Draft (individual)
-

Mode 2: The Course Book Is All Around You

- Can be fixed to an agreed syllabus and timetable, e.g. 4 lesson hours for the whole process
- Choose a text that illustrates a particular grammar or vocabulary point, or both – or any teaching point
- Choose an activity for each stage from the activity lists and work through them in this order:
 1. Vocabulary
 2. Text
 3. Grammar Point
 4. Verb Forms Revision

(The process could be split in the middle after Stage 4)

 5. Pronunciation
 6. Free Practice
 7. Writing

Progress Tracker

Teacher: _____ Date: _____

Date:	Group/Individual:	Level:	Time:	Stages Completed:	Homework:

Example:

Date:	Group/Individual:	Level:	Time:	Stages Completed:	Homework:
<i>Wed 25.04</i>	<i>Piotr</i>	<i>Pre-Int</i>	<i>90 mins</i>	<i>1, 2.1, 2.2, 3, 4, 5</i>	<i>Writing: 2.3 (write third draft)</i>
<i>Fri 27.04</i>	<i>Foresters Group</i>	<i>Elementary</i>	<i>90 mins</i>	<i>1, 2.1, 2.2, 3</i>	<i>Vocab Test – Food and Drink</i>

Mode 2 – Lesson Planner

Class: _____ Level: _____

Lesson A Week: _____ Date: _____ Teacher: _____

Mins: 10	Revision of previous lesson / homework review / test
20	Vocabulary Activity: _____
20	Text Title: _____ Activity: _____
20	Grammar Point _____
20	Verb Forms Revision Activity: _____
<i>Total: 90</i>	Homework <i>e.g. exercises related to the lesson</i>

Lesson B Week: _____ Date: _____ Teacher: _____

Mins: 10	Revision of previous lesson / homework review / test
20	Pronunciation Activity: _____
40	Free Practice Activity: _____
20	Writing Activity: _____
<i>Total: 90</i>	Homework <i>e.g. finish the writing task; and/or exercises related to the lesson</i>

Vocabulary Activities

(These notes apply if you are following **Mode 2: The Course Book Is All Around You**. For **Mode 1: You Are The Course Book** follow the example given earlier in the book.)

(Note: you can find detailed instructions on how to prepare and run many of these activities in the following publications, which are both free downloads from englishbanana.com: Talk a Lot Elementary Handbook and Talk a Lot Intermediate Book 1.)

Core Activities: to be done with the vocabulary words and phrases in each lesson:

1. Write 10-20 vocabulary words and phrases on the board (the target vocabulary); the number and type will depend on the level of your group
2. Ask students if there are any new words that they don't know; they check the meaning of each word or phrase in their dictionaries
3. Students write them down in their notebooks
4. Students note how many syllables there are in each word or phrase, the word stress, and write down the stressed vowel sounds (using the NEA)
5. Note any differences between spelling and sounds, e.g. silent letters, elision, etc.
6. Discuss the class of each word and phrase, e.g. noun, main verb, adverb, idiom, etc.

Optional Activities: choose one or more per lesson, but vary them from lesson to lesson:

1. Classic Talk a Lot Vocabulary lesson:
 - describe a word or phrase for us to guess
 - put them into alphabetical order
 - memory: remember the words and phrases when they are removed
 - put the words into meaningful categories
 - compare and contrast two different items; compare two similar items
 - draw a picture of a word or phrase for us to guess
 - draw the shape of a word or phrase for us to guess
 - visualisations (see *Talk a Lot Elementary Book 3*)
2. Play the Big Word Game
3. Play Talk a Lot Bingo
4. Study dialects and accents of native English speakers (audio or video)
5. Study features of non-literal speech, e.g. metaphor, allusion, etc.
6. Practise making glottal stops
7. Practise making the Schwa sound
8. Focus on idioms
9. Work with the NEA, e.g. translate to and from the NEA
10. Focus on phrasal verbs, e.g. practise with the phrasal verbs dice game or activity cards
11. Focus on slang in English

Work that the students should do in their own time (homework):

- Learn the New English Alphabet (NEA) so that they can write words and sentences phonetically
- Learn lists of common idioms, phrasal verbs, and slang expressions
- Learn vocabulary sets, e.g. using flashcards
- Make notes about what they are learning and keep a vocabulary notebook

Text Activities

*(These notes apply if you are following **Mode 2: The Course Book Is All Around You**. For **Mode 1: You Are The Course Book** follow the example given earlier in the book.)*

(Note: you can find detailed instructions on how to prepare and run many of these activities in the following publications, which are both free downloads from englishbanana.com: 'Talk a Lot Elementary Handbook' and 'Talk a Lot Intermediate Book 1'.)

Everything flows from the text that is chosen by the teacher or students:

- | | |
|---------------------------------|--|
| 1. vocabulary words and phrases | selected from the text |
| 2. text | it's the text that you want to work with |
| 3. grammar point | illustrated by the text |
| 4. verb forms revision | students write questions based on the text |
| 5. pronunciation | whole or part sentences from the text are chosen and examined in terms of sentence stress and connected speech |
| 6. free practice | the activity flows out of the topic and ideas in the text |
| 7. writing | the activity is suggested by the text and the free practice activities |

Core Activities: to be done in each lesson:

- analyse the text for effectiveness of communication – suggest improvements
- analyse the text for errors – again, suggest improvements

Optional Activities: choose one or more per lesson, but vary them from lesson to lesson:

1. Audio lesson – listen and make notes, or listen for specific information
2. Comprehension questions / True, False, or Unknown?
3. Dictation – student to student
4. Dictation – teacher to students
5. Dictation – teacher to students, but the teacher chooses a set number of words/phrases and changes them; students have to underline the changed words/phrases and write down the new ones
6. Gap-fill with the target vocabulary
7. Information exchange
8. Puzzle pieces – cut up the text into a set number of different pieces and mix them up; students have to put them into the correct order
9. Reading race
10. Video lesson – watch and make notes, or watch for specific information

General Notes:

- The text could be chosen by the teacher or the students
- The text could be... printed text, audio, video, or realia
- The text is chosen to illustrate the target vocabulary that you want to teach, or the grammar point, or both. Or any teaching point
- The text should be interesting to the students and, where possible, an example of real English in use, e.g. from a newspaper, magazine, book, or realia
- Using a fresh, relevant text will make the lesson more interesting for teacher and students, rather than having to use the same old course book lesson after lesson
- The way of finding or approaching the text could be different for students each time they do this process, e.g. they could find the text by way of listening, watching, teacher dictation, pair dictation, reading race, cut-up pieces, or by gap-fill with the target vocabulary, and so on
- The text can be original material, i.e. copyright material, because it's only for your classroom use and will not be published or distributed further

Grammar Point Activities

*(These notes apply if you are following **Mode 2: The Course Book Is All Around You**. For **Mode 1: You Are The Course Book** follow the example given earlier in the book.)*

General Notes:

- Each process should have a grammar point, relevant to the needs of your students at that time
- The grammar point should be illustrated by the text
- The teacher could do a short presentation of the grammar point, then students have to find examples in the text. After that, if desired, the students could use an exercise from a worksheet or part of a grammar book to practise the point further; or write their own example sentences
- The grammar points could be in a particular order as determined by your own pre-written course syllabus, e.g. present simple is introduced before present continuous, and so on
- At this stage in the process you could run a short general grammar quiz based on the text, e.g. find four prepositions; an example of passive voice, etc. – whatever features of grammar the text demonstrates. The students write down the answers, or write on the board in a competition with two teams; or the teacher asks individual students for their answers

The grammar point is part of your syllabus for the course. Here is an example of a grammar syllabus for Elementary level, which could be worked through in order. (Of course, your own syllabus may be more suitable!)

Elementary Level – Grammar Syllabus – 10-Week Course:

- Week 1. learn word classes, e.g. nouns, main verbs, auxiliary verbs, adjectives, etc.
- Week 2. present simple vs. present continuous
- Week 3. articles and determiners
- Week 4. nouns 1: countable and uncountable
- Week 5. nouns 2: plural forms, this/that/these/those, quantity words, and possessive forms
- Week 6. past simple vs. present perfect
- Week 7. modal forms
- Week 8. telling the time
- Week 9. future with 'will' and 'going to'
- Week 10. first conditional

Work that the students should do in their own time (homework):

- Learn to write and pronounce the English alphabet
- Practise any grammar that they do not feel confident with by completing grammar exercises in course books, on worksheets, on CD-ROMs, and on websites

Verb Forms Revision Activities

(These notes apply to both modes – **Mode 1: You Are The Course Book** and **Mode 2: The Course Book Is All Around You.**)

(Note: you can find detailed instructions on how to run sentence block activities in the following publications, which are both free downloads from englishbanana.com: Talk a Lot Elementary Handbook and Talk a Lot Intermediate Book 1.)

These activities will be the same during both modes. Only the text will be different, i.e. in Mode 1 it will be created by the students, while in Mode 2 it will be a found text that has been chosen by either the teacher or the students. The aim is to focus on particular verb forms – which appear in the text and/or what students most need to practise at that time. For example, if students are having a hard time with present perfect form, this stage should feature plenty of practise of that form, as well as others that are proving problematic.

The teacher or the students can choose from three different activities, which should be rotated or varied each time you do the process, so that you don't get bored. (See "*My Letters to M.*" for more details about how to run them):

1. 8 Questions – Students have to write/make eight questions based on the text (where the answer is in the text) using seven question words (what, where, when, who, why, which, how) as well as an auxiliary verb to make a yes/no question, e.g. "did" or "has". They ask and answer questions, then change partners and repeat the activity
2. Sentence Blocks – normal sentence block method using sentences from the text and focusing on verb forms that you most want to practise. Students could make the blocks up to line 5 (easier way) in lower-level groups, and up to line 7 (full form) in higher-level groups
3. Verb Forms Revision Test – using the blank template (over the page), so that you can verify your students' knowledge and understanding. Students practise a set number of verb forms, e.g. four, which they are studying or have been studying. For example, at Elementary level I might choose: Present Simple, Present Continuous (and draw out the differences) and Past Simple and Present Perfect (and again, draw out the differences). Repeat this often, until the students *just know it*. Give marks out of twenty for four verb forms. I tend to be a hard marker with this test and only give a mark for a completely correct sentence. It doesn't matter whether the error is connected with the verb form or something else, e.g. punctuation. The point is that I want the students to prove that they can write a complete correct sentence (positive, negative, or question form) using a given verb form. Even a missing capital letter at the beginning or full stop at the end means no mark. No half marks! Be hard but fair!

Verb Forms Revision Test

Name: _____ Class: _____ Date: _____ Teacher: _____

Verb Form (Tense):	Time:	Auxiliary Verb(s):	Example Sentences:
			+
			-
			?
			/ 5
			+
			-
			?
			/ 5
			+
			-
			?
			/ 5
			+

Total:	/ 20
---------------	-------------

Verb Forms Revision Test – Sample Answers

Verb Form (Tense):	Time:	Auxiliary Verb(s):	Example Sentences:*
present simple	regular time	do / does	+ I like chips. - I do not like chips. ? Do you like chips?
present continuous	now <i>or</i> future (with time phrase, e.g. “at 8pm”)	am / is / are	+ I am reading a book. - I am not reading a book. ? Are you reading a book?
past simple	finished time in the past, e.g. last week	did	+ I met my friend. - I did not meet my friend. ? Did you meet your friend?
past continuous	finished time in the past, e.g. last week	was / were	+ I was driving for two hours. - I was not driving for two hours. ? Were you driving for two hours?
present perfect	unfinished time, e.g. this week	have / has	+ I have finished my breakfast. - I have not finished my breakfast. ? Have you finished your breakfast?
present perfect continuous	unfinished time, e.g. this week	have / has + been	+ I have been playing football. - I have not been playing football. ? Have you been playing football?
past perfect	time before another past action	had	+ I had been to Italy before. - I had not been to Italy before. ? Had you been to Italy before?
modal forms	various times	modal auxiliary verbs	+ I can swim. - I cannot swim. ? Can you swim?
future with ‘will’	immediate future <i>or</i> predicted future	will	+ I will pay for lunch. - I will not pay for lunch. ? Will you pay for lunch?
future with ‘going to’	planned future	am / is / are + going to	+ I am going to join a gym. - I am not going to join a gym. ? Are you going to join a gym?

*Contractions are also acceptable, e.g. *I don't like chips*, *I'm reading a book*, *I've finished my breakfast*, etc.

Pronunciation Activities

(These notes apply if you are following **Mode 2: The Course Book Is All Around You**. For **Mode 1: You Are The Course Book** follow the example given earlier in the book.)

(Note: you can find detailed instructions on how to prepare and run many of these activities in the following publications, which are free downloads from englishbanana.com: Talk a Lot Elementary Handbook, Talk a Lot Intermediate Book 1, and – in particular – Talk a Lot Foundation Course.)

Core Activities: to be done in each lesson:

- You or the students choose a sentence from the text or make one up. You could build a sentence by eliciting: Person/Thing/Place/Time
- Examine the meaning of the sentence
- Identify content and function words
- Find the stressed syllable on each content word
- Identify the vowel sound on the stressed syllable – you’ve found the sound spine (see *Talk a Lot Foundation Course* for more details)
- Examine sound connections between syllables

Optional Activities: choose one or more per lesson, but vary them from lesson to lesson:

1. Practise with the chunking technique and focus on word order (see next page for more about chunking)
2. Practise with connected sentence cards
3. Practise with a connected speech template
4. Plan a lesson about a specific part of this method, e.g. linking vv sound connections
5. Practise making cut-up NEA sentences (or use pre-made sentence cards)
6. Learn the different features of connected speech, e.g. elision, assimilation, etc.
7. Study the NEA – New English Alphabet
8. Study the IPA – International Phonetic Alphabet, which is used in many dictionaries
9. Learn about the importance of suffixes and compound nouns in pronunciation
10. Practise with Practice Page 1 from *Talk a Lot Foundation Course*
11. Examine vowel sounds and learn about how they have multiple spellings; highlight the disparity between spelling and sounds in English
12. Focus on long vowel sounds: LEARN TO LOVE LONG VOWEL SOUNDS!
Look at a sentence; find all the vowel sounds; replace the long vowel sounds with a short equivalent, e.g. “I like eating sweets!”, which should be pronounced: “Ai Lai Kee ting Sweets”, would become “A La Ki ting Swits!” Explain how this is how many students speak when they don’t use long vowel sounds – perhaps because they don’t exist in their first language

Work that the students should do in their own time (homework):

- Learn the NEA and the IPA
- Practice with the different methods of examining a sentence:
 - Connected sentence cards
 - Connected speech template
 - Practice Page 1 (from *Talk a Lot Foundation Course*)
 - Chunking method, where you break down a sentence into three or four phrases and students examine each phrase for a variety of features, including type of word, verb form, sentence stress (draw the stress pattern of a phrase), stressed vowel sounds, other sounds (e.g. Schwa sounds), sound connections, features of connected speech (e.g. glottal stops), weak forms (e.g. contractions), New English Alphabet (translate the phrase into the NEA), and so on. For example, the sentence:

She is planning to have a facelift in August.

could be broken down into the following phrases (or chunks):

she is planning to have a facelift in August

Don't put a capital letter at the beginning or a full stop at the end, as that would help the students too much!

Or you could mix up the different chunks and students have to put them back in order, e.g.

to have in August she is planning a facelift

You could do the same thing with a number of different sentences, which are all mixed up together. This is great for helping students to practise word order in a sentence, using the S.V.O.P.T order: subject, verb, object, place, and time.

Or you could present a sentence split up into phrases, then take away one phrase and ask students to fill the gap with their own phrase which could fit there, then take away more phrases from the sentence; or you take away one or more phrase and the students have to remember what was there... and so on.

she is planning to have _____ in August

What could fill the gap? "a holiday", "a meeting with her boss", "a break", and so on. As students use their imaginations, this activity helps them to practise word order, sentence structure, and the role of function words in a sentence, for example prepositions and articles – as well as stress, connected speech and everything else listed above.

Free Practice Activities

(These notes apply to both modes – **Mode 1: You Are The Course Book** and **Mode 2: The Course Book Is All Around You.**)

(Note: you can find detailed instructions on how to prepare and run many of these activities in the following publications, which are both free downloads from englishbanana.com: *Talk a Lot Elementary Handbook* and *Talk a Lot Intermediate Book 1*.)

There are no core activities – free practice will be different each time. Students work together in pairs or small groups. You should ensure that everybody has a partner or is in a group, and that everybody is participating.

Activities: choose one or more per lesson, but vary them from lesson to lesson. Note the order in this list is completely arbitrary. It doesn't matter what order you do them in your syllabus (although Activity #5 – Icebreakers would be good in the opening lesson), but remember not to repeat the same activity too often – variety is the spice of life!

1. Agree or disagree?
2. Class debate
3. Describing and comparing pictures
4. Discussion questions
5. Fun games (icebreakers – getting to know you, e.g. the Find Somebody Who... series on englishbanana.com)
6. Prepare and give a presentation – small groups
7. Prepare and give a presentation – individual
8. Questionnaire
9. Devise a role play or dialogue
10. Show and tell – bring something with you to the class and talk about it
11. What Would You Do? (See *Talk a Lot Intermediate Book 1* for full details)
12. Picture stories: put a group of pre-prepared pictures (e.g. eight or nine pictures) in order to tell a story with a given tense; or students have to draw their own stories in several different parts, then give it to another who has to put it into order and tell the story in their own words. (You could also do this activity as part of Verb Forms Revision)

Alternatively, you could devise your own free practice activity – or grab one from a resource book.

In general, during free practice activities, the teacher should be walking around each group or pair, listening, taking notes, and giving invaluable feedback – rather than popping to the toilet, having a cup of tea, or phoning the plumber to make an appointment for the following day. This is the time when you can see all the hard work that you and your students have put into the process so far really paying off, as the students activate and use what they have been learning. For example, if you hear a mistake with a tense that you've just covered in Stage 3 or 4, then you can help the student recall what you talked about. At the end of this stage the teacher facilitates a group feedback session on the board with the whole class based on the notes he or she has made. This can be a handy form of revision and a great way to sum up* the whole

process so far, including the target vocabulary from way back at the beginning, the main grammar point, and the points the class discovered about verb forms, stress, and connected speech as well.

(*Since Stage 7 will probably be given for homework, rather than done in class.)

Write Your Own Discussion Questions

It's easy to write your own discussion questions – you or your students can do it. You don't need to be a professional ESL course book writer. The same kinds of question can occur regularly:

Typical Kinds of Question:

1. Likes and Dislikes
2. Personal Opinion
3. Personal Preference
4. Description
5. Personal Experience
6. Discussion
7. Hypothetical Situation
8. Speculation about the Future
9. Vocabulary Activator
10. Personal Ability
11. Memories / Life History
12. Imagination

Students will have to speak more if they are given follow-up questions. Some useful phrases after most questions will be: “Why?”, “Can you give me some examples?” or just simply “Please tell me more about that.” Of course, students can also make up their own supplementary questions as appropriate.

1. Likes and Dislikes:

- What is your favourite...? Why?
- What is your least favourite...? Why?
- Do you enjoy...? Why? / Why not? Give reasons and examples.

2. Personal Opinion:

- What are the advantages / disadvantages of...?
- What is the biggest problem with...?
- What is the biggest / best / nicest / strongest...? (superlative adjective) Why?
- Who is the... (superlative adjective) person you know? How did you meet them?
- Is it harder to be... than...? Why? / Why not?
- In your opinion...
- Do you believe that it is right to / that...? (ethical issue) Why? / Why not?
- Do you believe in...? (ethical issue) Why? / Why not?
- How important is x ? Why? Give reasons and examples.
- Do you think that x do/does a good job? Why? / Why not? Give reasons and examples.
- Is x as good as x ? Why? / Why not? Give reasons and examples.
- Compare... Give examples.

- What are the biggest issues regarding... (e.g. global warming) today? How can we try to solve these problems?

3. Personal Preference:

- Do you prefer x or x ? Why? Give reasons and examples.
- How do you prefer to...?
- Rank (e.g. 10 things)... in order of preference / importance.

4. Description:

- Describe...
- Tell me about...
- Tell me about somebody you know / the (superlative adjective, e.g. the most interesting) person you know. Describe their typical day, etc.
- Describe... / Imagine I'm an alien who knows nothing about life on Earth. Describe to me in as much detail as possible an everyday activity, e.g. brushing your teeth or tying up your shoelaces.
- Describe a famous / amazing / expensive / magnificent (strong adjective)...
- Describe a typical day for...
- Describe a typical... in as much detail as possible.
- Describe... (something / somebody / a place / an object / a concept, etc.) in as much detail as possible.
- Define... give examples.

5. Personal Experience:

- Have you ever...? (experience)
- Do you know anyone who...?
- What do you...?
- When do you...?
- Why do you...?
- Where do you...?
- How do you usually...?
- How often do you...?
- Do you ever...?
- Do you usually...?
- When did you last...?
- What is the best / worst / other superlative adjective... you have ever...?
- When did you last...? (experience) Why... What... How... When...? etc.
- How much money / time / effort do you usually spend on...? Why? Give reasons and examples.
- What is the easiest way to...? What is the hardest way to...? Why? / Why not? Give reasons and examples.
- How do you usually feel when...?

- Have you got...? / Would you like to get? Why? / Why not? Give reasons and examples.
- Are you happy with...? Why? / Why not? Give reasons and examples.

6. Discussion:

- Discuss... Give examples.
- Tell me about... / Talk about... for one / two / three minutes, etc. Give reasons and examples.
- Controversial statement, e.g. "_____ is _____." Discuss.
- Quotation... Discuss.

7. Hypothetical Situation:

- What would you do if...?
- How would you feel if...?
- How would you... if...?
- If you had the choice, what / where / when / who / how, etc. would you...?
- How do you think ... will be different in x years' time?
- Would you like to... one day? Why? How do you think it would feel? How would you prepare for it? If not, why not?
- How important is... to you? Why? What would you do if you couldn't have it for x days / months / years / ever again? How would you feel?
- What would life be like without...? Could you live (in a world) without...? How would life be different if...? What would you do... if you no longer had...? / ...if there were no more...?
- If money were no object...?
- If you could change one thing about... what would it be?
- If you could be any kind of x in the world (e.g. animal, food, city, etc.), what would you be? Why? Imagine a typical day. What would you do? Where would you go? Why? What would be... difficult, fun, easy, frightening, (adjective), etc.?
- If you could swap bodies (places) with x for one day, what would you do? What would be... difficult, fun, easy, frightening, (adjective), etc.?
- Would you like to be a...? Why? / Why not? Give reasons and examples.
- Would you like to get involved in...? Why? / Why not? Give reasons and examples.
- If you were prime minister or president of your country (for one day / one week / one month, etc.), what changes would you make? Why? Give reasons and examples.

8. Speculation about the Future:

- What do you think x will be like in the future? Describe it. What will be positive and negative about it? Will it be generally more positive or more negative than it is now? Why? Give reasons and examples.
- Will it ever be possible to / that...? If no, why not?

- Have you ever considered doing...? Why? When are you planning to do it? If no, why not?
- Should more be done to improve x ? Why? / Why not? Give reasons and examples. What impact would it have on...? Would you or your family be affected? How would you feel? Why?

9. Vocabulary Activator:

- How many different ways can you think of to...?
- Think of x (e.g. ten) different kinds of x and put them into (these) categories...
- Tell me x (e.g. five) ways in which x could be improved. Give reasons and examples.
- What do you think of when you hear the word x ? Tell me more.
- What x (e.g. five) words come to mind when you hear the word x ? Tell me more.

10. Personal Ability:

- Can you...? Tell me about how you learned to do it.
- Can you... (ability)? When did you first...? How did you start...? How often do you...? Why do you...? etc.
- How old were you when you first learned to...? Tell me about the learning process. What obstacles did you face? Who helped you?

11. Memories / Life History:

- What do you remember about... (e.g. a specific time in the past)
- Tell me about a time when...
- Can you remember life before...? How is it different from now? Is it better or worse now? Why? Give reasons and examples.

12. Imagination Activity:

- Invent your own... (e.g. sport, car, clothes, dessert, TV channel, etc.) Consider the following elements...

Starting basic questions:

What...?

Where...?

When...?

Who...?

Why...?

Which...?

How...?

How much...?

How many...?

How often...?

Is / are...?
Did...?
Has / have...?
Can...?
Will...?

etc.

Question Sets:

If we were to choose the best questions from this list and put them into two sets with eight questions each, they might look something like the ones below. You could use these questions to discuss any topic, from Food and Drink to Farming, and from Space Travel to Free Time. In my experience, eight questions is more than enough for an individual lesson, although of course you could use more questions or fewer – as well as your own supplementary questions. Students could use the questions as starting points for writing assignments too. You could print out the lists below and give them to students to work on in pairs or small groups during the Free Practice stage; then they swap the questions they have created with another group and discuss the new questions together. Of course, then you would have a load of ready-made questions that you could give to another class another day.

Sample Question Set 1:

1. What is your favourite / least favourite...? Why?
2. What are the advantages / disadvantages of...?
3. Describe... / Imagine I'm an alien who knows nothing about life on Earth.
Describe to me in detail an everyday activity, e.g. brushing your teeth or tying up your shoelaces.
4. Have you ever...? (experience)
5. How would you feel if...?
6. Will it ever be possible to / that...? If no, why not?
7. How many different ways can you think of to...?
8. Can you... (ability)? When did you first...? How did you start...? Why do you...?

Sample Question Set 2:

1. Do you believe that it is right to / that...? (ethical issue) Why? / Why not?
2. Rank (e.g. 10 things)... in order of preference / importance.
3. Describe a typical day for...
4. When did you last...? (experience) Why... What... How... When...? etc.
5. What would life be like without...? Could you live (in a world) without...? How would life be different if...? What would you do... if you no longer had...? / ...if there were no more...?
6. What five words come to mind when you hear the word *x*? Tell me more.
7. Tell me about a time when...
8. Invent your own... (e.g. sport, car, clothes, dessert, TV channel, etc.) Consider the following elements...

Writing Activities

*(These notes apply if you are following **Mode 2: The Course Book Is All Around You**. For **Mode 1: You Are The Course Book** follow the example given earlier in the book.)*

You could choose from these options (or your own); or just do whatever matches the text:

1. Make a **written record** of their role play or dialogue from the Free Practice stage
2. Write a **particular kind of text** (see below)
3. Write a **description**: of a place, person, activity, object, feeling, product, event, emotion, etc.
4. Write for a **particular purpose**, e.g. to thank / complain / compliment / request / inform, etc.

General Notes:

- The writing stage could be done in class, or given as homework. It should be marked by the teacher with errors clearly indicated so that students can find out where they have gone wrong, and try to learn from their mistakes next time. You could use codes to show errors, e.g.

G (grammar)

SP (spelling)

P (punctuation)

^ (something is missing)

WO (word order)

WW (wrong word)

? (doesn't make sense)

H (hard to read handwriting)

- During a course students should practise writing a variety of different kinds of text – not just a short story every time (but see below for more about basic story plots)
- The length will be dictated by the level, e.g. at elementary level 70 words could be enough, while at intermediate level students should write at least 150 words, and so on
- You should standardise writing paper and style, e.g. written work should be done using black or blue ink only, on a particular type of lined writing paper (you could use the template provided), as well as double spaced, which will give you space to write in the marking codes – i.e. in between the lines

Different kinds of text –

Text:

Examples of writing assignments that students could do:

article

newspaper, magazine, online, offline

email

formal, informal, complaint, advice, suggestion

essay

academic, magazine, newspaper (broadsheet / tabloid)

form

application form, government form

historical	document from a specific period of time or event
instructional	how to do something
leaflet / brochure	promotional, information, guidance
letter	formal, informal, thank you, invitation, good / bad news
poem	traditional, modern, sonnet, song (rock / pop / R&B / blues / folk)
promotional	advert, leaflet, brochure
recipe	starter, main course, dessert, drinks
report	business, newspaper, financial
review	book, film, TV show, exhibition, event, food, sports
script	TV, radio, film, play
short story	comedy, drama, romance, horror, action, real life, war, sci-fi, western
social network	status update, profile, tweet, messages
text message	urgent, joking, banal, informative, angry
and so on...	

Seven Plots:

If your students love writing short stories, you could add variety by encouraging them to write stories from various different genres (see above) and with different kinds of plot. It is said that there are only seven plots in literature, and your students could choose from one of these – or write a story for each plot. The seven plots are:

1. The quest
2. Voyage and return
3. Rebirth
4. Comedy
5. Tragedy
6. Overcoming the monster
7. Rags to riches

(Source: http://wiki.answers.com/Q/What_are_the_seven_types_of_stories_in_the_world)

Another take on this was devised by Sir Arthur Thomas Quiller-Couch, who listed the basic recurring plot types like this:

- person against person
- person against nature
- person against him- or herself
- person against God
- person against society
- person caught in the middle
- man and woman

(Source: <http://lenwilson.us/seven-stories/>)

You Are The Course Book

Who's it aimed at?

Teachers who are sick of using ESL course books.

What can I get out of it?

Learn how to teach English without a course book.

Who's written it?

Matt Purland.

Why did he write it?

Because he's had enough of using ESL course books. He's sick of them. But he's also part of the problem, having written hundreds of pages of material for teachers, including all the popular *Talk a Lot* books, available from <http://www.englishbanana.com>

Er, so is this his last book?

Well, he hopes he won't need to write any more books of teaching material, that's for sure!

Why not?

Because: You Are The Course Book. And what is more – The Course Book Is All Around You.

Er, what?

Read this book.

English Banana.com Free Copying Licence

“There is no wealth but life.” – John Ruskin (1819-1900)

Quick Summary:

You may download, print, copy, sell, and distribute English Banana.com materials, without paying anything.

Definition of Terms:

This licence is effective from 7th December 2008, and replaces all existing statements and notices regarding copyright and copying of English Banana.com materials. It applies to all English Banana.com materials.

“English Banana.com materials” means: worksheets, MP3s, video files, books, CD-ROMs, and any other file or product that has been created and published by English Banana.com, that exists either on its website server (www.englishbanana.com) or offline, including digital versions (e.g. a .pdf file) as well as physical copies (e.g. a workbook copy of the Big Grammar Book, or a CD-ROM).

Who May Use this Licence?

This licence applies to anybody who wishes to use English Banana.com materials.

Free Copying Licence:

1. You may download, print, copy, and distribute English Banana.com materials.
2. You may sell English Banana.com materials to make a profit.
3. You may distribute English Banana.com materials for free.
4. You may put English Banana.com materials on a website.
5. You may put English Banana.com materials on an intranet server.
6. You may adapt English Banana.com materials.
7. You may remove the English Banana.com name and logo from the materials, or replace it with your own.
8. You may produce plays or films using English Banana.com materials.

This is a free licence:

- You don't have to pay English Banana.com any royalties or fees.
- You don't have to credit English Banana.com as the originator of the materials.
- You don't have to contact us before using this licence, or apply for further permission, although if you do tell us how you are using it, we may be able to help you by publicising your initiative on English Banana.com.

In short, if you can use English Banana.com materials in any way, this licence gives you permission to use them.

There is only one restriction:

You may not claim copyright to original English Banana.com materials. International copyright for English Banana.com materials belongs to Matt Purland/English Banana.com 2002-2012.

Talk a Lot

Clear Alphabet Dictionary

Introduction

What is this book?

Wo ti zthi Sbuuk?

The Clear Alphabet Dictionary is a tool to enable students of English to learn new phonetic Clear Alphabet, so that they can use it confidently as a means to read, write, and understand the sounds of English – and as a result to pronounce words and sentences better. It is a tool that enables teachers to explain the relationship between spelling and sounds at word level, and connected speech at sentence and text level. If you are using *You Are The Course Book* method, the material in this book can be used at Stage 1 (Vocabulary) and Stage 5 (Pronunciation) of Modes 1 and 2. It could also be used with students who are studying *Talk a Lot Foundation Course*.

In the first part you can learn the 48 sounds of English and their corresponding written IDs (identifiers). For example, the vowel sound in “cheese” and “meal” is always written as ee in the Clear Alphabet. The second part is more like a traditional dictionary, with a word list of over two thousand common words and phrases – including all of the discussion words from *Talk a Lot Elementary Books 1-3* and *Intermediate Book 1*. Following this is a reduced word list of 400 Elementary-level words, which can be used with students who are new to the Clear Alphabet. The third part contain special topics relating to using the Clear Alphabet, including Silent Letters, Homophones, and Hidden Sounds. The fourth part has some examples of worksheets for use in class to learn the Clear Alphabet. The last two parts of book contain useful related material from *Talk a Lot Foundation Course* and *Talk a Lot Elementary Handbook*.

What is the Clear Alphabet?

Wo ti zth Kliy Ral f bet?

The Clear Alphabet is a modern phonetic English alphabet which uses the normal Roman alphabet, rather than symbols, to show the sounds of English. Each of the 48 sounds of English has one ID (identifier) in the Clear Alphabet, which is always written the same. (See Clear Alphabet Chart on p.17.) This allows us to write the sounds of English, rather than the normal spelling, which is often very different from the sounds. It also allows us to write full sentences and whole texts which show connected speech in action – the process where words merge together as we speak. It enables us to represent speech in written form clearly, showing syllables, stressed syllables, features of connected speech, and other elements of speech such as schwa sounds, glottal stops, silent letters, and hidden sounds, which are usually missing from written texts.

Why bother learning the Clear Alphabet?

Wai Bo th Ler ning th Kliy Ral f bet?

If students and teachers learn the Clear Alphabet they will be able to:

- Improve understanding and use of the differences between spelling and sounds in an English word, e.g.

normal spelling: Clear Alphabet spelling:

ask Arsk
car Kar

For more fun worksheets, games, and quizzes log onto englishbanana.com now!

Talk a Lot

Clear Alphabet Dictionary

Introduction

heart Hart

- Improve understanding and use of pronunciation, including the use of the schwa sound and glottal stops

normal spelling: Clear Alphabet spelling:

appointment uh Poy_n_ mnt (schwa sound indicated by uh ; glottal stop indicated by _)

- Improve understanding and use of connected speech – including identifying the stressed syllables in a sentence – leading to improved listening skills through the knowledge of how native speakers of English actually speak

Normal spelling – not representative of speech:

I don't like living in a small flat.

Clear Alphabet spelling – showing connected speech, stressed syllables (capitalised), schwa sounds, glottal stops, and normal punctuation.

ai Deun_ Lai Kli ving i n Smorl Flat.

How is it different from the IPA (International Phonetic Alphabet)?

Hau wi zi_ Di frn_ frm thii yai pii Yei (in t Na shnl f Ne ti Kal f bet)?

The main difference is that the Clear Alphabet uses the Roman alphabet – the normal a-z that everybody already knows, rather than obscure symbols. This means that the Clear Alphabet can be transmitted via a normal keyboard – by computer, tablet, or phone – without a special font. While it is difficult (although not impossible) to create and share text in the IPA via digital means, it is much easier to do so with the Clear Alphabet.

From *Talk a Lot Foundation Course*¹:

[The Clear Alphabet is] a new alphabet for the English language, which is similar to the IPA in that it enables the reader to see all the phonemes (sounds) contained in each word. However, unlike the IPA, [the Clear Alphabet] uses the more familiar Roman alphabet – a, b, c, etc. – and allows the reader to see the stressed syllable in a word as well as the connections between syllables and words. Each of the 48 sounds of English has its own written ID (identifier).

e.g. the “a” sound in “cake” is always written as ei – Keik

In normal spelling this sound can be written in different ways, but with [the Clear Alphabet] it always looks the same: ei

¹ Note: in *Talk a Lot Foundation Course*, the Clear Alphabet is referred to as the New English Alphabet (NEA)

For more fun worksheets, games, and quizzes log onto englishbanana.com now!

Talk a Lot

Clear Alphabet Dictionary

Introduction

e.g. make = Meik, day = Dei, change = Cheinj, etc.

Is the Clear Alphabet better than the IPA? i zth Kliy Ral f be_ Be t thn thii Yai pii yei?

From *Talk a Lot Foundation Course*:

The current IPA (International Phonetic Alphabet) was invented in the nineteenth century by French and British linguists. The IPA can be helpful in some situations, for example if a student takes the time to learn it they will be able to accurately pronounce any word in the dictionary. When teaching language – and especially pronunciation – we do need a way of representing sounds on a page, but the current IPA is no longer fit for purpose in the Digital Age, because it cannot be easily reproduced on a keyboard or mobile phone keypad. Just try sharing a document that uses IPA symbols and you will see what I mean. Everybody needs to buy a new font – which does not happen. So we need a new phonetic way of writing. Another problem with the IPA is that students have to learn a whole new alphabet of around fifty new characters. Students are often put off by the unfamiliar and exotic-looking symbols that they have to learn, which only adds an extra burden for students – especially those whose first language does not always use the Roman alphabet, e.g. those whose first language is Arabic, Russian, Chinese, etc. They already have to learn one new alphabet to learn English; then we try to add a second. It's no wonder the IPA is put on the back burner.

For example, let's compare this earlier sentence in the Clear Alphabet with its equivalent in the IPA:

Normal spelling:

I don't like living in a small flat.

Clear Alphabet spelling:

ai Deun_ Lai Kli ving i n Smorl Flat.

IPA spelling:

/aɪ'deun? 'laɪ'kli.vɪŋ.ɪ.n'smɔ:l'flæt/

While Clear Alphabet spelling takes some learning and getting used to, it is far easier and more intuitive to learn than the IPA because the letters are already familiar, and has the added bonus of showing the stressed syllables – the all-important sound spine – as well as normal punctuation marks.

Is the Clear Alphabet a replacement for the current Roman alphabet?

i zth Kliy Ral f be t r Plei smn_ f th Ku rn_ Reu m Nal f bet?

For more fun worksheets, games, and quizzes log onto englishbanana.com now!

Talk a Lot

Clear Alphabet Dictionary

Introduction

In *Talk a Lot Foundation Course I* have argued that, yes, it could be:

We need a new written English alphabet. The old one (a, b, c, etc.) is not fit for purpose because it doesn't contain enough letters (especially vowel letters) to adequately represent all of the 48 sounds of English. We cannot write phonetically – as we speak – with this alphabet. It allows us to write words, but we speak syllable by syllable, not word by word. It doesn't show stressed syllables, but it is vital for us to know which syllables are stressed. It doesn't show the "hidden" features of spoken English – schwas and glottal stops – but if we don't use these features our pronunciation will be much worse, and communication will be reduced.

The old written alphabet has 26 letters – but there are 48 sounds in English.

The old written alphabet has 5 vowel letters – but there are 23 different vowel sounds in English.

[The Clear Alphabet] provides the remedy to both problems, because it allows us to write phonetically, representing the sounds we make when we speak. It is a true alphabet. It also clearly shows individual syllables, stressed syllables, schwas, and glottal stops.

How many words are there in the dictionary – and how were they chosen?

Hau Me nii Wer dz th rin th Di kshn rii – yn Hau w thei Cheu zn?

The dictionary contains just over 2,000 common words and phrases, so it is not intended to be an exhaustive dictionary along the lines of a major English dictionary. Also, there are no definitions – just words in the Clear Alphabet and in normal spelling. However, the dictionary certainly contains enough terms for anyone to be able to understand and learn how the Clear Alphabet works and how it can be used to represent sounds in a word or sentence. The terms were chosen from a wide range of sources, with the focus on high-frequency words:

- Talk a Lot Elementary Books 1-3
 - Talk a Lot Intermediate Book 1
 - Oxford English Dictionary Corpus
 - The Dolch Basic Site Vocabulary
 - Top 20 Phrasal Verbs
 - Big Grammar Book
 - ...Words You Must Know (series)
- discussion words and sentence block verbs
discussion words, sentence block verbs, and a selection of common idioms & slang terms
top 100 words in written English²

Learn the Clear Alphabet

Talk a Lot

Clear Alphabet Dictionary

Clear Alphabet – 48 Phonemes (Individual Sounds)

23 vowel sounds: 8 short 5 long 10 diphthongs | 25 consonant sounds: 15 voiced 10 unvoiced

Each phoneme always has the same written identifier (ID). Letters not used from the old alphabet: c, q, x
When pronounced on their own, all consonant sounds (including unvoiced) are followed by a schwa sound, e.g. 7. buh. This is called an **embedded schwa sound**. Hear the sounds: <http://tinyurl.com/nea-sounds>

No.	Phonemic ID	Old IPA Symbol	Old Spelling	New Spelling	Type
1.	a	/æ/	bat	Bat	v / s
2.	ai	/aɪ/	time	Taim	d

Key – v = vowel sound: s = short l = long d = diphthong | c = consonant sound: v = voiced u = unvoiced

Talk a Lot

Clear Alphabet Dictionary

Learn the Clear Alphabet with Flashcards

Students can use the flashcards on pp.20-29 for learning and memorising the forty-eight sounds of English with the Clear Alphabet. The aim is to know the sounds by heart, so that they can look at any of the Clear Alphabet IDs (identifiers) on their own and say the sound straight away.

Instructions

1. Print the pages back to back onto thin card, in the following order:
 - print pages 20 and 21 back to back
 - print pages 22 and 23 back to back
 - print pages 24 and 25 back to back
 - print pages 26 and 27 back to back
 - print pages 28 and 29 back to back
2. Cut out the cards and laminate them, if possible, for extra durability.
3. For students: use the cards to learn the sounds by quickly testing yourself in spare minutes of the day, e.g. on the bus, at lunchtime, when you're watching TV, etc.
4. For teachers: use the cards to test your class for a short period of time every day, just to keep the identifiers and sounds in your students' minds, or give a set of cards to each student and encourage them to practise in pairs or small groups. You could use some or all of the activities below.

Key to Abbreviations

v / s	= short vowel sound
v / l	= long vowel sound
d	= diphthong
c / v	= voiced consonant (i.e. your vocal cords vibrate when you make it; feel your throat as you make a sound to find out whether it's voiced or not; if it vibrates, it is voiced!)
c / u	= unvoiced consonant (your vocal cords don't vibrate when you make this kind of sound)

Note: it's well worth getting students to learn the Clear Alphabet sounds with an extra layer of detail, so that they learn the concepts above. For example, that *e* isn't only a vowel sound, but that it's a *short* vowel sound; or that *n* isn't only a consonant sound, but it's a *voiced* consonant sound that makes your vocal cords vibrate – and also a friendly consonant sound.

Suggested Classroom Activities

I made my own flashcards like these to learn and memorise which sound each symbol of the IPA represented, when I was training to be an English teacher more than twelve years ago, but there are lots of other ways in which you could use them beyond simply learning quietly at home:

- a) Put all of the cards on the table – simple side up – in front of your students. Say a sound, and the first to find the correct card is the winner. Or, say “voiced consonant” or “long vowel sound”, etc. (as above) and the first to find one is the winner.

Talk a Lot

Clear Alphabet Dictionary

Learn the Clear Alphabet with Flashcards

- b) Show a card with a sound on it and students have to say a word each that includes this sound.
- c) Students have to put several of the cards in order to make a simple word, e.g. "cat" =

- d) Or you could ask students to spell out their first name, or the make of their car, or their first pet's name, etc., or one (or more) of any current vocabulary word or phrase, using the cards. You may need a few sets of cards to be able to do this.
- e) Try this fun game for two students working in a pair (it could also be adapted for two small groups battling each other). Each student has half the cards from the set. They hold them in their hands in a (shuffled) pack so that the other student can't see which cards they've got. The first student produces the first card and their partner has ten seconds (or five, if your group is at a good level!) to say an English word that contains that sound. If they are correct they get the card, and put it in a separate pile from the pack in their hands. If they are wrong, or can't think of a word, the original student gets to keep the card, again putting it in a separate pile. Play alternates between the two students and continues until the students don't have any cards left in their hands. The winner will be the student with the most cards at the end of the game (or at the end of an agreed period of time, e.g. fifteen minutes). A variation to make the game harder would be to insist on two words (or more) for each sound, or to get the students to write the words using the Clear Alphabet, as well as saying them.
- f) Use the rhyming words listed on pp.30-40 to demonstrate how the same sounds in English can be achieved with very different spelling patterns. See also the information on Vowel Clusters (from p.203) and Consonant Clusters (from p.217) later in the dictionary. You could make the important point that English is not a phonetic language, and that the spelling of a word in English often bears little or no relation to the sounds that it contains.
- g) Or use the rhyming words to get students saying lots of words with the same vowel sound out loud. You could even get them to write sentences using as many words which have the same vowel sound in them as possible, for example:

Sound: ee

Sentence: "Pete's feet feel the need for speed each week."

or:

Sound: ei

Sentence: "Jane's Danish mate made it plain that her place in Spain was a waste of space."

Why not collect together the funniest or longest sentences and make a classroom display, or book, or better still, email them to us at EnglishBanana.com so that we can put them on the Talk a Lot pages! Similarly, you will doubtless find lots more new ways for using these flashcards. If you would like to share them with other teachers and students, please do email them to us and tell us what worked for you.

Learn the Sounds of English with the Clear Alphabet – Sample Lesson Plan

<u>Activity Type:</u>	Introduction to the sounds of English with the Clear Alphabet
<u>Level:</u>	Elementary – Pre-Intermediate
<u>Skills:</u>	Speaking & Listening; Pronunciation
<u>Class Size:</u>	Whole group lesson, e.g. ten students in a group
<u>Time:</u>	1 hour
<u>Aim:</u>	To introduce the sounds of English with the Clear Alphabet; to lay the foundations for further study with the Clear Alphabet
<u>Materials:</u>	x1 Clear Alphabet chart handout (p.17) per student, whiteboard and pens; students have their notebooks and pens

Note: this lesson focuses on teaching the vowel sounds of English, with only a little focus on the consonant sounds. This is because most of the consonant sounds can be guessed at, because they are encountered in English already (e.g. g , t , d , etc.). The vowel sounds are more difficult to learn from scratch, so we spend more time with them during this lesson, although we do also look at some of the stranger-looking consonant sounds (e.g. ng , tt , zz , etc.) towards the end of the lesson.

Procedure:

1. Give out the handouts as students come into the class. This gives them time to look at them, comment (e.g. "On no!"), and get ready for the lesson.
2. Tell students that you're going to learn the sounds of English with the Clear Alphabet. Write on the board:

Vowel sounds

Your language: ____

English: ____

Elicit how many vowel sounds there are in your students' first language (or different students' first languages for mixed nationality groups), and write it on the board. Make sure you know that answer before the lesson, e.g. in Polish there are 8 vowel sounds. Elicit from students how many vowel sounds there are in English (23). No doubt they will be surprised at the disparity between the two numbers. In English there are a lot of vowel sounds! Explain that lack of knowledge of English vowel sounds causes many mistakes in pronunciation.

3. Explain why you are doing this activity today. When I did this, I read a short text in Polish (which my friend helped me to write, because I'm an elementary rather than fluent Polish speaker). The text helped the students to understand the aims of the lesson. It went something like this (in Polish):

Talk a Lot

Clear Alphabet Dictionary

Learn the Sounds of English with the Clear Alphabet – Sample Lesson Plan

“If you know the phonetic alphabet, you know how to pronounce words. This alphabet gives you power. Power!”

(Here I emphasised the word “power” (“moc”) in Polish for comic effect, as well as to make my point: **“Da wam moc! Moc!” – “Gives you power! Power!”**)

“You will be able to speak better in English. Polish is a phonetic language. In general, you write like you speak.”

(Here I stopped to emphasise this important concept. I pointed out that, for example *“The letter ‘a’ in Polish is always pronounced a , and the letter ‘o’ in Polish is always pronounced o . Pronunciation in Polish is generally easier than in English.”* The students agreed. I asked them in Polish: “Is English a phonetic language?” The students grimaced and shook their heads, laughing, because no, of course English is most definitely **not** a phonetic language!)

“English is not a phonetic language. We write differently to how we speak.”

(I illustrated this by writing the following words on the board: “my”, “high”, “pie” and eliciting the pronunciations. I wrote each word phonetically and explained that in the dictionary there are two spellings for each word. The normal spelling is usually no help at all for working out the sound of the word. By contrast, the phonetic spelling gives us the sound of the word. You could use more examples to show that although English words can have exactly the same sounds, the spellings can be completely different. Students sometimes ask why this is, but the lesson’s too short to go into the answer in much detail, although you could explain that English has developed from many different languages over hundreds of years, which has helped to push spellings and sounds apart.)

different spellings:	same vowel sound:
my	mai
high	Hai
pie	Pai

4. Once everybody understands why they’re doing the lesson, write on the board:

8 short vowel sounds | 5 long vowel sounds | 10 diphthongs

Drill each group of sounds in turn. I asked my students to listen, repeat, and write notes. I read each sound loudly and clearly four times, with students repeating each time, and writing down notes about each sound to help them remember it. They were able to use letters from Polish to represent each sound. Give a good, clear model of each sound, or use the .mp3 file from the Talk a Lot website as your classroom model: <http://tinyurl.com/nea-sounds> Use examples of words that contain each sound, e.g. the ones on the handout, or different words that your students will know.

Talk a Lot

Clear Alphabet Dictionary

Learn the Sounds of English with the Clear Alphabet – Sample Lesson Plan

Highlight sounds that are the same in your students' first language and in English. For example, the sound *o* is the same in Polish and in English. In English, the pronunciation *Sok* means "sock", that we wear on a foot, whilst in Polish *Sok* means "juice" that we drink from a bottle. Let your students have fun and enjoy making the sounds, which may be new for many of them. My Polish students love saying the long vowel sounds, or the guttural grunt *schwa uh* (that comes from the belly), and the classroom is filled with laughter, as well as the vowel sounds of English!

5. Explain that diphthongs are "double sounds" or two sounds together. For example:

e + i = ei

Encourage students to try saying the two sounds together, getting quicker and quicker until they arrive at the diphthong *ei*. Show students how the mouth has to move when pronouncing a diphthong – changing from the first position (for the first sound) to the second position (for the second sound). Spoken English is a work-out for the mouth and tongue!

6. After modelling and drilling short vowel sounds, long vowel sounds, and diphthongs, go back to the beginning and ask your students to listen and repeat each sound (about four times). Here you may be able to spot some errors in speaking the sounds, that you can correct straightaway.

7. At this point I always stop and congratulate the group: "Well done! You can do it. You see, you **can** make all of the vowel sounds in English. You don't need to use all of these sounds in your language, but you **do** need to use them all in English."

8. Spend a few minutes looking at the consonant sounds. Explain that it is most important to be able to recognise the vowel sounds, because they are what cause the most confusion and the greatest number of errors in pronunciation. Elicit from students – by saying them out loud with them – that consonant sounds are either voiced (with voice) or unvoiced (without voice). Almost all of the consonant sound IDs look exactly how students would expect them to (unlike with the IPA), whilst a few are different and need closer attention:

- *22 consonant sound IDs that students are likely to know and recognise already:*

b, ch, d, f, g, h, j, k, l, m, n, ng, p, r, s, sh, t, th, v, w, y, & z

- *3 consonant sounds that look different from how we expect, and need extra study:*

tt, zz, hh

9. Take general feedback from students and answer any questions they might have. There's been a lot to take in! Explain that this lesson is only an **introduction**, that they're not expected to learn all forty-eight sounds of English in one hour, and that you will continue to look at the sounds of English with the Clear Alphabet throughout the course – for example, using activities from this dictionary (see from p.47). Perhaps give out one set of flashcards to each student so that they can learn the sounds at home (see pp.20-29). You could also create your own tests to check students' progress (see Sample Test on p.44).

[This article was adapted from *Talk a Lot Elementary Handbook*.]

Clear Alphabet Dictionary

Clear Alphabet Test (Sample)

1. Write your first name using the Clear Alphabet: _____

2. Write two words in English that contain the same vowel sound:

a) i _____
b) a _____

3. Write two words in English that contain the same diphthong:

a) ei _____
b) eir _____

4. Write two words in English that contain the same consonant sound:

a) tt _____
b) ch _____

5. Translate the following sentences into English:

a) n Ta sh Du zn_ Won_ e nii So s jz.

b) ai Nee d Ku p l Vnyoo Sher_z

6. Write the following sentences using the Clear Alphabet:

a) Can I have a drink, please? _____

b) My brother's name is Phil. _____

c) He wants me to go to the theatre. _____

d) There isn't any coffee. _____

7. Write these words in your first language, then (where possible) translate the results into the Clear Alphabet:

a) bread _____

b) newspaper _____

c) friend _____

d) shoulder _____

Clear Alphabet Dictionary

Talk a Lot

Clear Alphabet Dictionary

Classroom Activities for Learning the Clear Alphabet

Here are some classroom activities for learning the Clear Alphabet. Simply choose a handful to build your pronunciation lesson. Of course, you could also use your own ideas and activities with the Clear Alphabet. The activities fall into the following categories:

1. Translation
2. Vowel Sounds
3. Schwa Sound
4. Consonant Sounds
5. Connected Speech
6. Syllable Focus
7. Sound Focus
8. Word Focus

1. Translation

- Translate words and phrases (items) into English, e.g. one page, one column, or a fixed number. For lower-level learners: use the reduced list of 400 Elementary Words (from p.140), or the even shorter list of 100 Basic Words with the Clear Alphabet (p.185).
- Say a word or phrase – your partner writes it with the Clear Alphabet; they say one – you write it with the Clear Alphabet.
- Translate words into your first language, e.g. one column or one page.

2. Vowel Sounds

- Choose an item and sound out loud each phoneme (sound) in each syllable; then sound out loud each syllable separately; then say the item. Pay particular attention to stressing the stressed vowel sound.
- Circle the stressed vowel sound in an item written in the Clear Alphabet.
- Identify the stressed vowel sounds in one set of items (e.g. one page) and put them into groups. Which sounds occur most/least frequently? How many are long or short? Focus on learning the most common vowel sounds.
- Which vowel letters are most often reduced when we speak? Tip: look at the weak stressed syllables in a group of words and identify where sounds have been reduced, e.g. “to” is often pronounced *t* in a sentence, meaning that the *oo* sound has been reduced, and “for” is often pronounced *f* in a sentence, meaning that the *or* sound has been reduced.
- Find *x* (5, 10, 20, or whatever) examples of assonance – words and phrases that have the same vowel sounds (stressed or not). This could be with a pair or group of words, e.g. “hair” and “wear” both share the same vowel sound: *air* . Or it could be within the same word or phrase, e.g. the word “expensive” has two *e* sounds: *e* *Kspen* *siv* , while the phrase “fruit juice” has two *oo* sounds: *Froo_* *Joos* .
- Find *x* items which have sounds from a particular vowel sound group: short, long, or diphthong.
- Find *x* items that have a stressed vowel sound which also appears in another syllable in the same item, e.g.

roundabout
steering wheel

Raun d baut
Stiy ring wiy!

Talk a Lot

Clear Alphabet Dictionary

Classroom Activities for Learning the Clear Alphabet

Wi-Fi **Wai fai**
work experience wer k Kspiy riyns

- Using a given set of items, make groups of words which have the same vowel clusters in the normal spelling, then match them with their Clear Alphabet counterparts. Emphasise the point that while vowel clusters in the Roman alphabet vary wildly – with sometimes many different spellings for the same sounds – each sound always looks the same in the Clear Alphabet:

Clear Alphabet spelling: er

Some of the vowel clusters used to represent this sound in the Roman alphabet:

her, stir, fur, learn, world, earl, purr, whirr, were, burgh, etc.

The section *Rhyming Words – Vowel Sounds and Diphthongs* on pp.30-40 will be useful for this. See also from p.203 for more about vowel clusters.

- Challenge SS to find words which are comprised completely of one vowel sound, e.g. I, are, hour, etc. There are 9 of this kind of word in the dictionary:

a	uh
air	Eir
are	ar
ear	Iy
eye	Ai
hour	Auw
I	ai
or	or
owe	Eu

3. Schwa Sound

- Find *x* items that have a schwa sound (either the visible uh , or an invisible embedded schwa sound) and practise pronouncing them – paying particular attention to the schwa sound.
- Look for *x* examples of an embedded schwa sound, which is a schwa sound that occurs naturally after saying a consonant sound, e.g. in the word “cinema” there are two embedded schwa sounds: Si n m . One occurs naturally when we pronounce the sound n and the other occurs naturally when we say m .
- List *x* words which have visible schwa sounds, e.g.

uh Gree	agree
uh Plai	apply

Tip: these will generally be words that begin with “a-” which means that there isn’t a consonant sound for the schwa to be embedded in. See pp.229-230 for a list of *Two-Syllable Words where the First Syllable is a Schwa*.

- Look for *x* items with more than one syllable that do not have any schwa or short i sounds (known as the “2nd schwa sound”) – but a full vowel sound in every syllable, e.g.

borrow	Bo reu
download	daun Leud

Talk a Lot

Clear Alphabet Dictionary

Classroom Activities for Learning the Clear Alphabet

freesheet Free sheet
product Pro dukt

Note how most words and phrases contain at least one schwa or short i sound, and often more than one.

- Find *x* items that have one or more short i sounds in the weak stressed syllables, e.g.

m Ka nik mechanic
Rai ting writing

4. Consonant Sounds

- Choose an item and sound out loud each phoneme (sound) in each syllable; then sound out loud each syllable separately; then say the item. Pay particular attention to stressing the stressed vowel sound.
- Find *x* items which have voiced/unvoiced consonant sounds.
- Find *x* examples of consonance – words and phrases that have the same consonant sounds. This could be with a pair or group of words, e.g. “you” and “yet” both start with the same consonant sound: *y* . Or it could be within the same word or phrase, e.g. the word “mushroom” begins and ends with a *m* sound: Mu shroom , while the word “surface” begins and ends with a *s* sound: Ser fs .
- Find *x* items which have a syllable which consists only of consonant sounds (with or without an embedded schwa sound), e.g.

sequel See **kwl**
husband Hu **zbn**d

Practise pronouncing all the sounds in these syllables. (Remember that they are not stressed!)

- Identify *x* different consonant clusters and compare them with the Roman alphabet. Notice that they are often the same, e.g.

bread **Bred**
change **Cheinj**

...but not always, e.g.

thick **Ttik**
cough **Kof**

See from p.217 for more about consonant clusters.

5. Connected Speech

- Discuss how phonetic spelling changes when a word is added to a sentence, e.g. when a word ending with a consonant sound meets a word beginning with a vowel sound, the consonant sound usually moves forward: “small apple” = Smor La pl . See *Talk a Lot Foundation Course* for more on connected speech.
- Look for *x* examples of assimilation where a sound changes making it easier to pronounce with the next sound, e.g. *b* can become *p* :

Talk a Lot

Clear Alphabet Dictionary

Classroom Activities for Learning the Clear Alphabet

job security jo ps Kyuuw r tii
website We psait

See *Problem Sound Connections* from p.170 for more examples.

- Look for *x* examples of elision, where the first sound in a cc sound connection is deleted, making the connection easier to pronounce, e.g.

friendship Fren ship
sit down Si_ Daun

See *Words and Phrases with Glottal Stops* on p.166 for more examples.

- Look for *x* examples of FCL (forward consonant linking), e.g.

Pacific Ocean p si fi Keu shn
whatever wo Te v

...and many phrasal verbs, e.g. “come in” = Ku Min

- Look for *x* examples of vv (vowel sound to vowel sound) linking, e.g.

emergency exit i mer jn sii Ye_ ksit
humiliate hyoo Mi lii yeit
interviewer In t vyoo w

- Look for *x* examples of problem sound connections, where the Clear Alphabet looks awkward, e.g.

vegetable Ve cht bl
popcorn Po pkorn

See *Problem Sound Connections* from p.170 for more examples.

- List *x* items which have one or more syllables ending with a friendly consonant sound: m , n , ng , or l .
- Find *x* items that have a glottal stop and practise making glottal stops. See *Words and Phrases with Glottal Stops* on p.166 for more examples.

6. Syllable Focus

- Mix up the order of syllables in a word or phrase and SS have to identify it. See p.200 for a sample activity using this idea.
- Remove one or more syllables from a word or phrase and SS have to identify the word, e.g. write the following on the board and SS have to guess the missing syllable and write it in both normal spelling and the Clear Alphabet, e.g.

pre zn_ Tei _____

The word is “presentation” and the missing syllable is: tion / shn

- Find *x* items that have one (or more) matching syllables, e.g.

km Pleet complete
km Pyoo t computer

Talk a Lot

Clear Alphabet Dictionary

Classroom Activities for Learning the Clear Alphabet

- Find x words that have one (or more) syllables which are phonetic, i.e. written the same in the Clear Alphabet and in normal spelling, e.g.

Win deu **w**indow
Kam **ping** cam**ping**

7. Sound Focus

- Choose a set of items from the dictionary (e.g. one page or half a page) and examine which sounds occur more or less frequently. For example, **zz** is not a very common sound in English, apart from in words with “vision”.
- Choose a group of x words and phrases and compare how many letters each has versus how many phonemes (individual sounds) it has, e.g.

<i>Normal Spelling:</i>	<i>CA Spelling:</i>	<i>No. Letters:</i>	<i>No. Phonemes:</i>
arrive	uh Raiv	6	4: uh r ai v
what	Wot	4	3: w o t

- Focus on learning IDs in Clear Alphabet which are not immediately obvious or intuitive (ee , oo , etc.) and need to be specifically learned, e.g. tt , zz , iy , _ , and so on.

8. Word Focus

- Focus on minimal pairs. A minimal pair is a pair of words which have exactly the same sounds, apart from one sound, e.g.

large Larj rice Rais
laugh Larf right Rait

There are plenty more examples on p.161, but also try to find your own examples.

Activity: **consonant sound sandwich!** Choose two consonant sounds and see how many different vowel sounds you can put between them to make new words... e.g. b – g: bag, bog, big, then two sounds in between, e.g. brag, blag, etc.; then three, and so on.

- Look for x examples of silent letters, which are letters which appear in the spelling of a word, but are not pronounced, e.g. the letter “w” in “wrist” or the letter “u” in “guess”. See *Silent Letters* on p.162 for more examples.
- Look for x examples of hidden sounds – sounds that are pronounced in a word, but do not appear in the spelling, e.g. the ng sound in “pink” = Pink .

See *Hidden Sounds* from p.164 for more examples.

- Look for x sets of homophones, which are words that have all the same sounds, but different spellings and different meanings, e.g.

aunt, aren't Arnt
eight, ate Eit

See *100 Sets of Common Homophones* on p.160, but also try to find your own examples. You can find free printables about homophones to download at <http://www.englishbanana.com>.

Talk a Lot

Clear Alphabet Dictionary

Classroom Activities for Learning the Clear Alphabet

- Look for x examples of common suffixes – notice how they are not stressed, e.g.

ing	dining table	Dai ning tei bl
tion	discrimination	di skri m Nei shn
ment	disillusionment	di s Loo zzn mnt
er	teacher	Tee ch
or	doctor	Do kt
y	happy	Ha pii

and so on. See pp.225-227 for more on the topic of suffixes.

- Find x words which look totally different from their normal spelling, e.g.

s Li s t	solicitor
Fyuuwl	fuel

- Find x items in the dictionary (or think of your own examples) which have different stress depending on the type of word they are, e.g. when “record” is a noun, we stress the first syllable, but when it’s a verb (“record”) we stress the second syllable. For more examples, see *List of Noun/Verb Homographs* on p.228.
- Put a group of x items written in the Clear Alphabet into alphabetical or reverse alphabetical order, e.g.

Alphabetical Order:

Eu pn
Ke mist
Sen s ship
Yoo

Reverse Alphabetical Order:

Yoo
Sen s ship
Ke mist
Eu pn

SS could then translate each item back into normal spelling.

- Make a list of features of the Clear Alphabet that are always or generally true, e.g. plural nouns tend to end with a z sound rather than s , and phrasal verbs are normally stressed on both syllables, and so on.
- Look at a group of x words and phrases written in the Clear Alphabet and discuss: which are easy to recognise and which are difficult? What are the possible reasons for this, e.g. some words are already phonetic in normal spelling and as such are spelled the same in the Clear Alphabet (“bus” = Bus) while other words contain phonetic spelling that may be unfamiliar for students, e.g. tt represents “th” in words like “thick”. (See p.159 for more Phonetic Words.) Or the use of connected speech in the Clear Alphabet – spelling syllable by syllable – might be confusing for students at first, e.g. the use of FCL in the phrase “make sense”: mei Ksens .
- Discuss words that come from the same root in both English and your first language, e.g. for Polish speakers: “million” (English) and “milion” (Polish); “mineral” (English) and “mineralny” (Polish). What difference is there in pronunciation? This can help to reveal interference from students’ first languages, e.g. in Polish the language is fairly phonetic and all written letters are usually pronounced, while in English unstressed vowel sounds are generally not pronounced.

6 fun activities using “Translate from Normal Spelling” pages:

1. Translation
 - Translate items into the Clear Alphabet, e.g. one page or one column.

Talk a Lot

Clear Alphabet Dictionary

Classroom Activities for Learning the Clear Alphabet

- Translate items into your first language, e.g. one page or one column.
 - Print one page: how many words/phrases do you know? / not know? Translate them into your first language and learn them.
2. Word Focus
- Do any Discussion Word activities from *Talk a Lot Elementary Books 1-3* or *Intermediate Book 1* with a given group of words from the dictionary (or your own choice of words). Or you could base a complete *You Are The Course Book Mode 1* process on your word list.
 - Guess which Talk a Lot unit a word or phrase comes from, e.g. “learner driver” comes from “Unit 6: Cars” from *Talk a Lot Elementary Book 2*; or identify words that you think are not discussion words in any of the Talk a Lot books, e.g. “why” is not, because it’s a function word rather than a noun, and similarly “busy” is not a discussion word, because it’s an adjective.
 - Look for homographs – two words which have the same spelling but different meanings, e.g. park (verb or noun), live (verb or adjective), rose (verb or noun), and import (verb or noun). For more examples of homographs see p.228.

8 fun activities using “Normal Spelling & Clear Alphabet Spelling” pages:

1. Word Focus
- The whole list makes a useful vocabulary list for all students to learn, from beginner level upwards.
 - Record an audio (or video) version of a group of items, with a clear reading of each word and phrase.
 - Use the dictionary to make list(s) of high-frequency words (e.g. the ten most common words in English) or words that you use a lot; list words that you know but seldom or never use, and resolve to try to use them more often; list words that are new for you and learn them – both spelling and sounds.
 - Choose a group of x words, or half a page, or two pages and write beside each word or phrase what kind of word it is, e.g. noun, verb, adjective, etc.

brought	verb
brown	adjective
browse	verb
browser	noun

...and so on. Put the same kinds of words into groups (word classes), e.g. you could list x different colours, or past participles.

2. Sound Focus
- Compare the normal spelling with the phonetic spelling. Sound out each sound in the word.
 - Look for words that rhyme, e.g. power, hour, flower, etc. For more on *Rhyming Words* see pp.30-40.

Talk a Lot

Clear Alphabet Dictionary

Classroom Activities for Learning the Clear Alphabet

- Study spelling and sounds further with any of the special topics in this book. See from p.159.

3. Translation

- Make a sentence using words picked randomly from the dictionary, e.g.

boxing carrot popstar allergy

The popstar always had an allergy to carrots after boxing.

...then translate it into the Clear Alphabet:

th Po pstar Ror lwei Zha d Na l jii t Ka r_ sar ft Bo ksing.

...or use consecutive words in the dictionary which may or may not be related, e.g.

referee refund refuse refute

The refereee refuted the argument of the sales assistant who had refused him a refund.

...which translates into the Clear Alphabet as follows:

th re f Ree r Fyoo t_ thii Yar gy mn t vth Seil z si stn_ too w tr Fyoo sti m Ree fund.

8 more fun things that you can do with this dictionary:

- Study the longer phrases that had to be cut out of the main dictionary (p.167).
- Study the list of words and phrases that look confusing in the Clear Alphabet (p.168).
- Study problem sound connections in the Clear Alphabet (p.170).
- Learn high-frequency words in English with the Clear Alphabet (pp.140-157, and p.185).
- Practice translating and reading aloud different role plays and texts with the Clear Alphabet (pp.188-195).
- Compare the use of the Clear Alphabet and the IPA with a discussion words activity (pp.196-198).
- Use the Clear Alphabet to do practice activities from *Talk a Lot Foundation Course*, e.g. Cut-Up IPA Sentence (pp.200-201).
- Use the flashcards (from pp.18-29) and specially written practice material (pp.174-183) – or, even better, create your own!

Clear Alphabet Dictionary

Phonetic Words in Normal English Spelling

This is a list of words from the dictionary which are spelled the same in both the normal Roman alphabet and the Clear Alphabet. These words are easy to pronounce because they look like they sound. They are generally one-syllable words:

adverb	A dverb	fit	Fit	map	Map	soft	Soft
advert	A dvert	flat	Flat	mark	Mark	soon	Soon
am	Am	flop	Flop	meat	Meet	sort	Sort
an	An	fog	Fog	men	Men	spend	Spend
and	And	food	Food	mist	Mist	spin	Spin
ant	Ant	for	For	moon	Moon	spring	Spring
arm	Arm	form	Form	much	Much	stand	Stand
artist	Ar tist	free	Free	mum	Mum	star	Star
at	At	frog	Frog	must	Must	starfish	Star fish
bad	Bad	from	From	need	Need	start	Start
bag	Bag	get	Get	nut	Nut	step	Step
ban	Ban	get in	Ge Tin	on	On	stop	Stop
bat	Bat	get on	Ge Ton	or	Or	storm	Storm
bed	Bed	God	God	pig	Pig	street	Street
bedroom	Be droom	golf	Golf	plan	Plan	string	String
bee	Bee	got	Got	plot	Plot	strong	Strong
beef	Beef	green	Green	pop	Pop	such	Such
been	Been	greet	Greet	pop star	Po pstar	sun	Sun
beg	Beg	groom	Groom	port	Port	sunset	Sun set
belt	Belt	gun	Gun	print	Print	suntan	Sun tan
bench	Bench	had	Had	ran	Ran	swim	Swim
best	Best	hand	Hand	rash	Rash	ten	Ten
big	Big	hard	Hard	rent	Rent	tent	Tent
boy	Boy	hat	Hat	rest	Rest	test	Test

Clear Alphabet Dictionary

Silent Letters

Here are some good examples of items in the dictionary which have silent letters. The Clear Alphabet ignores letters which are not pronounced. Silent letters often occur because the vowel letters in unstressed syllables are converted into schwa sounds when we pronounce them; or when double letters represent one consonant sound, e.g. "ff" for f, and so on. Note: reading this list out loud is a good way of testing students' understanding of the use of the schwa sound in English pronunciation:

Normal Spelling:	CA Spelling:	Silent Letter(s) (in spelling but not pronounced):
autumn	Or tm	_____
build	Bild	_____
butter	Bu t	_____
candidate	Kan d dt	_____
cinema	Si n m	_____
criminal	Kri m nl	_____

Hidden Sounds

Here are some good examples of words and phrases in the dictionary which have hidden sounds – sounds which are heard when you say the word, but don't appear in the normal spelling. There are no clues that they exist so students have to learn the hard way – by making mistakes. In the Clear Alphabet, hidden sounds are revealed, because all sounds are written – apart from embedded schwa sounds. Can you think of any more words in each category?

Hidden Sound: y

commuter	k Myoo t
emu	Ee myoo
euthanasia	yoo tt Nei ziy
humiliate	hyoo Mi lii yeit
knew	Nyoo
millionaire	mil y Neir
new	Nyoo
numeral	Nyoo m rl
onion	Un yn
queue	Kyoo
security	s Kyuuw r tii

Hidden Sound: g

Spelling Rule: “gu” can be pronounced: gw e.g. anguish, penguin, languid, etc.

language Lang gwij

Hidden Sound: ch

Spelling Rule: “tu” is often pronounced: ch e.g. tune, attitude, tuna, etc.

expenditure	e Kspen d ch
medical student	Me d kl schoo dnt
punctuation mark	pung kch Wei shn mark
stupid	Schoo pid
Tuesday	Choo zdeii

Hidden Sound: j

Spelling Rule: “du” is often pronounced: j e.g. dune, duty, due, etc.

produce pr Joos

Hidden Sound: ng

Spelling Rule: “nk” is often pronounced: ngk e.g. think, ink, bank, sank, etc.

pink	Pingk
uncle	Ung kl

Clear Alphabet Dictionary

Words that Look Confusing in the Clear Alphabet

It's difficult to understand a word in the Clear Alphabet when it looks like a word written in normal spelling. Here are some examples of words in the Clear Alphabet that look like normal English words.

This can happen when a syllable with a single phoneme is represented by one letter, e.g. O f = "offer", but looks like the word "of". It is especially true of items that have embedded schwa sounds – which are not shown in the Clear Alphabet. It also often occurs with diphthongs such as ai and ei and long vowel sounds, e.g. eir and or .

If you are working with the Clear Alphabet, you need to learn to think differently – in sounds and syllables rather than letters and words. Can you find any more examples like the ones below?

<i>Normal Spelling:</i>	<i>CA Spelling:</i>	<i>Other English word that it looks like:</i>
cider	Sai d	said
reader	Ree d	reed
farmer	Far m	farm
summer	Su m	sum
jumper	Jum p	jump
slipper	Sli p	slip
letter	Le t	let
matter	Ma t	mat
porter	Por t	port
figure	Fi g	fig
offer	O f	of
pasta	Pa st	past

Clear Alphabet Dictionary

Problem Sound Connections – when Clear Alphabet Looks Awkward!

There are a few occasions when we need to stop and think twice about how to represent sounds using the Clear Alphabet. Here are a few examples of words and phrases like that in the dictionary. Problems can often occur thanks to difficult-to-pronounce cc sound connections, e.g. a hard (voiced) d sound meets an equally hard (voiced) k in the middle of “childcare” – and d loses! We have to move it forward and change it to the softer (unvoiced) t : Chail tkeir . This also gives us examples of assimilation – a sound changes to make the sound connection easier – e.g. in the above case d changes to t .

Can you find/think of any more items in each category?

1. Issues with cc sound connections:

a) hard (voiced) d changes to soft (unvoiced) t

childcare	Chail tkeir
childhood	Chail thuud
classified advert	kla s fai Ta tvert
goldfish	Geul tfish
hardback	Har tbak
head for	He Tfor
midwife	Mi twaif
podcast	Po tkarst
road sign	Reu tsain
Sherwood Forest	sher w Tfo rist
sidekick	Sai tkik
surround sound	s raun Tsaund
third conditional	thir tkn Di shnl
United Kingdom	yoo nai t Tking dm
United Nations	yoo nai t Tnei shnz
widescreen	Wai tskreen
wind farm	Win tfarm
windscreen	Win tskreen
word stress	Wer tstres

b) v (voiced) changes to f (unvoiced)

give back	Gi Fbak
have pierced	ha Fpiyst
of course	uh Fkors

c) g (voiced) changes to k (unvoiced)

drug trafficking	Dru ktra fking
------------------	----------------

d) b (voiced) changes to p (unvoiced)

object	O pjekt
subtitles	Su ptai tlz
web server	We_ pser v
webcam	We_ pkam

Talk a Lot

Clear Alphabet Dictionary

Problem Sound Connections – when Clear Alphabet Looks Awkward!

website We_ psait
e) j (voiced) changes to ch (unvoiced)

vegetable Ve cht bl

f) p moves forward (FCL)

hip-hop Hi phop
popcorn Po pkorn
update U pdeit
upgrade U pgreid

2. It can look awkward when several consonant sounds have to be “front-loaded” onto the beginning of a syllable:

a) Examples with 2 sounds:

English Channel ing gli Shcha nl
public toilet pu bli Ktoy lt

b) Examples with 3 sounds:

clothes shop Kleu thzshop
detached house d Ta chthaus
withdrawal wi Thdrorl

...but that's how native speakers of English really speak!

3. Foreign words in English:

a) Some words in English include foreign sounds that are rarely used in English, e.g. a sound from Welsh that is not common in English is: hh .

Llandudno hhlan Du tneu

English native speakers tend to shy away from making the guttural hh sound, and use l instead:

Llandudno lan Du tneu

b) We can't write some foreign words in the Clear Alphabet because the Clear Alphabet only includes the 48 sounds of English. Other languages have sounds which are not heard in Standard English pronunciation, e.g. the “rolling r” sound in Polish. There are even different sounds in American English which do not feature in British English, and therefore are not included in the Clear Alphabet.

4. When a glottal stop comes at the end of a syllable which occurs before another consonant sound, e.g.

partner Par_ n

Talk a Lot

Clear Alphabet Dictionary

Problem Sound Connections – when Clear Alphabet Looks Awkward!

5. Just consonant sounds written together (with embedded schwa sound, which is invisible, just assumed). These syllables can look daunting!

picture	Pi kch
usual	Yoo zzwl
Oxford	O ksfɔ
pregnancy	Pre gnn sii

n beside n can present a challenge at first glance!

6. Some words just look strange in the Clear Alphabet, for a variety of reasons:

singer	Sing uh	<i>a schwa sound on its own looks odd!</i>
theatre	Ttiy t	

any word with tt, or any unfamiliar ID, e.g. zz or iy – you just have to learn the Clear Alphabet identifiers (see p.17).

7. Very rarely, a combination of Clear Alphabet IDs can be ambiguous:

food hygiene	foo Thai jeen
--------------	---------------

is th one single ID (one phoneme), representing th in “them”, or is it two separate IDs (two phonemes): t and h ? In this case, it is the latter. It is hoped that students will be able to make the correct choice thanks to their understanding of the actual word or phrase being studied. (An added complication here is that the syllable in question also looks exactly like an English word, the nationality “Thai”. Like any human system, the Clear Alphabet is not perfect!)

e Gzarm pl z Vwer kshee_ sf
Klar Syoos

Clear Alphabet Dictionary

Practice Worksheets – Instructions

Here are a few practice worksheets for learning the Clear Alphabet, with the topics “Countries”, “Leisure Activities”, and “Famous People”. They are graded in difficulty, so translating from the Clear Alphabet is the easiest activity, translating into the Clear Alphabet (using the Clear Alphabet chart) is a little harder, and the hardest is identifying words from mixed-up Clear Alphabet syllables.

I didn't want to write pages and pages of practice material because my aim is to encourage *you* to create your own activities using vocabulary that is most relevant to you – to develop self-sufficiency rather than dependence on professional writers. Students could practise translation activities of this kind with *any* set of vocabulary words.

Tips:

- Some of the Clear Alphabet spellings are easier to recognise than others, because they are already fairly phonetic in the normal spelling, e.g.

Wo ching Tee Vee = watching TV

You could adjust this kind of activity to the students' level, including more easier Clear Alphabet spellings for lower levels, and fewer for higher levels

- Get SS to identify and sound out all of the different sounds (phonemes) in a syllable loudly and put stress on stressed syllables
- Get SS to extend the word or phrase into a short single clause sentence, e.g.

Plei ying Golf becomes: ai Lai Kplei ying Golf.

- Cut up syllables from several words and mix them up. SS have to identify the 4, 5, 6, etc. different words, which could all be on the same topic
- Make a gap-fill activity with items which have one or more syllables missing, e.g.

E kw _____ (dor – Ecuador)

- Match Clear Alphabet spellings to one-sentence clues, e.g.

“A warm European country with a long Atlantic coastline which is good at football.” = Por ch gl

- ...or use any of the activities in the List of Activities from p.47

Here are some more examples of countries with the Clear Alphabet:

Macedonia	ma s Deu niy
New Zealand	Nyoo Zee Ind
Lithuania	li tt Wei niy
Bangladesh	bang gl Desh
Northern Ireland	nor th Naiy Ind
Cameroon	ka m Roon
Guatemala	gwo t Mar l
Antarctica	an Tar kti k

The 100 Most Common Words in Written English

The Oxford University list of the top 100 high-frequency words in written English is based on an analysis of the Oxford English Corpus, which is a collection of texts in English that has a combined total of over one billion words. This analysis was done by Oxford Online, in association with the Oxford English Dictionary. **Of these top 100 words, 60 are function words, including all but 2 of the top 30 words!** "the" is the most common word in written English.

From Wikipedia:

*"Note that the items listed may represent more than one actual word; they are **lemmas**. For instance the entry "be" contains within it the occurrences of "are", "is", "were", and "was". **Note also that these top 100 lemmas listed below account for 50% of all the words in the Oxford English Corpus.**" [emphasis mine]*

Source: http://en.wikipedia.org/wiki/Most_common_words_in_English, accessed on 04.04.2011

Beginning to Teach Numbers – Translation

wen wi Tee Chnum bz, wi Yoo zz lii Star To fwi th Fer Sten, ai yee Wun, Too, Ttree, For, Fai, Vsi, Kse v, Nei_, Nai, nn Ten.

When we teach numbers, we usually start off with the first ten, i.e. one, two, three, four, five, six, seven, eight, nine, and ten.

Wun Schoo dn s Vgo_ th Ha ng vthm, wi Moo Von t th Ne Kse_, wi ch r Bi_ Ee ziy bi k Zmeu st vth Ma vth “Teen” Su fiks.

Once students have got the hang of them, we move on to the next set, which are a bit easier, because most of them have the “-teen” suffix.

th Meu Sdi fi kuhl_ Num b st Spe lin thi Sgroo p Yoo zz lii fi Fteen, wi Chschoo dn_ Zo fn Rai t “Zfai fteen”, an Dnain teen, wi Chschoo dn_ Seem t Thing ki Spel_ “Dnin teen”. Deu Nar skmi Wai!

The most difficult numbers to spell in this group are usually fifteen, which students often write as “fiveteen”, and nineteen, which students seem to think is spelled “ninteen”. Don’t ask me why!

Eu Se v Nei_ Too For, Si Ksdu bl Ttree, Yei_ For Fai For.

List of Common Weak Forms in Spoken English

- In spoken English we often use the **weak forms of function words** instead of the strong forms to make the sound spine stand out more clearly. This is true of Standard Pronunciation, dialects, and accents
- The weak form is often made by replacing the vowel sound in the strong form with a **Schwa sound: uh**
- Most function words that have weak forms are **monosyllabic** – they have only one syllable
- If we use strong forms when we should use weak forms, we sound **too formal** and it is more difficult for people to understand us, because the sentence stress is incorrect. Communication is reduced
- If a function word comes **at the end of a sentence** we usually use its strong form, rather than its weak form, e.g. “What are you looking for?” (for) or, “Who are you writing to?” (too)
- If we want to show emphasis or contrast, we can vary the **intonation** by using strong forms where we would normally use weak forms, e.g. “What did *you* think of the book?” (you)

Spelling and Sounds – Vowel Clusters

A vowel cluster is a group of two or more vowel letters together in a word that represent a single vowel sound. For example, in the word “road”, “oa” is a vowel cluster that represents the sound *eu*, whilst in the word “shoe”, “oe” is a vowel cluster that represents the sound *oo*. In the same way, “ar” in the word “car”, is a vowel cluster that uses a silent “r” to help make the vowel sound *ar*. The reason we have vowel clusters is simple: there are 23 different single vowel sounds (vowel phonemes) in spoken English, but only 5 single vowel letters in written English. We need vowel clusters to represent in spelling all of the different vowel sounds. For example, the letter “a” on its own can make the sound *a* when sandwiched between two consonant sounds, for example in the word “cat” – *Kat* – but there is no single letter which can make the very common vowel sound *oo*, as in “true” *Troo*. We have to use a vowel cluster – in this case “ue” – to represent this sound on paper.

Vowel clusters can occur anywhere in a word – at the beginning (initial), as in “out”; in the middle (medial), as in “please”; and at the end (final), as in “true”. Focusing on vowel clusters and consonant clusters (see p.217) is useful if you want to look at some of the differences between spelling and sounds in English words. (See also Rhyming Words, from p.30.)

Vowel clusters can be divided into **eight** categories:

1. Vowel Digraphs
2. Vowel Trigraphs and Quadgraphs
3. Vowel Clusters that End with “-r”
4. Other Vowel Clusters with “r”
5. Vowel Clusters with “w”
6. Vowel Clusters with “y”
7. Vowel Clusters with “gh”
8. Vowel Clusters with Other Consonant Letters

What follows is a comprehensive list of vowel clusters, with the sounds that they represent, grouped by letter in alphabetical order. (Note: you may wish to add your own examples in the space provided.)

1. Vowel Digraphs

Vowel digraphs are two vowel letters together in the spelling of a word that represent a single sound (one vowel phoneme). For example, in the word “meat”, “ea” is a vowel digraph that represents the sound *ee*, whilst in the word “meet”, “ee” is a vowel digraph that also stands for the same vowel sound: *ee*. This kind of thing can lead to a lot of confusion between spelling and sounds in English!

digraph: *sounds like:* *for example:* *my example(s):*

ai	ei	paid, wait, fail, paint, gain	_____
ai	e	said, again	_____

au	or	fraud, pause, autumn, August	_____
----	----	------------------------------	-------

Spelling and Sounds – Vowel Clusters

ou	uh	famous, jealous, onerous	_____
ou	o	cough, trough	_____
ou	u	rough, enough, tough	_____

ue	oo	blue, true, sue	_____
ue	e	guess, guest	_____
ue	uuw	fuel, puerile, duel	_____

ui	ai	guide, guidance	_____
ui	oo	juice, bruise	_____
ui	i	build, building, guilt	_____

Most of the vowel sounds of English (18 out of 23) are represented by these 18 different vowel digraphs. The sounds not represented are: a, i, er, eir, auw. The last three of these sounds are represented by vowel clusters that use “r” (see below).

2. Vowel Trigraphs and Quadgraphs

It is possible, though fairly uncommon, to find more than two vowel letters together in an English word. A group of three letters that make a single sound is called a *trigraph*. For example:

trigraph: *sounds like:* *for example:* *my example(s):*

eau	eu	beau, eau de toilette ¹	_____
-----	----	------------------------------------	-------

eou	uh	outrageous, contagious	_____
-----	----	------------------------	-------

iou	iy	industrious, harmonious, tedious	_____
-----	----	----------------------------------	-------

A group of four letters that makes a single sound is called a *quadgraph*. For example:

quadgraph: *sounds like:* *for example:* *my example(s):*

ueue	oo	queue	_____
------	----	-------	-------

3. Vowel Clusters that End with “-r”

The “r” in the spelling helps to make the single vowel sound. Note: the consonant sound r is not pronounced.

Spelling and Sounds – Common Vowel Clusters

A vowel cluster is a group of two or more vowel letters together in a word that represent a single vowel sound. They can be **initial** (at the beginning of a word), **medial** (in the middle of a word), and **final** (at the end of a word). Focusing on vowel clusters and consonant clusters (see p.217) is useful if you want to look at some of the differences between spelling and sounds in English words. Vowel clusters can be divided into eight categories:

1. Vowel Digraphs (two vowel letters together make a single sound)

<i>digraph:</i>	<i>sounds like:</i>	<i>for example:</i>	<i>my example(s):</i>
ai	ei	paid, wait, fail, paint, gain	_____
ea	ee	read, appeal, lead, clean, leaf, steal	_____
ea	e	read, bread, dreamt, dead, dread	_____
ee	ee	wheel, peel, kneel, heel	_____
ei	ee	receive, deceive, receipt	_____
ie	ai	tie, die, lie, pie	_____
oa	eu	oak, foam, loaf, encroach, road	_____
oa	or	broad, abroad	_____
oe	eu	toe, hoe, woe, foe, goes	_____
oe	oo	shoe	_____
oo	oo	school, tool, fool, choose	_____
oo	uu	good, book, took, rook, hood	_____
ou	au	sound, loud, proud, round, house	_____
ui	ai	guide, guidance	_____
ue	oo	blue, true, sue	_____

2. Vowel Trigraphs and Quadgraphs

<i>v/cluster:</i>	<i>sounds like:</i>	<i>for example:</i>	<i>my example(s):</i>
eau	eu	beau, eau de toilette ¹	_____
iou	iy	industrious, harmonious, tedious	_____
ueue	oo	queue	_____

3. Vowel Clusters that End with “-r” (the consonant sound r is not pronounced)

<i>v/cluster:</i>	<i>sounds like:</i>	<i>for example:</i>	<i>my example(s):</i>
air	eir	air, fair, hair, chair, stair, pair	_____
ar	ar	car, guitar, star, bar, shark	_____
ear	iy	ear, beard, dear, appear, fear	_____
ear	er	learn, earn, search, pearl, heard	_____
ear	eir	bear, tear, wear, pear	_____
eer	iy	leer, peer, beer, engineer, steer	_____
er	er	verb, herd, herb, her	_____

Spelling and Sounds – Consonant Clusters

A consonant cluster is a group of two or more consonant letters together in a word. For example, in the word “**brilliant**”, “br” is a consonant cluster, as is “ll”, and also “nt”. Consonant clusters are also sometimes known as “consonant blends”. Focusing on consonant clusters and vowel clusters (see p.203) is useful if you want to look at some of the differences between spelling and sounds in English words.

Consonant clusters can occur at the beginning (an **initial** consonant cluster), in the middle (a **medial** consonant cluster) or at the end of a syllable (a **final** consonant cluster). For example, in the word brilliant – **Bril ynt** – which has two syllables, there is a consonant cluster at the beginning of the first syllable (“br”), at the end of the first syllable (“ll”), and at the end of the second syllable (“nt”). They can also occur in the middle of a syllable, for example the consonant cluster “ch” in the middle of the word “**ache**”.

We can include consonant *digraphs* within the term “consonant clusters”. A consonant digraph is where two consecutive consonant letters in the spelling of a word are used together to make a single sound. For example, in the word “**know**”, “kn” is a digraph which represents a single sound: **n** . There are also digraphs which make vowel sounds, for example, in the word “beach”, “ea” is a digraph which represents a single vowel sound: **ee** .

There are 21 consonant *letters* in the English alphabet, and 25 consonant *sounds* in spoken English. Therefore we need some consonant digraphs to represent consonant sounds because there are more consonant sounds than consonant letters. For example, there is no single letter in English that represents the sound **sh** . We need to use a digraph – two consonant letters together – and we end up with “sh” to represent **sh** . Similarly, there is no single letter that represents the sound **th** . Therefore we need to use a digraph – two consonant letters together – and we end up with “th” to represent **th** . Confusion can occur because the digraph “th” also represents another, different consonant sound: **tt** .

Part of the reason for the existence of digraphs – where two letters make one sound – is that English is an old language, and over hundreds of years the pronunciation of different words has changed. Some sounds that used to be pronounced in words are no longer pronounced, although the spelling has remained the same. Some used to be pronounced, but aren’t any more. For example, up until the mid-17th century “knife” was pronounced in Old English as a three-syllable word, with the **k** , the **n** , and the final vowel sound all heard, like this: **k Ni f** .

As we have seen in our study of connected speech (see p.11.1 of *Talk a Lot Elementary Handbook*), consonants don’t like to rub up against each other, and elision (where we lose a consonant sound) or assimilation (where a consonant sound changes) often occur when two consonant sounds meet, to make the syllable or word easier to pronounce. So it is no surprise then that the longer the consonant cluster, the more difficult it will be to pronounce, and the more likely it will be that either elision or assimilation take place. For example, try saying: “**twelfths**” out loud. This word crowbars seven different consonant letters into one syllable, which in turn produces six distinct consonant sounds: **T w e l f tt z** ! Another example of a problematic word is “**crisps**”, which is pronounced: **Krispz** . Try to pronounce all of the five distinct consonant sounds (in two consonant clusters) in just one syllable. Tricky!

Learn the Clear Alphabet

Spelling and Sounds – Consonant Clusters

Generally speaking most consonant clusters are only two or three letters long. The longest initial consonant cluster can be three letters long, e.g. “spr-” in the word “**sprint**”, whilst the longest final consonant cluster will be generally four letters long, e.g. “-rst” in the word “**firsts**”. Perhaps the prize for the longest consonant cluster would have to go to the word “**rhythm**”, which is solely made up of consonant letters – six to be precise! However, “rhythm” cheats as a consonant cluster, because it actually has two vowel sounds – the “y” acts as the vowel sound *i* in the first syllable, which is stressed, and the second syllable contains an embedded schwa sound: Ri thm .

Adverbs are a group of words that can have long consonant clusters at the end, e.g. **exactly**. Elision is likely to occur in such a cluster, for example “exactly” will often be pronounced without the *t* sound, like this: i Gza klee rather than i Gza ktlee . It would be too much unnecessary effort to try to pronounce the *t* , sandwiched as it is between two other consonant sounds. I say *unnecessary* because the most important sound in this word is the vowel sound on the stressed syllable, the *a* sound. This sound *must* be pronounced clearly, whilst the consonant sounds are less vital to communication.

Consonant clusters can be divided into **five** categories:

1. Consonant Digraphs
2. Consonant Digraphs with Double Letters
3. True Consonant Clusters
4. Consonant Clusters Ending with *z*
5. Consonant Clusters in Compound Words

1. Consonant Digraphs

Some consonant clusters are *digraphs*, which are two letters together in the spelling of a word that combine to make a single sound. Note that most consonant digraphs end with the letter “**h**”. (When three letters come together to form a single sound, e.g. “-tch” in the word “**fetch**” – which represents the sound *ch* – it is known as a *trigraph*.)

Here are some examples of **initial** consonant digraphs. (*Note: you may wish to add your own examples in the space provided.*)

<i>digraph:</i>	<i>sounds like:</i>	<i>for example:</i>	<i>my example(s):</i>
ch	ch	cheer, champion, change	_____
ch	sh	chandelier, champignon¹	_____
ch	k	cholera, chrome, chronic	_____
gn	n	gnat, gnaw, gnome	_____
kn	n	know, knife, knitting	_____

¹ Loan words from French.

Spelling and Sounds – Consonant Clusters

ph	f	photo, pharmacy, pharaoh	_____
----	---	--------------------------	-------

rh	r	rhubarb, rhinoceros, rhyme	_____
----	---	----------------------------	-------

sc	s	science, scissors, scimitar	_____
----	---	-----------------------------	-------

sh	sh	sheep, shine, shock, shed	_____
----	----	---------------------------	-------

th	tt	thick, Thursday, thanks	_____
th	th	this, that, brother, there, the	_____

ts	s	tsunami ¹	_____
----	---	----------------------	-------

wh	w	what, why, where, wheel, whip	_____
wh	h	who, whose, whole, wholemeal	_____

wr	r	writing, wrestler, wrong	_____
----	---	--------------------------	-------

Here are some examples of **final** consonant cluster digraphs:

digraph: *sounds like:* *for example:* *my example(s):*

ch	ch	beach, coach, roach	_____
ch	k	stomach	_____

ck	k	black, track, pick, flock, luck	_____
----	---	---------------------------------	-------

gh	f	cough, trough, rough, enough, tough ²	_____
----	---	--	-------

mb	m	comb, tomb, aplomb, plumb	_____
----	---	---------------------------	-------

ng	ng	along, going, eating, meeting	_____
----	----	-------------------------------	-------

sh	sh	finish, trash, Spanish, fish	_____
----	----	------------------------------	-------

th	tt	tooth, youth, bath, path	_____
----	----	--------------------------	-------

¹ This is a loan word from Japanese. In the word “tsar” (from Russian) the “ts” digraph makes a tz sound: Tzar

² The digraph “gh” also contributes towards different vowel sounds, e.g. au in “bough” and “plough”, and can be included in various vowel clusters (see p.215).

Spelling and Sounds – Consonant Clusters

Here are some **final** consonant digraphs which occur where the letter “r” is silent because it is helping to make a vowel sound:

digraph: *sounds like:* *for example:* *my example(s):*

rb	b	disturb, suburb, rhubarb	_____
----	---	--------------------------	-------

rn	n	earn, turn, western, learn	_____
----	---	----------------------------	-------

rt	t	hurt, heart, art, start, alert	_____
----	---	--------------------------------	-------

Just to confuse you, here’s a consonant cluster where “r” is pronounced. This is not a digraph, because both of the letters are pronounced, but rather a true consonant cluster:

c/cluster: *sounds like:* *for example:* *my example(s):*

ry	rii	dairy, eery, diary, hairy, bury	_____
----	-----	---------------------------------	-------

2. Consonant Digraphs with Double Letters

These consonant clusters are digraphs that comprise a pair of identical letters, which make a single sound when said together. Most consonant letters can be doubled, although doubles with “h”, “j”, “q”, “w”, “x”, and “y” are not natural in English. They usually occur in the middle of a word, although some, like “ff” in “cliff” come at the end. They never occur at the beginning of a word, unless the word has originated from a foreign language, for example “llama” from Spanish or “Lloyd” from Welsh. Here is a full list of consonant digraphs with double letters:

digraph: *sounds like:* *for example:* *my example(s):*

bb	b	robber, sobbing, hobble	_____
cc	k	soccer, occur, stucco	_____
dd	d	pudding, wedding, sadder	_____
ff	f	iffy, cliff, effect, off, effort	_____
gg	g	boggy, flagged, bigger	_____
kk	k	trekking, Trekker	_____
ll	l	alluring, allied, balloon	_____
mm	m	summer, humming, immature	_____
nn	n	runner, annoy, announcement	_____
pp	p	opportunity, shopping, kipper	_____
rr	r	hurry, worried, curry, sorry	_____
ss	s	assess, less, massive	_____
ss	z	possess	_____
tt	t	shutters, cottage, plotted	_____
vv	v	revved	_____

Spelling and Sounds – Consonant Clusters

3. True Consonant Clusters

“True” consonant clusters are phonetic because they are pronounced in the same way as they are spelled. For example, “br” in “**bread**” is pronounced in the same way as the phonemes that it represents: br . In true consonant clusters we pronounce all of the sounds. Note that the consonant clusters below in **bold type** are all good examples of when the consonant sound r is pronounced in an English word. This is helpful to know, because so often in spoken English the letter “r” in a word is not pronounced, since it’s only there to help make a vowel sound, for example in the words: “**car**”, “**more**”, and “**your**”.

Here are some examples of true **initial** consonant clusters:

<i>c/cluster:</i>	<i>sounds like:</i>	<i>for example:</i>	<i>my example(s):</i>
bl	bl	blood, blend, black, blown	_____
br	br	bright, bring, brush, brilliant	_____
cl	kl	clear, close, clothes, clever	_____
cr	kr	cry, crime, crow, crop, crumb	_____
dr	dr	drink, drop, drive, drip, dreary	_____
fl	fl	flannel, fly, fleece, flame, flow	_____
fr	fr	frighten, from, frame, France	_____
gr	gr	great, grape, grip, grime, grow	_____
pr	pr	prove, provide, pray, princess	_____
qu	kw	quite, queen, quick, quiet¹	_____
scr	skr	scream, script, scam, screw	_____
sm	sm	small, smart, smelly, smooth	_____
st	st	stay, stop, stink, stolen, sty	_____
str	str	strange, stroppy, street, strict	_____
tr	tr	tropical, trench, train, triumph	_____

Here are some examples of true **final** consonant clusters:

<i>c/cluster:</i>	<i>sounds like:</i>	<i>for example:</i>	<i>my example(s):</i>
ly	lii	only, lonely, truly, rarely	_____
mp	mp	hump, bump, clamp, damp	_____
mpt	mpt	exempt, contempt, dreampt	_____
nch	nch	munch, lunch, bench, stench	_____
nd	nd	end, stand, mend, ground	_____
ndy	n dii	windy, candy, handy, sandy	_____
ny	nii	tiny, meany	_____

...and here are a couple that are neither initial nor final consonant clusters:

¹ Although “qu” is technically a consonant and a vowel together, the sounds that it produces – kw – are both consonant sounds.

Talk a Lot

Learn the Clear Alphabet

Spelling and Sounds – Consonant Clusters

<i>c/cluster:</i>	<i>sounds like:</i>	<i>for example:</i>	<i>my example(s):</i>
lv	lv	salvage, del ve , shel ves	_____
ng	nj	orange, arrange, imp ing e	_____

4. Consonant Clusters Ending with z

These are consonant clusters that end with the letter “s”, which represents the sound **z** at the end of a plural noun, for example:

<i>c/cluster:</i>	<i>sounds like:</i>	<i>for example:</i>	<i>my example(s):</i>
nts	ntz	plants, accounts, rents	_____
rds	dz	records, birds, cards, chords	_____
rs	z	colours, rivers, sisters	_____
ts	tz	sweets, oats, boats	_____

5. Consonant Clusters in Compound Words

In compound words, strange consonant clusters can occur, which are not “true” consonant clusters. This is because two separate words have been joined together to make a new word, meaning that the final consonant cluster from the first word has to sit side by side with the initial consonant cluster from the second word. Here are some examples:

<i>c/cluster:</i>	<i>sounds like:</i>	<i>for example:</i>	<i>the two words are:</i>
tchb	chb	switchboard	switch + board
ffh	fh	cliffhanger	cliff + hanger
ndf	ndf	grandfather	grand + father
ndbr	ndbr	groundbreaking	ground + breaking

As we have seen, it is common when consonant sounds meet for elision or assimilation to take place (see also Connected Speech, p.11.4 of *Talk a Lot Elementary Handbook*). So, for example, we wouldn’t pronounce the whole mouthful of consonant sounds in the middle of “groundbreaking”: *Graund brei king*, because it would be too difficult in rapid speech to pronounce the final consonant cluster “-nd” next to the initial consonant cluster, “br”. On the contrary, we would automatically employ elision and lose the **d** sound, changing the word into: “groun-breaking” – *Graun brei king* – which is far easier to pronounce.

Spelling and Sounds – Common Consonant Clusters

A consonant cluster is a group of two or more consonant letters together in a word. They can be **initial** (at the beginning of a word), **medial** (in the middle of a word), and **final** (at the end of a word). Focusing on consonant clusters and vowel clusters (see p.203) is useful if you want to look at some of the differences between spelling and sounds in English words. Consonant clusters can be divided into five categories:

1. Consonant Digraphs (two consonant letters together make a single sound) – INITIAL:

<i>digraph:</i>	<i>sounds like:</i>	<i>for example:</i>	<i>my example(s):</i>
ch	ch	cheer, champion, change	_____
gn	n	gnat, gnaw, gnome	_____
kn	n	know, knife, knitting	_____
ph	f	photo, pharmacy, pharaoh	_____
sc	s	science, scissors, scimitar	_____
sh	sh	sheep, shine, shock, shed	_____
th	tt	thick, Thursday, thanks	_____
th	th	this, that, there, the	_____
wh	w	what, why, where, wheel, whip	_____
wr	r	writing, wrestler, wrong	_____

FINAL:

<i>digraph:</i>	<i>sounds like:</i>	<i>for example:</i>	<i>my example(s):</i>
ch	ch	beach, coach, roach	_____
ck	k	black, track, pick, flock, luck	_____
gh	f	cough, trough, rough, enough, tough	_____
mb	m	comb, tomb, aplomb, plumb	_____
ng	ng	along, going, eating, meeting	_____
sh	sh	finish, trash, Spanish, fish	_____
th	tt	tooth, youth, bath, path	_____

2. Consonant Digraphs with Double Letters – MEDIAL:

<i>digraph:</i>	<i>sounds like:</i>	<i>for example:</i>	<i>my example(s):</i>
bb	b	robber, sobbing, hobble	_____
cc	k	soccer, occur, stucco	_____
dd	d	pudding, wedding, sadder	_____
ll	l	alluring, allied, balloon	_____
mm	m	summer, humming, immature	_____
nn	n	runner, annoy, announcement	_____
pp	p	opportunity, shopping, kipper	_____
rr	r	hurry, worried, curry, sorry	_____

Common Suffixes and What they Indicate

- A suffix comes at the end of a word.
- Suffixes are usually **unstressed**.
- Adding a suffix changes the word type, e.g. a noun changes into a verb.

Below are some examples of how a root word can change type when a suffix is added:

<u>Root Word</u>	<u>Word Type</u>	<u>+ Suffix</u>	<u>Changes to</u>	<u>Word Type</u>
believe	verb	-able	believable	adjective
participate	verb	-ant	participant	noun (person)
walk	verb (infin.)	-ed	walked	verb (past participle)
interfere	verb	-ence	interference	noun
teach	verb	-er	teacher	noun (person)
big	adjective	-er	bigger	adjective (comparative)
China	noun (country)	-ese	Chinese	adjective (nationality)
clever	adjective	-est	cleverest	adjective (superlative)
faith	noun	-ful	faithful	adjective
Russia	noun (country)	-ian	Russian	noun (person)
access	verb	-ible	accessible	adjective
beauty	noun	-ify	beautify	verb
watch	verb (infin.)	-ing	watching	verb (present participle)
memory	noun	-ise	memorise	verb
child	noun	-ish	childish	adjective
science	noun (abstract)	-ist	scientist	noun (common)
attract	verb	-ive	attractive	adjective
name	noun	-less	nameless	adjective
quiet	adjective	-ly	quietly	adverb
arrange	verb	-ment	arrangement	noun
happy	adjective	-ness	happiness	noun
cube	noun	-oid	cuboid	adjective
fame	noun	-ous	famous	adjective
cat	noun (singular)	-s	cats	noun (plural)
friend	noun (common)	-ship	friendship	noun (abstract)
revise	verb	-sion	revision	noun
maintenance	noun	-tain	maintain	verb
ten	number (cardinal)	-th	tenth	number (ordinal)
revolve	verb	-tion	revolution	noun

Other common suffixes

-an	-es	-in	-on	-um
-ane	-ess	-is	-or	-ure
-ar	-et	-ism	-our	-us
-ard	-ey	-it	-ow	-y
-cide	-ia	-ity	-phone	
-cy	-ic	-le	-ra	
-ect	-ical	-logy	-raphy	
-en	-ies	-o	-tain	
-ert	-im	-oir	-teen

Focus on Connected Speech

Suffixes and Word Stress

- Suffixes are **usually** unstressed.
- Words with the following suffixes are usually* stressed on **the syllable before the suffix** (shown in bold):

Suffix	Example #1	Example #2	Example #3	Example #4
-able	unbeliev-able	incon ceiv -able	unforgiv-able	accept-able
-age	advant-age	discour-age	percent-age	remarri-age
-ance	assist-ance	annoy-ance	reappear-ance	import-ance
-ancy	account-ancy	expect-ancy	redund-ancy	discrep-ancy
-ed	consult-ed	inflict-ed	present-ed	unexpect-ed
-ency	depend-ency	absorb-ency	complac-ency	inconsist-ency
-ent	independ-ent	insuffici-ent	correspond-ent	incandesc-ent
-eous	outrag-eous	courag-eous	simultan-eous	advantag-eous
-ial	colon-ial	bicentenn-ial	financ-ial	artific-ial
-ian	optic-ian	amphib-ian	mathematic-ian	vegetar-ian
-ible	incred-ible	collect-ible	incomprehens-ible	undigest-ible
-ic	encyclo ped -ic	microscop-ic	fantast-ic	problematic
-ical	illog-ical	econom-ical	philanthrop-ical	stereotyp-ical
-ify	overident-ify	demyst-ify	electr-ify	object-ify
-ious	rebell-ious	industr-ious	unostentat-ious	conscient-ious
-ity	commun-ity	believabil-ity	incomprehensibil-ity	respectabil-ity
-ment	content-ment	entertain-ment	engage-ment	underachieve-ment
-raphy	geog-raphy	biog-raphy	callig-raphy	photog-raphy
-sion	apprehen-sion	dimen-sion	incomprehen-sion	supervi-sion
-tion	infla-tion	interven-tion	informa-tion	contradic-tion
-ual	unus-ual	noncontract-ual	intellect-ual	multiling-ual

Exceptions to the rule

Words with the following suffixes are usually* stressed **on the suffix** (shown in bold):

Suffix	Example #1	Example #2	Example #3	Example #4
-ee	trust- ee	attend- ee	interview- ee	guarant- ee
-eer	ballad- eer	auction- eer	volunt- eer	engin- eer
-ese	journal- ese	Vietnam- ese	Portugu- ese	Canton- ese
-esque	Chaplin- esque	statu- esque	pictur- esque	Ruben- esque
-ess	steward- ess	lion- ess	poet- ess	manager- ess
-ette	launder- ette	usher- ette	kitchen- ette	maison- ette
-phobia	claustro- phobia	arachno- phobia	techno- phobia	xeno- phobia
-phobic	claustro- phobic	arachno- phobic	techno- phobic	xeno- phobic

* Note: there will be some exceptions, as with any rule in English!

Discussion Words with Suffixes in Elementary Book 2

Of the 201 individual words with two or more syllables, 156 (78%) have suffixes, which we know are almost always unstressed. This can help us as we try to work out the word stress for each discussion word. On this page you can see all of the words with suffixes, grouped by suffix. The main groups are shown in boxes, with suffixes shown in bold.

(Reference: *Talk a Lot Elementary Book 2*, pp.147-151)

Focus on Connected Speech

List of Noun/Verb Homographs

Homographs are words which are spelled the same, but have different meanings. They often have different sounds too.

The following two-syllable words can be used as either **nouns** (with the strong stress on the 1st syllable) or as **verbs** (with the strong stress on the 2nd syllable).

For example, the noun "transport" *Tran sport* – stressed on the 1st syllable – means **a method** of getting somewhere, whilst the verb "transport" *tran Sport* – stressed on the 2nd syllable – means **to take** somebody or something somewhere.

Note: the words are grouped by order of prefix. The main groups are shown in boxes, with prefixes shown in bold.

ally	implant	suspect
accent	import	torment

Talk a Lot

Focus on Connected Speech

Working Out Word Stress – Two-Syllable Words where the First Syllable is a Schwa: uh

There are many common two-syllable words in English – particularly verbs – where the first syllable is a schwa – uh – as you can see from the table below. **Because the schwa sound is always unstressed, we know for sure that these words all have the strong stress on the second syllable.**

Note that all of the words begin with the letter “a”, and notice the double consonant letters after many of the verbs, e.g. *affect*.

VERBS

abate	uh Beit
abet	uh Bet
abide	uh Baid
abort	uh Bort
abridge	uh Brij
abuse	uh Byooz
accord	uh Kord
accost	uh Kost
account	uh Kaunt
accuse	uh Kyooz
achieve	uh Cheev
acquaint	uh Kweint
acquire	uh Kwaivy
acquit	uh Kwit
adapt	uh Dapt
address	uh Dres
adjust	uh Just
adopt	uh Dopt
adore	uh Dor
affect	uh Fekt
affirm	uh Ferm
affix	uh Fiks
afflict	uh Flikt
afford	uh Ford
agree	uh Gree
alarm	uh Larm
alert	uh Lert
alight	uh Lait
allege	uh Lej
allow	uh Lau
allude	uh Lood
ally	uh Lai
amass	uh Mas
amaze	uh Meiz
amend	uh Mend
amuse	uh Myooz
announce	uh Nauns
annoy	uh Noy
annul	uh Nul

ADVERBS

aback	uh Bak
aboard	uh Bord
about	uh Baut
above	uh Buv
abreast	uh Brest
abroad	uh Brord
across	uh Kros
afar	uh Far
afield	uh Fiyld
afresh	uh Fresh
again	uh Gen
ago	uh Geu
aground	uh Graund
ahead	uh Hed
ajar	uh Jar
alike	uh Laik
aloft	uh Loft
alone	uh Leun
along	uh Long
aloud	uh Laud
amid	uh Mid
amok	uh Mok
among	uh Mung
anew	uh Nyoo
apart	uh Part
apiece	uh Pees
around	uh Raund
ashore	uh Shor
aside	uh Said
askew	uh Skyoo
asleep	uh Sleep
astray	uh Strei
astride	uh Straid
away	uh Wei
awry	uh Rai

NOUNS

abode	uh Beud
account	uh Kaunt
address	uh Dres
ado	uh Doo
affair	uh Feir
affront	uh Frunt
alarm	uh Larm
amount	uh Maunt
applause	uh Plorz

Let's learn the Clear Alphabet so that we can understand the differences between spelling and sounds in English and the wonders of connected speech!

From the Introduction: "The Clear Alphabet Dictionary is a tool to enable students of English to learn the new phonetic Clear Alphabet, so that they can use it confidently as a means to read, write, and understand the sounds of English – and as a result to pronounce words and sentences better."

Talk a Lot Clear Alphabet Dictionary will be useful for students at all levels:

<i>Student's Level:</i>	<i>Common European Framework (CEFR):</i>	<i>Cambridge Assessment:</i>	<i>IELTS Score:</i>
Basic User	to A1	KET	2.5 - 3
Elementary	to A2	KET	3.5 - 4
Pre-Intermediate	to B1	PET	4.5 - 5
Intermediate	to B2	FCE	5.5 - 6.5
Upper Intermediate	to C1	CAE	7 - 7.5
Advanced	to C2	CPE	8 - 9

About the Author:

Matt Purland is a lecturer in English Language. He has a BA Honours degree in Drama from the University of Wales and a Postgraduate Certificate in Further Education from the University of Derby. He has written more than 2,000 photocopiable worksheets for learning English. This is his thirteenth book. In 2002 he launched English Banana.com, which has become a hugely popular English language learning resource website.

So far, Talk a Lot books have been downloaded more than 900,000 times! Here are some recent comments from teachers about the Clear Alphabet:

'I think it can be very useful if we want to sound more "native".' Marija, Serbia

'I realised I started to pay attention to the native pronunciation in my speech and in my listening to others since I've started using the Clear Alphabet. I'd like to deal with it further and it would be nice if I could also teach it to others.' Kata, Hungary

Instructions

Thank you for downloading this free material from English Banana.com!

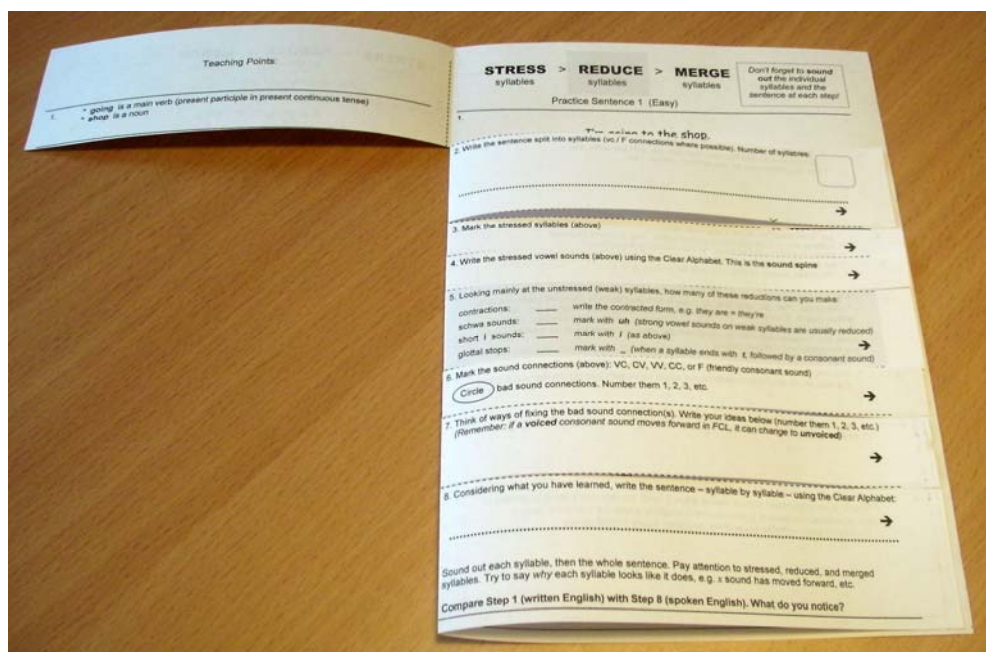

The aim of this pronunciation material is to give students an opportunity to practise working with connected speech in spoken English in a self-study environment. Students should work through each handout systematically, checking their answers at each step. Students will benefit because they will begin to see the patterns that repeat in this method time after time.

If you have any questions or comments, we'd love to hear from you! Please feel free to contact us here: info@englishbanana.com

The level of this material is: **Elementary** to **Pre-Intermediate**.

Method:

1. Print both pages of a set (e.g. Practice Sentence 1, pages 1 and 2) back to back, so that they are on either side of the same piece of paper.
2. Hold the page landscape way up and fold it in half in the middle.
3. Hold the page so that the English Banana.com logo is facing you, then cut along the dotted lines on the right-hand side of the page (see picture below).

4. Follow the instructions from step 1 to step 8. At the end of each step, turn over the flap to check your answers and read the accompanying notes.
5. Try to work methodically, completing one step at a time. Try not to read ahead! If you can't think of what to do, then turn over the flap to reveal the answer.

Notes for Teachers:

1. While the aim of this material is for students to work on their own and practise using connected speech away from the classroom, you could of course work through the different practice sentences *with* your student(s), guiding them through each point. This might be especially relevant if your students are new to connected speech and phonics. It could also be beneficial if you yourself are not familiar with this method of teaching pronunciation.
2. You could encourage your students to do follow-up activities linked to the different steps, e.g. after step 4. you could ask them to think of more content words that have the same stressed vowel sounds as in the practice sentence, and make a new sentence – or encourage them to think of (or find) another sentence that has the same stress pattern... and so on.
3. Another option is to use the 8-step process with your own sentence, using the blank template on page 25. Try to elicit all the answers and explanations from the student(s), while guiding them as necessary.
4. At the end of step 8 students are directed to compare the original written English version of the sentence with the spoken English version in Clear Alphabet. The question “What do you notice?” is intended to provoke discussion around the differences between the two forms, for example, which written letters are not pronounced. Or, are there any silent letters in the original spelling which are visible in the Clear Alphabet version? And so on.
5. On the back of each handout there are links to several free downloadable resources that might be useful to students who want to study this method further. *Talk a Lot Foundation Course*, in particular, will be helpful because it expands on this method in far more detail than the handouts can.

Final Note:

Enjoy working with stress, sounds, and connected speech! After a little practice you will soon find yourself unexpectedly hearing and noticing linking, elision, glottal stops, schwa sounds, and so on, in the normal everyday speech patterns of native English speakers – and then begin adding these features to *your* spoken English too!

Matt Purland

STRESS > **REDUCE** > **MERGE**
syllables syllables syllables

Don't forget to **sound out** the individual syllables and the sentence at each step!

Practice Sentence 1 (Easy)

1. Read the sentence out loud. Underline the content words:

I'm going to the shop.

2. Write the sentence split into syllables (vc / F connections where possible). Number of syllables:

3. Mark the stressed syllables (above)

4. Write the stressed vowel sounds (above) using the Clear Alphabet. This is the **sound spine**

5. Looking mainly at the unstressed (weak) syllables, how many of these reductions can you make:

- contractions: _____ write the contracted form, e.g. they are = they're
- schwa sounds: _____ mark with **uh** (strong vowel sounds on weak syllables are usually reduced)
- short i sounds: _____ mark with **i** (as above)
- glottal stops: _____ mark with **ʔ** (when a syllable ends with **t**, followed by a consonant sound)

6. Mark the sound connections (above): VC, CV, VV, CC, or F (friendly consonant sound)

bad sound connections. Number them 1, 2, 3, etc.

7. Think of ways of fixing the bad sound connection(s). Write your ideas below (number them 1, 2, 3, etc.)
(Remember: if a **voiced** consonant sound moves forward in FCL, it can change to **unvoiced**)

8. Considering what you have learned, write the sentence – syllable by syllable – using the Clear Alphabet:

Sound out each syllable, then the whole sentence. Pay attention to stressed, reduced, and merged syllables. Try to say *why* each syllable looks like it does, e.g. *x* sound has moved forward, etc.

Compare Step 1 (written English) with Step 8 (spoken English). What do you notice?

Fold →

We hope that you find this material helpful. There is an online version of this quiz that includes a clear reading of the sentence – both complete and broken down into syllables: <http://www.talkalotenglish.com>

Teaching Points:

1. * **going** is a main verb (present participle in present continuous tense)
* **shop** is a noun

2. * Only **going** has more than one syllable
* The word is broken between the verb **go** and the suffix **ing**
* **I'm** is pronounced as one syllable, *not* as **I am**

3. * **go** is stressed because it is a main verb
* suffixes are not usually stressed in English; **ing** is never stressed
* **shop** is a one-syllable noun, so the whole word is stressed

4. * **eu** is a diphthong; **o** is a short vowel sound
* The stress pattern in this sentence is: o O o o o O

5. * **I'm** is already a contraction
* The words **I'm**, **to**, and **the** all have their vowel sounds changed (reduced) to a schwa sound. If we pronounce these words with strong vowel sounds, i.e. **Aim**, **Too**, and **Thu**, these syllables become too strong and the stress pattern doesn't work. For stressed syllables to stand out, the other syllables must be weaker – there are no mountains without valleys!
* There is one short **i** sound, but no glottal stops, because no syllables end with **t**

6. * The only bad connection is the vv connection between **go** and **ing**
* The rest of the sound connections are either vc or with friendly consonant sounds (F)

7. * We always use intrusion with vv sound connections
* In this case **w** is the sound that occurs naturally when you finish saying **go**

8. * **shop** is a phonetic word – it looks like it sounds
* There is an embedded schwa sound after **t** and **th**. We don't need to write it in Clear Alphabet, because it is pronounced naturally when we say each sound
* Try saying each syllable separately, enjoying every sound slowly

STRESS > **REDUCE** > **MERGE**
syllables syllables syllables

Don't forget to **sound out** the individual syllables and the sentence at each step!

Practice Sentence 1 (Easy)

1. I'm going to the shop.

2. I'm go ing to the shop.

6

3. I'm / go ing to the shop.

4. I'm eu go ing to the o shop.

5. contractions: 0 I'm go ing to the shop.
schwa sounds: 3 uh uh uh
short i sounds: 1 i
glottal stops: 0

6. I'm go ing to the shop.
F 1 (vv) F vc vc

7. I'm go ing to the shop.
I (w)

8. uhm Geu wing t th Shop.

Teaching Points:

1.
 - * **do not** is stressed because it's a negative form
 - * **like** is a main verb (present simple)
 - * **wasting** is a gerund and **time** is a noun; together they form a noun phrase

2.
 - * Only **wasting** has more than one syllable
 - * The word is broken after the first vowel sound, to make a vc connection

3.
 - * The three stresses together on **do not like** make a strong emphatic statement
 - * **wasting** is stressed on the first syllable, because **ing** is a suffix
 - * The stress pattern is: o O O O o o

4.
 - * Say only the stressed vowel sounds in order: **oo, o, ai, ei, ai**
 - * The mix of long vowels, short vowels, and diphthongs in this sentence means your mouth has to move around a lot!

5.
 - * Although they are stressed syllables, **do not** would normally be contracted to **don't**
 - * There are no schwa sounds, perhaps due to the large number of stressed syllables (although in very fast speech the first word **I** could be reduced to a schwa)
 - * There is one short **i** sound – on the suffix **ing**
 - * A glottal stop replaces **t** at the end of the second syllable

6.
 - * There are two bad cc sound connections, which we need to change to vc or friendly connections (F)

7.
 1. We delete the problematic **t** sound (elision) and replace it with a glottal stop, which leaves a friendly sound connection. We add a glottal stop to give this important keyword a stronger emphasis
 2. We can't delete the **k** sound, so we move it forward (FCL). It's already an unvoiced consonant sound, so we don't need to change it

8.
 - * **sting** is a phonetic syllable – it looks the same in both normal and CA spelling
 - * Try saying each syllable separately, enjoying every sound slowly
 - * Practise saying the sentence with the first syllable reduced: **uh** instead of **ai**

STRESS > **REDUCE** > **MERGE**
 syllables syllables syllables

*Don't forget to **sound out** the individual syllables and the sentence at each step!*

Practice Sentence 3 (Easy)

1. I do not like wasting time.

2. I do not like wa sting time. 7

3. I / do / not / like / wa / sting / time.

4. I oo do o not ai like ei wa sting ai time.

5. contractions: 1 I don't like wa sting time.
 schwa sounds: 0
 short i sounds: 1 i
 glottal stops: 1 -

6. I don't like wa sting time.
 vc 1 (cc) 2 (cc) vc F

7. I don't like wa sting time.
 E/GS FCL

8. ai Deun_ Lai Kwei sting Taim.

Teaching Points:

1.
 - * **had** is a main verb (past simple)
 - * **great** is an adjective
 - * **weekend** is a noun

2.
 - * Only **weekend** has more than one syllable
 - * The word is broken after the first vowel sound to make a vc connection
 - * It's surprising how many common English words have only one syllable!

3.
 - * **weekend** is stressed on the second syllable
 - * **had** and **great** are one-syllable words, so the stress is on the whole word
 - * The stress pattern is regular: o O o O o O

4.
 - * **a** and **e** are short vowel sounds
 - * **ei** is a diphthong

5.
 - * **had** cannot be contracted as a main verb, only as an auxiliary verb
 - * The article **a** is usually pronounced as a schwa sound: **uh**
 - * We can reduce the vowel sound **ee** in **We** to a short **i** sound
 - * A glottal stop replaces **t** in **great** because the next sound is a consonant: **w**
 - * **wee** is not reduced because it's part of a 2-syllable compound noun, which usually keep the strong vowel sound on their weak syllable, e.g. daytime / **Dei taim**

6.
 - * There are two bad cc sound connections – a cv and a cc
 - * We need to change both of them to either vc or friendly connections (F)

7.
 1. We usually use FCL to change a difficult cv sound connection into an easy vc connection. In this case the **d** sound moves forward
 2. Because **t** is at the end of the syllable and the next sound is a consonant, we automatically delete the **t** (elision) and replace it with a glottal stop. Without the glottal stop the phrase would sound like “grey weekend” – **Grei wee Kend**

8.
 - * Try saying each syllable separately, enjoying every sound slowly
 - * The main keyword in this sentence is **great**, so you could put extra stress (emphasis) on this word

STRESS > **REDUCE** > **MERGE**
 syllables syllables syllables

Practice Sentence 4 (Easy)

Don't forget to **sound out** the individual syllables and the sentence at each step!

1. We had a great weekend.

2. We had a great wee kend.

6

3. We / had a / great wee / kend.

4. We a ei e
had a great wee kend.

5. contractions: 0 We had a great wee kend.
 schwa sounds: 1 uh
 short i sounds: 1 i
 glottal stops: 1 -

6. We had a great wee kend.
 vc 1 (CV) vc 2 (CC) vc

7. We had a great wee kend.
 FCL E/GS

8. wi Ha d Grei_ wee Kend.

1. Read the sentence out loud. Underline the content words:

I will pick up something for dinner. →

2. Write the sentence split into syllables (vc / F connections where possible). Number of syllables:

..... →

3. Mark the stressed syllables (above) →

4. Write the stressed vowel sounds (above) using the Clear Alphabet. This is the **sound spine** →

5. Looking mainly at the unstressed (weak) syllables, how many of these reductions can you make:

contractions: _____ write the contracted form, e.g. they are = they're

schwa sounds: _____ mark with **uh** (strong vowel sounds on weak syllables are usually reduced)

short i sounds: _____ mark with **i** (as above) →

glottal stops: _____ mark with **_** (when a syllable ends with **t**, followed by a consonant sound)

6. Mark the sound connections (above): VC, CV, VV, CC, or F (friendly consonant sound)

Circle bad sound connections. Number them 1, 2, 3, etc. →

7. Think of ways of fixing the bad sound connection(s). Write your ideas below (number them 1, 2, 3, etc.)
(Remember: if a **voiced** consonant sound moves forward in FCL, it can change to **unvoiced**) →

8. Considering what you have learned, write the sentence – syllable by syllable – using the Clear Alphabet: →

.....

Sound out each syllable, then the whole sentence. Pay attention to stressed, reduced, and merged syllables. Try to say *why* each syllable looks like it does, e.g. *x* sound has moved forward, etc.

Compare Step 1 (written English) with Step 8 (spoken English). What do you notice?

Teaching Points:

1. * **pick up** is a phrasal verb, meaning “get” or “buy”
* **dinner** is a noun
* **something** is a pronoun, so not a content word and not normally stressed

2. * **something** is broken between the two words of the compound pronoun, to make a friendly (F) connection
* **dinner** is broken after the first vowel sound to make a vc connection

3. * **pick up** is a phrasal verb, so it’s stressed on both parts
* **dinner** is a two-syllable noun with a suffix, so it must be stressed on the first syllable
* The stress pattern is: o o O O o o o O o

4. * The three stressed syllables are all short crisp vowel sounds

5. * In normal speech **I will** is usually contracted to **I’ll**
* The vowel sound **ai** in **I’ll** can be reduced to a schwa sound; the vowel sounds in the function words **some** and **for** are schwas – we want to be able to say them as quickly as possible; the suffix **er** is always pronounced as a schwa sound
* There is one short **i** sound on **thing**
* We don’t need glottal stops, because no syllable ends with **t** followed by a consonant sound

6. * There are two bad sound connections – 1 x cv and 1 x cc
* There are three friendly (F) connections thanks to the syllables that end with **l**, **m**, and **ng**

7. 1. We move the **k** sound forward (FCL) so that it begins the next syllable and a vc connection is made, which is much easier to pronounce than a cv connection
2. We can’t delete the **p** sound, so we have to move it forward to make the syllable: **psm**. It’s better for us to “front-load” consonant sounds at the beginning of a syllable than to have them at the end – unless they are friendly: **l**, **m**, **n**, or **ng**

8. * There is an embedded schwa sound between the **ps** and **m** sounds in **psm**. Practise saying this syllable a few times
* Focus on practising the weak syllables that have embedded schwa sounds: **psm, f, n**
* Make the stressed vowel sounds very short, crisp and loud: **Pi, Ku, Di**
* Some native speakers would stress the first syllable in something – **Sum tting** – either for emphasis, or to make the rhythm of the sentence more regular
* Try saying each syllable separately, enjoying every sound slowly

STRESS > **REDUCE** > **MERGE**
syllables syllables syllables

Don't forget to **sound out** the individual syllables and the sentence at each step!

Practice Sentence 5 (Easy)

1. I will pick up something for dinner.

© Copyright Matt Purland. **English Banana.com Free Copying Licence:** You may freely print, copy, adapt, distribute, sell, and give away this material, subject to our Free Copying Licence. Please visit <http://www.englishbanana.com> for full details

Teaching Points:

1.
 - * **passed** is a main verb (past simple)
 - * **exam** is a noun
 - * **yesterday** is an adverb

2.
 - * **passed** is pronounced as one syllable: **Parst**. The sound at the end is **t** not **d**
 - * **exam** is broken after the first vowel sound **e** to make a vc connection
 - * **yesterday** is broken after the first two vowel sounds, to make vc connections

3.
 - * The whole word **passed** is stressed; **exam** is stressed on the second syllable
 - * **yesterday** is usually stressed on the first syllable, but here it is stressed on the last
 - * By doing this, the stress pattern becomes nice and even: o O o o O o o O

4.
 - * There is a mix of stressed vowel sounds: **ar** is long, **a** is short, and **ei** is a diphthong

5.
 - * We can't contract verbs in past simple positive, because there is no auxiliary verb
 - * The weak syllable **e** in **exam** should be reduced to a schwa sound; the spelling **er** in a word, e.g. in **yesterday**, is always a schwa sound
 - * There are no short **i** sounds in the weak syllables
 - * Although the spelling is "ed" we know the sound is **t**, so there could potentially be a glottal stop here

6.
 - * There are two bad sound connections that we need to change: cc and vv
 - * The rest are easy vc or friendly (F) connections

7.
 1. We delete the **t** sound (elision) – the normal way out of this cc connection. We don't need to add a glottal stop because another consonant sound remains – **s** – which we need to move forward, leaving a vc connection. This makes **ai Par smai**, which is the same as **I pass my** (present simple). However, because we know the context – **yesterday** – our brain 'hears' and understands past simple: **I passed my**
 2. We use intrusion in vv connections; the sound at the end of **my** is **y**

8.
 - * Try saying each syllable separately, enjoying every sound slowly
 - * **I** could be pronounced as a schwa sound – **uh** – rather than the fuller form **ai**. Practise the sentence both ways
 - * The letter **x** is normally represented by the sounds: **ks**
 - * There are two embedded schwa sounds: **y** and **st**
 - * There isn't a weak form of the function word **my** in Standard Pronunciation, although in some regional accents, e.g. Midlands, it will be reduced to **mi**

Teaching Points:

1. * **appointment** is a noun
* **eight** is a number
* **clock** is a noun

2. * Only **appointment** has more than one syllable
* The word is broken after the first vowel sound to make a vc connection
* The second break is between the main word **appoint** and the suffix **ment**

3. * **appointment** is stressed on the middle syllable
* **eight** and **clock** are one-syllable words, so the stress is on the whole word
* The stress pattern is: o o O o o O o o

4. * **oy** and **ei** are diphthongs
* **o** is a short vowel sound

5. * The verb **was** cannot be contracted
* There are 5 schwa sounds: both unstressed syllables in **appointment**; **was** (main verb **be** is not usually stressed); the function word **at**, and **o'** in **o'clock**
* Because of the following vowel sound, the schwa in **the** changes to **ii** which can be reduced to **i**. * Glottal stops replace **t** at the end of three different syllables

6. * There are six bad cc sound connections – 1 x vv, 2 x cc, and 3 x cv. We need to change all of them to either vc or friendly connections (F)

7. 1. We add a **y** sound (intrusion) to make the connection vc; 2. & 3. We delete the **t** sound (elision) and add a glottal stop, to leave a friendly connection (F); 4. We change the **z** sound from **was** to **s** (assimilation) and move it forward to make a vc connection; 5. Here we *could* move the **t** sound forward: **uh Tei t Klok**, or use elision and a glottal stop: **w s_ Ei t Klok**; this second option feels more natural; 6. The **t** sound moves forward: **Ei t Klok**

8. * Five of the nine syllables have embedded schwa sounds – practise saying them:
y mn_ w s_ t
* Try saying each syllable separately, enjoying every sound slowly

© Copyright Matt Purland. **English Banana.com Free Copying Licence:** You may freely print, copy, adapt, distribute, sell, and give away this material, subject to our Free Copying Licence. Please visit <http://www.englishbanana.com> for full details

Teaching Points:

1. * **sent** is a main verb (past simple)
* **present** and **grandma** are nouns

2. * **present** is broken after the first vowel sound **e** to make a vc connection
* **grandma** is a short version of the compound noun "grandmother". It is broken between the two parts **grand** and **ma**, which seems like a logical place for a syllable break

3. * **sent** is stressed on the whole word; **present** is stressed on the main part, rather than the suffix; **grandma** is stressed on the first syllable, which is normal for compound nouns * The stress pattern is: o O o O o o o O o

4. * The stressed vowel sounds are all short, and two are the same, making a melodious assonance (repeating vowel sounds): **e e a**
* The final syllable keeps its long vowel sound **ar**; this is normal for compound words

5. * Verbs are not contracted in past simple positive, because there are no auxiliary verbs
* The article **a** is usually a schwa sound; the preposition **to** usually has a schwa, unless it's at the end of a clause; schwa sounds can often be heard in suffixes, for example **ent** in **present**
* There are two short **i** sounds: the vowel sound in **He** is reduced to **i** and the word **his** already has a short **i** sound
* There is one glottal stop – when we delete the **t** sound at the end of **present**

6. * There are four bad sound connections that we need to change: x1 cv and x3 cc connections

7. 1. The **t** sound moves forward, leaving a friendly (F) connection
2. We delete the **t** sound and replace it with a glottal stop **_**
3. The **z** from **his** moves forward and changes to its unvoiced form: **s** (assimilation)
4. We delete the **d** sound, leaving a friendly connection. It gets even easier if we change the **n** to **m**. *Extra change!* Although we can pronounce **t hi Sgram ma** with the vc connection, it's easier if we delete **h** from **his** and bridge the vv connection with **w**: **t wi Sgram ma**

8. * Try saying each syllable separately, enjoying every sound slowly
* When we move the **t** from **sent** forward, it includes the schwa sound from the word **a** as an embedded schwa sound
* It's far easier to pronounce a **w** sound after the embedded schwa in **t** than a **h** sound, which is why we delete the **h** in **his** and use intrusion
* Even though the two **m** sounds are the same in **Gram ma**, it's OK to pronounce both of them because the first is a friendly consonant sound

STRESS > **REDUCE** > **MERGE**

Teaching Points:

1. * **leave** is a main verb (imperative form)
* **car, side, and road** are nouns

2. * All of the words are one-syllable words

3. * The content words are all one-syllable words, so the stress is on the whole word
* The stress pattern is: O o O o o O o o O

4. * **ee** and **ar** are long vowel sounds, while **ai** and **eu** are diphthongs
* This is a nice selection of long vowel sounds, which will make your mouth work!

5. * There are no contractions in imperative form, because there isn't a subject – e.g. I, he, she, etc – or an auxiliary verb
* There are four schwa sounds; **the** usually has a schwa sound, as does **of**
* There are no short **i** sounds
* There are no glottal stops, because no syllables end with **t** with a following consonant sound

6. * There are three bad sound connections – 2 x cc and 1 x cv
* We need to change all of them to either vc or friendly connections (F)

7. 1. We can't delete the **v** sound, so we move it forward. However, because it's a voiced consonant moving forward in a cc connection, we must change it to its unvoiced form: **f** (assimilation). 2. This is a straightforward case of FCL – the **d** sound moves forward. 3. The **v** sound from **of** changes to unvoiced **f** (assim). We can't delete the **f** so we must move it forward to make a vc connection

8. * Read the sentence at normal speed. *Rest* on the stressed syllables, but try to pronounce the unstressed syllables as quickly as possible
* **by** is a function word that can't be reduced and is pronounced with a diphthong sound: **bai**
* **side of the** becomes **Sai d fth**. It's much easier to say it quickly like this. The **d** sound has an embedded schwa sound – the schwa sound from the word **of**
* Try saying each syllable separately, enjoying every sound slowly

Teaching Points:

1.
 - * **niciest** is a superlative adjective
 - * **thing** is a noun
 - * **ever** is an adverb
 - * **done** is a past participle verb

2.
 - * **niciest** and **ever** are both broken after the stressed vowel sound to give a vc sound connection
 - * **That's** and **you've** are contractions. Each is pronounced as one syllable

3.
 - * **niciest** and **ever** are both stressed on the first syllable, because we don't usually stress suffixes
 - * **thing** and **done** are one-syllable words, so the whole word is stressed

4.
 - * **ai** is a diphthong
 - * **i**, **e**, and **u** are short vowel sounds
 - * The stress pattern in this sentence is quite regular: o o O o O o O o O

5.
 - * **That's** and **you've** are already contractions (from "That is" and "you have")
 - * The function words **the** and **you've** have their vowel sounds reduced to a schwa sound, as do the suffixes **est** and **er**
 - * There are no short **i** sounds
 - * There are potentially two glottal stops – in **That's** and **est** because of **t** followed by a consonant sound

6.
 - * There are three bad sound connections out of a total of eight: 2 x cc and 1 x cv
 - * There are four good vc sound connections, and one with a friendly consonant sound: **ng**

7.
 1. **s** moves forward (FCL), but a cc connection remains, so we delete the **t** sound (elision) and replace it with a glottal stop, to make a vc connection
 2. We delete **t** (elision), but cc remains, so we move **s** forward (FCL), to make a vc connection. This makes a glottal stop unnecessary
 3. **v** can't be deleted, so it has to move forward, leaving a vc connection

8.
 - * Try saying each syllable separately, enjoying each sound slowly
 - * Try to say the stressed syllables more loudly and the unstressed syllables more softly
 - * Practise saying the syllables with embedded schwa sounds: **sth**, **s**, **y**, **v**

STRESS > **REDUCE** > **MERGE**
 syllables syllables syllables

Don't forget to **sound out** the individual syllables and the sentence at each step!

Practice Sentence 10 (Medium)

1.

That's the niciest thing you've ever done.

2.

That's the ni cest thing you've e ver done.

9

3.

That's the / ni cest / thing you've / e ver / done.

4.

That's the ai ni cest i thing you've e ver u done.

5.

contractions:	0	That's	the	ni	cest	thing	you've	e	ver	done.
schwa sounds:	4		uh		uh		uh		uh	
short i sounds:	0									
glottal stops:	2		-							

6.

That's the ni cest thing you've e ver done.

1 (cc) vc vc 2 (cc) F 3 (cv) vc vc

7.

That's the ni cest thing you've e ver done.

FCL/E/GS E/FCL FCL

8.

tha_ sth Nai s Stting y Ve v Dun.

STRESS > **REDUCE** > **MERGE**
 syllables syllables syllables

*Don't forget to **sound out** the individual syllables and the sentence at each step!*

Practise Stress and Connected Speech in English

1. Write a phrase or sentence (8-10 syllables maximum). Read it out loud. Underline the content words:

2. Write the sentence split into syllables (vc / F connections where possible). Number of syllables:

3. Mark the stressed syllables (above)

4. Write the stressed vowel sounds (above) using the Clear Alphabet. This is the **sound spine**

5. Looking mainly at the unstressed (weak) syllables, how many of these reductions can you make:

- contractions: _____ write the contracted form, e.g. *they are = they're*
- schwa sounds: _____ mark with **uh** (strong vowel sounds on weak syllables are usually reduced)
- short **i** sounds: _____ mark with **i** (as above)
- glottal stops: _____ mark with **_** (when a syllable ends with **t**, followed by a con. sound)

6. Mark the sound connections (above): VC, CV, VV, CC, or F (friendly consonant sound)

Circle bad sound connections. Number them 1, 2, 3, etc.

7. Think of ways of fixing the bad sound connection(s). Write your ideas below (number them 1, 2, 3, etc.)
*(Remember: if a **voiced** consonant sound moves forward in FCL, it can change to **unvoiced**)*

8. Considering what you have learned, write the sentence – syllable by syllable – using the Clear Alphabet:

.....

Sound out each syllable, then the whole sentence. Pay attention to stressed, reduced, and merged syllables. Try to say *why* each syllable looks like it does, e.g. *x* sound has moved forward, etc.

Compare Step 1 (written English) with Step 8 (spoken English). What do you notice?
